MEMORANDUM FOR DEPUTY SURGEON GENERAL OF THE ARMY ✓
DEPUTY SURGEON GENERAL OF THE NAVY
DEPUTY SURGEON GENERAL OF THE AIR FORCESUBJECT: Beta Testing the Centralized Credentials Quality Assurance System (CCQAS)
Version 2.0

The Beta version of CCQAS 2.0 was deployed to 18 Service sites (attached) October 1997. It is crucial that all necessary resources, particularly information management services, be dedicated to supporting the software during the Beta test period through January 1998.

The importance of this Beta test cannot be overemphasized. CCQAS 2.0's ability to document and track credentials, malpractice claims, adverse actions, and limited readiness data is critical for operational purposes. The software must receive the full attention and rigorous testing it deserves.

The point of contact is LtCol Williamson, COM 703-695-6800 or DSN 225-6800.
