THE ACADEMY OF HEALTH SCIENCES
US ARMY MEDICAL DEPARTMENT CENTER AND SCHOOL
FORT SAM HOUSTON, TEXAS

COURSE CATALOG
2015

Mission:
We envision, design and train a premier military medical force for decisive action in support of our Nation.

Vision:
To be the foundation on which the AMEDD is built, sustained and transformed.

AMEDD Readiness Starts Here

Accredited by the
Council on Occupational Education
&
USA Training and Doctrine Command

Prepared:
March 2015

Prepared by:
Training Program Management, Academy of Health Sciences
US Army Medical Department Center and School
3630 Stanley Road, Building 2840
Fort Sam Houston, TX 78234
The Academy of Health Sciences (AHS) was originally established in June 1920 at Carlisle Barracks, Pennsylvania, as the Medical Field Service School. In the Spring of 1946, the school moved to Fort Sam Houston (FSH), Texas (TX). For many years the school was headquartered in the Quadrangle area on Stanley Road (Rd.). In December of 1972, it was relocated to its present site on FSH.

The AHS was assigned to the US Army (USA) Health Services Command effective 1 April 1973. On 1 July 1991, the Academy became the major subordinate of the USA Medical Department Center and School (AMEDDC&S). The AMEDDC&S became a subordinate command of the USA Medical Command (MEDCOM) in October 1994. The following year, the organization assumed command and control of the US Garrison, FSH.

Since its establishment more than 60 years ago, the AMEDDC&S has become the largest military school of allied health in the free world. Annually, it trains more than 30,000 students in resident courses and another 15,000 in distributed learning (dL) programs.

In addition to FSH training, which includes the AHS AMEDD Noncommissioned Officer (NCO) Academy and the Defense Medical Readiness Training Institute (DMRTI), the AMEDDC&S operates the USA School of Aviation Medicine (USASAM), Fort Rucker, Alabama and over 40 phase 2 and external course training sites. Instruction at the AMEDDC&S covers the entire Army Medical Department (AMEDD) spectrum to include: Medical Corps (MC), Dental Corps (DC), Army Nurse Corps (ANC), Veterinary Corps (VC), Medical Service Corps (MSC), Medical Specialist Corps (SP Corps), AMEDD NCO Corps, and all enlisted medical military occupational specialties. Courses are also available to qualified Department of Defense civilian (DoD), other services, and foreign military and civilian personnel.

The AHS includes a robust graduate program for some medical specialties. The AMEDDC&S conducts specialized training through the Professional Postgraduate Short Course Program (PPSCP). This training provides continuing education (CE) opportunities for officers and enlisted personnel to promote leader development, readiness, and technological clinical competency in support of the AMEDD world class healthcare system.

The Medical Education and Training Campus (METC) was fully operational in September 2011. The METC has consolidated a majority of the enlisted medical training programs for all branches of the military, providing instruction for a variety of medical specialists, such as combat medics, Navy corpsmen, radiology technicians, and biomedical equipment technologists. Refer to the METC course listing in this catalog for courses which have transitioned from the AMEDDC&S to the METC.

APPENDIX A is a listing of the location school codes for courses which are taught at multiple sites.

For additional information on courses go to the Army Training Requirements and Resources System (ATRRS) web site at: https://www.atrrs.army.mil/. Click on Course Catalog; type in course number or title and fiscal year 2015; select Search the ATRRS Course Catalog; click on the course number to view more information (schedule, prerequisites, etc.) about each course. Alternatively, each course below is linked to the online ATRRS catalog. Click on the course number which will take you to the specific course in ATRRS.
### TABLE OF CONTENTS

**CENTER FOR PRE-HOSPITAL MEDICINE (CPDM)**

- 300-F1, FLIGHT PARAMEDIC .......................................................... 10
- 300-F2, CRITICAL CARE PARAMEDIC .......................................... 10
- 300-68W(BCT3), BRIGADE COMBAT TEAM TRAUMA TRAINING ............... 11
- 300-F40, MILITARY TRANSITION TEAM MEDIC PRE-DEPLOYMENT ........... 11
- 6A-F19/300-F37, JOINT FORCES COMBAT TRAUMA MANAGEMENT COURSE ...... 12
- 6H-F35/300-F38, TACTICAL COMBAT MEDICAL CARE (TCMC) .............. 13

**DEPARTMENT OF BEHAVIORAL HEALTH SCIENCES (DBHS)**

- 5H-F4/302-F4, USA DRUG & ALCOHOL REHAB TNG–INDIVIDUAL ............... 14
- 5H-F5/302-F5, USA DRUG & ALCOHOL REHAB TNG–GROUP ..................... 14
- 5H-F6, ARMY SUBSTANCE ABUSE PGM MANAGEMENT .................................. 15
- 5H-F7/302-F7, ARMY SBSTNC ABUSE PGM FAMILY COUNSELING ............. 16
- 5H-F9, ASAP CLINICAL CONSULTANT/MED REVIEW OFCR ....................... 16
- 5H-F10/302-F10, ARMY SUBSTANCE ABUSE PGM ADVANCED COUNSELING .... 17
- 5H-F20/302-F20, FAMILY ADVOCACY STAFF TNG (FAST) ......................... 17
- 5H-F22/302-F22, FAMILY ADVOCACY PROGRAM (FAP) TEAM BUILDING ........ 18
- 5H-F23, FAMILY ADVOCACY PROGRAM CLINICAL SUPERVISOR .................. 18
- 5H-F24/302-F23, FASTA MULTI-VICTIM CASES OF CHILD SEXUAL ABUSE ...... 19
- 5H-F25/302-F24, FASTA SPOUSE ABUSE TREATMENT ............................... 19
- 5H-F26/302-F25, FASTA CHILD ABUSE ............................................... 19
- 5H-F27/302-F26, FASTA FORENSIC CHILD SEXUAL ABUSE ...................... 19
- 5H-F28/302-F27, FASTA PREVENTION ............................................. 20
- 6A-F16/302-F28, BEHAVIORAL SCI CONSULTATION TEAM TNG(DL)(P) PHASE 1 .................. 20
- 6A-F16/302-F28, BEHAVIORAL SCI CONSULTATION TEAM TRNG (P) PHASE 2 ........ 20
- 6H-F42, POST TRAUMATIC STRESS DISORDER (EMDR) ................... 21
- 6H-F43, POST TRAUMATIC STRESS DISORDER (CPT) .......................... 21
- 6H-F44, POST TRAUMATIC STRESS DISORDER (PET) ...................... 21
- 6I-F9/302-F31, COMBAT AND OPERATIONAL STRESS CONTROL (COSC) ...... 22
- 6I-F14, COGNITIVE BEHAVIORAL CONJOINT THERAPY (CBCT) ............... 22
- 6I-F15/302-F33, TRAUMATIC EVENT MANAGEMENT (TEM) ............. 23
- 26A-F54/27A-F54, STRUCTURED CHILD INTERVIEWING ............................ 23
- 26A-F55/302-F55, EMBEDDED BEHAVIORAL HEALTH ........................... 23
- 26A-F60/300-F60, MASTER RESILIENCE TRAINER(MRT)-MEDICAL TTT ...... 24

