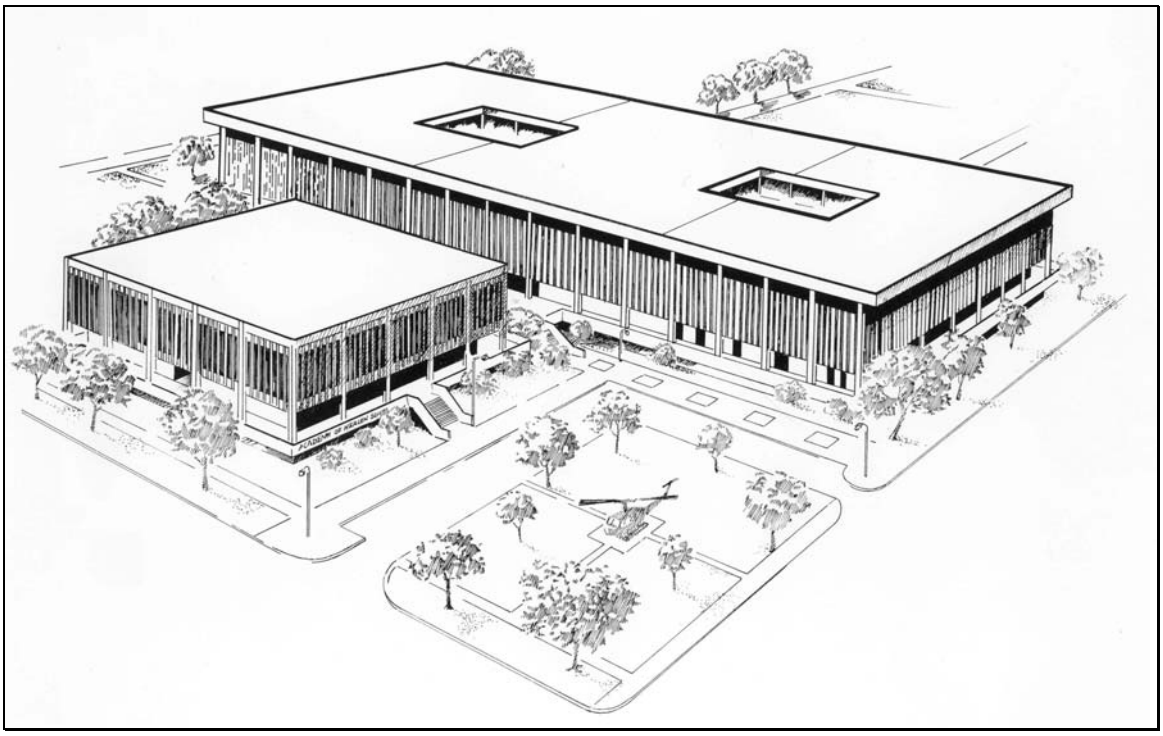
COURSE CATALOG
2009



AMEDDC&S, FT SAM HOUSTON

VISION

"We train, educate, sustain, and evaluate the Army's Medical Force (Total Army, DoD, and international students) to be premier "Soldier Medics" in support of Force XXI and the Army After Next. At the same time, we leverage technology to encompass distance learning and cutting edge technology. We support this mission with an Academic Center of Excellence."

Accredited by the

Council on Occupational Education

&

U.S. Army Training and Doctrine Command

Prepared by:
Department of Academic Support and Quality Assurance
U.S. Army Medical Department Center and School
2250 Stanley Road, Building 2840
Ft Sam Houston, TX 78234

GENERAL INFORMATION

The Academy of Health Sciences (AHS) was originally established in June 1920 at Carlisle Barracks, Pennsylvania, as the Medical Field Service School. In the Spring of 1946, the school moved to Ft Sam Houston, Texas. For many years the school was headquartered in the Quadrangle area on Stanley Road. In December of 1972, it was relocated to its present site on Ft Sam Houston, occupying a modern complex featuring multidisciplinary laboratories, staff and faculty offices, classrooms, and academic support units such as resource centers and student lounge areas.

The AHS was assigned to the U.S. Army Health Services Command effective 1 April 1973, and on 1 July 1991, the Academy was re-designated as the U.S. Army Medical Department Center and School (AMEDDC&S). The AMEDDC&S became a subordinate command of the U.S. Army Medical Command in October 1994. The following year, the organization assumed command and control of the U.S. Garrison, Ft Sam Houston.

Since its establishment nearly 60 years ago, the AMEDDC&S has become the largest military school of allied health in the free world. Annually, it trains nearly 25,000 students in resident courses and another 15,000 in correspondence work. With the technological advances and advent of distance learning initiatives, the number of students trained will increase significantly.

In addition to its facilities at Ft Sam Houston, which include the AMEDD NCO Academy and the Defense Medical Readiness Training Institute, the AMEDDC&S operates the U.S. Army School of Aviation Medicine, Ft Rucker, Alabama and over 40 Phase 2 and external course training sites. Instruction at the AMEDDC&S covers the entire Army Medical Department spectrum to include: Medical Corps, Dental Corps, Army Nurse Corps, Veterinary Corps, Medical Service Corps, Army Medical Specialist Corps, AMEDD Noncommissioned Officers Corps, and all enlisted medical military occupational specialties. Courses are also available to qualified Department of Defense civilian, other Services, and foreign military and civilian personnel.

The AMEDD conducts specialized training through the Professional Postgraduate Short Course Program. This training provides continuing education opportunities for officers and enlisted personnel to promote leader development, readiness, and technological clinical competency in support of the AMEDD world class Healthcare system.

For additional information on courses, click on the ATRRS Information button to the right of each course; or go to the Army Training Requirements and Resources System (ATRRS) Web site at:

NEW COURSES

2G-F92/521-F77
CADRE TRAINING

ATRRS Information

Location School Code: 081 **Length: 1 week**

Description: The TRADOC Initial Entry Training (IET) Cadre Training course is a mandatory resident course designed to familiarize cadre with the IET environment, organization, policies and procedures, leadership training, evaluation, performance management, and administration.

SPECIAL INFORMATION: Students need to have their own transportation while attending this course. Dining facilities are not within walking distance of billets; post transportation is insufficient to support mess requirements.

300-F39
WTU TRIAD TRAINING FOR SQD LDRS & PSGS

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: The course scope includes standardized curriculum in the following subject areas: Overview of the WTU; Risk Communication; Sensitivity Training; Performance Enhancement tools from the Army Center for Enhanced Performance; Pain Management; Suicide Prevention and Intervention; PTSD/TBI; Battlemind Resiliency; Drug and Alcohol Awareness; Army Physical Disability Evaluation System; Command & Control; Cultural Adaptability; Basic Medical Terminology; Psychological Health Readiness; and Counseling Skills.

Special Information: Must be assigned or on orders for assignment as a squad leader or platoon sergeant in a Warrior Transition Unit or Community Based HealthCare Organization (CBHCO). Portions of this course will be conducted jointly with two other courses: 6E-F2 (Warrior Transition Unit Triad Training Course for Nurse Case Managers) and 6A-F18 (Warrior Transition Unit Triad Training Course for Primary Care Managers).

WTU CERTIFICATION WILL NOT BE CONSIDERED COMPLETE UNTIL BOTH THE DISTRIBUTED LEARNING COURSE, 6I-F8/300-F36, AND THE RESIDENT COURSE, 300-F39, ARE SUCCESSFULLY COMPLETED.

6A-F18
WTU TRIAD FOR PRIMARY CARE MANAGERS

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: The course scope includes standardized curriculum in a variety of subject areas to include: Overview of the WTU; Risk Communication; Sensitivity Training; Performance Enhancement tools from the Army Center for Enhanced Performance; Psychological Health Readiness; Army Physical Disability Evaluation System, Profiling, Narrative Summaries, and other subject areas as needed or required.

Special Information: Must be assigned or on orders for assignment as a Primary Care Manager in a Warrior Transition Unit or Community Based HealthCare Organization (CBHCO).

Portions of this course will be conducted jointly with two other courses: 6E-F2 (Warrior Transition Unit Triad Training Course for Nurse Case Managers); and WTU-TBD (Warrior Transition Unit Triad Training Course for Squad Leaders and Platoon Sergeants).

WTU CERTIFICATION WILL NOT be considered complete until both the distributed learning course, 6I-F8/300-F36, and the resident course, 6A-F18, are successfully completed.

6E-F2
WARRIOR TRANSITION UNIT NURSE CASE MANAGEMENT

ATRRS Information

Location School Code: 555 **Length: 2 weeks**

Description: This is a distributed learning prerequisite: 6I-F8/300-F36, Warrior Transition Unit Cadre Orientation. The distributed learning Phase 1 of this course SHOULD be completed prior to attendance of Phase 2.

Special Information: This course is specifically for Nurse Case Managers (NCM) assigned, or being assigned, to the Warrior Transition Unit. A portion of this resident phase will be conducted congruent with other members of a WTU Triad (Squad Leaders and Platoon Sergeants, and Primary Care Managers), enrolled in courses 300-F39 and 6A-F18. Phase 1 of this course is a distributed learning requirement. There is also a prerequisite distributed learning course: 6I-F8/300-F36.

WTU Certification will not be considered complete until all phases and prerequisites are successfully completed.

6E-F2
WTU TRIAD TRAINING COURSE NURSE CASE MANAGERS

ATRRS Information

Phase: 2

Location School Code: 081 **Length: 2 weeks**

Description: The course scope includes standardized curriculum in distributed learning and resident training formats. The distributed learning course serves as an introduction to case management roles and responsibilities, and covers some important content about your patient population in the Warrior Transition Unit. The course has the following components: a) Case Management, Module 1; b) Case Management, Module 2; c) Ambulatory Care Guidelines; d) Utilization Management 101; e) Post Traumatic Stress Disorder (PTSD) 101; f) PTSD for the Primary Care Clinician focusing on OIF/OEF returnees, g) Neurobiology and Pharmacotherapy for PTSD, h) Combat Stress Injuries, and i) Traumatic Brain Injury. The resident training includes standardized curriculum in the following subject areas: Overview of the WTU; Risk Communication; Sensitivity Training; Performance Enhancement tools from the Army Center for Enhanced Performance; Psychological Health Readiness; WTU Nurse Case Manager role-specific training, and other subject areas as needed or required.

Special Information: This course is specifically for Nurse Case Managers (NCM) assigned, or being assigned, to a Warrior Transition Unit. A portion of this resident phase will be conducted congruent with other members of a WTU Triad (Squad Leaders and Platoon Sergeants, and Primary Care Managers), enrolled in courses 300-F39 and 6A-F18. Phase 1 of this course is a distributed learning requirement. There is also a prerequisite distributed learning course: 6I-F8/300-F36. WTU CERTIFICATION WILL NOT be considered complete until all phases and prerequisites are successfully completed.

6I-F8/300-F36
WARRIOR TRANSITION UNIT CADRE ORIENT (DL) (P) Phase 1

ATRRS Information

Location School Code: 555 **Length: 4 days**

Description: This course serves as an overview of support, organization, roles, and responsibilities of the Warrior Transition Unit Cadre, which prepares cadre for leadership of the Warriors in Transition Unit (WTU). WTU establishes conditions for healing and promoting the timely return to the force or transition of Warriors to

civilian life. It is designed to provide training in various topics needed to assist the Warriors and their families in their transition.

Special Information: REGISTRATION: is through ATRRS self-development portal at https://atrrs.army.mil/selfdevctr

ACCESS: The course materials are delivered via the Army Learning Management System. To access the course materials, go to AKO, Self-Service, My Training Page, and click on the ALMS link or logo. Once registered in the ALMS, the course materials will be available within 24 hours and will appear under your "Training" tab at the "Current Enrollments" page within ALMS. Additional course instructions for completing and receiving appropriate credit documentation are provided in the letter of instruction with the course materials.

LAUNCHING COURSE: Before attempting to launch this courseware in the ALMS, configure the settings on your machine. Please refer to the "Army Learner Log-in instructions" located at http://www.dls.army.mil/lms_training.html

6I-F8/300-F36
WARRIOR TRANSITION UNIT CADRE ORIENTATION (P)

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: This course serves as an overview of support, organization, roles, and responsibilities of the Warrior Transition Unit Cadre, which prepares cadre for leadership of the Warriors in Transition Unit (WTU). WTU establishes conditions for healing and promoting the timely return to the force or transition of Warriors to civilian life. It is designed to provide training in various topics needed to assist the Warriors and their families in their transition.

Special Information: There is no special information.

J3AIRTXXXX 01BA
BASIC INSTRUCTOR COURSE

ATRRS Information

Location School Code: 883 **Length: 5 weeks 5 days**

Description: All Army Instructors assigned to Air Force Schools must complete this course.

This course provides training for faculty personnel. The scope of training identifies the principles of learning, interpreting the proficiency code key, objectives, and subjects relative to measurement.

Special Information: Army personnel assigned to Air Force schools as instructors will be scheduled for this course through Human Resources Command. Enlisted POC - (703) 325-4597, Officer POC - (703) 325- 3159.

A-6A-0010
MEDICAL DIVING OFFICER

ATRRS Information

Location School Code: 894 **Length: 9 weeks**

Description: segment I of instruction includes diving physics, hyperparic physiology, hyperparic medicine, gas toxicities and physical qualifications for diving. Classroom and in-chamber instruction are included. Segment II=segment I plus scuba diving procedures, scuba diving instruction and qualification dive to 130 feet. Segment III = segments I and II plus surface-supplied deep-sea diving systems (air and HEO2) and lightweight diving systems. Qualification dive to 190 feet.

Special Information: There is no Special Information.

DEPARTMENT OF CLINICAL SUPPORT SERVICE (DCSS)

http://www.dcss.cs.amedd.army.mil/

311-68K10
MEDICAL LAB SPEC Phase: 1

ATRRS Information

Location School Code: 081 **Length: 26 weeks**

Description: The course provides graduates with technical skills necessary to achieve medical laboratory technician entry-level competencies, and meets basic personnel requirements of the Clinical Laboratory Improvement Amendments of 1988 and the DoD Clinical Laboratory Improvement Program. Graduates are qualified to take certification examinations as medical laboratory Technicians. The 68K training program is 52 weeks, a Phase 1 (26 weeks) resident portion at the Academy of Health Sciences and a Phase 2 (26 weeks) clinical practicum conducted at military hospitals. Curriculum includes clinical chemistry, hematology, immunohematology, immunology, microbiology, parasitology, mathematics, and safety. Instruction during Phase 1 is presented through conferences, discussions, case studies, demonstrations, practical exercises, and written and practical examinations. During Phase 2, students achieve psychomotor proficiency through structured hands-on training in a clinical setting. Graduates earn MOS 68K or NEC 8506. Upon successful completion of the course, graduates are awarded MOS 68K10.

Special Information: Reserve Component Soldiers will arrive at Ft Sam Houston with the following items MPRJ 201 file, Medical Record, Dental Record and complete basic clothing issue, to include running shoes.

This is an inter-service course and the Navy Enlisted Code (NEC) is 8506.

DoD civilians must submit a DA1556 requesting attendance at this course. The Unit of assignment for DoD civilians will incur all costs associated with attendance at this course.

AA and RC Soldiers must submit DA Form 4187, ERB, DA Form 2-1, transcripts, letters of recommendations from the chain of command, and the laboratory officer evaluating applicant's potential and ability to complete this course.

National Guard and Army Reserve SSGs' will receive a certificate of completion for attending this course, additional skill level 30 training is required to be awarded the MOS.

All requests for waivers must be submitted to: CDR, AMEDD Center & School, AMEDD Personnel Proponent Directorate, ATTN: MCCS-DE, 2427 Hood Street, Ft Sam Houston, TX 78234-7584.

311-68K10
MEDICAL LAB SPEC Phase: 2

Location School Code: 830, 831, 834, 835, 836, 837, 839, 840, 842, 843, 844, 845, 849, 850, 851, 856, 857, 860, 861, 862, 863, 864 **Length: 26 weeks**

Description: The course provides graduates with technical skills and knowledge required to achieve medical laboratory technician entry-level competencies, and meets basic personnel requirements of the Clinical Laboratory Improvement Amendments of 1988 and the DoD Clinical Laboratory Improvement Program (CLIP). Graduates may receive up to 60 semester hours from George Washington University and are qualified to take certification examinations as medical laboratory technicians

The training program includes a Phase 1 resident portion at the Academy of Health Sciences and a Phase 2 clinical practicum conducted at military hospitals. Curriculum includes clinical chemistry, hematology, immunohematology, immunology, microbiology, parasitology, mathematics, and safety. Instruction during Phase 1 is presented through conferences, discussions, demonstrations, performance exercises, written and performance examinations, and culminates with a field training exercise. During Phase 2, students achieve psychomotor proficiency through structured hands-on training in a clinical setting. Graduates earn MOS 68K.

Special Information: Special information for the course is addressed in the 311-68K10 Phase 1 Program of Instruction. Phase 2 is the performance-based application of technical skills and knowledge learned during Phase 1; the Phase 2 training program is designed to bridge the gap between theory and practice.

311-M2
CYTOLOGY SPECIALTY

ATRRS Information

Location School Code: 081 **Length: 50 weeks**

Description: The course provides ongoing opportunities for the evaluation of cellular elements. Cells are derived from a variety of sources to include the female genital tract, the respiratory system, breast secretions, and body cavity effusions. Students learn to recognize normal, inflammatory, benign, and malignant conditions by analyzing cellular changes and to make initial judgments regarding etiology and severity of change. The course consists of a combination of didactic and clinical training. Progress during the course depends upon the understanding of concepts developed using conferences, visual examples, and microscopic review. Upon successful completion of the course, graduates are awarded ASI M2 (Army), NEC 8505 (Navy).

Special Information:

1. Pregnancy is a precluding factor for eligibility for this program and for the Army, if the Soldier becomes pregnant while still in the course, the Soldier may be subjected to administrative separation IAW AR 623-200, Chap 11-3.

2. Course curriculum complies with requirements and recommendations of the American Society of Cytopathology and the Commissions on the Accreditation of Allied Health Education Programs (CAAHEP)

3. Training is available to Navy Personnel who meet or satisfy the course prerequisites and meet the service-specific requirements addressed in Navy CANTRAC.

4. Qualified DoD civilians assigned to MEDDACs and MEDCENs may apply to attend the course. The applicant's parent unit will incur all training costs.

5. Course graduates are eligible to receive baccalaureate degrees from regionally accredited colleges and universities upon course completion and are eligible to take the American Society of Clinical Pathologists Registry Examination in Cytotechnology. Upon successful completion of the course and meeting all Board of Registry requirements of the American Society of Clinical Pathologists (Cytotechnologists), the ASI M2 or the NEC 8505 will be awarded.

312-68Q10
PHARMACY SPECIALIST

ATRRS Information

Location School Code: 081 **Length: 19 weeks**

Description: Entry level pharmacy technician training provides a working knowledge of drugs, their sources, preparation, uses, incompatibilities, and doses; pharmaceutical symbols and terms; drug storage and control

procedures; dispensing procedures; interpretation of sterile product orders; use of necessary equipment, supplies, and references. Subjects include pharmacy administration, pharmaceutical calculations, chemistry, therapeutics, pharmacology, characteristics and design of an aseptic work environment, hospital pharmacy practices, quality control principles and procedures, pharmaceutical and sterile products preparation. Training is supervised by a pharmacy officer (AOC 67E) or Medical Corps Officer. The course also includes introductory and reinforcement defense training in Chemical, Biological, Radiological, Nuclear, and Explosives (CBRNE), to respond to terrorist threat or attack.

Conduct rigorous and relevant training on twenty-six Warrior Ethos tasks and integrate tactical and technical skills through nine warrior drills as part of the Army-wide AIT sustainment training for warrior skills to ensure survivability in the contemporary operating environment. Students will be awarded the 68Q MOS, upon successful completion of course.

Special Information: Reserve Component Soldiers will arrive at Ft Sam Houston with the following items MPRJ 201 file, Medical Record, Dental Record and complete basic clothing issue, to include running shoes.

Active Army utilize DA Form 4187 and include DA Form 2A, DA Form 2-1, and letters of recommendation from the chain of command evaluating the Soldier's potential and ability to complete the course to CDR, PERSCOM TAPC-EPT-F, 2461 Eisenhower Ave. Alexandria, VA. 22331-0400.

National Guard and Army Reserve SSGs' will receive a certificate of completion for attending this course, additional skill level 30 training is required to be awarded the MOS.

All requests for waivers must be submitted to: CDR, AMEDD Center & School, AMEDD Personnel Proponent Directorate, ATTN: MCCS-DE, 2427 Hood Street, Ft Sam Houston, TX 78234-7584.

NOTE: This course is accredited by the American Society of Health Systems Pharmacists.

High school or college transcripts are required when reporting to the AMEDDC&S, so successful completion of required courses can be verified.

313-68P10
RADIOLOGY SPECIALIST Phase: 1

ATRRS Information

Location School Code: 081 **Length: 24 weeks**

Description: Phase 1 (24 weeks): Provides skill and knowledge training in radiography principles, with emphasis on radiographic procedures, principles of radiographic exposure, radiation protection, imaging equipment and techniques, radiographic film processing, evaluation of radiographs, and quality assurance. Foundational didactics include radiation biology, radiation physics, human structure and function, medical terminology, concepts of patient care, radiographic pathology, medical ethics and law, the role of radiography in the Healthcare delivery system, and computer literacy. This phase includes laboratory practical exercises designed to test the validity of theories and concepts presented in the classroom. Manual skills are developed, refined and evaluated prior to clinical application. Upon successful completion of the course, graduates are awarded MOS 68P.

Special Information: Reserve Component Soldiers will arrive at Ft Sam Houston with the following items MPRJ 201 file, Medical Record, Dental Record and complete basic clothing issue, to include running shoes.

DoD civilians must submit a DA1556 requesting attendance at this course. The Unit of assignment for DoD civilians will incur all costs associated with attendance at this course.

AA and RC Soldiers must submit DA Form 4187, ERB, DA Form 2-1, transcripts, and letters of recommendations from the chain of command.

National Guard and Army Reserve SSGs' will receive a certificate of completion for attending this course, additional skill level 30 training is required to be awarded the MOS.

All requests for waivers must be submitted to: CDR, AMEDD Center & School, AMEDD Personnel Proponent Directorate, ATTN: MCCS-DE, 2427 Hood Street, Ft Sam Houston, TX 78234-7584.

313-68P10
RADIOLOGY SPECIALIST Phase: 2

Location School Code: 830, 831, 834, 835, 836, 837, 839, 840, 842, 843, 845, 847, 848, 849, 850, 851, 857, 860, 861, 862, 863, 864, Length: 22 weeks

Description: Phase 2 (22 weeks): Applicatory clinical training under the supervision of qualified radiographers and radiologists at selected U.S. Army medical facilities. Emphasis is to acquire competency in performing procedures/exams on actual sick and injured patients.

Special Information: Students who successfully complete Phase 1 are allowed to proceed to Phase 2 for their patient contact experiences in a true clinical setting. Phase 2 gives the student opportunities to apply those theories and concepts learned while in residence at the Academy of Health Sciences. The participating MTFs are selected as training sites based on their ability to provide effective administrative support, a variety of clinical experiences, training support in use of radiographic equipment and supplies, and qualified staff to supervise and instruct. Radiographic technologists serving as clinical instructors at the clinical sites are required to hold credentials with the American Registry of Radiologic Technologist (ARRT). A 1:1 instructor ratio must be maintained by the Phase 2 medical treatment facility The Radiology Branch, AHS, assigns a faculty member to serve as Class Advisor, the point of contact and liaison to the clinical training sites.

313-F1
RADIOLOGY MANAGEMENT COURSE Phase: 2

ATRRS Information

Location School Code: 081 Length: 1 week

Description: Provides supervisor/management training specific to a Radiology Department at a fixed medical facility (TDA) or Radiology mission in a deployable medical facility (TO&E). Topics include management of human and materiel resources, principles of planning and organizing Radiology operations; quality assurance; risk management; leading edge medical imaging technology; information technology; and management of the clinical training component of the Radiology Specialist Course. The course also includes introductory and reinforcement training in CBRNE.

Special Information: Individual quotas are managed by the teaching proponent, Radiology Branch, Department of Clinical Support Services, Academy of Health Sciences. Forward applications to: Department of Clinical Support Services, ATTN: MCCS-HCR, Academy of Health Sciences, 3151 Scott Road, Suite 1311, Ft Sam Houston, TX 78234-6137, no later than 60 days prior to the start date of the course. The individual's unit is responsible for funding RC Soldiers.

6H-71E67
CLINICAL LABORATORY OFFICER

ATRRS Information

Location School Code: 836 **Length: 50 weeks**

Description: The course prepares Medical Service Corps Officers with the required educational qualifications to become Clinical Laboratory Officers. The curriculum follows the guidelines and recommendations of the National Accrediting Agency for Clinical Laboratory Sciences (NAACLS). Students who successfully complete the post-baccalaureate certification program are eligible to take the national certification examinations administered by the National Certifying Agency for Clinical Laboratory Personnel (NCA) or the Board of Registry of the American Society for Clinical Pathology (ASCP). Successful candidates become certified as Clinical Laboratory Scientist, CLS (NCA) or Medical Technologist, MT (ASCP). Areas of study include clinical chemistry, urinalysis, hematology, immunohematology and transfusion services, diagnostic immunology, bacteriology, parasitological, laboratory management, and other related subjects. Types of instruction include conferences and lectures, discussions, demonstrations, case studies, supervised practical exercises, quizzes, and practical and written examinations, Course graduates earn AOC 71E67.

Special Information: The bachelor degree coursework must include a minimum of 36 semester hours in biological sciences, chemistry and mathematics. The 36 semester ours must include a minimum of: 16 semester hours in the biological sciences, to include 8 semester hours in general biology, zoology or botany, 4 semester hours in general microbiology and 4 semester hours in genetics, anatomy or physiology; 16 semester hours of chemistry, to include 8 semester hours in organic chemistry, biochemistry or physical chemistry; 3 semester hours in mathematics, to include pre-calculus, calculus or trigonometry. AC commissioned officers incur an ADSO three times the length of schooling, computed in days, per AR 350-100.

6H-F19
NUCLEAR PHARMACY ORIENTATION

ATRRS Information

Location School Code: 836 **Length: 1 week**

Description: Provides training in nuclear pharmacy principles and techniques, including a basic orientation in the use and safe handling of radioisotopes currently employed in the production of radiopharmaceuticals. Instruction covers nuclear pharmacy services and related support services; nuclear pharmacy operations and management; radiopharmaceuticals, radiological health management, nuclear medicine studies, and nuclear physics.

Special Information: A certificate of completion, which may be entered in the Officer Record Brief, is awarded to graduates. A student does not graduate unless they meet the Student Evaluation Plan requirements.

6H-F21
HEMATOLOGY/ONCOLOGY PHAR SERVICES

ATRRS Information

Location School Code: 836 **Length: 1 week**

Description: This course provides a basic orientation on the use, handling, preparation, and administration of standard and investigational chemotherapeutic agents employed in support of hematology/oncology patients, and a basic understanding of the roles and responsibilities of oncology pharmacists. Major areas of instruction are chemotherapy order verification; drug storage and preparation; techniques of administration; program administration; and quality control. Special emphasis is placed on procedures and methods for handling/administering investigational agents and research protocol compliance. An examination of human use review procedures is included.

Special Information: A certificate of completion, which may be entered in the Officer Record Brief, is awarded to participants who satisfy the requirements stated in the course Student Evaluation Plan.

6H-F29 / 311-F2
DEFENSE BLOOD STANDARD SYSTEM

ATRRS Information

Location School Code: 081 **Length: 4 days**

Description: The DBSS allows management of blood program operations such as collecting, manufacturing, testing, processing, freezing, storing, shipping, distributing, and issuing blood and blood products for infusion or destruction. The DBSS supports blood donor centers, transfusion services, and blood processing and shipment centers of all three services for peacetime, theater and homeland defense support.

Special Information: Student must complete their FDA required CBT User Training prior to arriving for this course.

B-311-0016
CLIN NUCLEAR MED SPECIALTY (68PM5) Phase: 1

ATRRS Information

Location School Code: 873 **Length: 20 weeks**

Description: Phase 1 (20 weeks): Conducted at the Naval School of Health Sciences, Bethesda, MD; U.S. Navy proponency. Provides the basic knowledge and skills required to operated and maintain clinical nuclear medicine instrumentation and to perform computer analysis. Will enable SM to assist medical officers in preparing and conducting clinical nuclear medicine INVIVO and INVITRO procedures, and to assist in organizing and administering Nuclear Medicine Clinics. Includes instruction in basic and advanced technical mathematics, basic chemistry, radiation instrumentation and radiation physics. ASI awarded: M5 - in association with MOS 91P. Phase 2 (OJT) at various MEDCEN for Army students (32 weeks). Total course length is 52 weeks. Upon successful completion of the course, graduates are awarded ASI M5.

Special Information: DoDcivilians must be assigned to an Army MEDCEN or MEDDAC, and that unit will incur all costs associated with this course.

AA and RC Soldiers utilize DA Form 4187, ERB, DA Form 2-1, letters of recommendation from the chain of command and Radiologist or Nuclear Medicine Science Officer evaluating applicant's potential and ability to complete this course.

Submit all requests for waivers to: CDR, AMEDD Center & School, AMEDD Personnel Proponent Directorate, ATTN: MCCS-DE, 2427 Hood Street, Fort Sam Houston, TX 78234-7584.

B-311-0016
CLIN NUCLEAR MED SPECIALTY (68PM5) Phase: 2

Location School Code: 830, 834, 836, 837 **Length: 32 weeks**

Description: Phase 2 (OJT) at various MEDCEN for Army Students.

Special Information: There is no special information.

AMEDD NONCOMMISSIONED OFFICERS ACADEMY (NCOA)

http://ncoa.amedd.army.mil

081-6-8-C40(68A30)(F)
TATS AMEDD ALC(68A30) Phase: 2

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: The training stresses technical, tactical, and leadership battle competencies including combat, combat support, and combat service support. The training includes general military knowledge and MOS skills required to function as a team leader or squad leader in support of the Air-land Battle, USASMA Common Leader Training and the AMEDD mission.

Special Information: Prior to FY05, this phase was 081-6-8-C40(F), phase 2.

081-6-8-C40(68D30)(F)
TATS AMEDD ALC (68D30) Phase: 2

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: The training stresses technical, tactical, and leadership battle competencies including combat, combat support, and combat service support. The training includes general military knowledge and MOS skills required to function as a team leader or squad leader in support of Air-land Battle, USASMA Common Leader Training and the AMEDD mission.

Special Information: Prior to FY05, this phase was 081-6-8-C40 (F), phase 2.

081-6-8-C40 (68E30)(F)
TATS AMEDD ALC (68E30) Phase: 2

ATRRS Information

Location School Code: 082 **Length: 2 weeks**

Description: The training stresses technical, tactical, and leadership battle competencies including combat, combat support, and combat service support. The training includes general military knowledge and MOS skills required to function as a team leader or squad leader in support of the Air/land Battle, USASMA Common Leader Training and the AMEDD mission.

Special Information: For MOS 68E30 Soldiers, ALC was reconfigured 1 Oct 03 to eliminate the MOS-technical distance learning phase. This resident phase consists of 80-hours of technical instruction with Active Component Soldiers at School Code 082. Students should follow this phase by attending the 081-6-8-C40 (68E30)(F), phase 3 which was known as 081-6-8-C40 (F), phase 2 in FY04 and preceding years.

081-6-8-C40 (68E30)(F)
TATS AMEDD ALC (68E30) Phase: 3

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: The training stresses technical, tactical, and leadership battle competencies including combat, combat support, and combat service support. The training includes general military knowledge and MOS skills required to function as a team leader or squad leader in support of the Air-land Battle, USASMA Common Leader Training and the AMEDD mission.

Special Information: Students are urged to complete the MOS-technical 081-6-8-C40(91E30)(F), phase 2 prior to attending this phase. Prior to FY05, this phase was 081-6-8-C40(F), phase 2.

081-6-8-C40 (68G30)(F)
TATS AMEDD ALC (68G30) Phase 2

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: Provides an opportunity for SGT, SGT (P) or SSG to acquire the leader, technical, and tactical skills needed to lead squad/platoon size units:

a. Prepare unit and subordinate elements for peace and wartime missions and contingencies.

b. Plan, supervise, and execute tasks and missions assigned to squad/platoon size units.

c. Lead, supervise, discipline, train, and develop subordinates.

The 400-BNCOC Phase 1 is the Stand Alone Common Core (SACC) for which the U.S. Army Sergeants Major Academy (USASMA) is proponent. The time requirement between Phase 1 completion and enrollment into the CMF 68 phase is suspended. Soldiers may attend Phase 1 in residence, via video teletraining (VTT) or at the nearest The Army School System (TASS) training site. The 081-6-8-C40 CMF phase includes both the CMF, which includes the Situational Training Exercise (STX), and the proponent technical track training. Training Module A of the POI is the CMF module for all 68 series skill level 30 Military Occupational Specialty (MOS) conducted at the TASS Health Services Brigade (HSB) School Battalions by the proponent instructors.

The 6-8-C40 distributed learning (dL) course is classified as Phase 0. The dL (40 hours) is a precursor for attending the Advanced Leaders Course (ALC), formerly BNCOC, CMF 68 phase and allows students 6 weeks to complete prior to reporting to the CMF 68 phase. Completion of dL is a requirement for graduation from the ALC. Website: https://amedd.learn.army.mil

Special Information: This course is under the jurisdiction of the Commandant of the AMEDD NCO Academy, U.S. Army Medical Department Center and School. Prior to this phase, students are allowed six weeks to complete the 6-8-C40 (dL) course. Completion of the dL (40 hours) is a requirement for graduation from the ALC. When a reservation is made for the CMF 68 phase, the student will be automatically enrolled in the Internet instruction and notified via AKO email. The online training is delivered via the Army Learning Management System (ALMS)/Blackboard website: https://amedd.learn.army.mil.

081-6-8-C40 (68H30)(F)
TATS AMEDD ALC (68H30) Phase 2

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: The training stresses technical, tactical, and leadership battle competencies including combat, combat support, and combat service support. The training includes general military knowledge and MOS skills required to function as a team leader or squad leader in support of the Air-land Battle, USASMA Common Leader Training and the AMEDD mission.

Special Information: In FY04 and prior years, this phase was 081-6-8-C40 (F), phase 2.

081-6-8-C40 (68J30)(F)
TATS AMEDD ALC (68J30) Phase: 2

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: The Phase 2, 081-6-8-C40 ALC includes the Career Management Field (CMF), the Situational Training Exercise (STX), and the proponent technical portion of ALC POI. The 081-6-8-C40 ALC POI is divided into two training modules. Training Module A of this program of instruction (POI) is the CMF module for all 68 series skill level 30 Military Occupational Specialty (MOS), conducted at The Army School System (TASS) Health Services Brigade (HSB) School Battalions. Training Module B of this POI encompasses the 68 series skill level 30 MOS technical conducted at the TASS HSB School Battalions.

Special Information: This course is under the jurisdiction of the Commandant of the AMEDD NCO Academy, U.S. Army Medical Department Center and School. Students should complete course 6-8-C40 (DL) to receive CMF Student Instructions. Effective 1 October 2004, completion of this Internet instruction (46 hours) is a requirement for graduation from, not enrollment in, ALC. Students are allowed 6-weeks to complete the DL course. When a reservation is made for the CMF 68 phase, the student will be automatically enrolled in the DL instruction and notified via AKO email. Website for this DL instruction is http://ncoa.amedd.army.mil

081-6-8-C40 (68J30)(F)
TATS AMEDD ALC (68J30) Phase: 3

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: The training stresses technical, tactical, and leadership competencies required by the 68J Medical Logistics NCOs to supervise medical supply operations and procedures in a field environment and on the management of skills needed for peaceful operations.

Special Information: This phase was previously 081-6-8-C40 (76J30)(F), phase 4.

081-6-8-C40 (68K30)(F)
TATS AMEDD ALC (68K30)(DL) Phase: 2

ATRRS Information

Location School Code: 082 **Length: 2 weeks 1 day**

Description: This MOS-specific distance learning portion of the course trains medical laboratory NCOs to provide quality laboratory leadership; to manage blood products, workload, personnel, and logistical resources; to provide safety expertise and training; and to safeguard the quality of laboratory results and services. Emphasis is placed on the management and technical skills required for clinical laboratory operations in both peacetime fixed-facilities as well as field environments. The training is 83 hours of distance learning to be completed via CD-ROM and the World Wide Web (WWW) prior to attending the 40-hour resident portion taught by the Department of Clinical Support Services, Academy of Health Sciences.

Special Information:

1. Phase 2, ALC is under the jurisdiction of the Commandant of the AMEDD NCO Academy, U.S. Army Medical Department Center and School. Students should complete course 6-8-C40 (DL) to receive CMF Student Instructions. Effective 1 October 2004, completion of the CMF internet instruction (46 hours) is a requirement for graduation from, not enrollment in, ALC. When a reservation is made for the CMF 68 phase, the student will be automatically enrolled in the CMF DL instruction and notified via AKO email. Website for the CMF DL instruction is http://ncoa.amedd.army.mil and the students are allowed 6 weeks to complete the CMF DL.

2. The MOS specific, Medical Laboratory Technician (MLT), distance learning, 6-8-C40(68K30)(DL) consists of 83 academic hours using interactive multimedia (IM) lessons delivered via CD-ROM and the World Wide Web (WWW) and must begin 20 - 26 weeks before the start date of Phase 2, ALC. This will allow adequate time for registration and delivery of materials as well as completion of lessons and exams. The students will be expected to collaborate with one another to develop assigned case study presentations.

3. After enrolling in MLT DL, via ATRRS, students must go to the following website, http://www.91K.amedd.army.mil/ for specific instructions regarding how to proceed and receive training materials. All students must have access to a computer with a CD ROM drive and the internet.

4. Recommend commanders/supervisors allow one (1) day per week for the MLT DL studies (8 curriculum hours per week). This may be broken into multiple sessions so long as each session is at least two (2) continuous hours in duration. Two weeks should be allowed after the completion of the lessons for the student to schedule and complete the MLT DL comprehensive exam at an Education Center or DL classroom.

5. Student counseling for the MLT DL will be conducted via e-mail and telephone.

081-6-8-C40 (68K30)(F)
TATS AMEDD ALC (68K30) Phase: 3

ATRRS Information

Location School Code: R081 **Length: 4 weeks 1 day**

Description: Provides an opportunity for Soldiers selected for promotion to Sergeant (SGT) (P) or Staff Sergeant (SSG) to acquire the leader, technical, and tactical skills needed to lead squad size units:

a. Prepare unit and subordinate elements for peace and wartime missions and contingencies.

b. Plan, supervise, and execute tasks and missions assigned to squad size units.

c. Lead, supervise, discipline, train, and develop subordinates.

Phase 3 of the 081-6-8-C40 (68K30)(F) is conducted under school code F081, 1-week resident with Active Component. This MOS specific portion reinforces the material covered in the 83-hour distance learning portion and trains medical laboratory NCOs to provide quality laboratory leadership; to manage blood products, workload, personnel, and logistical resources; to provide safety expertise and training; and to safeguard the quality of laboratory results and services. Emphasis is placed on the management and technical skills required for clinical laboratory operations in both peacetime fixed-facilities as well as field environments.

Special Information: This course is under the jurisdiction of the Commandant of the AMEDD NCO Academy, U.S. Army Medical Department Center and School. All AMEDD ALC students should complete course 6-8-C40 (DL) to receive CMF Student Instructions. Effective 1 October 2004, completion of this internet instruction (46-hours) is a requirement for graduation from, not enrollment in, ALC. When a reservation is made for the CMF 68 phase, the student will be automatically enrolled in the CMF DL instruction and notified via AKO email. Website for this AMEDD ALC DL instruction is http://ncoa.amedd.army.mil. Students are allowed 6 weeks to complete the 68 CMF DL course.

081-6-8-C40 (68K30)(F)
TATS AMEDD ALC (68K30)(DL) Phase: 4

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: The training stresses technical, tactical and leadership battle competencies including combat, combat health support, and combat service support. The training includes general military and 21-hours of MOS skills required to function as a team leader or squad leader in support of Army Operations, USASMA common leader training and AMEDD missions.

Special Information: Prior to FY05 this phase was 081-6-8-C40 (F), phase 2.

081-6-8-C40 (68M30)(F)
TATS AMEDD ALC (68M30)(DL) Phase: 2

ATRRS Information

Location School Code: 082 **Length: 3 weeks 1 day**

Description: The training stresses technical, tactical, and leadership competencies required by the 91M NCOs to supervise medical supply operations and procedures in a field environment and on the management of skills needed for peaceful operations.

Special Information: For MOS 68M30 Soldiers, ALC was reconfigured as of 1 Oct 03. This 127-hours of self-study distance learning requires a class reservation by the unit at School Code 082.

081-6-8-C40 (68M30)(F)
TATS AMEDD ALC (68M30) Phase: 3

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: This phase provides an integration of leadership skills and knowledge with advanced technical competencies in the areas of medical nutrition therapy; clinical management; planning for medical field feeding operations; management of Nutrition Care Division; food service operations management; health promotion; and nutrition education, in fixed and non-fixed facilities.

Special Information: For MOS 91M30 Soldiers, ALC was reconfigured as of 1 Oct 03. To attend this resident phase consisting of 93-hours practical exercises, Soldiers must have completed the 127-hours of self-study in the 081-6-8-C40(91M30)(F) phase 2.

081-6-8-C40 (68M30)(F)
TATS AMEDD ALC (68M30) Phase: 4

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: Provides an opportunity for Soldiers selected for promotion to Sergeant SGT (P) or Staff Sergeants (SSG) to acquire the leader, technical, and tactical skills needed to lead squad size units:

a. Prepare unit and subordinate elements for peace and wartime missions and contingencies.

b. Plan, supervise, and execute tasks and missions assigned to squad size units.

c. Lead, supervise, discipline, train, and develop subordinates.

The lessons are Career Management Field (CMF) 68 in scope as opposed to Common Core Training (leadership/tactical), or MOS-specific.

Special Information: Prior to FY05 this was 081-6-8-C40(F), phase 2.

When the reservation is made for this phase, ATRRS will also enroll the Soldier into the 6-8-C40(DL) instruction and notify the student via AKO email. This web-based instruction is a requirement for graduation from ALC, not enrollment. To print study materials, which must be used with the web-based training, go to http://ncoa.amedd.army.mil. During phase 4, students must pass an open book examination covering the DL topics.

081-6-8-C40 (68P30)(F)
TATS AMEDD NCO ALC (68P30) Phase 2

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: The training stresses technical, tactical, and leadership battle competencies including combat, combat support, and combat service support. The training includes general military knowledge and MOS skills required to function as a team leader or squad leader in support of the Air-land Battle, USASMA Common Leader Training and the AMEDD mission.

Special Information: Prior to FY05, this was 081-6-8-C40(F), phase 2.

081-6-8-C40 (68Q30)(F)
TATS AMEDD NCO ALC (68Q30) Phase 2

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: The training stresses technical, tactical, and leadership battle competencies including combat, combat support, and combat service support. The training includes general military knowledge and MOS skills required to function as a team leader or squad leader in support of the Air-land Battle, USASMA Common Leader Training and the AMEDD mission.

Special Information: Prior to FY05, this was the 081-6-8-C40(F), phase 2.

081-6-8-C40 (68R30)(F)
TATS AMEDD ALC (68R30) (DL) Phase: 2

ATRRS Information

Location School Code: 082 **Length: 3 weeks 1 day**

Description: Provides an opportunity for Soldiers selected for promotion to Sergeant SGT (P) or Staff Sergeants (SSG) to acquire the leader, technical, and tactical skills needed to lead squad size units:

1. Prepare unit and subordinate elements for peace and wartime missions and contingencies;
2. Plan, supervise, and execute tasks and missions assigned to squad size units;
3. Lead, supervise, discipline, train, and develop subordinates.

Reserve Component ALC consists of 4 phases, (Phase 1) Common Leadership Training (CLT) taught by the TASS BN; (Phase 2) MOS Specific ACCP (1 book - 3 modules) consisting of veterinary technical training; (Phase 3) two weeks of hands-on veterinary technical training; and (Phase 4) taught by the TASS BN.

Department of Veterinary Science, Academy of Health Instructors will teach the veterinary specific classes. The 21-hours of Battle Focus Training (BFT) and 4 hours of examination during the STX are the responsibility of the 68R instructors during Phase 4.

Special Information: Study materials will be mailed to the student. Unit must appoint a member to Test Control duties and submit a copy of the appointment orders to Department of Veterinary Science, AMEDDC&S (FAX 210-221-8127). The unit then will conduct testing over the instruction presented in this phase. Exams are returned to the AMEDDC&S for grading. Upon successful completion of all exams students will be awarded graduation status and eligible for attendance at the 081-6-8-C40 (68R30)(F), phase 3.

Students must bring the DL ACCP book with 3 modules (MD 1004-71A, MD 1004-71B, and MD 1004-71C) from 081-6-8-C40 (68R30)(DL), phase 2 to 081-6-8-C40 (68R30)(F), phase 3.

081-6-8-C40 (68R30)(F)
TATS AMEDD ALC (68R30) Phase: 3

ATRRS Information

Location School Code: 082 **Length: 2 weeks**

Description: Provides an opportunity for Soldiers selected for promotion to Sergeant SGT (P) or Staff Sergeants (SSG) to acquire the leader, technical, and tactical skills needed to lead squad size units:

a. Prepare unit and subordinate elements for peace and wartime missions and contingencies;

b. Plan, supervise, and execute tasks and missions assigned to squad size units;

c. Lead, supervise, discipline, train, and develop subordinates.

Reserve Component ALC consists of 4 phases, (Phase 1) Common Leadership Training (CLT) taught by the TASS BN; (Phase 2) MOS Specific ACCP (1 book - 3 modules) consisting of veterinary technical training; (Phase 3) two weeks of hands-on veterinary technical training; and (Phase 4) taught by the TASS BN. The 21-hours of Battle Focus Training (BFT) during the STX are the responsibility of the 68R instructors during Phase 4.

Special Information: The self-study (Phase 2) is testable, and must be completed successfully before a student will be allowed to attend the hands-on training (Phase 3) during the two-weeks ADT at the Academy of Health Sciences, Ft Sam Houston, TX. CLT (Phase 2) and CMF (Phase 4) location is the responsibility of the Total Army School System (TASS BN) Regional Training Centers.

Students must bring the DL ACCP book with 3 modules (MD 1004-71A, MD 1004-71B, and MD 1004-71C) from 081-6-8-C40 (68R30)(DL), phase 2 to 081-6-8-C40 (68R30)(F), phase 3.

8-hours of training are conducted on Saturday.

081-6-8-C40 (68R30)(F)
TATS AMEDD ALC (68R30) Phase: 4

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: Provides an opportunity for Soldiers selected for promotion to Sergeant SGT (P) or Staff Sergeants (SSG) to acquire the leader, technical, and tactical skills needed to lead squad size units:

1. Prepare unit and subordinate elements for peace and wartime missions and contingencies;

2. Plan, supervise, and execute tasks and missions assigned to squad size units;

3. Lead, supervise, discipline, train, and develop subordinates.

Reserve Component ALC consists of 4 phases, (Phase 1) Common Leadership Training (CLT) taught by the TASS BN; (Phase 2) MOS Specific ACCP (1 book - 3 modules) consisting of veterinary technical training; (Phase 3) two weeks of hands-on veterinary technical training; and (Phase 4) taught by the TASS BN.

The 21-hours of Battle Focus Training (BFT) and 4 hours of examination during the STX are the responsibility of the 68R instructors during Phase 4.

Students must bring the DL ACCP book with 3 modules (MD 1004-71A, MD 1004-71B, and MD 1004-71C) from 081-6-8-C40 (91R30)(DL), phase 2 to 081-6-8-C40 (91R30)(F), phase 3.

Special Information: For MOS 68R30 Soldiers, ALC was configured as of 1 Oct 03.

This course is under the jurisdiction of the Commandant of the AMEDD NCO Academy, US Army Medical Department Center and School.

Students should complete course 6-8-C40 (DL) to receive CMF Student Instructions.

Effective 1 October 2004, completion of this DL instruction is a requirement for graduation from, not enrollment in, ALC. When a reservation is made for the CMF 68 phase, the student will be automatically enrolled in the DL instruction and notified via AKO email. Website for this DL instruction is http://ncoa.amedd.army.mil

081-6-8-C40(68S30)(F)
TATS AMEDD BASIC NCO(68S30) Phase: 2

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: The training stresses technical, tactical, and leadership battle competencies including combat, combat support, and combat service support. The training includes general military knowledge and MOS skills required to function as a team leader or squad leader in support of the Air-land Battle, USASMA Common Leader Training and the AMEDD mission.

Special Information: Prior to FY05, this was 081-6-8-C40(F) phase 2.

081-6-8-C40(68V30)(F)
TATS AMEDD ALC(68V30) Phase: 2

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: The training stresses technical, tactical, and leadership competencies including combat, combat support, and combat service support. The training includes general military knowledge and MOS skills required to function as a team leader or squad leader in support of the Air-land Battle, USASMA Common Leader Training and the AMEDD mission.

Special Information: Student must complete the web-based training of the 6-8-C40(DL) course 6 months prior to attendance at this resident phase.

081-6-8-C40 (68W30)(F)
TATS AMEDD ALC (68W30) Phase 2

ATRRS Information

Location School Code: R081 **Length: 5 days**

Description: There is no description available at this time; please review https://www.atrrs.army.mil/ for updated information.

Special Information: There is no special information available at this time; please review https://www.atrrs.army.mil/ for updated information.

081-6-8-C40(68W30)(F)
TATS AMEDD ALC (68W30) Phase 3

ATRRS Information

Location School Code: R081 **Length: 5 days**

Description: There is no description available at this time; please review https://www.atrrs.army.mil/ for updated information.

Special Information: There is no special information available at this time; please review https://www.atrrs.army.mil/ for updated information.

081-6-8-C40(68X30)(F)
TATS AMEDD ALC(68X30) Phase: 2

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: The training stresses technical, tactical and leadership battle competencies including combat, combat support, and combat service support. The training includes general military knowledge and 68X MOS skills required to function as a squad leader in support of the Army's Mental Health operations, common core training (CCT) and AMEDD 681X missions.

Provides selected AMEDD 68X Mental Health Specialist noncommissioned officers with the skill and knowledge to: perform duties appropriate to the rank of SSG; apply relevant principles, concepts, and techniques of resource management to resolve problems normally encountered in a Mental Health organization

Special Information: Effective FY04, Soldiers are required to complete an Internet program prior to graduation from this Phase 2. Beginning FY05, when a reservation is made for this Phase 2, Soldier will automatically be enrolled in the Internet program and notified via AKO email. Assistance is available at the AMEDD NCO Academy webpage at http://ncoa.amedd.army.mil. Points of contact are COMM (210)221-3822/3121 or DSN 471-3822/3121.

081-6-8-C40 (68WY2)(F)
TATS AMEDD ALC (68WY2) (DL) Phase 2

ATRRS Information

Location School Code: 082 **Length: 4 weeks 3 days**

Description: The training stresses technical, tactical and leadership battle competencies including combat, combat support, and combat service support. The training includes skills required to administer advanced emergency trauma and medical treatment.

Special Information: For Soldiers holding MOS 68WY2 (old MOS 91B who has not completed Transition requirements), ALC was reconfigured as of 1 Oct 04. This is the 180-hours of self-study with 15 examinations administered by a unit Test Control proctor previously known as Phase 3, 081-6-8-C40(68B30)(F) but not entered in ATRRS. Soldiers who completed the testing can receive credit for completion by faxing a copy of the Student Grade Sheet signed by the Test Control proctor to (210)221-8711).

SOLDIERS WHO HAVE COMPLETED TRANSITION and have orders from HRC-St Louis (formerly ARPERSCOM) or State National Guard headquarters are exempt from this phase and phase 3, 081-6-8-

C40(68WY2)(F) and should proceed to phase 4. Copy of orders must be presented to TASS battalion when reporting for phase 4.

081-6-8-C42 (F)
TATS AMEDD SENIOR LEADER COURSE (SLC)

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: Provides an opportunity for Soldiers with promotion potential to E7 to acquire the leader and tactical skills needed to lead platoon size units:

a. Prepare unit and subordinate elements for peace and wartime missions and contingencies.

b. Plan, supervise, and execute tasks and missions assigned to platoon size units.

c. Lead, supervise, discipline, train and develop subordinates.

Special Information: This course replaces 081-91CMF40 (F), Phase 2, TATS AMEDD Advanced NCO Course effective 1 Oct 05.

6-8-C40 (DL)
AMEDD ADVANCED LEADER COURSE (ALC)

ATRRS Information

Location School Code: 082 **Length: 6 weeks**

Description: Provides an opportunity for SGTs, SGT (P) or SSG to acquire the leader, technical, and tactical skills needed to lead squad size units:

a. Prepare unit and subordinate elements for peace and wartime missions and contingencies.

b. Plan, supervise, and execute tasks and missions assigned to squad size units.

c. Lead, supervise, discipline, train, and develop subordinates.

Phase Scope: To perform duties appropriate to the rank of Staff Sergeant in both a field and garrison environment.

Special Information: ALC is comprised of three parts: dL, Phase 1 Stand Alone Common Core (SACC), and Phase 2 CMF resident training. Phase 2 training includes an STX. The first part of ALC is dL (40 hours). ALC dL is not identified by a phase. Students complete lessons via computer before attending Phase 2 CMF training. They may work in the unit/digital training facilities/education center/home. Online training is delivered via the Army Learning Management System (ALMS)/Blackboard. The training is asynchronous and semi-asynchronous to a world wide audience. Completion of dL is a requirement for graduation from ALC.

6-8-C40 (68A30)
MEDICAL EQUIP REPAIRER ALC Phase: 2

ATRRS Information

Location School Code: 082 **Length: 4 weeks 1 days**

Description: Provides an opportunity for Soldiers selected for promotion to Sergeant (SGT (P)) or Staff Sergeants (SSG) to acquire the leader, technical, and tactical skills needed to lead squad size units:

a. Prepare unit and subordinate elements for peace and wartime missions and contingencies.

b. Plan, supervise, and execute tasks and missions assigned to squad size units.

c. Lead, supervise, discipline, train, and develop subordinates.

The lessons are Career Management Field (CMF) 68 in scope as opposed to Common Core Training (leadership/tactical), it does include 21-hours of MOS-specific training.

Phase Scope: To provide a 91 CMF leadership tasks and 21-hour MOS specific track.

Special Information: This course is under the jurisdiction of the Commandant of the AMEDD NCO Academy, U.S. Army Medical Department Center and School. Students should complete course 6-8-C40 (DL) to receive CMF Student Instructions.

Effective 10 October 2004, completion of this Internet instruction is a requirement for graduation from ALC, not enrollment. When a reservation is made for the CMF 68 phase, the student will be automatically enrolled in the DL course and notified via AKO email. Website for this Internet instruction is http://ncoa.amedd.army.mil.

6-8-C40 (68D30)
OPERATING ROOM ALC Phase: 2

ATRRS Information

Location School Code: 082 **Length: 4 weeks 1 days**

Description: Provides an opportunity for Soldiers selected for promotion to Sergeant (SGT) (P) or Staff Sergeant (SSG) to acquire the leader, technical, and tactical skills needed to lead squad size units:

a. Prepare unit and subordinate elements for peace and wartime missions and contingencies.

b. Plan, supervise, and execute tasks and missions assigned to squad size units.

c. Lead, supervise, discipline, train, and develop subordinates.

Provides selected AMEDD non-commissioned officers with the skills and knowledge to: Perform duties appropriate to the rank of SSG; apply relevant principles, concepts, and techniques of resource management to resolve problems normally encountered at unit level; and participate in planning, organizing, and conducting of mission specific operations under peacetime and combat conditions during a 21--hour MOS 68D track.

Special Information: This course is under the jurisdiction of the Commandant of the AMEDD NCO Academy, U.S. Army Medical Department Center and School. Students should complete course 6-8-C40 (DL) to receive CMF Student Instructions.

Effective 1 October 2004, completion of this DL instruction is a requirement for graduation from, not enrollment in, ALC. When a reservation is made for the CMF 68 phase, the student will be automatically enrolled in the DL instruction and notified via AKO email. Website for this DL instruction is http://ncoa.amedd.army.mil

6-8-C40 (68E30)
DENTAL ALC Phase: 2

ATRRS Information

Location School Code: 082 **Length: 6 weeks 1 day**

Description: To provide career oriented NCOs with the technical skills necessary to manage a dental facility on a modern battlefield or in a garrison environment. Course incorporates subjects in areas of Dental Clinic Management, Clinic Personnel Management, Dental Administration, Dental Care Organization and Deployment & Mobilization.

Special Information:

This course is under the jurisdiction of the Commandant of the AMEDD NCO Academy, U.S. Army Medical Department Center and School. Prior to this phase, students should complete course 6-8-C40 (DL) to receive CMF Student Instructions. Completion of this Internet instruction is a requirement for graduation from ALC, not enrollment. Effective 1 Oct 04, when a reservation is made for this phase, the student will be automatically enrolled in the Internet instruction and notified via AKO mail.

6-8-C40 (68G30)
PATIENT ADMINISTRATION ALC Phase: 2

ATRRS Information

Location School Code: 082 **Length: 4 weeks 1 days**

Description: Provides selected AMEDD noncommissioned officers with the skills and knowledge to: perform duties appropriate to the rank of SSG; apply relevant principles, concepts, and techniques of resource management to resolve problems normally encountered at unit level; and participate in planning, organizing, and conducting mission specific operations under peacetime and combat conditions.

Special Information: This course is under the jurisdiction of the Commandant of the AMEDD NCO Academy, U.S. Army Medical Department Center and School. Prior to this phase, students should complete course 6-8-C40 (DL) to receive CMF Student Instructions. Completion of this Internet instruction is a requirement for graduation from ALC, not enrollment. Effective 1 Oct 04, when a reservation is made for this phase, the student will be automatically enrolled in the Internet instruction and notified via AKO mail.

6-8-C40 (68H30)
OPTICAL LABORATORY ALC Phase: 2

ATRRS Information

Location School Code: 082 **Length: 4 weeks 1 days**

Description: To provide career oriented NCOs with the technical skills necessary to manage an Optical Laboratory on a modern battlefield or in a garrison environment. Course incorporates subjects in areas of Optical Laboratory Management and Administration.

Special Information: This course is under the jurisdiction of the Commandant of the AMEDD NCO Academy, U.S. Army Medical Department Center and School. Students should complete course 6-8-C40 (DL) to receive CMF Student Instructions. Effective 1 October 2004, completion of this DL instruction (46 hrs) is a requirement for graduation from, not enrollment in, ALC. When a reservation is made for the CMF 68 phase, the student will be automatically enrolled in the DL instruction and notified via AKO email. Website for this DL instruction is http://ncoa.amedd.army.mil.

6-8-C40 (68J30)
MEDICAL LOGISTICS ALC Phase: 2

ATRRS Information

Location School Code: 082 **Length: 6 weeks 1 day**

Description: The Phase 2 6-8-C40 ALC includes both the CMF and proponent technical portion of the ALC POI. The 6-8-C40 ALC POI is divided into two training modules. Training Module A is the CMF module for all the 68 series skill level 30 Military Occupational Specialty (MOS), conducted at the AMEDD NCO Academy. Training Module B encompasses the 68 series skill level 30 MOS technical conducted at the teaching branches.

The ALC CMF DL is classified as Phase 0. The CMF DL is a precursor for attending ALC PH 2 and allows students 6 weeks to complete the CMF DL prior to reporting to Phase 2 ALC. The website for the CMF DL instruction (46 hours) is http://ncoa.amedd.army.mil.

Phases and DL requirements for the Reserve Component (RC) ALC are addressed in the 081-6-8-C40 (F) TATS POI/CMP.

Special Information: This course is under the jurisdiction of the Commandant of the AMEDD NCO Academy, U.S. Army Medical Department Center and School.

Students should complete course 6-8-C40 (DL) to receive CMF Student Instructions. Effective 1 October 2004, completion of this Internet instruction (46-hours) is a requirement for graduation from ALC, not enrollment. Students are allowed 6-weeks to complete the DL course.

When a reservation is made for the CMF 68 phase, the student will be automatically enrolled in the DL instruction and notified via AKO email.

Website for this DL instruction is http://ncoa.amedd.army.mil.

6-8-C40 (68K30) (DL)
AMEDD MEDICAL LABORATORY ALC

ATRRS Information

Location School Code: 082 **Length: 2 weeks 1 day**

Description: Provides an opportunity for Soldiers selected for promotion to Sergeant (SGT) (P) or Staff Sergeant (SSG) to acquire the leader, technical, and tactical skills needed to lead squad size units:

a. Prepare unit and subordinate elements for peace and wartime missions and contingencies.

b. Plan, supervise, and execute tasks and missions assigned to squad size units.

c. Lead, supervise, discipline, train, and develop subordinates.

The ALC Phase 1 is a Stand Alone Common Core (SACC) for which the United States Army Sergeants Major Academy (USASMA) is proponent.

NOTE: Per DA message dated 9 June 2004, the time requirement between Phase 1 (SACC) completion and enrollment into the proponent CMF and technical training phase (Phase 2) is suspended. Soldiers may attend Phase 1 in residence, via video teletraining (VTT) or at the nearest TASS training site.

The Phase 2 6-8-C40 ALC includes both the Career Management Field (CMF) and proponent technical portion of the ALC POI. The 6-8-C40 ALC POI is divided into two training modules. Training Module A of this program of instruction (POI) is the CMF module for all 68 series skill level 30 Military Occupational Specialty (MOS), conducted at the AMEDD NCO Academy. Training Module B of this POI encompasses the 68 series skill level 30 MOS technical conducted at the teaching branches. The ALC CMF DL is classified as Phase 0. The CMF DL is a precursor for attending ALC PH 2 and allows students 6 weeks to complete the CMF DL prior to reporting to Phase 2 ALC. The website for the CMF DL instruction is http://ncoa.amedd.army.mil. The Medical Laboratory Technician (MLT) DL is an additional precursor for attending ALC PH 2 and allows students 6 weeks to complete the MLT DL prior to reporting to Phase 2 ALC. The website for the MLT DL instruction (83-hours) is http://www.91K.amedd.army.mil. Phases and DL requirements for the RC ALC are addressed in the 08106-8-C40 (F) TATS POI/CMP.

Phase Scope: This MOS-specific distance learning portion of the course trains medical laboratory NCOs to provide quality laboratory leadership; to manage blood products, workload, personnel, and logistical resources; to provide safety expertise and training; and to safeguard the quality of laboratory results and services. Emphasis is placed on the management and technical skills required for clinical laboratory operations in both peacetime fixed-facilities as well as field environments. The training is 83-hours of distance learning to be completed via CD-ROM and various sites on the World Wide Web (WWW) prior to attending the Phase 2, 40-hour resident MOS-specific portion taught by the Department of Clinical Support Services at the Academy of Health Sciences.

Special Information:

1. Phase 2, ALC is under the jurisdiction of the Commandant of the AMEDD NCO Academy, U.S. Army Medical Department Center and School. Students should complete course 6-8-C40 (DL) to receive CMF Student Instructions. Effective 1 October 2004, completion of the CMF internet instruction (46-hours) is a requirement for graduation from, not enrollment in, ALC. When a reservation is made for the CMF 68 phase, the student will be automatically enrolled in the CMF DL instruction and notified via AKO email. Website for the CMF DL instruction is http://ncoa.amedd.army.mil and the students are allowed 6 weeks to complete the CMF DL.

2. The MOS specific, Medical Laboratory Technician (MLT), distance learning, 6- 8-C40 (68K30)(DL) consists of 83 academic hours using interactive multimedia (IM) lessons delivered via CD-ROM and the World Wide Web (WWW) and must begin 20 - 26 weeks before the start date of Phase 2, ALC. This will allow adequate time for registration and delivery of materials as well as completion of lessons and exams. The students will be expected to collaborate with one another to develop assigned case study presentations.

3. After enrolling in MLT DL, via ATRRS, students must go to the following website, http://www.91K.amedd.army.mil/ for specific instructions regarding how to proceed and receive training materials. All students must have access to a computer with a CD-ROM drive and the internet.

4. Recommend commanders/supervisors allow one (1) day per week for the MLT DL studies (8 curriculum hours per week). This may be broken into multiple sessions so long as each session is at least two (2) continuous hours in duration. Two weeks should be allowed after the completion of the lessons for the student to schedule and complete the MLT DL comprehensive exam at an Education Center or DL classroom.

5. Student counseling for the MLT DL will be conducted via e-mail and telephone.

6-8-C40 (68K30)
MEDICAL LABORATORY ALC Phase: 2

ATRRS Information

Location School Code: 082 **Length: 4 weeks 3 days**

Description: Provides an opportunity for Soldiers selected for promotion to Sergeant (SGT) (P) or Staff Sergeant (SSG) to acquire the leader, technical, and tactical skills needed to lead squad size units:

a. Prepare unit and subordinate elements for peace and wartime missions and contingencies.

b. Plan, supervise, and execute tasks and missions assigned to squad size units.

c. Lead, supervise, discipline, train, and develop subordinates.

Special Information:

1. This course is under the jurisdiction of the Commandant of the AMEDD NCO Academy, U.S. Army Medical Department Center and School. Students should complete course 6-8-C40 (DL) to receive CMF Student Instructions. Effective 1 October 2004, completion of this internet instruction (46-hours) is a requirement for graduation from, not enrollment in, ALC. When a reservation is made for the CMF 68 phase, the student will be automatically enrolled in the DL instruction and notified via AKO email. Website for this DL instruction is http://ncoa.amedd.army.mil. Students are allowed 6 weeks to complete the DL course.

2. In addition to the above CMF DL, there is also the Medical Laboratory Technician (MLT) DL that is a requirement before attending ALC PH 2. The students are allowed students 6 weeks to complete the MLT DL prior to reporting to Phase 2 ALC. The website for the MLT DL instruction (83-hours) is http://www.91K.amedd.army.mil.