**DEPARTMENT OF DENTAL SCIENCE (DDS)**

- 330-F3(DL), BASIC EXPANDED FUNCTIONS DENTAL ASSISTANT PHASE 1 ........ 25
- 330-F3, BASIC EXPANDED FUNCTIONS DENTAL ASSISTANT PHASE 2 ............ 25
- 330-F3, BASIC EXPANDED FUNCTIONS DENTAL ASSISTANT PHASE 3 ............ 26
- 330-F4, ADVANCED EXPANDED FUNCTIONS DENTAL ASSISTANT PHASE 1 ...... 26
- 330-F4, ADVANCED EXPANDED FUNCTIONS DENTAL ASSISTANT PHASE 2 ........ 27
- 330-F4, ADVANCED EXPANDED FUNCTIONS DENTAL ASSISTANT PHASE 3 ........ 27
- 330-X2, PREVENTIVE DENTISTRY SPECIALTY ........................................ 28
- 6C-F1/331-F2, DENTAL MANAGEMENT DEVELOPMENT COURSE (DMDC) ...... 28
- 6C-F2, BRIGADE DENTAL SURGEON COURSE ....................................... 28

APPENDIX A, LOCATION SCHOOL CODES ........................................................................................... A-1
The CPDM prepares medical personnel for deployment with training that covers everything from battlefield first aid to working in combat support hospitals. The focus is on training that will decrease morbidity and mortality on the battlefield. The courses are offered to combat medics, physician’s assistants, senior medical NCOs, physicians and nurses. The training prepares Soldiers for what they will experience in the field.

300-F1
FLIGHT PARAMEDIC

Location School Code: 081

Description: Instruction will be provided and conducted at a local (Fort Sam Houston/San Antonio) college affiliated EMT-Paramedic training facility. Students will receive both didactic and clinical training required for application and testing as an NREMT-Paramedic.

Special Information: The Active Army (AA) Soldier must request training by submitting a DA Form 4187 to Human Resources Command (HRC). A copy of the following items must be included with the DA Form 4187: 1. Current NREMT Certification (EMT-B/I/P). 2. Current Basic Life Support Certification. 3. Current and qualified Class 3 Flying Duty Medical Examination. 4. ERB. 5. DA Form 705 within 90 days of attending the course. 6. Army EMS Credential Background Questionnaire. 7. Confirmation Letter from security manager verifying favorable National Agency Check with local Agency Check (NACLC) and Credit Check). 8. ***Once accepted, Soldiers will be provided and complete: EMS Training Application, UTHSCSA, Bluff Creek Tower Campus EMS Program. The ARNG and USAR apply via the ATRRS A-1 application. Above certifications are applicable for all applicants. Soldiers welcome packet and information about the course can be found at http://usasam.amedd.army.mil. POC: NCOIC 210-221-0993, 187th Med Bn., Bravo Company 210-221-0245, or Post Operator 210-221-1211.

300-F2
CRITICAL CARE PARAMEDIC

Location School Code: 081

Description: The Critical Care Clinical Skills course consists of students working in coordination with ICU nurses and physicians in the medical ICU, pediatric ICU, surgical ICU, neonatal ICU, coronary care unit, burn unit and operating room/ PACU in selected facilities. This course consists of 2-weeks of class room didactics in critical care medicine and path physiology, key elements of enroute critical care, and 6-weeks of in hospital practical experience, ground, and air ambulance observation with San Antonio EMS, and air ambulance observation with local providers of this care. Upon completion of the course, students will be eligible to take the Flight Paramedic Certified (FP-C) examination.

Special Information: The AA Soldier must request training by submitting a DA Form 4187 to HRC. POC HRC PH# 502-613-5233. A copy of the following items must be included with the DA Form 4187: 1. Current NREMT certification (EMT-B/I/P). 2. Current Basic Life Support Certification. 3. Current and qualified Class 3 Flying Duty Medical Examination. 4. ERB. 5. DA Form 705 within 90 days of attending the course. 6. Army EMS Credential Background Questionnaire. 7. *Once accepted, Soldiers will be provided and complete: EMS Training Application, UTHSCSA, Bluff Creek Tower Campus EMS Program. The NG and
USAR Soldiers apply via the ATRRS A-1 application. Above certifications are applicable for all applicants. Soldiers welcome packet and information about the course can be found at http://usasam.amedd.army.mil. 
POC: NCOIC 210-221-0993, 187th Med Bn., Bravo Company 210-221-0245, or Post Operator 210-221-1211.

300-68W(BCT3)
BRIGADE COMBAT TEAM TRAUMA TRAINING

Description: Provides an opportunity for Soldiers selected as Brigade Combat Teams (BCT) units and the flight medic of Army medevac crews to acquire the technical and tactical skills needed to function as squad size trauma teams: a. Prepare unit and subordinate elements for peace and wartime missions and contingencies. b. Plan and execute tasks and missions assigned to squad size elements. The Brigade Combat Trauma Team Training (BCT3) course incorporates Tactical Combat Casualty Care (TC-3), emergency medical treatment and evacuation in a variety of operational combat settings from point of injury through to echelon III of the military health care system.

The course is based upon the injury patterns of combat casualties and the constraints to deliver medical care on the battlefield and in urban warfare. The Health Care Specialist receives specific training in the concepts of tactical combat medical care given realistic scenarios to include Army equipment, supplies, and evacuation capabilities during combat. The course includes didactic instruction in casualty care at the point of wounding, triage, primary and secondary survey of combat casualties, airway management, extremity trauma, chest trauma, thermal burns, wound management in the combat environment, splinting, and dressing. Practical exercises are conducted in airway management, treatment of extremity trauma, treatment of chest wounds, packing of medical treatment bags, life-saving emergency surgical skills, and the evaluation and management of mass casualties utilizing simulated combat casualty scenarios.

Special Information: This course is supported by AMEDDC&S. All Soldiers/units needing training must coordinate with the CPDM - BCT3 in order to schedule and obtain approval for training. The point of contact phone number is COMM: 210-221-9518/ DSN 471-9518 or 210-221-9646 or BCT3@amedd.army.mil.

This course is not authorized to be used as a MOS reclassification course. This course may substitute as 40 hours of the EMT-B refresher training requirements.

Training will convene at 0700 on Monday and conclude no earlier than 1700 on Friday of the same training week. Students should be authorized to arrive at the training installation on the Sunday prior to the class starting and to depart on following Saturday. On day three of training, the BCT3 teams require 20 nonmedical Soldiers from the host unit to support casualty role play on the trauma lanes. On day four and five of training, the BCT3 teams require 20 nonmedical Soldiers from the host unit to support the trauma lanes and emergency surgical procedures lanes. Nonmedical Soldiers in support of BCT3 cannot have profiles for standing, lifting, walking, running, bending, wearing field equipment, or from the weather.

300-F40
MILITARY TRANSITION TEAM MEDIC PRE-DEPLOYMENT

Description: This course provides the NCO an overview of what is necessary to operate as a medic in a remote or isolated hostile environment. The Military Transition Team course reinforces critical skills and knowledge required of the Medical NCO with primary duties that deliver both emergency and routine medical care. We will introduce, emphasize, and reinforce Tactical Combat Casualty Care principles, patient assessment and
treatment, and the importance of adaptability, improvisation, innovation, self-reliance, and self-sufficiency. The NCO will be introduced to the role of medical advisor to US and Coalition Leadership on all health care matters.

**Special Information:** Units requiring this pre-deployment training: contact the Center for Pre-Deployment Medicine. Program Coordinator can be reached at COMM: 210-221-9519, 210-221-9646 or DSN: 471-9518. To apply for the training, the Reserve and National Guard Training Officers or NCO will contact 1st Army Surgeons Office. The Regular Army will go through their unit Training Officer or NCO. Those Training Officers or NCOs will contact the PDTT information above. The point of contact for MiTT training will provide further guidance.

**6A-F19/300-F37**  
JOINT FORCES COMBAT TRAUMA MANAGEMENT COURSE

**Location School Code: 081**  
**Length:** 1 week

**Description:** The curriculum for the Joint Forces Combat Trauma Management Course is based upon the injury patterns of combat casualties and the constraints to deliver medical care on the battlefield and in urban warfare. Students will train on the concepts of combat medical care given realistic scenarios, to include equipment, supplies, and evacuation capabilities during combat. The course includes didactic instruction in casualty care at level III facilities, triage, primary and secondary survey of combat causalities, combat airway management, combat extremity trauma, combat chest trauma, combat thermal burns, combat blood transfusions, combat wound management, antibiotics and pain control in the combat environment, and combat fluid maintenance. Practical exercises for providers are conducted in airway management, surgical treatment of extremity trauma, chest, abdominal, head, neck and thermal wounds, and pain management/anesthesia delivery mechanisms. Practical exercises for nurses are conducted in airway management, ventilator management, chest tube management, intra-cranial pressure monitoring, central line management, methods of hemorrhage control, nursing management of compartment syndrome, and preparation of casualties for aeromedical evacuation.

**Special Information:** All DA Form 3838 (Request For Short Course Training) must be submitted digitally via the organization email address: AMEDDC&S.JFCTMC@amedd.army.mil. Further information regarding the course can be found at: http://www.us.army.mil/suite/page/619178. All requests must be received a minimum of 30 days prior to class start date. Once approved, the course coordinator will notify the applicant of his/her selection. Late requests will be processed if space is available and time constraints can be met. This course is centrally funded. Once the applicant is approved, instructional documents will be sent to the applicant to obtain the designated line of accounting. However, sister service (i.e., Navy, Air Force, Marines, Coast Guard) attendees are NOT funded through Overseas Contingency Operational (OCO) Funds. The individual unit, of those service members, must provide funding for travel, per diem, and local transportation for the duration of the course. Transportation will be provided to and from hotels and training areas/facilities. Rental vehicles are NOT authorized. Training will convene at 0700 on Monday and conclude no later than 1500 on Friday of the training week. Students should be authorized to arrive at FSH, TX, on the Sunday, prior to the class and to depart on Friday after 1800.
TACTICAL COMBAT MEDICAL CARE (TCMC)

Description: The TCMC course is based upon the injury patterns of combat casualties and the constraints to deliver medical care on the battlefield and in urban warfare. Students will train on the concepts of tactical combat medical care given realistic scenarios, to include Army equipment, supplies, and evacuation capabilities during combat. The course includes didactic instruction in casualty care at the point of injury, triage, primary and secondary survey of combat casualties, combat airway management, combat extremity trauma, combat chest trauma, combat thermal burns, combat blood transfusions, combat extremity trauma, antibiotics and pain control in the combat environment, splinting and dressing workshop, and combat fluid maintenance. Practical exercises are conducted in airway management, treatment of extremity trauma, treatment of combat chest wounds, packing of medical treatment bags, lifesaving emergency surgical skills, and the evaluation and management of mass casualties utilizing simulated combat casualty scenarios.

Special Information: All requests for training must be submitted to: TCMC Program Manager, by faxing DA Form 3838 (Application for Short Course Training) to COMM: 210-221-5772 or DSN: 471-5772. **Requests must be made at a minimum of 30 days prior to class start date. Once attendees are approved, the program manager will notify the applicant's unit. This course is centrally funded for active duty service members. There is no central funding for Army National Guard (ARNG) or US Army Reserve (USAR) Soldiers unless currently activated under Title 10. Otherwise, the Soldier's unit must provide the funding for travel, lodging, per diem, and local transportation for the duration of the course. Training will convene at 0700 on Monday and conclude no earlier than 1800 on Friday of the training week. Students should be authorized to arrive at FSH on the Sunday prior to the class starting and to depart on following Saturday. The Program Manager can be reached at DSN: 471-5751 or COMM: 210-221-5751. For further information regarding the course: https://www.us.army.mil/suite/page/312889.
The DBHS designs and trains the most current, evidenced-based behavioral health-related training to the military medical force and the US Army to support full spectrum operations.

**5H-F4/302-F4**

**USA DRUG & ALCOHOL REHAB TNG–INDIVIDUAL**

**Location School Code: 081**

**Length:** 2 weeks

**Description:** To provide selected military personnel and Department of the Army Civilians (DACs) with a working knowledge of a specific individual counseling model and techniques necessary to effectively counsel individual patients in the Army Substance Abuse Program (ASAP).

**Special Information:** All interested personnel must meet the specific selection criteria listed above and be officially nominated by the clinical director (CD) or supervisor. All USAR and ARNG nominations will be routed to the AHS, Family Advocacy and Alcohol and Drug Branch after the approval for attendance and local funding. The USAR and ARNG personnel who arrive without prior coordination may be denied entry if the course is full. The Active Component (AC) nominees will be funded by the AHS. The USAR nominees will be funded through normal Reserve channels (i.e., Reserve Pay Allowances/Schools, Special Training Branch, and USA Forces Command (FORSCOM) Comptroller). The ARNG nominees will be funded by the ARNG Operating Activity Center, (NGB-ARO-ME), Building (Bldg.) 688, APG, MD 21010-5420.