6-8-C40 (68M30)
NUTRITION CARE ALC Phase: 2

ATRRS Information

Location School Code: 082 **Length: 10 weeks**

Description: Provides an opportunity for Soldiers selected for promotion to Sergeant (SGT (P)) or Staff Sergeant (SSG) to acquire the leader, technical, and tactical skills needed to lead squad size units:

a. Prepare unit and subordinate elements for peace and wartime missions and contingencies.

b. Plan, supervise, and execute tasks and missions assigned to squad size units.

c. Lead, supervise, discipline, train and develop subordinates.

The lessons are Career Management Field (CMF) 68 in scope as opposed to the United States Army Sergeants Major Academy (USASMA) Stand Alone Common Core (SACC) POI, or MOS- specific.

To provide an integration of leadership skills and knowledge with advanced technical competencies in the areas of: medical nutrition therapy; clinical management; planning for medical field feeding operations; management of Nutrition Care Division; food service operations management; health promotion; and nutrition education, in fixed and non-fixed facilities.

Special Information: This course is under the jurisdiction of the Commandant of the AMEDD NCO Academy, U.S. Army Medical Department Center and School. Students should complete course 6-8-C40 (DL) to receive CMF Student Instructions. Effective 1 October 2004, completion of this Internet instruction (46-hours) is a requirement for graduation from, not enrollment in, ALC. When a reservation is made for the CMF 68 phase, the student will be automatically enrolled in the DL instruction and notified via AKO email. Website for this DL instruction is http://ncoa.amedd.army.mil.

Students are allowed 6 weeks to complete the DL course.

6-8-C40 (68P30)
RADIOLOGY ALC Phase: 2

ATRRS Information

Location School Code: 082 **Length: 4 weeks 1 day**

Description: Provides selected AMEDD non-commissioned officers with the skills and knowledge to: Perform duties appropriate to the rank of SSG; apply relevant principles, concepts, and techniques of resource

management to resolve problems normally encountered at unit level; and participate in planning, organizing, and conducting of mission specific operations under peacetime and combat conditions.

Special Information: This course is under the jurisdiction of the Commandant of the AMEDD NCO Academy, U.S. Army Medical Department Center and School. PERSCOM identifies and notifies unit commanders of qualified Soldiers approximately nine months prior to each class.

6-8-C40 (68Q30)
PHARMACY ALC Phase: 2

ATRRS Information

Location School Code: 082 **Length: 4 weeks 1 day**

Description: Provides selected AMEDD noncommissioned officers with the skills and knowledge to: perform duties appropriate to the rank of SSG: apply relevant principles, concepts, and techniques of resource management to resolve problems normally encountered at unit level; and participate in planning, organizing, and conducting mission specific operations under peacetime and combat conditions.

Phase Scope: Prior to this phase, students should complete course 6-8-C40 (DL) to receive CMF Student Instructions. Completion of this Internet instruction is a requirement for graduation from ALC not enrollment. When a reservation is made for this phase, the student will be automatically enrolled in the Internet instruction and notified via AKO email. A CD is available for students who have special circumstances. Units must register the Soldier for the CD through the Nonresident Instruction Section at 1-800-344-2380 extension 7070/7388.

Special Information: This course is under the jurisdiction of the Commandant of the AMEDD NCO Academy, U.S. Army Medical Department Center and School. Prior to this phase, students should complete course 6-8-C40 (DL) to receive CMF Student Instructions. Completion of this Internet instruction is a requirement for graduation from ALC, not enrollment. When a reservation is made for this phase, the student will be automatically enrolled in the Internet instruction and notified via AKO email.

6-8-C40 (68R30)
VET FOOD INSPECTION ALC Phase: 2

ATRRS Information

Location School Code: 082 **Length: 10 weeks 1 day**

Description: Provides an opportunity for Soldiers selected for promotion to Sergeant SGT (P) or Staff Sergeants (SSG) to acquire the leader, technical, and tactical skills needed to lead squad size units:

a. Prepare unit and subordinate elements for peace and wartime missions and contingencies.

b. Plan, supervise, and execute tasks and missions assigned to squad size units.

c. Lead, supervise, discipline, train, and develop subordinates.

Veterinary Food Inspection ALC consists of 2 phases: (Phase 1) 600-ALC (formerly 600-BNCOC) Common Core Training (CCT) and (Phase 2) 6-8-C40 (68R30) CMF and MOS Specific Tng. Phase 1 is non-MOS specific, taught in an NCO academy environment using small group instruction. Phase 2 Career Management Field (CMF) is 3 weeks and 3 days in length and focuses on CMF as opposed to CCT. Phase 2 MOS-Specific portion is 6 weeks and 3 days of hands-on veterinary technical training. The (Phase 2) MOS-Specific portion of the course trains veterinary food inspection NCOs to provide quality leadership in the management of food products, food products, procurement, surveillance, and deterioration of subsistence; veterinary aspects of nuclear, biological, and chemical operations; veterinary preventive medicine, current food hygiene, sanitation, safety, and quality assurance procedures; food establishment sanitation; and meat /waterfood technology.

Additionally, emphasis will be placed upon leadership situations involving practical problems in veterinary TO&E units. The NCO Academy Instructors will teach the CMF portion and the Department of Veterinary Science Instructors will teach the veterinary specific classes.

Phase Scope: The MOS-specific portion of the course trains veterinary food inspection NCOs to provide quality leadership in the management of food products, budgets, workload, personnel, and logistical resources; procurement, surveillance, and deterioration of subsistence; veterinary aspects of nuclear, biological, and chemical operations; veterinary preventive medicine; current food hygiene, sanitation, safety, and quality assurance procedures; food establishment sanitation; and meat/waterfood technology. Additionally, emphasis will be placed upon leadership situations involving practical problems in veterinary TO&E units.

Special Information: This course is under the jurisdiction of the Commandant of the AMEDD NCO Academy, U.S. Army Medical Department Center and School. Students should complete course 6-8-C40 (DL) to receive CMF Student Instructions. Effective 1 October 2004, completion of this DL instruction is a requirement for graduation from, not enrollment in, ALC. When a reservation is made for the CMF 68 phase, the student will be automatically enrolled in the DL instruction and notified via AKO email. Website for this DL instruction is http://ncoa.amedd.army.mil

6-8-C40 (68S30)
PREVENTIVE MEDICINE ALC Phase: 2

ATRRS Information

Location School Code: 082 **Length: 4 weeks 1 day**

Description: Provides selected AMEDD non-commissioned officers with the skills and knowledge to: Perform duties appropriate to the rank of SSG; apply relevant principles, concepts, and techniques of resource management to resolve problems normally encountered at unit level; and participate in planning, organizing, and conducting of mission specific operations under peacetime and combat conditions.

Special Information: This course is under the jurisdiction of the Commandant of the AMEDD NCO Academy, U.S. Army Medical Department Center and School. PERSCOM identifies and notifies unit commanders of qualified Soldiers approximately nine months prior to each class.

6-8-C40 (68T30)
ANIMAL CARE ALC Phase: 2

ATRRS Information

Location School Code: 082 **Length: 8 weeks 1 day**

Description: Provides an opportunity for Soldiers selected for promotion to Sergeant SGT (P) or Staff Sergeants (SSG) to acquire the leader, technical, and tactical skills needed to lead squad size units:

a. Prepare unit and subordinate elements for peace and wartime missions and contingencies.

b. Plan, supervise, and execute tasks and missions assigned to squad size units.

c. Lead, supervise, discipline, train, and develop subordinates.

The lessons are Career Management Field (CMF) 68 in scope as opposed to the United States Army Sergeants Major Academy (USASMA) Stand Alone Common Core (SACC) POI, or MOS-specific.

The MOS-specific portion of the course reinforces the material covered in the 80-hour distance learning portion and trains Veterinary Animal Care Specialists with an overview of their responsibilities in veterinary unit administration. Emphasis will be placed on advanced medical skill level training to include CBRNE, basic computer skills, research and development laboratory animal care, and preventive medicine programs.

Additionally, emphasis will be given to leadership situations involving practical problems of administrative control in veterinary TO&E units, in training and operation positions at major veterinary units, and in Veterinary Treatment Facilities (VTFs).

Special Information: This course is under the jurisdiction of the Commandant of the AMEDD NCO Academy, U.S. Army Medical Department Center and School. Students should complete course 6-8-C40 (DL) to receive CMF Student Instructions. Effective 1 October 2004, completion of this DL instruction is a requirement for graduation from, not enrollment in, ALC. When a reservation is made for the CMF 68 phase, the student will be automatically enrolled in the DL instruction and notified via AKO email. Website for this DL instruction is http://ncoa.amedd.army.mil.

6-8-C40 (68V30)
RESPIRATORY ALC Phase: 2

ATRRS Information

Location School Code: 082 **Length: 4 weeks 1 day**

Description: Provides an opportunity for Soldiers selected for promotion to Sergeant SGT (P) or staff sergeants (SSG) to acquire the leader, technical, and tactical skills needed to lead squad size units to prepare unit and subordinate elements for peace and wartime missions and contingencies.

Special Information: This course is under the jurisdiction of the Commandant of the AMEDD NCO Academy, U.S. Army Medical Department Center and School. PERSCOM identifies and notifies unit commanders of qualified Soldiers approximately nine months prior to each class.

6-8-C40 (68W30)
HEALTHCARE SPECIALIST ALC Phase: 2

ATRRS Information

Location School Code: 082 **Length: 5 weeks 3 days**

Description: Provides an opportunity for Soldiers selected for promotion to Sergeant (SGT) (P) or Staff Sergeants (SSG) to acquire the leader, technical, and tactical skills needed to lead squad size units:

a. Prepare unit and subordinate elements for peace and wartime missions and contingencies

b. Plan, supervise, and execute tasks and missions assigned to squad size units

c. Lead, supervise, discipline, train, and develop subordinates

The 6-8-C40 Phase 2 includes both the CMF and proponent technical portion of the POI. The POI is divided into two training modules. Training Module A is the CMF module for all the 68 series skill level 30 Military Occupational Specialty (MOS) conducted at the AMEDD NCO Academy. Training Module B encompasses the 68W series skill level 30 MOS technical conducted at the teaching branches.

The 6-8-C40 CMF distributed learning (dL) is classified as Phase 0. The dL is a precursor for attending Phase 2 and allows students 6 weeks to complete prior to reporting to Phase 2. Completion of dL is a requirement for graduation from ALC.

Phase 2 provides timely training to selected E5 (P) and E6 68W NCOs with the skills and knowledge required to perform duties appropriate to the rank of SSG in both a field and garrison environment.

Special Information: This course is under the jurisdiction of the Commandant of the AMEDD NCO Academy, US Army Medical Department Center and School. National Guard and Reserve Noncommissioned officers who have not completed their 68W transition (Y2) will still be allowed to attend ALC CMF and MOS tracking,

however they will not be considered a ALC graduate and receive their DA 1059 (Academic Evaluation Report) until they provide proof of all requirements to be considered 68W certified. U.S. Army EMS will maintain all ALC completion documents until proof of NREMT Certification. This provision for USAR and NG Soldiers will expire Oct 2009. Prior to this phase, students should complete course 6-8-C40 (dL). Completion of dL (40 hours) is a requirement for graduation from ALC. When a reservation is made for this phase, the student will be automatically enrolled in the Internet instruction and notified via AKO email. Online training is delivered via the Army Learning Management System (ALMS)/Blackboard.

6-8-C40 (68X30)
MENTAL HEALTH ALC Phase: 2

ATRRS Information

Location School Code: 082 **Length: 4 weeks 1 day**

Description: Provides selected AMEDD 68X Mental Health Specialist non-commissioned officers with the skills and knowledge to: Perform duties appropriate to the rank of SSG; apply relevant principles, concepts, and techniques of resource management to resolve problems normally encountered in a Mental Health organization

Special Information: This course is under the jurisdiction of the Commandant of the AMEDD NCO Academy, U.S. Army Medical Department Center and School. Prior to this phase, students should complete course 6-8-C40 (DL) to receive CMF Student Instructions. Completion of the Internet instruction is a requirement for graduation from ALC, not enrollment. When a reservation is made for this phase, the student will be automatically enrolled in the Internet instruction and notified via AKO email. Human Recourses Command (HRC) identifies and notifies unit commanders of qualified active Army Soldiers approximately nine months prior to each class. Selected individuals must bring a copy of DA Form 2 and 2-1 and complete initial issue of uniforms as prescribed in AR 700-84. Individuals are encouraged to take and bring the results of the Test of Adult Basic Education (TABE, Level A) offered at local education centers.

6-8-C42
AMEDD SENIOR LEADER COURSE (SLC) Phase: 2

ATRRS Information

Location School Code: 082 **Length: 2 weeks 3 days**

Description: Provides an opportunity for Soldiers with promotion potential to SFC to acquire the leader, technical, and tactical skills needed to lead platoon size units:

a. Prepare unit and subordinate elements for peace and wartime missions and contingencies.

b. Plan, supervise, and execute tasks and missions assigned to platoon size units.

c. Lead, supervise, discipline, train and develop subordinates.

Special Information: This course is under the jurisdiction of the Commandant of the AMEDD NCO Academy, U.S. Army Medical Department Center and School. U.S. Army Human Resources Command (AHRC) identifies and notifies unit commanders of qualified Soldiers approximately nine months prior to each class.

6-8-C42 (DL)
AMEDD SENIOR LEADER COURSE (SLC)

ATRRS Information

Location School Code: 082 **Length: 6 weeks**

Description: Provides an opportunity for SGTs, SGT (P) or SSG to acquire the leader, technical, and tactical skills needed to lead squad size units:

a. Prepare unit and subordinate elements for peace and wartime missions and contingencies.

b. Plan, supervise, and execute tasks and missions assigned to platoon size units.

c. Lead, supervise, discipline, train, and develop subordinates.

Phase Scope: To perform duties appropriate to the rank of Staff Sergeant in both a field and garrison environment.

Special Information: ALC is comprised of three parts: dL, Phase 1 Stand Alone Common Core (SACC), and Phase 2 CMF resident training. Phase 2 training includes an STX. The first part of ALC is dL (40-hours). ALC dL is not identified by a phase. Students complete lessons via computer before attending Phase 2 CMF training. They may work in the unit/digital training facilities/education center/home. Online training is delivered via the Army Learning Management System (ALMS)/Blackboard. The training is asynchronous and semi-asynchronous to a worldwide audience. Completion of dL is a requirement for graduation from ALC. Point of contact: https://amedd.learn.army.mil

600-ALC (FORMERLY 600-BNCOC)
ALC COMMON CORE Phase: 1

ATRRS Information

Location School Code: 082 **Length: 2 weeks**

Description: This course teaches all SSGs, selected promotable SGTs, and non promotable SGT in leadership skills, NCO duties, responsibilities and authority, and how to conduct performance-oriented training. The course produces battle competent NCOs who are qualified squad/section sergeants, team/section leaders, evaluators, counselors, conductors or participants in individual and collective training, and performers/teachers of leader values, attributes, skills, and actions. The course is non-MOS specific, taught in a TASS Training Institution Noncommissioned Officer Academy (NCOA) and/or geographically dispersed Digital Training Facility (DTF) using small group instruction. Small Group Leaders (SGLs)/Instructors assess the students' leadership potential and evaluate their ability to apply lessons learned to effectively lead their classmates. ALC provides opportunity for education, to learn war fighting skills, and to gain experience. SGLs/Instructors evaluate their ability to lead their classmates in a tactical environment during the proponent school-developed Field Training Exercise/Situational Training Exercise (FTX/STX) at the end of Phase II.

DEPARTMENT OF ACADEMIC SUPPORT & QUALITY ASSURANCE (DASQA)

https://www.cs.amedd.army.mil/details.aspx?dt=121

5K-F3/520-F3
INSTRUCTOR TRAINING COURSE

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: Emphasis is placed on the Systems Approach to Training process, learning processes and theory, communication skills, classroom technology, designing and developing lesson plans, writing test items, and presenting instruction.

Special Information: There is no special information.

5K-F4/520-F4 (ASAT)
SAT 21 (ASAT)

ATRRS Information

Location School Code: 081 **Length: 1 day**

Description: The course is expressly designed for course developers and instructor/trainers who develop new lesson plans, re-design existing lesson plans, and/or design training support packages. A working knowledge of the Automated Systems Approach Training database is essential to satisfactorily fulfill work assignments.

Special Information: There is no special information.

5K-F4/520-F4 (CORE)
SAT-21

ATRRS Information

Location School Code: 081 **Length: 1 day**

Description: The Systems Approach to Training (SAT) 21 course provides a grounding in understanding the role of computer technology to the AMEDDC&S training and instructional programs. The course has been set up to address the more immediate needs of the staff and faculty of the AMEDDC&S without disrupting work activities more than is necessary at any one time. While the modules for SAT-21 can be taken individually in separate training sessions, it is suggested that the Core module be taken first. In this way, participants will receive the training that is most needed in their respective positions. The modules will prepare course directors and managers of AMEDDC&S with instructional activities in the new technologies, which have become major parts of the overall instructional program at the AMEDDC&S.

Special Information: There is no special information.

5K-F4/520-F4 (LXR-TEST)
SAT-21 (LXR-TEST)

ATRRS Information

Location School Code: 081 **Length: 1 day**

Description: This course is expressly designed for instructional Systems Specialist and course developers who develop and manage test item data banks. A working knowledge of LXR is essential to be satisfactorily complete work assignments.

Special Information: There is no special information.

5K-F4/520-F4 (RITMS)
RESIDENT INDIVIDUAL TNG MGT SYSTEM (RITMS)

ATRRS Information

Location School Code: 081 **Length: 1 day**

Description: This course is expressly designed for course developers and instructors/ trainers who have administrative duties registering students in courses at the AMEDDC&S and/or work with other databases such as Automated Systems Approach to Training (ASAT) and Army Training Requirements and Resource System (ATRRS).

Special Information: There is no special information.

5K-F5/520-F5 (OATP)
ORIENTATION TO AMEDD TRAINING PROCESS (OATP)

ATRRS Information

Location School Code: 081 **Length: 2 days**

Description: The course provides information on management systems, which have an impact on the Training Requirements Analysis System, the Requirements Execution System and new initiatives. The course is expressly designed for key personnel who have responsibilities for management of training development activities.

Special Information: There is no special information.

5K-F6/520-F6
SMALL GROUP INSTRUCTOR TRAINING COURSE

ATRRS Information

Location School Code: 081 **Length: 1 week**

Description: The Small Group Instructor Training Course is a 5-day (40-hours) training program. The course covers group member roles/responsibilities, communication issues, learning in groups, group development concepts, effects of feedback and disclosure, and SGI methodologies.

Special Information: There is no special information.

5K-F17/520-F12
ELEARNING FACILITATOR TRAINING

ATRRS Information

Location School Code: 081 **Length: 5 days**

Description: This is a 40-hour training program conducted online over a four-week period. The course covers instructional theory and methodology in an online environment. The role of the instructor as facilitator conducting online instruction to adults is emphasized with special attention to threaded discussions, research reports, group work and online etiquette ("netiquette").

Special Information: Supervisors of participants should grant a minimum of two hours per day during work hours for course work to be completed. Participants should be regarded as being TDY for the designated time. If necessary, participants should be assigned a workstation in a Learning Center so that they can complete their assignments without being interrupted.

9E-F7 / 012-F35
IET SUPPORT CADRE TRAINING

ATRRS Information

Location School Code: 081 **Length: 3 days**

Description: The TRADOC IET Support Cadre Training Course is a mandatory resident course designed to familiarize and assist all brigade/battalion/company staff section NCOs and Soldiers, military IET instructors, DoD/DA civilian IET primary instructors, contracted civilian IET primary instructors, unit armorers, unit supply personnel and Recruiting Battalion processing NCOs. The course provides them with appropriate information on IET Cadre Training Programs and individual training in selected subjects and skills. It also assists them with understanding the IET environment, organization, policies and procedures, leadership training, evaluation, performance management, and administration.

Special Information: Course Managers and instructors at the authorized training sites, must submit an exception to policy to the proponent for any deviations that may alter the quality of training (i.e., instructor-to-student ratio, training schedules, etc).

9E-F8 / 012-F36
INSTALLATION STAFF AND CONTRACTORS

ATRRS Information

Location School Code: 081 **Length: 1 day**

Description: Provide Installation Staff and Contract Personnel with the information required to assist the Training Cadre to develop trained, disciplined, motivated, and physically fit Soldiers, who espouse the Army's core values and are focused on teamwork.

Special Information: There is no special information.

081-68W10
HEALTHCARE SPECIALIST (MOS-T) Phase 3

ATRRS Information

Location: R081 **Length: 2 weeks 2 days**

Description: This course was developed to award the 68W MOS to Reserve Component Soldiers who do not hold the 68W MOS. This course is not for transition or Y2 removal. This course has 3 phases. Phase 1 consists of CPR and the EMT-B curriculum, which will authorize the Soldier to take the National Registry Emergency Medical Technician- Basic (NREMT-B) examination. After successful completion of the NREMT-B examination, the Soldier is eligible to attend Phase 2, which consists of Limited Primary Care, Force Health Protection, Invasive Procedures/Core Skills and Combat Trauma Treatment. After successful completion of Phase 2, the Soldier is eligible to attend Phase 3, which consists of Combat Evacuation, a Situational Training Exercise and a Field Training Exercise. After successful completion of phase 3, the Soldier has met the requirements to obtain the 68W MOS.

Special Information: There is no special information available at this time; please review https://www.atrrs.army.mil/ for updated information.

081-68W10 (F)
HEALTHCARE SPECIALIST (MOS-T) Phase 1

ATRRS Information

Location: R081 **Length: 3 weeks**

Description: Soldiers receive specific training in combat and military operations other-than-war casualty care, medical care for patients exposed to weapons of mass destruction, deployable medical systems, aircraft and ground evacuation, and casualty triage and processing. The course trains the requirements of the National Registry of Emergency Medical Technicians-Basic (NREMT-B) as a foundation for the Healthcare Specialist.

Special Information: When making reservation for Phase 1, also make reservation for Phase 2. Students will be given Phase 2 materials upon successful completion of, and prior to departing from, Phase 1. Soldiers must not have an aversion to blood or body fluids. Soldiers must have proof that they have started Hepatitis B series; completion of series is required for entry to Phase 3. Current physical exam within one year of course start date without any health problems that would limit ability to complete course requirements. Current immunizations as required for clinical activities. Student must have current American Heart Association (AHA) Basic Life Support (BLS) for Healthcare Provider or American Red Cross (ARC) CPR for Professional Rescuers card that will not expire during course through Phase 4. Must have a completed Pre-execution Checklist signed by the unit commander and a copy of any prerequisite waived by AMEDD Personnel Proponent Directorate.

Submit all requests for waivers to: CDR, AMEDD Center & School, AMEDD Personnel Proponent Directorate, ATTN: MCCS-DE, 1400 Grayson St, Ft Sam Houston, TX 78234-5052.

081-68W10 (F)
HEALTHCARE SPECIALIST (MOS-T) Phase 2

ATRRS Information

Location: R081 **Length: 2 weeks**

Description: This phase prepares the Soldier for Phase 3 by introducing subjects including supportive care, force health protection, combat stress, nuclear, biological, and chemical agents, and record keeping which will be expanded upon in Phase 3.

Special Information: This phase is the second of four that must be completed in sequence to earn course diploma and award of MOS 68W. Soldiers will be given Phase 2 study materials upon successful completion of Phase 1 and prior to departing Phase 1. Soldiers will become familiar with contents in preparation for Phase 3. Upon arrival at Phase 3, Soldier will take a written examination covering the self-study material; passing score of 70 percent or higher must be achieved for admittance to Phase 3. Student may be enrolled in Phase 2 and Phase 3 concurrently.

081-68W10 (F)
HEALTHCARE SPECIALIST (MOS-T) Phase 3

ATRRS Information

Location: R081 **Length: 16 weeks**

Description: Soldiers receive specific training in combat and military operations other-than-war casualty care, medical care for patients exposed to weapons of mass destruction, deployable medical systems, aircraft and ground evacuation, and casualty triage and processing. This phase expands the subjects presented in Phase 2 self-study with didactic instruction, practical examinations and written examinations.

Special Information: This phase is the third of four that must be completed in sequence to earn course diploma and award of MOS 68W.

081-68W10 (F)
HEALTHCARE SPECIALIST (MOS-T) Phase 4

ATRRS Information

Location: R081 **Length: 2 weeks**

Description: This phase consists of didactic, practical examination, and written examinations on invasive procedures, accumulation of biological waste, and simulated patients. The instruction presented in this phase and previous phases is pulled together in the field training exercise.

Special Information: This phase is the fourth that must be completed in sequence to earn course diploma and award of MOS 68W.

081-68W (EMT-B) (T)
TATS HEALTHCARE SPEC, EMT BASIC (TRANS)

ATRRS Information

Location: R081 **Length: 3 weeks**

Description: This course trains the standards of MOS Healthcare Specialist, National Registry EMT-B in skills necessary to become an effective medical care provider for pre-hospital emergency medical care. This course includes all skills necessary for the individual to provide emergency medical care at a basic life support level.

Special Information: This course is normally taught in 14 consecutive days, start and end dates will not exceed 3 calendar weeks. Variations of the 3-week start/end dates are authorized with prior approval of Commander, AMEDDC&S, 68W Program Management Branch. All sites conducting this training must be an established National Registry Emergency Medical Technician - Basic training site and will submit an application to the Dean, Academy of Health Sciences, U.S. Army EMT Program Manager, for approval prior to conduction training. This is a transition course for the MOS Healthcare Specialist, 68W and will be discontinued 1 Oct 07 for the Active Component and 01 Oct 09 for the Reserve Component. This course in itself does not qualify the 68B or 68C Soldier for MOS 68W but is to be used with other appropriate transition courses or personal qualifications to complete the qualifications for transition to 68W. Each Soldier must determine which courses are needed to complete transition in the prescribed manner.

300-68W10
HEALTHCARE SPECIALIST

ATRRS Information

Location School Code: 081 **Length: 16 weeks**

Description: This course trains the 68W Health Care Specialist in skills necessary to become an effective Soldier and medical care provider. The student receives training in emergency care, evacuation, minor acute care, inpatient and outpatient care, and basic force helath protection. The student receives specific training in combat and military operations other-that-war casualty care, tactical combat casualty care, medical care for patients exposed to weapons of mass destruction, (Chemical, Biological, Radiological, and Nuclear - CBRN), deployable medical systems, aircraft and gournd evacuation, and casualty triage and processing. The students Phase 2, the Soldier is eligible to attend Phase 3, which consists of Combat Evacuation, a Situational Training are certified to the national standards of Emergency Medical Technician-Basic (EMT-B). The students conduct rigorous and relevant training on twenty-six Warrior Ethos tasks and integrate tactical and technical skills through eight warrior drills as part of the Army-wide Initial Entry Training (IET) sustainment training for warrior skills to ensure survivability in the contemporary operating environment.

Special Information: Phase 1 training should not only follow the guidance given as part of the Program of Instruction, but also maintain adherence with all policies and procedure of the US Army EMS Office.

300-68W1/2/3/4(68WY2)(T)
68W TRANSITION COURSE Phase 1

ATRRS Information

Location: R081 **Length: 2 weeks**

Description: This course is an abridged, 80-hour Emergency Medical Technician - Basic (EMT-B) course that incorporates the United States Department of Transportation (DOT) National Standard Curriculum, and the 30-hour 68W Healthcare Specialist specific Combat Medic Advanced Skills Training (CMAST) course that incorporates Tactical Combat Casualty Care (TC3) and pre-hospital trauma life support subjects that include all skills necessary for the individual to provide emergency trauma care at the point of wounding during military

combat operations and at the basic life support level. Students receive specific training in pre-hospital emergency care, evacuation, and treatment of shock affected trauma casualties using the tenets of tactical combat casualty care during combat operations. This course is conducted in two phases; phase one is the EMT-B module, phase two is the CMAST module.

Phase 1 is an abridged, 80-hour Emergency Medical Technician - Basic (EMT-B) course that incorporates the United States Department of Transportation National Standard Curriculum.

Special Information: THIS COURSE IS NOT AUTHORIZED TO BE USED AS A MOS RECLASSIFICATION COURSE. Soldiers requiring reclassification to MOS 68W must attend either the 300-68W10 Healthcare Specialist Course or the 081-68W10 (F) Healthcare Specialist Reclassification Course. This phase does not include time for taking the NREMT-B written test. Patient contact time is also not counted in the instruction hours. Simulation may be substituted for patient contact requirement if justified and pre-approved by the Course Director, Department of Combat Medic Training (DCMT), through the Dean, Academy of Health Sciences, and the U.S. Army EMT Program Manager. All sites conducting this course must be an established National Registry Emergency Medical Technician - Basic training site; submit application for site license through the Dean, Academy of Health Sciences, to the U.S. Army EMT Program Manager, DCMT, for approval prior to conducting training.

300-68W1/2/3/4(68WY2)(T)
68W TRANSITION COURSE Phase 2

ATRRS Information

Location: R081 **Length: 1 week**

Description: This course is an abridged, 80-hour Emergency Medical Technician-Basic (EMT-B) course that incorporates the United States Department of Transportation (DOT) National Standard Curriculum and the 30-hour 68W Healthcare Specialist specific Combat Medic Advanced Skills Training (CMAST) course that incorporates Tactical Combat Casualty Care (TC-3) and pre-hospital trauma life support subjects that include all skills necessary for the individual to provide emergency trauma care at the point of wounding during military combat operations and at the basic life support level. Students receive specific training in pre-hospital emergency care, evacuation and treatment of shock affected trauma casualties using the tenets of tactical combat casualty care during combat operations. This course is conducted in two phases; phase one is the EMT-B module, phase two is the CMAST module.

Phase two; Combat Medic Advanced Skills Training (CMAST) includes pre-hospital trauma life support subjects with and emphasis on emergency medical care and evacuation, and treatment of shock-affected trauma casualties using the tenets of tactical combat casualty care during combat operations.

Special Information: this course is NOT AUTHORIZED to be used as a MOS reclassification course. Soldiers requiring reclassification to MOS 68W must attend either the 300-68W10 Healthcare Specialist Course or the 081-68W10 (F) Healthcare Specialist Reclassification Course. Simulation may be substituted for patient contact requirement if justified and pre-approved by the Course Director, Department of Combat Medic Training (DCMT), through the Dean, Academy of Health Sciences, and the U.S. Army EMT Program Manager. All sites conducting this course must be an established National Registry Emergency Medical Technician - Basic training site; submit application for site license through the Dean, Academy of Health Sciences, to the U.S. Army EMT Program Manager, DCMT, for approval prior to conducting training.

300-68W(BCT3)
BRIGADE COMBAT TEAM TRAUMA TRAINING

ATRRS Information

Location School Code: 081 **Length: 1 week**

Description: Provides an opportunity for Soldiers selected as Brigade Combat Teams (BCT) units to acquire the technical and tactical skills needed to function as squad size trauma teams:

a. Prepare unit and subordinate elements for peace and wartime missions and contingencies.

b. Plan and execute tasks and missions assigned to squad size elements.

The Brigade Combat Trauma Team Training (BCT3) course incorporates Tactical Combat Casualty Care (TC-3), emergency medical treatment and evacuation in a variety of operational combat settings from point of injury through to echelon III of the military Healthcare system. The course is based upon the injury patterns of combat casualties and the constraints to deliver medical care on the battlefield and in urban warfare. The Healthcare Specialist receives specific training in the concepts of tactical combat medical care given realistic scenarios to include Army equipment, supplies and evacuation capabilities during combat. The course includes didactic instruction in casualty care at the point of wounding, triage, primary and secondary survey of combat causalities, airway management, extremity trauma, chest trauma, thermal burns, wound management in the combat environment, splinting and dressing. Practical exercises are conducted in airway management, treatment of extremity trauma, treatment of chest wounds, packing of medical treatment bags, life-saving emergency surgical skills, and the evaluation and management of mass causalities utilizing simulated combat casualty scenarios.

SPECIAL INFORMATION: This course is not authorized to be used as a MOS reclassification course. This course will substitute as the 40-hour EMT-B refresher training requirement.

300-91W(CMAST/MSTC)
COMBAT MEDIC ADVANCED SKILLS

ATRRS Information

Location School Code: 081 **Length: 4 days**

Description: Combat Medic Advanced Skills Training (CMAST) includes pre-hospital trauma life support (PHTLS) subjects with an emphasis on prehospital trauma life support subjects, emergency medical care, evacuation, and treatment of shock affected trauma casualties using the tenets of tactical combat casualty care during combat operations.

Special Information: This course is not authorized to be used as a MOS reclassification course. Soldiers requiring reclassification to MOS 68W must attend either the 300-68W10 Healthcare Specialist Course or the 081-68W10(F) Healthcare Specialist Reclassification Course. All training sites conducting this course must be an established CMAST training site; submit application for site license through the Dean, Academy of Health Sciences, to the U.S. Army EMT Program Manager, DCMT, for approval prior to conducting training.

After 30 September 2009, this course will only be used for continuing education/sustainment training.

300-91W(EMT BRIDGE)
HEALTHCARE SPECIALIST (91W)EMT BRIDGE

ATRRS Information

Location School Code: 081 **Length: 1 week 3 days**

Description: To prepare Soldiers holding either Primary MOS 91B (Medical Specialist) or Primary MOS 91C (Practical Nurse) for transition to MOS 91W; To prepare qualified enlisted personnel to become Soldier medics

and provide emergency medical treatment, limited primary care, force health protection and evacuation in a variety of operational and clinical settings from point of injury or illness through the continuum of military Healthcare. The abridges, emergency Medical Technician - Basic (EMT-B) course incorporates the United States Department of Transportation National Standard Curriculum and satisfies the training requirements of the National Registry of Emergency Medical Technicians for qualified MOS 91B and MOS 91C personnel. This training assumes the participants have attended and EMT-Basic course in the past, are not presently certified, and do not otherwise meet the prerequisites for a typical recertification/refresher course. Upon successful completion of this course, students will be eligible to take the National Registry Examination for certification as an EMT-B. SCOPE: This course trains the standards of MOS Healthcare Specialist, National Registry EMT-B in skills necessary to become an effective medical care provider for prehospital emergency medical care. This course includes all skills necessary for the individual to provide emergency medical care at a basic life support level. This course is one phase, and is required for transition to MOS 91W.

Special Information: This course will be taught in 8 days (60 hours). Start and end dates will not exceed 2 calendar weeks. Variations of the 2-week start/end dates are authorized with prior approval of Commander, AMEDDC&S, Department of Combat Medic Training. All sites conducting this training must be an established National Registry Emergency Medical Technician - Basic training site and will submit an application to the Dean, Academy of Health Sciences, U.S. Army EMT Program Manager 91W Branch, for approval prior to conducting training. **This is a transition course for the MOS Healthcare Specialist, 91W and will be discontinued 01 OCT 07 for the Active Component and 01 OCT 09 for the Reserve Component.** This course in itself does not qualify the 91B or 91C Soldier for MOS 91W but is to be used with other appropriate transition courses or personal qualifications to complete the qualifications for transition to 91W. Each Soldier must determine which courses are needed to complete transition in the prescribed manner.

This is also available as an 80 hour VideoTeletraining Course.

300-EMT-CE01(DL)
LIFTING AND MOVING TECHNIQUES

ATRRS Information

Location School Code: 081 **Length: 2 days**

Description: This course provides EMT-Basic continuing education hours for medical personnel who possess current National Registry certification. It covers the techniques often utilized by the medic as part of the day to day operation and to ensure safety for the patient as well as the medic. It allows medical personnel to receive this training at their duty locations and to meet mandatory requirements for recertification.

The AMEDDC&S is approved for the EMT-Basic Training Program and Continuing Education Courses through affiliation with the Military Training Network. Each continuing education course follows the United States Department of Transportation EMT-Basic National Standard Curriculum guidelines. This continuing education course consists of 2-hours of classroom training and written quiz. The didactic portion of the course will be conducted through use of VTT technology and/or via web. Students will be administered a ten (10) question, multiple-choice quiz. Documentation (copy) showing successful completion of course is provided by AMEDDC&S. A certificate is issued for completion of the didactic training and written quiz. The original documentation is retained by the student and submitted to the National Registry. The student forwards this certificate to the National Registry for registration.

Special Information: Must contact course POC at teletng.network@cen.amedd.army.mil or COMM: (210)221-8135/8138 or DSN: 471-8135/8138 for information concerning VTT classroom locations and availability. Class START and END times will also be given.

300-EMT-CE02(DL)
AMBULANCE OPERATIONS

ATRRS Information

Location School Code: 081 **Length: 2 days**

Description: This course provides EMT-Basic continuing education hours for medical personnel who possess current National Registry certification. It covers the safety features of the ambulance and the safe operations while on the scene and transportation to and from the scene. It allows medical personnel to receive this training at their duty locations and to meet mandatory requirements for recertification.

The AMEDDC&S is approved for the EMT-Basic Training Program and Continuing Education Courses through affiliation with the Military Training Network. Each continuing education course follows the United States Department of Transportation EMT-Basic National Standard Curriculum guidelines. This continuing education course consists of 2-hours of classroom training and written quiz. The didactic portion of the course will be conducted through use of VTT technology and/or via web. Students will be administered a ten (10) question, multiple-choice quiz. Documentation (copy) showing successful completion of course is provided by AMEDDC&S. A certificate is issued for completion of the didactic training and written quiz. The original documentation is retained by the student and submitted to the National Registry. The student forwards this certificate to the National Registry for registration.

Special Information: Must contact POC at teletng.network@cen.amedd.army.mil or COMM: (210) 221-8135/8138 or DSN: 471-8135/8138 for information concerning VTT classroom locations and availability. Class START and END times will also be given.

300-EMT-CE03(DL)
AIRWAY MANAGEMENT

ATRRS Information

Location School Code: 081 **Length: 2 days**

300-EMT-CE08(DL)
TRAUMA ASSESSMENT

ATRRS Information

Location School Code: 081 **Length: 2 days**

Description: This course provides EMT-Basic continuing education hours for medical personnel who possess current National Registry certification. This VTT course provides instruction on performing correct assessment related to a patient's mechanism of injury, level of consciousness, and appropriate pre-hospital care related to physical findings. It focuses on the medic and the challenges they face and proper techniques in providing care for the Trauma patient. It allows medical personnel to receive this training at their duty locations and to meet mandatory requirements for recertification.

The AMEDDC&S is approved for the EMT-Basic Training Program and Continuing Education Courses through affiliation with the Military Training Network. Each continuing education course follows the U.S. Department of Transportation EMT-Basic: National Standard Curriculum guidelines. This continuing education course consists of 2-hours of classroom training and written quiz. The didactic portion of the course will be conducted through use of VTT technology and/or via web. Students will be administered a ten (10) question, multiple-choice quiz. Documentation (copy) showing successful completion of course is provided by AMEDDC&S. A certificate is issued for completion of the didactic training and written quiz. The original documentation is retained by the student and submitted to the National Registry. The student forwards this certificate to the National Registry for registration.

Special Information: Must contact course POC at teletng.network@cen.amedd.army.mil or COMM: (210) 221-8135/8138 or DSN: 471-8135/8138 for information concerning VTT classroom locations and availability. Class Start and End times will also be given.

300-EMT-CE09(DL)
BLEEDING AND SHOCK

ATRRS Information

Location School Code: 081 **Length: 2 days**

Description: This course provides EMT-Basic continuing education hours for medical personnel who possess current National Registry certification. The VTT course provides instruction to the student medic on the bodies physiological changes as the body goes into shock. It addresses the challenges in determining and treating this life threatening condition. It allows medical personnel to receive this training at their duty locations and to meet mandatory requirements for recertification.

The AMEDDC&S is approved for the EMT-Basic Training Program and Continuing Education Courses through affiliation with the Military Training Network. Each continuing education course follows the U.S. Department of Transportation EMT-Basic: National Standard Curriculum guidelines. This continuing education course consists of 2-hours of classroom training and written quiz. The didactic portion of the course will be conducted through use of VTT technology and/or via web. Students will be administered a ten (10) question, multiple-choice quiz. Documentation (copy) showing successful completion of course is provided by AMEDDC&S. A certificate is issued for completion of the didactic training and written quiz. The original documentation is retained by the student and submitted to the National Registry. The student forwards this certificate to the National Registry for registration.

Special Information: Must contact course POC at teletng.network@cen.amedd.army.mil or COMM: (210) 221-8135/8138 or DSN: 471-8135/8138 for information concerning VTT classroom locations and availability. Class Start and End times will also be given.

300-EMT-CE010(DL)
ADVANCED AIRWAY MANAGEMENT

ATRRS Information

Location School Code: 081 **Length: 2 days**

Description: This VTT course provides EMT-Basic continuing education hours for medical personnel who possess current National Registry certification. It discusses and reinforces the mechanics of respiration, patient assessment of the respiratory system, maintaining an open airway, and artificial ventilation techniques utilizing advanced techniques and equipment. Airway management is the first step in patient care. It allows medical personnel to receive this training at their duty locations and to meet mandatory requirements for recertification.

The AMEDDC&S is approved for the EMT-Basic Training Program and Continuing Education Courses through affiliation with the Military Training Network. Each continuing education course follows the U.S. Department of Transportation EMT-Basic: National Standard Curriculum guidelines. This continuing education course consists of 2-hours of classroom training and written quiz. The didactic portion of the course will be conducted through use of VTT technology and/or via web. Students will be administered a ten (10) question, multiple-choice quiz. Documentation (copy) showing successful completion of course is provided by AMEDDC&S. A certificate is issued for completion of the didactic training and written quiz. The original documentation is retained by the student and submitted to the National Registry. The student forwards this certificate to the National Registry for registration,

Special Information: Must contact course POC at teletng.network@cen.amedd.army.mil or COMM: (210) 221-8135/8138 or DSN: 471-8135/8138 for information concerning VTT classroom locations and availability. Class Start and End times will also be given.

300-EMT-CE011(DL)
CNS INJURIES

ATRRS Information

Location School Code: 081 **Length: 2 days**

Description: This VTT course provides EMT-Basic continuing education hours for medical personnel who possess current National Registry certification. It discusses etiology and MOI of CNS injuries, signs, and symptoms and treatment of injuries to the brain and spinal cord. It allows medical personnel to receive this training at their duty locations and to meet mandatory requirements for recertification.

The AMEDDC&S is approved for the EMT-Basic Training Program and Continuing Education Courses through affiliation with the Department of Combat Medic Training. Each continuing education course follows the U.S. Department of Transportation EMT-Basic: National Standard Curriculum guidelines. This continuing education course consists of 2-hours of classroom training and written quiz. The didactic portion of the course will be conducted through use of VTT technology and/or via web. Students will be administered a 10 question, multiple-choice quiz. Documentation (copy) showing successful completion of course is provided by AMEDDC&S. A certificate is issued for completion of the didactic training and written quiz. The original documentation is retained by the student and submitted to the National Registry. The student forwards this certificate to the National Registry for registration.

Special Information: Must contact course POC at teletng.network@cen.amedd.army.mil or COMM: (210)221-8135/8138 or DSN: 471-8135/8138 for information concerning VTT classroom locations and availability. Class Start and End times will also be given.

300-EMT-CE012(DL)
MEDICAL COVERAGE FOR SPECIAL EVENTS

ATRRS Information

Location School Code: 081 **Length: 2 days**

Description: This VTT course provides EMT- Basic continuing education hours for medical personnel who possess current National Registry certification. It will demonstrate to the medic how to plan for medical coverage for such events as rallies, MCI's and emergency management procedures. It allows medical personnel to receive this training at their duty locations and to meet mandatory requirements for recertification.

The AMEDDC&S is approved for the EMT-Basic Training Program and Continuing Education Courses through affiliation with the Department of Combat Medic Training. Each continuing education course follows the United States Department of Transportation EMT-Basic: National Standard Curriculum guidelines. This continuing education course consists of 2-hours of classroom training and written quiz. The didactic portion of the course will be conducted through use of VTT technology and/or via web. Students will be administered a ten (10) question, multiple-choice quiz. Documentation (copy) showing successful completion of course is provided by AMEDDC&S. A certificate is issued for completion of the didactic training and written quiz. The original documentation is retained by the student and submitted to the National Registry. The student forwards this certificate to the National Registry for registration.

Special Information: Must contact course POC at teletng.network@cen.amedd.army.mil or COMM: (210)221-8135/8138 or DSN: 471-8135/8138 for information concerning VTT classroom locations and availability. Class Start and End times will also be given.

300-EMT-CE013(DL)
SPECIAL POPULATION ASSESSMENT

ATRRS Information

Location School Code: 081 **Length: 2 days**

Description: This VTT course provides EMT- Basic continuing education hours for medical personnel who possess current National Registry certification. It discusses the variables and challenges faced by the medic with pediatric and geriatric patients. It allows medical personnel to receive this training at their duty locations and to meet mandatory requirements for recertification.

The AMEDDC&S is approved for the EMT-Basic Training Program and Continuing Education Courses through affiliation with the Department of Combat Medic Training. Each continuing education course follows the United States Department of Transportation EMT-Basic: National Standard Curriculum guidelines. This continuing education course consists of 2-hours of classroom training and written quiz. The didactic portion of the course will be conducted through use of VTT technology and/or via web. Students will be administered a ten (10) question, multiple-choice quiz. Documentation (copy) showing successful completion of course is provided by AMEDDC&S. A certificate is issued for completion of the didactic training and written quiz. The original documentation is retained by the student and submitted to the National Registry. The student forwards this certificate to the National Registry for registration.

Special Information: Must contact course POC at teletng.network@cen.amedd.army.mil or COMM: (210)221-8135/8138 or DSN: 471-8135/8138 for information concerning VTT classroom locations and availability. Class Start and End times will also be given.

300-EMT-CE014(DL)
NERVE AGENT

ATRRS Information

Location School Code: 081 **Length: 2 days**

Description: This VTT course provides EMT- Basic continuing education hours for medical personnel who possess current National Registry certification. This course will discuss some of the more common nerve agents, their distribution methods, and signs/symptoms and treatments for these poisonings. It will also discuss measures that need to be taken to ensure medical personnel survival. It allows medical personnel to receive this training at their duty locations and to meet mandatory requirements for recertification.

The AMEDDC&S is approved for the EMT-Basic Training Program and Continuing Education Courses through affiliation with the Department of Combat Medic Training. Each continuing education course follows the United States Department of Transportation EMT-Basic: National Standard Curriculum guidelines. This continuing education course consists of 2-hours of classroom training and written quiz. The didactic portion of the course will be conducted through use of VTT technology and/or via web. Students will be administered a ten (10) question, multiple-choice quiz. Documentation (copy) showing successful completion of course is provided by AMEDDC&S. 300EMTB RECERT (DL)
EMT-BASIC RECERTIFICATION

ATRRS Information

Location School Code: 081 **Length: 1 week**

Description: This course provides EMT Basic Refresher Training for Armed Forces medical personnel who possess current National Registry certification. It allows medical personnel to receive training at their duty/remote locations and to meet the mandatory requirements for EMT-Basic re-certification. Major subject areas include preparatory techniques; airway management; patient assessment; medical/behavioral emergencies; trauma; obstetrics, infants and children; and operations.

Special Information: The AMEDDC&S is approved for the EMT-Basic Training Program through affiliation with the Military Training Network. The course follows the U.S. Dept of Transportation (DOT) EMT-Basic, National Standard Curriculum Guidelines. The course exists of seven (7) training modules, practical skills testing and written exam. The didactic portion of the course will be conducted through use of video teletraining (VTT) technology. Practical skills verification/testing and application training will be conducted by an on-site physician or physician assistant at all remote training locations. The hands-on performance segment must be successfully completed within thirty (30) days after the didactic VTT phase is completed. Documentation (copy) showing successful completion of hands-on skills must be submitted within thirty (30) days and documentation provided to AMEDDC&S, 3151 Scott Road, Ft Sam Houston TX 78234. The original documentation is retained by the student and submitted to the National Registry. The written exam requires a minimum score of 70 with one re-test possible. A certificate is issued for completion of the didactic training and passing of final exam. The student forwards this certificate and hands-on completion to the National Registry for registration. Students must contact teletng.network@amedd.army.mil or COMM: (210)221-8135/8138 or DSN: 471-8135/8138 for information concerning VTT classroom locations and availability. Class start and end times will be given.

6-8-C40(68W30)(MTT) PHASE 2
HEALTHCARE SPECIALIST ALC MTT Phase 2

ATRRS Information

Location School Code: 082 **Length: 1 week 1 day**

Description: The 68W ALC MTT is a three-phased course.

Phase 1 is 600-ALC (formerly 600-BNCOC), ALC Common Core, required of all Soldiers attending NCOES.

Phase 2 consists of Career Management Field (CMF), which includes the dL requirement, and Military Occupational Specialty (MOS) 68W tasks and is conducted at multiple training sites using a Mobile Training Team (MTT) from the AMEDD NCO Academy, Fort Sam Houston, TX. The team travels to the requesting unit's location to conduct the Phase 2 training. At the conclusion of Phase 2, Soldiers proceed to Fort Sam Houston, TX for advanced technical training provided by the Department of Combat Medical Training.

Phase 3 consists of select 68W technical tasks and is conducted by 68W proponent instructors.

Both Phase 2 and Phase 3 are to be filled by only those personnel approved through FORSCOM and the requesting post's Division Point of Contact (POC). The phases must be attended consecutively. These two phases of the course grant 68Ws constructive credit for their deployed experiences and reduce the length of the equivalent 6-8-C40(68W30), Phase 2, down to two weeks. Soldiers are required to complete 600-ALC (formerly 600-BNCOC), Phase 1, prior to being awarded credit for completion of ALC.

Phase Scope: This phase is phase two of the three phase 6-8-C40(68W30 MTT) HEALTHCARE SPECIALIST ALC. This phase provides timely training to selected E5 (P) and E6 68W NCOs with the skills and knowledge required to perform duties appropriate to the rank of SSG in both a field and garrison environment.

Special Information: The course is requested through Division HQs to FORSCOM. This strategy is specified for brigade combat teams (BCT) and those units returning from deployment. Arrangements to host a 68W ALC MTT at a specific location must be made through FORSCOM. There is a minimum of 20 students required in order to conduct a class. No individuals from any other units outside the hosting unit's area of responsibility (AOR) should fill slots without requesting and receiving prior approval. Anyone that makes a reservation in ATRRS without going through the proper channels will be returned to the unit and not enrolled. Enrollment in the CMF dL is automatic based on ATRRS. Refer to 6-8-C40 (68W30) for courseware information.

6-8-C40(68W30)(MTT)
HEALTHCARE SPECIALIST ALC MTT Phase 3

ATRRS Information

Location School Code: 082 **Length: 1 week 1 day**

Description: The 68W ALC MTT is a three-phased course.

Phase 1 is 600-ALC (formerly 600-BNCOC), ALC Common Core, required of all Soldiers attending NCOES.

Phase 2 consists of Career Management Field (CMF), which includes the dL requirement, and Military Occupational Specialty (MOS) 68W tasks and is conducted at multiple training sites using a Mobile Training Team (MTT) from the AMEDD NCO Academy, Fort Sam Houston, TX. The team travels to the requesting unit's location to conduct the Phase 2 training. At the conclusion of Phase 2, Soldiers proceed to Fort Sam Houston, TX for advanced technical training provided by the Department of Combat Medical Training.

Phase 3 consists of select 68W technical tasks and is conducted by 68W proponent instructors.

Both Phase 2 and Phase 3 are to be filled by only those personnel approved through FORSCOM and the requesting post's Division Point of Contact (POC). The phases must be attended consecutively. These two phases of the course grant 68Ws constructive credit for their deployed experiences and reduce the length of the equivalent 6-8-C40(68W30), Phase 2, down to two weeks. Soldiers are required to complete 600-ALC (formerly 600-BNCOC), Phase 1, prior to being awarded credit for completion of ALC.

Phase three, the final phase of the three-phase 6-8-C40(68W30 MTT)HEALTHCARE SPECIALIST ALC course. This phase teaches the technical MOS specific skill level 30 critical tasks and skills.

Special Information: This course is under the jurisdiction of the Commandant of the AMEDD NCO Academy, U.S. Army Medical Department Center and School. Prior to this phase, students should complete course 6-8-C40 (DL). Completion of the DL (40 hours) is a requirement for graduation from, not enrollment in, ALC.

DEPARTMENT OF DENTAL SCIENCE (DDS)

081-68E10 (F)
TATS DENTAL SPECIALIST Phase 1

ATRRS Information

Location School Code: R081 **Length: 2 weeks 1 day**

Description: This course provides training for prior service Reserve Component Soldier in skills necessary to perform tasks required of a dental assistant in the examination, care, and treatment of dental diseases and disorders.

This phase provides the prior service Reserve Component Soldier with the skills necessary to perform tasks associated with basic life support for healthcare providers, dental materials, infection control, dental radiology, chair, unit, and hand-piece maintenance.

Special Information: Soldiers reporting for training must have in his/her possession a completed Pre-Execution Checklist signed by the unit commander and any waivers. Request for waiver of a course prerequisite must be submitted to: AMEDD Personnel Proponent Directorate, ATTN MCCS-DE, 1400 E Grayson St, Ft Sam Houston TX 78234-5052. SSGs' will receive a certificate of completion after attending Phase 2 of this course; additional skill level 30 training is required to be awarded the MOS.

Phase 1 contains 13-hours of self-study that is to be completed by the Soldier on his/her own time. Soldiers will be tested on the self-study upon arrival for training.

081-68E10 (F)
TATS DENTAL SPECIALIST Phase 2

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: This course provides training for prior service Reserve Component Soldier in skills necessary to perform tasks required of a dental assistant in the examination, care, and treatment of dental diseases and disorders.

This phase provides the Soldier skills necessary to perform dental assistant duties. Subjects include dental administration, dental restorative and specialty instrumentation, general assisting, surgical assisting and familiarization with field dental equipment.

Special Information: Soldiers reporting for training must have in his/her possession a completed Pre-Execution Checklist signed by the unit commander and any waivers. Request for waiver of a course prerequisite must be submitted to: AMEDD Personnel Proponent Directorate, ATTN MCCS-DE, 1400 E Grayson St, Ft Sam Houston TX 78234-5052. SSGs' will receive a certificate of completion after attending Phase 2 of this course, additional skill level 30 training is required to be awarded the MOS.

330-68E10
DENTAL SPECIALIST

ATRRS Information

Location School Code: 081 **Length: 7 weeks 3 days**

Description: Provides the student with the skills necessary to perform tasks required of a dental assistant in the examination, care and treatment of dental diseases and disorders. Subjects include basic dental sciences, dental radiology, general duties, dental records, dental equipment (TDA & TO&E), and relevant training on

Warrior Ethos tasks as part of the Army-wide AIT sustainment training for warrior skills to ensure survivability in the contemporary operating environment.

Upon successful completion of the course, graduates are awarded the 68E10 MOS.

Special Information: Reserve Component Soldiers will arrive at Ft Sam Houston with the following items MPRJ 201 file, Medical Record, Dental Record and complete basic clothing issue, to include running shoes.

Serves as a prerequisite training for the 24-week Dental Laboratory Course, 331-N5 (ASI N5), the 12-week Preventive Dentistry Course, 330-X2 (ASI X2). The course is 7 weeks in duration.

Active Army applicants utilize DA Form 4187, DA Form 2 and 2-1, and recommendation from chain of command evaluating the Soldier's potential and ability to complete the course to CDR, PERSCOM TAPC-EPT-F, 2461 Eisenhower Ave Alexandria, VA 22331-0400.

National Guard and Army Reserve SSGs' will receive a certificate of completion for attending this course, additional skill level 30 training is required to be awarded the MOS.

All requests for waivers must be submitted to: CDR AMEDD Center & School, AMEDD Personnel Proponent Directorate, ATTN: MCCS-DE, 2427 Hood Street, Ft Sam Houston, TX 78234-7584.

330-F3 (DL)
BASIC EXPANDED FUNCTIONS DENTAL ASSISTANT Phase: 1

ATRRS Information

Location School Code: 081 **Length: 2 days**

Description: The Basic Expanded Functions Dental Assistant Course is designed to train selected individuals to assist the Army Dental Care System in the provision of direct patient care. Target terminal skills for the EFDA include: placement of direct restorations following cavity preparation by a dentist; provision of hygiene services to patients who are, ideally, diagnosed with Periodontal Screening and Recording scores of 0-2; and other miscellaneous, reversible procedures in support of dental care. This is a three-phase course. Phase 1 is a 12-hour distributed learning phase via Internet that the student must complete prior to reporting to the Academy of Health Sciences (AHS), US Army Medical Department Center and School (AMEDDC&S), Fort Sam Houston (FSH), Texas. Phase 2 is a 1-week resident course taught at AHS, AMEDDC&S, FSH. Phase 3 is when the student will return to his/her place of duty to perform on-the-job-training. The entire course, lasting up to 30 months, combines distance learning, direct instruction from the Department of Dental Science, AMEDDC&S, and close, individual mentorship by Designated Trainers in the clinical phase of training.

During Phase 1 students will access the DENCOM website and download study material covering topics such as cavity classification, dental restorative materials, oral infections, oral disease, basic dental anatomy and a course overview. The student is expected to become thoroughly familiar with this material, and will take an examination over the content shortly after arrival at Phase 2.

Special Information: There is no special information.

330-F3
BASIC EXPANDED FUNCTIONS DENTAL ASSISTANT Phase: 2

ATRRS Information

Location School Code: 081 **Length: 1 week**

Description: The Basic Expanded Functions Dental Assistant Course is designed to train selected individuals to assist the Army Dental Care System in the provision of direct patient care. Target terminal skills for the EFDA include: placement of direct restorations following cavity preparation by a dentist; provision of hygiene

services to patients who are, ideally, diagnosed with Periodontal Screening and Recording scores of 0-2; and other miscellaneous, reversible procedures in support of dental care. This is a three-phase course. Phase 1 is a 12-hour distributed learning phase via Internet that the student must complete prior to reporting to the Academy of Health Sciences (AHS), US Army Medical Department Center and School (AMEDDC&S), Fort Sam Houston (FSH), Texas. Phase 2 is a 1-week resident course taught at AHS, AMEDDC&S, FSH. Phase 3 is when the student will return to his/her place of duty to perform on-the-job-training. The entire course, lasting up to 30 months, combines distance learning, direct instruction from the Department of Dental Science, AMEDDC&S, and close, individual mentorship by Designated Trainers in the clinical phase of training.

Phase 2 is resident training conducted at the Academy of Health Sciences, Fort Sam Houston, Texas or at another training site, which consists of 5 days of mostly hands-on training. Students will place class I, II, and V amalgam and class III and V composite and composite/glass ionomer restorations in both simulated (typhodont) and extracted teeth. Students must demonstrate adequate performance on test restorations in order to continue on to Phase 3.

Special Information: There is no special information.

330-F3
BASIC EXPANDED FUNCTIONS DENTAL ASSISTANT Phase: 3

ATRRS Information

Location School Code: 081 **Length: 26 week**

Description: The Basic Expanded Functions Dental Assistant Course is designed to train selected individuals to assist the Army Dental Care System in the provision of direct patient care. Target terminal skills for the EFDA include: placement of direct restorations following cavity preparation by a dentist; provision of hygiene services to patients who are, ideally, diagnosed with Periodontal Screening and Recording scores of 0-2; and other miscellaneous, reversible procedures in support of dental care. This is a three-phase course. Phase 1 is a 12-hour distributed learning phase via Internet that the student must complete prior to reporting to the Academy of Health Sciences (AHS), US Army Medical Department Center and School (AMEDDC&S), Fort Sam Houston (FSH), Texas. Phase 2 is a 1-week resident course taught at AHS, AMEDDC&S, FSH. Phase 3 is when the student will return to his/her place of duty to perform on-the-job-training. The entire course, lasting up to 30 months, combines distance learning, direct instruction from the Department of Dental Science, AMEDDC&S, and close, individual mentorship by Designated Trainers in the clinical phase of training.

Phase 3 is Job-Site Training, which lasts for six months. The DENTAC Commander at each installation will appoint a dentist as the Designated Trainer (DT) for each EFDA student. The DT will serve as a mentor, instructor, evaluator, and point of contact for this phase of the course. Upon the student's return from Phase 2, the DT will personally arrange clinical encounters for the coming months. Initially, the student will work slowly and should first attempt the least demanding procedures, such as mandibular class I amalgam restorations. Students may at first continue to practice on simulated or extracted teeth, and later begin direct patient care. The DT will arrange the schedule to accommodate the student's initial speed and skill in placing restorations. In addition, the DT will arrange the schedule so that, over the ensuing months, the student will encounter restorative cases of increasing difficulty, such as those, which require visualization with the mouth mirror.

The DT must submit monthly reports to Mr. Ronald Mason, Department of Dental Science of student’s progress accessed through the DENCOM website. The student him/her self must document all restorations attempted during the six-month period. When the student has met the requirements of this phase (see Course 1, Phase 3, requirements and criteria) listed in EFDA hyperlink on DENCOM website, and the student and DT confirm achievement of the necessary skill level; the DT may recommend noncompetitive promotion to 0681-GS-05.

330-F4 (DL)
ADVANCED EXPANDED FUNCTIONS DENTAL ASSISTANT Phase: 1

ATRRS Information

Location School Code: 081 **Length: 2 weeks 4 days**

Description: The EFDA program is designed to train selected individuals to assist the ADCS in the provision of direct patient care. Target terminal skills for the EFDA include: placement of direct restorations following cavity preparation by a dentist; provision of hygiene services to patients who are, ideally, examined with a Periodontal Screening and Recording (PSR) score of 0-2; and other miscellaneous, reversible procedures in support of dental care. The entire course, lasting up to 30 months, combines distance learning (DL), direct instruction from the Department of Dental Science, AMEDDC&S, and close, individual mentorship by Designated Trainer (DT) in the clinical phase of training.

Phase 1 consists of 160 hours of independent study covering a multitude of topics pertaining to restorative and hygiene services. Students access the study material through the DENCOM website. The material contained within this phase is quite voluminous, somewhat challenging, and may require significant time and effort to learn. The student is expected to become thoroughly familiar with this material, and will take a written examination shortly after arrival at Phase 2.

Special Information: Students should begin study in this phase at least four to six months prior to attendance of Phase 2.

330-F4
ADVANCED EXPANDED FUNCTIONS DENTAL ASSISTANT Phase: 2

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: The EFDA program is designed to train selected individuals to assist the ADCS in the provision of direct patient care. Target terminal skills for the EFDA include: placement of direct restorations following cavity preparation by a dentist; provision of hygiene services to patients who are, ideally, examined with a Periodontal Screening and Recording (PSR) score of 0-2; and other miscellaneous, reversible procedures in support of dental care. The entire course, lasting up to 30 months, combines distance learning (DL), direct instruction from the Department of Dental Science, AMEDDC&S, and close, individual mentorship by Designated Trainers (DT) in the clinical phase of training.

Phase 2 is resident training conducted at the Academy of Health Sciences, Ft Sam Houston, Texas, or at another training site, which consists of two weeks of mostly hands-on training to perform treatment as prescribed in the treatment plan by the examining dentist. Activities/tasks performed in support of hygiene services include: review of health history, oral hygiene instruction, periodontal screening and recording verification, blood pressure assessment, detection and removal of calculus and plaque, detection of pathological conditions, and fluoride treatment. Students must demonstrate adequate performance on test restorations and simulations in order to continue on to Phase 3.

Special Information: There is no special information.

330-F4
ADVANCED EXPANDED FUNCTIONS DENTAL ASSISTANT Phase: 3

ATRRS Information

Location School Code: 081 **Length: 26 weeks**

Description: The EFDA program is designed to train selected individuals to assist the ADCS in the provision of direct patient care. Target terminal skills for the EFDA include: placement of direct restorations following cavity preparation by a dentist; provision of hygiene services to patients who are, ideally, examined with a

Periodontal Screening and Recording (PSR) score of 0-2; and other miscellaneous, reversible procedures in support of dental care. The entire course, lasting up to 30 months, combines distance learning (DL), direct instruction from the Department of Dental Science, AMEDDC&S, and close, individual mentorship by Designated Trainers (DT) in the clinical phase of training. Phase 3 is Job-Site Training, which lasts for six months. The DENTAC Commander at each installation will appoint (or reappoint) a dentist and possibly a Registered Dental Hygienist (RDH) (an RDH may serve as the DT for the hygiene services) as the Designated Trainer(s). The DT will serve as mentor, instructor, evaluator, and point of contact for this phase of the course. Upon the student's return from Phase 2, the DT will personally arrange the student's clinical encounters for the coming months, which must include complex restorative cases and hygiene care. The DT(s) must submit monthly reports of student progress accessed through the DENCOM website. The student him/her self must document all restorations attempted during this period. When the student has met the requirements of this phase (see Course 2, Phase 3, requirements and criteria) listed in EFDA hyperlink on DENCOM website, and the student and DT confirm achievement of the necessary skill level; the DT may recommend noncompetitive promotion to 0681-GS-06.

Special Information: The role of the Department of Dental Science is to track and monitor students progress, provide course completion information to ATRRS and to coordinate for student's diploma signed by the Commandant/Dean, Academy of Health Sciences, Ft Sam Houston, Texas.

330-X2
PREVENTIVE DENTISTRY SPECIALTY

ATRRS Information

Location School Code: 081 **Length: 12 weeks**

Description: Provide the student with the necessary knowledge and skills to perform the duties of a Preventive Dentistry Specialist under the supervision of a Dental Corps Officer. Instructional objectives include, but are not limited to: Performing oral hygiene prophylactic procedures; conducting individual oral disease control programs; applying pit and fissure sealants to the teeth; evaluating dental radiographs, and cleaning and sterilizing dental instruments and equipment.

Upon successful completion of the course, graduates are awarded the 68EX2 ASI.