Orders/Documentation: All nominees should have sufficient copies of orders and other documents during course registration. This course can only be attended once every three years. Additional detailed information will be provided by the Family Advocacy and Alcohol and Drug Branch upon official nomination and selection for course attendance. Waivers for the course prerequisites will be considered on a case-by-case basis through the following procedures: 1. Requests for waivers will be generated by the installation CD or direct supervisor, and will include complete nomination data and waiver justification. This information will be sent to the Family Advocacy and Alcohol and Drug Branch, AHS. 2. In all cases, waiver applications must be received by Family Advocacy and Alcohol and Drug Branch, AHS no later than 12-weeks prior to class report date. Enlisted MOS 68X must complete 5H-F4/302-F4 prior to completing the 5H-F5/302-F5, USA Drug and Alcohol Rehabilitation Training (USADART) (Group) course to be awarded the ASI M8 Drug and Alcohol Counselor. Course specific information can be obtained at DSN: 471-6915 or COMM: 210-221-6915.

**5H-F5/302-F5**

**USA DRUG & ALCOHOL REHAB TNG–GROUP**

**Location School Code: 081**

**Length:** 2 weeks

**Description:** The 68X M8, 5H-F5/302-F5 USADART (GROUP), course is a two-week course offered three times annually. It is taught under the auspices of the US AMEDDC&S by personnel from the DBHS, Family Advocacy and Alcohol and Drug Branch. The course provides military and DAC personnel a working knowledge of group counseling skills. The M8 (Drug and Alcohol Counselor) additional skill identifier (ASI) will be awarded to enlisted personnel after successful completion of the course. To earn the M8 ASI, one must complete both the individual counseling course (5H-F4) and group counseling course (5H-F5). Each course is 2-weeks in length and conducted separately. Upon completion of both courses, graduates will be awarded ASI M8.
Special Information: All applicants must be officially nominated by the CD or supervisor. The USAR nominations will be routed to the AHS, Family Advocacy and Alcohol and Drug Branch following approval and local funding. The AA nominees will be funded by AHS. The USAR nominees will be funded through normal Reserve channels (i.e., Reserve Pay allowances/Schools, Special Training Branch, FORSCOM Comptroller). The ARNG nominees will be funded by the ARNG Operating Activity Center, (NGB-ARO-ME), Bldg. 688, APG, MD 21010-5420. All nominees should have sufficient copies of orders and other required documents at registration. This course may be attended every five years. Additional detailed information will be provided by the Family Advocacy and Alcohol and Drug Branch upon official nomination and selection for course attendance.

Waivers for the course prerequisites will be considered on a case-by-case basis through the following procedures: 1. Waiver request will be generated by the installation CD or direct supervisor, and will include complete nomination data and waiver justification. This information will be sent to the Chief, Family Advocacy and Alcohol and Drug Branch, AHS. 2. Waivers must be received at Family Advocacy and Alcohol and Drug Branch, DBHS, AHS no later than 12-weeks prior to class report date. Enlisted MOS 68X must complete 5HF4/302-F4 prior to completing the 5H-F5/302-F5, USA Drug and Alcohol Rehabilitation Training (USADART) (Group) Course to be awarded the ASI M8 Drug and Alcohol Counselor. Course specific information can be obtained at DSN: 471-6915 or COMM: 210-221-6915.

5H-F6
ARMY SUBSTANCE ABUSE PGM MANAGEMENT

Location School Code: 081  Length: 1 week

Description: The 5H-F6 ASAP Management course is a 1-week functional course offered once annually. It is taught under the auspices of the US AMEDDC&S, AHS, by contracted guest speakers and personnel from the Family Advocacy and Alcohol and Drug Branch, DBHS. The course provides installation CDs and clinical supervisors with ASAP management responsibilities with a working knowledge in the management and administration of the installation ASAP.

Special Information: All interested personnel must be officially nominated by the installation commander or equivalent headquarters. All USAR and ARNG nominations will be routed to the US AMEDDC&S, AHS, Family Advocacy and Alcohol and Drug Branch, DBHS and the approval for attendance and local funding. The USAR and ARNG personnel who arrive without prior coordination may be denied entry if the course is full. The AC nominees will be funded by the AHS. The USAR nominees will be funded through normal Reserve channels (i.e., Reserve Pay Allowances/Schools, Special Training Branch, FORSCOM Comptroller. The ARNG nominees will be funded by the ARNG Operating Activity Center, (NGB-ARO-ME), Bldg. 688, APG, MD 21010-5420. This course may be attended annually. Waivers for the course prerequisites will be considered on a case-by-case basis through the following procedures: 1. Requests for waivers will be generated by the Installation Commander and will include complete nomination data and waiver justification. This information will be sent to the Chief, Family Advocacy and Alcohol and Drug Branch, DBHS, AHS, AMEDDC&S. 2. In all cases, waiver applications must be received by DBHS, AHS no later than 12-weeks prior to class report date.
**5H-F7/302-F7**

**ARMY SBSTNC ABUSE PGM FAMILY COUNSELING**

**Location School Code: 081**

**Description:** The 5H-F7/302-F7 ASAP Family Counseling course is a 2-week course offered every other year. It is taught under the auspices of the US AMEDDC&S, AHS, by contracted guest speakers and personnel from the Family Advocacy and Alcohol and Drug Branch, DBHS. The course provides selected military and DAC personnel with a working knowledge of a specific family counseling model and techniques necessary to effectively counsel families in the ASAP. Course instruction is presented through conferences and practical exercises.

**Special Information:** All personnel officially nominated by the CD or supervisor. All USAR and ARNG nominations will be routed to the AHS, Family Advocacy and Alcohol and Drug Branch, DBHS after the approval for attendance and local funding. The USAR and ARNG personnel who arrive without prior coordination may be denied entry if the course is full. The USAR nominee will be funded by the AHS. The ARNG nominee will be funded through normal Reserve channels (i.e., Reserve Pay Allowances and Schools, Special Training Branch, FORSCOM Comptroller). The ARNG nominee will be funded by the ARNG Operating Activity Center, (NGB-ARO-ME), Bldg. 688, APG, MD 21010-5420. All nominees should have sufficient copies of orders and other documents during course registration. This course may be attended every 5-years. Additional detailed information will be provided by the Family Advocacy and Alcohol and Drug Branch, DBHS upon official nomination and selection for course attendance. Waivers for the course prerequisites will be considered on a case-by-case basis through the following procedures: 1. Requests for waivers will be generated by the installation CD or direct supervisor, and will include complete nomination data and waiver justification. This information will be sent to the Chief, Family Advocacy and Alcohol and Drug Branch, DBHS, AHS. 2. In all cases, waiver applications must be received by Family Advocacy and Alcohol and Drug Branch, DBHS AHS no later than 12-weeks prior to class report date.

---

**5H-F9**

**ASAP CLINICAL CONSULTANT/MED REVIEW OFCR**

**Location School Code: 081**

**Description:** The 5H-F9 Clinical Consultant/Medical Review Officer (CC/MRO) course is 1-week and is offered once annually. It is taught under the auspices of the US AMEDDC&S, AHS, by contracted guest speakers and personnel from the Family Advocacy and Alcohol and Drug Branch, DBHS. The course provides installation CC/MRO with a working knowledge in the management and administration of installation ASAP.