Special Information: Reserve Component Soldiers will arrive at Ft Sam Houston with the following items MPRJ 201 file, Medical Record, Dental Record and complete basic clothing issue, to include running shoes. Submit application with DA form 4187. Include DA form 2 and 2-1 along with commander's recommendation through chain of command to Commander, PERSCOM, TAPC-EPT-F, 2461 Eisenhower Ave, Alexandria, VA 22331-0400.

Request for waivers must be submitted to: CDR, AMEDDC&S, AMEDD Personnel Proponent Directorate ATTN: MCCS-DE, 2427 Hood St., Ft Sam Houston, TX 78234-7584.

331-F1
ADVANCED DENTAL LABORATORY SPECIALTY

ATRRS Information

Location School Code: 883 **Length: 3 weeks 4 days**

Description: This course provides supplemental career training for dental laboratory technicians. Instruction includes studies of the fabrication of metal-ceramic substructures, color, porcelain application with emphasis on internal modifications, porcelain laminate veneers, pressable ceramics, and metal-free infiltration ceramics

Special Information: Application Procedures: Once the Training/Schools NCO submits the digital DA Form 4187 requesting the 331-F1 course, Ms. CYNTHIA SMITH, (AIR FORCE, MP, MI) DSN 221-4597-HRC-SPECIALIZED TRAINING/ASI/SQI/Functional Courses Manger will match the course description in ATRRS to

the Air Force (ORACLE). The 331-F1 course scope mirrors the Air Force Advanced Porcelain Techniques course "J8AZR4Y072 00CA" https://etca.randolph.af.mil . Submit DA Form 4187, copies of DA Form 2 and 2-1, and a commander's recommendation through the appropriate channels to COMMANDER, HUMAN RESOURCES COMMAND, TAPC-EPT-F, 2461 EISENHOWER AVE, ALEXANDRIA, VA 22331-0400. Requests for waivers must be submitted to CDR, AMEDDC&S, Personnel Proponent Directorate, ATTN: MCCS-DE, 1400 E. Grayson St., Fort Sam Houston, TX 78234-6175.

Waxing and porcelain stacking kits are provided. Students are encouraged to bring their personal instruments, waxing/carving instruments, sculpting wax, finishing/polishing burs, brushes, diamonds, etc, along with porcelain stacking and finishing instruments.

331-N5
DENTAL LABORATORY SPECIALTY

ATRRS Information

Location School Code: 883 **Length: 24 weeks**

Description: This course provides selected AMEDD enlisted personnel with the skills and knowledge required to perform as a 68EN5. Academic subjects include basic dental sciences, basic dental laboratory procedures, complete dentures, removal partial dentures, fixed prosthodontics, and special protheses. This course will provide a working knowledge of basic dental laboratory techniques as well as fabrication techniques for complete dentures, removable partial dentures, simple fixed prostheses, orthodontic retainers, and occlusal splints. It also provides a general knowledge of dental laboratory support in a field environment.

Upon successful completion of the course, graduates are awarded the 68EN5 ASI.

Special Information: The 331-N5 course is taught as a Tri-Service course conducted at Sheppard Air Force Base, Wichita Falls, Texas. Submit application packet (DA Form 4187, Form 2 and 2-1, Chalk Carving test results form, and commander's recommendation) through the appropriate channels to Commander, PERSCOM, TAPC-EPT-F, 2461 Eisenhower Ave, Alexandria, VA 22331-0400. Request the Chalk Carving test package at least 90 days prior to the start date of class through your Commander, to Department of Dental Science, ATTN: MCCS-HDL, AHS 3151 Scott Road, Ft Sam Houston, TX 78234-6134.

Request for waivers must be submitted to: CDR, AMEDDC&S, AMEDD Personnel Proponent Directorate, MCCS-DE, 2427 Hood St., Ft Sam Houston, TX 78234-7584.

6C-F1/331-F2
DENTAL MANAGEMENT DEVELOPMENT COURSE (DMDC)

ATRRS Information

Location School Code: 081 **Length: 1 week**

Description: This course provides selected dental enlisted personnel and officers with leadership and personality assessment as well as additional skills and knowledge required to perform duties as an officer or noncommissioned officer in charge of a dental treatment facility. Topics addressed include Dental Care Optimization, Corporate Dental Application, OER/NCOER, Civilian Personnel Issues, Labor Management, Practice Guidelines, Personnel Utilization, Property Supply & Budget Management and Expectations of OICs and NCOICs.

Special Information: This course will be taught by mobile training teams at the following locations: Seoul, Korea; Schofield Barracks, Hawaii; Heidelberg, Germany; Ft Lewis, Washington; Augusta, Georgia; and Walter Reed, Washington, D.C. A resident iteration will also be at AHS, Ft Sam Houston, TX. Submit DA Form 3838 with Commander's recommendation through the appropriate channels to Chief, Department of Dental Science, ATTN: MCCS-HD, Commandant AHS, 3151 Stanley Road, STE 1344, Ft Sam Houston, TX 78234-6134.

Students must pass a written exam (70% correct) at the conclusion of the course to obtain credit for course completion.

Department of Health Education and Training (DHET)

6A-A0101
AMEDD RADIOLOGY CURRENT CONCEPTS IN IMAGING

ATRRS Information

Location School Code: 081 **Length: 5 days**

Description: The course presents specialists in radiology identifying and discussing current trends in all forms of Imaging. It also presents a roadmap for future changes in the field of radiology including digital radiology in fixed facilities and deployed medical facilities.

This course will incorporate a minimum of 1-hour of instruction on corps specific tasks in a CBRNE environment.

Special Information:

COURSE LOCATION: Bethesda, MD

HOW TO ENROLL: Send DA 3838 to Dept of Radiology, Tripler Army Medical Center, Honolulu, HI,

Phone: COMM: (808) 433-6393, FAX: (808) 433-4688

6A-A0102
UNIFORMED SERVICES DERMATOLOGY SEMINAR

ATRRS Information

Location School Code: 081 **Length: 3 days**

Description: This course is designed to develop and maintain a base of current military-oriented dermatologic knowledge among military dermatologists. This unique fund of information, which includes battlefield dermatology, military occupational dermatology, and the medical response to nuclear, chemical, and biologic warfare, is not emphasized at any other annual dermatologic meeting. This course is also designed to encourage the free flow of new ideas pertaining to the diagnosis and treatment of dermatologic illnesses encountered in military dermatology practices, as well as efficient business practices in military dermatologic clinics. Dermatologists who are stationed in the MEDDAC environment are targeted for attendance to this meeting, since this is often the only dermatology CME they can obtain during the year, due to time and money limitations.

This course will incorporate a minimum of 1 hour of instruction on corps specific tasks in a CBRNE environment.

AMEDD VASCULAR SURGERY SEMINAR

ATRRS Information

Location School Code: 081 **Length: 2.5 days**

Description: The Vascular Surgery Seminar is the only military vascular surgery meeting held in the Department of Defense. This meeting focuses on military unique vascular surgery issues to improve combat casualty care.

The course will review lessons learned from the care of vascular injuries during Operation Iraqi Freedom; The specific purpose is to identify successful strategies of vascular trauma management for combat casualties in the current conflicts. We additionally aim to identify current problems with the implementation of endovascular surgery in the military and report on the progress of the Operation Iraqi Freedom Vascular Registry. Methods of data collection and analysis of vascular injuries using the JTTR is a major goal of the seminar. Teaching methods will include case presentations, lectures and discussions. A resident paper competition will be held.

This course will incorporate a minimum of 1 hour of instruction on corps specific tasks in a CBRNE environment

OPERATIONAL AEROMEDICAL PROBLEMS COURSE

ATRRS Information

Location School Code: 081 **Length: 4 days**

Description: The Operational Aeromedical Problems (OAP) Course provides Army flight surgeons and aeromedical physician assistants with the changes in both aeromedical policy and in physical evaluation requirements, as well as new techniques and "best methods" available for conducting an effective aviation medicine program. The course addresses selected topics through both lectures and workshop seminars conducted by subject matter experts. Topics range from concerns and lessons learned in the field, to current prevention and screening methods, to policy changes and implementation. The OAP provides a necessary forum to work toward solutions for issues and problems common to the aeromedical community.

This course will incorporate a minimum of 1-hour of instruction on corps specific tasks in a CBRNE environment.

PRESENT CONCEPTS IN INTERNAL MEDICINE

ATRRS Information

Location School Code: 081 **Length: 4 days**

Description: This program is the only PPSCP oriented to the practice of Internal Medicine in the Army. It has combined several other IM subspecialty courses into one larger course to be more cost-effective, and serves the needs of the largest MC specialty community in the AMEDD, including those in Brigade and Flight Surgeon positions. For the second time in 2008 and with far more integration of effort, this meeting was combined with the Air Force Chapter of the American College of Physicians. This plan will continue for the FY09 meeting. Military unique materials make up a significant portion of the curriculum.

Our specialty's manager from HRC was available for ORB reviews with all attendees. Board of Regents of the American College of Physicians, was the ACP Regent in attendance, and provided updates on College activities and national Healthcare policy issues.

Residents from all six training programs participated in several different competitions, and the winners represented Army Internal Medicine at the National American College of Physicians Annual Session in May 2008.

This course will incorporate a minimum of 1-hour of instruction on corps specific tasks in a CBRNE environment.

6A-A0133
UNIFORMED SERVICES PEDIATRIC SEMINAR

ATRRS Information

Location School Code: 081 **Length: 4 days**

Description: This is an annual Combined Uniformed Services (Army, Navy, Air Force and Public Health Corps) course in which leading pediatric experts (military & civilian) will use both didactics and interactive workshops to present a broad range of topics with a focused emphasis on operational readiness and peace time Healthcare of relevance to military pediatrician. It comes at a time, with base realignment initiatives, where "jointness" is the future of military medicine. The curriculum includes topics such as humanitarian assistance operations, multiple CBRNE topics, effect of deployment on families and operational experiences, presentations on Healthcare promotion, obesity, newborn screening and infectious disease and best office based practices relevant to the military pediatrician. Also included are multiple sessions focused on first-responder and office based emergencies involving newborns, child abuse, cardiology, endocrinology, toxicology, neurology, adolescents, orthopedics, urology, gastroenterology and intensive care.

Research awards for outstanding research are given to staff and residents at this meeting, which is very important for maintaining the excellence of Army Pediatrics and its training programs. In addition, a number of leadership and achievement awards are given out to recognize the best of the best and this has a tremendous impact on developing the leaders of the future. In addition, this annual course always has sessions on updates in the state of military pediatrics, managing ones military career, status of military pediatric training programs as well as updates in staffing and assignments for individuals and hospitals. Selected leaders in military pediatrics (program directors, department chiefs and consultants) will attend a leadership & strategic planning session the day prior to the main meeting and interact with line pediatricians in a variety of formats (small group and individual meetings) designed to ensure communication between the leadership and the troops. These sessions are of special importance with the ongoing GWOT. These sessions are also designed for the leaders of the military's pediatric training programs to update requirements and share new ideas and information on how to improve their training programs.

Additionally, approximately one dozen Army participants will also attend (using their own local funding) the 2-day Military Medical Humanitarian Assistance Course which will be held in tandem immediately following this course to save money. This course provides extensive hands on practical training to military pediatricians who are likely to be deployed to humanitarian operations other than war. An additional 1 or 2 Army staff will use this course as a train the trainer experience where they obtain their supervised instructor experience, which is a requirement to become a certified course instructor.

This course will incorporate a minimum of 1-hour of instruction on corps specific tasks in CBRNE environment.

6G-300/A0301
VETERINARY LABORATORY RAPID DIAGNOSTIC COURSE

ATRRS Information

Location School Code: 081 **Length: 2 weeks 2 days**

Description: This course is designed primarily for the main technician responsible for the operation of the equipment and supplies provided in the VES Field Microbiology and VES Food Testing Sets Kits and Outfits. The DoDVeterinary Food Analysis and Diagnostic Laboratory and AMEDDC&S Department of Veterinary Science staff will provide training topics to include basic food laboratory set-up and maintenance, laboratory safety, microbiological and chemical indicator testing and the use of the action limit tables. The majority of the course is conducted in the laboratory, where the attendee is trained on the basics of the equipment and supplies, the use and limitations of the tests, the receipt, processing, and disposal of samples, the reporting of results, and the proper response to presumptive positive results. The course culminates with each attendee processing their own set of samples to standard and proper reporting of their results and recommendation in both a written and verbal format. Individual subjects and laboratory tests emphasized are dependent on the changing technology and the mission needs.

This course will incorporate a minimum of 1-hour of instruction on corps specific tasks in a CBRNE environment.

Special Information:

RESEARCH & DEVELOP MILITARY VETERINARY MED

ATRRS Information

Location School Code: 081 **Length: 4 days**

Description: This symposium provides an update of Veterinary Corps (VC) and Veterinary Service (VS) responsibilities and opportunities in DoD research and development (R&D). The central theme of this course is to expose attendees to the emerging trends in science and technology used to support the DoD R&D mission. This theme is overlaid with presentations and discussions about the various VC R&D specialists, and how they contribute to the readiness and sustainment mission. Subjects addressed are the R&D needs of the services (Army, Navy, and Air Force); how emerging technologies are being leveraged to fulfill those needs; DoD research facilities and their missions; and training opportunities, responsibilities, and typical career models of the various R&D specialties. Subjects are selected based on current scientific activities in military biomedical research and operational requirements for veterinary services personnel within this arena. Lectures, small group discussions, laboratory and practical exercises, and site visits are used for instructional purposes.

This course will incorporate a minimum of 1-hour of instruction on corps specific tasks in a CBRNE environment.

Special Information: There is no special information.

6G-A0311
PATHOLOGY FOR CLINICAL VETERINARIANS COURSE

ATRRS Information

Location School Code: 081 **Length: 3 days**

Description: Directed by U.S. Army Veterinary Laboratory Europe, Landstuhl, Germany, this course is designed to provide ten selected Veterinary Corps Officers (VCO) assigned to the EUCOM and CENTCOM theaters with intensive specialty training in pathology. It consists of three days of morning didactic and afternoon practical wet-lab sessions. Day one focuses on necropsy techniques, gross lesion descriptive terminology, forensic pathology, and current problems and projects within the military working dog program. A necropsy techniques practical laboratory follows. Day two covers cytology specimen collection, preparation and interpretation using an algorithmic approach. A subsequent cytology wet-lab involves individual case interpretation and group review. Day three consists of lectures on a variety of clinical pathology topics, followed by a practical case review session. Participants are limited to the above theaters because of the need to address military working dog issues specific to these areas and the limited availability of regional continuing education coursed in English. Board-certified veterinary pathologists, experienced with the applicable subjects, will give the course lectures and conduct the laboratories.

Special Information: Continuing Health Education credit will be issued upon the completion of the course.

6G-A0312
VETERINARY DISASTER OPERATIONS

ATRRS Information

Location School Code: 081 **Length: 3 days**

Description: To provide selected Veterinary Corps officers an in-depth exposure to Veterinary Disaster Operations with a focus on agro-terrorism and CBRNE response. The course includes both didactic and practical exercises.

Special Information:

6G-A0314
INTERNATIONAL VETERINARY SYMPOSIUM

ATRRS Information

Location School Code: 081 **Length: 5 days**

Description: This symposium is designed to prepare Veterinary Services personnel of the U.S. Army and Allied countries throughout EUCOM to provide veterinary support in combined military exercises and operations. The Global War on Terrorism has gained multinational support, and many operations and EUCOM exercises involve Soldiers of numerous countries. The focus will be on how other countries provide veterinary support to their military, organizational structure, equipment, future initiatives, military veterinary medical care and food inspection, and lessons learned from real-world support operations. The working relationships and cooperative efforts developed will be instrumental in operations where veterinary personnel from multiple countries plan, develop, and execute veterinary support.

Special Information: This course includes at least 10-hours CE Contact training.

6H-300/A0406
SPERANDIO, PLAN OPERATIONS, INTELLIGENCE, TNG

ATRRS Information

Location School Code: 081 **Length: 5 days**

Description: The course will include the latest in operational medicine planning and support techniques and procedures. This includes a broad range of topics, which will be presented by subject matter experts on each area. Presentations via lectures, discussion groups and workshops will provide participants cutting edge knowledge of best practice methodologies.

ARMY MEDICAL EVACUATION CONFERENCE

ATRRS Information

Location School Code: 081 **Length: 5 days**

Description: The purpose of the course is to teach current evacuation concepts and doctrine, update safety and standardization regulations, review changes in equipment, brief lessons learned from CTC and current operations through lectures in plenary sessions and discussions in workshops.

This course will incorporate a minimum of 1-hour of instruction on corps specific in a CBRNE environment.

Special Information: There is no special information.

6H-300/A0608
MANAGEMENT OF BURNS AND MULTIPLE TRAUMA

ATRRS Information

Location School Code: 081 **Length: 5 days**

Description: This course is designed for participants from all corps to enhance their military readiness in the management of Burn and Multiple Trauma casualties.

The course is designed to enhance the participants understanding of the management and rehabilitation goals of common battlefield injuries. Participants will receive lectures, demonstrations, case studies and assess scenarios for patients sustaining burns, orthopedic trauma, and multi-system injury from the point of injury through rehabilitation and into community reintegration. Topics include appropriate burn wound care, inpatient and outpatient burn rehabilitation, amputee management and rehabilitation as well as management of

fractures. Special emphasis will be placed upon minimizing devastating and life long disability and maximizing the patient functional outcome.

Participants will also compare and contrast "in the field" vs. "fixed facility" treatment strategies.

This course will incorporate a minimum of 1-hour of instruction on corps specific tasks in a CBRNE environment.

Special Information:

MANAGEMENT OF COMBAT STRESS CASUALTIES

ATRRS Information

Location School Code: 081 **Length: 2 weeks 9 days**

Description: This course prepares participants to work effectively in the nine functional mission areas of Combat and Operational Stress Control (COSC). The intended audience is Army behavioral health personnel,

but is open to behavioral healthcare providers of the Navy, Air Force, and Public Health Service. Going beyond typical classroom instruction, this course employs experiential learning via rotating leadership positions, student lead presentations, employing course participant led traumatic event management techniques, and the conduction and presentation of unit needs assessments. Casualty management scenarios are conducted throughout a continuous operations field training exercise in a simulated forward operating base environment. Instruction is conducted under austere conditions at Camp Bullis, Texas. The course utilizes a scenario driven exercise, placing course participants in a notional deploying Medical Detachment Combat Stress Control (CSC). From the time of reporting for training, students function in staff and leadership positions as a member of a deployed COSC Team.

This course incorporates a minimum of 1 hour of instruction on the CSC team response to CBRNE incidents.

INTENSIVE HANDS-ON ORAL & MAXILOFACIAL SURG

ATRRS Information

Location School Code: 081 **Length: 5 days**

Description: Mini-residency in oral and maxillofacial surgery is a five-day course which allows training and familiarization of the intense didactic and clinical rigors of a four-year Advanced Education in Oral and Maxillofacial Surgery Program. The purpose of the course is to decrease the high rate of residents that are selected for training in these programs but later decide the program demands exceed their anticipation of the stringent demands of the training program. The participants will accompany residents and staff throughout the educational experience in order to obtain an extremely broad and diverse clinical experience. The goals are to familiarize participants with the multi-disciplinary approach to the specialty. Participation in the course is designed to allow the student to be exposed to the rigors of satisfying the demanding educational requirements of the American Board of Oral and Maxillofacial Surgery. Instruction is designed to provide the course attendee

familiarization with initial diagnostic evaluation of routine and medically compromised patients, instructional courses in oral surgery and biomedical sciences, conferences and seminars and participate in rotations on medicine, anesthesia, surgery, trauma, and neurosurgery services. The participants will be provided with experience in dentoalveolar surgery, sedations, outpatient general anesthetics, and endosseous dental implants. Actual participant experience will be determined by the Chief, Oral and Maxillofacial Surgery of the clinic or hospital at which the course is sponsored.

HEALTH FACILITY LIFE CYCLE ACQUISITION

ATRRS Information

Location School Code: 081 **Length: 4 days**

Description: The Health Facility Life Cycle Acquisition PPSC is intended to provide professional training and education to the architects, engineers, facility planners, biomedical equipment planners, clinicians, and health systems planners responsible for the planning, design, construction and sustainment of U.S. Army health facilities worldwide, valued at over $7.3 billion. This Army sponsored course also provides the only dedicated forum for information exchange between health facility professionals from the Department of Defense (DoD), Navy, Air Force, and other key federal and civilian health organizations. The course format is designed to instruct, consult, and exchange methodologies on health facility planning. The facility life cycle acquisition and program components of sustainment, renewal, and replacement are specific elements of training. Planning for advanced medical equipment and sophisticated Healthcare delivery systems projected more than 20 years into the future, requires a continuous self-educating endeavor. This course supplements that individual educational process with directed group training and interactive workshops on programming and master planning processes, project validation, design, construction, transition, and OMD major repair lessons learned, and senior leadership visions. Additionally, the Health Facility Life Cycle Acquisition PPSC has a substantial readiness training component wherein interactive workshops, practical exercises and didactic sessions are

employed to prepare and maintain the special facility planning skills necessary to support deployments under all war and other than war scenarios.

Special Information: Continuing Health Education credits will be awarded upon completion of the course.

COURSE LOCATION: San Antonio, TX

HOW TO ENROLL: Send DA 3838 to USA Health Facility Planning Agency, 5109 Leesburg Pike, Suite 679, Falls Church, VA 22041-3258

Phone: COMM: (703) 681-3166

6H-A0632
JOINT OPERATIONAL DEPLOYMENT COURSE

ATRRS Information

Location School Code: 081 **Length: 5 days**

Description: This course is designed to teach active and reserve component physical therapists (PTs) from the Army, Navy, Air Force and US Public Health Service about their roles and responsibilities while deployed for combat operations and support/ sustainment operations. The purpose of this course is derived from the principle of "Sports Medicine on the Battlefield... operational readiness through injury prevention and early intervention" developed at the United States Military Academy, West Point, NY. The concepts for managing injured elite athletes and returning them to the playing field as quickly and safely as possible shares the same common goal of returning injured Soldiers to their units in garrison or combat. This course provides military PTs an opportunity to develop core-advanced competencies in orthopaedic triage and management of acute musculoskeletal and neurological injuries while deployed. These same evidence-based competencies are used to return injured Soldiers "tactical athletes" to a high level of military technical and tactical readiness. This course also brings participants to an advanced level of understanding in general medicine topics (triage, differential diagnosis, and orthopedics) and methods of tracking procedures and patient outcomes.

This course is mandatory for all active component Army 65Bs on PROFIS status and recommended for all Army Reserve and National Guard component 65Bs.

Due to the ongoing changes in military strategy and the need to continually update this course, participants will be allowed to apply and attend the course more than once. However, selected participants must wait a minimum of 3 years before again attending the course.

4B-F2/198-68A10
BIOMEDICAL EQUIPMENT SPECIALIST

ATRRS Information

Location School Code: 883 **Length: 41 weeks**

Description: This training will consist of the skills and knowledge necessary to enable a unit level maintainer to perform medical equipment maintenance services characterized by: repair by module replacement, to include simple printed circuit board repair; the repair of general medical, dental, or optical equipment malfunctions; the adjustment of medical, dental, or optical equipment utilizing common and special purpose tools, and Test, Measurement, and Diagnostic Equipment (TMDE); and the performance of scheduled preventive maintenance checks and services (PMCS), calibration, verification, certification,(CVC) and electrical safety teats. Upon successful completion of the course, graduates are awarded MOS 68A.

Special Information: Active Army must utilize DA Form 4187 and include ERB, DA Form 2-1, and letters of recommendation from the chain of command evaluating applicant's potential and ability to complete this course. National Guard and Army Reserve SSGs' will receive a certificate of completion for attending this course, additional skill level 30 training is required to be awarded the MOS.

Submit all waiver requests to: CDR, AMEDD Center & School, AMEDD Personnel Proponent Directorate, ATTN: MCCS-DE, 2427 Hood St, Ft Sam Houston, TX 78234-7584. This course is conducted at Sheppard AFB, TX 76311-5000. Reserve Component Soldiers may be accessed into this program as IET.

4B-670A
HEALTH SVCS WARRANT OFFICER BASIC

ATRRS Information

Location School Code: 081 **Length: 6 weeks**

Description: The course is designed to prepare Warrant Officers of the Army Active Component (AC) and Reserve Component (RC) to perform the technical and tactical tasks required of a specialty trained Health Services Maintenance Officer at the WO1/WO2 level and to certify their entitlement to be awarded the MOS 670A. The 4B-670A course provides instruction on the responsibilities of the Health Services Maintenance Technician: equipment management (maintenance and property), administrative functions, maintenance and property accounting concepts, equipment management systems, field medical training, automated information systems, logistics functions, and related general subjects. Students will receive training on field medical equipment, identifying electrical safety and power generation issues, and potential maintenance problems in a Deployable Medical Systems (DEPMEDS) facility, located at Camp Bullis, Texas.

Special Information: There is no special information.

5K-F21/012-F46
FORCE XXI BATTLE CMD BDE AND BELOW (FBCB2)

ATRRS Information

Location School Code: 081 **Length: 3 days**

Description: This course will provide instructors with: an understanding of how the FBCB2 system can be integrated into the business process to accomplish the mission and; the skill and knowledge to train others in the FBCB2 operator-level functionality.

Special Information: To enroll enter the ATRRS course number 5K-F21/012-F46. Units attending from outside the Fort Sam Houston area are required to fund their own temporary duty. No additional funding is required.

6-8-C32 640A-670A
AMEDD WARRANT OFFICER ADVANCED COURSE

ATRRS Information

Location School Code: 081 **Length: 6 weeks**

Description: Training consists of 2 weeks of TRADOC common core tasks and 4 weeks of advanced technical and tactical skills to include chemical, biological, and radiological agents, nuclear and high yield explosive devices (CBRNE) required of senior AMEDD warrant officers.

Special Information: There is no special information.

6A-F7 (DL)
HEALTH SYSTEMS FUNCTIONAL PROPONENT Phase: 1

ATRRS Information

Location School Code: 081 **Length: 4 weeks**

Description: Prepares Information Management (IM) Functional Proponent Representatives (FPRs) to identify needs created by a documented deficiency or a desired change in business practice, to develop metrics for benefits realization, and to participate in life-cycle management decisions.

Special Information: Students will have six weeks to complete the 22.5 academic hours of distributive learning (DL).

This course was established to meet the information management and information technology needs identified in the Recommendations for Reengineering Army Medical Department Information Management for the 21st Century (Task Force Mercury report, August 1996). The requirement for this course is also documented in the MEDCOM/OTSG Regulation 25-1.

HSFPC is a two-phase program consisting of both nonresident and resident components.

Phase 1 DL consists of 22.5 hours of computer-based training in IM/IT strategy, acquisition management, integrated product teams, balanced scorecard, and other subjects to support the Phase 2 objectives. Students are assigned an online instructor to support this DL phase. Although no Instructor Contact Hours have been entered for Phase 1, hours are expended by online instructors who are tasked with providing information to registered students before Phase 1, guidance during Phase 1, and follow-up after Phase 1 completion.

It is strongly recommended that course participants currently serve or are projected to serve in at least one of the following capacities:

1. on a standing Tri-Service Working Group
2. as Subject Matter Experts (SMEs) who advise Tri-Service Working Groups
3. as SMEs who represent their functional/business areas for AMEDD operational or systems architecture. HSFPC is a two-phase program consisting of both nonresident and resident components.

6A-F7
HEALTH SYSTEMS FUNCTIONAL PROPONENT Phase: 2

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: Prepares Information Management (IM) Functional Proponent Representatives (FPRs) to identify needs created by a documented deficiency or a desired change in business practice, to develop metrics for benefits realization, and to participate in life-cycle management decisions.

Special Information: This course was established to meet the information management and information technology needs identified in the Recommendations for Reengineering Army Medical Department Information Management for the 21st Century (Task Force Mercury report, August 1996). The requirement for this course is also documented in the MEDCOM/OTSG Reg 25-1.

6A-F15/313-F1 (DL)
ANNUAL RADIATION SAFETY COURSE FOR CLINICIANS

ATRRS Information

Location School Code: 081 **Length: 1 day**

Description: This distributive learning (dL) course, delivered via CD-ROM and web, provides required annual instruction on radiation safety. Topics include emergency contact information, authorized users and requirements, radiation types, radiation doses, radiation effects, radiation protection principles and techniques, radiation dosimetry, quality assurance procedures and safety tips. It allows medical personnel to receive training at their duty location or remote sites and to meet mandatory, annual training requirements.

This continuing education course consists of 1-hour of instruction conducted via the web or CD ROM. The course includes a required written, a multiple-choice test consisting of 15 test items. Students must achieve 12 of 15 correct items on the exam to successfully complete the course. Upon successful completion of the exam, a certificate of completion will be issued and the results will be maintained in select Army databases and/or by the Command Radiation Safety Officer when the exam is completed in the presence of a test control officer in-lieu of the web-based environment. Documentation of completion will be retained by the student who will be responsible for forwarding a copy of the certificate to his/her Command Radiation Safety Officer (RSO).

Special Information: This course is also available on CD ROM for Joint Coalition Forces as designated by the Command Radiation Safety Officer (RSO).

6H-70A67
USA/BAYLOR UNIV PGM IN HCA

ATRRS Information

Location School Code: 081 **Length: 54 weeks**

Description: This course provides graduate level-education during the intermediate professional development period of the officer processional education sequence. Course content consists of didactic instruction (54 weeks) concentrating on the managerial tenets, techniques, and theories fundamental to the effective and efficient delivery of Healthcare to the armed forces. Areas of Emphasis include: Resources Management, Materials Management, Human Resources Management, Patient Administration, and Clinical Administration. Successful completion of a 52-week Administrative Residency (HCA 5661) at a military or other federal Healthcare institution designated by the member's service or department is required after the completion of the didactic phase of instruction. Successful completion of the didactic instruction and residency, to include a comprehensive oral examination and a graduate management project, leads to the award of a Master's of Health Administration degree from Baylor University.

Special Information: This course is recognized by the Accrediting Commission on Education for Health Services Administration (ACEHSA). Unaccompanied Personnel Housing (UPH) will not be available upon arrival at this installation regardless of BAQ entitlements.

6H-70D67 (DL)
MEDICAL INFORMATION MANAGEMENT Phase: 1

ATRRS Information

Location School Code: 081 **Length: 5 weeks 1 day**

Description: This course prepares Information Management (IM) professionals to execute IM missions in both fixed and field medical units. It provides a foundation in IM, technology acquisition, business process reengineering, and resource management.

Phase 1 distributive learning (dL), consists of 225.2 hours of nonresident web-based training and read-ahead materials with an emphasis in MicroSoft (MS) Windows server and client operating systems; network administration, DoD Tactical Networks, Basic Electronics, Mobile Subscriber Equipment, Information Technology basic information systems acquisition, and information assurance, as well as other information to support Phase 2 objectives.

Special Information: This course was established to meet the information management and information technology needs identified in the Recommendations for Reengineering Army Medical Department Information Management for the 21st Century (Task Force Mercury report, August 1996).

Students will have up to 318 days to complete this distributive learning (dL) phase, if more time is needed please contact the Course Manager, Robert Heiwinkel at email: Robert.Heiwinkel@AMEDD.ARMY.MIL or call 210-221-8344. Proof of completion for dL must be provided to the Program Director or Online Course Instructor.

To enroll fax a DA 3838 to Human Resources Command at 1-703-325- 2392. POC for all USAR (TPU/IRR/IMA) Soldiers is Human Resources, Command, Health Services Directorate, 1-800-325-4729, option 2. Also Fax a copy to Information Management Training Branch (IMTB) at 210-221-6653.

6H-70D67
MEDICAL INFORMATION MANAGEMENT Phase: 2

ATRRS Information

Location School Code: 081 **Length: 6 weeks**

Description: This course prepares Information Management (IM) professionals to execute IM missions in both fixed and field medical units. It provides a foundation in IM, technology acquisition, business process reengineering, and resource management.

Phase 2 consists of six weeks in residence. Areas of emphasis include medical information management, Business Process Reengineering (BPR), Information Resource Management (IRM), Microsoft (MS) Windows client and server operating system; network administration for fixed and field facilities, and information assurance.

Special Information: Student travel funds to Academy of Health Sciences for Active Duty Officers are provided via DHET/CTP funds and should be coordinated through the Information Management Training Branch, Department of Health Services Administration.

Army National Guard Officers not on Title 10 orders will be funded by their respective States.

Army Reserve Officers funding will come through HRC St. Louis.

Civilian students funding is provided by local funds or career program manager.

6H-70F67
HLTH SVC HUMAN RESOURCES MGR (HRM)

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: This course provides the necessary training, skills progression, familiarization, and proficiency in the concepts, procedures, and applications of personnel management in wartime and peacetime environments.

Special Information:

1. HRC-A, Health services division, Medical Services Corps Branch, will award the Medical Functional Area (MFA) of 70F upon successful completion of the Health Services Human Resources Manager Course.

2. The course enrollees should complete and submit a Medical Occupational Data Systems (MODS) form prior to attending the course. This form is available at www.mods.army.mil

3. USAR Officers will submit a DA Form 4187 to HRC-STL, Health Services Division, Medical Services Corps Branch, in order to be awarded the Medical Functional Area (MFA) of 70F upon successful completion of the Health Services Human Resources Manager Course.

4. Before completing TDY orders, enrollees must contact the HRM program manager at (210) 221-6793 or DSN 471-6793 for further instructions.

6I-F4/340-F3
PHYSICAL EVAL BOARD LIAISON OFFICER

ATRRS Information

Location School Code: 081, 555 **Length: 1 week**

Description: The course covers the principles and characteristics of the Physical Disability Evaluation System (PDES). It focuses on the Medical Evaluation Board (MEB) process and scenarios dealing with disability issues; hands-on training for data entry into the automated Medical Evaluation Board internal Tracking Tool (MEBITT), and generating reports on status/progress of Soldier's MEB; Physical Evaluation Board (PEB/adjudication procedures; and counseling procedures to ensure protection of Soldier's rights and benefits in the PDES.

Special Information: PEBLO certification requirements: DA Civilians and contractors newly appointed to the position must receive PEBLO certification within 180 days after appointment. Candidate must successfully complete either the Resident; the AMEDDC&S Web-based; or the Multimedia (DL) version of the PEBLO Course (when it is deployed); pass required written course examination; and concurrently complete 6 months of performance as PEBLO under supervision/mentorship and earn an acceptable evaluation. DA Civilians, contractors, 70E and 68G currently serving as PEBLO, with at least 6 months experience and acceptable evaluation, may be grandfathered after successfully completing one of the PEBLO courses and passing the required examination.

6I-F9/6H-F40/341-F1
HOSPITAL MEDICAL LOGISTICS COURSE

ATRRS Information

Location School Code: 081 **Length: 3 weeks**

Description: The course provides focused training in the principles and techniques required to manage medical logistics functions in support of MEDDACs, MEDCENs and MTF's. The course provides instruction and advanced application of medical logistics management, automation systems, inventory management, property management, facilities management, environment of care, procurement and acquisition, Joint Commission on Accreditation of Healthcare Organizations (JCAHO), life-cycle maintenance, supply chain management, cold chain management, national and retail Class VIII requisitions, Installation Medical Supply Activity (IMSA) roles and responsibilities, storage and quality control procedures for Class VIII.

Special Information: Requesting agency must provide funds for travel and per diem costs for all OCONUS attendees, Reserve and National Guard Soldiers and DA civilians.

7M-F3
PATIENT ADMIN / ASSOC HEALTHCARE ADMIN COURSE

ATRRS Information

Location School Code: 081 **Length: 5 weeks**

Description: The 7M-F3 (RC) Course is comprised of a non-resident Phase 1 conducted via Distance Learning (dL), and a two week Phase 2 in residence at the U.S. Army Medical Department Center and School (AMEDDC&S), Fort Sam Houston, Texas. Instruction covers planning, organizing, directing, and controlling patient administration related aspects of the Healthcare delivery program of a command headquarters, or patient administration activities of a health service facility or unit. It is recommended for personnel projected to serve or currently serving in Patient Administration (AOC 70E67) positions. Training strategies include Web-based training, conference/discussion, hands-on automation instruction/exercises, and a field trip to Brooke Army Medical Center. It provides mandatory training on CBRNE, Detainee ethical/legal/medical records considerations, and OPSEC.

Phase 1 is an introduction to Patient Administration practice and supporting knowledge. It consists of video-captured classes covering basic medical topics on Medical Terminology, Anatomy, and Physiology; Healthcare Administration topics on Productivity, Healthcare Statistics/Benchmarking, Health Resource Allocation/ Management, Utilization Management, Healthcare Law; Patient Administration topics on Warrior Transition Unit, Patients in Special Circumstances, Joint Patient Tracking Application, Information Systems for Healthcare Management; and general topics on Civilian Employee Management and Customer Service/Patient Representative. It includes Internet based training on Supervisor Development , and the Health Insurance Portability & Accountability Act (HIPAA).

Special Information: Completion of the 7M-F3 (RC) Phase 1 is mandatory for attendance to Phase 2.

7M-F3 (RC) (DL)
PATIENT ADMIN/ASSOC HTHCARE ADMIN COURSE (RC) (DL)

ATRRS Information

Phase: 1

Location School Code: 081 **Length: 2 weeks 3 days**

Description: The 7M-F3 (RC) Course is comprised of a non-resident Phase 1 conducted via Distance Learning (dL), and a two week Phase 2 in residence at the U.S. Army Medical Department Center and School (AMEDDC&S), Fort Sam Houston, Texas. Instruction covers planning, organizing, directing, and controlling patient administration related aspects of the Healthcare delivery program of a command headquarters, or patient administration activities of a health service facility or unit. It is recommended for personnel projected to serve or currently serving in Patient Administration (AOC 70E67) positions. Training strategies include Web-

based training, conference/discussion, hands-on automation instruction/exercises, and a field trip to Brooke Army Medical Center. It provides mandatory training on CBRNE, Detainee ethical/legal/medical records considerations, and OPSEC.

Phase 1 is an introduction to Patient Administration practice and supporting knowledge. It consists of video-captured classes covering basic medical topics on Medical Terminology, Anatomy, and Physiology; Healthcare Administration topics on Productivity, Healthcare Statistics/Benchmarking, Health Resource Allocation/ Management, Utilization Management, Healthcare Law; Patient Administration topics on Warrior Transition Unit, Patients in Special Circumstances, Joint Patient Tracking Application, Information Systems for Healthcare Management; and general topics on Civilian Employee Management and Customer Service/Patient Representative. It includes Internet based training on Supervisor Development, and the Health Insurance Portability & Accountability Act (HIPAA).

Special Information: Completion of the 7M-F3 (RC) Phase 1 is mandatory for attendance to Phase 2.

HOW TO APPLY: The content for the 7M-F3 (RC) course is located on the AMEDDC&S Blackboard content management system. Please go to https://amedd.learn.army.mil. You will be required to enter your AKO user name and password to gain access. When this page opens, click on the "Courses" tab. On this page, under the "course catalog", click on "AMEDD Courses". Upon accessing the AMEDD Blackboard Courses page, you will need to select 7M-F3(RC), Patient Administration Officer & Associate Healthcare Administrator Course and select "enroll". When the enrollment page opens, select "Submit". This is a very quick process and access to the course material is immediate.

7M-F3 (RC)
PATIENT ADMIN / ASSOC HTHCARE ADMIN CRS (RC) Phase: 2

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: The 7M-F3 (RC) Phase 1 program is a 7-module course that provides the student with supervisory skills and knowledge necessary to perform as a Patient Administrator/Associate Healthcare Administrator in both a field environment and fixed medical treatment facilities. Instruction is presented in each of the following subcourse: MD010 Basic Medical Terminology, MD0750 Introduction to Medical Records and the Patient Administration Division, MD0751 Outpatient Medical Recrods Branch, MD0752 Patient Accountability Branch, MD0753 Medical Records Administration Branch I, MD0754 Medical Records Administration Branch II, MD0755 Patient Affairs Branch.

Special Information: The Patient Administration/Associate Healthcare Administrator (RC) course provides a short-course alternative to the resident Patient Administration/Associate Healthcare Administrator course (7M-F3). Phase 1 consists of seven subcourses (99 credit hours) and is a prerequisite for the Phase 2 resident course. Phase 2 is a two-week resident course taught at AMEDDC&S.

8B-F22 / 551-F22
MEDICAL LOGISTICS SYSTEMS MANAGEMENT COURSE

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: The 8B-F22/551-F22 major areas of study consist of medical logistics systems inventory management concepts, philosophies and procedures. Subjects taught are DMLSS navigation and log-on procedures, catalog maintenance, orders, order exceptions, emergency orders, system services TMU and SS Overview, purchase cards, issues, pick lists, internal transfers, receipts, gains/loses, destruction, customer request, transaction history, physical inventories and basic business objects. Interaction from the class is strongly encouraged as everyone learns from each other's trials and tribulations with the system.

Special Information: Request for civilian quotas (DD Form 1156) should be forwarded to LMB AMEDDC&S, ATTN: MCCS-HFE, 2640 Harney Road, Ft Sam Houston, TX 78234-6000. Requesting agency must provide funds for travel and per diem costs for civilians.

8B-70K67
HEALTH SERVICES MATERIAL OFFICER COURSE

ATRRS Information

Location School Code: 081 **Length: 10 weeks**

Description: The course provides focused training in the principles and techniques used to manage medical logistics functions required to support medical logistics operations in Table of Organization and Equipment (TOE) units, specifically Brigade Combat Teams (BCT), Combat Support Hospitals (CSHs), Medical Logistics Companies, and Theater sustainment organizations. It provides a foundation in medical logistics management, automated logistics systems, inventory management, property management, storage and quality control procedures for Class Vlll, mobilization and deployment operations, medical assemblages management, medical maintenance management, and medical logistics combat service support to units in a deployed theater. Attendance of this course is mandatory to attain the 70K67 Area of Concentration (AOC).

Special Information: US Military students must pass a record APFT in order to successfully graduate from this course.

After successfully completing the course, Active Component Officers are eligible to request award of AOC 70K67 by submitting DA Form 4187 with supporting course completion documentation through their chain of command and the 70K OTSG Consultant, to their Career Manager, HRC Alexandria;

USAR officers must submit their MS Appointment Letter, DA Form 1059 and DA Form 4187 with a written request for award of AOC 70K67 through their chain of command to HRC-St Louis, Team AMEDD;

ARNG officers must submit DA Form 1059 with a written request for award of AOC 70K67 though their chain of command to MILPO.

Requesting agency must provide funds for travel and per diem costs for all OCONUS attendees, Reserve and National Guard Soldiers and DA civilians.

8B-70K67(RC) (DL)
HEALTH SERVICES MATERIEL OFFICER (RC) (DL) Phase: 1

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: The course provides focused training in the principles and techniques used to manage medical logistics functions required to support medical logistics operations in Table of Organization and Equipment (TOE) units, specifically Brigade Combat Teams (BCT), Combat Support Hospitals (CSHs), Medical Logistics Companies, and Theater sustainment organizations. It provides a foundation in medical logistics management, automated logistics systems, inventory management, property management, storage and quality control procedures for Class Vlll, mobilization and deployment operations, medical assemblages management, medical maintenance management, and medical logistics combat service support to units in a deployed theater. Attendance of this course is mandatory for to attain the 70K67 Area of Concentration (AOC).

Special Information: This course consists of two phases. Phase 1 is a correspondence phase consisting approximately 80 hours and is administered by the Academy of Health Sciences (AHS). Phase 1 must be completed within a year from enrollment. Phase 2 is 2-weeks of resident training with didactic instruction conducted at the AHS. Phase 2 must be completed within 18 months after completing phase 1. To enroll, fax a

DA 3838 to Human Resources Command at 1-703-325-2392. POC for all USAR (TPU/IRR/IMA) Soldiers is Human Resources Command, Health Services Directorate, 1-800-325-4729, option 2.

8B-70K67 (RC)
HEALTH SERVICES MATERIEL OFFICER (RC) Phase: 2

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: The course provides focused training in the principles and techniques used to manage medical logistics functions required to support medical logistics operations in Table of Organization and Equipment (TOE) units, specifically Brigade Combat Teams (BCT),Combat Support Hospitals (CSHs), Medical Logistics Companies, and Theater sustainment organizations. It provides a foundation in medical logistics management, automated logistics systems, inventory management, property management, storage and quality control procedures for Class Vlll, mobilization and deployment operations, medical assemblages management, medical maintenance management, and medical logistics combat service support to units in a deployed theater. Attendance of this course is mandatory for to attain the 70K67 Area of Concentration (AOC).

Special Information: This course consists of two phases. Phase 1 is a correspondence phase consisting of 80 hours administered by the Academy of Health Sciences (AHS).
Phase 2 is a resident portion of 2 weeks of didactic instruction conducted at the AHS. Phase 2 must be completed within 18 months after completing phase 1.

300-F11
COMPUTER BASED MEDICAL SYSTEMS MAIN COURSE

ATRRS Information

Location School Code: 883 **Length: 4 weeks**

Description: This course provides advanced skills training for Advanced DoD Biomedical Maintenance personnel to include military and civilian members of the Air Force, Army, and Navy. The course is 4 weeks in length and is conducted at the DoD Biomedical Technician Training Facility, Sheppard AFB, TX. The course employs a combination of teaching methods: lecture/discussion (didactic), demonstration, interactive courseware, and performance. All blocks are group-paced. The course consists of basic and advanced computer troubleshooting and repair, fiber optic troubleshooting and repair, and local area network.

Special Information:

REPORTING INSTRUCTIONS: Contact the Army Academic support Officer, Sheppard Air Force Base, Texas

SPECIAL COURSE INFORMATION: COMM: (940) 676-8227, DSN: 736-8227

UNIFORM REQUIREMENT: Military personnel will wear the Battle Dress Uniform (BDU). Civilian personnel will wear the appropriate equivalent attire.

300-F12
ADV MEDICAL LAB SYSTEMS MAINTENANCE COURSE

ATRRS Information

Location School Code: 883 **Length: 4 weeks**

Description: This course provides advanced skills training for Advanced DoD Equipment Maintenance personnel to include military and civilian members of the Air Force, army and Navy. The course is 4 weeks in duration and is conducted at the DoD Biomedical Equipment technician Training facility, Sheppard AFB, Texas. The course employs a combination of teaching methods: lecture/ discussion (didactic), demonstration, interactive courseware, and performance. The course is group-paced. The course consists of advanced

laboratory systems anatomy and physiology, circuit analysis, troubleshooting and repair. Instructional sequence may vary from POI sequence because of equipment and space limitations. A field trip is optional (if applicable) at the discretion of the course staff.

Special Information:

REPORTING INSTRUCTIONS: Contact the Army Academic support Officer, Sheppard Air Force Base, Texas

300-F30 (DL)
ANNUAL RADIATION SAFETY CRS FOR NON-CLINICIAN

ATRRS Information

Location School Code: 081 **Length: 1 day**

Description: This distributive learning course, delivered via CD-ROM and web, provides required annual instruction on radiation safety. Topics include emergency contact information, authorized users and requirements, radiation types, radiation doses, radiation effects, radiation protection principles and techniques, radiation dosimetry, quality assurance procedures and safety tips. It allows medical personnel to receive training at their duty location or remote sites and to meet mandatory, annual training requirements.

This continuing education course consists of 1-hour of instruction conducted via the web or CD ROM. The course includes a required written, a multiple choice test consisting of 10 test items. Students must achieve 8 of 10 correct items on the exam to successfully complete the course. Upon successful completion of the exam, a certificate of completion will be issued and the results will be maintained in select Army data bases and/or by the Command Radiation Safety Officer when the exam is completed in the presence of a test control officer in-lieu of the web-based environment. Documentation of completion will be retained by the student who will be responsible for forwarding a copy of the certificate to his/her Command Radiation Safety Officer (RSO).

Special Information: This course is also available on CD-ROM for Joint Coalition Forces as designated by the Command Radiation Safety Officer (RSO).

513-68G10
PATIENT ADMINISTRATION SPECIALIST

ATRRS Information

Location School Code: 081 **Length: 6 weeks 3 days**

Description: Provides the knowledge and skills necessary to perform Patient Administration Specialist duties at fixed medical treatment facilities and field environments. Instruction is presented in these major areas: Healthcare Entitlements; Admission and Disposition Procedures; Medical Records; Automated Healthcare Information Systems; Patient Administration Operations; Medical Terminology; Anatomy and Physiology; and Health Service Support and Patient Administration Functions during Combat/Contingency Operations. It includes training in the procedures to safeguard privacy and ensure security of personal medical information IAW the Health Insurance Portability & Accountability Act (HIPAA), and the management and monitoring of global patient movement using the U.S. Transportation Command (TRANSCOM) Regulating and Command & Control Evacuation System (TRAC2ES).

It includes rigorous and relevant training on Warrior Ethos tasks that integrates tactical and 68G technical skills, as part of Army-wide AIT sustainment training to ensure survivability in the contemporary operating environment.

Special Information: Reserve Component Soldiers will arrive at Ft Sam Houston with the following items MPRJ 201 file, Medical Record, Dental Record and complete basic clothing issue, to include running shoes.

Active Army must utilize DA Form 4187 and include ERB, DA Form 2-1, and letters of recommendation from the chain of command evaluating the applicant's potential and ability to complete this course.

National Guard and Army Reserve SSGs will receive a certificate of completion for attending this course;

Additional skill level 30 training is required to be awarded the MOS.

All requests for waivers must be submitted to: CDR, AMEDD Center & School, AMEDD Personnel Proponent Directorate, ATTN: MCCS-DE, 2427 Hood Street, Ft Sam Houston, TX 78234-7584.

Points of contact and additional Patient Administration Specialist Course information may be accessed at http://www.cs.amedd.army.mil/details.aspx?dt=150

513-68G10 (RC) (DL)
PATIENT ADMINISTRATION SPECIALIST Phase: 1

ATRRS Information

Location School Code: 081 **Length: 3 weeks 3 days**

Description: The 513-91G10 (RC) Patient Administration Specialist Course provides a working knowledge of patient administration procedures, functions, and responsibilities. It covers all administrative parameters and procedures incidental to admission and disposition of patients; initiation, maintenance, and disposition of medical records; medical statistical reporting; birth/death reports and certificates; release/security of medical information and processing related correspondence; administrative support of patient movements/transfers, disability processing, and medical care evaluations.

Phase 1 is the self-paced Distance Learning (DL) non-resident portion of the Patient Administration Specialist 513-91G10 (RC) Course. It must be completed within a year from enrollment date, and consists of 3 modules:

Module 1. Introduction to Patient Administration (Part 1)(77 Hrs) has three CD/web based sub-courses from the Army Correspondence Course Program (ACCP): MD0750 Introduction to Medical Records and the Patient Administration Division (4 Hrs); MD0752 Patient Accountability Branch (24 Hrs); and MD0755 Patient Affairs

Branch (20 Hrs); and three CD/web-based lessons: FDABG002 Diagnostic Procedural Coding (14 hrs); FDABG034 Anatomy and Physiology (13 Hrs); FDABG035 Medical Terminology (2 Hrs).

Module 2. Principles of Patient Administration (Part 1) (49 Hrs) has two CD/web-based ACCP sub-courses: MD0753 Medical Records Administration I (20 Hrs); MD0754 Medical Records Administration II (10 Hrs); and five CD/web-based lessons: FDABG022 Medical Records I (4 Hrs); FDABG023 Medical Records II (4 Hrs); FDABG024 Medical Records Management (5 Hrs); FDABG025 Confidentiality of Medical Records (2 Hrs); FDABG046 Health Insurance Portability And Accountability (HIPPA) (2 Hrs); and FDABG100 a CD/web-based Comprehensive Examination (2 Hr).

Module 3. Automated Patient Administration Support Systems (18 Hrs) has 4 CD/web based/CD lessons: FDABG019 PARRTS (2 Hrs); FDABG055 TRAC2ES (11 Hrs); FDABG056 Introduction to TRAC2ES (1 Hr.); and FDABG027 PAD Tool (4 Hrs).

Special Information: The Phase 1 web-based/CD Distance Learning (DL) training may be taken at the Soldier's unit, home, office, or in a Digital Training Facility (DTF) location listed at http://www.dls.army.mil/home_index.html. Soldiers may take the course for self-development and refresher training.

National Guard and Army Reserve SSGs' will receive a certificate of completion for attending this course, additional skill level 30 training is required to be awarded the MOS.

Submit all waiver requests to: CDR, AMEDD Center & School, AMEDD Personnel Proponent Directorate, (MCCS-DE, 1400 East Grayson Street, Fort Sam Houston, TX 78234-5052.

513-68G10 (RC)
PATIENT ADMINISTRATION SPECIALIST Phase: 2

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: The Patient Administration Specialist Course (RC) (PH 2) is designed to provide the Reserve Component (RC) enlisted Soldier with working knowledge of basic patient administration procedures, functions, and responsibilities. Satisfactory completion of this course will qualify RC personnel for award of MOS 68G. Subject course is the resident portion of a two-phased program. The nonresident phase consists of approximately 83-hours of distance learning study.

Special Information: Reserve Component Soldiers will arrive at Ft Sam Houston with the following items MPRJ 201 file, Medical Record, Dental Record and complete basic clothing issue, to include running shoes.

Submit all waiver requests to: CDR, AMEDD Center & School, MCCS-DE, 1400 E. Grayson Street, Ft Sam Houston, TX 78234-5052.

551-68J10
MEDICAL LOGISTICS SPECIALIST

ATRRS Information

Location School Code: 081 **Length: 5 weeks 3 days**

Description: The Course provides training in medical materiel procedures in TOE/TDA AMEDD units. Major areas of concentration includes: medical publications and directives, medical materiel property control procedures, medical materiel stock accounting procedures, medical materiel functions at the organization/installation level, and the Army Physical Fitness Program. Methods of instruction include: conferences, demonstrations and practical exercises. Upon successful completion of the course, graduates are awarded MOS 68J.

Special Information: Reserve Component Soldiers will arrive at Fort Sam Houston with the following items MPRJ 201 file, Medical Record, Dental Record and complete basic clothing issue, to include running shoes.

DoD civilians must submit a DA1556 requesting attendance at this course. The Unit of assignment for DoD civilians will incur all costs associated with attendance at this course.

AA and RC Soldiers must submit DA Form 4187, ERB, DA Form 2-1, and letters of recommendations from the chain of command.

National Guard and Army Reserve SSGs' will receive a certificate of completion for attending this course,

Additional skill level 30 training is required to be awarded the MOS.

Submit all requests for waivers to: CDR, AMEDD Center & School, AMEDD Personnel Proponent Directorate, ATTN: MCCS-DE, 2427 Hood St, Fort Sam Houston, TX 78234-7584.

551-68J10 (RC)(DL)
MEDICAL LOGISTICS SPECIALIST (RC) Phase: 1

ATRRS Information

Location School Code: 081 **Length: 1 week 2 days**

Description: The course provides the basic knowledge and skills necessary to perform as a Medical Logistics Specialist at fixed treatment facilities and in a field environment. Major areas of concentration are: Overview of the Army Medical Department (AMEDD), Introduction to Medical Logistics, Medical Materiel Storage, Handling and Safety Procedures, Quality Control (QC), Introduction to Publications and Directives, Introduction to Property Accountability, Federal Logistics (FEDLOG), Universal Data Repository (UDR), and manual and automated inventory management procedures.

Phase 1 areas of concentration consists of an Overview of the AMEDD, Introduction to Medical Logistics, Medical Materiel Storage, Handling and Safety Procedures, Quality Control (QC), Introduction to Publications and Directives, Introduction to Property Accountability, and a Comprehensive Examination.

Special Information: This is a two-phased course. Phase 1 is Distance Learning (Distributive Training) and Phase 2 is two weeks of resident training.

1. Go to https://www.atrrs.army.mil/, scroll down under ATRRS Channels (right side of screen) and click on self development. Under bulletin board, click on "CONTINUE TO SELF-DEVELOPMENT". The student has the option to use several logon options. Once the student is logged on, click on the pull down arrow to "SELECT A COURSE". Scroll down to school code (fill in your school code here) and select the course number (fill in your course number here), (fill in your course title). Once the student clicks on the required course, the class schedule will appear. Click on class (fill in the class number here) and begin the enrollment process. Enrollment through ATRRS will create a reservation enrollment in ATRRS as proof of enrollment. ATRRS will generate an intermediate enrollment email while the student enrollment is processing. It takes up to 24-hours for the student's enrollment to process through ATRRS and the Army Learning Management System (ALMS). Once the student enrollment processes through the ALMS, an official enrollment email will be generated and sent to the student's email address that was part of the enrollment process. The official email will give the student the website for accessing courseware content and the final courseware examination. All course and module completions will be forwarded to ATRRS for annotation on the student's official ATRRS training record.

2. To ensure proper playing of this Distributive Learning (DL) product, please refer to the ALMS Learner Log-in Instructions at: http://www.dls.army.mil/lms_learner-login.html

551-68J10 (RC)
MEDICAL LOGISTICS SPECIALIST (RC) Phase: 2

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: The course provides the basic knowledge and skills necessary to perform as a Medical Logistics Specialist at fixed treatment facilities and in a field environment. Major areas of concentration are: Overview of the Army Medical Department (AMEDD), Introduction to Medical Logistics, Medical Materiel Storage, Handling and Safety Procedures, Quality Control (QC), Introduction to Publications and Directives, Introduction to Property Accountability, Federal Logistics (FEDLOG), Universal Data Repository (UDR), and manual and automated inventory management procedures.

Phase 2 major areas of concentration consists of Federal Logistics (FEDLOG), Universal Data Repository (UDR), manual Inventory Management procedures, Theater Army Medical Management Information System (TAMMIS), Defense Medical Logistics Standard Support Customer Assistance Module (DCAM), and Chemical Biological Radiological Nuclear and High Explosives (CBRNE).

Special Information: This is a two-phased course. Phase 1 is Distance Learning (Distributive Training) and Phase 2 is two weeks Resident Training.

National Guard and Army Reserve SSGs' will receive a certificate of completion for attending this course, additional skill level 30 training is required to be awarded the MOS.

DEFENSE MEDICAL READINESS TRAINING INSTITUTE (DMRTI)

http://www.dmrti.army.mil/

6A-C4
COMBAT CASUALTY CARE

ATRRS Information

Location School Code: 767 **Length: 6 days**

Description: The Combat Casualty Care Course (C4) is a tri-service, continuing medical education course designed to enhance medical readiness of physicians, physician assistants, nurses, and dentists by providing training in field leadership, knowledge and skills that may be necessary for direct medical support in conditions related to any combat condition; Contemporary Operational Environment and humanitarian issues. Training is based on a multi-phased scenario-based operation escalating to a high-intensity conflict testing first and second echelons of care capabilities.

Special Information: All students are required to go to DMRTI's website, http://www.dmrti.army.mil/ for Welcome Letter, Reporting Information, Packing list, etc.

6A-C4 (ATLS)
ADVANCED TRAUMA LIFE SUPPORT

ATRRS Information

Location School Code: 767 **Length: 3 days**

Description: The Defense Medical Readiness Training Institute located at Ft Sam Houston, Texas offers the Advanced Trauma Life Support (ATLS), 3-day course, in conjunction with the Combat Casualty Care Course (C4). The content and skills presented in the materials are designed to assist doctors in providing emergency care for the trauma patient. ATLS provides the essential information and skills that a physician may apply to the identification and treatment of life-threatening or potentially life -threatening injuries.

Special Information: Course material will be mailed to students 30 days prior to class start date. After receipt of their material, students are expected to review and read the course content prior to their arrival. Students who receive material and cancel prior to course attendance must return all material to student registration within 10 days of cancellation.

This course can be taken multiple times as needed for certification.

Continuing Education Credits are granted for this class.

6A-C4 (PHTLS)
PRE-HOSP TRAUMA LIFE SUPPORT

ATRRS Information

Location School Code: 767 **Length: 3 days**

Description: The Defense Medical Readiness Training Institute (DMRTI) located at Ft Sam Houston, TX provides the Pre-Hospital Trauma Life Support Course which is based upon the Advanced Trauma Life Support (ATLS) course for physicians developed by the Committee on Trauma of the American College of Surgeons. Students participate in an intensive 2 1/2 day experience with lecture and skill stations content to identify the need for life saving interventions for the multi-system trauma patient. The intent is to provide the student with a specific body of knowledge related to the pre-hospital care of the trauma patient. The course

includes practical exercises and examinations, which reinforce the material presented in the lecture and practical sessions.

Special Information: Course material will be mailed to students 30 days prior to class start date. After receipt of material, students are expected to review and read the course content prior to their arrival. Students who receive material and cancel prior to course attendance must return all material to student registration within 10 days of cancellation.

This course can be taken multiple times as needed for certification.

Continuing Education Credits are awarded for this class.

6A-C4 (TNCC)
TRAUMA NURSING CORE COURSE

ATRRS Information

Location School Code: 767 **Length: 3 days**

Description: The Defense Medical Readiness Training Institute (DMRTI), located at Ft Sam Houston, Texas provides a 2 1/2 day Trauma Nursing Core Course (TNCC) in conjunction with the Combat Casualty Care Course (C4). The intent of TNCC is to enhance the nurse's ability to assess, rapidly and accurately, the patient's response to the trauma event. It is anticipated that the use of the knowledge and skills learned in the TNCC will ultimately contribute to a decrease in morbidity and mortality associated with trauma. The course provides the learner with cognitive knowledge and psychomotor skills. Participants receive continuing education credits for attendance.

Special Information: Course material will be mailed to students 30 days prior to class start date. After receipt of their material, students are expected to review and read the course content prior to their arrival. Students who receive material and cancel prior to course attendance must return all material to student registration within 10 days of cancellation.

This course can be taken multiple times as needed for certification.

Continuing Education Credits are granted for this class.

6A-C4 (USN)
COMBAT CASUALTY CARE

ATRRS Information

Location: 767 **Length: 1 week**

Description: The Combat Casualty Care Course (C4) is a tri-service, continuing medical education course designed to enhance medical readiness of physicians, physician assistants, nurses, dentists and other medical specialties by providing training in field leadership, knowledge and skills that may be necessary for direct medical support in conditions related to any combat situation or contemporary Operational Environment. Training is based on multi-phased scenario-where students must perform the duties of their respective careen fields as well as the duties of 1st responders in a simulated combat environment.

Special Information: All students are required to go to DMRTI's website, http://www.dmrti.army.mil/, for Welcome Letter, Reporting Information, Packing List, etc.

6A-C4A
JOINT OPERATIONS MEDICAL MANAGERS

ATRRS Information

Location School Code: 767 **Length: 6 days**

Description: The Joint Operations Medical Managers Course is a joint service, multinational, continuing medical education course designed for medical department officers to function in management and leadership roles in a combat or Sustainment and Stability Operations (SASO) Health Service Support facility. Core competencies are necessary to function in such positions are covered during the week of instruction. Lectures relate to a joint health service support practical exercise involving operational management and planning tools. The exercise involves a time-lined interactive practical scenario that reinforces the learned objectives and applies them in a participant format. Presentations by former medical deployment commanding officers, Joint Task Force Surgeons and Subject Matter Experts on Joint Medical Operations Planning.

Special Information: Reservations must be made on the Army Training Requirements and Resources System (ATRRS) at least 30 days prior to course report date in order to receive the pre-course information letter. Orders must reflect the city the course is held (the course is conducted at an off-post hotel). Students are encouraged to report/check-in at the hotel no later than 1700 the day preceding the course start date. Available transportation includes: taxi or Star Shuttle services from the airport. Do not plan to depart prior to 1700 on the last day of class. Uniform requirements: Army, Class B; Air Force, Class B, Navy, Khaki/Seasonal. ACU's, BDU's and ABU's are not authorized. Others: Class B equivalent.

This course is taught in 5 continuous days. Course goes beyond normal training day to meet training needs.

For Additional information, go to DMRTI's website, http://www.dmrti.army.mil/.

6A-C4C (ABLS)
ADVANCED BURN LIFE SUPPORT

ATRRS Information

Location School Code: 767 **Length: 1 day**

Description: The Defense Medical Readiness Training Institute (DMRTI) located at Ft Sam Houston, Texas provides a one-day Advanced Burn Life Support (ABLS) Course in remote locations for the Active duty and Reserve personnel. The intent of the ABLS Course is to enable the participant to define the magnitude and severity of injury, identify and establish priorities of treatment, apply correct methods of physiological monitoring, and to determine the appropriate guidelines for transfer. During the didactic portion of the course, the basic concepts of assessing the magnitude and severity of the injury and establishing a management treatment plan with correct physiological monitoring are presented. Students participate in case study discussions and then work with simulated burn patients to reinforce these principles as well as patient transfer guidelines.

Special Information: Course material will be mailed to students or to Sponsoring/Host Unit 30 days prior to class start date. After receipt of their material, students are expected to review and read the course content prior to their arrival. Students who receive material and cancel prior to course attendance must return all material to student registration within 10 days of cancellation.

This course can be taken multiple times as needed for certification.

Continuing Education Credits are granted for this class.

6A-C4C (ABLSIC)
ADVANCED BURN LIFE SUPPORT INSTRUCTOR CERTIFICATE

ATRRS Information

Location School Code: 767 **Length: 1 day**

Description: The Advanced Burn Life Support Instructor Certification is a 1-day course conducted by the Defense Medical Readiness Training Institute at Ft Sam Houston, Texas. The intent of this course is to enable the participant to identify teaching strategies to disseminate essential information and become certified instructors of the Advanced Burn Life Support Course.

Special Information: There is no special information.

6A-C4C (ATLSIC)
ADVANCED TRAUMA LIFE SUPPORT INSTRUCTOR

ATRRS Information

Location School Code: 767 **Length: 1 day**

Description: The Advanced Trauma Life Support Instructor Course is a 2-day course offered by the Defense Medical Readiness Training Institute, located at Ft Sam Houston, Texas. The intent of this course is to enable the participant to identify teaching strategies and become certified as an instructor for ATLS.

Special Information: Course material will be mailed to students 30 days prior to class start date. After receipt of their course material, students are expected to review and read the course content prior to their arrival. Students who receive material and cancel prior to course attendance must return all material to DMRTI's student registration within 10 days of cancellation.

Continuing Education Credits are granted for this class. Certification is good for 4 years upon completion while completing minimum instructor requirements. This course can be taken multiple times as needed for certification.

6A-C4C (PHTLS)
PRE-HOSP TRAUMA LIFE SUPPORT

ATRRS Information

Location School Code: 767 **Length: 3 days**

Description: The Defense Medical Readiness Training Institute (DMRTI) located at Ft Sam Houston, Texas provides the Pre-Hospital Trauma Life Support (PHTLS) course which is based upon the Advanced Trauma Life Support (ATLS) course for physicians developed by the Committee on Trauma of The American College of Surgeons. Students participate in an intensive 2 1/2 day experience with lecture and skill stations content to identify the need for life saving interventions for the multi-system trauma patient. The intent is to provide the student with a specific body of knowledge related to the pre-hospital and care of the trauma patient. The course includes practical exercises and examinations, which reinforce the material presented in the lecture and practical sessions.

Prerequisite: Course material will be mailed to students or to the Sponsoring/Host Unit 30 days prior to class start date. After receipt of their material, students are expected to review and read the course content prior to their arrival. Students who receive material and cancel prior to course attendance must return all material to student registration within 10 days of cancellation.

6A-C4C (PHTLSIC)
PRE-HOSP TRAUMA LIFE SUPPORT INSTRUCTOR COURSE

ATRRS Information

Location School Code: 767 **Length: 1 day**

Description: The Pre-Hospital Trauma Life Support Instructor Course (PHTLSIC) is a 1-day course offered by the Defense Medical Readiness Training Institute at Ft Sam Houston, Texas. The intent of the PHTLSIC is to provide an intensive 8-hour course for those individuals who have already successfully completed a PHTLS provider course. It is designed to train instructor candidates for conducting provider and refresher course on the latest educational philosophies and techniques.

Special Information: Course material will be mailed to students 30 days prior to class start date. After receipt of their course materials, students are expected to review and read the course content prior to their arrival. Students who receive material and cancel prior to course attendance must return all material to DMRTI's student registration within 10 days of cancellation.

6A-C4C (TNCC)
TRAUMA NURSING CORE COURSE

ATRRS Information

Location School Code: 767 **Length: 3 days**

Description: The Defense Medical Readiness Training Institute (DMRTI) located at Ft Sam Houston, Texas provides a 2 1/2 day Trauma Nursing Course (TNCC) to medical units of the uniformed services and reserve components as needed. The intent of the TNCC course is to enhance the nurse's ability to assess, rapidly and accurately, the patient's response to the trauma event. It is anticipated that the use of the knowledge and skills learned in the TNCC will ultimately contribute to a decrease in morbidity and mortality associated with trauma. The course provides the learner with cognitive knowledge and psychomotor skills. Participants receive continuing education hours for attendance.

Special Information: Course material will be mailed to students 30 days prior to class start date. After receipt of their material, students are expected to review and read the course content prior to their arrival. Students who receive material and cancel prior to course attendance must return all material to student registration within 10 days of cancellation.

This course can be taken multiple times as needed for certification.

Continuing Education Credits are granted for this class.

6A-C4C (TNCIC)
TRAUMA NURSING CORE CRS INSTR CERT

ATRRS Information

Location School Code: 767 **Length: 1 day**

Description: This 1-day course is offered by the Defense Medical Readiness Training Institute at Ft Sam Houston, Texas. It emphasizes selected teaching strategies, appropriate evaluation methods and review of administrative procedures. This course provides a standard for all instructors of the TNCC and constitutes one element of the quality control program associated with the National Emergency Nursing Association Trauma Nursing Core Course.

Special Information: Course material will be mailed to students 30 days prior to class start date. After receipt of their course material, students are expected to review and read the course content prior to their arrival. Students who receive material and cancel prior to course attendance must return all material to DMRTI's student registration within 10 days of cancellation.

6A-F8
MILITARY MEDICAL HUMANITARIAN ASSISTANCE

ATRRS Information

Location School Code: 767 **Length: 2 days**

Description: Military operations other than war (MOOTW) are now the most frequent operational deployments and Military Leadership considers our ability to function in these settings as "Essential Capability" of the Armed Forces in the next century. Yet little formal training has been developed to help prepare military physicians for work in the post-disaster/post-war setting in the developing world. These environments offer unique medical and logistical challenged including often-overwhelming primarily pediatric medical casualties and severely limited health resources.

Special Information: There is no special information.

6A-F14
EMERGENCY WAR SURGERY COURSE

ATRRS Information

Location School Code: 767 **Length: 3 days**

Description: The course is divided into 50% didactic classroom lectures and 50% laboratory practicum. The trauma lectures cover various aspects of military field trauma including head and neck, ophthalmologic injuries, orthopedics, urologic, thoracic, and abdominal trauma. Each of these topics is re-explored in several labs where the participants practice surgical procedures on human cadavers and animal models. The course instructors (general surgeons, orthopedic, and surgical specialties) will guide and assist students to gain a better understanding of surgical treatment techniques unique to field medical practice. The course content has been standardized among the three services by mutual agreement and sharing of curriculum.

Special Information: Required for DoD Surgeons, Surgical Sub-specialties, Orthopedic Surgeons; Optional for the other deployable DoD physicians, physician assistants, nurses, and anesthetists. The proponent for this course is Defense Medical Readiness Training Institute (DMRTI), web site http://www.dmrti.army.mil

6H-F3/311-F3
JOINT BIO AGENT IDENTIFICATION & DIAGNOSTIC SYS

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: This is a 2-week course currently taught at Brooks City Base in San Antonio, Texas. The course includes lecture, performance exercises and performance exams. The material covered includes identification of biological threat agents, biological and chemical safety procedures, molecular principles, sample processing, and JBAIDS laboratory techniques, software, and maintenance. The course provides graduates with the technical skills and knowledge required to operate the JBAIDS.

Special Information:

1. This course is taught at Brooks City Base in San Antonio, TX in Bldg #110, room 203, lecture room and assigned labs.

2. There is no official In and Out Processing associated with this course. The students are in a TDY status and when they arrive at class, they are checked off the RITMS roster. Upon completing the course, they are given a certificate of completion.

3. Refer to Department of Clinical Support Services website at http://www.dcss.cs.amedd.army.mil/ for special information on billeting and other course information.

9E-F26/920-F17
767 F25 EPRC - OPERATOR/RESPONDER (SHORT) (DL)

ATRRS Information

Location School Code: 555 **Length: 1 week 1 day**

Description: 15 hours of Emergency Planning/CBRNE training. This course consists of 10 modules from the CBRNE Emergency Medical preparedness/Response Course matrix. It is written for military incident responders' work in medical treatment facilities. This includes non-medical clinicians/technicians, and basic EMS personnel. The areas of competency are to a basic and advanced level of subject and task knowledge proficiency.

Special Information:

Go to https://www.atrrs.army.mil/

Scroll down under channels (right side of screen) and click on self-development. Under bulletin board, click on "CONTINUE TO SELF-DEVELOPMENT".

The student has the option to use several logon options. Once the student is logged on, click on the pull down arrow to "SELECT A COURSE".

Scroll down to school code (fill in your school code here) and select the course number (fill in your course number here), (fill in your course title). Once the student clicks on the required course, the class schedule will appear. Click on class (fill in the class number here) and begin the enrollment process. Enrollment through ATRRS will create a reservation enrollment in ATRRS as proof of enrollment. ATRRS will generate an intermediate enrollment email while the student enrollment is processing. It takes up to 24 hours for the student's enrollment to process through ATRRS and the Army Learning Management System (ALMS). Once the student enrollment processes through the ALMS, an official enrollment email will be generated and sent to the student's email address that was part of the enrollment process. The official email will give the student the website for accessing courseware content and the final courseware examination.

To obtain credit for the course, all modules/topics and test must be completed.

All courses and module completions will be forwarded to ATRRS for annotation on the student's official ATRRS training record.

300-68V20
RESPIRATORY SPECIALIST Phase: 1

ATRRS Information

Location School Code: 081 **Length: 20 weeks**

Description: The 68V20, Respiratory Specialist Course is designed to provide the student with skills and basic knowledge of aerosol/humidity therapy, ventilation therapy, pulmonary function testing, infection control and cardiopulmonary drug administration. Subject matter will consist of basic sciences, anatomy and physiology, microbiology, gas therapy, cardiopulmonary resuscitation, airway management, physical therapy, clinical medicine, ventilation therapy, ethics, hospital law, and responsibilities of a Respiratory Specialist. A two-phase course: Phase 1 (20 weeks) consists of didactic study to include lecture, conference, demonstration, and practical exercise with both written and performance examinations. Phase 2 (16 weeks) consist of clinical environment training providing patient care under the supervision of a physician. Total course length: 36 weeks. Upon successful completion of the course, graduates are awarded the 68V MOS.

SPECIAL INFORMATION: Reserve Component Soldiers will arrive at Fort Sam Houston with the following items MPRJ 201 file, Medical Record, Dental Record and complete basic clothing issue, to include running shoes. The following preparatory medical sub-courses are recommended prior to attending the course: 802, 803, 806, 851, and 900. DoDcivilians must be assigned to a MEDCEN or MEDDAC and that facility will incur all costs associated with TDY training and travel. Active Army must utilize DA Form 4187 and include ERB, DA Form 2-1, and letters of recommendation from a physician or a certified therapist, and letters of commendation from the chain of command evaluating applicant's potential and ability to complete the training.

SUBMIT ALL REQUESTS FOR WAIVERS TO: CDR, AMEDD Center & School, AMEDD Personnel Proponent Directorate, ATTN: MCCS-DE, 2427 Hood Street, Ft Sam Houston, TX 78234-7584.

300-68V20(USN)
RESPIRATORY SPECIALIST

ATRRS Information Phase 1

ATRRS Information Phase 2

Location School Code: 081, 872 **Length: 16 weeks**

Description: *See 300-68V20, Respiratory Specialist and ATRRS Information for more information.*

300-68V20
RESPIRATORY SPECIALIST Phase: 2

ATRRS Information

Location School Code: 830 **Length: 16 weeks**

Description: To provide the student with skills and basic knowledge of aerosol/humidity therapy, ventilation therapy, pulmonary function testing, infection control and cardiopulmonary drug administration. Subject matter will consist of basic sciences, anatomy and physiology, microbiology, gas therapy, cardiopulmonary resuscitation, airway management, physical therapy, clinical medicine, ventilation therapy, ethics, hospital law, and responsibilities of a Respiratory Specialist. A two-phase course: Phase 1 (20 weeks) consists of didactic study to include lecture, conference, demonstration, and practical exercise with both written and performance

examinations. Phase 2 (16 weeks) consist of clinical environment training providing patient care under the supervision of a physician. Total course length: 36 weeks.

Special Information: A 72-hours FTX is conducted during Phase II.

300-P2
EAR, NOSE & THROAT (ENT) SPECIALTY Phase: 1

ATRRS Information

Location School Code: 081 **Length: 6 weeks**

Description: The course is designed to fill the needs of the Active Army and Army Reserves by providing highly trained and qualified Ear, Nose, and Throat Specialist. Instruction is given in the form of traditional classes, demonstrations, and practical exercises. Covers anatomy and physiology of ear, nose, and throat (ENT) pathological conditions; ear, nose, and throat (ENT) equipment; diagnostic and audiometric testing; sterilizing; pharmacology; assisting medical doctors; administration; minor surgery; medical emergencies; and history taking.

Phase 1 (6 weeks) is conducted at the AMEDDC&S, Fort Sam Houston, Texas. Phase 1 covers anatomy and physiology of ear, nose and throat (ENT), pathological conditions; ENT equipment; diagnostic and audiometric testing; hearing conservation; sterilization of supplies and equipment; pharmacology; assisting medical doctors; administration; minor surgery; medical emergencies; and history-taking.

Soldiers will be awarded ASI P2 upon completion of this course (Phase 1 and Phase 2) and may apply for National Certification in Occupational Hearing Conservation.

Special Information: Reserve Component Soldiers will arrive at Fort Sam Houston with the following items MPRJ 201 file, Medical Record, Dental Record and complete basic clothing issue, to include running shoes.

Active Army Soldiers must request training by submitting a DA Form 4187 to PERSCOM. A copy of their ERB and letters of recommendation should be included in their packet. After the students complete the CAOHC Portion of the course, the staff submits names to CAOHC and receives certification numbers. Certificates are created by Academic support and awarded to students at the end of phase I.

All requests for waivers must be submitted to: CDR, AMEDDC&S, AMEDD Personnel Proponent Directorate, ATTN: MCCS-DE, 1400 E. Grayson Street, Fort Sam Houston, TX 78234-5052.

300-P2
EAR, NOSE & THROAT (ENT) SPECIALTY Phase: 2

Location School Code: 830, 831, 834, 836, 837, 860, 861, 862 **Length: 7 weeks**

Description: The course is designed to fill the needs of the Active Army and Army Reserves by providing highly trained and qualified Ear, Nose, and Throat Specialist. Instruction is given in the form of traditional classes, demonstrations, and practical exercises. Covers anatomy and physiology of ear, nose, and throat (ENT) pathological conditions; ear, nose, and throat (ENT) equipment; diagnostic and audiometric testing; sterilizing; pharmacology; assisting medical doctors; administration; minor surgery; medical emergencies; and history taking. Phase 2, 3 weeks Otolaryngology, 4 weeks Audiology, total: 7 weeks.

To provide the student with skills to assist the otolaryngologist and audiologist in the diagnostic and therapeutic procedures such as diagnostic and audiometric testing; assisting physicians in minor surgical procedures; medical emergencies; history taking; ear, nose, and throat examinations.

Special Information: There is no special information.

300-P3
EYE SPECIALTY Phase: 1

ATRRS Information

Location School Code: 081 **Length: 6 weeks**

Description: The course is designed to fill the needs of the Active Army and Army Reserves by providing highly trained and qualified eye specialist. Instruction is given in the form of traditional classes, demonstrations, computer labs, and practical exercises.

Phase 1 consists of 6 weeks of didactic training conducted at the AMEDDC&S, Fort Sam Houston, Texas. The course provides a working knowledge of subjects necessary to provide full assistance to ophthalmologists and optometrists in military eye clinics. Didactic study includes: terminology, anatomy and physiology of the eye, pathological conditions, vision and diagnostic testing, sterilization of eye equipment and instruments, optical procedures, minor surgery, history taking, administrative procedures assisting medical doctors, management of supplies, and the ordering and safeguarding of medical records.

Special Information: Reserve Component Soldiers will arrive at Ft Sam Houston with MPRJ 201 file, Medical Record, Dental Record and complete basic clothing issue, to include running shoes.

Active Duty Soldiers must request training by submitting a DA Form 4187 to HRC. A copy of their ERB and letters of recommendation should be included in their packet. All students (other than non-prior service RC thru-puts) must have orders indicating en route status to proceed to Phase 2 training sites.

All requests for waivers must be submitted to: CDR, AMEDDC&S, AMEDD Personnel Proponent Directorate, ATTN: MCCS-DE, 1400E Grayson Street, Fort Sam Houston, TX 78234-5052.

300-P3
EYE SPECIALTY Phase: 2

Location School Code: 830, 834, 836, 837, 839, 857, 860, 862 **Length: 7 weeks**

Description: The course is designed to fill the needs of the Active Army and Army Reserves by providing highly trained and qualified eye specialist. Instruction is given in the form of traditional classes, demonstrations, computer labs, and practical exercises.

Phase 2 provides a clinical environment for the application of didactic training in ophthalmology and optometry. Phase 2 is 7 weeks of on-the-job training.

Special Information: For the U.S. Active Army and the U.S. Army Reserve, Phase 2 Clinical Experience and Practical Application is conducted at various MEDDAC and MEDCENs for 280-hours. Phase 2 training is not conducted during mobilization.

300-Y6
CARDIOVASCULAR SPECIALTY Phase: 1

ATRRS Information

Location School Code: 081 **Length: 21 weeks**

Description: Phase 1 (21 weeks) is conducted at the AMEDDC&S, Ft Sam Houston, Texas. Phase 2 is conducted at designated medical treatment facilities. The total length of the course is fifty-seven weeks. This course provides knowledge and skills required for performing duties and responsibilities as a Cardiovascular Specialist.

Phase 1 consists of didactic study; Phase 2 consists of a Junior/Senior rotation in the clinical environment. The junior portion is initial training in performing diagnostic tests utilizing echocardiographic and

phonocardiographic equipment and related procedures. The senior portion stresses performance of all duties required in U.S. Army non-invasive and invasive laboratories. Upon completion of the course, graduates will be awarded ASI Y6.

Special Information: Active Army Soldiers must request training by submitting a DA Form 4187 and a copy of their ERB to PERSCOM.

All requests for waivers must be submitted to: CDR, AMEDD Center & School, AMEDD Personnel Proponent Directorate, ATTN: MCCS-DE, 2427 Hood St, Ft Sam Houston, TX 78234-7584.

300-Y6
CARDIOVASCULAR SPECIALTY Phase: 2

Location School Code: 830, 834, 837 **Length: 36 weeks**

Description: To provide the student with skills to assist the cardiologist in the diagnostic and therapeutic procedures such as cardiac catherization, ventriculography, coronary angiography, pulmonary angiography, coronary angioplasty, student placement atherectomines, streptokinase thombolysis, pacemaker implantation and independent echodoppler performance examination.

Special Information: There is no special information

300-Y8
IMMUNIZATION AND ALLERGY SPECIALTY

ATRRS Information

Location School Code: 836 **Length: 5 weeks 3 days**

Description: This course trains Immunology-Allergy Technician's with the skills necessary to become a qualified medical care giver in administering vaccines to all service members, DoDemployees, and pediatric children as well as assisting Allergists in the diagnosis and treatment of patients with allergic and immunologic disorders. The students will also receive specialized training in administering Immunotherapy injection, meningococcal, Immediate and Delayed Skin Testing, Mixing and Diluting of allergen extracts, spirometry, Vaccine Storage and Handling, and disease prevention through vaccinations for our deploying personnel for peacetime and wartime missions. The importance in preventing Hepatitis A & B, Typhoid, Yellow Fever, Tetanus, Diphtheria, Pertussis, Measles, Mumps, Rubella, Varicella, Haemophilus B, Polio, Pneumococcal, Influenza, Rabies, Japanese Encephalitis and Smallpox caused by anthrax, chemical and biological weapons, contaminated water and food supplies, and undetermined sources affecting the countries in which our troops deploy can lead to serious illness or death.

Special Information: Army students must be in the grade of Sgt or below; exceptions may be made if the Soldier is the NCOIC of a clinic and actively engaged in patient care resulting from manning shortages. For exceptions, Soldiers must have a letters of recommendation and justification signed by the NCOIC or the OIC of the Allergy section identifying patient load, manning losses and any other pertinent data justifying the need for this specific training. Commanders should ensure that candidates have maximum retainability at the MTF to minimize number of technicians needing training due to turnover. Navy Students must have a Letters of recommendation and justification signed by the Leading Chief or OIC of the Allergy clinic, which identifies the Allergist on board, patient load and manning lose information and any other pertinent data justifying the need for this specific training. Exceptions made for Lead Petty Officer of the clinic if actively involved in direct patient care due to staffing shortages. The Army does not make selection regarding AF, Navy, or DoD Civilian personnel. Active Duty students should contact WRAMC course personnel at DSN 285-7813 prior to departure for details on reporting. Alternate contact numbers include DSN 295-7471 for the Air Force instructor and DSN 295-7435 for an Army instructor if there is no answer at the above number. All requests for waivers must be submitted to: CDR, AMEDDC&S APPD MCCS-DEÙ Bldg 2427 Trailer-A) Ft Sam Houston, Texas 78234-

7584. Active duty personnel are housed in Student Company. DoD/VA civilian personnel are housed in WRAMC VOQ when available or in nearby accommodations.

The course number for the Air Force is J5AZA4N051 00AA. The Navy does not currently have a course number.

303-N3
OCCUPATIONAL THERAPY SPECIALTY Phase: 1

ATRRS Information

Location School Code: 081 **Length: 17 weeks**

Description: Phase 1 (17 weeks) is conducted at the AMEDDC&S, Fort Sam Houston, Texas. Phase 2 (16 weeks) is conducted at designated medical treatment facilities. The total course length is 33 weeks. This course is designed to meet the standards of program approval established by the American Occupational Therapy Association. Graduates of this program are eligible to sit for the national certification examination and qualify for the designation, Certified Occupational Therapy Assistant. Certification and licensure are mechanisms separate and unrelated to graduation.

Phase 1 provides a general knowledge of physical and behavioral sciences; a working knowledge of the principles, concepts, and skills utilized to assist the occupational therapist in the implementation of remedial health maintenance and prevention programs for psychiatric as well as physical disability patients. Upon satisfactory completion of the 303-N3 training, Army students are awarded the additional skill identifier of N3 and Navy students are awarded Navy Enlisted Classification of 8467.

Phase 2 consists of a continuation of written and oral assignments as well as application (hands-on) of skills learned in phase 1. The phase 2 segment consists of fieldwork experience with at least 1 physical disabilities rotation and 1 mental health rotation. As time permits, students may also participate in specialized rotations such as pediatrics and burn treatment and management. Upon successful completion of the course, graduates are awarded the ASI N-3

Special Information: Reserve Component Soldiers will arrive at Ft Sam Houston with the following items MPRJ 201 file, Medical Record, Dental Record and complete basic clothing issue, to include running shoes.

Active Army Soldiers must request training by submitting a DA Form 4187 and ERB to PERSCOM. This is an inter-service training course.

All requests for waivers must be submitted to: CDR, AMEDD Center & School, AMEDD Personnel Proponent Directorate, ATTN: MCCS-DE, 2427 Hood St. Ft Sam Houston, Texas 78234-7584.

The Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), 4720 Montgomery Lane, Bethesda, Maryland 20814-3425, phone number (301) 652-2682, accredits this course. This is a certificate awarding program and students must successfully complete the Phase 1, including Level I fieldwork, and Phase 2 (Level II fieldwork) training to be eligible to take the national certification examination. The examination is given and certification awarded by the National Board for Certification in Occupational Therapy (NBCOT), 800 South Frederick Ave., Ste. 200, Gaithersburg, Maryland, 20877-4150, phone number (301) 990-7979. Additionally, upon completion of the course and/or awarding of certification, graduate may be eligible to obtain state licensure to practice as an Occupational Therapy Assistant.

NOTE: a felony conviction may affect a graduate's ability to sit for the certification examination or attain state licensure.

303-N3
OCCUPATIONAL THERAPY SPECIALTY Phase: 2

Location School Code: 830, 831, 834, 835, 836, 837, 839, 842, 849, 851, 857, 860, 861, 862, 863, 864, 869, 869A, 873 **Length: 16 weeks**

Description: This is a two-phased course, the total course length is 33 weeks. This course is designed to meet the standards of program approval established by the Accreditation Council for Occupational Therapy Education of the American Occupational Therapy Association. Graduates of this program are eligible to sit for national certification examination and qualify for the designation, Certified Occupational Therapy Assistant. Certification and licensure are mechanisms separate and unrelated to graduation. Upon satisfactory completion of both phases of the 303-N3/B-303-0052, training Army students are awarded the additional skill identifier of N3 and Navy students are awarded Navy Enlisted Classification of 8467.

Phase 2 (16 weeks) is conducted at one of 21 designated medical treatment facilities. Phase 2 consists of a continuation of written and oral assignments as well as application (hands-on) of skills learned in Phase 1. The Phase 2 segment consists of fieldwork experience with at least 1 physical disabilities rotation and 1 mental health rotation. As time permits, students may also participate in specialized rotations such as pediatrics and burn treatment and management.

Special Information: Army students complete their Phase 2 at one of 20 sites. The Navy currently uses Portsmouth Naval Medical Center, Portsmouth, Virginia as its Phase 2 training site.

Prospective students for this program acknowledge that, upon graduation, he/she will be available for a utilization tour assignment to any required billet, including any mobilization requirement, worldwide.

303-N3(AF/NAVY)
OCCUPATIONAL THERAPY SPECIALTY (AF/NAVY) Phase: 2

Location School Code: 869, 873, **Length: 16 weeks**

Description: There is no description available at this time; please review https://www.atrrs.army.mil/ for updated information.

Special Information: There is no special information available at this time; please review https://www.atrrs.army.mil/ for updated information.

303-N9
PHYSICAL THERAPY SPECIALTY Phase: 1

ATRRS Information

Location School Code: 081 **Length: 17 weeks**

Description: The 303-N9 Course is an introduction to the delivery of physical therapy services in relation to other patient-oriented services. As an Interservice Training Review Organization (ITRO) course, this course is available to United States Army and Army Reserve Soldiers, United States Navy personnel, United States Coast Guard personnel, DoD Civilians, and international students. Phase 1 training consists of 17 weeks of didactic training conducted at the AMEDDC&S, Ft Sam Houston, Texas; to include periodic clinical rotations at Brooke Army Medical Center; phase 2 consists of on-the-job (OJT) clinical training at designated military treatment facilities; training duration is 10-weeks for U.S. Army and Coast Guard personnel and 8-weeks for U.S. Navy personnel. The total course length is 27 weeks, with three iterations conducted annually. Upon successful completion of the 303-N9 training, Army students are awarded the Additional Skill Identifier (ASI) of N9, Navy students are awarded the Navy Enlisted Classification (NEC) of 8466, and Coast Guard students are awarded Qualification Code (QC) 15. Standards for International Military Students will be implemented in

accordance with (IAW) Army Regulation (AR) 12-15. All actions concerning International Military Students will be coordinated with the International Military Student Office, Office of the Dean, Academy of Health Sciences (AHS), IAW Army Medical Department Center & School (AMEDDC&S) and Ft Sam Houston Regulation 351-12.

In Phase 1 training, students are instructed in the Physical Therapy mission and scope of practice, the mechanisms of normal movement and functions of the human body, and considerations of how these are altered in selected congenital, traumatic, and pathological conditions. Students are provided with a solid theoretical and basic science foundation in physical therapy techniques. The methods of physical assessment; the use of therapeutic exercise, physical agents, gait training and ambulation, and patient transfers; and the psychological impact of injury, disability, and rehabilitation are presented. Upon successful completion of all phases of this course, graduates are awarded the ASI N9.

Special Information: Active Army Soldiers must request training by submitting a DA Form 4187 to PERSCOM. A copy of their ERB and letters of recommendation should be included in their packet.

This is an inter-service training course. Navy students must meet equivalent course prerequisites unless modified by an agreement with the host service and must have completed the B-300-0010, Basic Hospital Corpsman Course. The minimum service remaining time requirement for Navy personnel is 36 months. Coast Guard students must meet equivalent course prerequisites unless modified by an agreement with the host service and must have completed the 210090, Health Services Technician Course. The minimum service remaining time requirement for Coast Guard personnel is 24 months for CONUS or tour length for OCONUS.

All requests for waivers by army personnel must be submitted to: CDR, AMEDDC&S, AMEDD Personnel Proponent Directorate, ATTN: MCCS-DE, 2427 Hood St., Ft Sam Houston, TX 78234-7584.

303-N9
PHYSICAL THERAPY SPECIALTY Phase: 2

Location School Code: 830, 831, 834, 835, 836, 837, 839, 840, 842, 843, 844, 845, 847, 849, 851, 857, 860, 861, 862, 863, 864, 867, 872, 915 Length: 8 weeks

Description: The 303-N9 Course is an introduction to the delivery of physical therapy services in relation to other patient-oriented services. As an Interservice Training Review Organization (ITRO) course, this course is available to United States Army and Army Reserve Soldiers, United States Navy personnel, United States Coast Guard personnel, DoD Civilians, and international students. Phase 1 training consists of 17 weeks of didactic training conducted at the AMEDDC&S, Ft Sam Houston, Texas; to include periodic clinical rotations at Brooke Army Medical Center. Phase 2 consists of on-the-job (OJT) clinical training at designated military treatment facilities. Training duration is 10-weeks for U.S. Army and Coast Guard personnel and 8-weeks for U.S. Navy personnel. The total course length is 27 weeks, with three iterations conducted annually. Upon successful completion of the 303-N9 training, Army students are awarded the Additional Skill Identifier (ASI) of N9, Navy students are awarded the Navy Enlisted Classification (NEC) of 8466, and Coast Guard students are awarded Qualification Code (QC) 15. Standards for International Military Students will be implemented in accordance with (IAW) Army Regulation (AR) 12-15. All actions concerning International Military Students will be coordinated with the International Military Student Office, Office of the Dean, Academy of Health Sciences (AHS), IAW Army Medical Department Center & School (AMEDDC&S) and Ft Sam Houston Regulation 351-12.

In Phase 2 training, students receive on-the-job training in a clinical environment under the supervision of licensed physical therapists. Students receive experience in a variety of settings, with emphasis in outpatient orthopedic, sports medicine, and neurological rehabilitation, therapeutic exercise, and physical agents. Depending on the military treatment facility, students will gain additional experiences in inpatient rehabilitation,

geriatrics, pediatrics, wound and burn care, and amputee care as they become available in the various clinical settings. Students are evaluated using the Clinical Assessment Tool (CAT) and the Clinical Training Annex, 303-N9. Students are additionally required to successfully complete an evidence-based case study presentation. Upon satisfactory completion of the 303-N9 Phase 2 training, Army students are awarded the Additional Skill Identifier (ASI) of N9, Navy students are awarded the Navy Enlisted Classification (NEC) 8466, and Coast Guard students are awarded the QC 15 classification. During mobilization, this course does not require a Phase 2 training component.

Special Information: There is no special information.

303-N9 (USN)
PHYSICAL THERAPY SPECIALTY (USN) Phase: 2

Location School Code: 867, 872, 872F, 873, 876 **Length: 8 weeks**

Description: In Phase 2 training (10-weeks U.S. Army and Coast Guard/8-weeks U.S. Navy) students receive on-the-job (OJT) training in a clinical environment under the direct supervision of a qualified physical therapist. Students receive a minimum of experience in the following settings: outpatient modalities, outpatient orthopedics, inpatient rehabilitation, inpatient orthopedics, and hydrotherapy. Students are encouraged to seek out additional experiences in geriatrics, pediatrics, sport medicine, and amputee care as they become available in the various clinical settings. Students are evaluated using the Blue Macs "Master & Assessment of Clinical Skills" for the physical therapist assistant. Students are additionally required to complete on case study presentation and one inservice presentation.

Upon satisfactory completion of 303-N9 Phase 2 training, Army students are awarded the Additional Skill Identifier (ASI) of Navy students are awarded the Navy Enlisted Classification (NEC) 8466, and Coast Guard students are awarded QC 15.

Special Information: There is no special information.

304-P1
ORTHOPEDIC SPECIALTY Phase: 1

ATRRS Information

Location School Code: 081 **Length: 6 weeks**

Description: The course is designed to fill the needs of the Active Army, Army Reserves, United States Air Force and the United States Navy by providing highly trained and qualified orthopedic specialist. Instruction is given in the form of traditional classes, demonstrations, and practical exercises. The course provides the student with a general knowledge of anatomy and physiology, medical terminology, and the care and handling of orthopedic patients. Students assist in the treatment of patients with orthopedic conditions and injuries, under the supervision of a/an Orthopedic Physician, Orthopedic Physician Assistant, or Podiatrist. Students also assist in minor surgery; fabricate, modify, and remove casts and splints; apply plaster and fiberglass casts and splints; perform traction procedures; and provide patient education on proper care and use of orthopedic appliances, soft goods, equipment and materials. Upon successful completion of the course, graduates are awarded the ASI P1.

Special Information: Active Army Soldiers must request training by submitting a DA Form 4187 to U.S. Army Human Resources Command. A copy of their ERB and letters of recommendation should be included in their packet.

All requests for waivers by army personnel must be submitted to: CDR, AMEDDC&S, AMEDD Personnel Proponent Directorate, ATTN: MCCS-DE, 2427 Hood St. Ft Sam Houston, TX 78234-7584.

The Orthopedic Specialty course ID Numbers are for the following services:

Army: 304-P1

Navy: B-300-0141

Air Force: J5ALA4N131C00AA

304-P1
ORTHOPEDIC SPECIALTY Phase: 2

Location School Code: 830, 837, 839, 860, 869 **Length: 6 weeks**

Description: The course is designed to fill the needs of the Active Army, Army Reserves, United States Air Force and the United States Navy by providing highly trained and qualified orthopedic specialist. Instruction is given in the form of traditional classes, demonstrations, and practical exercises. The course provides the student with a general knowledge of anatomy and physiology, medical terminology, and the care and handling of orthopedic patients. Students assist in the treatment of patients with orthopedic conditions and injuries, under the supervision of a/an Orthopedic Physician, Orthopedic Physician Assistant, or Podiatrist. Students also assist in minor surgery; fabricate, modify, and remove casts and splints; apply plaster and fiberglass casts and splints; perform traction procedures; and provide patient education on proper care and use of orthopedic appliances, soft goods, equipment and materials.

Phase Scope: Phase 2 consists of six weeks of on-the-job training at various MEDDACS and MEDCENS. The training provides a clinical environment for the application of didactic training in orthopedics.

Special Information: For the U.S. Active Army and Army Reserve, Phase 2 clinical experience and practical application is conducted at various MEDDAC and MEDCENS. Air Force Students complete their Phase 2 training through on-the-job training at the next duty station. The Navy has its own Phase II program. The Navy will use Wilford Hall Medical Center (WHMC) at Lackland Air Force Base, located in San Antonio, Texas as their sole Phase 2 training site.

311-68H10
OPTICAL LABORATORY SPECIALIST

ATRRS Information

Location School Code: 872E **Length: 24 weeks**

Description: To provide necessary knowledge of ophthalmic optics, ocular anatomy and physiology, optical laboratory supply and administration, and optical laboratory procedures sufficient to completely fabricate and dispense prescription military eyewear in both fixed and field environments. Upon successful completion of the course, graduates will be awarded the 68H10 M0S.

Special Information: Course is conducted at the Tri-Service Optical School, (TOPS), Naval Ophthalmic Support and Training Activity, (NOSTRA) P.O. Box 350, Naval Weapons Station, Yorktown, VA 23691-0350. Course is 24-weeks in duration. Active Army utilize DA Form 4187 and include DA Form 2, DA Form 2-1, and letters of recommendation from the chain of command evaluating applicants potential and ability to complete this course to CDR, PERSCOM TAPC-EPT-F, 2461 Eisenhower Ave. Alexandria, VA 22331-0400. National Guard and Army Reserve SSGs' will receive a certificate of completion for attending this course, additional skill level 30 training is required to be awarded the MOS.

All requests for waivers must be submitted to: CDR, AMEDD Center & School, AMEDD Personnel Proponent Directorate, ATTN: MCCS- DE, 2427 Hood Street, Ft Sam Houston, TX 78234-7584.

6-250-C17
MILITARY GRADUATE PROGRAM IN NUTRITION Phase 1

ATRRS Information

Location School Code: 081 **Length: 38 weeks**

Description: The Program is offered one time each year and begins on or about 1 Dec. This Program is a two-phased, degree-producing Program. Phase 1, the didactic portion, is 38 weeks long and is completed at AMEDDC&S, Fort Sam Houston, Texas. Phase 2, the internship and research portion, is 49 weeks long and, for Army Officers, will be completed at Brooke Army Medical Center (TX), Walter Reed Army Medical Center (D.C.), Womack Army Medical Center (NC), or Madigan Army Medical Center (WA). Air Force Officers will complete Phase 2 at Wilford Hall (TX). Students who successfully complete the program will be granted a Masters of Science in Nutrition and will be eligible to take the Registration Exam for Dietitians. Officers are awarded the AOC of 65C upon completion of the Program.

Phase 1, the didactic portion, is 38 weeks in length. The course curriculum includes a comprehensive study of physiology, biochemistry, applied human biology, clinical nutrition support, sports and community nutrition, nutrition in complex medical missions, as well as research, experimental design and ethics. The curriculum provides concepts, methods, and principles to stimulate personal growth and development, plus equips graduates with outcomes research skills.

Special Information: Students must apply to be considered for the program. Application materials may be obtained by contacting an Army Recruiter at http://www.goarmy.com/amedd/index.jsp. Applications are reviewed each Spring for the enrollment in the program beginning the following Fall. Applications must be submitted by the Feb deadline. Final selection is via the American Dietetic Association computer match completed in April.

6-250-C17
MILITARY GRADUATE PROGRAM IN NUTRITION (GPN) Phase 2

Location School Code: 830, 834, 836, 860, 869 **Length: 49 weeks**

Description: The Program is offered one time each year and begins on or about 1 Dec. This Program is a two-phased, degree-producing Program. Phase 1, the didactic portion, is 38 weeks long and is completed at AMEDDC&S, Fort Sam Houston, Texas. Phase 2, the internship and research portion, is 49 weeks long and, for Army Officers, will be completed at Brooke Army Medical Center (TX), Walter Reed Army Medical Center (D.C.), Womack Army Medical Center (NC), or Madigan Army Medical Center (WA). Air Force Officers will complete Phase 2 at Wilford Hall (TX). Students who successfully complete the program will be granted a Masters of Science in Nutrition and will be eligible to take the Registration Exam for Dietitians. Officers are awarded the AOC of 65C upon completion of the Program.

Phase Scope: Phase 2, (49 weeks) the supervised practice portion, consists of an accredited dietetic internship with a clinical nutrition focus, as well as research data collection, analysis, and thesis/report write-up. The internship will focus on the etiology, signs, symptoms, assessment, and treatment of physiological dysfunctions as well as administration theory as it relates to the practice of dietetics. During Phase 2, students will participate in supervised practice in all areas of nutrition care to ensure proficiency in inpatient, outpatient, and community nutrition care services as well as food service systems, personnel, and resource management in fixed and non-fixed facilities. Students will learn to be members of a multi-disciplinary Healthcare team and to apply knowledge of medical informatics and clinical epidemiology through evidenced-based medicine. The internship consists of approximately 1500 contact hours and the remainder of time will be used to complete, write up and defend the research project.

Special Information: There is no special information.

6-250-C18-65B
USA BAYLOR UNIV DOCTORAL PRGM IN PHYS THERAPY

ATRRS Information

Phase: 1

Location School Code: 081 **Length: 74 weeks 3 days**

Description: This course is a two-phased, degree producing program. Phase 1, which is 74 weeks and 3 days in length, consists of a comprehensive study of structure and function of the human body moving from the normal to the pathological. It includes study of the etiology, signs, symptoms, and treatment of physical dysfunction to include evaluation and interpretation of abnormal signs and symptoms, research methods, and administration theory as they pertain to the practice of physical therapy. It provides a working knowledge of the evaluation and treatment techniques of the physical therapist. It provides study of concepts, methods, and principles to stimulate personal growth and development. Phase 2, which is 39-weeks in length, consist of a clinical internship. Students who successfully complete the program will be granted a Doctor of Physical Therapy (DPT) degree.

6A-F19/300-F37
JOINT FORCES COMBAT TRAUMA MANAGEMENT COURSE

ATRRS Information

Location School Code: 081 **Length: 1 week**

Description: The curriculum for the Joint Forces Combat Trauma Management Course is based upon the injury patterns of combat casualties and the constraints to deliver medical care on the battlefield and in urban warfare. Students will train on the concepts of combat medical care given realistic scenarios to include equipment, supplies and evacuation capabilities during combat. The course includes didactic instruction in casualty care at level III facilities, triage, primary and secondary survey of combat causalities, combat airway management, combat extremity trauma, combat chest trauma, combat thermal burns, combat blood transfusions, combat wound management, antibiotics and pain control in the combat environment, and combat fluid maintenance. Practical exercises for providers are conducted in airway management, surgical treatment of extremity trauma, chest, abdominal, head, neck and thermal wounds, and pain management/anesthesia delivery mechanisms. Practical exercises for nurses are conducted in airway management, ventilator management, chest tube management, intra-cranial pressure monitoring, central line management, methods of hemorrhage control, nursing management of compartment syndrome, and preparation of casualties for aeromedical evacuation.

Special Information: AMEDD Center and School will fund transportation, lodging and per diem costs to mobilizing Army attendees. Bus transportation will be provided to and from hotels, training area, and dining facilities. Rental vehicles are not authorized. Units are required to provide full names, social security number, rank, and MOS/AOC of attendees NLT 4 weeks prior to the start of the program.

Air Force and Navy attendees are not funded through AMEDDC&S. The service members unit must provide the funding for travel, per diem and local transportation for the duration of the course. On-post billeting can be requested but cannot be guaranteed.

In the event the service member cannot attend the course due to lack of unit funding, please contact the Program Manager at (210) 221-8580 or DSN 471-8580.

ALL REQUESTS FOR TRAINING MUST BE SUBMITTED TO:

JFCTMC Program Manager, by faxing DA Form 3838 (Application for Professional Training) to: (210) 221-7306 or DSN 471- 7306.

**Requests must be made at a minimum of 30 days prior to class start date.

Course slots will be allocated as follows:

-Army: 60; -Air Force: 15; -Navy: 15

**These numbers can be adjusted at the discretion of the Program Manager

Once approved, the program manager will complete items 24 through 27 of the DA 3838 and notify the unit of the applicant's seat reservation. Upon confirmation from the unit, the program manager will provide the Register Services & Training Management Branch with the 3838's to be entered into the Army Training Requirements and Resource System (ATRRS).

The Program Manager can be reached at DSN 471-8580 or (210) 221- 8580 for further information regarding the course.

6H-F35/300-F38
TACTICAL COMBAT MEDICAL CARE (TCMC)

ATRRS Information

Location School Code: 081 **Length: 1 week**

Description: The Tactical Combat Medical Care course is based upon the injury patterns of combat casualties and the constraints to deliver medical care on the battlefield and in urban warfare. Students will train on the concepts of tactical combat medical care given realistic scenarios to include Army equipment, supplies and evacuation capabilities during combat. The course includes didactic instruction in casualty care at the point of wounding, triage, primary and secondary survey of combat causalities, combat airway management, combat extremity trauma, combat chest trauma, combat maxillofacial and head trauma, combat thermal burns, combat amputations, combat blast injuries, combat altitude illness, urban warfare, combat blood transfusions, combat wound management, antibiotics and pain control environment, and combat fluid maintenance. Practical exercises are conducted in airway management, treatment of extremity trauma, treatment of combat chest wounds, packing of medical treatment bags, life-saving emergency surgical skills, and the evaluation and management of mass causalities utilizing simulated combat casualty scenarios.

Special Information: This course is centrally funded for active duty service members.

There is no central funding for National Guard or Army Reserve Soldiers. The Soldier's unit must provide the funding for travel, per diem, and local transportation for the duration of the course.

Training will convene at 0730 hours on Monday and conclude no earlier than 1800 hours on Friday of the training week. Students should be authorized to arrive at Fort Sam Houston on Sunday prior to the class and to depart on Saturday.

All requests for training must be submitted to: TCMC Program Manager, by faxing DA Form 3838 (Application for Professional Training) to: (210) 221- 5772 or DSN 471- 5772.

**Requests must be made at a minimum of 30 days prior to class start date.

Once approved, the program manager will complete items 24 through 27 of the DA 3838 and notify the unit of the applicant's seat reservation. Upon confirmation of funding, the program manager will enter reservation into the Resident Individual Training Management System (RITMS), the student management information system that will post the reservation to ATRRS.

The Program Manager can be reached at COMM: (210) 221- 5751 or DSN 471-5751 for further information regarding the course.

6H-65D
INTERSERVICE PHYSICIAN ASSISTANT PROGRAM Phase: 1

ATRRS Information

Location School Code: 081 **Length: 50 weeks 2 days**

Description: The Interservice Physician Assistant Program (IPAP) is a two-year, two-phased degree producing program. The program is designed to provide the skills and knowledge of medical and surgical conditions and procedures and the administrative management of healthcare delivery.

Phase 1 (50 weeks and 2 days) consists of 3 trimesters, each trimester is 16-weeks in duration. The course is conducted at Ft Sam Houston, Texas.

Phase 1 includes instruction in the basic medical sciences, physical examination procedures, PA professional issues, ethics and medical law, research methodologies, and medical and surgical conditions.

First Trimester: Includes instruction in anatomy and physiology, biochemistry, microbiology, clinical laboratory, pathology, medical law, and medical ethics. Students receive initial instruction in research methodologies and will produce multiple projects throughout the didactic year that demonstrate proficiency in the evaluation of medical literature and technical writing.

Second Trimester: Provides instruction in patient evaluations, to include history taking and physical examination techniques, pharmacology, radiology, psychiatry, orthopedics, cardiology, electrocardiography, pulmonary medicine, gastroenterology, endocrinology and dental sciences.

Third Trimester: Includes numerous patient encounters and didactic instruction in pediatrics, surgery, dermatology, obstetrics and gynecology, emergency medicine, infectious diseases, neurology, ophthalmology, genitourinary, otorhinolaryngology, hematology/oncology, rheumatology, geriatrics, military public health and advanced trauma management. Certification courses in Basic Cardiac Life Support and Advanced Cardiac Life Support are conducted during this trimester.

One week of Research and Study is scheduled between the first and second trimester and again between the second and third trimester during which time students are required to complete written projects that are graded as elements of the Research Evaluation course. Students successfully completing Phase 1 of IPAP are awarded a Bachelors of Science degree from the affiliated university and PCS to their respective Phase 2 sites.

Special Information: Upon appointment as an officer, the Active Army student incurs an active duty service obligation of 4 years beyond the date of successful completion of Ph 2. The ARNG and USAR student incurs a service obligation of 6 years beyond the date of successful completion of Ph 2. If the enlisted student fails to successfully complete training, if appointment as a commissioned officer (CO) is not tendered, or if the student refuses to accept appointment as a CO, the enlisted student will be required to complete the remaining period of enlistment in accordance with service-specific regulations. If the Warrant Officer (WO) fails to complete training or accept the commission into the Specialist Corps (SP), the WO will be released to WO personnel for reassignment based upon the needs of the service.

The Army is the only military service that permits commissioned officers and warrant officers to apply for this training program.

Graduates will be required to successfully pass the Physician Assistant National Certifying Examination (PANCE) immediately following graduation from Ph 2 training. Graduates are also required to maintain National Commission on Certification of Physician Assistants (NCCPA) certification as a requirement for continued employment as a Military PA.

Army commissioned officer students will be branch transferred into the SP at the time of enrollment in the program and will be granted constructive credit for prior commissioned service IAW DODI 6000.13. Army WO students will remain in the WO Corps until graduation from of Ph 2 training and are then branch transferred into the AMS.

All applicants will be expected to meet their service specific prerequisites as outlined in the respective recruitment/accession or training regulations. Students, who arrive at the IPAP and do not meet the minimum admission requirements agreed to by all services and the Registrar, the UNMC, will not be admitted. No advanced standing is given to any applicant of the IPAP.

6H-65D
INTERSERVICE PHYSICIAN ASSISTANT PROGRAM Phase: 2

Location School Code: 835, 837, 839, 842, 843, 844, 849, 857, 860, 861, 862, 863, 864, 869B, 869C, 869D, 869E, 869F, 869G, 869H, 869J, 872, Length: 51 weeks

Description: The Interservice Physician Assistant Program (IPAP) is a two-year, two-phased degree producing program. The program is designed to provide the skills and knowledge of medical and surgical conditions and procedures and the administrative management of healthcare delivery.

Phase 2 is 51 weeks in length and begins with a 1-week orientation to the medical treatment facility (MTF) and its staff, the Student Company/Detachment, HIPPA and CHCS training, and other mandatory medical and service-specific military training. Students must complete post/base in-processing and have their families settled prior to the Start Date of Phase 2 training. The usual duty day is 10-hours long and often includes clinical duties during the evenings, weekends and night on-call duties on some rotations. Phase 2 is conducted at 11 Army, 8 Air Force, and 1 Navy MTF under the supervision of the Phase 2 site Clinical Coordinator and Medical Director.

The clinical rotations include 5 weeks in surgery/urology, 4 weeks in dermatology, 4 weeks in obstetrical/gynecology, 3 weeks in psychiatry, 6 weeks in internal medicine, 4 weeks in otorhinolaryngology/allergy, 5 weeks in pediatrics, 2 weeks in ophthalmology, 6 weeks in family practice/outpatient medicine, 2 weeks plus 160 after-duty hours in emergency medicine, and 4 weeks in elective rotations. Students may be directed to spend their elective rotations in specific clinical areas as deemed critical to service-specific medical missions. During the Directed Studies course, students will complete 4 oral and written case presentations and submit their investigational research paper (suitable for publication in peer-reviewed journals) to the affiliate university no later than the sixth month of Phase 2.

Upon successfully completing Phase 2 of IPAP, graduates are awarded a Masters in Physician Assistant Studies from the affiliate university and the IPAP Program Director deems them eligible to sit for the Physician Assistant National Certification Examination (PANCE). Enlisted graduates are eligible for a commission as a Physician Assistant within their respective military service. All graduates are awarded the service-specific occupational specialty (65D) classification as a Physician Assistant.

Special Information: This is a multiple permanent change of station two-year, two-phased training program. Students will be awarded a Bachelor of Science degree upon the successful completion of didactic training Phase 1 at Ft Sam Houston, Texas and a Master of Physician Assistant Studies (MPAS) degree upon the successful completion of clinical training Phase 2. Students will be permitted 3 weeks to PCS from Ft Sam Houston to their Phase 2 training site. Students are encouraged to arrive at the Phase 2 site at least 1 week prior to the report date. On-post accompanied housing and bachelor officer quarters are not available at many of the Phase 2 sites.

Phase 2 is 51 weeks long with 2 weeks added for Christmas vacation/exodus. As documented in ATRRS, the total course length is 53 weeks.

Students will be authorized 2 weeks of personal leave during the Christmas vacation/exodus due to limited opportunities for clinical experiences. Students will not be authorized personal leave during any other time while attending Phase 2.

6H-F31 / 300-F18
ARMY TRAUMA TRAINING COURSE

ATRRS Information

Location School Code: 081 **Length: 2 weeks 3 days**

Description: The Army Trauma Training Center (ATTC), co-located with the Ryder Trauma Center (RTC) at the University of Miami/Jackson Memorial Medical Center, provides a robust 17-day training rotation for Army Forward Surgical Teams (FSTs) and slice surgical elements of other TO&E medical units. The primary focus throughout the elements of the ATTC POI is FST clinical team development. The unifying clinical theme embodies the principles of Advanced Trauma Life Support. Individual trauma refresher training is an additional benefit. Members of the FST and slice elements work together within and across their Sections to care for acutely injured patients, most of whom have injuries similar to those of combat casualties. The battlefield context of care is infused throughout the curriculum and is current with theater activities in Iraq and Afghanistan (based on AARs and Consultant Reports). The components of the POI include Trauma Systems, Team Clinical Rotations (includes the Capstone Exercise, a 48-hour continuous FST operation in the RTC), Team Development Events, and the Core Discussion Series. The setting is ideal: the Ryder Trauma Center cares for 3,600 severely injured patients each year and averages 10 patients per day; the ratio of blunt to penetrating trauma is 70:30; half of the patients are evacuated by air to the on-site helipad; and 30% of patients require operative intervention. The system of care, from spatial orientation to echelons, is analogous to that in which the FST operates. Training is conducted under the auspices of the ATTC and adjunct civilian faculty, all of whom are appropriately credentialed and privileged by Jackson Memorial Medical Center.

This course is conducted in three phases. Stage I involves completion of the pre-rotation survey, the pretest for each specific MOS, the Critical Trauma Task self-assessment and the commander's team assessment. Stage II is the physical 17-day rotation at the Army Trauma Training Center (ATTC). Stage III is follow-on sustainment training conducted through the ATTC website.

Special Information: Participants are required to meet specific documentation requirements on the ATTC Rotating Unit Checklist prior to arrival. Checklist actions require participants to begin processing a minimum of 30 days prior to deployment to the ATTC.

This course has been approved by the Uniformed Services University for 60-hours of Category I Continuing Medical Education credit and 58 of Continuing Education Units.

800-68M10
NUTRITION CARE SPECIALIST

ATRRS Information

Location School Code: 081 **Length: 7 weeks**

Description: To train enlisted personnel in nutrition care operations to include clinical dietetic concepts and functions, therapeutic and regular patient diet preparation, assembly and service, and Army medical field feeding concepts and functions in a mobile environment.

Upon successful completion of the course, graduates are awarded the 68M10 MOS.

Special Information: Reserve Component Soldiers will arrive at Ft Sam Houston with the following items: MPRJ 201 file, Medical Record, Dental Record and complete basic clothing issue, to include running shoes. DoD civilians must submit a DA1556 requesting attendance at this course. The Unit of assignment for DoD civilians will incur all costs associated with attendance at this course. AA and RC Soldiers must submit DA Form 4187, ERB, DA Form 2-1, transcripts, and letters of recommendations from the chain of command. National Guard and Army Reserve SSGs' will receive a certificate of completion for attending this course; additional skill level 30 training is required to be awarded the MOS.

Submit all requests for waivers to: CDR, AMEDD Center & School, AMEDD Personnel Proponent Directorate, ATTN: MCCS-DE, 2427 Hood Street, Ft Sam Houston, TX 78234-7584.

800-68M10 (RC) (DL)
NUTRITION CARE SPECIALIST Phase: 1

ATRRS Information

Location School Code: 081 **Length: 1 week 3 days**

Description: To train enlisted personnel in nutrition care operations to include clinical dietetic concepts and functions, therapeutic and regular patient diet preparation, assembly and service, and Army medical field feeding concepts and functions in a mobile environment. The course is designed in two phases: Phase 1 consists of correspondence study with a comprehensive examination and Phase 2 is the resident portion. Award of MOS 68M is made upon completion of Phase 2.

Special Information: The student must successfully complete the 92G10 training before being enrolled into the 68M10 (RC) (Basic) Course. Phase 1 consists of 62 periods and a three-hour comprehensive examination. National Guard and Army Reserve SSGs' will receive a certificate of completion after attending Phase 2 of this course, additional skill level 30 training is required to be awarded the MOS.

Submit all requests for waiver to: CDR, AMEDD Center & School, MCCS-DE, 1400 E Grayson Street, Fort Sam Houston, TX 78234-5052.

800-68M10 (RC)
NUTRITION CARE SPECIALIST Phase: 2

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: To train enlisted personnel in nutrition care operations to include clinical dietetic concepts and functions, therapeutic and regular diet preparation, assembly and service, and Army medical field feeding concepts and functions in a mobile environment.

Special Information: Reserve Component Soldiers will arrive at Fort Sam Houston with the following items MPRJ 201 file, Medical Records, Dental Records and complete basic clothing issue, to include running shoes. A class A uniform is required for graduation. National Guard and Army Reserve SSGs' will receive a certificate of completion for attending this course, additional skill level 30 training is required to be awarded the MOS.

All requests for waiver must be submitted to: CDR, AMEDD Center & School, AMEDD Personnel Proponent Directorate, ATTN: MCCS-DE, 1400 East Grayson Street, Fort Sam Houston, TX 78234-5052

DEPARTMENT OF NURSING SCIENCE (DNS)

https://www.cs.amedd.army.mil/details.aspx?dt=210

300-M3
DIALYSIS SPECIALTY

ATRRS Information

Location School Code: 836 **Length: 20 weeks**

Description: This course provides selected AMEDD enlisted personnel with the knowledge and skills required to perform safe and effective hemodialysis treatments with additional emphasis on other renal replacement therapies including: peritoneal dialysis; continuous renal replacement therapies; renal transplant; and plasma exchange/apheresis. The first six weeks are didactic and include: a review of fluid and electrolytes; acid-base balance; anatomy and physiology of the kidney, cardiovascular system and respiratory system. Hemodialysis didactic content includes: establishment of vascular access; initiation, monitoring and termination of the dialysis procedure; identification, interpretation and correction of patient/technical complications; and maintenance of dialysis supplies and equipment. The course has 480-hours of clinical practicum with emphasis on dialysis in the combat theater. Upon successful completion of the course, graduates are awarded the ASI M3

Special Information: Active Army Soldiers must request training by submitting a DA Form 4187 to PERSCOM. A copy of their ERB, school transcripts, and letters of recommendation should be included in their packet.

All requests for waivers must be submitted to: CDR, AMEDDC&S, AMEDD Personnel Proponent Directorate, ATTN: MCCS-DE, 2427 Hood St, Ft Sam Houston, TX 78234-7584.

300-M6
PRACTICAL NURSE Phase: 1

ATRRS Information

Location School Code: 081 **Length: 8 weeks**

Description: This three-phased course trains the 68W Soldier in skills and knowledge necessary to become a proficient entry level licensed practical nurse (68WM6). The student's training encompasses nursing for in/outpatient care, emergent and minor acute treatments, and casualty care management. The 68W Soldier will be trained to the licensing standards of the Texas Board of Vocational Nurse Examiners. Additionally, the student receives specific training in military hospital field nursing, force medical protection, deployable medical systems and equipment and critical care. This course is taught in three Phases:

Phase 1 at the Academy of Health Sciences, Fort Sam Houston (8 weeks) and Phase 2 and 3 at designated MTF's (44 weeks). The total course length is 52 weeks.

Phase 1 provides an expansion of basic Anatomy and Physiology presented in the primary MOS Healthcare Specialist Course and introduces the fundamentals of microbiology, nutrition, and pharmacological mathematic concepts, fundamentals of nursing, train field-nursing skills/tasks, allow for set-up and use of ICU field medical equipment, instruction on set-up and storage of DEPMEDS, and introduce computer/information systems used for patient tracking and documentation such as Medical Communications for Combat Causality Care (MC4) and Composite Healthcare System (CHCS I and II).

Phase 2 affords the student the opportunity to acquire the skills necessary to be a practical nurse in a variety of community-based and acute care settings. This training includes advanced anatomy and physiology; expanded use of principles in microbiology; integration of pharmacology and nutrition care; as well as pathophysiology of

the body systems and its manifestations. Medication administration is an essential component throughout training. The nursing process provides the framework for the acquisition of knowledge and application of skills.

Special Information: 300-M6 is a three phased course, Soldiers must successfully complete all three phase to be awarded the M6 ASI.

Reserve Component Soldiers will arrive at Fort Sam Houston with the following items MPRJ 201 file, Medical Record, Dental Record and complete basic clothing issue, to include running shoes.

Active Army Soldiers must request training by submitting a DA Form 4187 to PERSCOM. A copy of their ERB and letters of recommendation from either a practical nurse, registered nurse, physician's assistant, or a physician evaluating the Soldier's potential and ability to complete this course should be included in their packet.

All requests for waivers must be submitted to: CDR, AMEDDC&S, AMEDD Personnel Proponent Directorate, ATTN: MCCS-DE, 2427 Hood St Fort Sam Houston, TX 78234-7584.

This training program replaces the 300-91C10 Course. Prior to completion of the course students will be required to sit for and complete the NCLEX-PN examination. Practical Nurse course graduates must obtain licensure as a Practical Nurse or a Vocational Nurse to maintain the ASI M6 IAW AR 40-68, DA PAM 611-21, and MEDCOM Circular 40-14. The NCLEX examination fee is $200.00, and Texas licensure fee is $88.00 for each student completing course requirements. To retain the M6 ASI, Soldiers must maintain their 68W MOS, EMT certification, and hold a current, valid, unrestricted Practical or Vocational Nurse license.

300-M6
PRACTICAL NURSE Phase: 2

Location School Code: 830, 831, 834, 836, 837 Length: 38 weeks 3 days

Description: Phase 2 affords the student the opportunity to acquire the skills necessary to be a practical nurse in a variety of community-based and acute care settings. This training includes: advanced anatomy and physiology; expanded use of principles in microbiology; integration of pharmacology and nutrition care; as well as pathophysiology
of the body systems and its manifestations. Medication administration is an essential component throughout training. The nursing process provides the framework for the acquisition of knowledge and application of skills.

Phase 2 affords the student the opportunity to acquire the skills necessary to be a practical nurse in a variety of community-based and acute care settings. This training includes: advanced anatomy and physiology; expanded use of principles in microbiology; integration of pharmacology and nutrition care; as well as pathophysiology of the body systems and its manifestations. Medication administration is an essential component throughout training. The nursing process provides the framework for the acquisition of knowledge and application of skills. Emphasis is placed on the student's ability to integrate concepts and perform skills in a variety of clinical settings. The clinical rotations include, but are not limited to, medical-surgical, pre-and postoperative settings, pediatrics, obstetrics, gerontology, emergency room, and critical care management environments.

Special Information: 300-M6 is a THREE PHASED Course; the Soldier MUST SUCCESSFULLY COMPLETE ALL THREE PHASES to be awarded the M6 ASI.

Reserve Component Soldiers will arrive at Fort Sam Houston with the following items MPRJ 201 file, Medical Record, Dental Record and complete basic clothing issue, to include running shoes.

Active Army Soldiers must request training by submitting a DA Form 4187 to PERSCOM. A copy of their ERB and letters of recommendation from either a practical nurse, registered nurse, physician's assistant, or a physician evaluating the Soldier's potential and ability to complete this course should be included in their packet.

Soldiers not having a Skills Technical score of 102 or higher and a General Technical score of 110 or higher must submit an approved waiver with their packet.

All requests for waivers must be submitted to: CDR, AMEDDC&S, AMEDD Personnel Proponent Directorate, ATTN: MCCS-DE, 2427 Hood St, Fort Sam Houston, TX 78234-7584.

Prior to completion of the course students will be required to sit for and complete the NCLEX-PN examination. Practical Nurse course graduates must obtain licensure as a Practical Nurse or a Vocational Nurse to maintain the ASI M6 IAW AR 40-68, DA PAM 611-21, and MEDCOM Circular 40-14. The NCLEX examination fee is $200.00, and Texas licensure fee is $88.00 for each student completing course requirements.

To retain the M6 ASI, Soldiers must maintain their 68W MOS, EMT certification, and hold a current, valid, unrestricted Practical or Vocational Nurse license.

300-M6
PRACTICAL NURSE Phase: 3

Location School Code: 830, 831, 834, 836, 837 Length: 5 weeks 3 days

Description: Phase 3 affords the student the opportunity to acquire the beginning skills necessary to function in a critical care environment. The training includes 40-hours of classroom instruction focusing on advanced anatomy and physiology; pathophysiology of critical disease processes and integration of pharmacology, and medical and nursing management/treatment modalities for the critically injured/ill patient. Students will also receive 80-hours of clinical instruction in a critical care or intermediate care environment. In addition, during this phase the student will receive NCLEX preparation through a structured review and NCLEX predictor exam. Prior to completion of Phase 3, students will be required to sit for and complete the NCLEX-PN examination.

Special Information: 300-M6 is a THREE PHASED Course; the Soldier MUST SUCCESSFULLY COMPLETE ALL THREE PHASES to be awarded the M6 ASI.

Reserve Component Soldiers will arrive at Ft Sam Houston with the following items MPRJ 201 file, Medical Record, Dental Record and complete basic clothing issue, to include running shoes.

Active Army Soldiers must request training by submitting a DA Form 4187 to PERSCOM. A copy of their ERB and letters of recommendation from either a practical nurse, registered nurse, physician's assistant, or a physician evaluating the Soldier's potential and ability to complete this course should be included in their packet. Soldiers not having a Skills Technical score of 102 or higher and a General Technical score of 110 or higher must submit an approved waiver with their packet.

All requests for waivers must be submitted to: CDR, AMEDDC&S, AMEDD Personnel Proponent Directorate, ATTN: MCCS-DE, 1400 E. Grayson Street, Ft Sam Houston, TX 78234-5052.

Prior to completion of the course students will be required to sit for and complete the NCLEX-PN examination. Practical Nurse course graduates must obtain licensure as a Practical Nurse or a Vocational Nurse to maintain the ASI M6 IAW AR 40-68, DA PAM 611-21, and MEDCOM Circular 40-14. The NCLEX examination fee is $200.00, and Texas licensure fee is $88.00 for each student completing course requirements.

To retain the M6 ASI, Soldiers must maintain their 68W MOS, EMT certification, and hold a current, valid, unrestricted Practical or Vocational Nurse license.

301-68D10
OPERATING ROOM SPECIALIST Phase: 1

ATRRS Information

Location School Code: 081 **Length: 9 weeks**

Description: The 68D10, Operating Room Specialist Course is designed to provide the student with a working knowledge of principles of surgical technology practice, and the instruments, supplies, and equipment for surgical procedures. Phase 1 (9 weeks) didactic study includes: basic anatomy and physiology; vital signs, cardiopulmonary resuscitation; principles and methods of decontamination, sterilization and disinfection; storage and handling of sterile supplies; identification and care of surgical instruments, specialized equipment, sutures, needles, blades, linen, and corrosion-resistant metalware; duties of the scrub and circulating technician; principles and practices of sterile technique and standard precautions; transporting and positioning patients; operating room safety; handling of specimens, medications, dyes and hemostatic agents; and surgical specialties as they relate to selected surgical procedures. A field training exercise (FTX) is also incorporated into the course. Phase 2 (10 weeks) is on-the-job training in the clinical environment. Total course length: 19 weeks. Upon successful completion of the course, graduates are awarded the 68D MOS.

Special Information: Reserve Component Soldiers will arrive at Ft Sam Houston with the following items MPRJ 201 file, Medical Record, Dental Record, and complete basic clothing issue, to include running shoes.

DoD civilians must be assigned to MEDCOM and unit commanders incur all TDY and travel costs associated with civilian training.

Active Army must utilize DA Form 4187 and include ERB, DA Form 2-1, letters of recommendation from an Operating Room surgeon or nurse, and letters of commendation from the chain of command evaluating applicant's potential and ability to complete the training.

National Guard and Army Reserve SSGs' will receive a certificate of completion for attending this course, additional skill level 30 training is required to be awarded the MOS.

All requests for waivers must be submitted to: CDR, AMEDD Center & School, AMEDD Personnel Proponent Directorate, ATTN: MCCS-DE, 2427 Hood St, Ft Sam Houston, TX 78234-7584.