**Special Information:** All interested personnel must meet the specific selection criteria listed above and be officially nominated by the installation commander or equivalent headquarters. The AC nominees will be funded by AHS, AMEDDC&S. All nominees should have sufficient copies of orders and other documents during course registration. This course may be attended annually. Additional detailed information will be provided by the Family Advocacy and Alcohol and Drug Branch, upon official nomination and selection for course attendance. Waivers for the course prerequisites will be considered on a case-by-case basis through the following procedures: 1. Request for waivers will be generated by the installation commander and will include complete nomination data and waiver justification. This information will be sent to the Chief, Family Advocacy and Alcohol and Drug Branch, DBHS. 2. In all cases, waiver applications must be received by DBHS no later than 12-weeks prior to class report date. Course specific information can be obtained at DSN: 471-6915 or COMM: 210-221-6915.
**5H-F10/302-F10**

**ARMY SUBSTANCE ABUSE PGM ADVANCED COUNSELING**

**Location School Code: 081**

**Length: 1 week**

**Description:** The 5H-F10/302-F10 ASAP Advanced Counseling course is 1-week and is offered 3 times annually. It is taught under the auspices of the US AMEDDC&S, AHS, by contracted guest speakers and personnel from the Family Advocacy and Alcohol and Drug Branch, DBHS. The course provides ASAP counselors with a foundation of current information and skills that help them develop a treatment program/plan within the ASAP for substance abusers.

**Special Information:** All interested personnel must meet the specific selection criteria listed above and be officially nominated by the CD or supervisor. All USAR and ARNG nominations will be routed to the US AMEDDC&S, AHS, Family Advocacy and Alcohol and Drug Branch, DBHS after the approval for attendance and local funding. The USAR and ARNG personnel who arrive without prior coordination may be denied entry if the course is full. The AC nominees will be funded by the AHS. The USAR nominees will be funded through normal Reserve channel (i.e., Reserve Pay Allowances/Schools, Special Training Branch, FORSCOM Comptroller). The ARNG nominees will be funded by the ARNG Operating Activity Center, (NGB-ARO-ME), Bldg. 688, APG, MD 21010-5420. All nominees should have sufficient copies of orders and other documents during course registration. This course may be attended every 3-years. Additional detailed information will be provided by the Family Advocacy and Alcohol and Drug Branch, DBHS upon official nomination and selection for course attendance. Waivers for the course prerequisites will be considered on a case-by-case basis through the following procedures: 1. Request for waivers will be generated by the installation commander and will include complete nomination data and waiver justification. This information will be sent to the Chief, Family Advocacy and Alcohol and Drug Branch. 2. In all cases, waiver applications must be received by Family Advocacy and Alcohol and Drug Branch no later than 12-weeks prior to class report date. Course specific information can be obtained at DSN: 471-6915 or COMM: 210-221-6915.

**5H-F20/302-F20**

**FAMILY ADVOCACY STAFF TNG (FAST)**

**Location School Code: 081**

**Length: 1 week**

**Description:** This course provides a basic orientation for newly assigned personnel working directly and indirectly in the area of Family Advocacy. Training encompasses management and efficient use of all available resources in preventing, identifying, investigating, and treating the victims and offenders of child maltreatment and spouse abuse. Course work includes training on Army Central Registry, Child Sexual Abuse, DoD Family Advocacy Program implementation, Prevention of Child Abuse, Cultural Competence, FAP Legal issues, case investigations, incident summaries, case review committee, and Decision Tree Algorithm.

**Special Information:** To register for the FAP FAST course, a self-nomination request process is available at the AMEDD Department of Behavioral Health Science (DBHS) web portal at https://ke2.army.mil/DBHS/default.aspx under the Family Advocacy Program & Drug tab or by calling DSN 471-6536/8703 OR COMM: 221-221-6536/8703. Nominee will not be admitted to FAST resident course until completion certificate is received for the FAST dL course. The Institute of Continuing Education provides continuing education units (CEUs) for the successful completion of this training, and is an approved CEU provider with the American Psychological Association (APA), the Association of Social Work Boards (ASWB) and the National Board for Certified Counselors (NBCC).
5H-F22/302-F22
FAMILY ADVOCACY PROGRAM (FAP) TEAM BUILDING

School Code: 081 Length: 2 days

Description: This specialized intensive training provides classes that offer the student the experience of learning the correct protocol for managing Family Advocacy cases using the mandatory spouse and child abuse assessment methodology from MEDCOM. The students will also receive intensive training in problem solving and small group dynamics. The primary thrust of training will be devoted to updating the student on recent developments in theory in research in child and spouse abuse assessment and case management.

Special Information: This course has been initiated under the direction of the Social Work consultants to the Surgeon General of the Army and FAPM, Community and Family Support Center, DA. The FAPM, DA, has approved and funded this multidisciplinary team training. The Family Advocacy and Alcohol and Drug Branch, DBHS, AMEDDC&S, was asked to accomplish the training by developing a 2-day course that would accomplish the DA initiatives for this course.

The FAP team member will be provided with comprehensive training in their working environment, with the team members they work with on a daily basis. We are able to train entire Case Review Committees (teams) at the Base Support Battalion (Bn.) and area support group levels overseas (installation level in CONUS) rather than one or two members. This will greatly enhance communication and problem solving between the FAP team members and contribute to a uniform standard of practice across the Army.

5H-F23
FAMILY ADVOCACY PROGRAM CLINICAL SUPERVISOR

School Code: 081 Length: 3 days

Description: This 5H-F23/302-F23 FAP Clinical Supervisor Course is a 3-day functional course offered annually. It is taught under the auspices of the US AMEDDC&S, AHS, by personnel from the Family Advocacy and Alcohol and Drug Branch, DBHS. The course provides FAP clinical supervisors with experiential learning by breaking into problem-solving small groups, as well as, interactive lectures to equip the clinical supervisors with a working knowledge in the management, supervision, and administration of FAP personnel. The course also provides opportunities for professional networking with both peers and experienced Social Work leaders.

Special Information: All interested personnel must be officially nominated by the Installation Commander or equivalent headquarters. All USAR and ARNG nominations will be routed to the US AMEDDC&S, AHS, Family Advocacy and Alcohol and Drug Branch, DBHS, after the approval for attendance and local funding. The USAR and ARNG personnel who arrive without prior coordination may be denied entry if the course is full. The AC nominees will be funded by the AHS. The USAR nominees will be funded through normal Reserve channels (i.e., Reserve Pay Allowances/Schools, Special Training Branch, FORSCOM Comptroller. The ARNG nominees will be funded by the ARNG Operating Activity Center, (NGB-ARO-ME), Bldg. 688, APG, MD 21010-5420. All nominees should have sufficient copies of orders and other documents during course registration. Additional detailed information will be provided by the Family Advocacy and Alcohol and Drug Branch upon official nomination and election for course attendance. Waivers for the course prerequisites will be considered on a case-by-case basis through the following procedures: 1. Requests for waivers will be generated by the MTF/Installation Commander and will include complete nomination data and waiver justification. This information will be sent to the Chief, Family Advocacy and Alcohol and Drug Branch,
DBHS, AHS, AMEDDC&S. In all cases, waiver applications must be received by Family Advocacy and Alcohol and Drug Branch, AHS, no later than 12-weeks prior to class report date.