301-68D10
OPERATING ROOM SPECIALIST Phase: 2

Location School Code: 830, 831, 834, 835, 836, 837, 839, 840, 851, 852, 860, 861, 862, 864
Length: 10 weeks

Description: The 68D10, Operating Room Specialist Course Phase 2 Clinical Practicum is designed to provide the student with clinical experiences in performing entry-level surgical technology skills, while enabling the student to apply theories, concepts, and procedural foundations from Phase 1. Supervised on-the-job training focuses on the principles of surgical technology practice, and the instruments, supplies, and equipment for surgical procedures. Clinical study and practicum includes anatomy and physiology; cardiopulmonary resuscitation; principles and methods of sterilization and disinfection; storage and handling of sterile supplies; identification and care of surgical instruments, specialized equipment, sutures, needles, blades, linen, and corrosion-resistant metalware; duties of the scrub and circulating technician; principles and practices of sterile technique and standard precautions; transporting and positioning patients, operating room safety; handling of specimens, medications, dyes and hemostatic agents; and surgical specialties as they relate to selected

surgical procedures. Phase 1 (9 weeks) is didactic study. Phase 2 (10 weeks) is on-the-job-training in the clinical environment. Total course length: 19 weeks.

Special Information: Phase 2 training is currently conducted at twenty-three selected medical treatment facilities. The number of clinical training slots at each Phase 2 site may vary per iteration. Training, evaluation and administrative guidelines are provided to each Phase 2 site by the MOS 91D10 Operating Room Specialist Course Clinical Training Annex (GR 27NONZ602A). Safety is taught throughout the course. Academic hours are based on 50-minute periods and 40-period weeks for peacetime. Most Phase 2 sites do not have a dedicated instructor but constant communication is maintained with the Operating Room Branch at Fort Sam Houston. Each site is visited at least every other year by OR Branch personnel to review and update information, identify and correct problems/issues, and improve relationships with the Surgical Services, Departments of Nursing Education and Hospital Commanders.

6F-66C
PSYCHIATRIC/MENTAL HEALTH NURSING

ATRRS Information

Location School Code: 836 **Length: 16 weeks**

Description: Course instruction is presented through lecture, conferences, discussion, practical exercises, and clinical practicum. Major areas of instruction include scope of practice of the psychiatric/mental health nurse; principles of psychiatric mental health concepts and theory; psychiatric disorders according to the Diagnostic and Statistical Manual for Mental Disorders (DSM-IV-TR); comprehensive psychiatric mental health therapies, to include psychopharmacology and group therapy; development of critical thinking skills in psychiatric and mental health nursing; application of the core competencies for psychiatric nursing as identified by the American Nurses Association (ANA) and the American Psychiatric Nurses Association (APNA); and application of psychiatric mental health principles in military settings.

Special Information: Active and reserve Army Nurses (AN) and Department of the Army Civilian (DAC) Registered Nurses (RN) with an interest in the field of psychiatry. ANs must have completed the AMEDD Officer Basic Course.; must meet the height and weight standards IAW AR 600-9 and APFT standards IAW AR 350-41. Selected prerequisites may be waived on an individual basis by the Army Nurse Corps Branch.

Compliance with current permanent change of station policy for education and training courses as applicable; Prospective applicants should contact local Nursing Education and Staff Development Office for application procedures.

Minimum time for service remaining upon completion of this course: Active Army one year; U.S. Army Reserve (USAR), IAW AR 135-200; and U.S. Army National Guard (USANG), IAW NGR 351-1. If you voluntarily withdraw or are relieved from the course, you have a minimum of one year obligation from the date your withdrawal or relief action is approved by the Dean, Academy of Health Sciences (AHS).

6F-66E
PERIOPERATIVE NURSING

Location School Code: 830, 834, 837 **Length: 16 weeks**

Description: Course instruction is presented through lectures, conferences, discussions, practical exercises, examinations, literature review, and clinical practicum. Major areas of instruction include principles of microbiology and sterilization; preparation of surgical supplies; environmental responsibilities and hazards in the environment; specialized equipment; perioperative nursing in surgical specialties; readiness training and perioperative nursing skills; and the role of the perioperative nurse in ensuring patient safety, patient teaching, and supervisory roles and responsibilities in the management of the perioperative nursing environment.

Special Information: There is no special information.

6F-66F
US ARMY GRADUATE PGM IN ANES NURSG Phase: 1

ATRRS Information

Location School Code: 081 **Length: 51 weeks**

Description: This curriculum is in compliance with educational standards and guidelines of council on Accreditation of Nurse Anesthesia Educational Programs. Completion of this course qualifies graduates to write the national certification examination in this specialty. The U.S. Army/University of Texas Houston Science Center Program in Anesthesia Nursing is fully accredited by the council on Accreditation of Nursing Anesthesia Educational Programs with an effective date of 1995.

Special Information: Application process is IAW the following references: DoD Directives 600-2; AR 135-215; AR 351-3; and AR 621-1. Applicants who do not have a minimum of 1 year critical care experience must enroll in the Essentials of Critical Care Orientation Course (ECCO). For information on enrollment, consult with your staff and training development office.

Instructional strategies used in Phase 1 include: lectures, conferences, discussions, practical exercises, and examinations. Major areas of the curriculum presented include Professional Aspects of Anesthesia Nursing I, Theoretical Foundations in Nursing, Research Methodology, Anatomy Physiology and Pathophysiology, Medical Physical Science, Medical Pharmacology, Fundamentals of Nursing Anesthesia Practice. This curriculum is in compliance with educational standards and guidelines of Council on Accreditation of Nurse Anesthesia Educational Programs. Completion of this course qualifies graduates to write to the Council of Accreditation for the national certification examination application.

6F-66G
OB/GYN NURSING

ATRRS Information

Location School Code: 835 **Length: 16 weeks**

Description: Course instruction is presented through lectures, conferences, discussion, practical exercises, examinations, and clinical practicum. Major areas of instruction include Fundamentals of OB/GYN nursing, high risk and complicated pregnancy, assessment and care of newborn, family planning and gynecology, leadership and readiness training, legal considerations in OB/GYN nursing, and identifying and managing OB/GYN emergencies.

Special Information: There is no special information.

6F-F2 (DL)
AMEDD ADVANCED NURSE LEADERSHIP (ANLC) (DL) Phase: 1

ATRRS Information

Location School Code: 081 **Length: 1 week 5 days**

Description: Major areas of instruction of both phases include leadership, management, productivity, organizational structure, utilization of resources, and decision making. Phase 1 utilizes modules of the Joint Medical Executive Skills Institute to deliver competencies needed by senior leaders.

Phase Scope: The modules included in this phase of the ANLC are delivered by the Joint Medical Executive Skills Institute (JMESI) over the Internet, and are designed to provide familiarity and a basic knowledge on selected administrative competencies required of senior medical treatment facility managers.

Special Information: Selected prerequisites may be waived on an individual basis by the Army Nurse Corps Branch. Prospective applicants should contact their local Nursing Education and Training branches for application procedures.

To Enroll:

Active Component: Fax a DA 3838 to HRC at (703) 325-2392. For additional information, contact your MTF education branch.

Reserve Components: POC for ALL USAR Soldiers (TPU, IRR, and IMA) is Human Resources Command, Health Services Directorate, 1-800-325-4729, option 2.

Civilian enrollments: In order to enroll in this course, please contact your local Training and Educations Office to complete a DA 3838.

Once completed, contact the Course Director, ANPDB at COMM: (210) 221-6080 or DSN: 471-6080. Course modules are available, through the Joint Medical Executive Skills Institute (JMESI) web site and are designed to provide the student with a basic knowledge on topics related to administrative competencies required of senior medical treatment facility managers by the language of the Defense Appropriations Act, 1991.

The modules by themselves will not give you the competencies; however, they will set the stage for successful performance and help you gain the experience that ultimately may lead to granting of the competencies. Once enrolled through the Human Resource Command (HRC), first time users are required to register prior to beginning the modules.

Use the following link to register: http://jmesi.army.mil/courses/homepages/pages/login.asp. If you encounter any problems, please use the contact information found on the bottom of web page. Upon successful

enrollment / completion, the JMESI Registrar will forward an enrollment roster to the Army Nurse Professional Development Branch or the Army Training Requirements and Resources System (ATRRS) Office at the AMEDDC&S for student status update.

6F-F2 (DL)
AMEDD ADVANCED NURSE LEADERSHIP (ANLC) (DL) Phase: 2

ATRRS Information

Location School Code: 081 **Length: 5 days**

Description: Major areas of instruction of both phases include leadership, management, productivity, organizational structure, utilization of resources, and decision making. Phase 2 encompasses various topics related to military leadership in an organizational setting.

Phase 2 of the ANLC is delivered to students through video teletraining, and explores topics in leadership, management, productivity, organizational structure, utilization of resources, and decision making.

Special Information: Selected prerequisites may be waived on an individual basis by Army Nurse Corps Branch.

Active Component: To enroll fax a DA 3838 to HRC to (703) 325-2392. For more information, please contact your MTF education office.

Reserve Component: POC for ALL USAR Soldiers (TPU, IRR, and IMA) is Human Resources Command, Health Services Directorate, 1-800-325-4729, option 2.

Civilians: Contact your local Training and Educations Office to complete a DA 3838 and fax it to (210) 221-8711 or call (210)-221-7349.

Additional Information: Phase 2 Checklist

Once enrolled in Phase 2 contact the nearest Digital Training Facility (DTF) to reserve a Video teletraining (VTT) studio and arrange for computer access.

6F-F3
AMEDD HEAD NURSE LEADER DEVELOPMENT

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: Course instruction is presented through guest speakers, lectures, conference, discussion, and practical exercises. Major areas of instruction include management of personnel, training, logistics, and financial resources.

Special Information: This is a boarded course for Reserve Component (RC) ANs. RC Soldiers (TPU, DIMA, IRR and Mobilized) must access https://www.hrc.army.mil to obtain boarded application process. RC Soldiers not submitting a packet to the board will NOT be considered to attend.

All TDY orders must read San Antonio, Texas. Training and Billeting is given off post.

6F-F5
CRITICAL CARE NURSING (DL) Phase: 1

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: Major areas of instruction include Fundamentals of Critical Care to include the aspects of nursing in the following areas: respiratory, basic cardiovascular, advanced cardiovascular, acute renal failure, hepatic disorders, hematology/oncology, neurological and endocrine, trauma management, pediatrics, infectious disease, OB/GYN and genitourinary, eye, ear, nose and throat, musculoskeletal, environmental, integumentary, psychological/psychiatric, and core emergency care across the life span in any critical care setting. Portions of this course are jointly instructed with the 6F-F6 Emergency Nursing Course. The courses run concurrently and are jointly resourced

Special Information: To generate your orders for Phase 2, PERSCOM must receive your certificate of completion for Phase 1 no later than 30 days prior to the start date of the Phase 2 in-residence course. Phase 2 is taught at school codes 830, 834, and 836.

6F-F5
CRITICAL CARE NURSING Phase: 2

Location School Code: 830, 834, 836 **Length: 14 weeks**

Description: Major areas of instruction include Fundamentals of Critical Care to include the aspects of nursing in the following areas: respiratory, basic cardiovascular, advanced cardiovascular, acute renal failure, hepatic disorders, hematology/oncology, neurological and endocrine, trauma management, pediatrics, infectious disease, OB/GYN and genitourinary, eye, ear, nose and throat, musculoskeletal, environmental, integumentary, psychological/psychiatric, and core emergency care across the life span in any critical care setting. Portions of this course are jointly instructed with the 6F-F6 Emergency Nursing Course. The courses run concurrently and are jointly resourced.

Special Information: To generate your orders for Phase 2, PERSCOM must receive your certificate of completion for Phase 1 no later than 30 days prior to the start date of the Phase 2 in-residence course.

6F-F6
EMERGENCY NURSING (DL) Phase: 1

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: This DL course consists of the web course, Essentials of Critical Care Orientation (ECCO), offered by the American Association for Critical Care Nurses (AACN). The nine sub-courses consist of an Introduction to Critical Care Nursing; Cardiovascular Disorders; Pulmonary Disorders; Neurologic Disorders; Renal Disorders; Gastrointestinal Disorders; Endocrine Disorders; Hematologic Disorders; and Multisystem Disorders.

Two examinations are required for each sub-course; the first to show successful completion of the module and the second for continuing education (CE) credit. Students must pass each exam with a score of 80% or better. Upon successful completion of all modules and exams, including the CE exam, the student will receive 64 CEs as well as credit in ATRRS for course completion.

Special Information: Prospective applicants (Army Active and Department of the Army Civilians) should contact their local Nursing/Hospital Education and Staff Development Service for application and approval procedures. Reserve Component Officers should contact their local reserve unit for guidance and procedures. There is no service obligation for ANs selected by their Chief Nurse to complete the stand-alone Phase 1 for

clinical or readiness training. Active duty ANs selected by HRC to attend the 2 phased Critical Care Nursing Course incur a one-year service obligation upon enrollment in Phase 1 even if they withdrawal from the course prior to attending Phase 2. Obligated service for Reserve Components, IAW NGR 350-1, AR 135-200, AR 600-9 and AR 350-1 selected by Reserve Component to attend Phase 2 of the Critical Care Nursing Course. For ANs and DACs scheduled for Phase 2 of the Critical Care Course, passwords to access the ECCO program are issued within six months of the Phase 2 start date. To be enrolled for Phase 2, you complete Phase 1 no later than 30 days prior to the start date of the Phase 2 in residence course.

6F-F6
EMERGENCY NURSING Phase: 2

ATRRS Information

Location School Code: 830 **Length: 14 weeks**

Description: Major areas of instruction include Fundamentals of Emergency Nursing, to include the aspects of nursing in the following areas: respiratory, basic cardiovascular, advanced cardiovascular, acute renal failure, hepatic disorders, hematology/oncology, neurological and endocrine, trauma management, pediatrics, infectious disease, OB/GYN and genitourinary, eye, ear, nose and throat, musculoskeletal, environmental, integumentary, psychological/psychiatric, and core emergency care across the life span in any critical care setting. Portions of the course are jointly instructed with the 6F-F5 Critical Care Nursing Course. The courses run concurrently and are jointly resourced.

Special Information: To generate your orders for Phase 2, PERSCOM must receive your certificate of completion for Phase 1 no later than 30 days prior to the start date of the Phase 2 in-residence course.

DEPARTMENT OF PREVENTIVE HEALTH SERVICES (DPHS)

https://www.cs.amedd.army.mil/details.aspx?dt=169

081-CBRNE BWP
BIOLOGICAL WARFARE PREPAREDNESS FOR HLTHCARE

ATRRS Information

Location School Code: 555 **Length: 1 week**

Description: This course is designed to enhance a healthcare provider's frame of reference and provide biological warfare preparedness for healthcare providers in a Chemical, Biological, Radiological, Nuclear, and Explosives (CBRNE) environment during peace and hostilities. The program provides healthcare providers an overall working knowledge of biological warfare preparedness in a CBRNE environment.

Special Information: The Biological Warfare Preparedness for Healthcare Providers Course consists of 33 modules presented in a web-based environment through the Army Learning Management System. Application is made electronically at Internet site: www.atrrs.army.mil. Open the SELF-DEVELOPMENT training application and follow the on-line instructions to enroll in course number 081-CBRNE-BWP (DL). Upon successful completion of all required modules, a Certificate of Completion will be awarded.

081-CBRNE CONWP
CONV WARFARE PREPAREDNESS FOR HLTHCARE

ATRRS Information

Location School Code: 555 **Length: 1 week**

Description: This course is designed to enhance a healthcare provider's frame of reference and to provide training in conventional warfare preparedness for healthcare providers in a CBRNE environment during periods of peace and hostilities. This phase provides healthcare providers with an overall working knowledge of conventional warfare preparedness for healthcare providers in a CBRNE environment.

Special Information: The Conventional Warfare Preparedness for Healthcare Providers Course consists of 20 modules presented in a web-based environment through the Army Learning Management System. Application is made electronically at Internet site: www.atrrs.army.mil. Open the SELF-DEVELOPMENT training application and follow on-line instructions to enroll in course number 081-CBRNE-CONWP (DL). Upon successful completion of all required modules, a Certificate of Completion will be awarded.

081-CBRNE CWP
CHEM WARFARE PREPAREDNESS FOR HLTHCARE PROVID

ATRRS Information

Location School Code: 555 **Length: 1 week**

Description: This course is designed to enhance a healthcare provider's frame of reference and provide chemical warfare preparedness for healthcare providers in a CBRNE environment during peace and hostilities. The program provides healthcare providers an overall working knowledge of chemical warfare preparedness in a CBRNE environment.

Special Information: The Chemical Warfare Preparedness for Healthcare Providers Course consists of 26 modules presented in a web-based environment through the Army Learning Management System. Application is made electronically at Internet site: www.atrrs.army.mil Open the SELF-DEVELOPMENT training application and follow on-line instructions to enroll in course number 081-CBRNE-CWP (DL). Upon successful completion of all required modules, a Certificate of Completion will be awarded.

081-CBRNE HOSP ADM
HOSP ADMINISTRATORS HOMELAND SECURITY COURSE

ATRRS Information

Location School Code: 555 **Length: 1 week**

Description: This course is designed to enhance a hospital administrator's frame of reference and to provide training in Homeland Security and Hospital Administration in a CBRNE environment during periods of peace and hostilities. This phase provides hospital administrators with a common knowledge base in preparation for subsequent courses in CBRNE preparedness.

Special Information: The Hospital Administrators Homeland Security Course consists of 29 modules presented in a web-based environment through the Army Learning Management System. Application is made electronically at Internet site: www.atrrs.army.mil. Open the SELF-DEVELOPMENT training application and follow on-line instructions to enroll in course number 081-CBRNE-HOSP ADM (DL). Upon successful completion of all required modules, a Certificate of Completion will be awarded.

081-CBRNE HPC
HOSPITAL CBRNE PREPAREDNESS COURSE

ATRRS Information

Location School Code: 555 **Length: 1 week**

Description: This course is designed to enhance a hospital staff member's frame of reference and to provide training in hospital CBRNE preparedness in a CBRNE environment during periods of peace and hostilities. This phase provides hospital staff members with common knowledge base in preparation for subsequent courses in CBRNE preparedness.

Special Information: The Hospital CBRNE Preparedness Course consists of 29 modules presented in a web-based environment through the Army Learning Management System. Application is made electronically at Internet site: www.atrrs.army.mil. Open the SELF-DEVELOPMENT training application and follow on-line instructions to enroll in course number 081-CBRNE-HPC (DL). Upon successful completion of all required modules, a Certificate of Completion will be awarded.

081-CBRNE NWP
NUCLEAR WARFARE PREPARD FOR HLTHCARE PROVIDER

ATRRS Information

Location School Code: 555 **Length: 1 week**

Description: This course is designed to enhance a healthcare provider's frame of reference and to provide training in nuclear warfare preparedness in a CBRNE environment during periods of peace and hostilities. This course provides healthcare providers with a common knowledge base in preparation for subsequent courses in CBRNE preparedness.

Special Information: The Nuclear Warfare Preparedness for Healthcare Providers Course consists of 22 modules presented in a web-based environment through the Army Learning Management System. Application is made electronically at Internet site: www.atrrs.army.mil. Open the SELF-DEVELOPMENT training application and follow on-line instructions to enroll in course number 081-CBRNE-NWP (DL). Upon successful completion of all required modules, a Certificate of Completion will be awarded.

302-68X10
MENTAL HEALTH SPECIALIST

ATRRS Information

Location School Code: 081 **Length: 19 weeks 4 days**

Description: The 68X10, Mental Health Specialist course is designed to provide the student with entry level knowledge, skills, and communication techniques required to assess/evaluate military personnel and their family members in need of mental Healthcare; and provide communication techniques in the areas of human development, psychopathological disorders, psychological testing, consultation, interviewing, and counseling. The course combines didactic classroom instruction, closely supervised practical exercises, and an intensive closely supervised clinical practicum. Emphasis is on communication skills, psychological testing, assessment procedures, interviewing and counseling approaches. Upon successful completion of the course, graduates are awarded the 68X MOS.

Special Information:

All requests for waivers must be submitted to: CDR, AMEDD Center & School, AMEDD Personnel Proponent Directorate, ATTN: MCCS-DE, 2427 Hood Street, Ft Sam Houston, TX 78234-7584.

322-68S10
PREVENTIVE MEDICINE SPECIALIST

ATRRS Information

Location School Code: 081 **Length: 15 weeks**

Description: Inspect and evaluate sanitation and safety of living quarters, food service facilities, water supplies, industrial operations, and other facilities and operations as required. Evaluate adequacy of wastewater and solid waste disposal operations. Perform various entomological functions in support of insect and rodent control programs. Help collect data for communicable and occupational disease investigations. Upon successful completion of the course, graduates are awarded the 68S MOS.

Special Information: Reserve Component Soldiers will arrive at Ft Sam Houston with the following items MPRJ 201 file, Medical Records, Dental Record with the following items MPRJ 201 file, Medical Record, Dental Record and complete basic clothing issue, to include running shoes.

Waiver request must be submitted utilizing DA Form 4187; and include copies of their DA Form 2A (or ERB), DA Form 2-1, and any letters of recommendation from the chain of command.

National Guard and Army Reserve SSGs' will receive a certificate of completion for attending this course, additional skill level 30 training is required to be awarded the MOS.

All requests for waivers must be submitted to: CDR, AMEDD Center & School, AMEDD Personnel Proponent Directorate ATTN: MCCS-DE, 2427 Hood Street, Fort Sam Houston, TX 78234-7584.

NOTE: It is recommended that the applicants complete a refresher course in biology or equivalent at any Army Education Center prior to attendance. It is also recommended that you have your official transcripts in hand upon reporting for training.

322-N4
HEALTH PHYSICS SPECIALTY

ATRRS Information

Location School Code: 081 **Length: 12 weeks 3 days**

Description: conduction of radiation surveys of AMEDD facilities, ensuring that the workers' exposure is maintained in accordance with the principal of ALARA (As Low As Reasonably Achievable), the maintenance

of records of worker radiation exposure history, the inspection of incoming shipments of radiosotopes to ensure safety, and the ensuring compliance with Nuclear Regulatory Commission (NRC) license and DA radioisotope authorizations. Completion of this training results in the 68S additional identifier (ASI) N4.

Special Information: Active Army utilize DA Form 4187 and include DA Form 2A, DA Form 2-1, high school or college transcripts, and letters of recommendation evaluating the Soldiers potential and ability to complete this course. (Successful completion of the Basic Math and Science Test (BMST) administered by Fort Belvoir, VA, is highly recommended prior to attendance).

All requests for waivers must be submitted to: CDR, AMEDD Center and School, AMEDD Personnel Proponent Directorate, Attn: MCCS-DE, 1400 E. Grayson Street, Fort Sam Houston, TX 78234-5052.

5H-F4/302-F4
USA DRUG & ALCOHOL REHAB TNG - INDIVIDUAL

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: To provide selected military personnel and Department of the Army Civilians (DACs) with a working knowledge of a specific individual counseling model and techniques necessary to effectively counsel individual patients in the Army Substance Abuse Program (ASAP).

Special Information:

NOMINATION PROCEDURES: All interested personnel must meet the specific selection criteria listed above and be officially nominated by the Clinical Director or supervisor. All Army Reserve and National Guard nominations will be routed to the Academy of Health Sciences, U.S. Army (AHS), Soldier and Family Support Branch (S&FSB), Alcohol and Drug Training Section (ADTS) after the approval for attendance and local funding. Reserve and Guard personnel who arrive without prior coordination may be denied entry if the course is full.

FUNDING PROCEDURES: Active component nominees will be funded by AHS; Army Reserve nominees will be funded through normal Reserve channels (i.e., Reserve Pay Allowances/Schools, Special Training Branch, FORSCOM Comptroller); National Guard nominees will be funded by the ARNG Operating Activity Center, (NGB-ARO-ME), Bldg 688, Aberdeen Proving Grounds, Maryland 21010-5420.

ORDERS/DOCUMENTATION: All nominees should have sufficient copies of orders and other documents during course registration.

ATTENDANCE: This course can only be attended once every three years.

ADDITIONAL INFORMATION: Additional detailed information will be provided by the ADTS upon official nomination and selection for course attendance.

WAIVERS: Waivers for the course prerequisites will be considered on a case-by-case basis through the following procedures:

1. Requests for waivers will be generated by the installation Clinical Director (CD) or direct supervisor, and will include complete nomination data and waiver justification. This information will be sent to the Chief, Alcohol and Drug Training Section (ADTS), AHS.

2. In all cases, waiver applications must be received by ADTS, AHS no later than twelve weeks prior to class report date.

Enlisted MOS 68X students must complete 5H-F4/302-F4 prior to completing the 5H-F5/302-F5, USA Drug and Alcohol Rehabilitation Training (USADART) (Group) course to be awarded the ASI M8 Drug and Alcohol Counselor.

5H-F5/302-F5
USA DRUG & ALCOHOL REHAB TNG - GROUP

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: The 68X M8, 5H-F5/302-F5 USADART (GROUP), Course is a two-week course offered three times annually. It is taught under the auspices of the U.S. Army Medical Department Center and School by personnel from the Department of Preventive Health Services, Soldier and Family Support Branch, Alcohol and Drug Training Section. The course provides military and DAC personnel a working knowledge of group counseling skills. The M8 (Drug and Alcohol Counselor) ASI will be awarded to enlisted personnel after successful completion of the course.

Special Information: All applicants must be officially nominated by the Clinical Director or supervisor. RC nominations will be routed to the Academy of Health Sciences, U.S. Army (AHS), Soldier and Family Support Branch (S&FSB), Alcohol and Drug Training Section (ADTS) following approval and local funding.

1. AA nominees will be funded by AHS

2. RC nominees will be funded through normal Reserve channels (i.e., Reserve Pay allowances/Schools, Special Training Branch FORSCOM Comptroller)

3. National Guard nominees will be funded by the ARNG Operating Activity Center, (NGB-ARO-ME), Bldg 688, Aberdeen Proving Grounds, Maryland 21010-5420

ORDERS/DOCUMENTATION: All nominees should have sufficient copies of orders and other required documents at registration. This course may be attended every five years. Additional detailed information will be provided by the ADTS upon official nomination and selection for course attendance.

WAIVERS: Waivers for the course prerequisites will be considered on a case-by case basis through the following procedures:

1. Waiver request will be generated by the installation Clinical Director (CD) or direct supervisor, and will include complete nomination data and waiver justification. This information will be sent to the Chief, ADTS, AHS.

2. Waivers must be received at ADTS, AHS no later than twelve weeks prior to class report date.

Enlisted MOS 68X must complete 5HF4/302-F4 prior to completing the 5H-F5/302-F5, USA Drug and Alcohol Rehabilitation Training (USADART) (Group) Course to be awarded the ASI M8 Drug and Alcohol Counselor.

5H-F6
ARMY SUBSTANCE ABUSE PGM MANAGEMENT

ATRRS Information

Location School Code: 081 **Length: 1 week**

Description: The 5H-F6/302-F6 USAADAPCP Management Course is a one-week functional course offered once annually. It is taught under the auspice of the U.S. Army Medical Department Center and School (AMEDDC&S), Academy of Health Sciences (AHS), by contracted guest speakers and personnel from the Alcohol and Drug Training Section (ADTS), Soldier and Family Support Branch (S&FSB), Department of

Preventive Health Services (DPHS). The course provides installation Clinical Directors and Clinical Supervisors with USAADAPCP management responsibilities with a working knowledge in the management and administration of the installation USAADAPCP.

Special Information:

NOMINATION PROCEDURES: All interested personnel must be officially nominated by the installation Commander or equivalent Headquarters. All Army Reserve and National Guard nominations will be routed to the U.S. Army Medical Department Center and School (AMEDDC&S), Academy of Health Sciences (AHS), Soldier and Family Support Branch (S&FSB), Alcohol and Drug Training Section (ADTS) after the approval for attendance and local funding. Reserve and Guard personnel who arrive without prior coordination may be denied entry if the course is full.

FUNDING PROCEDURES:

1. Active component nominees will be funded by AHS

2. Army Reserve nominees will be funded through normal Reserve channels (i.e., Reserve Pay Allowances/Schools, Special Training Branch, FORSCOM Comptroller

3. National Guard nominees will be funded by the ARNG Operating Activity Center, (NGB-ARO-ME), Bldg 688, Aberdeen Proving Grounds, MD 21010-5420

ORDERS/DOCUMENTATION: All nominees should have sufficient copies of orders and other documents during course registration.

WAIVERS: Waivers for the course prerequisites will be considered on a case-by-case basis through the following procedures:

1. Requests for waivers will be generated by the installation Commander and will include complete nomination data and waiver justification. This information will be sent to the Chief, ADTS, S&FSB, Department of Preventive Health Services (DPHS), AHS, AMEDDC&S.

2. In all cases, waiver applications must be received by ADTS, AHS no later than twelve weeks prior to class report date.

5H-F7/302-F7
ARMY SBSTNC ABUSE PGM FAMILY COUNSELING

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: The 5H-F7/302-F7 ASAP Family Counseling Course is a two-week course offered every other year. It is taught under the auspices of the U.S. Army Medical Department Center and School (AMEDDC&S), Academy of Health Sciences (AHS), by contracted guest speakers and personnel from the Alcohol and Drug Training Section (ADTS), Soldier and Family Support Branch (S&FSB), Department of Preventive Health Services (DPHS). The course provides selected military and DAC personnel with a working knowledge of a specific family counseling model and techniques necessary to effectively counsel families in the ASAP. Course instruction is presented through conferences and practical exercises.

Special Information:

NOMINATION PROCEDURES: All personnel officially nominated by the Clinical Director or supervisor. All Army Reserve and National Guard nominations will be routed to the Academy of Health Sciences, U.S. Army (AHS), Soldier and Family Support Branch (S&FSB), Alcohol and Drug Training Section (ADTS) after the approval for attendance and local funding. Reserve and Guard personnel who arrive without prior coordination may be denied entry if the course is full.

FUNDING PROCEDURES:

1. Active Component nominees will be funded by AHS

2. Army Reserve nominees will be funded through normal Reserve channels (i.e., Reserve Pay Allowances and Schools, Special Training Branch, FORSCOM Comptroller)

3. National Guard nominees will be funded by the ARNG Operating Activity Center, (NGB-ARO-ME), Bldg 688, Aberdeen Proving Grounds, MD 21010-5420

ORDERS/DOCUMENTATION: All nominees should have sufficient copies of orders and other documents during course registration.

ATTENDANCE: This course may be attended every five years.

WAIVERS: Waivers for the course prerequisites will be considered on a case- by case basis through the following procedures:

1. Requests for waivers will be generated by the installation Clinical Director (CD) or direct supervisor, and will include complete nomination date and waiver justification. This information will be sent to the Chief, Alcohol and Drug Training Sec (ADTS), AHS.

2. In all cases, waiver applications must be received by ADTS, AHS no later than twelve weeks prior to class report date.

5H-F9
ASAP CLINICAL CONSULTANT/MED REVIEW OFCR

ATRRS Information

Location School Code: 081 **Length: 1 week**

Description: The 5H-F9/302-F9 CC/MRO Course is one week and is offered once annually. It is taught under the auspices of the U.S. Army Medical Department Center and School (AMEDDC&S), Academy of Health Sciences (AHS) by contracted guest speakers and personnel from the Alcohol and Drug Training Section (ADTS), Soldier and Family Support Branch (S&FSB), Department of Preventive Health Services (DPHS). The course provides installation CC/MRO with a working knowledge in the management and administration of installation USAADAPCP

Special Information:

NOMINATION PROCEDURES: All interested personnel must meet the specific selection criteria listed above and be officially nominated by the installation Commander or equivalent Headquarters.

FUNDING PROCEDURES: Active component nominees will be funded by AHS, AMEDDC&S

ORDERS/DOCUMENTATION: All nominees should have sufficient copies of orders and other documents during course registration.

ATTENDANCE: This course may be attended annually.

WAIVERS: Waivers for the course prerequisites will be considered on a case-by-case basis through the following procedures:

1. Request for Waivers will be generated by the installation Commander and will include complete nomination data and waiver justification. This information will be sent to the Chief, ADTS.

2. In all cases, waiver applications must be received by ADTS no later than twelve weeks prior to class report date.

5H-F10/302-F10
ARMY SUBSTANCE ABUSE PGM ADVANCED COUNSELING

ATRRS Information

Location School Code: 081 **Length: 1 week**

Description: The 5H-F10/302-F10 ASAP (Advanced Counseling) Course is a one-week and is offered three times annually. It is taught under the auspices of the U.S. Army Medical Department Center and School (AMEDDC&S), Academy of Health Sciences (AHS), by contracted guest speakers and personnel from the Alcohol and Drug Training Section (ADTS), Soldier and Family Support Branch (S&FSB), Department of Preventive Health Services (DPHS). The course provides ASAP counselors with a foundation of current information and skills that help them develop a treatment program/plan within the ASAP for substance abusers.

Special Information:

NOMINATION PROCEDURES: All interested personnel must meet the specific selection criteria listed above and be officially nominated by the Clinical Director or supervisor. All Army Reserve and National Guard nominations will be routed to the U.S. Army Medical Department Center and School (AMEDDC&S), Academy of Health Sciences (AHS), Soldier and Family Support Branch (S&FSB), Alcohol and Drug Training Section (ADTS) after the approval for attendance and local funding. Reserve and Guard personnel who arrive without prior coordination may be denied entry if the course is full.

FUNDING PROCEDURES:

1. Active Component nominees will be funded by AHS

2. Army Reserve nominees will be funded through normal Reserve channels (i.e., Reserve Pay Allowances/Schools, Special Training Branch, FORSCOM Comptroller)

3. National Guard nominees will be funded by the ARNG Operating Activity Center, (NGB-ARO-ME), Bldg 688, Aberdeen Proving Grounds, Maryland 21010-5420

ORDERS/DOCUMENTATION: All nominees should have sufficient copies of orders and other documents during course registration.

ATTENDANCE: This course may be attended every three years.

WAIVERS: Waivers for the course prerequisites will be considered on a case-by-case basis through the following procedures:

1. Request for Waivers will be generated by the installation Commander and will include complete nomination data and waiver justification. This information will be sent to the Chief, ADTS.

2. In all cases, waiver applications must be received by ADTS no later than twelve weeks prior to class report date.

5H-F20/302-F20
FAMILY ADVOCACY STAFF TNG (FAST)

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: This course provides a basic orientation for newly assigned personnel working directly and indirectly in the area of Family Advocacy in order to develop the installation FAP, including the management and efficient use of all available resources in preventing, identifying, investigating, and treating the victims and offenders of child maltreatment and spouse abuse.

Special Information: Applications will be forwarded IAW messages announcing class schedules through the installation Family Advocacy Program Managers (FAPM) and the appropriate MACOM to the Dean, AHS, ATTN: MCCS-HPS, Ft Sam Houston, TX 78234-6185, at least 60 days prior to report date. Attendance and other evaluation procedures are addressed in detail in the Student Evaluation Plan. There are no written examinations. Each student will have a performance evaluation.

5H-F22/302-F22
FAMILY ADVOCACY PROGRAM (FAP) TEAM BUILDING

ATRRS Information

Location School Code: 081 **Length: 2 days**

Description: This specialized intensive training provides classes that offer the student the experience of learning the correct protocol for managing Family Advocacy cases using the mandatory spouse and child abuse assessment methodology from MEDCOM. The students will also receive intensive training in problem solving and small group dynamics. The primary thrust of training will be devoted to updating the student on recent developments in theory in research in child and spouse abuse assessment and case management.

Special Information: This course has been initiated under the direction of the Social Work Consultants to The Surgeon General of the Army and the Family Advocacy Program Manager, Community and Family Support Center, DA. The FAP Manager, DA, has approved and funded this multidisciplinary team training.

The FAP team members will be provided with comprehensive training in their working environment, with the team members they work with on a daily basis. We are able to train entire Case Review Committees (teams) at the Base Support Battalion and Area Support Group levels overseas (installation level in CONUS) rather than one or two members. This will greatly enhance communication and problem solving between the FAP team members and contribute to a uniform standard of practice across the Army.

5H-F23
FAMILY ADVOCACY PROGRAM CLINICAL SUPERVISOR

ATRRS Information

Location School Code: 081 **Length: 3 days**

Description: This 5H-F23 Family Advocacy Program (FAP) Clinical Supervisor Course is a 3-day functional course offered annually. It is taught under the auspices of the U.S. Army Medical Department Center and School (AMEDDC&S), Academy of Health Sciences (AHS), by personnel from the Soldier and Family Support Branch (S&FSB), Department of Preventive Health Services (DPHS). The course provides FAP Clinical Supervisors with experiential learning by breaking into problem-solving small groups, as well as, interactive lectures to equip the Clinical Supervisors with a working knowledge in the management, supervision, and administration of FAP personnel. The course also provides opportunities for professional networking with both peers and experienced Social Work leaders.

Special Information:

NOMINATION PROCEDURES: All interested personnel must be officially nominated by the installation Commander or equivalent Headquarters. All Army Reserve and National Guard nominations will be routed to the U.S. Army Medical Department Center and School (AMEDDC&S), Academy of Health Sciences (AHS), Soldier and Family Support Branch (S&FSB), after the approval for attendance and local funding. Reserve and Guard personnel who arrive without prior coordination may be denied entry if the course is full.

FUNDING PROCEDURES:

1. Active component nominees will be funded by AHS

2. Army Reserve nominees will be funded through normal Reserve channels (i.e., Reserve Pay Allowances/Schools, Special Training Branch, FORSCOM Comptroller

3. National Guard nominees will be funded by the ARNG Operating Activity Center, (NGB-ARO-ME), Bldg 688, Aberdeen Proving Grounds, MD 21010-5420

ORDERS/DOCUMENTATION: All nominees should have sufficient copies of orders and other documents during course registration.

WAIVERS: Waivers for the course prerequisites will be considered on a case-by-case basis through the following procedures:

1. Requests for waivers will be generated by the MTF/Installation Commander and will include complete nomination data and waiver justification. This information will be sent to the Chief, S&FSB, Department of Preventive Health Services (DPHS), AHS, AMEDDC&S.

2. In all cases, waiver applications must be received by S&FSB, AHS no later than twelve weeks prior to class report date.

5H-F24/302-F23
FASTA MULTI-VICTIM CASES OF CHILD SEXUAL ABUSE

ATRRS Information

Location School Code: 081 **Length: 1 week**

Description: This course provides classes in multi-victim cases of child sexual abuse. The blocks of instruction within this area concentrate on the prevention and management of child sexual abuse.

Special Information: Applications will be forwarded through the installation Family Advocacy Program Manager (FAPM) and the appropriate MACOM to the Dean, AMEDD Center & School, U.S. Army, ATTN: HSHA-MB, Ft Sam Houston, TX 78234-6185, at least 60 days prior to report date of class.

5H-F25/302-F24
FASTA SPOUSE ABUSE TREATMENT

ATRRS Information

Location School Code: 081 **Length: 1 week**

Description: The 5H-F25/302-F24, FASTA Spouse Abuse Treatment training provides classes on spouse abuse intervention and treatment issues.

Special Information: There is no special information.

5H-F26/302-F25
FASTA CHILD ABUSE

ATRRS Information

Location School Code: 081 **Length: 1 week**

Description: This course provides classes on advanced clinical intervention strategies in cases of child abuse.

Special Information: There is no special information.

5H-F27/302-F26
FASTA FORENSIC CHILD SEXUAL ABUSE

ATRRS Information

Location School Code: 081 **Length: 1 week**

Description: The 5H-F27/302-F27, FASTA Forensic Child Sexual Abuse training provides advanced instruction on clinical treatment issues for children and families affected by intra-familial child sexual abuse.

Special Information: Applications will be forwarded through the installation Family Advocacy Program Manager (FAPM) and the appropriate MACOM to the Commandant, AMEDD Center & School, U.S. Army, ATTN: HSHA-MB, Fort Sam Houston, TX 78234-6185, at least 60 days prior to report date of class.

5H-F28/302-F27
FASTA PREVENTION

ATRRS Information

Location School Code: 081 **Length: 1 week**

Description: The 5H-F28/302-F27, FASTA Prevention training provides classes on child sexual abuse prevention. The instruction within this course concentrates on prevention by various programs for spouses, parents, and children to include law enforcement and crime prevention.

Special Information: Applications will be forwarded through the installation Family Advocacy Program Manager (FAPM) and the appropriate MACOM to Commandant, AMEDD Center & School, U.S. Army, ATTN: HSHA-MB, Fort Sam Houston, TX 78234-6185, at least 60 days prior to report date of class.

5K-F13/520-F10
CBRNE TRAINER/EVALUATOR

ATRRS Information

Location School Code: 081 **Length: 2.5 days**

Description: This 2.5-day course is taught at the Academy of Health Sciences, US Army Medical Department Center and School, Fort Sam Houston, Texas. The course consists of lectures and practical demonstrations relating to the medical management of CBRNE casualties, and prepares the student to conduct in-facility CBRNE training and response exercises at his/her home station.

Special Information: Special consideration will be given concerning enrollment of the noncommissioned officers who have received advanced training and who are categorized as "other first responders." These individuals are required to receive this training as a part of their homeland security mission.

6-250-C17/73A
ARMY MASTERS OF SOCIAL WORK PROGRAM - REG

ATRRS Information

Location School Code: 081 **Length: 58 weeks**

Description: Students must complete a foundation phase of training, which consists of 27 didactic and 8 field practicum course hours, for a total of 35 semester hours. Once these non-BSW degreed students have successfully completed the foundation phase, they must complete the concentration phase of the MSW Program. The concentration phase consists of 22 didactic and 8 field practicum course hours, for a total of 30 semester hours. Students must successfully complete the didactic requirements at the foundation phase before they will be allowed to proceed to the foundation field; Furthermore, they must also complete the didactic requirements in concentration phase before they can proceed to the concentration field practicum. Students must complete a minimum of 460 agency work hours during foundation field and 500 agency work hours during their concentration field practicum.

Special Information: There is no special information.

6-250-C17A/73A
ARMY MASTERS OF SOCIAL WORK PROGRAM - ADV

ATRRS Information

Location School Code: 081 **Length: 32 weeks**

Description: The training will involve a partnership between the AMEDDC&S and a Council on Social Work Education (CSWE) Accredited college or university Masters of Social Work Program. The CSWE has delineated programmatic and curricular guidelines for all MSW Programs and same guidelines will apply to the AMEDDC&S MSW program. The training will require all AMEDDC&S MSW students to successfully complete a concentration didactic and field practicum phase that has been approved by the CSWE and the partnering University. The training will require BSW degreed students to complete 36 credit hours to complete the requirements for the MSW. Bachelor of Social Work (BSW) students must complete 28 didactic credit hours and 8 field practicum course hours, for a total of 35 semester hours. Students must successfully complete the didactic requirements before they can proceed to the concentration field practicum. Students must complete a minimum of 500 agency work hours during their concentration field practicum.

Special Information: There is no special information.

6A-F5
PRIN OF MILITARY PREV MEDICINE

ATRRS Information

Location School Code: 081 **Length: 9 weeks**

Description: Provide Army Medical Department (AMEDD) officers with the skills and knowledge to function in preventive medicine specialty areas at an entry level. Subjects common to all preventive medicine are presented in a common core for all students. In addition, each group receives instruction unique to their specialty.

Special Information: There is no special information.

6A-F5 (MC)
PREV MEDICINE PHYSICIAN FIELD TRAINING

ATRRS Information

Location School Code: 081 **Length: 1 week**

Description: To provide Army Medical Department (AMEDD) physician officers with the skills and knowledge to function in preventive medicine activities at an entry level. The physician program itself, coupled with the

distance learning Phase 1 in Principles of Military Preventive Medicine, provides these officers with the essential academic background. This POI outlines training for the practical Phase 2 portion of the training, which provides experience in the essential field preventive medicine skills.

Special Information: There is no special information.

6A-F5(RC)
PRIN OF MILITARY PREV MEDICINE(RC)(DL) Phase: 1

ATRRS Information

Location School Code: 081 **Length: 1 week 2.6 days**

Description: There is no description available at this time; please review https://www.atrrs.army.mil/ for updated information.

Special Information: There is no special information available at this time; please review https://www.atrrs.army.mil/ for updated information.

6A-F5(RC)
PRIN OF MILITARY PREV MEDICINE(P) Phase: 2

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: There is no description available at this time; please review https://www.atrrs.army.mil/ for updated information.

Special Information: There is no special information available at this time; please review https://www.atrrs.army.mil/ for updated information.

6A-F5 (RC)(P)
PRIN OF MILITARY PREV MEDICINE(RC)(DL) Phase 3

ATRRS Information

Location School Code: 555 **Length: 1 week 2.4 days**

Description: There is no description available at this time; please review https://www.atrrs.army.mil/ for updated information.

Special Information: There is no special information available at this time; please review https://www.atrrs.army.mil/ for updated information.

6A-F6/322-F32
PREVENTIVE MEDICINE SENIOR LEADERS

ATRRS Information

Location School Code: 081 **Length: 1 week 4 days**

Description: This course emphasizes management skills and problem solving in preventive medicine. General subjects include managing Preventive Medicine operations in TDA and TO&E organizations; knowledge of population health for force health protection; employment of Operational Risk Management techniques for Preventive Medicine and health surveillance; identification of current issues impacting Preventive Medicine; and managing Preventive Medicine support for homeland security operations. Technical competence in a specialty area is necessary for attendees, as this is not a refresher course. Personnel in both TDA and TO&E Preventive Medicine will benefit from this course.

Special Information: There is no special information.

6A-F16/302-F28
BEHAVIORAL SCI CONSULTATION TEAM TNG (DL)(P) Phase 1

ATRRS Information

Location School Code: 555 **Length: 1 week**

Description: There is no description available at this time; please review https://www.atrrs.army.mil/ for updated information.

Special Information: There is no special information available at this time; please review https://www.atrrs.army.mil/ for updated information.

6A-F16/302-F28
BEHAVIORAL SCIENCE CONSULTATION TEAM TRNG (P) Phase: 2

ATRRS Information

Location School Code: 081 **Length: 3 weeks 2 days**

Description: To provide relevant, doctrinally sound, standardized training that is flexible and responsive from a Center of Excellence model informed by behavioral science data, emerging theory and research in areas of educing information (i.e., drawing out information through interviewing, debriefing, interrogation, etc.), as well as lessons learned from detainee/interrogation operations. The course provides training in the knowledge, skills, and communication techniques during detainee/interrogation operations. The competencies emphasized in the course include support of safe, legal, ethical, and effective detainee operations.

Special Information: Students must self-enroll for phase 1 DL, and it must be completed prior to reporting to the resident phase of the course.

Distance Learning (DL) phase will be conducted at the Digital training Facility (DTF), Soldier's home, unit, or office. The DL phase will be completed prior to the in-residence phase.

The DL phase consists of 5 documents and 6 DVDs to be reviewed and responded too (response questions are sent with DL package). Video materials must be returned to us for use with future course.

6H-F9/322-F9
SEXUALLY TRANSMITTED DISEASE INTERVENTION (DL) Phase 1

ATRRS Information

Location School Code: 555 **Length: 1 week**

Description: This two-phased course provides the knowledge and skills essential to the prevention and control of STDs in the US military forces. Phase 1 distance learning. Phase 2 is the resident phase. Phase 1 will include information on specific diseases such as gonorrhea, Chlamydia, syphilis, genital herpes, HIV/AIDS, viral hepatitis, and other diseases that can be transmitted sexually, as well as the basic concepts of interviewing and reporting. Instructional content is in CD ROM format with registration and testing via the Virtual Schoolhouse. Glossaries and other material required for effective use of the IMI courseware are included as annexed to the 6H-F9/322-F9 interactive lessons.

Special Information: The instruction will be presented on web-ready interactive CD ROMs with end of course testing completed on the Internet Virtual Schoolhouse. Upon successful completion of the end-of-course exam, the individual may apply for Phase 2 if eligible.

Applicants for Phase 1 must apply at Internet Site: http://www.atrrs.army.mil. Slide down the right side under "Channels". Click on Self Development to open the application. Follow on-screen instructions. Applications for Phase 1 should be made 6 months prior to the start of Phase 2 to allow sufficient time to complete web-based

instruction. The course is sponsored by Community Health Practices Branch, Academy of Health Sciences, ATTN: MCCS-HPC, 3151 Scott Road, Ste 3506B.

6H-F9/322-F9
SEXUALLY TRANSMITTED DISEASE INTERVENTION Phase: 2

ATRRS Information

Location School Code: 081 **Length: 1 week**

Description: 6H-F9/322-F9 is a two-phased course that provides the knowledge and skills essential to the prevention and control of STDs in US military forces. Phase 1 is distance learning. Phase 2 is the resident phase. Phase 1 will include information on specific diseases such as gonorrhea, Chlamydia, syphilis, genital herpes, HIV/AIDS, viral hepatitis, and other diseases that can be transmitted sexually, as well as the basic concepts of interviewing and reporting. Instructional content is in CD ROM format with registration and testing via the Virtual Schoolhouse. Glossaries and other material required for effective use of the IMI courseware are included as annexed to the 6H-F9/322-F9 interactive lessons.

Special Information: Completion of Phase 1 and 2 awards 73 CEU's to nurses that attend.

6H-F10/322-F10
INTERMEDIATE INDUS HYGIENE TOPICS

ATRRS Information

Location School Code: 878 **Length: 2 weeks**

Description: Advanced and refresher training in industrial hygiene techniques for evaluation and control of occupational health hazards at U.S. Army installations. Emphasis is on determinants of air contaminant toxicity, occupational health standards, hazard recognition, survey/sampling strategy, exposure documentation, data collection and interpretation of exposure control alternatives, ventilation system measurement, design and balancing and medical surveillance with in-depth discussion of applying these principles to complex occupational operations, e.g., welding, spray finishing, abrasive blasting, and other military unique operations.

Special Information: Applications from Active Army enlisted personnel should be forwarded to the Commander, MC, ATTN: MCHO-CL-W, Ft Sam Houston, TX 78234-6000.

6H-F11 / 322-F11
BASIC INDUSTRIAL HYGIENE TECHNIQUES

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: This is a two-week course available for personnel performing primary duties in an industrial hygiene program or a supervisor of such personnel. This course trains the individual in basic techniques for ventilation, survey and sample collection, and use of basic industrial hygiene equipment. This course is conducted twice a year at the Academy of Health Sciences, Ft Sam Houston, Texas.

Special Information: There is no special information.

6H-F12 / 322-F12
DoD PEST MANAGEMENT CERTIFICATION Phase 1

ATRRS Information

Location School Code: 081 **Length: 3 weeks**

Description: This resident course stems from DoD4150.7-P guidelines and consists of three sequential parts.

The Core (Part I, 51 periods) provides training in areas common to all fields of pest management to include: labeling; pesticide toxicology, safety, storage, and calculations; environmental hazards of pesticides; dispersal equipment; equipment calibration; application techniques; and, laws and regulations in pest management.

Part II (34 periods) provides training in the broad areas of vegetation and turf management.

Part III (46 provides training in the areas of biology, identification, and control of arthropods and vertebrates as nuisance pests and vectors of disease. This course provides training in Integrated Pest Management.

Special Information: Having three parts to this course allows for all students to start on the same day, although each part may be taken separately. All parts are conducted in residence. There are 6 days of common core instruction (Part I) which must be completed by all students. In addition, students must complete Part II or Part III or both to be eligible for certification.

6H-F13 / 322-F13
DoD PEST MGT RECERTIFICATION

ATRRS Information

Location School Code: 081 **Length: 1 week**

Description: Instruction presented updates personnel regarding changes in technology; reviews category and general pest management information; discusses various problem areas; and evaluates competency through examination. Personnel certified in pest management operations and practices are required by the DoD and Department of the Army instructions to be recertified every three years.

Special Information: There is no special information.

6H-F17/322-F17
LASER/RADIOFREQ RADIATION HAZARDS

ATRRS Information

Location School Code: 878 **Length: 1 week**

Description: The Laser and Radio Frequency Radiation (RFR) Hazards Course is designed to provide a background for recognizing health hazards from nonionizing radiation sources and for establishing effective control measures for these hazards.

The subject matter presented includes: interaction of optical radiation with matte; sources and biological effects of optical radiation; optical radiation measurements and calculations; military applications of lasers; laser hazard classification; development of laser protection standards; eye protection filters; ultraviolet radiation hazards and permissible exposure levels; laser range controls; laser laboratory controls; radiofrequency radiation (RFR) (including microwave frequency bands) sources and systems (communication, navigation and radar); RFR generation and propagation along transmission lines and in free space; antennas and radiation patterns; RFR power density calculations; biological effects or RFR including standards, exposure limits, and control procedures for RFR sources; RFR hazard evaluation and site survey; Radiation Protection Officer responsibilities; RFR instrumentation; and RFR Workshop -- Developing the RFR Protection Program: Control Procedures and Authority/Responsibility for the RFR Program. Particular emphasis is placed on recognizing nonionizing radiation hazards that are mostly commonly encountered within the Department of the Army.

PURPOSE: The course provides officers, enlisted, and civilians with the skills and knowledge necessary to apply the accepted principles and practices of laser and radio frequency radiation hazards through instruction that uses conferences and practical exercises.

Special Information: There is no special information.

6H-F18 / 322-F18
MEDICAL X-RAY SURVEY TECHNIQUES

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: Emphasis is placed on the physical principles of x-ray production and imagery, JCAHO and quality assurance, biological effects of radiation, organ dose estimation, and federal x-ray system performance standards. Practical exercises on survey procedures are an integral part of the course.

Special Information: This is not a MOS or AOC producing course. This functional course teaches skills required to perform instrumented radiation protection surveys of diagnostic x-ray systems. Such skills are critical to ASI N4 and AOC 72A, without which individuals could not fully perform their respective job duties. IAW TB MED 521, DA policy directs that personnel conducting surveys of diagnostic medical x-ray equipment be adequately trained. Costs for non-DoD federal and other nonfederal personnel will be charged appropriate current rates maintained by the Directorate of Resource Management.

6H-F20
FUNDAMENTALS OF OCCUPATIONAL MEDICINE Phase: 2

ATRRS Information

Location School Code: 081 **Length: 1 week**

Description: 6H-F20 is a two phased course that provides the knowledge and skills essential for active and reserve Army Medical Department (AMEDD) officers and Department of the Army Civilians (DACs) with responsibilities in administering Occupational Health Programs.

Phase 2 content includes fundamental principles of Army; overview of the occupational health program; legal aspects of occupational medicine; program and budgeting; workplace surveys and analysis; industrial hygiene; air sampling; laboratory methods; hearing and vision conservation; respiratory, radiation, and bloodborne protection programs; ergonomics program; safety programs; installation lead and asbestos management programs; recording, reporting and recordkeeping; Department of Defense occupational medicine computerized programs and databases; bioterrorism; chemical, biological, and nuclear surety programs; risk communication; quality assurance; health promotion programs, immunization and chemoprophylaxis; clinical toxicology, medical surveillance, occupational diseases; occupational injuries; medical examinations; treatment of occupational injuries and illnesses; epidemiologic investigations; drug testing; employee assistance programs; workers compensation; Federal Employees' Compensation Act (FECA); the Americans with Disabilities Act (ADA); and sentinel events.

Special Information: Individuals not meeting the prerequisites as specified in ATRRS may request to attend the course provided they have primary or supervisory responsibilities in U.S. Army Occupational Health. The Course Director will consider such requests on an individual basis. Send written request with justification to CDR AMEDDC&S, ATTN: MCCS-HPC, 3151 Scott Road, Ste 3506B, Ft Sam Houston, TX 78234-6142.

6H-F26
MED MGT CHEM/BIOLOGICAL CASUALTIES Phase: 1

ATRRS Information

Location School Code: 877 **Length: 3 days**

Description: The biological portion (Phase 1) is taught at the United States Army Medical Research Institute of Infectious Diseases (USAMRIID) at Ft Detrick, Maryland.

The order in which students receive Phase 1 and Phase 2 instruction is unimportant, but each student must complete both phases.

Special Information: Individuals requiring glasses should bring their protective masks with inserts. Special consideration will be given for enrollment of the noncommissioned officers who have received advanced training and who are categorized as "other first responders." These individuals are required to receive this training as a part of their civil defense mission. All civilian attendees must complete the Protective Mask Respirator Medical Clearance form prior to attending the course.

6H-F26
MED MGT OF CHEM & BIOL CASUALTIES Phase: 2

ATRRS Information

Location School Code: 879 **Length: 3 days**

Description: The chemical portion (Phase 2), which includes a field exercise, is taught at the United States Army Medical Research Institute of Chemical Defense (USAMRICD) at the Edgewood area of Aberdeen Proving Ground (APG-EA), Maryland.

The order in which students receive Phase 1 and Phase 2 instruction is unimportant, but each student must be a registered for both phases and must complete both phases.

Special Information: Individuals requiring glasses should bring their protective masks with inserts. Special consideration will be given concerning enrollment of the noncommissioned officers who have received advanced training and who are categorized as "other first responders." These individuals are required to receive this training as a part of their civil defense mission. All civilian attendees must complete the Protective Mask/Respirator Medical Clearance form prior to attending the course.

6H-F29/311-F2
DEFENSE BLOOD STANDARD SYSTEM

ATRRS Information

Location School Code: 081 **Length: 4 days**

Description: The DBSS allows management of blood program operations such as collecting, manufacturing, testing, processing, freezing, storing, shipping, distributing, and issuing blood and blood products for infusion or destruction. The DBSS supports blood donor centers, transfusion services, and blood processing and shipment centers of all three services for peacetime, theater and homeland defense support.

Special Information: Student must complete their FDA required CBT User Training prior to arriving for this course.

6H-F33 / 322-F31
DoD PEST MGT QUALITY ASSURANCE EVALUATOR

ATRRS Information

Location School Code: 081 **Length: 4 days**

Description: This course provides training to officers, enlisted, and civilians in both contract administration and DoD Pest Management elements. Persons certified as Pest Management Quality Assurance Evaluators (PM QAEs) are required by DoD Instruction 4150.7, DoD Pest Management Program, to be recertified every three years. This resident course stems from DoD 4150.7-M guidelines and provides training to those individuals that have been designated as a Pest Management Quality Assurance Evaluator by their installation. Instruction presented includes laws and regulations in pest management, records and reporting requirements, integrated pest management, control of medically important and nuisance pests, pest control contract administration, surveillance, and documentation. Students successfully completing the course will be certified as DoD PM QAEs.

Special Information: Certification is valid for three years. Refresher/ recertification training may be completed by attending this course (DoD PM QAE) or the DoD pesticide applicator certification course, 6H-F12/322-F12.

6H-F37/300-F31
FIELD MGT OF CHEM & BIOLOGICAL CASUALTIES

ATRRS Information

Location School Code: 879 **Length: 1 week**

Description: This five-day course is taught at the Aberdeen Proving Ground, Edgewood (APG-EA), Maryland. The course includes didactic exercises, practical (small group) exercises, and field scenario exercises. The Field Management of Chemical and Biological Casualties course is designed for military Healthcare providers including medics/corpsmen, medical planners, and operations.

Special Information: Individuals requiring glasses should bring their protective mask inserts. Nongovernment registrants will be approved on a space-available basis. Only Active Army will be funded; all others (to include all armed service branches and Army Reservists) will have to be funded by their own organizations; non-DoD civilians will have to pay a tuition fee in addition to course costs that all other attendees pay, except Active Army attendees. All civilian attendees must complete the Protective Mask/Respirator Medical Clearance form prior to attending the course.

Academic hours include 47 after-duty hours (including in processing and out processing) for one week of training for all attending except the EMT; academic hours for paramedics attending are 40.8 plus in processing and out processing.

DEPARTMENT OF PASTORAL MINISTRY TRAINING (DPMT)

https://www.cs.amedd.army.mil/details.aspx?dt=168

5G-CMM-7S
COMBAT MEDICAL MINISTRY

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: This course provides AOC 56A personnel Combat Medical Ministry skills that will enable them to perform as a Combat Medical Pastoral Care Specialist (CMPCS), competent in working as part of a battlefield healthcare team. The Combat Medical Ministry Course focuses on short-term crisis intervention and emphasizes short-term interaction in a high-intensity, high-stress combat, emergent care environment. Additionally, it focuses on emotional responses related to traumatic battlefield casualty experiences.

The training will prepare the CMPCS to effectively minister to Soldiers, medical staff, chain of command, and units experiencing mass casualty and/or traumatic injury as a result of combat. The training also includes the development of expertise in special ministry to staff personnel who exhibit post-traumatic stress responses to single or multiple combat, mass casualty exposure. The six competencies are: trauma ministry; traumatic event ministry, crisis ministry; bio-medical/battlefield ethics ministry; grief, loss, and death ministry; and spiritual hope ministry. Graduates of the course will receive the 7S Skill Identifier (SI). Priority will be given to Chaplains assigned or selected for assignment to Table of Organization and Equipment (TOE) combat medical unit assignments.

Special Information: There is no special information.

5G-CPE/SIT-7R
CLINICAL PASTORAL EDUCATION

ATRRS Information

Location School Code: 830, 836 **Length: 169 weeks**

Description: This course is designed to qualify AOC 56A/7R personnel as AOC 56D, Clinical Pastoral Educators. It provides AOC 56A/7R chaplains the necessary, advanced, pastoral skills to serve successfully as training/supervisory personnel within accredited CPE training centers as well as medical centers, medical department activities, disciplinary barracks, medical brigades, and staff positions at the U.S. Army Medical Command (USAMEDCOM) level.

The 3-year, 3-month course provides instruction in facilitating group interpersonal interaction, supervising student pastoral work, evaluating student competency in identifying pastoral and personal resources, and supervisory strategies and interventions. Students are also taught to apply principles of program development and organization as they relate to the successful implementation of an effective CPE program. Army graduates will receive the 56D AOC; other graduates will receive designators IAW regulatory directives for their respective service.

Special Information: The first three months of the course are designed to orient the student to the course requirements and to determine the student's potential to successfully complete the course and serve effectively as an AOC 56D, Clinical Ministries Supervisors, specifically in the 5G-CPE-7R, Clinical Pastoral Education Course. The readiness of the student is determined through an appearance before a committee which grants or denies Candidacy Status. If Candidacy Status is denied, the student's potential as an AOC 56D, Clinical Pastoral Educator is re-evaluated according to the needs of the Army, USAMEDCOM, and Chief of Chaplains.

The 5G-CPE/SIT-7R, Clinical Pastoral Educator Course is taught exclusively at Brooke and Walter Reed Army Medical Centers.

5G-CPE-7R
CLINICAL PASTORAL EDUCATION

ATRRS Information

Location School Code: 830, 831, 834, 836 **Length: 49 weeks**

Description: This course provides AOC 56A personnel clinical pastoral skills which will enable them to function effectively in institutional ministries at Medical Centers, Medical Department Activities, Medical Brigades, and, as appropriate, in Disciplinary Barracks. The 49-week curriculum offers instruction in interdisciplinary relationships and team concepts, the capacity to evaluate one's ministry, pastoral tools for hospital ministry, and prophetic perspectives in functions such as: preaching, teaching, leadership, management, pastoral care, and pastoral counseling. Graduates of the course will receive the 7R Skill Identifier.

Special Information:

ELIGIBILITY: The top fifteen chaplains on the order of merit list (OML) based on the Spring Voluntary Indefinite (VI) Selection Board and the top fifteen from the previous Selection Boards will constitute the eligible population to be screened for the year's CPE Program.

APPLICATION AND SELECTION PROCESS: The selected chaplains from the VI Selection Boards will be notified by the Personnel Actions Officer, DACH-PER, and offered the opportunity to apply for the CPE Program. All applicants will complete the CPE Packet, including Form 1-1987, Application for Clinical Pastoral Education. Applications will be submitted through channels to: Chief of Chaplains, DACH-PER, 2700 Army Pentagon, Washington, DC 20330-2700; questions may be addressed by calling DSN: 225-1195. Applicants will be screened by the CPE Selection Committee. The best qualified applicants will be selected and assigned to CPE Centers.

SERVICE OBLIGATION: Following graduation, Army AC chaplains will incur a three-year active duty service obligation (ADSO) and serve a utilization tour as determined by the DA Chief of Chaplains and/or the MEDCOM Chaplaincy. The service obligation for other graduates will be determined by the RC and other service commands respectively.

The course is not open to Department of Defense Civilians.

5G-F8
CLINICAL PASTORAL EDUCATION INTERN

ATRRS Information

Location School Code: 081, 830, 831, 834, 836 **Length: 10 weeks**

Description: This course provides AOC 0056 Chaplain Interns and Reserve Component (RC) Chaplains introductory skills, which will enable them to integrate into institutional ministries in a variety of medical environments. The 10-week course offers curriculum instruction in interdisciplinary relationships and team concepts, the capacity to evaluate one's ministry, and pastoral tools for hospital ministry. The course provides 0056A Chaplain Candidates basic competency skills relating to pastoral reflection issues. Chaplain Candidates or Reserve Component (RC) Chaplains are trained specifically in areas of course methodology, personhood, academic goals/needs, pastoral skills, group theory/ process, pastor/patient feelings, theological constructs, pastoral authority, clinical environment worship, multi-disciplinary team participation, and multi-cultural/multi-faith ministry. This course is open to other service Chaplain Candidates on a space available basis.

Special Information: Chaplain Candidates may apply for enrollment who have completed CHOBC (phase 3). The course is open to other service personnel on a space available basis; however, a memorandum of understanding must be established between the receiving service and the Army Medical Center and School.

The course is not open to Department of Defense Civilians

5G-F9/561-F9
EMERGENCY MEDICAL MINISTRY

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: Supersedes 5G-EMM, POI dated 12 May 2000. The two-week 5G-EMM Course is designed to produce military chaplains and chaplain Assistants capable of providing comprehensive ministry experience in forward-deployed medical units or Special Medical Augmentation Response Teams - Pastoral Care (SMART-PC). Army Medical Department Center and School is the primary training site with practicum exercises at Brooke Army Medical Center for the EMM course. This course qualifies chaplains and chaplain Assistants, who have no previous ministry experience in a medical setting in the four competencies: Trauma Ministry; Traumatic Event Management; Medical Ethics; and Grief and Loss Ministry. In addition, chaplain assistants will be trained in Peer Care-Giving skills.

Special Information: International Military Students may attend IAW AR 12-15 and AMEDDC&S Pam 1-5.

5G-F10(MTT-G)
CLINICAL PASTORAL EDUCATION EXTENDED TRAINING

ATRRS Information

Location School Code: 081 **Length: 26 weeks**

Description: The overall course objective is to train Chaplains using an action-reflection model that significantly improves a Chaplain's ability to personally process traumatic and crisis events within his/her Chaplain's ability to personally process traumatic and crisis events within his/her theological/spiritual story. This ability to appropriately integrate suffering and pain into spiritual care provider's story empowers the provider to assist others with his/her personal trauma story. This training assists in mitigating the affects of exposure to traumatic events and helps in reducing the on-set of Post Traumatic Stress Disorder symptomology. The course covers methodology; personhood; pastoral skills; group theory; grief and loss; theological constructs; medical ethics; multi-culture/multi-faith ministry; crisis and trauma; and pastoral care skill sets.

Special Information: None

DEPARTMENT OF VETERINARY SCIENCE (DVS)

https://www.cs.amedd.army.mil/details.aspx?dt=186

6-8-C32 640A-670A
AMEDD WARRANT OFFICER ADVANCED COURSE

ATRRS Information

Location School Code: 081 **Length: 6 weeks**

Description: Training consists of 2 weeks of TRADOC common core tasks and 4 weeks of advanced technical and tactical skills to include chemical, biological, and radiological agents, nuclear and high yield explosive devices (CBRNE) required of senior AMEDD warrant officers.

Special Information: There is no special information.

321-68R10
VETERINARY FOOD INSP SP (BASIC)

ATRRS Information

Location School Code: 081 **Length: 8 weeks**

Description: Provides a working knowledge of techniques used to determine identity, condition, and quantity in the food groups: red meats (to include pork), waterfoods, poultry, eggs, dairy products, fresh fruits, and vegetables, and semi-perishables. Also includes sampling procedures, forms, contract administration, basic food inspection procedures (including sensory evaluation), basic food establishment sanitation, food safety and quality assurance, surveillance inspection and veterinary preventive medicine. Other subjects include animal medicine, and selected military subjects. The training will stress the competencies required to perform assigned food inspection responsibilities. Students participate in a minimum of 72-hour, scenario-driven, tactical Situational-Field Training Exercise to demonstrate MOS and common Task reinforcement and evaluation. Upon successful completion of the course, graduates are awarded the 68R MOS.

Special Information:

Reserve Component Soldiers will arrive at Ft Sam Houston with the following items MPRJ 201 file, Medical Record, Dental Record and complete basic clothing issue, to include running shoes.

Other services must meet equivalent course prerequisites unless waived by host service.

Active Army utilizes DA Form 4187 and includes DA Form 2A (or ERB), DA Form 2-1, and letters of recommendation evaluating the Soldier's potential and ability to complete this course.

National Guard and Army Reserve SSG's will receive a certificate of completion for attending this course, additional skill level 30 training is required to be awarded the MOS.

All requests for waivers must be submitted to: CDR, AMEDD Center & School, AMEDD Personnel Proponent Directorate, ATTN: MCCS-DE, 2427 Hood Street, Fort Sam Houston, TX 78234-7584.

321-68R10 (RC) (DL)
VETERINARY FOOD INSP SP (BASIC) (RC)(DL) Phase: 1

ATRRS Information

Location School Code: 081 **Length: 5 weeks 1 day**

Description:

1. ENROLLMENT INSTRUCTIONS: Students will have Unit Managers enroll them in 321-68R10(RC)(DL) 6 months to 1 year prior to attending Phase 2 to allow adequate time for registration and delivery of materials as well as completion of lessons and exams.

2. ACCESS INSTRUCTIONS: 24 hrs after receipt of a confirmed enrollment from ATRRS, the Learner may access the dL courseware on the ALMS. Go to http://www.us.army.mil , the Army Knowledge Online portal; log into AKO; located the "Self-Service" tab and from the drop-down menu, select "My Training"; click on the link to ALMS or the logo to open the ALMS. Your courseware should be visible under "Course Enrollments" in the ALMS.

3. Successful completion of Phase 1 is required prior to enrolling in Phase 2, the two week ADT resident course at Fort Sam Houston, Texas. Students accomplish lessons through "Independent Student Effort" (ISE). Six (6) examinations are administered during the dL course with one retest allowed for each initial exam. The student must pass each examination. When all examinations are passed satisfactorily, a computer generated certificate will be issued. The unit should then enter the student in ATRRS for the ADT Phase 2 321-68R10(RC) course. Upon satisfactory completion of Phase 2 the student is eligible for the award of MOS 68R10 by the unit. National Guard and Army Reserve SSGs will receive a certificate of completion after attending Phase 2, additional skill level 30 training is required to be awarded the MOS.

4. All students must have access to a computer with a CD ROM drive and/or the internet. There will be no paper-based copies available for this course.

5. Refer to the ALMS Learner Log-in Instructions at: http://www.dls.army.mil/lms_learner-login.html for instructions to configure your local machine to ensure proper playing of this dL product.

6. Recommend Soldier commit one (1) day per week for studies (8 curriculum hours per week).

Special Information:

1. Refer to the course catalog at https://www.atrrs.army.mil for instructions on enrolling in 321-68R10(RC)(DL) Phase 1 and for information regarding the ARMY LEARNING MANAGEMENT SYSTEM (ALMS) website for accessing the courseware for completion of the course.

2. All students must have access to a computer with a CD ROM drive and/or the internet. There will be no paper-based copies available for this course.

3. Recommend commanders/supervisors allow one (1) day per week for studies (8 curriculum hours per week).

321-68T10
ANIMAL CARE SPECIALIST

ATRRS Information

Location School Code: 081 **Length: 11 weeks**

Description: Provide training for enlisted veterinary personnel to assist in the care, management and treatment of animals in veterinary service teams, veterinary treatment facilities, and/or research facilities. Subjects include administration, basic sciences and diagnostic laboratory procedures, anatomy, physiology, radiology, pharmacology, veterinary pathology and disease, laboratory animals, anesthesiology, surgical procedures, and the handling, care and management of animals. Students participate in a minimum of 72-120 hour, scenario-driven, tactical Situational Training Exercise to demonstrate MOS and Common Task

reinforcement and evaluation. Upon successful completion of the course, graduates are awarded the 68T MOS.

Special Information:

1. Reserve Component Soldiers will arrive at Ft Sam Houston with the following items MPRJ 201 file, Medical Record, Dental Record and complete basic clothing issue, to include running shoes.

2. Active Army utilizes DA Form 4187 and includes DA Form 2A (or ERB), DA Form 2-1, and letters of recommendation from the chain of command evaluating applicant's potential and ability to complete this course.

3. National Guard and Army Reserve SSGs' will receive a certificate of completion for attending this course, additional skill level 30 is required to be awarded the MOS.

All requests for waivers must be submitted to: CDR, AMEDD Center & School, AMEDD Personnel Proponent Directorate, ATTN: MCCS-DE, 2427 Hood Street, Fort Sam Houston, TX 78234-7584.

NOTE: One year of high school/college level algebra is desirable to enhance the applicant's potential to successfully complete this course.

321-F14
ADVANCED FOOD TECHNOLOGY

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: Area of instruction includes food microbiology, chemistry, packaging technology, preservation, deterioration, and advanced sensory evaluation techniques. Upon completion of the course, graduates will be more proficient in protecting the force from food borne illnesses and able to contribute fully to the theater and command operations. Course instruction is presented through conferences, demonstrations, and hands-on practical exercises.

Special Information: There is no special information.

6-8-C9 (RC)
VETERINARY SERVICES OPERATIONS (RC)

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: The course includes presentations, demonstrations and practical exercises on foundational Veterinary Service missions with a heavy influence on food safety and inspection issues. Major areas of instruction include but are not limited to: food safety and defense; the military working dog program; organization and operations of veterinary field units; public health preparedness and response; and operational rations inspections.

Special Information: This course will be nonconducted if the minimum class size is not met 45 days prior to class start date.

6G-640A
VETERINARY SVCS TECH WO BASIC

ATRRS Information

Location School Code: 081 **Length: 5 weeks**

Description: Training emphasis is placed on technical expertise combined with hands-on practical experiences, small group interaction, scientific research and presentations. Sanitation auditing and laboratory techniques are taught in support of the Veterinary Services food safety mission throughout the Department of Defense and other agencies. Other subject areas include food processing and preservation technologies, food inspection applications, food risk assessment, and reinforcement of Training and Doctrine Command (TRADOC) WO common core mandatory training subjects.

Special Information: A record APFT will be administered during the last two weeks of the course. Soldiers who fail to meet the APFT standards will be considered an academic course graduate, but item 1 l.C of their Service School Academic Evaluation Report (AER), DA Form 1059, will be marked marginally achieved course standards and item 14 will be marked failed to meet APFT standards.

Training and testing provided to achieve national recognized Certified Quality Improvement Associate (CQIA) certification.

6G-F3 / 321-F3
INSTALLATION VETERINARY SERVICES

ATRRS Information

Location School Code: 081 **Length: 1 week**

Description: Areas of instruction include: Animal Medicine/Care; Veterinary Treatment Facility (VTF) Operations; Military Working Dogs (MWDs); Prime Vendor; Inspection Procedures of Perishables and Semi-Perishables; Reporting of Non- Conformance; Contact Quality Assurance and Veterinary Preventive Medicine. Course instruction is presented through conferences and hands-on practical exercises.

Special Information: There is no special information.

6G-F8 / 321-F8
MARINE MAMMAL VETERINARY MEDICINE TNG

ATRRS Information

Location School Code: 081 **Length: 5 weeks**

Description: Training provides a familiarization of marine mammal veterinary medicine and enhances the effectiveness of personnel in selected functional areas.

Special Information: This course consists of 80-hours of instruction for personnel assigned to the SPA WAR SYSTEM CENTER (SPAWARSYSCEN), San Diego, CA. Instruction is on-site at this facility and is fragmented over several months while providing health assurance for the dolphin, whales and sea lions. Documentation on ATRRS will provide a means of tracking individuals in this specialized area of veterinary marine mammal medicine.

6G-F9 / 321-F9
VET READINESS, MOBILIZATION AND DEPLOYMENT

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: Areas of instruction include: Veterinary food protection, inspection, sanitation, public health, and preventive medicine in a theater of operations and deployment; food procurement in OCONUS environment; readiness and veterinary TOE equipment issues, and nation assistance programs.

Special Information: Exceptions to prerequisites, other than compliance with AR 600-9, may be granted on a case-by-case basis by the Chief, Department of Veterinary Science, Academy of Health Sciences, ATTN: MCCS-HV, 2250 Stanley Road, Suite 270, Fort Sam Houston, Texas 78234-6145.

An attempt to train our students with active duty TOE Veterinary/medical units is desirable. Last years training was held in conjunction with the 248th Medical Detachment (VS), 44th Medical Brigade at Fort Bragg, North Carolina. The instruction received by the students was realistic and invaluable.

6G-F11 / 321-F11
OPERATIONAL RATIONS

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: Operational Rations is a two-week course conducted at the U.S. Army Medical Department Center and School (AMEDDC&S), Fort Sam Houston, Texas. The course provides instruction on CBRNE (chemical, biological, radiological, nuclear, high explosive), food hygiene, food quality assurance inspection procedures (procurement and surveillance), and reporting procedures and lessons learned from the current theater of operations.

Upon successful completion of the course, graduates are expected to continue their respective Operational Rations Programs. Successful graduates will ensure uniform interpretation and application of procedures as outlined in the Defense Supply Center Philadelphia (DSCP) Handbook 4155.2, and other pertinent documents.

Special Information: There is no special information.

6G-F12/321-F12
MEDICAL DETACHMENT (VS) PRE-DEPLOYMENT (RC)

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: Area of instruction includes Veterinary food inspection, deployment issues, food procurement, management and treatment of animals in veterinary service teams, basic sciences and diagnostic laboratory procedures, anesthesiology, surgical procedures, and the handling, care and management of animals in OCONUS environment and nation assistance programs. Upon completion of the course, graduates will be better prepared for the veterinary service mission in a contemporary operating environment.

Special Information: Course is conducted when requested by a Reserve Component Veterinary Detachment that has been alerted for deployment or may be conducted as the two-week annual training. TDY funds provided by the requesting RC unit

Exceptions to prerequisites, other than compliance with AR 600-9, may be granted on a case-by-case basis by the Chief, ATTN MCCS-HV, 2250 Stanley Road, Suite 270, Ft Sam Houston, Texas 78234-6145.

6G-F13/321-F13
VETERINARY SUPPORT TO A THEATER OF OPERATIONS

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: Areas of instruction include advanced training on sanitary audits of potentially hazardous foods, including meat and dairy inspection; OCONUS food procurement; food defense assessment and mitigation in an OCONUS environment; commercial food establishment laboratory audits; operational rations inspection and program management; medical and surgical care of animals in OCONUS environment; nation assistance programs; Food and Water Risk Assessment; and veterinary operations in an OCONUS environment.

Special Information: There is no special information

J3AZR4A271 08AA
MEDICAL FACILITIES MANAGEMENT

ATRRS Information

Location School Code: 883 **Length: 2 weeks**

Description: Trains selected personnel in the organization of facilities management and functions of related base support organizations, operations and maintenance, facility programming, financial management, safety management fire protection/prevention, hospital accreditation procedures, energy conservation, disaster planning, resource protection, contract administration and communications.

Special Information: There is no special information.

GRADUATE STUDIES

6-250-C17
MILITARY GRADUATE PROGRAM IN NUTRITION Phase 1

ATRRS Information

Location School Code: 081 **Length: 38 weeks**

Description: The Program is offered one time each year and begins on or about 1 Dec. This Program is a two-phased, degree-producing Program. Phase 1, the didactic portion, is 38 weeks long and is completed at AMEDDC&S, Fort Sam Houston, Texas. Phase 2, the internship and research portion, is 49 weeks long and, for Army Officers, will be completed at Brooke Army Medical Center (TX), Walter Reed Army Medical Center (D.C.), Womack Army Medical Center (NC), or Madigan Army Medical Center (WA). Air Force Officers will complete Phase 2 at Wilford Hall (TX). Students who successfully complete the program will be granted a Masters of Science in Nutrition and will be eligible to take the Registration Exam for Dietitians. Officers are awarded the AOC of 65C upon completion of the Program.

Phase 1, the didactic portion, is 38 weeks in length. The course curriculum includes a comprehensive study of physiology, biochemistry, applied human biology, clinical nutrition support, sports and community nutrition, nutrition in complex medical missions, as well as research, experimental design and ethics. The curriculum provides concepts, methods, and principles to stimulate personal growth and development, plus equips graduates with outcomes research skills.

Special Information: Students must apply to be considered for the program. Application materials may be obtained by contacting an Army Recruiter at http://www.goarmy.com/amedd/index.jsp. Applications are reviewed each Spring for the enrollment in the program beginning the following Fall. Applications must be submitted by the Feb deadline. Final selection is via the American Dietetic Association computer match completed in April.

6-250-C17
MILITARY GRADUATE PROGRAM IN NUTRITION (GPN) Phase 2

Location School Code: 830, 834, 836, 860, 869 **Length: 49 weeks**

Description: The Program is offered one time each year and begins on or about 1 Dec. This Program is a two-phased, degree-producing Program. Phase 1, the didactic portion, is 38 weeks long and is completed at AMEDDC&S, Fort Sam Houston, Texas. Phase 2, the internship and research portion, is 49 weeks long and, for Army Officers, will be completed at Brooke Army Medical Center (TX), Walter Reed Army Medical Center (D.C.), Womack Army Medical Center (NC), or Madigan Army Medical Center (WA). Air Force Officers will complete Phase 2 at Wilford Hall (TX). Students who successfully complete the program will be granted a Masters of Science in Nutrition and will be eligible to take the Registration Exam for Dietitians. Officers are awarded the AOC of 65C upon completion of the Program.

Phase Scope: Phase 2, (49 weeks) the supervised practice portion, consists of an accredited dietetic internship with a clinical nutrition focus, as well as research data collection, analysis, and thesis/report write-up. The internship will focus on the etiology, signs, symptoms, assessment, and treatment of physiological dysfunctions as well as administration theory as it relates to the practice of dietetics. During Phase 2, students will participate in supervised practice in all areas of nutrition care to ensure proficiency in inpatient, outpatient, and community nutrition care services as well as food service systems, personnel, and resource management in fixed and non-fixed facilities. Students will learn to be members of a multi-disciplinary Healthcare team and to apply knowledge of medical informatics and clinical epidemiology through evidenced-based medicine. The internship consists of approximately 1500 contact hours and the remainder of time will be used to complete, write up and defend the research project.

Special Information: There is no special information.

6-250-C17/73A
ARMY MASTERS OF SOCIAL WORK PROGRAM - REG

ATRRS Information

Location School Code: 081 **Length: 58 weeks**

Description: Students must complete a foundation phase of training, which consists of 27 didactic and 8 field practicum course hours, for a total of 35 semester hours. Once these non-BSW degreed students have successfully completed the foundation phase, they must complete the concentration phase of the MSW Program. The concentration phase consists of 22 didactic and 8 field practicum course hours, for a total of 30 semester hours. Students must successfully complete the didactic requirements at the foundation phase before they will be allowed to proceed to the foundation field; Furthermore, they must also complete the didactic requirements in concentration phase before they can proceed to the concentration field practicum. Students must complete a minimum of 460 agency work hours during foundation field and 500 agency work hours during their concentration field practicum.

Special Information: There is no special information.

6-250-C17A/73A
ARMY MASTERS OF SOCIAL WORK PROGRAM - ADV

ATRRS Information

Location School Code: 081 **Length: 32 weeks**

Description: The training will involve a partnership between the AMEDDC&S and a Council on Social Work Education (CSWE) Accredited college or university Masters of Social Work Program. The CSWE has delineated programmatic and curricular guidelines for all MSW Programs and same guidelines will apply to the AMEDDC&S MSW program. The training will require all AMEDDC&S MSW students to successfully complete a concentration didactic and field practicum phase that has been approved by the CSWE and the partnering University. The training will require BSW degreed students to complete 36 credit hours to complete the requirements for the MSW. Bachelor of Social Work (BSW) students must complete 28 didactic credit hours and 8 field practicum course hours, for a total of 35 semester hours. Students must successfully complete the didactic requirements before they can proceed to the concentration field practicum. Students must complete a minimum of 500 agency work hours during their concentration field practicum.

6-250-C18-65B
USA BAYLOR UNIV DOCTORAL PRGM IN PHYS THERAPY

ATRRS Information

Phase: 1

Location School Code: 081 **Length: 74 weeks 3 days**

Description: This course is a two-phased, degree producing program. Phase 1, which is 74 weeks and 3 days in length, consists of a comprehensive study of structure and function of the human body moving from the normal to the pathological. It includes study of the etiology, signs, symptoms, and treatment of physical dysfunction to include evaluation and interpretation of abnormal signs and symptoms, research methods, and administration theory as they pertain to the practice of physical therapy. It provides a working knowledge of the evaluation and treatment techniques of the physical therapist. It provides study of concepts, methods, and principles to stimulate personal growth and development. Phase 2, which is 39 weeks in length, consist of a clinical internship. Students who successfully complete the program will be granted a Doctor of Physical Therapy (DPT) degree.

Phase 1, which is 74 weeks and 3 days in length, consists of a comprehensive study of the structure and function of the human body moving from the normal to the pathological. It includes study of the etiology, signs, symptoms, and treatment of physical dysfunction to include evaluation and interpretation of abnormal signs

and symptoms, research methods, and administration theory as they pertain to the practice of physical therapy. It provides a working knowledge of the evaluation and treatment techniques of the physical therapists. It provides study of the concepts, and methods, and principles to stimulate personal growth and development.

Special Information: Students must successfully complete 74 weeks and 3 days of didactic training (Phase 1) at Ft Sam Houston, Texas prior to their PCS move for a 39-week clinical internship (Phase 2). A Doctor of Physical Therapy (DPT) degree will be awarded upon the successful completion of Phase 2.

USA BAYLOR UNIV GRADUATE PRGM IN PHYS THERAPY Phase: 2

Location School Code: 830, 831, 834, 835, 836, 837, 839, 843, 849, 851, 857, 860, 862, 869, 872, 873 **Length: 39 weeks**

Description: This course is a two-phased, degree producing program. Phase 1, which is 74 weeks and 3 days in length, consists of a comprehensive study of the structure and function of the human body moving from the normal to the pathological. It includes study of the etiology, signs, symptoms, and treatment of physical dysfunction to include evaluation and interpretation of abnormal signs and symptoms, research methods, and administration theory as they pertain to the practice of physical therapy. It provides a working knowledge of the evaluation and treatment techniques of the physical therapists. It provides study of the concepts, methods, and principles to stimulate personal growth and development. Phase 2, which is 39 weeks in length, consists of a clinical internship. Students who successfully complete the program will be granted a Doctor of Physical Therapy (DPT) degree.

Phase 2, which is 39 weeks in length, consists of a clinical internship. Students who successfully complete the program will be granted a Doctor of Physical Therapy (DPT) degree.

Special Information: Students must successfully complete 74 weeks and 3 days of didactic training (Phase 1) at Ft Sam Houston, Texas prior to their PCS move for a 39 week clinical internship (Phase 2). A Doctor of Physical Therapy (DPT) degree will be awarded upon the successful completion of Phase 2.

6F-66F
US ARMY GRADUATE PGM IN ANES NURSG Phase: 1

ATRRS Information

Location School Code: 081 **Length: 51 weeks**

Description: This curriculum is in compliance with educational standards and guidelines of council on Accreditation of Nurse Anesthesia Educational Programs. Completion of this course qualifies graduates to write the national certification examination in this specialty.

Special Information: Application process is IAW the following references: DoD Directives 600-2; AR 135-215; AR 351-3; and AR 621-1. Applicants who do not have a minimum of 1 year critical care experience must enroll in the Essentials of Critical Care Orientation Course (ECCO). For information on enrollment, consult with your staff and training development office.

Instructional strategies used in Phase 1 include: lectures, conferences, discussions, practical exercises, and examinations. Major areas of the curriculum presented include Professional Aspects of Anesthesia Nursing I, Theoretical Foundations in Nursing, Research Methodology, Anatomy Physiology and Pathophysiology, Medical Physical Science, Medical Pharmacology, Fundamentals of Nursing Anesthesia Practice. This curriculum is in compliance with educational standards and guidelines of Council on Accreditation of Nurse Anesthesia Educational Programs. Completion of this course qualifies graduates to write to the Council of Accreditation for the national certification examination application.

6H-65D
INTERSERVICE PHYSICIAN ASSISTANT PROGRAM Phase: 1

ATRRS Information

Location School Code: 081 **Length: 50 weeks 2 days**

Description: The Interservice Physician Assistant Program (IPAP) is a two-year, two-phased degree producing program. The program is designed to provide the skills and knowledge of medical and surgical conditions and procedures and the administrative management of healthcare delivery.

Phase 1 (50 weeks and 2 days) consists of 3 trimesters, each trimester is 16-weeks in duration. The course is conducted at Ft Sam Houston, Texas.

Phase 1 includes instruction in the basic medical sciences, physical examination procedures, PA professional issues, ethics and medical law, research methodologies, and medical and surgical conditions.

First Trimester: Includes instruction in anatomy and physiology, biochemistry, microbiology, clinical laboratory, pathology, medical law, and medical ethics. Students receive initial instruction in research methodologies and will produce multiple projects throughout the didactic year that demonstrate proficiency in the evaluation of medical literature and technical writing.

Second Trimester: Provides instruction in patient evaluations, to include history taking and physical examination techniques, pharmacology, radiology, psychiatry, orthopedics, cardiology, electrocardiography, pulmonary medicine, gastroenterology, endocrinology and dental sciences.

Third Trimester: Includes numerous patient encounters and didactic instruction in pediatrics, surgery, dermatology, obstetrics and gynecology, emergency medicine, infectious diseases, neurology, ophthalmology, genitourinary, otorhinolaryngology, hematology/oncology, rheumatology, geriatrics, military public health and advanced trauma management. Certification courses in Basic Cardiac Life Support and Advanced Cardiac Life Support are conducted during this trimester.

One week of Research and Study is scheduled between the first and second trimester and again between the second and third trimester during which time students are required to complete written projects that are graded

as elements of the Research Evaluation course. Students successfully completing Phase 1 of IPAP are awarded a Bachelors of Science degree from the affiliated university and PCS to their respective Phase 2 sites.

Special Information: Upon appointment as an officer, the Active Army student incurs an active duty service obligation of 4 years beyond the date of successful completion of Ph 2. The ARNG and USAR student incurs a service obligation of 6 years beyond the date of successful completion of Ph 2. If the enlisted student fails to successfully complete training, if appointment as a commissioned officer (CO) is not tendered, or if the student refuses to accept appointment as a CO, the enlisted student will be required to complete the remaining period of enlistment in accordance with service-specific regulations. If the Warrant Officer (WO) fails to complete training or accept the commission into the Specialist Corps (SP), the WO will be released to WO personnel for reassignment based upon the needs of the service.

The Army is the only military service that permits commissioned officers and warrant officers to apply for this training program.

Graduates will be required to successfully pass the Physician Assistant National Certifying Examination (PANCE) immediately following graduation from Ph 2 training. Graduates are also required to maintain National Commission on Certification of Physician Assistants (NCCPA) certification as a requirement for continued employment as a Military PA.

Army commissioned officer students will be branch transferred into the SP at the time of enrollment in the program and will be granted constructive credit for prior commissioned service IAW DODI 6000.13. Army WO students will remain in the WO Corps until graduation from of Ph 2 training and are then branch transferred into the AMS.

All applicants will be expected to meet their service specific prerequisites as outlined in the respective recruitment/accession or training regulations. Students, who arrive at the IPAP and do not meet the minimum admission requirements agreed to by all services and the Registrar, the UNMC, will not be admitted. No advanced standing is given to any applicant of the IPAP.

6H-65D
INTERSERVICE PHYSICIAN ASSISTANT PROGRAM Phase: 2

Location School Code: 835, 837, 839, 842, 843, 844, 849, 857, 860, 861, 862, 863, 864, 869B, 869C, 869D, 869E, 869F, 869G, 869H, 869J, 872, Length: 51 weeks

Description: The Interservice Physician Assistant Program (IPAP) is a two-year, two-phased degree producing program. The program is designed to provide the skills and knowledge of medical and surgical conditions and procedures and the administrative management of healthcare delivery.

Phase 2 is 51 weeks in length and begins with a 1-week orientation to the medical treatment facility (MTF) and its staff, the Student Company/Detachment, HIPPA and CHCS training, and other mandatory medical and service-specific military training. Students must complete post/base in-processing and have their families settled prior to the Start Date of Phase 2 training. The usual duty day is 10-hours long and often includes clinical duties during the evenings, weekends and night on-call duties on some rotations. Phase 2 is conducted at 11 Army, 8 Air Force, and 1 Navy MTF under the supervision of the Phase 2 site Clinical Coordinator and Medical Director.

The clinical rotations include 5 weeks in surgery/urology, 4 weeks in dermatology, 4 weeks in obstetrical/gynecology, 3 weeks in psychiatry, 6 weeks in internal medicine, 4 weeks in otorhinolaryngology/allergy, 5 weeks in pediatrics, 2 weeks in ophthalmology, 6 weeks in family

practice/outpatient medicine, 2 weeks plus 160 after-duty hours in emergency medicine, and 4 weeks in elective rotations. Students may be directed to spend their elective rotations in specific clinical areas as deemed critical to service-specific medical missions. During the Directed Studies course, students will complete 4 oral and written case presentations and submit their investigational research paper (suitable for publication in peer-reviewed journals) to the affiliate university no later than the sixth month of Phase 2.

Upon successfully completing Phase 2 of IPAP, graduates are awarded a Masters in Physician Assistant Studies from the affiliate university and the IPAP Program Director deems them eligible to sit for the Physician Assistant National Certification Examination (PANCE). Enlisted graduates are eligible for a commission as a Physician Assistant within their respective military service. All graduates are awarded the service-specific occupational specialty (65D) classification as a Physician Assistant.

Special Information: This is a multiple permanent change of station two-year, two-phased training program. Students will be awarded a Bachelor of Science degree upon the successful completion of didactic training Phase 1 at Ft Sam Houston, Texas and a Master of Physician Assistant Studies (MPAS) degree upon the successful completion of clinical training Phase 2. Students will be permitted 3 weeks to PCS from Ft Sam Houston to their Phase 2 training site. Students are encouraged to arrive at the Phase 2 site at least 1 week prior to the report date. On-post accompanied housing and bachelor officer quarters are not available at many of the Phase 2 sites.

Phase 2 is 51 weeks long with 2 weeks added for Christmas vacation/exodus. As documented in ATRRS, the total course length is 53 weeks.

Students will be authorized 2 weeks of personal leave during the Christmas vacation/exodus due to limited opportunities for clinical experiences. Students will not be authorized personal leave during any other time while attending Phase 2.

HEALTH SERVICES BATTALIONS

081-6-8-C40(68A30)(F)
TATS AMEDD ALC(68A30) Phase: 2

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: The training stresses technical, tactical, and leadership battle competencies including combat, combat support, and combat service support. The training includes general military knowledge and MOS skills required to function as a team leader or squad leader in support of the Air-land Battle, USASMA Common Leader Training and the AMEDD mission.

Special Information: Prior to FY05, this phase was 081-6-8-C40(F), phase 2.

081-6-8-C40(68D30)(F)
TATS AMEDD ALC (68D30) Phase: 2

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: The training stresses technical, tactical, and leadership battle competencies including combat, combat support, and combat service support. The training includes general military knowledge and MOS skills required to function as a team leader or squad leader in support of Air-land Battle, USASMA Common Leader Training and the AMEDD mission.

Special Information: Prior to FY05, this phase was 081-6-8-C40 (F), phase 2.

081-6-8-C40 (68E30)(F)
TATS AMEDD ALC (68E30) Phase: 3

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: The training stresses technical, tactical, and leadership battle competencies including combat, combat support, and combat service support. The training includes general military knowledge and MOS skills required to function as a team leader or squad leader in support of the Air-land Battle, USASMA Common Leader Training and the AMEDD mission.

Special Information: Students are urged to complete the MOS-technical 081-6-8-C40(91E30)(F), phase 2 prior to attending this phase. Prior to FY05, this phase was 081-6-8-C40(F), phase 2.

081-6-8-C40 (68G30)(F)
TATS AMEDD ALC (68G30) Phase 2

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: Provides an opportunity for SGT, SGT (P) or SSG to acquire the leader, technical, and tactical skills needed to lead squad/platoon size units:

d. Prepare unit and subordinate elements for peace and wartime missions and contingencies.

e. Plan, supervise, and execute tasks and missions assigned to squad/platoon size units.

f. Lead, supervise, discipline, train, and develop subordinates.

The 400-BNCOC Phase 1 is the Stand Alone Common Core (SACC) for which the U.S. Army Sergeants Major Academy (USASMA) is proponent. The time requirement between Phase 1 completion and enrollment into the CMF 68 phase is suspended. Soldiers may attend Phase 1 in residence, via video teletraining (VTT) or at the nearest The Army School System (TASS) training site. The 081-6-8-C40 CMF phase includes both the CMF, which includes the Situational Training Exercise (STX), and the proponent technical track training. Training Module A of the POI is the CMF module for all 68 series skill level 30 Military Occupational Specialty (MOS) conducted at the TASS Health Services Brigade (HSB) School Battalions by the proponent instructors.

The 6-8-C40 distributed learning (dL) course is classified as Phase 0. The dL (40 hours) is a precursor for attending the Advanced Leaders Course (ALC), formerly BNCOC, CMF 68 phase and allows students 6 weeks to complete prior to reporting to the CMF 68 phase. Completion of dL is a requirement for graduation from the ALC. Website: https://amedd.learn.army.mil

Special Information: This course is under the jurisdiction of the Commandant of the AMEDD NCO Academy, U.S. Army Medical Department Center and School. Prior to this phase, students are allowed six weeks to complete the 6-8-C40 (dL) course. Completion of the dL (40 hours) is a requirement for graduation from the ALC. When a reservation is made for the CMF 68 phase, the student will be automatically enrolled in the Internet instruction and notified via AKO email. The online training is delivered via the Army Learning Management System (ALMS)/Blackboard website: https://amedd.learn.army.mil.

081-6-8-C40 (68H30)(F)
TATS AMEDD ALC (68H30) Phase 2

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: The training stresses technical, tactical, and leadership battle competencies including combat, combat support, and combat service support. The training includes general military knowledge and MOS skills required to function as a team leader or squad leader in support of the Air-land Battle, USASMA Common Leader Training and the AMEDD mission.

Special Information: In FY04 and prior years, this phase was 081-6-8-C40 (F), phase 2.

081-6-8-C40 (68J30)(F)
TATS AMEDD ALC (68J30) Phase: 2

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: The Phase 2, 081-6-8-C40 ALC includes the Career Management Field (CMF), the Situational Training Exercise (STX), and the proponent technical portion of ALC POI. The 081-6-8-C40 ALC POI is divided into two training modules. Training Module A of this program of instruction (POI) is the CMF module for all 68 series skill level 30 Military Occupational Specialty (MOS), conducted at The Army School System (TASS) Health Services Brigade (HSB) School Battalions. Training Module B of this POI encompasses the 68 series skill level 30 MOS technical conducted at the TASS HSB School Battalions.

Special Information: This course is under the jurisdiction of the Commandant of the AMEDD NCO Academy, U.S. Army Medical Department Center and School. Students should complete course 6-8-C40 (DL) to receive CMF Student Instructions. Effective 1 October 2004, completion of this Internet instruction (46 hours) is a requirement for graduation from, not enrollment in, ALC. Students are allowed 6 weeks to complete the DL course. When a reservation is made for the CMF 68 phase, the student will be automatically enrolled in the DL instruction and notified via AKO email. Website for this DL instruction is http://ncoa.amedd.army.mil

081-6-8-C40 (68J30)(F)
TATS AMEDD ALC (68J30) Phase: 3

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: The training stresses technical, tactical, and leadership competencies required by the 68J Medical Logistics NCOs to supervise medical supply operations and procedures in a field environment and on the management of skills needed for peaceful operations.

Special Information: This phase was previously 081-6-8-C40 (76J30)(F), phase 4.

081-6-8-C40 (68K30)(F)
TATS AMEDD ALC (68K30) Phase: 3

ATRRS Information

Location School Code: R081 **Length: 4 weeks 1 day**

Description: Provides an opportunity for Soldiers selected for promotion to Sergeant (SGT) (P) or Staff Sergeant (SSG) to acquire the leader, technical, and tactical skills needed to lead squad size units:

d. Prepare unit and subordinate elements for peace and wartime missions and contingencies.

e. Plan, supervise, and execute tasks and missions assigned to squad size units.

f. Lead, supervise, discipline, train, and develop subordinates.

Phase 3 of the 081-6-8-C40 (68K30)(F) is conducted under school code F081, 1-week resident with Active Component. This MOS specific portion reinforces the material covered in the 83-hour distance learning portion and trains medical laboratory NCOs to provide quality laboratory leadership; to manage blood products, workload, personnel, and logistical resources; to provide safety expertise and training; and to safeguard the quality of laboratory results and services. Emphasis is placed on the management and technical skills required for clinical laboratory operations in both peacetime fixed-facilities as well as field environments.

Special Information: This course is under the jurisdiction of the Commandant of the AMEDD NCO Academy, U.S. Army Medical Department Center and School. All AMEDD ALC students should complete course 6-8-C40 (DL) to receive CMF Student Instructions. Effective 1 October 2004, completion of this internet instruction (46-hours) is a requirement for graduation from, not enrollment in, ALC. When a reservation is made for the CMF 68 phase, the student will be automatically enrolled in the CMF DL instruction and notified via AKO email. Website for this AMEDD ALC DL instruction is http://ncoa.amedd.army.mil. Students are allowed 6 weeks to complete the 68 CMF DL course.

081-6-8-C40 (68K30)(F)
TATS AMEDD ALC (68K30)(DL) Phase: 4

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: The training stresses technical, tactical and leadership battle competencies including combat, combat health support, and combat service support. The training includes general military and 21-hours of MOS skills required to function as a team leader or squad leader in support of Army Operations, USASMA common leader training and AMEDD missions.

Special Information: Prior to FY05 this phase was 081-6-8-C40 (F), phase 2.

081-6-8-C40 (68M30)(F)
TATS AMEDD ALC (68M30) Phase: 3

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: This phase provides an integration of leadership skills and knowledge with advanced technical competencies in the areas of: medical nutrition therapy; clinical management; planning for medical field feeding operations; management of Nutrition Care Division; food service operations management; health promotion; and nutrition education, in fixed and non-fixed facilities.

Special Information: For MOS 91M30 Soldiers, ALC was reconfigured as of 1 Oct 03. To attend this resident phase consisting of 93 hours practical exercises, Soldiers must have completed the 127 hours of self-study in the 081-6-8-C40(91M30)(F) phase 2.

081-6-8-C40 (68M30)(F)
TATS AMEDD ALC (68M30) Phase: 4

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: Provides an opportunity for Soldiers selected for promotion to Sergeant SGT (P) or Staff Sergeants (SSG) to acquire the leader, technical, and tactical skills needed to lead squad size units:

d. Prepare unit and subordinate elements for peace and wartime missions and contingencies.

e. Plan, supervise, and execute tasks and missions assigned to squad size units.

f. Lead, supervise, discipline, train, and develop subordinates.

The lessons are Career Management Field (CMF) 68 in scope as opposed to Common Core Training (leadership/tactical), or MOS-specific.

Special Information: Prior to FY05 this was 081-6-8-C40(F), phase 2.

When the reservation is made for this phase, ATRRS will also enroll the Soldier into the 6-8-C40(DL) instruction and notify the student via AKO email. This web-based instruction is a requirement for graduation from ALC, not enrollment. To print study materials, which must be used with the web-based training, go to http://ncoa.amedd.army.mil. During phase 4, students must pass an open book examination covering the DL topics.

081-6-8-C40 (68P30)(F)
TATS AMEDD NCO ALC (68P30) Phase 2

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: The training stresses technical, tactical, and leadership battle competencies including combat, combat support, and combat service support. The training includes general military knowledge and MOS skills required to function as a team leader or squad leader in support of the Air-land Battle, USASMA Common Leader Training and the AMEDD mission.

Special Information: Prior to FY05, this was 081-6-8-C40(F), phase 2.

081-6-8-C40 (68Q30)(F)
TATS AMEDD NCO ALC (68Q30) Phase 2

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: The training stresses technical, tactical, and leadership battle competencies including combat, combat support, and combat service support. The training includes general military knowledge and MOS skills required to function as a team leader or squad leader in support of the Air-land Battle, USASMA Common Leader Training and the AMEDD mission.

Special Information: Prior to FY05, this was the 081-6-8-C40(F), phase 2.

081-6-8-C40 (68R30)(F)
TATS AMEDD ALC (68R30) Phase: 4

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: Provides an opportunity for Soldiers selected for promotion to Sergeant SGT (P) or Staff Sergeants (SSG) to acquire the leader, technical, and tactical skills needed to lead squad size units:

4. Prepare unit and subordinate elements for peace and wartime missions and contingencies;
5. Plan, supervise, and execute tasks and missions assigned to squad size units;
6. Lead, supervise, discipline, train, and develop subordinates.

Reserve Component ALC consists of 4 phases, (Phase 1) Common Leadership Training (CLT) taught by the TASS BN; (Phase 2) MOS Specific ACCP (1 book - 3 modules) consisting of veterinary technical training; (Phase 3) two weeks of hands-on veterinary technical training; and (Phase 4) taught by the TASS BN.

The 21-hours of Battle Focus Training (BFT) and 4 hours of examination during the STX are the responsibility of the 68R instructors during Phase 4.

Students must bring the DL ACCP book with 3 modules (MD 1004-71A, MD 1004-71B, and MD 1004-71C) from 081-6-8-C40 (91R30)(DL), phase 2 to 081-6-8-C40 (91R30)(F), phase 3.

Special Information: For MOS 68R30 Soldiers, ALC was configured as of 1 Oct 03.

This course is under the jurisdiction of the Commandant of the AMEDD NCO Academy, US Army Medical Department Center and School.

Students should complete course 6-8-C40 (DL) to receive CMF Student Instructions.

Effective 1 October 2004, completion of this DL instruction is a requirement for graduation from, not enrollment in, ALC. When a reservation is made for the CMF 68 phase, the student will be automatically enrolled in the DL instruction and notified via AKO email. Website for this DL instruction is http://ncoa.amedd.army.mil

081-6-8-C40(68S30)(F)
TATS AMEDD ALC (68S30) Phase: 2

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: The training stresses technical, tactical, and leadership battle competencies including combat, combat support, and combat service support. The training includes general military knowledge and MOS skills

required to function as a team leader or squad leader in support of the Air-land Battle, USASMA Common Leader Training and the AMEDD mission.

Special Information: Prior to FY05, this was 081-6-8-C40(F) phase 2.

081-6-8-C40(68V30)(F)
TATS AMEDD ALC(68V30) Phase: 2

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: The training stresses technical, tactical, and leadership competencies including combat, combat support, and combat service support. The training includes general military knowledge and MOS skills required to function as a team leader or squad leader in support of the Air-land Battle, USASMA Common Leader Training and the AMEDD mission.

Special Information: Student must complete the web-based training of the 6-8-C40(DL) course 6 months prior to attendance at this resident phase.

ATRRS Information

081-6-8-C40 (68W30)(F)
TATS AMEDD ALC (68W30) Phase 2

081-6-8-C40(68X30)(F)
TATS AMEDD ALC(68X30) Phase: 2

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: The training stresses technical, tactical and leadership battle competencies including combat, combat support, and combat service support. The training includes general military knowledge and 68X MOS skills required to function as a squad leader in support of the Army's Mental Health operations, common core training (CCT) and AMEDD 681X missions.

Provides selected AMEDD 68X Mental Health Specialist noncommissioned officers with the skill and knowledge to: perform duties appropriate to the rank of SSG; apply relevant principles, concepts, and techniques of resource management to resolve problems normally encountered in a Mental Health organization.

Special Information: Effective FY04, Soldiers are required to complete an Internet program prior to graduation from this Phase 2. Beginning FY05, when a reservation is made for this Phase 2, Soldier will automatically be enrolled in the Internet program and notified via AKO email. Assistance is available at the AMEDD NCO Academy webpage at http://ncoa.amedd.army.mil.

Points of contact are COMM (210)221-3822/3121 or DSN 471-3822/3121.

081-6-8-C42 (F)
TATS AMEDD SENIOR LEADER COURSE (SLC)

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: Provides an opportunity for Soldiers with promotion potential to E7 to acquire the leader and tactical skills needed to lead platoon size units:

d. Prepare unit and subordinate elements for peace and wartime missions and contingencies.

e. Plan, supervise, and execute tasks and missions assigned to platoon size units.

f. Lead, supervise, discipline, train and develop subordinates.

Special Information: This course replaces 081-91CMF40 (F), Phase 2, TATS AMEDD Advanced NCO Course effective 1 Oct 05.

081-68E10 (F)
TATS DENTAL SPECIALIST Phase 1

ATRRS Information

Location School Code: R081 **Length: 2 weeks 1 day**

Description: This course provides training for prior service Reserve Component Soldier in skills necessary to perform tasks required of a dental assistant in the examination, care, and treatment of dental diseases and disorders.

This phase provides the prior service Reserve Component Soldier with the skills necessary to perform tasks associated with basic life support for healthcare providers, dental materials, infection control, dental radiology, chair, unit, and hand-piece maintenance.

Special Information: Soldiers reporting for training must have in his/her possession a completed Pre-Execution Checklist signed by the unit commander and any waivers. Request for waiver of a course prerequisite must be submitted to: AMEDD Personnel Proponent Directorate, ATTN MCCS-DE, 1400 E Grayson St, Ft Sam Houston TX 78234-5052. SSGs' will receive a certificate of completion after attending Phase 2 of this course; additional skill level 30 training is required to be awarded the MOS.

Phase 1 contains 13-hours of self-study that is to be completed by the Soldier on his/her own time. Soldiers will be tested on the self-study upon arrival for training.

081-68E10 (F)
TATS DENTAL SPECIALIST Phase 2

ATRRS Information

Location School Code: R081 **Length: 2 weeks**

Description: This course provides training for prior service Reserve Component Soldier in skills necessary to perform tasks required of a dental assistant in the examination, care, and treatment of dental diseases and disorders.

This phase provides the Soldier skills necessary to perform dental assistant duties. Subjects include dental administration, dental restorative and specialty instrumentation, general assisting, surgical assisting and familiarization with field dental equipment.

Special Information: Soldiers reporting for training must have in his/her possession a completed Pre-Execution Checklist signed by the unit commander and any waivers. Request for waiver of a course prerequisite must be submitted to: AMEDD Personnel Proponent Directorate, ATTN MCCS-DE, 1400 E Grayson St, Ft Sam Houston TX 78234-5052. SSGs' will receive a certificate of completion after attending Phase 2 of this course, additional skill level 30 training is required to be awarded the MOS.

081-68W (EMT-B) (T)
TATS HEALTHCARE SPEC, EMT BASIC (TRANS)

ATRRS Information

Location: R081 **Length: 3 weeks**

Description: This course trains the standards of MOS Healthcare Specialist, National Registry EMT-B in skills necessary to become an effective medical care provider for pre-hospital emergency medical care. This course includes all skills necessary for the individual to provide emergency medical care at a basic life support level.

Special Information: This course is normally taught in 14 consecutive days, start and end dates will not exceed 3 calendar weeks. Variations of the 3-week start/end dates are authorized with prior approval of Commander, AMEDDC&S, 68W Program Management Branch. All sites conducting this training must be an established National Registry Emergency Medical Technician - Basic training site and will submit an application to the Dean, Academy of Health Sciences, U.S. Army EMT Program Manager, for approval prior to conduction training. This is a transition course for the MOS Healthcare Specialist, 68W and will be discontinued 1 Oct 07 for the Active Component and 01 Oct 09 for the Reserve Component. This course in itself does not qualify the 68B or 68C Soldier for MOS 68W but is to be used with other appropriate transition courses or personal qualifications to complete the qualifications for transition to 68W. Each Soldier must determine which courses are needed to complete transition in the prescribed manner.

081-68W10
HEALTHCARE SPECIALIST (MOS-T) Phase 1

ATRRS Information

Location: R081 **Length: 2 weeks**

Description: There is no description available at this time; please review https://www.atrrs.army.mil/ for updated information.

Special Information: There is no special information available at this time; please review https://www.atrrs.army.mil/ for updated information.

081-68W10
HEALTHCARE SPECIALIST (MOS-T) Phase 2

ATRRS Information

Location: R081 **Length: 3 weeks 1 day**

Description: There is no description available at this time; please review https://www.atrrs.army.mil/ for updated information.

Special Information: There is no special information available at this time; please review https://www.atrrs.army.mil/ for updated information.

081-68W10
HEALTHCARE SPECIALIST (MOS-T) Phase 3

ATRRS Information

Location: R081 **Length: 2 weeks 2 days**

Description: This course was developed to award the 68W MOS to Reserve Component Soldiers who do not hold the 68W MOS. This course is not for transition or Y2 removal. This course has 3 phases. Phase 1 consists of CPR and the EMT-B curriculum, which will authorize the Soldier to take the National Registry Emergency Medical Technician- Basic (NREMT-B) examination. After successful completion of the NREMT-B examination, the Soldier is eligible to attend Phase 2, which consists of Limited Primary Care, Force Health Protection, Invasive Procedures/Core Skills and Combat Trauma Treatment. After successful completion of Phase 2, the Soldier is eligible to attend Phase 3, which consists of Combat Evacuation, a Situational Training Exercise and a Field Training Exercise. After successful completion of phase 3, the Soldier has met the requirements to obtain the 68W MOS.

Special Information: There is no special information available at this time; please review https://www.atrrs.army.mil/ for updated information.

081-68W10 (F)
HEALTHCARE SPECIALIST (MOS-T) Phase 1

ATRRS Information

Location: R081 **Length: 3 weeks**

Description: Soldiers receive specific training in combat and military operations other-than-war casualty care, medical care for patients exposed to weapons of mass destruction, deployable medical systems, aircraft and ground evacuation, and casualty triage and processing. The course trains the requirements of the National Registry of Emergency Medical Technicians-Basic (NREMT-B) as a foundation for the Healthcare Specialist.

Special Information: When making reservation for Phase 1, also make reservation for Phase 2. Students will be given Phase 2 materials upon successful completion of, and prior to departing from, Phase 1. Soldiers must not have an aversion to blood or body fluids. Soldiers must have proof that they have started Hepatitis B series; completion of series is required for entry to Phase 3. Current physical exam within one year of course start date without any health problems that would limit ability to complete course requirements. Current immunizations as required for clinical activities. Student must have current American Heart Association (AHA) Basic Life Support (BLS) for Healthcare Provider or American Red Cross (ARC) CPR for Professional Rescuers card that will not expire during course through Phase 4. Must have a completed Pre-execution Checklist signed by the unit commander and a copy of any prerequisite waived by AMEDD Personnel Proponent Directorate. SUBMIT ALL REQUESTS FOR WAIVERS TO: CDR, AMEDD Center & School, AMEDD Personnel Proponent Directorate, ATTN: MCCS-DE, 1400 Grayson St, Ft Sam Houston, TX 78234-5052.

081-68W10 (F)
HEALTHCARE SPECIALIST (MOS-T) Phase 2

ATRRS Information

Location: R081 **Length: 2 weeks**

Description: This phase prepares the Soldier for Phase 3 by introducing subjects including supportive care, force health protection, combat stress, nuclear, biological, and chemical agents, and record keeping which will be expanded upon in Phase 3.

Special Information: This phase is the second of four that must be completed in sequence to earn course diploma and award of MOS 68W. Soldiers will be given Phase 2 study materials upon successful completion of Phase 1 and prior to departing Phase 1. Soldiers will become familiar with contents in preparation for Phase

3. Upon arrival at Phase 3, Soldier will take a written examination covering the self-study material; passing score of 70 percent or higher must be achieved for admittance to Phase 3. Student may be enrolled in Phase 2 and Phase 3 concurrently.

081-68W10 (F)
HEALTHCARE SPECIALIST (MOS-T) Phase 3

ATRRS Information

Location: R081 **Length: 16 weeks**

Description: Soldiers receive specific training in combat and military operations other-than-war casualty care, medical care for patients exposed to weapons of mass destruction, deployable medical systems, aircraft and ground evacuation, and casualty triage and processing. This phase expands the subjects presented in Phase 2 self-study with didactic instruction, practical examinations and written examinations.

Special Information: This phase is the third of four that must be completed in sequence to earn course diploma and award of MOS 68W.

081-68W10 (F)
HEALTHCARE SPECIALIST (MOS-T) Phase 4

ATRRS Information

Location: R081 **Length: 2 weeks**

Description: This phase consists of didactic, practical examination, and written examinations on invasive procedures, accumulation of biological waste, and simulated patients. The instruction presented in this phase and previous phases is pulled together in the field training exercise.

Special Information: This phase is the fourth that must be completed in sequence to earn course diploma and award of MOS 68W.

131-F13
SMALL GROUP INSTRUCTION TRAINING

ATRRS Information

Location: R081 **Length: 5 days**

Description: Apply specified small group methods while developing team building skills, facilitating group process; developing decision making/problem solving skills; modeling army leader values and applying communication skills.

Special Information: Standard course used throughout the army - both Active and Reserve components.

300-68W1/2/3/4(68WY2)(T)
68W TRANSITION COURSE Phase 1

ATRRS Information

Location: R081 **Length: 2 weeks**

Description: This course is an abridged, 80-hour Emergency Medical Technician - Basic (EMT-B) course that incorporates the United States Department of Transportation (DOT) National Standard Curriculum, and the 30-hour 68W Healthcare Specialist specific Combat Medic Advanced Skills Training (CMAST) course that incorporates Tactical Combat Casualty Care (TC3) and pre-hospital trauma life support subjects that include all skills necessary for the individual to provide emergency trauma care at the point of wounding during military combat operations and at the basic life support level. Students receive specific training in pre-hospital emergency care, evacuation, and treatment of shock affected trauma casualties using the tenets of tactical combat casualty care during combat operations. This course is conducted in two phases; phase one is the EMT-B module, phase two is the CMAST module.

Phase 1 is an abridged, 80-hour Emergency Medical Technician - Basic (EMT-B) course that incorporates the United States Department of Transportation National Standard Curriculum.

Special Information: THIS COURSE IS NOT AUTHORIZED TO BE USED AS A MOS RECLASSIFICATION COURSE. Soldiers requiring reclassification to MOS 68W must attend either the 300-68W10 Healthcare Specialist Course or the 081-68W10 (F) Healthcare Specialist Reclassification Course. This phase does not include time for taking the NREMT-B written test. Patient contact time is also not counted in the instruction hours. Simulation may be substituted for patient contact requirement if justified and pre-approved by the Course Director, Department of Combat Medic Training (DCMT), through the Dean, Academy of Health Sciences, and the U.S. Army EMT Program Manager. All sites conducting this course must be an established National Registry Emergency Medical Technician - Basic training site; submit application for site license through the Dean, Academy of Health Sciences, to the U.S. Army EMT Program Manager, DCMT, for approval prior to conducting training.

300-68W1/2/3/4(68WY2)(T)
68W TRANSITION COURSE Phase 2

ATRRS Information

Location: R081 **Length: 1 week**

Description: This course is an abridged, 80-hour Emergency Medical Technician-Basic (EMT-B) course that incorporates the United States Department of Transportation (DOT) National Standard Curriculum and the 30-hour 68W Healthcare Specialist specific Combat Medic Advanced Skills Training (CMAST) course that incorporates Tactical Combat Casualty Care (TC-3) and pre-hospital trauma life support subjects that include all skills necessary for the individual to provide emergency trauma care at the point of wounding during military combat operations and at the basic life support level. Students receive specific training in pre-hospital emergency care, evacuation and treatment of shock affected trauma casualties using the tenets of tactical combat casualty care during combat operations. This course is conducted in two phases; phase one is the EMT-B module, phase two is the CMAST module.

Phase two; Combat Medic Advanced Skills Training (CMAST) includes pre-hospital trauma life support subjects with and emphasis on emergency medical care and evacuation, and treatment of shock-affected trauma casualties using the tenets of tactical combat casualty care during combat operations.

Special Information: this course is NOT AUTHORIZED to be used as a MOS reclassification course. Soldiers requiring reclassification to MOS 68W must attend either the 300-68W10 Healthcare Specialist Course or the 081-68W10 (F) Healthcare Specialist Reclassification Course. Simulation may be substituted for patient contact requirement if justified and pre-approved by the Course Director, Department of Combat Medic Training (DCMT), through the Dean, Academy of Health Sciences, and the U.S. Army EMT Program Manager. All sites conducting this course must be an established National Registry Emergency Medical Technician - Basic training site; submit application for site license through the Dean, Academy of Health Sciences, to the U.S. Army EMT Program Manager, DCMT, for approval prior to conducting training.

CLC-06
COMBAT LIFESAVER COURSE - 06 EDITION

ATRRS Information

Location School Code: R081 **Length: 4 days**

Description: On the battlefield, the ability of trained medical personnel to provide immediate, far forward care is limited. The combat lifesaver (CL) is a nonmedical Soldier trained to provide emergency care as a secondary mission. Each squad and crew should have at least one member trained to be a CL. There have been major revisions to the Combat Lifesaver Course. AR 350-1, Army Training and Education, governs the Combat Lifesaver program and supersedes AR 350-41, Training in Units. See paragraph 4-12, AR 350-1 for additional information on the Combat Lifesaver program. The changes to this program are consistent with the tenets of Tactical Combat Casualty Care and reflect the current thought of the Army Medical Department Center and School while conforming to printed Department of the Army doctrine as closely as currently possible.

Special Information: The primary mode that the Combat Lifesaver Course (CLC) is offered is through the Army Correspondence Course Program using the group study. Request for enrollment and administrative issues should be directed to: The Army Institute for Professional Development, ATTN ATIC-IPS (Student Services), US Army Training Support Center, Newport News VA 23628-0001. Telephone: COMM: 757-878-2127/3322, DSN: 826-2127/3322,. Email: sectiona@atsc.army.mil

6-250-C1
MEDICAL STRATEGIC LEADERSHIP PROGRAM

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: The Program is a multinational, postgraduate level course. For US officers the course is 2 weeks long. For international officers the course is 3 weeks long.

The course focuses on strategic planning in the medical arena with emphasis on coalition operations. Major areas of instruction include US Army Medical Policy and Organization, Military Readiness, Medical Observer Training, International Law, Nongovernmental Organizations, Counterterrorism, Intercultural Relations, Nongovernmental Organizations, Strategic Lessons Learned, Media Relations, Force Health Protection, Research and Development, Interagency Planning, and Government Policy. Understanding of and concern for human rights is an integral part of the course. A primary goal is for senior U.S. and International military officers to form close professional and personnel bonds that allow a long-term relationship to develop. Through these relationships, U.S. and international officers maintain contacts and work together to support seamless global medical operations. This is extremely important due to the steadily increasing incidence of coalition operations. This goal is accomplished using a management technique known as a "retreat". Students spend as much time as possible together discussing pertinent issues and sharing experiences. During the final week, when relationships solidify, students stay in the same lodging, eat all meals together, and participate in evening functions, both structured and unstructured.

This program is divided into three segments. Segment One is for International students only and consists of five days of U.S. Army medical policy and organization, military readiness, and medical observation training. Segment Two is five days of in-residence instruction at the Army Medical Department Center and School, at Fort Sam Houston, Texas focusing on International Law, Counterterrorism, Intercultural Relations, Nongovernmental Organizations, and Strategic Lessons Learned. US Army students join the course at the beginning of Segment Two. Segment Three is convened in New York and Washington D.C. during which students spend five days participating in briefings and guided discussions on force health protection, research and development, media relations, interagency planning, and government policy.

Special Information: U.S. STUDENTS ONLY - For additional information please contact the Program Director, COMM: (210) 221-8571/7094.

Students should make flight arrangements from their duty station to San Antonio, TX on the day prior to their class start date and from Washington, D.C. to their duty station on the day following the last class day. All other transportation and lodging arrangements are made by the Program Director. Students will be met at the San Antonio International Airport by an official escort officer.

Uniform and Clothing Requirements: The duty uniform for most days is the Class B uniform. The Class A uniform is required on 2-3 occasions. A civilian coat and tie is also required for at least one social function.

6-250-C1 (INTERNATIONAL)
MEDICAL STRATEGIC LEADERSHIP PROGRAM

ATRRS Information

Location School Code: 081 **Length: 3 weeks**

Description: The Program is a multinational, postgraduate level course. For US officers the course is 2 weeks long. For international officers the course is 3 weeks long.

The course focuses on strategic planning in the medical arena with emphasis on coalition operations. Major areas of instruction include US Army Medical Policy and Organization, Military Readiness, Medical Observer Training, International Law, Nongovernmental Organizations, Counterterrorism, Intercultural Relations, Nongovernmental Organizations, Strategic Lessons Learned, Media Relations, Force Health Protection, Research and Development, Interagency Planning, and Government Policy. US Army students join the course at the beginning of Segment Two. Segment Three is convened in New York and Washington D.C. during which students spend five days participating in briefings and guided discussions on force health protection, research and development, media relations, interagency planning, and government policy.

Special Information: Students should arrive at the San Antonio International Airport on the Thursday before the course start date. Students will be met at the airport by an official escort officer.

Due to the short duration of the course, IMET students should be paid in advance and should arrive with enough funds to pay for all of their meals throughout the entire course. At Ft Sam Houston, on-post lodging for IMET students may be charged to their Invitational Travel Order. All others must arrive with enough funds to cover the cost of lodging (16 days) at Ft Sam Houston. Lodging in New York City and Washington, D.C. is covered in the course cost.

Students should make flight arrangements from Washington, D.C. to their duty station on the Sunday following the last class day. Transportation from San Antonio to New York and New York to Washington, D.C. is made by the Program Director and covered under the course costs. For additional information, please contact the Program Director COMM: (210) 221-8571/7094.

UNIFORM AND CLOTHING REQUIREMENTS: The duty uniform for most days is the Class B uniform. The Class A uniform is required on 2-3 occasions. A civilian coat and tie is also required for at least one social function. During the spring and fall students need to bring a civilian overcoat due to the likelihood of cold weather.

PRESENTATION REQUIREMENT: Students must come prepared to give a brief presentation (no longer than 30 minutes) about their country, focusing on the geography, government, culture, military medical structure, and the most significant issue facing their military medical forces.

1. Power Point 95 or later version

2. 20 slides or less

3. No video or DVD (due to compatibility issues)

4. a copy of the presentation is due on the first day of class in any of the following format: Floppy A, CD, Zip disk 100mg or 250mg, or USB storage card

LEADER TRAINING CENTER (LTC)

https://www.cs.amedd.army.mil/details.aspx?dt=192

6-8-C20 (OBLC USUHS)
AMEDD OFFICER BASIC (USUHS)

ATRRS Information

Location School Code: 081 **Length: 6 weeks**

Description: AMEDD Officer Basic Course (USUHS) has been redesigned to reflect the applicable portions of the Army Basic Officer Leader Course (BOLC), and is now called the AMEDD Officer Basic Leaders Course (OBLC) (USUHS). AMEDD OBLC (USUHS) trains officers to develop: competency to perform officer/Soldier skills to standard; an understanding of Army organizations, operations, and procedures; an ability to apply the concepts of Force Health Protection and leader skills, to include an ability to analyze and solve military problems; an ability to communicate, interact and coordinate as a staff member; military survival skills for the contemporary operating environment; and AMEDD-specific training which culminates in a Force Health Protection field training exercise. Three field training exercises (FTX) are conducted during the course and involve: chemical, biological, radiological, nuclear (CBRN) defense, patient evacuation (manual and litter carries), land navigation, MOUT training, convoy operations, communications, weapons training and other Soldier skills. These areas have been determined to be crucial to the mission of the Army to the extent that non-performance in the field might constitute a life-threatening situation or cause mission failure for OBLC graduates and/or their units. Successful completion of the course is required to obtain Military Education Level (MEL)-G (formerly MEL-7) credit, and to meet the requirements of Initial Entry Training mandated by Title 10, U.S. Code, the completion of which is required before an officer can be deployed outside the Continental United States (OCONUS).

Special Information: This course will last 6 weeks and requires duty through weekends.

1. To obtain information about the AMEDD Officer Basic Leader Course, go to http://www.cs.amedd.army.mil/obc/index.htm. This web site contains key information for students to be successful at OBLC, to include: frequently asked questions (FAQ) page, field packing lists, recommended uniform items, and key dates during the course.

2. Officers will be assigned to A Company, 187th Medical Battalion, Ft Sam Houston, Texas.

3. Officers are to bring their uniforms to Ft Sam Houston; there will be an opportunity to purchase more uniforms while attending the course.

4. It is highly recommended that officers bring computer/laptop and printer as many homework assignments require the use of a computer and printer. There are computer labs in the AMEDD Center and School, but the hours may be limited.

6-8-C20 (AN66)
NURSE CORPS OFFICER BASIC (OBLC)

ATRRS Information

Location School Code: 081 **Length: 9 weeks**

Description: AMEDD Officer Basic Course has been redesigned to reflect the applicable portions of Army Basic Officer Leaders Course (BOLC) and is now called AMEDD Officer Basic Leaders Course (OBLC). AMEDD OBLC trains officers to develop: competency to perform officer/Soldier skills to standard; an understanding of Army organizations, operations and procedures; an ability to apply the concepts of Force Health Protection and leader skills, to include an ability to analyze and solve military problems; an ability to

communicate, interact and coordinate as a staff member; military survival skills for the contemporary operating environment; and AMEDD-specific training which culminates in a Force Health Protection field training exercise.

This course is required for all Active Duty Nurse Corps Officers (AN 66). The first 7-weeks of this 9-week course are AMEDD common corps training. The remaining 2 weeks are AOC specific training.

Military Education Level (MEL)-G (formerly MEL-7) credit is awarded upon successful completion of the 6-8-C20 (AN66) NURSE CORPS OFFICER BASIC (OBLC) course for the designated specialty.

Special Information: Area of Concentration (AOC) specific training for Nurse Corps officers starts immediately following the 7 weeks AMEDD OBLC common core training and consists of 2 weeks of training.

1. To obtain information about the AMEDD Basic Officer Leader Course, go to http://www.cs.amedd.army.mil/obc/index.htm. This web site contains key information for students to be successful at OBLC, to include: frequently asked questions (FAQ) page, field packing lists, recommended uniform items, and key dates during the course.

2. Officers will be assigned to A Company, 187th Medical Battalion, Ft Sam Houston, Texas.

3. Officers are to bring their uniforms to Ft Sam Houston; there will be an opportunity to purchase more uniforms while attending the course.

4. It is highly recommended that officers bring computer/laptop and printer as many homework assignments require the use of a computer and printer. There are computer labs in the AMEDD Center and School, but the hours may be limited.

6-8-C20 (DC63)
DENTAL CORPS OFFICER BASIC (OBLC)

ATRRS Information

Location School Code: 081 **Length: 9 weeks**

Description: AMEDD Officer Basic Course has been redesigned to reflect the applicable portions of Army Basic Officer Leaders Course (BOLC) and is now called AMEDD Officer Basic Leaders Course (OBLC). AMEDD OBLC trains officers to develop: competency to perform officer/Soldier skills to standard; an understanding of Army organizations, operations and procedures; an ability to apply the concepts of Force Health Protection and leader skills, to include an ability to analyze and solve military problems; an ability to communicate, interact and coordinate as a staff member; military survival skills for the contemporary operating environment; and AMEDD-specific training which culminates in a Force Health Protection field training exercise.