**5H-F24/302-F23**

**FASTA MULTI-VICTIM CASES OF CHILD SEXUAL ABUSE**

**Location School Code: 081**  
**Length: 1 week**

**Description:** This Family Advocacy Staff Training Advanced (FASTA) course provides classes in multi-victim cases of child sexual abuse. The blocks of instruction within this area concentrate on the prevention and management of child sexual abuse.

**Special Information:** Applications will be forwarded through the installation FAPM and the appropriate MACOM to the Dean, AHS, ATTN: HSHA-MB, FSH, TX 78234-6185, at least 60-days prior to report date of class.

**5H-F25/302-F24**

**FASTA SPOUSE ABUSE TREATMENT**

**Location School Code: 081**  
**Length: 1 week**

**Description:** The 5H-F25/302-F24, FASTA Spouse Abuse Treatment training provides classes on spouse abuse intervention and treatment.

**Special Information:** Applications will be forwarded through the installation FAPM and the appropriate MACOM to the Dean, AHS, ATTN: HSHA-MB, FSH, TX 78234-6185, at least 60-days prior to report date of class. Course specific information can be obtained at DSN: 471-6536/8703 or COMM: 210-221-6536/8703.

**5H-F26/302-F25**

**FASTA CHILD ABUSE**

**Location School Code: 081**  
**Length: 1 week**

**Description:** This course provides classes on advanced clinical intervention strategies in cases of child abuse.

**Special Information:** Course specific information can be obtained at DSN: 471-6536/8703 or COMM: 210-221-6536/8703.

**5H-F27/302-F26**

**FASTA FORENSIC CHILD SEXUAL ABUSE**

**Location School Code: 081**  
**Length: 1 week**

**Description:** The 5H-F27/302-F26, FASTA Forensic Child Sexual Abuse training provides advanced instruction on clinical treatment issues for children and families affected by intra-familia child sexual abuse.

**Special Information:** Applications will be forwarded through the installation FAPM and the appropriate MACOM to the Dean, AHS, ATTN: HSHA-MB, FSH, TX 78234-6185, at least 60-days prior to report date of class.
FASTA PREVENTION

Location School Code: 081

Description: The 5H-F28/302-F27, FASTA Prevention training provides classes on family violence cases and the procedures for responding to acts of family violence in DoD operated/regulated activities. The instruction within this course concentrates on prevention by various programs for spouses, parents, and children to include law enforcement crime prevention.

Special Information: Applications will be forwarded through the installation FAPM and the appropriate MACOM to Dean, AHS, ATTN: SHA-MB, FSH, TX 78234-6185, at least 60 days prior to report date of class.

BEHAVIORAL SCI CONSULTATION TEAM TNG(DL)(P) Phase 1

Location School Code: 555

Description: To provide relevant, doctrinally sound, standardized training that is flexible and responsive from a Center of Excellence model informed by behavioral science data, emerging theory and research in areas of educing information (i.e., drawing out information through interviewing, debriefing, interrogation, etc.), as well as lessons learned from detainee/interrogation operations. The course provides training in the knowledge, skills, and communications techniques during detainee/interrogation operations. The competencies emphasized the course include support of safe, legal, ethical, and effective detainee operations.

Special Information: Students must self-enroll. This phase (dL) must be completed prior to reporting to the in-residence phase of the Behavioral Science Consultation Team Training. The dL phase will be conducted at the Digital Training Facility (DTF), Soldier's home, unit or office. The dL phase will be completed prior to the in-residence phase.

The dL phase consists of five documents and six DVDs to be reviewed and responded to (response questions are sent with dL package). Video materials must be returned to us for use with future courses.

BEHAVIORAL SCIENCE CONSULTATION TEAM TRNG (P) Phase 2

Location School Code: 081

Description: To provide relevant, doctrinally sound, standardized training that is flexible and responsive from a Center of Excellence model informed by behavioral science data, emerging theory and research in areas of educing information (i.e., drawing out information through interviewing, debriefing, interrogation, etc.), as well as lessons learned from detainee/interrogation operations. The course provides training in the knowledge, skills, and communication techniques during detainee/interrogation operations. The competencies emphasized in the course include support of safe, legal, ethical, and effective detainee operations.

Special Information: Students must self-enroll for phase 1 dL, and it must be completed prior to reporting to the resident phase of the course.

The dL phase will be conducted at the DTF, Soldier's home, unit, or office. The dL phase will be completed prior to the in-residence phase.

The dL phase consists of five documents and six DVDs to be reviewed and responded to (response questions are sent with DL package). Video materials must be returned to us for use with future course.
6H-F42
POST TRAUMATIC STRESS DISORDER (EMDR)

Location School Code: 081  
Length: 1 week

Description: Post Traumatic Stress Disorder (PTSD) training for Eye Movement Desensitization and Reprocessing (EMDR) treatment modality is designed to provide education and clinical support to clinical providers from various major MTFs. The training focuses on how to use EMDR effectively with clients who have been diagnosed with PTSD. The EMDR course is a 5-day training that addresses signs and symptoms of PTSD and appropriate use of treatment modality in working with the population. The training consists of didactic and role play scenarios providing the clinician with hands on experience in the application of the modalities strategies.

Special Information: This is a functional course. To register for the course, contact DBHS, FSH, TX, PTSD section, COMM: 210-221-6919.

6H-F43
POST TRAUMATIC STRESS DISORDER (CPT)

Location School Code: 081  
Length: 3 days

Description: Post Traumatic Stress Disorder training for Cognitive Processing Therapy (CPT) provides education and clinical support to clinical providers from various major MTFs. The course focuses on how to use CPT effectively with clients who have been diagnosed with PTSD. The course addresses signs and symptoms of PTSD and appropriate use of treatment modality when working with the population. In addition, students learn how problematic cognitions and the effect these cognitions have on emotional responses and behaviors in regards to PTSD and their client. The training consists of didactic and role play scenarios providing the clinician with hands on experience in the application of modalities strategies.

Special Information: To register for the PTSD CPT course, contact DBHS, AHS, FSH TX, PTSD section, COMM: 210-221-6919.

6H-F44
POST TRAUMATIC STRESS DISORDER (PET)

Location School Code: 081  
Length: 4 days

Description: This course is to provide proven modalities of treatment for PTSD. These modalities of treatment have been found effective for the treatment of PTSD according to Veterans Affairs Clinical Practice Guidelines. The course ensures compliance with policies, procedures, requirements, and responsibilities set forth in the MEDCOM Operation Order #077-55, Implementation of Post Traumatic Stress Disorder Program, in accordance with Army Medical Action Plan (AMAP), July 2007, Para. 3.d.(4).(e.).

Prolonged Exposure Therapy authored by Dr. Foa is a 12 session therapeutic treatment modality that has been highly validated through empirical research and shown to be very effective in the treatment of PTSD.

Special Information: To register for the PE Therapy course, call 210-221-7446/7462 or DSN 471-7446/7462. This training can be presented as a Mobility Training Team as required, based on the availability of instructors, by contacting the PE Therapy Training Course Manager at 210-221-7446/7462 or DSN 471-7446/7462.
**61-F9/302-F31**

**COMBAT AND OPERATIONAL STRESS CONTROL (COSC)**

**Location School Code: 081**

**Description:** This Combat and Operational Stress Control (COSC) course consists of a 5-day didactic and practical exercise event designed to provide a behavioral health-related "train-up" for behavioral health assets and other healthcare providers. Course content includes COSC historical overview, COSC doctrine, COSC triage, integrating COSC/behavioral health assets, implementing a COSC prevention program, DoDI 6490.1 (command directed mental health evaluation), conducting a COSC unit needs assessment, provider resiliency training, traumatic event management, behavioral health treatment, Soldier restoration and reconditioning, COSC stabilization, consultation and education, Battlemind products, ASAP issues, and current theater updates.

**Special Information:** This course is not authorized to be used as an MOS reclassification course. The intent of this and other Battlemind Training Office (BTO) programs is to establish Battlemind training throughout the US Army as the premier and preferred training system for Soldiers, leaders, and Soldier-support systems. The Dean, AHS, FHS, TX 78234-6100 will be the proponent for development, maintenance and dissemination of Battlemind Training to units and installations. The Walter Reed Army Institute for Research (WRAIR) will consult with USA MEDCOM, AMEDDC&S and the Center for Health Promotion and Preventive Medicine (CHPPM).

To enroll in the course please go to [www.Battlemind.army.mil](http://www.Battlemind.army.mil) or contact COMM: 210-221-6837 or DSN: 471-6837 or COMM: 210-221-6930 or DSN: 471-6930. Course specific information can be obtained at DSN: 471-8342 or COMM: 210-221-8342.

---

**61-F14**

**COGNITIVE BEHAVIORAL CONJOINT THERAPY (CBCT)**

**Location School Code: 081**

**Description:** Cognitive-Behavioral Conjoint Therapy (CBCT) for PTSD is a disorder-specific intervention that targets the cognitive and behavioral mechanisms posited to underlie both posttraumatic stress disorder and relationship difficulties. The CBCT is a 2-day (16 hour) training that is based in Cognitive Processing Therapy (CPT) and will address signs and symptoms of PTSD and appropriate utilization of the treatment modality. The CBCT for PTSD course includes psycho education, skills training and cognitive restructuring. During the course, it will be reiterated that CBCT for PTSD is based on a recovery model of PTSD and evidence that PTSD symptoms are not considered to "develop" over time like many other mental health conditions that have early warning signs. Learning will occur through didactic instruction and practical exercises. Upon course completion, providers will have been provided the skills, clinical support and knowledge to implement CBCT therapy immediately at their assigned MTFs as required by Headquarters, United States Army Medical Command (USAMEDCOM).

**Special Information:** To register for the CBCT course, a self-nomination request process is available at the AMEDD Department of Behavioral Health Science (DBHS) web portal at [https://ke2.army.mil/DBHS/Default.aspx](https://ke2.army.mil/DBHS/Default.aspx) under the Post Traumatic Stress & Resiliency Training Branch tabs, or by calling 210-221-6060 or DSN 471-6060.

The Office of the Surgeon General established OPERATION ORDER 07-55 (MEDCOM Army Medical Action Plan (AMAP), provides the justification for the development of this course, to ensure that all Army Active Duty and Reserve (deploying/ active duty status) Social Work personnel, Nurse Case Managers, Psychiatric Nurses, and Psychiatric Nurse Practitioners (including DA civilians and contractors) who are not mTBI/PTSD trained
are identified NLT 15 Jun 07 to attend mTBI/PTSD training in order to identify Warriors with mTBI/PTSD and to ensure the Warriors receive proper care and treatment.

**6I-F15/302-F33**

**TRAUMATIC EVENT MANAGEMENT (TEM)**

**Location** School Code: 081  
**Length:** 1 week

**Description:** The TEM Facilitator course is designed to train TEM facilitators, primarily targeting behavioral health providers and unit ministry teams, on providing traumatic event management to units that are exposed to potentially traumatic events (i.e., death of a unit member, witness to civilian mass casualty, etc.). The course will cover supporting individuals, supporting groups, making referrals, applying prevention measures, and conducting needs assessments after a potentially traumatic event. This course will allow ample opportunities for students to practice the new skills learned during the course.

**Special Information:** USAMEDCOM Operations Order 10-70, Comprehensive Behavioral Health System of Care - Campaign Plan, dated 21 September 2010, provides the justification for the development of this course. This course is open to personnel from all services and components serving in the previously mentioned roles. Course specific information can be obtained at DSN 471-8653 or COMM: 210-221-8653.

**26A-F54/27A-F54**

**STRUCTURED CHILD INTERVIEWING**

**Location** School Code: 081  
**Length:** 3 days

**Description:** Family Advocacy Program (FAP) Social workers and criminal investigators have a requirement to interview children to find out what happened during or preceding an incident that resulted in a FAP and/or law enforcement referral. Proper use of the National Institute of Child Health & Human Development (NICHD) guideline maximizes the amount of information from free-recall memory by using open-ended questions. Participants will enhance their practice competency by learning how to properly use both open-ended and focused questions. Focused questions are used to obtain essential, forensically relevant information not already provided by the child. This reduces the risk of contamination of the child's account by the interviewer. The goal is to "operationalize" the recommendations of professional advisory groups regarding optimal interviewing techniques and to maximize the interviewers' adherence to these procedures/guidelines.

**Special Information:** The course is listed on DBHS website at [https://ke2.army.mil/DBHS](https://ke2.army.mil/DBHS) under the Family Advocacy and Drug and Alcohol Button. Detailed instructions explaining how to self-nominate for the course are accessed by clicking on "How to Self- Nominate" located on the bottom of webpage. Once self-nomination is received, you will be notified if accepted for course attendance and a reservation coordinated with the ATRRS. Additional information can be obtained by calling 210-221-6628. Course is primarily offered on-site. To inquire how to bring the course to your installation, contact the number above.

**26A-F55/302-F55**

**EMBEDDED BEHAVIORAL HEALTH**

**Location** School Code: 081  
**Length:** 1 week

**Description:** The curriculum provides didactic and practical instruction and experiential exercises in the following fundamental areas including behavioral health confidentiality and ethics within the Army, military specific behavioral health evaluations (fitness for duty, special schools, security clearances, chapters, sanity boards, command directed mental health evaluations), commander's role, barriers to mental health care, risk
assessment, medical evaluation board, profiles, command consultation, and monitoring unit trends and working within FORSCOM environment.