This course is required for all Active Duty Dental Officers (DC 63). The first 7-weeks of this 8 week course are AMEDD common corps training. The remaining 1 week is AOC specific training.

Military Education Level (MEL)-G (formerly MEL-7) credit is awarded upon successful completion of the 6-8-C20 (DC63) DENTAL CORPS OFFICER BASIC (OBLC) course for the designated specialty.

Special Information: Area of Concentration (AOC) specific training for Dental officers starts immediately following the 7 weeks AMEDD OBLC common core training and consists of 1 week of training.

1. To obtain information about the AMEDD Basic Officer Leader Course, go to http://www.cs.amedd.army.mil/obc/index.htm. This web site contains key information for students to be

successful at OBLC, to include: frequently asked questions (FAQ) page, field packing lists, recommended uniform items, and key dates during the course.

2. Officers will be assigned to A Company, 187th Medical Battalion, Ft Sam Houston, Texas.

3. Officers are to bring their uniforms to Ft Sam Houston; there will be an opportunity to purchase more uniforms while attending the course.

4. It is highly recommended that officers bring computer/laptop and printer as many homework assignments require the use of a computer and printer. There are computer labs in the AMEDD Center and School, but the hours may be limited.

6-8-C20(HPSP/RC/VC64)(P)
VET CORPS OFFICER BASIC(OBLC HPSP/RC/VC64) Phase 1

ATRRS Information

Location School Code: 081 **Length: 6 weeks**

Description: The Veterinary Officer Basic Leaders Course (OBLC HPSP/RC/VC64) consists of two phases and is required for Health Professions Scholarship Program (HPSP/RC) VCOs entering the service. Phase 1 is 6 weeks in length. It provides AMEDD officer training in the following areas: competency to perform officer/Soldier skills to standard; an understanding of Army organizations, operations and procedures; an ability to apply the concepts of Health Service Support and leader skills, to include analysis and military problem solving; an ability to communicate, interact and coordinate as a staff member; military survival skills for the contemporary operating environment; and AMEDD-specific training which culminates in a medical field training exercise. Phase 2 is 5 weeks of Area of Concentration (AOC) 64-specific training in the following areas: food protection/sanitation/safety; Veterinary Treatment Facility (VTF) Operations; research and development advances in veterinary treatment; emergency and preventive care of a Military Working Dog; and impact of current issues and requirements on the DoD Veterinary Service mission. HPSP/RC VCO accessions must complete Phase 1 requirements taught by the Leader Training Center and Phase 2 technical training requirements provided by the Department of Veterinary Sciences (DVS) to graduate from OBLC. Soldiers must successfully complete both Phases 1 & 2 to graduate from OBLC and be awarded MEL G & AOC designator (VC64).

Soldiers enrolled in this Phase receive 6 weeks of training in common core officer basic leader development that includes, but is not limited to, performance of officer/Soldier skills listed in the course scope.

Special Information: Soldiers may begin Phase 2 immediately upon completion of Phase 1, or return at a later date for this Phase. However, HPSP/RC Soldiers with scholarship obligations have up to 6 months after veterinary school graduation to enroll in & complete Phase 2. DVS has oversight management of ensuring HPSP/RC/ VCOs complete the course as required. Soldiers who cannot meet the 6-month cutoff period, but want to enroll in Phase 2, must submit a request for an exception for enrollment (in writing, prior to the cutoff period) to Chief, Department of Veterinary Science, Army Medical Department Center & School, ATTN: MCCS-HV, Bldg 2640, 2610 Harney Road Suite 47, Fort Sam Houston, TX 78234. HPSP Soldiers incur an 8-year service obligation: a minimum of 3 years Active Duty & 5 years Individual Ready Reserve (IRR). Obligated service requirements for Reserve Component Soldiers are IAW NGR 350-1 & AR 135-200.

1. To obtain information about AMEDD OBLC, go to http://www.cs.amedd.army.mil/obc/index.htm. This web site contains key information for students to be successful at OBLC, to include frequently asked questions (FAQ), field packing lists, recommended uniform items, & key dates during the course.

2. Officers are assigned to A Company, 187th Medical Battalion, Fort Sam Houston, Texas.

3. Officers are to bring their uniforms to Fort Sam Houston. There will be an opportunity to purchase more uniforms while attending the course.

4. It is highly recommended that officers bring a computer/laptop & printer, as many homework assignments require the use of a computer & printer. There are computer labs in the AMEDD Center & School, but the hours may be limited.

6-8-C20(HPSP/RC/VC64)(P)
VET CORPS OFFICER BASIC(OBLC HPSP/RC/VC64) Phase 2

ATRRS Information

Location School Code: 081 **Length: 5 weeks**

Description: The Veterinary Officer Basic Leaders Course (OBLC HPSP/RC/VC64) consists of two phases and is required for Health Professions Scholarship Program (HPSP/RC) VCOs entering the service. Phase 1 is 6 weeks in length. It provides AMEDD officer training in the following areas: competency to perform officer/Soldier skills to standard; an understanding of Army organizations, operations and procedures; an ability to apply the concepts of Health Service Support and leader skills, to include analysis and military problem solving; an ability to communicate, interact and coordinate as a staff member; military survival skills for the contemporary operating environment; and AMEDD-specific training which culminates in a medical field training exercise. Phase 2 is 5 weeks of Area of Concentration (AOC) 64-specific training in the following areas: food protection/sanitation/safety; Veterinary Treatment Facility (VTF) Operations; research and development advances in veterinary treatment; emergency and preventive care of a Military Working Dog; and impact of current issues and requirements on the DoD Veterinary Service mission. HPSP/RC VCO accessions must complete Phase 1 requirements taught by the Leader Training Center and Phase 2 technical training requirements provided by the Department of Veterinary Sciences (DVS) to graduate from OBLC. Soldiers must successfully complete both Phases 1 & 2 to graduate from OBLC and be awarded MEL G & AOC designator (VC64).

This 5-week Phase provides Veterinary Corps (VC) Officers with the final training that prepares them for initial assignment. Training includes information regarding Food Protection/Sanitation, Veterinary Treatment Facility (VTF) Operations, Research and Development Treatment Issues, Unit Organization, and Current Issues that impact the DoD Veterinary Service mission.

Special Information: Soldiers may begin Phase 2 immediately upon completion of Phase 1, or return at a later date for this Phase. However, HPSP/RC Soldiers with scholarship obligations have up to 6 months after veterinary school graduation to enroll in & complete Phase 2. DVS has oversight management of ensuring HPSP/RC VCOs complete the course as required. Soldiers who cannot meet the 6-month cutoff period, but want to enroll in Phase 2, must submit a request for an exception for enrollment (in writing, prior to the cutoff period) to Chief, Department of Veterinary Science, Army Medical Department Center & School, ATTN: MCCS-HV, Bldg 2640, 2610 Harney Road Suite 47, Fort Sam Houston, TX 78234. HPSP Soldiers incur an 8-year service obligation: a minimum of 3 years Active Duty & 5 years Individual Ready Reserve (IRR). Obligated service requirements for Reserve Component Soldiers are IAW NGR 350-1 & AR 135-200.

1. To obtain information about AMEDD OBLC, go to http://www.cs.amedd.army.mil/obc/index.htm. This web site contains key information for students to be successful at OBLC, to include frequently asked questions (FAQ), field packing lists, recommended uniform items, & key dates during the course.

2. Officers are assigned to A Company, 187th Medical Battalion, Fort Sam Houston, Texas.

3. Officers are to bring their uniforms to Fort Sam Houston. There will be an opportunity to purchase more uniforms while attending the course.

4. It is highly recommended that officers bring a computer/laptop & printer, as many homework assignments require the use of a computer & printer. There are computer labs in the AMEDD Center & School, but the hours may be limited.

6-8-C20 (OBLC HPSP/RC)
AMEDD OFFICER BASIC (HPSP/RC)

ATRRS Information

Location School Code: 081 **Length: 6 weeks**

Description: AMEDD Officer Basic Course (HPSP/RC) has been redesigned to reflect the applicable portions of the Army Basic Officer Leader Course (BOLC), and is now called the AMEDD Officer Basic Leaders Course (OBLC) (HPSP/RC). AMEDD OBLC (HPSP/RC) trains officers to develop: competency to perform officer/Soldier skills to standard; an understanding of Army organizations, operations, and procedures; an ability to apply the concepts of Force Health Protection and leader skills, to include an ability to analyze and solve military problems; an ability to communicate, interact and coordinate as a staff member; military survival skills for the contemporary operating environment; and AMEDD-specific training which culminates in a Force Health Protection field training exercise. Three field-training exercises (FTX) are conducted during the course and involve: chemical, biological, radiological, nuclear (CBRN) defense, patient evacuation (manual and litter carries), land navigation, MOUT training, convoy operations, communications, weapons training and other Soldier skills. These areas have been determined to be crucial to the mission of the Army to the extent that non-performance in the field might constitute a life-threatening situation or cause mission failure for OBLC graduates and/or their units. Successful completion of the course is required to obtain Military Education Level (MEL)-G (formerly MEL-7) credit, and to meet the requirements of Initial Entry Training mandated by Title 10, U.S. Code, the completion of which is required before an officer can be deployed outside the Continental United States (OCONUS).

Special Information: This course will last 6 weeks in duration and will require duty through weekends.

1. To obtain information about the AMEDD Officer Basic Leader Course, go to http://www.cs.amedd.army.mil/obc/index.htm. This web site contains key information for students to be successful at OBLC, to include: frequently asked questions (FAQ) page, field packing lists, recommended uniform items, and key dates during the course.

2. Officers will be assigned to A Company, 187th Medical Battalion, Ft Sam Houston, Texas.

3. Officers are to bring their uniforms to Ft Sam Houston; there will be an opportunity to purchase more uniforms while attending the course.

4. It is highly recommended that officers bring computer/laptop and printer as many homework assignments require the use of a computer and printer. There are computer labs in the AMEDD Center and School, but the hours may be limited.

6-8-C20 (MC60-62/MS67G/71F)
MEDICAL CORPS OFFICER BASIC (OBLC)

ATRRS Information

Location School Code: 081 **Length: 8 weeks**

Description: AMEDD Officer Basic Course has been redesigned to reflect the applicable portions of Army Basic Officer Leaders Course (BOLC) and is now called AMEDD Officer Basic Leaders Course (OBLC). AMEDD OBLC trains officers to develop: competency to perform officer/Soldier skills to standard; an understanding of Army organizations, operations and procedures; an ability to apply the concepts of Force Health Protection and leader skills, to include an ability to analyze and solve military problems; an ability to communicate, interact and coordinate as a staff member; military survival skills for the contemporary operating

environment; and AMEDD-specific training which culminates in a Force Health Protection field training exercise.

This course is required for all Active Duty Medical Corps Officers (MC 60-62/MS 67G/71F). The first 7-weeks of this 8 week course are AMEDD common corps training. The remaining 1 week is AOC specific training.

Military Education Level (MEL)-G (formerly MEL-7) credit is awarded upon successful completion of the 6-8-C20 (MC 60-62/MS 67G/71F) MEDICAL CORPS OFFICER BASIC (OBLC) course for the designated specialty.

Special Information: Area of Concentration (AOC) specific training for Medical Corps Officers starts immediately following the 7 weeks AMEDD OBLC common core training and consists of 1 week of training.

1. To obtain information about the AMEDD Basic Officer Leader Course, go to http://www.cs.amedd.army.mil/obc/index.htm. This web site contains key information for students to be successful at OBLC, to include: frequently asked questions (FAQ) page, field packing lists, recommended uniform items, and key dates during the course.

2. Officers will be assigned to A Company, 187th Medical Battalion, Ft Sam Houston, Texas.

3. Officers are to bring their uniforms to Ft Sam Houston; there will be an opportunity to purchase more uniforms while attending the course.

4. It is highly recommended that officers bring computer/laptop and printer as many homework assignments require the use of a computer and printer. There are computer labs in the AMEDD Center and School, but the hours may be limited.

6-8-C20 (MS67E)
MS-PHARMACY OFFICER BASIC (OBLC)

ATRRS Information

Location School Code: 081 **Length: 9 weeks**

Description: AMEDD Officer Basic Course has been redesigned to reflect the applicable portions of Army Basic Officer Leaders Course (BOLC) and is now called AMEDD Officer Basic Leaders Course (OBLC). AMEDD OBLC trains officers to develop: competency to perform officer/Soldier skills to standard; an understanding of Army organizations, operations and procedures; an ability to apply the concepts of Force Health Protection and leader skills, to include an ability to analyze and solve military problems; an ability to communicate, interact and coordinate as a staff member; military survival skills for the contemporary operating environment; and AMEDD-specific training which culminates in a Force Health Protection field training exercise.

This course is required for all Active Duty Pharmacy Officers (MS 67E). The first 7-weeks of this 9-week course are AMEDD common corps training. The remaining 2 weeks are AOC specific training.

Military Education Level (MEL)-G (formerly MEL-7) credit is awarded upon successful completion of the 6-8-C20 (MS 67E) MEDICAL SPECIALIST CORPS (67E) OFFICER BASIC (OBLC) course for the designated specialty.

Special Information: Area of Concentration (AOC) training for Pharmacy Officers starts immediately following the 7 weeks AMEDD OBLC common core training and consists of 2 weeks of training.

1. To obtain information about the AMEDD Basic Officer Leader Course, go to http://www.cs.amedd.army.mil/obc/index.htm. This web site contains key information for students to be successful at OBLC, to include: frequently asked questions (FAQ) page, field packing lists, recommended uniform items, and key dates during the course.

2. Officers will be assigned to A Company, 187th Medical Battalion, Ft Sam Houston, Texas.

3. Officers are to bring their uniforms to Ft Sam Houston; there will be an opportunity to purchase more uniforms while attending the course.

4. It is highly recommended that officers bring computer/laptop and printer as many homework assignments require the use of a computer and printer. There are computer labs in the AMEDD Center and School, but the hours may be limited.

6-8-C20 (MS67F)
MS-OPTOMETRY OFFICER BASIC (OBLC)

ATRRS Information

Location School Code: 081 **Length: 8 weeks**

Description: AMEDD Officer Basic Course has been redesigned to reflect the applicable portions of Army Basic Officer Leaders Course (BOLC) and is now called AMEDD Officer Basic Leaders Course (OBLC). AMEDD OBLC trains officers to develop: competency to perform officer/Soldier skills to standard; an understanding of Army organizations, operations and procedures; an ability to apply the concepts of Force Health Protection and leader skills, to include an ability to analyze and solve military problems; an ability to communicate, interact and coordinate as a staff member; military survival skills for the contemporary operating environment; and AMEDD-specific training which culminates in a Force Health Protection field training exercise.

This course is required for all Active Duty Optometry Officers (MS 67F). The first 7-weeks of this 8-week course are AMEDD common corps training. The remaining week is AOC specific training.

Military Education Level (MEL)-G (formerly MEL-7) credit is awarded upon successful completion of the 6-8-C20 (MS 67F) MEDICAL SPECIALIST CORPS (MS 67F) OFFICER BASIC (OBLC) course for the designated specialty.

Special Information: Area of Concentration (AOC) specific training for Optometry officers starts immediately following the 7 weeks AMEDD OBLC common core training and consists of 1 week of training.

1. To obtain information about the AMEDD Basic Officer Leader Course, go to http://www.cs.amedd.army.mil/obc/index.htm. This web site contains key information for students to be successful at OBLC, to include: frequently asked questions (FAQ) page, field packing lists, recommended uniform items, and key dates during the course.

2. Officers will be assigned to A Company, 187th Medical Battalion, Ft Sam Houston, Texas.

3. Officers are to bring their uniforms to Ft Sam Houston; there will be an opportunity to purchase more uniforms while attending the course.

4. It is highly recommended that officers bring computer/laptop and printer as many homework assignments require the use of a computer and printer. There are computer labs in the AMEDD Center and School, but the hours may be limited.

6-8-C20 (MS70B/67J)
MS-PLATOON LEADER OFFICER BASIC (OBLC)

ATRRS Information

Location School Code: 081 **Length: 9 weeks**

Description: AMEDD Officer Basic Course has been redesigned to reflect the applicable portions of Army Basic Officer Leaders Course (BOLC) and is now called AMEDD Officer Basic Leaders Course (OBLC). AMEDD OBLC trains officers to develop: competency to perform officer/Soldier skills to standard; an understanding of Army organizations, operations and procedures; an ability to apply the concepts of Force Health Protection and leader skills, to include an ability to analyze and solve military problems; an ability to communicate, interact and coordinate as a staff member; military survival skills for the contemporary operating environment; and AMEDD-specific training which culminates in a Force Health Protection field training exercise.

Army BOLC 2 (01A-7-C20 Basic Officer Leader) course is required for all Active Duty and Reserve Component Medical Service Corps Officers (MS 70B/67J). This course is for all 70B/67J that are unable to attend the Army BOLC 2 (01A-7-C20 Basic Officer Leader) or direct commissionees. The first 7 weeks of this 9-week course are AMEDD common corps training. The remaining 2 weeks are AOC specific training.

Military Education Level (MEL)-G (formerly MEL-7) credit is awarded upon successful completion of the 6-8-C20 (MS 70B/67J) MEDICAL SERVICE CORPS OFFICER (MS70B/67J) BASIC (OBLC) course for the designated specialty.

Special Information: Area of Concentration (AOC) specific training for Medical Service Corps Officers (MS 70B/67J) starts immediately following the 7 weeks AMEDD OBLC common core training and consists of 2 weeks of training.

1. To obtain information about the AMEDD Basic Officer Leader Course, go to http://www.cs.amedd.army.mil/obc/index.htm. This web site contains key information for students to be successful at OBLC, to include: frequently asked questions (FAQ) page, field packing lists, recommended uniform items, and key dates during the course.

2. Officers will be assigned to A Company, 187th Medical Battalion, Ft Sam Houston, Texas.

3. Officers are to bring their uniforms to Ft Sam Houston; there will be an opportunity to purchase more uniforms while attending the course.

4. It is highly recommended that officers bring computer/laptop and printer as many homework assignments require the use of a computer and printer. There are computer labs in the AMEDD Center and School, but the hours may be limited.

6-8-C20 BOLC (MS70B/67J)
MS-PLATOON LEADER OFFICER BASIC (BOLC) Phase 3

ATRRS Information

Location School Code: 081 **Length: 7 weeks**

Description: Army Basic Officer Leader Course (BOLC) consists of three phases.

BOLC 1 encompasses all Army training conducted by the traditional pre-commissioning sources (i.e., U.S. Army Military Academy, Reserve Officer Training Corps, and Officer Candidate School) and provides the

foundation of the common skills, knowledge and attributes desired for all officers. Officers completing BOLC 1 receive their commissions onsite.

BOLC 2 (01A-7-C20 Basic Officer Leader) training is designed to ensure a tough, standardized, small-unit leadership experience. The primary mission of this phase is to develop and produce adaptive officers; officers with increased maturity, confidence and competence who share a common bond with their combined arms peers, and who are prepared to lead upon arrival at their first assignment. This training will occur at Fort Benning or Fort Sill.

Currently, the AMEDD has 485 slots each year in Army BOLC 2. All AMEDD officers (both Active and Reserve Component) with Areas of Concentration (AOC) of 70B, 67J, and 65D will attend Army BOLC 2, followed by AMEDD (BOLC) 3. All other AMEDD officers may attend Army BOLC 2 on a space available basis if they meet Army BOLC prerequisites.

BOLC 3 is the branch technical/tactical phase taught at the individual branch schools. This phase, for Army Medical Department (AMEDD) officers, is 6-8-C20 AMEDD (BOLC) 3, taught at the AMEDD Center and School, Fort Sam Houston, Texas.

AMEDD Officers must successfully complete all 3 phases of Army BOLC to obtain Military Education Level (MEL)-G (formerly MEL-7). Completion of this training meets the requirements for Initial Entry Training mandated by Title 10, U.S. Code. This training is required before an officer can be deployed outside the Continental United States (OCONUS) in time of war or a national emergency declared by Congress or the President.

Special Information: Area of Concentration (AOC) specific training for Medical Service Corps (MS 70B/67J) Officers is two weeks and starts immediately following the 5 weeks of BOLC 3 AMEDD training.

1. To obtain information about the AMEDD BOLC 3, go to http://www.cs.amedd.army.mil/obc/index.htm. This web site contains key information for students to be successful at OBLC, to include: frequently asked questions (FAQ) page, field packing lists, recommended uniform items, and key dates during the course.

2. Officers will be assigned to A Company, 187th Medical Battalion, Ft Sam Houston, Texas.

3. Officers are to bring their uniforms to Ft Sam Houston; there will be an opportunity to purchase more uniforms while attending the course.

4. It is highly recommended that officers bring computer/laptop and printer as many homework assignments require the use of a computer and printer. There are computer labs in the AMEDD Center and School, but the hours may be limited.

6-8-C20 (MS71ABE)
MS-LABORATORY OFFICER BASIC (OBLC)

ATRRS Information

Location School Code: 081 **Length: 9 weeks**

Description: AMEDD Officer Basic Course has been redesigned to reflect the applicable portions of Army Basic Officer Leaders Course (BOLC) and is now called AMEDD Officer Basic Leaders Course (OBLC). AMEDD OBLC trains officers to develop: competency to perform officer/Soldier skills to standard; an understanding of Army organizations, operations and procedures; an ability to apply the concepts of Force Health Protection and leader skills, to include an ability to analyze and solve military problems; an ability to communicate, interact and coordinate as a staff member; military survival skills for the contemporary operating

environment; and AMEDD-specific training which culminates in a Force Health Protection field training exercise.

This course is required for all Active Duty Laboratory Officers (MS 71ABE). The first 7-weeks of this 9-week course are AMEDD common corps training. The remaining 2 weeks are AOC specific training.

Military Education Level (MEL)-G (formerly MEL-7) credit is awarded upon successful completion of the 6-8-C20 (MS 71ABE) MEDICAL SPECIALIST CORPS (MS 71ABE) OFFICER BASIC (OBLC) course for the designated specialty.

Special Information: Area of Concentration (AOC) specific training for Laboratory officers starts immediately following the 7 weeks AMEDD OBLC common core training and consists of 2 weeks of training.

1. To obtain information about the AMEDD Basic Officer Leader Course, go to http://www.cs.amedd.army.mil/obc/index.htm. This web site contains key information for students to be successful at OBLC, to include: frequently asked questions (FAQ) page, field packing lists, recommended uniform items, and key dates during the course.

1. Officers will be assigned to A Company, 187th Medical Battalion, Ft Sam Houston, Texas.

2. Officers are to bring their uniforms to Ft Sam Houston; there will be an opportunity to purchase more uniforms while attending the course.

3. It is highly recommended that officers bring computer/laptop and printer as many homework assignments require the use of a computer and printer. There are computer labs in the AMEDD Center and School, but the hours may be limited.

6-8-C20 (MS72A)
MS-NUCLEAR MED SCIENCE OFFICER BASIC (OBLC)

ATRRS Information

Location School Code: 081 **Length: 9 weeks**

Description: AMEDD Officer Basic Course has been redesigned to reflect the applicable portions of Army Basic Officer Leaders Course (BOLC) and is now called AMEDD Officer Basic Leaders Course (OBLC). AMEDD OBLC trains officers to develop: competency to perform officer/Soldier skills to standard; an understanding of Army organizations, operations and procedures; an ability to apply the concepts of Force Health Protection and leader skills, to include an ability to analyze and solve military problems; an ability to communicate, interact and coordinate as a staff member; military survival skills for the contemporary operating environment; and AMEDD-specific training which culminates in a Force Health Protection field training exercise.

This course is required for all Active Duty Nuclear Medical Science Officers (MS 72A). The first 7-weeks of this 9-weeks course are AMEDD common corps training. The remaining 2 weeks are AOC specific training.

Military Education Level (MEL)-G (formerly MEL-7) credit is awarded upon successful completion of the 6-8-C20 (MS 72A) NUCLEAR MEDICAL SCIENCE OFFICER BASIC (OBLC) course for the designated specialty.

Special Information: Area of Concentration (AOC) specific training for Nuclear Medical starts immediately following the 7 weeks AMEDD OBLC common core training and consists of 2 weeks of training.

1. To obtain information about the AMEDD Basic Officer Leader Course, go to http://www.cs.amedd.army.mil/obc/index.htm. This web site contains key information for students to be

successful at OBLC, to include: frequently asked questions (FAQ) page, field packing lists, recommended uniform items, and key dates during the course.

2. Officers will be assigned to A Company, 187th Medical Battalion, Ft Sam Houston, Texas.

3. Officers are to bring their uniforms to Ft Sam Houston; there will be an opportunity to purchase more uniforms while attending the course.

4. It is highly recommended that officers bring computer/laptop and printer as many homework assignments require the use of a computer and printer. There are computer labs in the AMEDD Center and School, but the hours may be limited.

6-8-C20 (MS72BDE)
MS-PUBLIC HEALTH OFFICER BASIC (OBLC)

ATRRS Information

Location School Code: 081 **Length: 9 weeks**

Description: AMEDD Officer Basic Course has been redesigned to reflect the applicable portions of Army Basic Officer Leaders Course (BOLC) and is now called AMEDD Officer Basic Leaders Course (OBLC). This course is required for all Active Duty Public Health Officers (MS 72BDE). The first 7-weeks of this 9-week course are AMEDD common corps training. The remaining 2 weeks are AOC specific training.

Military Education Level (MEL)-G (formerly MEL-7) credit is awarded upon successful completion of the 6-8-C20 (MS 72BDE) MEDICAL SPECIALIST CORPS (MS 72BDE) OFFICER BASIC (OBLC) course for the designated specialty.

Special Information: Area of Concentration (AOC) specific training for Public Health Officers starts immediately following the 7 weeks AMEDD OBLC common core training and consists of 2 weeks of training.

1. To obtain information about the AMEDD Basic Officer Leader Course, go to http://www.cs.amedd.army.mil/obc/index.htm. This web site contains key information for students to be successful at OBLC, to include: frequently asked questions (FAQ) page, field packing lists, recommended uniform items, and key dates during the course.

2. Officers will be assigned to A Company, 187th Medical Battalion, Ft Sam Houston, Texas.

3. Officers are to bring their uniforms to Ft Sam Houston; there will be an opportunity to purchase more uniforms while attending the course.

4. It is highly recommended that officers bring computer/laptop and printer as many homework assignments require the use of a computer and printer. There are computer labs in the AMEDD Center and School, but the hours may be limited.

6-8-C20 (MS72C)
MS-AUDIOLOGY OFFICER BASIC (OBLC)

ATRRS Information

Location School Code: 081 **Length: 9 weeks**

Description: AMEDD Officer Basic Course has been redesigned to reflect the applicable portions of Army Basic Officer Leaders Course (BOLC) and is now called AMEDD Officer Basic Leaders Course (OBLC). AMEDD OBLC trains officers to develop: competency to perform officer/Soldier skills to standard; an understanding of Army organizations, operations and procedures; an ability to apply the concepts of Force Health Protection and leader skills, to include an ability to analyze and solve military problems; an ability to communicate, interact and coordinate as a staff member; military survival skills for the contemporary operating environment; and AMEDD-specific training which culminates in a Force Health Protection field training exercise.

This course is required for all Active Duty Audiology Officers (MS 72C). The first 7 weeks of this 9-week course are AMEDD common corps training. The remaining 2 weeks are AOC specific training.

Military Education Level (MEL)-G (formerly MEL-7) credit is awarded upon successful completion of the 6-8-C20 (MS 72C) AUDIOLOGY OFFICER BASIC (OBLC) course for the designated specialty.

Special Information: Area of Concentration (AOC) specific training for Audiology immediately following the 7 weeks AMEDD OBLC common core training and consists of 2 weeks of training.

1. To obtain information about the AMEDD Basic Officer Leader Course, go to http://www.cs.amedd.army.mil/obc/index.htm. This web site contains key information for students to be successful at OBLC, to include: frequently asked questions (FAQ) page, field packing lists, recommended uniform items, and key dates during the course.

2. Officers will be assigned to A Company, 187th Medical Battalion, Ft Sam Houston, Texas.

3. Officers are to bring their uniforms to Ft Sam Houston; there will be an opportunity to purchase more uniforms while attending the course.

4. It is highly recommended that officers bring computer/laptop and printer as many homework assignments require the use of a computer and printer. There are computer labs in the AMEDD Center and School, but the hours may be limited.

6-8-C20 (MS73AB)
MS-BEHAVIORAL SCIENCE OFFICER BASIC (OBLC)

ATRRS Information

Location School Code: 081 **Length: 9 weeks**

Description: AMEDD Officer Basic Course has been redesigned to reflect the applicable portions of Army Basic Officer Leaders Course (BOLC) and is now called AMEDD Officer Basic Leaders Course (OBLC). AMEDD OBLC trains officers to develop: competency to perform officer/Soldier skills to standard; an understanding of Army organizations, operations and procedures; an ability to apply the concepts of Force Health Protection and leader skills, to include an ability to analyze and solve military problems; an ability to communicate, interact and coordinate as a staff member; military survival skills for the contemporary operating environment; and AMEDD-specific training which culminates in a Force Health Protection field training exercise.

This course is required for all Active Duty Behavioral Science Officers (MS73AB). The first 7-weeks of this 9-week course are AMEDD common corps training. The remaining 2 weeks are AOC specific training.

Military Education Level (MEL)-G (formerly MEL-7) credit is awarded upon successful completion of the 6-8-C20 (MS 73AB) BEHAVIORAL SCIENCE OFFICER BASIC (OBLC) course for the designated specialty.

Special Information: Area of Concentration (AOC) specific training for Behavioral Science officers starts immediately following the 7 weeks AMEDD OBLC common core training and consists of 2 weeks of training.

1. To obtain information about the AMEDD Basic Officer Leader Course, go to http://www.cs.amedd.army.mil/obc/index.htm. This web site contains key information for students to be successful at OBLC, to include: frequently asked questions (FAQ) page, field packing lists, recommended uniform items, and key dates during the course.

2. Officers will be assigned to A Company, 187th Medical Battalion, Ft Sam Houston, Texas.

3. Officers are to bring their uniforms to Ft Sam Houston; there will be an opportunity to purchase more uniforms while attending the course.

4. It is highly recommended that officers bring computer/laptop and printer as many homework assignments require the use of a computer and printer. There are computer labs in the AMEDD Center and School, but the hours may be limited.

6-8-C20(RC)
AMEDD OFFICER BASIC (RC) (OBLC) Phase 2

ATRRS Information

Location School Code: 081 **Length: 3 weeks 4 days**

Description: AMEDD Officer Basic Course (OBC) (RC) (i.e. 6-8-C20 (RC)) has been redesigned to reflect the applicable portions of the Army Basic Officer Leader Course (BOLC) and is now called the AMEDD Officer Basic Leaders Course (AMEDD OBLC) (RC) (6-8-C20 AMEDD Officer Basic Leader Course (RC)). In the future Phase 1 will be conducted as Distance Learning (DL). Currently, there is an exemption for Phase 1 until further notice. Phase 2 is conducted as a 26 day resident course training newly commissioned RC AMEDD officers to function effectively in their first AMEDD duty position.

AMEDD OBLC (RC) trains officers to develop: competency to perform officer/Soldier skills to standard; an understanding of Army organizations operations and procedures; an ability to apply the concepts of Force Health Protection and leader skills to include an ability to analyze and solve military problems; an ability to communicate interact and coordinate as a staff member; military survival skills for the contemporary operating environment; and AMEDD-specific training which culminates in a Force Health Protection field training exercise. Three field training exercises (FTX) are conducted during the course and involve: chemical biological radiological nuclear (CBRN) defense patient evacuation (manual and litter carriers) land navigation MOUT training convoy operations communications weapons training and other Soldier skills. These areas have been determined to be crucial to the mission of the Army to the extent that non-performance in the field might constitute a life-threatening situation or cause mission failure for OBLC graduates and/or their units. Successful completion of the course is required to obtain Military Education Level (MEL)-G (formerly MEL-7) credit and to meet the requirements of Initial Entry Training mandated by Title 10 U.S. Code the completion of which is required before an officer can be deployed outside the Continental United States (OCONUS).

Phase 2 provides leadership and military survival skills training (e.g. weapons training Common Task Training land navigation survival/contemporary operating environment (COE) training military operations on urban terrain (MOUT) and convoy battle drills.) During Phase 2 this student population will be integrated into the field training exercises of AMEDD OBLC culmination in a Force Health Protection field training exercise (FTX).

Special Information:

1. In the future Phase 1 will be conducted as Distance Learning (DL). Currently, there is an exemption for Phase 1 until further notice.

2. Training will be conducted 7 days a week during this 26-day course.

3. Obligated service requirements for Army National Guard (ARNG) officers are governed by AR 135-91 and NGR 351-1.

4. Obligated service requirements for U.S. Army Reserve (USAR) officers are governed by AR 135-91 and by AR 135-200.

5. Registration for the new Phase 1 will be web-based on the Army Learning Management System (ALMS); instructions for registering will be forthcoming. The Army LMS is found at www.us.army.mil my training.

6. Officers are requested to bring their most recent Army Physical Fitness Test Scorecard (DD Form 705) to OBLC.

7. Officers are required to meet height and weight standards IAW AR 600-9. Officers who fail to meet the height and weight standards IAW AR 600-9 will receive an academic evaluation report (DA Form 1059) indicating the following: "Marginally met course standards".

8. To obtain information about the AMEDD Officer Basic Leader Course (RC) go to http://www.cs.amedd.army.mil/obc/index.htm. This web site contains key information for students to be successful at OBLC to include: frequently asked questions (FAQ) page field packing lists recommended uniform items and key dates during the course.

9. Officer will be assigned to A Company 187th Medical Battalion Fort Sam Houston Texas.

6-8-C20 (SP65ABC)
SPEC CORPS (OT/PT/RD) OFFICER BASIC (OBLC)

ATRRS Information

Location School Code: 081 **Length: 8 weeks**

Description: AMEDD Officer Basic Course has been redesigned to reflect the applicable portions of Army Basic Officer Leaders Course (BOLC) and is now called AMEDD Officer Basic Leaders Course (OBLC). AMEDD OBLC trains officers to develop: competency to perform officer/Soldier skills to standard; an understanding of Army organizations, operations and procedures; an ability to apply the concepts of Force Health Protection and leader skills, to include an ability to analyze and solve military problems; an ability to communicate, interact and coordinate as a staff member; military survival skills for the contemporary operating environment; and AMEDD-specific training which culminates in a Force Health Protection field training exercise.

This course is required for all Active Duty OT, PT, RD Officers (SP 65ABC). The first 7-weeks of this 8 week course are AMEDD common corps training. The remaining 1-week is AOC specific training.

Military Education Level (MEL)-G (formerly MEL-7) credit is awarded upon successful completion of the 6-8-C20 (SP 65ABC) SPECIALIST CORPS (OT/PT/RD) OFFICER BASIC (OBLC) course for the designated specialty.

Special Information: Area of Concentration (AOC) specific training for OT/PT/RD officers starts immediately following the 7 weeks AMEDD OBLC common core training and consists of 1 week of training.

1. To obtain information about the AMEDD Basic Officer Leader Course, go to http://www.cs.amedd.army.mil/obc/index.htm. This web site contains key information for students to be successful at OBLC, to include: frequently asked questions (FAQ) page, field packing lists, recommended uniform items, and key dates during the course.

2. Officers will be assigned to A Company, 187th Medical Battalion, Ft Sam Houston, Texas.

3. Officers are to bring their uniforms to Ft Sam Houston; there will be an opportunity to purchase more uniforms while attending the course.

4. It is highly recommended that officers bring computer/laptop and printer as many homework assignments require the use of a computer and printer. There are computer labs in the AMEDD Center and School, but the hours may be limited.

6-8-C20 (SP65D)
SPECIALIST CORPS (PA) OFFICER BASIC (OBLC)

ATRRS Information

Location School Code: 081 **Length: 9 weeks**

Description: AMEDD Officer Basic Course has been redesigned to reflect the applicable portions of Army Basic Officer Leaders Course (BOLC) and is now called AMEDD Officer Basic Leaders Course (OBLC). AMEDD OBLC trains officers to develop: competency to perform officer/Soldier skills to standard; an understanding of Army organizations, operations and procedures; an ability to apply the concepts of Force Health Protection and leader skills, to include an ability to analyze and solve military problems; an ability to communicate, interact and coordinate as a staff member; military survival skills for the contemporary operating environment; and AMEDD-specific training which culminates in a Force Health Protection field training exercise.

This course, 6-8-C20 (SP65D) Specialist Corps Officer Basic (OBLC), is for those SP65D who do not attend Army BOLC 2, Reserve Component Physician Assistants, and all direct commissionees. The first 7-weeks of this 9-week course are AMEDD common corps training. The remaining 2 weeks is AOC specific training.

Military Education Level (MEL)-G (formerly MEL-7) credit is awarded upon successful completion of the 6-8-C20 (SP 65D) SPECIALIST CORPS (PA) OFFICER BASIC (OBLC) course for the designated specialty.

Special Information: Area of Concentration (AOC) specific training for Specialist Corps (PA) officers starts immediately following the 7 weeks AMEDD OBLC common core training and consists of 2 weeks of training.

1. To obtain information about the AMEDD Basic Officer Leader Course, go to http://www.cs.amedd.army.mil/obc/index.htm. This web site contains key information for students to be successful at OBLC, to include: frequently asked questions (FAQ) page, field packing lists, recommended uniform items, and key dates during the course.

2. Officers will be assigned to A Company, 187th Medical Battalion, Ft Sam Houston, Texas.

3. Officers are to bring their uniforms to Ft Sam Houston; there will be an opportunity to purchase more uniforms while attending the course.

4. It is highly recommended that officers bring computer/laptop and printer as many homework assignments require the use of a computer and printer. There are computer labs in the AMEDD Center and School, but the hours may be limited.

6-8-C20 BOLC (SP65D)
SPECIALIST CORPS (PA) OFFICER BASIC (BOLC) Phase 3

ATRRS Information

Location School Code: 081 **Length: 7 weeks**

Description: Army Basic Officer Leader Course (BOLC) consists of three phases.

BOLC 1 encompasses all Army training conducted by the traditional pre-commissioning sources (i.e., U.S. Army Military Academy, Reserve Officer Training Corps, and Officer Candidate School) and provides the foundation of the common skills, knowledge and attributes desired for all officers. Officers completing BOLC 1 receive their commission's onsite.

BOLC 2 (01A-7-C20 Basic Officer Leader) training is designed to ensure a tough, standardized, small-unit leadership experience. The primary mission of this phase is to develop and produce adaptive officers; officers with increased maturity, confidence and competence who share a common bond with their combined arms peers, and who are prepared to lead upon arrival at their first assignment. This training will occur at Ft Benning or Ft Sill.

Currently, the AMEDD has 485 slots each year in Army BOLC 2. All AMEDD officers (both Active and Reserve Component) with Areas of Concentration (AOC) of 70B, 67J, and 65D will attend Army BOLC 2, followed by AMEDD (BOLC) 3. All other AMEDD officers may attend Army BOLC 2 on a space available basis if they meet Army BOLC prerequisites.

BOLC 3 is the branch technical/tactical phase taught at the individual branch schools. This phase, for Army Medical Department (AMEDD) officers, is 6-8-C20 AMEDD (BOLC) 3, taught at the AMEDD Center and School, Ft Sam Houston, Texas.

AMEDD Officers must successfully complete all 3 phases of Army BOLC to obtain Military Education Level (MEL)-G (formerly MEL-7). Completion of this training meets the requirements for Initial Entry Training mandated by Title 10, U.S. Code. This training is required before an officer can be deployed outside the Continental United States (OCONUS) in time of war or a national emergency declared by the Continental United States (OCONUS) in time of war or a national emergency declared by Congress or the President.

Special Information: Area of Concentration (AOC) specific training for Specialist Corps (PA) Officers is two weeks and starts immediately following the 5 weeks of BOLC 3 AMEDD training.

1. To obtain information about the AMEDD BOLC 3, go to http://www.cs.amedd.army.mil/obc/index.htm. This web site contains key information for students to be successful at OBLC, to include: frequently asked questions (FAQ) page, field packing lists, recommended uniform items, and key dates during the course.

2. Officers will be assigned to A Company, 187th Medical Battalion, Ft Sam Houston, Texas.

3. Officers are to bring their uniforms to Ft Sam Houston; there will be an opportunity to purchase more uniforms while attending the course.

4. It is highly recommended that officers bring computer/laptop and printer as many homework assignments require the use of a computer and printer. There are computer labs in the AMEDD Center and School, but the hours may be limited.

6-8-C20 (VC64)
VETERINARY CORPS OFFICER BASIC (OBLC)

ATRRS Information

Location School Code: 081 **Length: 12 weeks**

Description: AMEDD Officer Basic Course has been redesigned to reflect applicable portions of the Army Basic Officer Leader Course (BOLC) and is now called AMEDD Officer Basic Leaders Course (OBLC). AMEDD OBLC trains officers to develop: competency to perform officer/Soldier skills to standard; an understanding of Army organizations, operations and procedures; an ability to apply the concepts of Force Health Protection and leader skills, to include analysis and military problem solving; an ability to communicate, interact and coordinate as a staff member; military survival skills for the contemporary operating environment; and AMEDD-specific training which culminates in a medical field training exercise.

This course is required for all Active Duty Veterinary Officers (VC64). The first 7-weeks of this 12 week course are AMEDD common corps training. The remaining 5 weeks is AOC specific training.

Military Education Level (MEL)-G (formerly MEL-7) credit is awarded upon successful completion of the 6-8-C20 (VC64) VETERINARY CORPS OFFICER BASIC (OBLC) course for the designated specialty.

Special Information: Area of Concentration (AOC) specific training for VC officers starts immediately following the 7 weeks AMEDD OBLC common core training and consists of 5 weeks of training.

1. To obtain information about the AMEDD Basic Officer Leader Course, go to http://www.cs.amedd.army.mil/obc/index.htm. This web site contains key information for students to be successful at OBLC, to include: frequently asked questions (FAQ) page, field packing lists, recommended uniform items, and key dates during the course.

2. Officers will be assigned to A Company, 187th Medical Battalion, Ft Sam Houston, Texas.

3. Officers are to bring their uniforms to Ft Sam Houston; there will be an opportunity to purchase more uniforms while attending the course.

4. It is highly recommended that officers bring computer/laptop and printer as many homework assignments require the use of a computer and printer. There are computer labs in the AMEDD Center and School, but the hours may be limited.

6-8-C22 (DL)
AMEDD CAPTAINS CAREER (DL) Phase 1

ATRRS Information

Location School Code: 555 **Length: 2 weeks 7 days**

Description: The AMEDD CCC is designed to train officers to lead company or equivalent-sized organizations and serve successfully in U.S. Army staff positions. Graduates are prepared for subsequent assignments by learning the leader, tactical, and technical tasks, including the supporting knowledge and skills necessary to support the Joint Team across the full spectrum of military medical operations.

Special Information: Phase 1 consists of 10 modules presented as web-based or in interactive CD ROM format.

Application is made electronically at Internet site: https://www.atrrs.army.mil. Open the SELF DEVELOPMENT training application and follow on-line instructions to enroll in course number 6-8-C22 (DL). Once registration is approved, you will receive an automatic email within 24 hours confirming enrollment.

Access to the course will be available on the Army Learning Management System in AKO, https://www.us.army.mil. Place cursor on the Self Service Tab, select My Training, and the ALMS box will be displayed. Click on the ALMS logo to access. The course will appear under your "Current Enrollments."

Direct inquiries regarding Phase 1 to DSN: 471-5877 or Toll Free: 1-800-344-2380. Phase 1 should be completed within 1 year. Both phases must be completed within 2 years from enrollment in Phase 1. International military students take Phase 1 (6-8-C22(International) in residence in lieu of distance learning.

6-8-C22
AMEDD CAPTAINS CAREER Phase: 2

ATRRS Information

Location School Code: 081 **Length: 9 weeks**

Description: This two-phased course is designed to enhance an officer's military frame of reference and to provide training in military medical service support operations with an overall working knowledge regarding the duties and responsibilities of AMEDD officers during periods of peace and hostilities. The intent is preparation for command and staff positions of greater responsibility.

Special Information: An officer who cannot attend Phase 2 within 24 months of enrollment in Phase 1 must request a waiver. A 1-year waiver may be granted by the Course Director; waiver must be requested no later than 60 days prior to the residence phase. Students must pass Phase 1 and pass the examination on its content. Continuing Medical Education credit is awarded to physicians.

POC: Commandant, Academy of Health Sciences, ATTN: MCCS-HHO, 3151 Scott Rd, Ft Sam Houston, TX 78234-6139 (Leader Training Center)

Phone: COMM: 210-221-7453, DSN: 471-7453

6-8-C22 (RC)
AMEDD CAPTAINS CAREER (RC) Phase 2

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: The AMEDD CCC is designed to train officers to lead company or equivalent-sized organizations and serve successfully in U.S. Army staff positions. Graduates are prepared for subsequent assignments by learning the leader, tactical, and technical tasks, including the supporting knowledge and skills necessary to support the Joint Team across the full spectrum of military medical operations.

Special Information: Travel orders must state San Antonio, TX, NOT Ft Sam Houston, TX. An officer who cannot attend Phase 2 within 24 months of enrollment in Phase 1 must request a waiver. A 1-year waiver may be granted by the Course Director; waiver must be requested no later than 60 days prior to Phase 2.

POC: Commandant, Academy of Health Sciences, ATTN: MCCS-HHO, 3151 Scott Rd, Ft Sam Houston, TX 78234-6139 (Leader Training Center)

Phone: COMM: 210-221-7453, DSN: 471-7453

6-8-C22 (CLC3)
COMBINED LOGISTICS CAPTAINS CAREER COURSE Phase: 3

ATRRS Information

Location School Code: 081 **Length: 5 weeks**

Description: To equip the student with skills and knowledge to perform duties as a company commander in a specific branch as well as a staff officer on a multifunctional logistics staff.

Phase 3 is functional branch training that focuses on field medical doctrine to prepare AMEDD officers for branch command and staff positions or as staff officers in multifunctional logistics positions..

Special Information: Upon successful completion, students will return to Ft Lee, VA for Phase 4 of the course.

6-8-C22 (640A)
AMEDD CAPTAINS CAREER Phase 3

ATRRS Information

Location School Code: 081 **Length: 3 weeks**

Description: This course is designed to enhance an officer's military frame of reference and to provide training in military medical service support operations with an overall working knowledge regarding the duties and responsibilities of AMEDD officers during periods of peace and hostilities. The intent is preparation for command and staff positions of greater responsibility.

Training consists of 3 weeks of advanced technical and tactical skills required of senior Health Services Maintenance Warrant Officers. The training is designed to enhance the tactical and tactical skills at a strategic level. Training will stress medical maintenance and property book operational concepts and principles required for Senior Health Services Maintenance Technicians.

Special Information: There is no special information.

6-8-C22 (670A)
AMEDD CAPTAINS CAREER Phase 3

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: This course is designed to enhance an officer's military frame of reference and to provide training in military medical service support operations with an overall working knowledge regarding the duties and responsibilities of AMEDD officers during periods of peace and hostilities. The intent is preparation for command and staff positions of greater responsibility.

Training consists of 2 weeks of advanced technical and tactical skills required of senior Veterinary Corps Food Safety Officer. The training will stress advanced auditing techniques of food establishments and systems, advanced food processing and preservation, advanced food microbiology, advanced food science, advanced food chemistry, food defense, and systems management.

Special Information: 6-8-C22(640A) Phase 3 of the AMEDD Captains Career Course was added as part of the WOES redesign replacing the 6-8-C32 640A-670A AMEDD Warrant Officer Advanced Course.

6-8-C22 (67J)
AMEDD BR TNG FOR AEROMEDICAL EVAC OFFICERS

ATRRS Information

Location School Code: 081 **Length: 4 weeks 2 days**

Description: To equip the student with skills and knowledge to perform duties as a company commander in a specific branch as well as a staff officer.

Special Information: This course is prerequisite to the 2-1-C22, Aviation Captains Career (School Code 011). Enrollment must be within one year of 6-8-C22 (67J) completion.

6-8-C22 (INTERNATIONAL)
AMEDD CAPTAINS CAREER (INTERNATIONAL)

ATRRS Information

Location School Code: 081 **Length: 7 weeks**

Description: This resident phase provides IMS medical department officers and government civilians with a common knowledge base in preparation for the resident Phase 2.

Special Information: Family members are not encouraged to accompany the student.

6A-F4
AMEDD EXECUTIVE SKILLS

ATRRS Information

Location School Code: 081 **Length: 1 week**

Description: This course provides formal instruction in current and pertinent material designed to prepare new and projected Deputy Commanders for positions within AMEDD, TDA, MEDCENS, MEDDACS, and DENTACS. This course provides Deputy Commanders with management/leadership education and training on information essential to ensuring positive role performance and a reduced time to competency. The course is also designed to provide competency by focusing on a selected number of skills identified as most relevant to their specific positions.

Special Information: There is no special information.

6I-70H
HEALTH SVCS PLANS, OPRS, INTEL, SEC & TNG

ATRRS Information

Location School Code: 081 **Length: 3 weeks**

Description: To provide training in field medical operations and direction or coordination of staff functions pertaining to combat health support plans, operations, intelligence, security, and training.

Special Information: FAX the security clearance memorandum containing the following information to Security Manager, COMM 210-221-6541, DSN: 471-6541, ATTN: Mr. Lewis: personal identifying data (name, rank, SSN, date and place of birth), Organization or assignment, date and level of clearance, date and type of investigation, beginning and end dates of 6I-70H/300-F19 class to be attended.

Human Resources Command may award the 70H Area of Concentration to Medical Service Corps officers upon successful completion of this course and IAW DA Pam 600-4. The course is mandatory for award of the 70H AOC for Active Component personnel and for Reserve Component personnel at battalion level and above. Officers who currently possess the 70H AOC will retain the AOC.

7M-F7
BRIGADE SURGEON

ATRRS Information

Location School Code: 081 **Length: 2 weeks**

Description: The course is designed to emphasize the skills and knowledge needed by individuals assuming the role of Brigade Surgeon. Major areas covered include command and staff duties, responsibilities of the Brigade Surgeon, the organization of a brigade, doctrinal employment of brigade assets, combat service support in a brigade, division-level combat service support, and brigade-level professional development.

Special Information: Course enrollees should complete and submit a Medical Occupational Data Systems (MODS) form in order to obtain a MODS password prior to attending the course. It is necessary for the hands-on MODS training in the curriculum. The MODS ACCESS form is available from the following address:

MODS Support Team ATTN: Information Center Hamaker Court, Suite 300 Fairfax, VA 22031

Phone: COMM: (703) 681-4976/4983 DSN: 761-4976/4983

Submit the form to the same address when completed.

7M-F8
DIVISION SURGEON

ATRRS Information

Location School Code: 081 **Length: 1 week**

Description: The Division Surgeon course is targeted for Medical Corps officers assigned as Division Surgeons. Major areas of instruction include command and staff duties and responsibilities of the Division Surgeon, the organization of a division, doctrinal health service support to a division, and division-level health service support to a division. The course is designed to build upon previous experiences and training received in the Officer Basic Course, the Brigade Surgeon Course, the Officer Advanced Course, and to set the stage for sub- sequent MC education and training in pre-command and senior service college.

Special Information: There is no special information.

7M-F10
AMEDD PRE-COMMAND

ATRRS Information

Location School Code: 081 **Length: 1 week 4 days**

Description: This two-week course is conducted at the U.S. Army Medical Department Center and School (AMEDDC&S), Fort Sam Houston, Texas. The course is designed to fill the needs of lieutenant colonels and colonels who have been selected for command positions as mandated by DA. It ensures a common understanding of current U.S. Army training personnel, logistics and tactical doctrine. Subject course is a portion of a multi-phased program and is preceded by Phase I (correspondence study material provided by Ft Leavenworth) and a 2 week Leavenworth phase. Topics include current issues/trends, Transition to Command, Readiness, Health Services Support, and Training.

Special Information: The Army Command Development Program has three primary phases that must be attended by all command designees and two supplementary phases, if necessary, IAW training requirements. These are self-study phase Command and General Staff College (CGSC); Leavenworth phase administered and conducted at CGSC; branch specialty phase as appropriate at the AMEDDC&S; language phase (when officer has command assignment overseas); and the Senior Officer Legal Orientation (SOLO) phase at the JAG School (for Special Court Martial convening authorities).

7M-F11
FORWARD SURGICAL TEAM COMMANDER COURSE

ATRRS Information

Location School Code: 081 **Length: 5 days**

Description: The course is designed to emphasize the skills and knowledge needed by individuals assuming the role of Forward Surgical Team Commanders. Major areas covered include command and staff duties, responsibilities of the Forward Surgical Team Commander, the organization of a brigade, doctrinal employment of brigade assets, combat service support in a brigade, division-level combat service support, and brigade and

division-level professional development. The course is designed to build upon previous experiences and training received in the Officer Basic Course, the Brigade Surgeon Course, and the Officer Advance Course. It sets the stage for subsequent MC education and training in pre- command and senior service college.

Special Information: There is no special information.

B-600-2312
JOINT MEDICAL PLANNERS

ATRRS Information

Location School Code: 867 **Length: 3 weeks**

Description: To provide necessary training and proficiency in the concepts, procedures and applications of joint medical planning with an emphasis on joint medical issues critical to strategic and operational planning. The class includes the Joint Planning Orientation Course, Medical Analysis Tool training, Service capabilities, and functional areas associated with the production of the Annex Q (Medical) of an operations plan. The course is designed for those medical planners assigned or en route to a Joint, Combined or Service Headquarters medical planners billet at the rank of O-4/5.

Special Information: This three-week course is divided into a two-week Basic Course followed by a one-week Advanced Course.

US ARMY SCHOOL OF AVIATION MEDICINE (USASAM)

https://www.cs.amedd.army.mil/details.aspx?dt=96

2C-F7/300-F10
MEDICAL EVACUATION DOCTRINE

ATRRS Information

Location School Code: 871 **Length: 2 weeks**

Description: This course provides the knowledge and skills to effectively employ the Health Service Support (HSS) system in support of a combat maneuver brigade and the Operational Environment (OE) in full spectrum operations (conventional offensive and defensive campaigns as well as Stability and Civil Support Operations and the continuum of Operations, Joint and Multinational Operations in accordance with (IAW) current doctrine). Employ the evacuation and treatment capabilities, the evacuation system, and medical regulating from the point of injury to the Echelons Above Care (EAC). Upon receiving the knowledge and skills personnel will be able to effectively brief an evacuation mission to include airspace command and control (A2C2), medical asset management, and risk mitigation for HSS in the theater of operations.

Special Information: Warrant officer aviators may be awarded "D" SQI or "H4" ASI to MOS by their career management authority upon completion of this course IAW AR 611-1, para 5-10, and AR 611-21, para 8-21d.

2C-F9/300-F9
HYPOBARIC CHAMBER TRAINING

ATRRS Information

Location School Code: 871 **Length: 1 day**

Description: The course covers effects of atmospheric pressure change, altitude chamber orientation of the oxygen systems, and a chamber exposure at altitude experiencing the effects of hypoxia and limitations of night vision due to oxygen deprivation.

Special Information: All graduates are strongly encouraged to remain overnight before traveling, due to the remote possibility of contracting decompression sickness from the chamber exposure. It is absolutely necessary that the trainee not perform any kind of physical exercise, consume alcohol, or fly at least 12-hours after the chamber exercise. Service member, FAA, and civilian trainee activities will be limited to meals, academics, and sleep.

2C-F11
AEROMEDICAL EVACUATION OFFICER PRE-COMMAND

ATRRS Information

Location School Code: 871 **Length: 1 week 4 days**

Description: Update command selectees on MEDEVAC doctrine, refresh selectees on issues of training management, organizational capabilities, branch perspectives, trends and policies.

Special Information: There is no special information.

300-F6 (DL)
FLIGHT MEDIC Phase 1

ATRRS Information

Location School Code: 871 **Length: 1 week**

Description: The course covers the skills and knowledge's in areas of aviation subjects and basic aircrew skills, aeromedical aspects of aerial flight, applied medical care in flight with special focus on Advanced Basic Trauma Life Support (BLTS), Advanced Cardiac Life Support (ACLS), Pediatric Education for Prehospital

Professionals (PEPP), critical care management of a patient, management and care of a critically ill or wounded casualty in a medical evacuation aircraft platform. Medical skill competencies are at the EMT-I/P level. All tasks encompass skill levels 1, 2, 3, and 4 Soldiers. This distance learning course covers 34 hours of aeromedical and aviation subjects relevant to performing tasks required by a Flight Medic during Phase 2 of the course.

Special Information: Students must attend Phase 2 within 6 months of completion of the distributed learning (DL) phase.

Soldiers holding an Additional Skill Identifier (ASI) of M3, M6, N3, N9, P1, P2, P3 or Y6 are not eligible to attend this training.

The USASAM website http://usasam.amedd.army.mil/_fm_course/index.htm is accessible with a wide variety of information pertaining to the course and the follow-on training for Phase 2.

Students will be automatically enrolled in the web-based instruction of distributed learning (DL) Phase 1 when reservation is made for the resident phase 2.

300-F6
FLIGHT MEDIC Phase 2

ATRRS Information

Location School Code: 871 **Length: 4 weeks**

Description: This course covers the skills and knowledges in areas of aviation subjects and basic aircrew skills, aeromedical aspects of aerial flight, applied medical care in flight with special focus on Advanced Basic Trauma Life Support (BTLS), Advanced Cardiac Life Support (ACLS), Pediatric Education for Pre-hospital Professionals (PEPP), critical care management of a patient, management and care of a critically ill or wounded casualty in a medical evacuation aircraft platform. Medical skill competencies are at the EMT-I/P level. All tasks encompass skill levels 1, 2, 3, and 4 Soldiers.

This phase covers the applied skills and knowledges for medical care in flight.

Special Information: Active Army Soldiers must request training by submitting a DA Form 4187 to Human Resources Command (HRC). A copy of their ERB, current NREMT Certification, current BLS card, current and qualified Class 3 Flying Duty Medical Examination, and DA Form 705 must be received within 90 days of attending the course.

Soldiers holding an Additional Skill Identifier (ASI) of M3, M6, N3, N9, P1, P2, P3, or Y6 are not eligible to attend this training.

All requests for waiver of a prerequisite must be submitted to: CDR, AMEDDC&S, AMEDD Personnel Proponent Directorate, ATTN MCCS-DE, 1400 E Grayson St, Ft Sam Houston, TX 78234-5052.

300-F23
ARMY AVIATION MEDICINE CLINIC NCO COURSE

ATRRS Information

Location School Code: 871 **Length: 2 weeks**

Description: This course covers Army regulatory guidance for Aviation Medicine, the Aviation Medicine Program, Army Flight Surgeon responsibilities and procedures, Army Flying Duty Medical Exam administration, Army Aviation organization and operations, and clinic practices. In an academic and clinical environment, this course strives to provide the essential administrative and clerical aspects unique to Aviation Medicine to facilitate the clinic NCO in the practice of Aviation Medicine.

Special Information: U.S. Army Reserve. Submit DA Form 1058 to Commander, ARPERCEN, ATTN: DARP-OPS-TM, 9700 Page Boulevard, St. Louis, MO 63132-5200, Phase TOLL: 1-800-325-2513 or DSN: 892-2066.

U.S. Army National Guard submits NGB Form 64 through your individual unit to State POTO. For further assistance, call DSN: 327-7349 or COMM: (703) 607-7349.

Applicants with ATRRS reservation for training at Ft Rucker, AL may arrange for BEQ accommodations by calling COMM: (334) 255-3780/2626 or DSN: 558-3780/2626.

6A-61N9D
USA FLIGHT SURGEON (PRIMARY)

ATRRS Information

Location School Code: 871 **Length: 6 weeks**

Description: The course covers Army regulations pertaining to aviation medicine, Army flight surgeon responsibilities and procedures, Army Flying Duty Medical Exam administration, Army aviation organization and operations, rotary wing aerodynamics, aviation safety, aircraft accident investigation, flight physiology, aviation medicine issues of clinical specialties, health service support of aviation units and operations, aeromedical evacuation, and deployment medicine issues of the aviation operation environment.

Special Information: Report date for this course is on a Sunday and start date for course curriculum items is on Monday. Administrative time in the POI exceeds the normal 4 hours per week (or 10 percent of total course hours). For course application, refer to DA Pam 351-4 . Active Duty send request to Human Relations Command (HRC) Branch Managers and submit the application to the following address:

Commander, HRC Health Services Division, ATTN: TAPC-OPH-MC, 200 Stovall St. Alexandria, VA 22332-0417

Phone: COMM: 703-325-2347/2341, DSN: 221-2347/2341

For further assistance, contact the Course Director/NCOIC at COMM: 334-255-06/7448/746 or DSN 558-7306/7448/7467

Reserve Component send requests thru normal command channels/unit training officers.

6A-61N9D (DL)
USA FLIGHT SURGEON REFRESHER COURSE

ATRRS Information

Location School Code: 555 **Length: 1 week 5 days**

Description: This course covers the Army Aviation Medicine Program, Army regulations pertaining to Aviation Medicine, The Commander's and Flight Surgeon's responsibilities in the Aviation Medicine Program, Army Flying Duty Medical Examinations (FDME), Aeromedical Decision Making, Aeromedical Standards, basic Health Records maintenance, the Aeromedical Electronic Resource Office (AERO), DA 4186 (Medical Recommendations for Flying Duty), Aviation Physiology, and the Army Aviation Safety Program.

Only previously qualified Flight Surgeons and Aeromedical Physician Assistants may enroll in this DL course.

Completion of this course in conjunction with prior completion of a Flight Surgeon Course in either the U.S. Navy or U.S. Air Force qualifies a medical officer as a U.S. Army Flight Surgeon and provides the graduate eligibility for the Army Flight Surgeon badge.

Special Information: Students must download all course materials from the FSRC website, http://usasam.amedd.army.mil/FSRC/index.htm. Upon completion of the course, students must go through the ALMS (Army Learning Management Systems) site, to take an online examination in order to receive certification of course completion. Students must have access to a computer and internet hookup in order to participate in this course.

6A-61N9D (RC)(P1)
USA FLIGHT SURGEON (PRIMARY)(RC) Phase: 1

ATRRS Information

Location School Code: 871 **Length: 3 weeks**

Description: This course covers the basics of Army Aviation including aerodynamics, aircraft safety, and crew resource management, as well as Army regulations pertaining to Aviation Medicine, Army Flight Surgeon responsibilities and procedures, Army Flying Duty Medical Exam administration, Army Aviation organization and operations, rotary wing aerodynamics, aviation safety, aeromedical surveillance, and participation in the unit safety program. This course also serves to introduce working in and around Army aircraft to include day and night operations, as well as the principles and practices of aeromedical evacuation. This is a six-week course that involves two separate phases of course lesson content. Each phase spans a 3-week time frame and approximately 120-hours of course instruction. Both of these phases will be taught at USASAM in conjunction with the Flight Surgeon Primary Course, utilizing a large group instructional method of training.

Phase 1 of this course covers the basics of Army Aviation including aerodynamics, aircraft safety, and crew resource management. This phase also serves to introduce working in and around Army aircraft to include day and night operations. The principles and practices of aeromedical evacuation are trained during this phase as well.

Special Information: There is no special information.

6A-61N9D (RC)(P2)
USA FLIGHT SURGEON (PRIMARY)(RC) Phase: 2

ATRRS Information

Location School Code: 871 **Length: 3 weeks**

Description: This course covers the basics of Army Aviation including aerodynamics, aircraft safety, and crew resource management, as well as Army regulations pertaining to Aviation Medicine, Army Flight Surgeon responsibilities and procedures, Army Flying Duty Medical Exam administration, Army Aviation organization and operations, rotary wing aerodynamics, aviation safety, aeromedical surveillance, and participation in the unit safety program. This course also serves to introduce working in and around Army aircraft to include day and night operations, as well as the principles and practices of aeromedical evacuation. Both of these phases will be taught at USASAM in conjunction with the Flight Surgeon Primary Course, utilizing a large group instructional method of training.

Phase 2 of this course covers Army regulations pertaining to Aviation Medicine, Army Flight Surgeon responsibilities and procedures, Army Flying Duty Medical Exam administration, Army Aviation organization and operations, rotary wing aerodynamics, aviation safety, aeromedical surveillance, and participation in the unit safety program.

Special Information: There is no special information.

6A-F1
ARMY AVIATION MEDICINE ORIEN

ATRRS Information

Location School Code: 871 **Length: 2 weeks**

Description: This course covers the Army Aviation Medicine Program, Army regulations pertaining to Aviation Medicine, the Commander's and Flight Surgeon's responsibilities in the Aviation Medicine Program, Army Flying Duty Medical Examinations (FDME), Aeromedical Decision Making, Aeromedical Standards, Aviation Medicine Clinic Organization and management, basic Health Records maintenance and the Aeromedical Electronic Resource Office (AERO).

This course is normally conducted in conjunction with the U.S. Army Flight Surgeon (Primary) Course. When taught with the Flight Surgeon course, this course requires two training weeks.

Completion of this course in conjunction with completion of a Flight Surgeon Course in either the U.S. Navy or U.S. Air Force qualifies a medical officer as a U.S. Army Flight Surgeon.

This course also serves as refresher training for Army Flight Surgeons who have not been performing Flight Surgeon Duties for a period of over five years.

Special Information: U.S. Army Reserve submit DA Form 1058 to Commander, PERSCOM (see ATRRS). Flight Surgeons and Aeromedical Physician Assistants must meet the requirements of AR 616-110 to include possessing a current and qualified Army Class 2 Flying Duty Exam in order to receive full credentialing and privileging actions. This exam must be completed IAW AR 40-501 and received by the approving authority: Army Aeromedical Activity, ATTN: MCXY-A, Ft Rucker, AL 36362, 30 days prior to course start date.

6A-F12/300-F26
JOINT EN ROUTE CARE COURSE

ATRRS Information

Location School Code: 871 **Length: 2 weeks**

Description: This course provides knowledge and skills related to the specialized clinical care of critical casualties during tactical conditions on ground and air medical evacuation platforms, and prepare graduates to recognize and limit the stressors encountered in the transport environment. Medical skill competencies are at the Critical Care Emergency Medical Technician (CCEMT-P) level.

Special Information: Active duty Navy personnel request training through the Navy Operational Medicine Institute (NOMI) located at NAS Pensacola, Florida, COMM: (850) 452-2292. Navy Reservists request training through BUMED at (202) 762-3399.

Requests for waiver of a prerequisite must be addressed to Dean, U.S. Army School of Aviation Medicine, Ft Rucker, AL 36362-5377.

Questions or concerns may be addressed by calling COMM: (334) 255-7464/7457/7460, DSN: 558-7464/7457/7460, or email USASAM.jmercc@se.amedd.army.mil.

Class A uniforms are NOT required. Flight suit is optional for flight training days.

6H-F27
AEROMEDICAL PSYCHOLOGY TRAINING

ATRRS Information

Location School Code: 871 **Length: 3 weeks**

Description: The course covers aviation medicine, flight psychology regulations, psychological issues of flight and combat, aircraft accident investigation, physiological effects of flight, experience a 25,000 foot altitude chamber flight, back seat flight time to include night vision goggles, and MEDEVAC hoist operations training.

Special Information: There is no special information

AMEDD DISTRIBUTED LEARNING (dL)

081-18D
SPECIAL OPERATIONS MED SGT SUST

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: To provide sustainment training to graduates of the resident 18D course.

This is a correspondence course.

Special Information: There is no Special Information.

081-18DPREP
SPECIAL OPERATIONS MED SGT PREP

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: To prepare students who will attend the resident Special Operations Medical Sergeant Course

This is a correspondence course.

Special Information: There is no Special Information.

081-18DSOCM
SPECIAL OPERATIONS COMBAT MEDIC PREP COURSE

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: To prepare students who will attend the resident Special Operations Combat Medic Course.

Special Information: There is no Special Information.

081-6-8-C40(68R30)(DL)
VET FOOD INSPECTION ALC(DL)

ATRRS Information

Location School Code: 555 **Length: 2 weeks**

Description: Provides an opportunity for Soldiers selected for promotion to Sergeant SGT (P) or Staff Sergeants (SSG) to acquire the leader, technical, and tactical skills needed to lead squad size units:

1. Prepare unit and subordinate elements for peace and wartime missions and contingencies.
2. Plan, supervise, and execute tasks and missions assigned to squad size units.
3. Lead, supervise, discipline, train, and develop subordinates.

The lessons are Career Management Field (CMF) 68 in scope as opposed to the United States Army Sergeants Major Academy (USASMA) Stand Alone Common Core (SACC) POI, or MOS-specific.

The following skill level 30: AMEDD MOSs (68A, 68D, 68E, 68G, 68H, 68J, 68M, 68P, 68Q, 68R, 68S, 68T, 68V, and 68X) have 21 hour tracks.

Special Information:

1. This course is under the jurisdiction of the Commandant of the AMEDD NCO Academy, US Army Medical Department Center and School. Students should complete course 6-8-C40 (DL) to receive CMF Student Instructions. Effective 1 October 2004, completion of this internet instruction (46 hours) is a requirement for graduation from, not enrollment in, ALC. When a reservation is made for the CMF 68 phase, the student will be automatically enrolled in the DL instruction and notified via AKO email. Website for this DL instruction is http://ncoa.amedd.army.mil. Students are allowed 6 weeks to complete the 6- 8-C40 (DL) course.

2. Students will self-enroll in the 6-8-C40 (68T30) (DL) 6 months to 1 year prior to selection by the Department of the Army Basic Noncommissioned Officer Education System (NCOES) selection board or RC selection process. This will allow adequate time for registration and delivery of materials as well as completion of lessons and exams.

3. All students must have access to a computer with a CD ROM drive and/or the internet.

4. Recommend commanders/supervisors allow one (1) day per week for studies (8 curriculum hours per week).

081-6-8-C40(68T30)(DL)
ANIMAL CARE ALC(DL)

ATRRS Information

081-68A10
MED EQUIP REPAIRER UNIT LEVEL SUST

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: To provide sustainment training in maintaining and repairing medical equipment.

This is a correspondence course.

Special Information: There is no Special Information.

081-68A30
MED EQUIP REPAIRER ADVANCED SUST

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: To provide sustainment training in maintaining and repairing medical equipment.

This is a correspondence course.

Special Information: There is no Special Information.

081-68D
OPERATING ROOM SPECIALIST SUST

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: To provide instruction in anatomy, surgical procedures, and other skills and knowledge needed by the operating room specialist.

This is a correspondence course.

Special Information: There is no Special Information.

081-68E
DENTAL SPECIALIST SUST

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: To provide instruction in anatomy, oral pathology, radiography, using dental instruments and materials.

This is a correspondence course.

Special Information: There is no Special Information.

081-68G
PATIENT ADMIN SPECIALIST SUST

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: To provide instruction in basic patient administration procedures.

This is a correspondence course.

Special Information: There is no Special Information.

081-68K
MEDICAL LABORATORY SPECIALIST SUST

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: To provide instruction on clinical chemistry, urinalysis, hematology, serology, bacteriology, and parasitology.

This is a correspondence course.

Special Information: There is no Special Information.

081-68M10
HOSP FOOD SVC SPEC BASIC SUST

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: To provide instruction in preparing dietary records and forms, planning meals, and serving food.

Special Information: There is no Special Information.

081-68P
RADIOLOGY SPECIALIST SUST

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: To provide instruction in anatomy, electrical circuits, flouroscopy, radiographic procedures and film processing.

This is a correspondence course.

Special Information: There is no Special Information.

081-68Q
PHARMACY SPECIALIST SUST

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: To provide instruction in chemistry, pharmacology, and dispensing.

This is a correspondence course.

Special Information: There is no Special Information.

081-68R10
VET FOOD INSPEC BASIC SUST

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: To sustain instruction in inspecting subsistence.

This is a correspondence course.

Special Information: There is no Special Information.

081-68R20
VET FOOD INSPEC PREP ADVANCED

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: To provide instruction in inspection procedures and other subjects in order to prepare prospective students for the resident AMEDD NCO Basic Noncommissioned Officer Course (ALC) 6-8-c40 (91R technical training).

This is a correspondence course.

Special Information: There is no Special Information.

081-68S
PREVENTIVE MEDICINE SPECIALIST SUST

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: To provide instruction in sanitation, environmental health inspections and pest control.

This is a correspondence course.

Special Information: There is no Special Information.

081-68VPREP
RESPIRATORY SPECIALIST PREP

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: To provide preparation for Active and Reserves Components students planning to attend the Respiratory Specialist Course (300-91V10). Students are stronglyencourged to complete the preparatory course prior to attending the resident course.

This is a correspondence course.

Special Information: There is no Special Information.

081-68W10
HEALTHCARE SPECIALIST SUST

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: To provide instruction in basic emergency medical treatment and basic patient care skills.

This is a correspondence course.

Special Information: There is no Special Information.

081-68W20/30
HEALTHCARE NCO SUST

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: To provide sustainment training for medical tasks in the AMEDD NCO Basic (NCOES) (ALC) Course, 6-8-C40 (68B).

This is a correspondence course.

Special Information: There is no Special Information.

081-68WM6
PRACTICAL NURSE ASI SUST

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: To provide sustainment training for those personnel already qualified in MOS 68C.

This is a correspondence course.

Special Information: There is no Special Information.

081-68WM6PREP
PRACTICAL NURSE ASI PREP

ATRRS Information

This is a correspondence course.

Special Information: There is no Special Information.

081-CBRNE BWP
BIOLOGICAL WARFARE PREPAREDNESS FOR HLTHCARE

ATRRS Information

Location School Code: 555 **Length: 1 week**

Description: This course is designed to enhance a healthcare provider's frame of reference and provide biological warfare preparedness for healthcare providers in a Chemical, Biological, Radiological, Nuclear, and Explosives (CBRNE) environment during peace and hostilities. The program provides healthcare providers an overall working knowledge of biological warfare preparedness in a CBRNE environment.

Special Information: The Biological Warfare Preparedness for Healthcare Providers Course consists of 33 modules presented in a web-based environment through the Army Learning Management System. Application is made electronically at Internet site: www.atrrs.army.mil. Open the SELF-DEVELOPMENT training application and follow the on-line instructions to enroll in course number 081-CBRNE-BWP (DL). Upon successful completion of all required modules, a Certificate of Completion will be awarded.

081-CBRNE CONWP
CONV WARFARE PREPAREDNESS FOR HLTHCARE

ATRRS Information

Location School Code: 555 **Length: 1 week**

Description: This course is designed to enhance a healthcare provider's frame of reference and to provide training in conventional warfare preparedness for healthcare providers in a CBRNE environment during periods of peace and hostilities. This phase provides healthcare providers with an overall working knowledge of conventional warfare preparedness for healthcare providers in a CBRNE environment.

Special Information: The Conventional Warfare Preparedness for Healthcare Providers Course consists of 20 modules presented in a web-based environment through the Army Learning Management System. Application is made electronically at Internet site: www.atrrs.army.mil. Open the SELF-DEVELOPMENT training application and follow on-line instructions to enroll in course number 081-CBRNE-CONWP (DL). Upon successful completion of all required modules, a Certificate of Completion will be awarded.

081-CBRNE CWP
CHEM WARFARE PREPAREDNESS FOR HLTHCARE PROVID

ATRRS Information

Location School Code: 555 **Length: 1 week**

Description: This course is designed to enhance a healthcare provider's frame of reference and provide chemical warfare preparedness for healthcare providers in a CBRNE environment during peace and hostilities. The program provides healthcare providers an overall working knowledge of chemical warfare preparedness in a CBRNE environment.

Special Information: The Chemical Warfare Preparedness for Healthcare Providers Course consists of 26 modules presented in a web-based environment through the Army Learning Management System. Application is made electronically at Internet site: www.atrrs.army.mil Open the SELF-DEVELOPMENT training application and follow on-line instructions to enroll in course number 081-CBRNE-CWP (DL). Upon successful completion of all required modules, a Certificate of Completion will be awarded.

081-CBRNE HOSP ADM
HOSP ADMINISTRATORS HOMELAND SECURITY COURSE

ATRRS Information

Location School Code: 555 **Length: 1 week**

Description: This course is designed to enhance a hospital administrator's frame of reference and to provide training in Homeland Security and Hospital Administration in a CBRNE environment during periods of peace and hostilities. This phase provides hospital administrators with a common knowledge base in preparation for subsequent courses in CBRNE preparedness.

Special Information: The Hospital Administrators Homeland Security Course consists of 29 modules presented in a web-based environment through the Army Learning Management System. Application is made electronically at Internet site: www.atrrs.army.mil. Open the SELF-DEVELOPMENT training application and follow on-line instructions to enroll in course number 081-CBRNE-HOSP ADM (DL). Upon successful completion of all required modules, a Certificate of Completion will be awarded.

081-CBRNE HPC
HOSPITAL CBRNE PREPAREDNESS COURSE

ATRRS Information

Location School Code: 555 **Length: 1 week**

Description: This course is designed to enhance a hospital staff member's frame of reference and to provide training in hospital CBRNE preparedness in a CBRNE environment during periods of peace and hostilities. This phase provides hospital staff members with common knowledge base in preparation for subsequent courses in CBRNE preparedness.

Special Information: The Hospital CBRNE Preparedness Course consists of 29 modules presented in a web-based environment through the Army Learning Management System. Application is made electronically at Internet site: www.atrrs.army.mil. Open the SELF-DEVELOPMENT training application and follow on-line instructions to enroll in course number 081-CBRNE-HPC (DL). Upon successful completion of all required modules, a Certificate of Completion will be awarded.

081-CBRNE NWP
NUCLEAR WARFARE PREPARD FOR HLTHCARE PROVIDER

ATRRS Information

Location School Code: 555 **Length: 1 week**

Description: This course is designed to enhance a healthcare provider's frame of reference and to provide training in nuclear warfare preparedness in a CBRNE environment during periods of peace and hostilities. This course provides healthcare providers with a common knowledge base in preparation for subsequent courses in CBRNE preparedness.

Special Information: The Nuclear Warfare Preparedness for Healthcare Providers Course consists of 22 modules presented in a web-based environment through the Army Learning Management System. Application is made electronically at Internet site: www.atrrs.army.mil. Open the SELF-DEVELOPMENT training application and follow on-line instructions to enroll in course number 081-CBRNE-NWP (DL). Upon successful completion of all required modules, a Certificate of Completion will be awarded.

081-CBRNE-W
INTRODUCTION TO CBRNE

ATRRS Information

Location School Code: 555 **Length: 1 day**

Description: This lesson is an introduction to chemical agents, biological agents, radiological agents, nuclear devices, explosive devices (CBRNE). The purpose is to provide an understanding of CBRNE threats and the AMEDD's role in supporting domestic response to CBRNE terrorist incidents. Completion of this course is mandatory for all individuals attending Professional Postgraduate Short Course (PPSCP).

Special Information: After submission of the application at Internet site: http://www.atrrs.army.mil, go to Internet site: http://www.swankhealth.com to take the instruction. Completion of the course at this site will result in credit for course completion.

081-EMPA
EMERGENCY MEDICINE PA BASIC STUDIES

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: To direct the Physician Assistant toward the level of professional, competence required to function in the area of medical treatment. This is an independent study program. Student must provide text Emergency Medicine, A Comprehensive Study Guide, American College of Emergency Physicians, sixth edition.

Special Information: There is no Special Information.

081-ENHANC
COMBAT LIFESAVER ENHANCEMENT

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: To provide enhancement training for combat lifesavers.

This is a correspondence course.

Special Information: There is no Special Information.

081-FSTCC
FIELD SANITATION TEAM TRAINING

ATRRS Information

Location School Code: 555 **Length: 1 week**

Description: There is no description available at this time; please review https://www.atrrs.army.mil/ for updated information.

Special Information: There is no special information available at this time; please review https://www.atrrs.army.mil/ for updated information.

081-MD0001
EVACUATION IN THE FIELD

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: One-man and two-man manual carries, transporting patients on litters, improvising litters, loading patients into field ambulances and converted military vehicles, loading patients into air ambulances and requesting aeromedical evacuation.

Special Information: There is no special information.

081-MD0002
HLTH SVC SPT IN A THEATER OF OPNS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Army forces within a theater; organization of a division; medical support of divisions, corps, and the communications zone; and aeromedical evacuation.

Special Information: There is no special information.

081-MD0004
ORGANIZATION & FUNCTIONS OF THE AMEDD

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Mission and composition of the Army Medical Department (AMEDD); organization of medical centers and Medical Department activities; and the histories and functions of the six officer medical corps.

Special Information: There is no special information.

081-MD0006
BASIC HUMAN ANATOMY

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Introduction to basic human anatomy. Tissues of the body. Structure and structural relationships within the following human systems: integumentary and facial, skeletal, muscular, digestive, respiratory, urogenital, cardiovascular, lymphatic, endocrine, and nervous systems.

Special Information: There is no special information.

081-MD0007
BASIC HUMAN PHYSIOLOGY

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Introduction to basic human physiology. Physiology of cells and miscellaneous tissues. Envelopes of the body. Physiology of the following human systems: skeletal, muscular, digestive, respiratory, urinary, reproductive, cardiovascular, endocrine, and nervous systems. The special senses. Elementary human genetics.

Special Information: There is no special information.

081-MD0008
INTRO TO MILITARY PREVENTIVE MEDICINE

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Disease problems of military units and preventive medicine resources in field operations and fixed installations; medical aspects of water supply and principles of water purification; waste disposal procedures for military units; field water purification and waste disposal procedures; and improvised field sanitary devices.

Special Information: There is no special information.

081-MD0010
BASIC MEDICAL TERMINOLOGY

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: A study of basic medical terms. A programmed text defining the most common stems, prefixes, and suffixes used to build a medical vocabulary.

Special Information: There is no special information.

081-MD0029
INTRO OF MEDICAL LOGISTICS MANAGEMENT

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Basic principles and organization or medical supply; the Federal Supply Catalog and other medical supply publications; property control at unit/organization level.

Special Information: There is no special information.

081-MD0033
TORT LAW/FED TORT CLAIMS ACT/GENEVA CON

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Nature of tort liability and the Federal Tort Claims Act in the military-medical situation; duties, responsibilities and rights placed on combatants and noncombatants by the Geneva Convention.

Special Information: There is no special information.

081-MD0057
AMEDD COMPUTER LITERACY I

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: History of computers, computer components and functions, and how computer systems work; designed to develop knowledge of computers rather than hands-on skill in actual operation.

Special Information: There is no special information.

081-MD0058
AMEDD COMPUTER LITERACY II

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Binary code, program design, business and Healthcare applications, future trends, safety, and personal comfort; designed to develop computer literacy rather than hands-on skill.

Special Information: There is no special information.

081-MD0062
INTRO TO QUALITY ASSURANCE

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Key terms, functions of equipment used in quality control testing in a radiology laboratory, and the major aspects of a quality control system.

Special Information: There is no special information.

081-MD0064
INTRO TO RADIOGRAPHY

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: The history of X-rays, the Healthcare delivery system, hospital organization, radiology department organization, accreditation and credentialing and means of self-development.

Special Information: There is no special information.

081-MD0066
HEALTHCARE ETHICS I

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Ethically and legally appropriate behavior for Healthcare professionals, the role of ethics in Healthcare, legal doctrines that affect Healthcare; tort law, negligence, and patient consent.

Special Information: There is no special information.

081-MD0067
HEALTHCARE ETHICS II

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: There is no description available at this time; please review https://www.atrrs.army.mil/ for updated information.

Special Information: There is no special information available at this time; please review https://www.atrrs.army.mil/ for updated information.

081-MD0150
ARMY PREV MED UNITS/ORG/ACTIVITIES

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Organization of the AMEDD; the Army Preventive Medicine Program; organization of preventive medicine in the field and at MEDACs and MEDCENs; agencies offering support services to the Army Preventive Medicine Program.

Special Information: There is no special information.

081-MD0151
PRINCIPLES OF EPIDEMIOLOGY/MICROBIOLOGY

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Introduction to disease transmission; basic terminology and principles of epidemiology; fundamentals of microbiology; structure of the cell; morphology and physiology of bacteria, viruses, rickettsiae, fungi, protozoa and helminths; practical application of microbiology in environmental health.

Special Information: There is no special information.

081-MD0152
DISEASES OF MILITARY IMPORTANCE

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Epidemiology, prevention and control of selected diseases of military importance; prevention of injuries due to environmental extremes; the Army immunization program.

Special Information: There is no special information.

081-MD0160
MILITARY WATER SUPPLY

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Responsibilities for military water supply; sources, characteristics, and quality standards for drinking water; chemical and bacteriological tests on water; principles and methods of water treatment and distribution to include field water purification; protection of water supply sources and systems.

Special Information: There is no special information.

081-MD0161
WASTEWATER TREATMENT

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Fundamentals for the treatment and disposal of wastewater; applications for both military installations and field facilities, including construction and operations.

Special Information: There is no special information.

081-MD0162
SOLID WASTE DISPOSAL

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Responsibilities for and public health significance of solid waste disposal at military installations; types of solid waste generated at large and small installations and methods of collection and disposal; solid wastes generated in the field and methods and devices for their disposal; role of the preventive medicine specialist in solid waste disposal.

Special Information: There is no special information.

081-MD0164
ENVIRONMENTAL HLTH INSPEC SURVEYS I

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Introduction to environmental health inspections; inspection procedures and public health aspects of troop housing, mobile home parks, and barber and beauty shops.

Special Information: There is no special information.

081-MD0165
OCCUPATIONAL HLTH & INDUSTRIAL HYGIENE

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: An introduction to the science and art of preserving health through the recognition, evaluation, and control of environmental causes and sources of occupational health hazards in the workplace, to include occupational diseases and hazards, criteria, industrial hygiene principles, sampling, personal protective equipment and engineering control methods.

Special Information: There is no special information.

081-MD0166
ENVIRONMENTAL HLTH INSPEC SURVEYS II

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Environmental health inspections procedures and the public health aspects of swimming pools, childcare centers, icehouses, and various public use facilities.

Special Information: There is no special information.

081-MD0170
ARTHROPOD IDENTIFICATION SURVEYS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Biology and life cycles of medically important arthropods; types and methodology of arthropod surveys; collection, mounting, and identification of arthropods to evaluate actual or potential military importance of suspected infestations; field identification and sorting of medically important arthropods; preservation, mounting and shipping techniques; mosquito larval taxonomy and malaria survey technique.

Special Information: There is no special information.

081-MD0171
ARTHROPOD CONTROL

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Control procedures for the major group of medically important arthropods with emphasis on the preventive environmental means available for specific groups. in-depth discussion of manual and power pest control equipment its nomenclature, uses, operation and maintenance.

Special Information: There is no special information.

081-MD0172
RODENT BIOLOGY SURVEY & CONTROL

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Biology and life history of principal domestic rodents; military medical and economic importance; identification and survey techniques; sanitary, environmental, physical, and chemical control measures.

Special Information: There is no special information.

081-MD0173
PESTICIDES IN THE MILITARY

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Classification of pesticides and their physiological effects on pests and man; pesticide formulations, mixing, and dilution calculations; proper methods of storage, handling, and disposal of pesticides; toxicity and first aid; impact of pesticides on the environment.

Special Information: There is no special information.

081-MD0174
ORG OF PEST MGMT OPERATIONS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Organizational responsibilities of the Commander for supervision, execution and evaluation for installation pest control operation; pest control during military operation; support procedures of pest control operation.

Special Information: There is no special information.

081-MD0180
RADIOLOGICAL HEALTH

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: There is no description available at this time; please review https://www.atrrs.army.mil/ for updated information.

Special Information: There is no special information available at this time; please review https://www.atrrs.army.mil/ for updated information.

081-MD0181
FOOD SVC SANITATION & INSP I

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Microorganisms causing foodborne disease, environmental conditions ideal for their growth, and common foodborne diseases. Discussion of the factors causing foodborne disease outbreaks in the field and in garrison and related sanitary measures to prevent foodborne disease.

Special Information: There is no special information.

081-MD0182
FOOD SVC SANITATION & INSP II

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Areas of a food service facility examined during an inspection and the major items to inspect in each area.

Special Information: There is no special information.

081-MD0320
LOGISTICS AGENCIES SPT THE US ARMY

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: History, organization mission, and concept of operations of the Defense Logistic Agency of the U.S. Army Material Command; relationships among supply agencies from Inventory control points through organizational elements.

Special Information: There is no special information.

081-MD0321
SUPPLY PUBLICATIONS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: This subcourse covers indexes to publications (DA Pam 25-30) and the methods of obtaining supply publications; the function of the Federal Catalog System. Including DoDand DA Supply Catalog; Army Supply Bulletins; the numbering system for equipment technical manuals; and the methods of locating repair parts identification data.

Special Information: There is no special information.

081-MD0322
REQUIREMENTS/AUTHORIZATION DOCUMENTS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Requirements and authorization documents used by TOE and TSDA units. Explanation of contents and use of TOE's, MTOE', TDA's and CTA's/ The army Authorization Documents System (TAADS).

Special Information: There is no special information.

081-MD0328
INVENTORY MGMT I

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Introduction to formal stock accounting procedures, procedures for computing stockings levels, and the policies and procedures for the operation of an Installation Medical Supply Activity.

Special Information: There is no special information.

081-MD0329
INVENTORY MGMT II

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Military Standards Requisitioning and Issue Procedures (MILSTRIP), adjustments and inventory procedures and the procedures used to measure the performance of a medical supply account.

Special Information: There is no special information.

081-MD0333
FINANCIAL INVENTORY MGMT

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: General concepts, systems and procedures of financial management and their impact on supply management, to include stock fund concepts and organization' SF obligation authority; cash and stock fund budget review and analysis' and computer, generated financial reports.

Special Information: There is no special information.

081-MD0334
STORAGE MGMT-INSTALL & DEPOT LVL 1

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Storage management techniques at installation and depot levels; the purpose and classes of storage; types of storage facilities; configuration of storage requirements; storage problems; space planning, controlling, and reporting; bin organization, operation and replenishment; stock location system; inventory procedures; and trends in physical distribution.

Special Information: There is no special information.

081-MD0335
STORAGE MGMT-INSTALL & DEPOT LVL II

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Basic principles of receiving and shipping operations; the fundamentals of material preservation; packing and in-storage care; special storage consideration; material handling equipment; safety; and the Hazard Communication Program.

Special Information: There is no special information.

081-MD0339
LOG ORG THEATER OF OPNS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Introduction to theater of operation (TO); position of the TO in theater of war support command organization, mission, employment, control, capabilities, and limitations; and supply, maintenance, and service missions of the TAACOM material command, as well as, field depot mission, organization, and operations.

Special Information: There is no special information.

081-MD0351
RADIOGRAPHIC X-RAY

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Perform preventive maintenance checks and services (PMCS), isolate malfunctions and replace defective modules on radiographic X-ray unit.

Special Information: There is no special information.

081-MD0353
ANESTHESIA APPARATUS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Perform preventive maintenance checks and services (PMCS), isolate malfunctions and replace defective modules on an anesthesia apparatus.

Special Information: There is no special information.

081-MD0354
SURGICAL DRESSING STERILIZER

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Perform preventive maintenance checks and services (PMCS), isolate malfunctions and replace defective modules on a surgical dressing sterilizer.

Special Information: There is no special information.

081-MD0355
PORTABLE VENTILATOR

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Perform preventive maintenance checks and services (PMCS), isolate malfunctions and replace defective modules on a portable ventilator.

Special Information: There is no special information.

081-MD0356
ELECTRICAL SAFETY

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Perform electrical safety checks on medical equipment.

Special Information: There is no special information.

081-MD0357
BASIC SUPPLY PROCEDURES

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Complete basic supply forms and utilize supply procedures.

Special Information: There is no special information.

081-MD0358
MED MAINTENANCE & SUP PROC

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Utilize prescribed load list (PLL) and maintain equipment maintenance forms.

Special Information: There is no special information.

081-MD0359
X-RAY FILM PROCESSORS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Perform preventive maintenance checks and services (PMCS), verify calibration and replace defective modules on an x-ray film processor.

Special Information: There is no special information.

081-MD0361
DEFIBRILLATOR & MONITOR

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Perform preventive maintenance checks and services (PMCS), verify calibration, isolate malfunctions and replace defective modules on a dental inter-oral x-ray unit.

Special Information: There is no special information.

081-MD0362
ELECTROSURGICAL APPARATUS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Perform preventive maintenance checks and services (PMCS), isolate malfunctions and replace defective modules on an electrosurgical apparatus.

Special Information: There is no special information.

081-MD0363
ELECTROSURGICAL APPARATUS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Perform preventive maintenance checks and services (PMCS), isolate malfunctions and replace defective modules on an electrosurgical apparatus.

Special Information: There is no special information.

081-MD0365
SUCTION & PRESSURE APPARATUS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Perform preventive maintenance checks and services (PMCS), and isolate malfunctions on a high volume suction/pressure apparatus; perform PMCS, isolate malfunctions and replace defective modules on a programmable suction pump.

Special Information: There is no special information.

081-MD0366
COMPRESSOR

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Perform preventive maintenance checks and services (PMCS), verify calibration, isolate malfunctions and replace defective modules on a compressor.

Special Information: There is no special information.

081-MD0367
REFRIGERATOR & FIELD SINK

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Perform preventive maintenance checks and services (PMCS), isolate malfunctions and replace defective modules on a refrigerator; perform PMCS on a field sink.

Special Information: There is no special information.

081-MD0368
LABORATORY CENTRIFUGE

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Perform preventive maintenance checks and services (PMCS), verify calibration, isolate malfunctions and replace defective modules on a laboratory centrifuge.

Special Information: There is no special information.

081-MD0370
OPERATING ROOM TABLE

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Isolate malfunctions and replace defective modules on an operating room table.

Special Information: There is no special information.

081-MD0371
DENTAL CHAIR, STOOL & DENTAL OPERATING

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Perform preventive maintenance checks and services (PMCs), isolate malfunctions and replace defective modules on a dental chair and stool unit and on a dental chair.

Special Information: There is no special information.

081-MD0373
DENTAL CHAIR (JSA-R)

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Perform preventive maintenance checks and services (PMCS), isolate malfunctions, and replace defective modules on a dental chair.

Special Information: There is no special information.

081-MD0381
SINGLE PHASE X-RAY SYSTEMS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Verify calibration, isolate malfunctions and replace defective modules on a single-phase x-ray unit.

Special Information: There is no special information.

081-MD0383
ELECTROSURGERY UNITS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Isolate malfunctions and replace defective modules on an electrical surgical unit.

Special Information: There is no special information.

081-MD0387
DIAGNOSTIC ULTRASOUND SYSTEMS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Perform preventive maintenance checks and services (PMCS) and verify calibration of a diagnostic ultrasound system.

Special Information: There is no special information.

081-MD0388
DRY CHEMISTRY ANALYZER

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Perform preventive maintenance checks and services (PMCS) and verify calibration of a dry chemistry analyzer.

Special Information: There is no special information.

081-MD0501
DENTAL ANATOMY & PHYSIOLOGY

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Human anatomy in general; oral anatomy to include teeth, mandible, maxilla, muscles, glands, and joints; anatomy of permanent maxillary and mandibulas teeth.

Special Information: There is no special information.

081-MD0502
DENTAL MATERIALS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Composition, properties, and characteristics of dental materials; and principles of manipulation of these materials

Special Information: There is no special information.

081-MD0503
DENTAL INSTRUMENT SETUP

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Recognition, care, use and setup of instruments for basic examination, anesthesia, restoration, surgery, periodontics, endondontics, and prosthodontics

Special Information: There is no special information.

081-MD0504
INTR TO DEN PROSTHODONTIC LAB

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: General considerations of the dental laboratory; dental laboratory materials and their use

Special Information: There is no special information.

081-MD0508
DENTAL SERVICES ADMIN

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Organization of the Dental Corps, dental service in a theater of operations, career management of dental MOSs, dental clinic management, commonly used forms and procedures for completion of the Dental Health Record (SF 603).

Special Information: There is no special information.

081-MD0509
INFECTION CONTROL & DRUGS IN DENTAL

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Procedures for protection against infection; sterilization, disinfection, and storage; drug commonly used in dentistry.

Special Information: There is no special information.

081-MD0510
GENERAL DUTIES OF THE DENTAL SPEC

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Attributes of a good dental specialist; clinical routine, administrative functions, and supply procedures; team approached in four-handed dentistry.

Special Information: There is no special information.

081-MD0511
ORAL & MAXILLOFACIAL PATHOLOGY

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Diseases of hard and soft tissues of the mouth and teeth.

Special Information: There is no special information.

081-MD0512
DENTAL RADIOGRAPHY

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Principles of dental radiography, hazards and safety precautions; production of dental radiographs anatomical landmarks; radiograph exposure techniques.

Special Information: There is no special information.

081-MD0513
PREVENTIVE DENTISTRY

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Fundamental concepts of the Preventive Dentistry Program and the clinical and home-care procedures used in administering the Program. Technical nomenclature used in the oral examination, prophylaxis, fluoridation, and education of the dental patient.

Special Information: There is no special information.

081-MD0520
QUALITY CARE: PATIENT RELATIONS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Changes experienced as a result of illness/hospitalization; stages of illness; beside manner; the angry patient; family members of patients; active listening; nonverbal communication; interviewing patients' rights.

Special Information: There is no special information.

081-MD0531
TAKING VITAL SIGNS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Procedures for taking and recording a patient's temperature, pulse, respiration and blood pressure.

Special Information: There is no special information.

081-MD0532
CPR

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Performing rescue breathing and cardiopulmonary resuscitation (CPR) on adults, children, and infants. Removing upper airway obstruction in adult, children and infants

Special Information: There is no special information.

081-MD0533
TREATING FRACTURES IN THE FIELD

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Applying splints to the upper and lower extremities. Applying traction splints. Immobilizing a casualty with a suspected spinal fracture.

Special Information: There is no special information.

081-MD0534
TREATING CHEM & BIO AGENT CASUALTIES

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Types of chemical and biological agents. Treating yourself for exposure to nerve agents. Treating casualties exposed to chemical (nerve, blood, blister, and choking) agents.

Special Information: There is no special information.

081-MD0535
COMMUNICABLE DISEASES & FLD SANI

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Types of communicable diseases and methods of transmission. Preventive measures including field water treatment, food storage and preparation, disposal of human and liquid wastes, disposal of garbage and rubbish, and control of arthropods and rodents.

Special Information: There is no special information.

081-MD0537
DECONTAMINATING CASUALTIES

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Establishing a hot line, decontaminating casualties exposed to chemical agents and routing chemical agent casualties through a battalion aid station.

Special Information: There is no special information.

081-MD0540
STERILE PROCEDURES

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Medical and surgical asepsis; sterile technique; changing sterile dressings; irrigating a wound; obtaining a wound culture; and isolation procedures.

Special Information: There is no special information.

081-MD0542
MGMT OF PATIENTS W/RESPIRATORY DYSF

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Use of oral pharyngeal airways (J-tube) and bag-valve-mask (BVM) devices; oral and nasotracheal suctioning; preparing an oxygen cylinder for use; and administering oxygen using nasal prongs and facemask

Special Information: There is no special information.

081-MD0547
EYE, EAR, NOSE INJURIES

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Treatment of eye, ear and nose injuries. Includes irrigating an eye, removing foreign objects in the eye, treating burns, applying ointment, irrigating an ear, and treating nosebleed.

Special Information: There is no special information.

081-MD0548
ENVIRONMENTAL INJURIES

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Treatment of heat injuries, cold injuries, snakebites, insect bites and stings, and plant contact dermatitis.

Special Information: There is no special information.

081-MD0549
PSYCHOSOCIAL ISSUES

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Substance abuse, providing initial care for a casualty suffering from combat stress reaction, applying restraining devices, referring for treatment a potentially suicidal patient, managing behavioral emergencies, identifying the physical and emotional characteristics associated with death and dying and providing postmortem care.

Special Information: There is no special information.

081-MD0550
RETURN TO DUTY

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Performing a basic physical assessment, treating common headaches and toothaches, providing symptomatic relief for common cold, treating common skin problems, and initiating measures to prevent the spread of common, communicable diseases.

Special Information: There is no special information.

081-MD0552
ADMIN OF IM, SC AND IM INJECTIONS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Administering the three types of injections and immunizations.

Special Information: There is no special information.

081-MD0553
IV INFUSIONS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Intravenous infusions and managing patients with IVs. Obtaining blood specimens and managing patients with anaphylactic shock.

Special Information: There is no special information.

081-MD0554
TREATING WOUNDS IN THE FIELD

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Controlling bleeding using field dressings, pressure dressings, pressure points, and tourniquets. Treating head, chest and abdominal injuries. Treating burns, hypovolemic shock and soft tissue injuries. Applying bandages.

Special Information: There is no special information.

081-MD0556
BASIC PATIENT CARE PROC

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Making a patient's bed; bathing a patient; moving and positioning a patient; and performing routine patient hygiene.

Special Information: There is no special information.

081-MD0560
ROLE OF THE MED NCO

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Intro to the Medical NCO Correspondence Course and the art/sciences of good leadership. Principles of effective military instruction; role of the instructor; principles of education and techniques of effective study. Improving speech habits, questioning techniques, use of training aids and using demonstrations. Determining training needs, preparations to conduct training and the process of conducting/evaluating training.

Special Information: There is no special information.

081-MD0564
BLOOD, ELECTROLYTES & IV INFUSIONS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Blood factors and their function during trauma; blood types/groups and their bearing on transfusions. Kinds of body fluids; normal and abnormal body fluid conditions; functions of electrolytes in homeostasis. Kinds of fluids suitable for intravenous infusion and their uses; special requirements for transfusions; infusion procedures and equipment; uses of the venous cutdown procedure.

Special Information: There is no special information.

081-MD0568
RESPIRATORY DISEASS & DISORDERS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Describes the anatomy and physiology of the respiratory system; physical assessment of the respiratory system; infectious respiratory diseases; chronic obstructive pulmonary diseases; respiratory disorders; and tuberculosis.

Special Information: There is no special information.

081-MD0569
CHEST & AIRWAYS PROBLEMS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Chest trauma, airway management with an esophageal obturator airway and with an endotracheal tube. Procedures necessary to perform a cricothyrotomy.

Special Information: There is no special information.

081-MD0571
CARDIAC IMPAIRMENT

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Explains basic cardiac life support, dysrhythmia recognition and treatment, and cardiac arrest.

Special Information: There is no special information.

081-MD0572
THE CENTRAL NERVOUS SYSTEM

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Anatomy and physiology of the central nervous system. Physical assessment of the central nervous system; central nervous system diseases and disorders; seizures; and central nervous system trauma.

Special Information: There is no special information.

081-MD0574
SURGICAL METHODS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Describes Minor surgical procedures, wound closure and sutures; and emergency surgical procedures.

Special Information: There is no special information.

081-MD0575
THE INTEGUMENTARY SYSTEM

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Anatomy and physiology of the integumentary system, physical assessment of the integumentary system; primary and secondary skin lesions; common skin diseases and dermatological drugs.

Special Information: There is no special information.

081-MD0576
WOUND CARE

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Wound healing and wound care; contaminated burns; and burns.

Special Information: There is no special information.

081-MD0577
THE MUSCULOSKELETAL SYSTEM 1

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Diseases and disorders of the musculoskeletal system. Diseases and disorders of the feet.

Special Information: There is no special information.

081-MD0579
THE GENITOURINARY SYSTEM 1

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Explains anatomy and physiology of the genitourinary system, physical assessment of the genitourinary system, urinary diseases and disorders and urinary catherization.

Special Information: There is no special information.

081-MD0580
THE GENITOURINARY SYSTEM II

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Explains disorders and diseases of the genitalla; sexually transmitted diseases, and the human immunodeficiency virus (HIV) and acquired immune deficiency syndrome (AIDS).

Special Information: There is no special information.

081-MD0581
THE GASTROINTESTINAL SYSTEM

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Anatomy and physiology of the digestive system; physical assessment of the digestive system; diseases and disorders of the gastrointestinal system. Types of abdominal trauma. Performing nasogastric intubation, ingested poisons and hepatitis.

Special Information: There is no special information.

081-MD0582
THE SENSORY SYSTEM

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Anatomy and physiology of the sensory system; EENT diseases and disorders; and HEENT trauma.

Special Information: There is no special information.

081-MD0583
THE ENDOCRINE SYSTEM

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Anatomy and physiology of the endocrine system; diseases and disorders of the endocrine system; and describes the disease diabetes mellitus.

Special Information: There is no special information.

081-MD0584
OBSTETRICS AND PEDIATRICS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Describes normal emergency childbirth; abnormal childbirth; and how to recognize signs of child abuse.

Special Information: There is no special information.

081-MD0586
MENTAL HEALTH

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Discuses normal/abnormal behavior, burnout, depression and suicide; hostility and violent behavior; substance abuse; combat stress reactions; death and dying; and sexual assault.

Special Information: There is no special information.

081-MD0587
IMMUNIZATIONS ENVIRONMENTAL INJURIES

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Immunization/disease reporting, ionization, microwave and laser injuries; heat injuries; and cold injuries.

Special Information: There is no special information.

081-MD0588
ENVIRONMENTAL DISEASES/INJURIES I

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Overview of harmful snakebites and insect stings, harmless snakes and insects, anaphylactic shock, diagnosis and treatment of hepatitis.

Special Information: There is no special information.

081-MD0589
ENVIRONMENTAL DISEASES/INJURIES II

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Arthropod-borne diseases, animal-borne diseases, helminthic diseases and malaria.

Special Information: There is no special information.

081-MD0694
BASIC FOOD INSPECTION PROCEDURES

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Basic food inspection procedures, including categories and classes of food inspection; stamping procedures; warehouse procedures; measurement of product temperature; inspection of conveyances, determining age of product; collecting, preparing and shipping samples for laboratory testing.

Special Information: There is no special information.

081-MD0702
INTRO TO VET FOOD INSP CAREER FIELD

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Organization and mission of the Army Veterinary Service; overview of the 91R career field and role in combat service support; ethics, standards of conduct and reporting suspected violations of law.

Special Information: There is no special information.

081-MD0703
PRESERVATION OF FOODS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Introduction to food microbiology, including agents causing food spoilage, morphology and physiology of microorganisms, microbial growth, microbiology of various food products, food preservation, including principles and methods of food preservation.

Special Information: There is no special information.

081-MD0705
INSPECTION DOCUMENTS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Introduction to the DoDacquisition system for subsistence items and the documents generated by this system, to include the Defense Logistics Agency, the DISCInspection Manual; the DLA-DOSC Inspection Data Packet.

Special Information: There is no special information.

081-MD0708
FOOD CONTAINERS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Types of food containers; the can manufacturing process; common defect of can and other food containers.

Special Information: There is no special information.

081-MD0710
RED MEATS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Anatomy and nomenclature of the bovine animal, destination and surveillance inspection of carcass beef, wholesale market cuts of beef, market ready beef, ground beef, diced beef, beef roasts and steaks, beef livers, wholesale market cuts of lamb and pork, cured and smoked meats and corned beef.

Special Information: There is no special information.

081-MD0711
WATERFOODS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Introduction to waterfoods to include basic anatomy, composition and classification of fish and shellfish; their preparation, preservation, and signs of deterioration; destination, (classes 4 and 8) and surveillance inspection procedures of waterfoods

Special Information: There is no special information.

081-MD0712
POULTRY

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Introduction to poultry (chicken); requirements for class, style, and type; quality standards for chicken; destination (class 4 and class 8) and surveillance inspection procedures for poultry (chicken).

Special Information: There is no special information.

081-MD0713
SHELL EGGS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Physical structures and formation of an egg; preparation of egg inspection area and equipment; destination inspection (class 4 and 8) procedures; classifying; grading shell eggs and reporting destination inspection results; surveillance inspection procedures.

Special Information: There is no special information.

081-MD0714
FRESH FRUITS AND VEGETABLES I

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Introduction to fresh fruits and vegetables, to include; plant physiology and metabolic procurement methods; destination inspection; (classes 4 and 8) procedures; surveillance inspection procedures. Not available for Individual subcourse enrollment.

Special Information: There is no special information.

081-MD0715
DAIRY

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Nutritional value of dairy product; types of dairy products; handling, processing, and testing procedures for dairy products; surveillance inspection procedures for dairy products.

Special Information: There is no special information.

081-MD0717
STORAGE AND SANITATION

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Food storage and sanitation issues relevant to a food inspector, to include; types and purpose of sanitary inspections; terminology; sanitation requirements in food establishment; inspections of commissaries and troop issue subsistence activities; food storage requirements; insect and rodent control and fumigation of subsistence.

Special Information: There is no special information.

081-MD0718
OPERATIONAL RATIONS 1

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: The purpose of this Subcourse is to familiarize the Soldier with operational rations, including Meals, Ready-to-Eat, and unitized Group Rations, and procedures for inspecting operational rations.

Special Information: There is no special information.

081-MD0722
MICROBIOLOGY FOR VET SPEC

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Basic microbiology for the food inspector; terminology, infectious process, bacterial cultivation and testing procedures, bacteria of public health importance and associated diseases, food spoilage and causative microorganisms.

Special Information: There is no special information.

081-MD0723
FOOD DETERIORATION

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Introduction to food deterioration, including basic terminology, causes of food deterioration, and various deterioration conditions and their characteristics. Deterioration in meat/meat products, waterfoods, dairy products, shell eggs, fresh fruits and vegetables and semi perishable subsistence items.

Special Information: There is no special information.

081-MD0726
CONTRACT ADMINISTRATION

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Overview of the contracting procedures used by disc. Assembling an inspection data packet. Surveillance inspection.

Special Information: There is no special information.

081-MD0728
POULTRY II

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Standard references, official identification marks, and terminology used in poultry inspections; differences between the USDA grading service and inspection service; determining class, quality, and condition of poultry with respect to the grading of poultry; procedures for verifying the grade of poultry.

Special Information: There is no special information.

081-MD0750
INTRO MEDICAL RECORDS/PATIENT ADMINISTRATION

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Mission of the Patient Administration Division in the AMDOD. Introduction to the organization and responsibilities for patient administration; introduction controls for military care and patient records. Organizational structure and functions of the Office of the Chief, including training programs.

Special Information: There is no special information.

081-MD0751
OUTPATIENT MEDICAL RECORDS BRANCH

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Preparation, use, filing, controlling, and disposition of Army Health Records. Outpatient Treatment Records, and Field Medical Card. Description and use of the Terminal Digit Filing System and the records control program.

Special Information: There is no special information.

081-MD0752
PATIENT ACCOUNTABILITY BRANCH

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Procedures for processing patients into and out of the hospital (admission and disposition), including absent sick processing; evacuation of patients to other medical treatment facilities, including aeromedical evacuation; accountability of patients carried on the rolls of the medical treatment facility; and safeguarding the possessions of patients.

Special Information: There is no special information.

081-MD0753
MEDICAL RECORDS ADMINISTRATION BRANCH I

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Preparation, use, filing, control, and disposition of inpatient Treatment Records. Introduction to the diagnostic and operation coding and the preparation of the Inpatient Treatment Record Cover Sheet. Introduction to the individual patient data system.

Special Information: There is no special information.

081-MD0754
MEDICAL RECORDS ADMINISTRATION BRANCH II

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Preparation and use of medical statistical reporting. Study of the quality assurance program (medical care evaluation) and the release of medical information.

Special Information: There is no special information.

081-MD0755
PATIENT AFFAIRS BRANCH

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Management of the CHAMPUS program; medical board administration and PLEBO service; administrative management of seriously ill/very seriously ill and special-category reporting requirements; initiation of line-of-duty determination; third-party-liability reporting; and disposition of the deceased.

Special Information: There is no special information.

081-MD0801
PRESCRIPTION INTERPRETATION

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Terms, abbreviations, and symbols commonly seen on prescriptions brought to the pharmacy. Authorized prescription forms are presented and the component parts of each are discussed. The emphasis of the subcourse is on the actual interpretation of prepared prescription forms.

Special Information: There is no special information.

081-MD0802
PHARMACEUTICAL CALCULATIONS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Types of calculations most often performed in the pharmacy. Review of basic mathematics, ratio and proportion principles, the metric system, percentage preparations, reduction and enlargement of formulas, and dosage calculations are only a few examples of topics addressed in the subcourse.

Special Information: There is no special information.

081-MD0803
GENERAL CHEMISTRY

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Basic concepts related to inorganic and organic chemistry. It provides the learner with these concepts in order that the understanding of certain topics (e.g., drug therapy) in the medical field can be enhanced. Chemical nomenclature, chemical reactions, acids, bases, and salts are only a few examples of material discussed in the subcourse.

Special Information: There is no special information.

081-MD0804
PHARMACOLOGY I

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: First in a series of five subcourses that deal with pharmacology. Include concepts of anatomy and physiology which led to a more in-depth understanding of the pharmacological concepts discussed. Emphasis is placed upon current drug therapy (indications, uses, side effects, and contraindications of medications).Professional references in pharmacy; anatomy, physiology, and pathology principles important to pharmacology; the central nervous system; local anesthetic agents and central nervous system stimulants.

Special Information: There is no special information.

081-MD0805
PHARMACOLOGY II

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Pharmacology related to the human nervous and muscular systems. Review of the principles of anatomy and physiology related to the nervous and muscular systems. Skeletal muscle relaxants; analgesics,

anti-inflammatory agents, and anti-gout agents; adrenergic agents; adrenergic blocking agents; cholinergic agents; and cholinergic blocking agents.

Special Information: There is no special information.

081-MD0806
PHARMACOLOGY III

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Pharmacology related to the human circulatory, respiratory, and urinary systems. The anatomy and physiology of these systems is discussed in relation to pharmacology. Respiratory drugs, cardiac drugs, vasodilator agents, anti-hypertensive agents, and diuretic and antidiuretic agents.

Special Information: There is no special information.

081-MD0807
PHARMACOLOGY IV

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Pharmacology related to the digestive and endocrine systems of the body. The anatomy and physiology of these systems is discussed in relation to pharmacology. Antacid and digestant agents lemetic, antiemetic, and antidiarrheal agents; cathartic agents; thyroid, antithyroid, and parathyroid agents; and reproductive hormones and oral contraceptive

Special Information: There is no special information.

081-MD0808
PHARMACOLOGY V

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Agents used to treat various medical conditions. Categories include: an introduction to microbiology; intestinal parasites and antiparasitic agents; antibiotics and sulfonamides; antifungals, antihistamine, and antimalarial agents; biological; and vitamins and minerals.

Special Information: There is no special information.

081-MD0809
INTRO TO COMPOUNDING AND MANUFACTURING

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: This subcourse discusses the principle involved in compounding individual prescription and in manufacturing bulk quantities of pharmaceutical preparations. Classes of preparations (e. g., elixirs) are discussed with emphasis on their preparation classes of preparation and uses in the pharmacy.

Special Information: There is no special information.

081-MD0810
OUTPATIENT DISPENSING

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Laws and regulations which control operations in the outpatient pharmacy. Interpretation of the prescription form. Steps involved in the filling/refilling of a prescription. The student is required to decide whether prescriptions should be filled/refilled based upon laws and Army regulations.

Special Information: There is no special information.

081-MD0811
IMPATIENT DISPENSING

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Dispensing of medications using the ward issue and unit dose systems; advantages and disadvantages of each; usage of forms (including the patient medication profile); package, labeling, and delivery. Preparation of sterile products, including usage and maintenance of the laminar airflow hood, the sterile product order form, production techniques, and work counts.

Special Information: There is no special information.

081-MD0812
TOPICS IN PHARMACY ADMINISTRATION

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Brief overview of pharmacy administration. Pharmaceutical jurisprudence, pharmacy security, and work count in the pharmacy

Special Information: There is no special information.

081-MD0813
SUPPLY PROCEDURES FOR THE PHARMACY SP

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Army medical supply procedures performed in an Army pharmacy. Federal Supply Catalogs; nonstandard catalogs; procedures and forms utilized to order supplies; determining stock requirements; storage and control of inventory; controlled substance files; quality control; and receiving and turning in medical supplies.

Special Information: There is no special information.

081-MD0837
LABORATORY MATHEMATICS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: General mathematics review (real numbers, equality, significant figures, rounding, scientific notation, logarithms); solution mathematics; molar solutions; equivalent solutions; conversion of concentration units; dilutions; titration; concentrated acids and bases; pH and buffers.

Special Information: There is no special information.

081-MD0838
AN INTRO TO IMMUNOLOGY AND RELATED SERIOLOGIC

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: An introduction to immunology and related serological procedures.

Special Information: There is no special information.

081-MD0841
PARASITOLOGY I

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Introduction to Parasitology. First of two subcourses dealing with parasitology for laboratory specialists. Overview of parasitology procedures for collecting, preserving and processing clinical specimens, and microscopy.

Special Information: There is no special information.

081-MD0842
PARASITOLOGY II

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Information processing for the identification of parasites of clinical importance. Significant characteristics of parasitic members of the Phyla Protozoa, Platyhelminthes, Aschelminthes, Aschelminthes, and Acanthocephathelminthes; Arthropods and vectors.

Special Information: There is no special information.

081-MD0845
IMMUNOHEMATOLOGY AND BLOOD BANK

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Collection, processing, storage, and shipment of human blood, blood banks; transfusions; immunogenics (generic determination of blood group antigens and their ramification.

Special Information: There is no special information.

081-MD0846
IMMUNOHEMATOLOGY AND BLOOD BANK II

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Immonohematoloy, immune hemolytic anemia and hemolytic diseases of the newborn; blood transfusion safety; blood banking procedures.

Special Information: There is no special information.

081-MD0851
ANATOMY & PHSIOLOGY RELATED TO CLINIC

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Basic principles related to anatomy, physiology, and pathology. Diseases of each system are discussed as they pertain to the medical laboratory.

Special Information: There is no special information.

081-MD0852
URINALYSIS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Laboratory methods commonly used in the collection and preservation of urine and in the detection of normal and abnormal constituents of urine. Photomicrographs and line-drawings illustrate the normal and abnormal sediments commonly seen in the microscopic examination of patient urine samples.

Special Information: There is no special information.

081-MD0853
HEMATOLOGY

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Laboratory studies which concern the composition of blood and the formation, maturation, and function of blood cells. Morphology, cell counts, and methods commonly used in hematology are also discussed.

Special Information: There is no special information.

081-MD0856
BACTERIOLOGY

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Principles, methods, and procedures used in cultivating, isolating, and identifying bacteria of clinical importance.

Special Information: There is no special information.

081-MD0857
HEMATOLOGY II

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Laboratory procedures including different leukocyte counts, blood coagulation studies, and equipment automation procedures.

Special Information: There is no special information.

081-MD0859
MYCOLOGY

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Principles and procedures involved in the cultivation, isolation, and identification of clinical importance.

Special Information: There is no special information.

081-MD0861
CLINICAL CHEMISTRY I

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: First in a series of five subcourses dealing with the modern practice of clinical chemistry. Introduction to laboratory safety, the measurement of weights and column, laboratory chemicals, laboratory mathematics, the collection and handling of specimens, quality control, and organic chemistry.

Special Information: There is no special information.

081-MD0863
CLINICAL CHEMISTRY III

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Carbohydrates, lipid, and proteins and their importance in medicine. Specific procedures and techniques for the determination of these substances.

Special Information: There is no special information.

081-MD0864
CLINICAL CHEMISTRY IV

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Introduction to the preparation of protein-free filtrates, filtration and centrifugation, enzymes, renal function tests, and miscellaneous tests, and techniques; specific techniques and procedures.

Special Information: There is no special information.

081-MD0867
DONOR OPERATIONS I

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Perform blood donor center and transfusion service activities to include preparation of blood products for transfusion therapy.

Special Information: There is no special information.

081-MD0868
DONOR OPERATIONS II

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Conduct the blood donor center quality assurance, information management, and safety programs. Prepare the theater blood operations and blood bank operational report. This is a correspondence subcourse.

Special Information: There is no special information.

081-MD0900
BASIC MATHEMATICS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Fundamental procedures for addition, subtraction, multiplication, and division of whole numbers, decimals, and fractions; converting to and from the metric system of measurements.

Special Information: There is no special information.

081-MD0902
BASIC ELECTRICITY

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Positive and negative charges on an atom of matter. Free electrons. Electron gains and losses. Attracting and repelling properties of electrical charges. Conductors, insulators, current, and resistance. Positive and negative potential and potential difference. Ohm's law Symbols for battery, conductor, switch, lamp, resistors, ohms, voltmeter, ammeter, and simple direct current circuits.

Special Information: There is no special information.

081-MD0903
BASIC ELECTRICAL CIRCUITS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Simple series and parallel circuits, including equivalent circuits. Simple direct current circuits diagrams. Use of Ohm’s law to solve problems in one unknown, including voltage, voltage drop, resistance, and amperage.

Special Information: There is no special information.

081-MD0904
PHARMACOLOGY MATH FOR PRACTICAL NURSE

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Basic math skills (addition, subtraction, multiplication, division, fractions, decimals, percentages, and ratio and proportion); systems of measurement; computing medication dosages; computing intravenous infusion rates; and basic dose calculations.

Special Information: There is no special information.

081-MD0905
NURSING FUNDAMENTALS I

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Patient relations including basic human needs, communication skills stress and hospitalization, and transcultural factors influencing nursing care; the adult patient care unit; advanced principles of patient hygiene; body mechanics; positioning and ambulating the adult patient; and medical isolation.

Special Information: There is no special information.

081-MD0906
FUNDAMENTALS OF NURSING II

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Assisting with the physical examination, specimen collection, catheterization of the male and female patient, vital signs, diet therapy, physical assessment, role of the practical nurse, and perioperative care.

Special Information: There is no special information.

081-MD0910
INTRODUCTION TO PRACTICAL NURSING

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Discussion of the role of the 91c practical nurse within the AMDOD. Descriptions of the practical nurse resident course and preparatory correspondence course. Duties and responsibilities of the practical nurse in the areas of Soldiering, leadership, management, and clinical practice.

Special Information: There is no special information.

081-MD0913
DRUG DOSAGE AND THERAPY

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Interpreting medical orders. The metric and apothecary systems. Dose calculations introduction to basic pharmacology. Antiseptics and disinfectants, respiratory drugs, central nervous system drugs, autonomic and cardiovascular drugs, and drugs used to prevent and/or treat infections.

Special Information: There is no special information.

081-MD0915
NURSING CARE OF THE SURGICAL PATIENT

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Preoperative, operating room, recovery room, and postoperative care of the surgical patient.

Special Information: There is no special information.

081-MD0916
NURSING CARE RELATED TO MUSCULOSKELETAL

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Patient assessment techniques, special orthopedic equipment, mobilization aids, care of patients with casts and traction, care of patients with contusions, sp rains, strains, dislocation, fractures, and amputation.

Special Information: There is no special information.

081-MD0917
NURSING CARE CARDIOVASCULAR/RESPIRATOR

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Anatomy and physiology, diagnostic procedures, physical examination, C-V disorders, sudden cardiac death, nursing management of respiratory disorders, and pulmonary drainage.

Special Information: There is no special information.

081-MD0918
NURSING CARE TO GASTROINTESTINAL/URINARY

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Anatomy and physiology, patient assessment techniques diagnostic procedures, gastrointestinal intubation, gavage, lavage, gastrostomy, ileostomy, colostomy, gastrointestinal disorders, diabetes, urinary catheterization and drainage, urinary tract infections, disorders of the urinary system, renal failure.

Special Information: There is no special information.

081-MD0919
NURSING/CARE TO SENSORY/NEUROLOGICAL

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Patient assessment techniques, disorders of the eye and ear, treatment for the eye and ear, care of the unconscious patient, infectious and degenerative disorders of one nervous system, head and spine injuries, and disorders of the brain and cranial nerves.

Special Information: There is no special information.

081-MD0920
NURSING/CARE TO SENSORY/NEUROLOGICAL

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: SF 511 (Vital Signs Record), DD Form 792 (Twenty-Four Hour Intake and Output Worksheet) and other nursing forms; health records, outpatient treatment records, and inpatient treatment records; and sick call procedures.

Special Information: There is no special information.

081-MD0921
OBSTETRICS AND NEWBORN CARE I

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Reproductive anatomy and physiology, embryology and fetal development, diagnosis of pregnancy, psychological needs during pregnancy, personal hygiene and care during pregnancy, minor discomforts of pregnancy, patient education during pregnancy and fetal positions.

Special Information: There is no special information.

081-MD0922
OBSTETRICS AND NEWBORN CARE II

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Stages of labor and nursing care, precipitate and emergency delivery, management of obstetric discomfort during labor, special situations in labor and delivery, changes of the postpartum patient, complications of the postpartum, characteristics of the typical newborn infant, care of the normal newborn following delivery, newborn nutrition, the premature infant, and the sick neonate.

Special Information: There is no special information.

081-MD0923
INTRODUCTION TO THE OPERATING ROOM

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Layout of the surgical suite; operating room (OR) team, schedule, ethics and relationships, legal factors, bereavement, OR furniture and equipment; housekeeping; surgical nomenclature; OR policies; hazards.

Special Information: There is no special information.

081-MD0927
SPECIAL SURGICAL PROCEDURES I

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: There is no description available at this time; please review https://www.atrrs.army.mil/ for updated information.

Special Information: There is no special information available at this time; please review https://www.atrrs.army.mil/ for updated information.

081-MD0928
SPECIAL SURGICAL PROCEDURES II

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Procedures involved in eye, ear, nose, and throat surgery; OB/GYN(obstetrical and gynecological) surgery; and genitourinary surgery.

Special Information: There is no special information.

081-MD0933
SCRUB, GOWN AND GLOVE PROCEDURES

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Principles, procedures, and techniques for scrubbing and donning sterile gown and gloves.

Special Information: There is no special information.

081-MD0935
ROUTINE PROCEDURES FOR AN OPERATION

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Procedures for the scrub and the circulator before, during and after an operation. procedure for cleanup following a case.

Special Information: There is no special information.

081-MD0950
FUNDAMENTALS OF X-RAY PHYSICS

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Basic X-ray physics; function and structure of atoms and molecules; energy and work; production and nature of radiation; static electricity, current, electro magnetism; generators; electric motors; colls; transformers; X-ray tubess and circuits; rectification; radiological hazards.

Special Information: There is no special information.

081-MD0952
PRINCIPLES OF RADIOGRAPHIC EXPOSURE

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Diagnostics quality; image characteristics; X-ray penetration; beam control; X-ray geometry; intensifying screen; factors which affect radiographic exposure; means of improving radiographic images.

Special Information: There is no special information.

081-MD0954
X-RAY FILM PROCESSING

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Composition, storage and handling of film; film development and processing techniques adverse field conditions; photoflourographic film; special and emergency processing measures.

Special Information: There is no special information.

081-MD0956
ANATOMY FOR X-RAY SPECIALIST

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: General osteology, arthrology. Classification and structure of bones. Factures digestive, urogenital, respiratory, nervous, circulatory and endocrine systems.

Special Information: There is no special information.

081-MD0959
FLUOROSCOPY AND SPECIAL RADIOGRAPHIC TECH

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Special considerations, techniques, and equipment used in fluoroscopic and certain special radiographic procedures.

Special Information: There is no special information.

081-MD0960
SPECIAL FLUOROGRAPHIC RADIOGRAPH PROCEDURES

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Must hold 68CMF or AMEDD AOC.

This is a correspondence subsourse.

Special Information: There is no special information.

081-MD0961
STANDARD POSITIONING TECHNIQUES

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Considerations in positioning the patient for X-rays; body mechanics, patient handling, key terms, order of procedure, film identification and captioning, and radiographic positing for projections of the upper extremities.

Special Information: There is no special information.

081-MD0962
STANDARD POSITIONING TECHNIQUES II

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: Considerations in positioning the patient for X-rays and radiographic positioning for projections of the lower extremities, pelvic area, trunk, spine, cranium, and additional skull procedures.

Special Information: There is no special information.

081-ORTHO
BASIC ORTHOPAEDIC REVIEW FOR THE PA

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: To direct the Physician Assistant toward the level of professional competence required to function in the area of orthopaedic treatment. The course is not intended as a comprehensive program of study, but as a review for the Physician Assistant in the basic of orthopaedic. This is an independent study program. Student must provide text, One Hundred Orthopaedic Conditions Every Doctor Should Understand, Roy A Meals, M.D., first edition.

Special Information: There is no special information.

081-OSPA
INTRO TO ORTHO SURGERY FOR THE PA

ATRRS Information

Location School Code: 555 **Length: 52 weeks**

Description: For the Physician Assistant who is serious in obtaining and pursuing and educational knowledge base in orthopaedic surgery. THIS IS AN INDEPENDENT STUDY PROGRAM. Student must provide the following texts: Orthopedic Physical Assessment, David J. Magee, second edition Hollinshead's Functional Anatomy of the Limbs and Back, David B. Jenkens, sixth edition, Rockwood & Green's Fractures in Adults, Charles A. Rockwood Jr. and David P. Green, third edition, Turk's Orthopaedic-Principles and Their Applications, Stuart L. Weinstein and Joseph A. Buckwalter, fifth edition.

Special Information: There is no special information.

6-8-C22(DL)
AMEDD CAPTAINS CAREER (DL) Phase 1

ATRRS Information

Location School Code: 555 **Length: 2 weeks 7 days**

Description: The AMEDD CCC is designed to train officers to lead company or equivalent-sized organizations and serve successfully in U.S. Army staff positions. Graduates are prepared for subsequent assignments by learning the leader, tactical, and technical tasks, including the supporting knowledge and skills necessary to support the Joint Team across the full spectrum of military medical operations.

Special Information: Phase 1 consists of 10 modules presented as web-based or in interactive CD ROM format.

Application is made electronically at Internet site: https://www.atrrs.army.mil. Open the SELF DEVELOPMENT training application and follow on-line instructions to enroll in course number 6-8-C22 (DL). Once registration is approved, you will receive an automatic email within 24 hours confirming enrollment.

Access to the course will be available on the Army Learning Management System in AKO, https://www.us.army.mil. Place cursor on the Self Service Tab, select My Training, and the ALMS box will be displayed. Click on the ALMS logo to access. The course will appear under your "Current Enrollments."

Direct inquiries regarding Phase 1 to DSN: 471-5877 or Toll Free: 1-800-344-2380. Phase 1 should be completed within 1 year. Both phases must be completed within 2 years from enrollment in Phase 1. International military students take Phase 1 (6-8-C22(International) in residence in lieu of distance learning.

6A-61N9D (DL)
USA FLIGHT SURGEON REFRESHER COURSE

ATRRS Information

Location School Code: 555 **Length: 1 week 5 days**

Description: This course covers the Army Aviation Medicine Program, Army regulations pertaining to Aviation Medicine, The Commander's and Flight Surgeon's responsibilities in the Aviation Medicine Program, Army Flying Duty Medical Examinations (FDME), Aeromedical Decision Making, Aeromedical Standards, basic Health Records maintenance, the Aeromedical Electronic Resource Office (AERO), DA 4186 (Medical Recommendations for Flying Duty), Aviation Physiology, and the Army Aviation Safety Program.

Only previously qualified Flight Surgeons and Aeromedical Physician Assistants may enroll in this DL course.

Completion of this course in conjunction with prior completion of a Flight Surgeon Course in either the U.S. Navy or U.S. Air Force qualifies a medical officer as a U.S. Army Flight Surgeon and provides the graduate eligibility for the Army Flight Surgeon badge.

Special Information: Students must download all course materials from the FSRC website, http://usasam.amedd.army.mil/FSRC/index.htm. Upon completion of the course, students must go through the ALMS (Army Learning Management Systems) site, to take an online examination in order to receive certification of course completion. Students must have access to a computer and internet hookup in order to participate in this course.