**Special Information:** All requests for reserved seats should be submitted no later than 30-days of the class report date. Students will complete, in full, a DA Form 3838, Application for Short Course Training. For active officers, the request is forwarded by unit training personnel to the applicable branch manager at HRC. Active enlisted applicants and civilians (use SF 182) forward their requests to the EBHT program manager. Contact 210-221-6985 for additional course information. If selected for attendance you will be notified and reservation will be entered into the ATRRS. Interested ARNG or USAR personnel should contact assigned unit training NCO or ATRRS clerk who can submit the request via the ATRRS A-1 application process. The course is open to other services on a space available basis.

**26A-F60/300-F60**  
MASTER RESILIENCE TRAINER(MRT)-MEDICAL TTT

**Location** School Code: 081

**Description:** This course is 24-hours of education to MRT trainers from Medical Training Facilities (MTFs) focusing on issues specific to health care staff, to include knowledge of compassion fatigue and burnout, and how best to mediate these concerns through self-care techniques such as skill building of MRT’s competencies through assessing self-care needs, maintaining healthy boundaries, regulating compassion, and investing in short and long-term self-care goals to enhance personal and professional performance. Participants will have the opportunity to practice teaching skills to ensure material comprehension, and will learn specific examples to be utilized in the MRT-MED training course.

**Special Information:** Contact the Department of Behavioral Health at 210-221-8026 for enrollment information.
DEPARTMENT OF DENTAL SCIENCE (DDS)

The Department of Dental Science trains Soldiers for military occupations as Dental Assistants, Preventive Dentistry Specialists, Dental Laboratory Technicians and Non-Commissioned Officers, serves as Subject Matter Experts for dental issues and supports other civilian, officer and enlisted courses in the US AMEDDC&S.

330-F3(DL)
BASIC EXPANDED FUNCTIONS DENTAL ASSISTANT PHASE 1

Location School Code: 081          Length: 1 week

Description: The Basic Expanded Functions Dental Assistant Course is designed to train selected individuals to assist the Army Dental Care System in the provision of direct patient care. Target terminal skills for the EFDA include: placement of direct restorations following cavity preparation by a dentist; provision of hygiene services to patients who are, ideally, diagnosed with Periodontal Screening and Recording (PSR) scores of 0-2; and other miscellaneous, reversible procedures in support of dental care. This is a three phase course. Phase 1 is a 12-hour dL phase via Internet that the student must complete prior to reporting to the AHS, AMEDDC&S, FSH, TX. Phase 2 is a 1-week resident course taught at AHS, AMEDDC&S, FSH. In phase 3, the student will return to his/her place of duty to perform on-the-job-training. The entire course, lasting up to 30 months, combines distance learning, direct instruction from the DDS, AMEDDC&S, and close, individual mentorship by Designated Trainers (DT) in the clinical phase of training.

Phase Scope: During phase 1, students will access the DENCOM website and download study material covering topics such as cavity classification, dental restorative materials, oral infections, oral disease, basic dental anatomy and a course overview. The student is expected to become thoroughly familiar with this material, and will take an examination over the content shortly after arrival at phase 2.

Special Information: Course specific information can be obtained at: DSN: 471-7544 or COMM: 210-221-7544.

330-F3
BASIC EXPANDED FUNCTIONS DENTAL ASSISTANT PHASE 2

Location School Code: 081          Length: 1 week

Description: The Basic Expanded Functions Dental Assistant Course is designed to train selected individuals to assist the Army Dental Care System in the provision of direct patient care. Target terminal skills for the EFDA include: placement of direct restorations following cavity preparation by a dentist; provision of hygiene services to patients who are, ideally, diagnosed with PSR scores of 0-2; and other miscellaneous, reversible procedures in support of dental care. This is a three phase course. Phase 1 is a 12 hour dL phase via Internet that the student must complete prior to reporting to the AHS, AMEDDC&S, FSH, TX. Phase 2 is a 1 week resident course taught at AHS, AMEDDC&S, FSH. In phase 3, the student will return to his/her place of duty to perform on-the-job-training. The entire course, lasting up to 30 months, combines dL, direct instruction from the DDS, AMEDDC&S, and close, individual mentorship by DT in the clinical phase of training.

Phase Scope: Phase 2 is resident training conducted at the AHS, FSH, TX or at another training site, which consists of 5 days of mostly hands-on training. Students will place class I, II, and V amalgam and class III and V composite and composite/glass ionomer restorations in both simulated (typhodont) and extracted teeth.
Students must demonstrate adequate performance on test restorations in order to continue on to phase 3.

**Special Information:** Course specific information can be obtained at: DSN: 471-7544 or COMM: 210-221-7544.

---

**330-F3**  
**BASIC EXPANDED FUNCTIONS DENTAL ASSISTANT PHASE 3**

**Location** School Code: 081  
**Length:** 26 weeks

**Description:** The Basic Expanded Functions Dental Assistant Course is designed to train selected individuals to assist the Army Dental Care System in the provision of direct patient care. Target terminal skills for the EFDA include: placement of direct restorations following cavity preparation by a dentist; provision of hygiene services to patients who are, ideally, diagnosed with PSR scores of 0-2; and other miscellaneous, reversible procedures in support of dental care. This is a three phase course. Phase 1 is a 12 hour dL phase via Internet that the student must complete prior to reporting to the AHS, AMEDDC&S, FSH, TX. Phase 2 is a 1-week resident course taught at AHS, AMEDDC&S, FSH. In phase 3 the student will return to his/her place of duty to perform on-the-job-training. The entire course, lasting up to 30-months, combines dL, direct instruction from the DDS, AMEDDC&S, and close, individual mentorship by DTs in the clinical phase of training.

**Phase Scope:** Phase 3 is (Job-Site Training) which lasts for 6-months. The DENTAC Commander at each installation will appoint a dentist as the DT for each EFDA student. The DT will serve as a mentor, instructor, evaluator, and point of contact for this phase of the course. Upon the student's return from Phase 2, the DT will personally arrange clinical encounters for the coming months. Initially, the student will work slowly and should first attempt the least demanding procedures, such as mandibular class I amalgam restorations. Students may at first continue to practice on simulated or extracted teeth, and later begin direct patient care. The DT will arrange the schedule to accommodate the student's initial speed and skill in placing restorations. In addition, the DT will arrange the schedule so that, over the ensuing months, the student will encounter restorative cases of increasing difficulty, such as those which require visualization with the mouth mirror. The DT must submit monthly reports to DDS of students progress accessed through the DENCOM website. The student him/herself must document all restorations attempted during the six-month period. When the student has met the requirements of this phase (see Course 1, phase 3, requirements and criteria) listed in EFDA hyperlink on DENCOM website, and the student and DT confirm achievement of the necessary skill level; the DT may recommend noncompetitive promotion to 0681-GS-05.

**Special Information:** The role of the DDS is to track and monitor students progress, provide course completion information to the ATRRS and to coordinate for students diploma signed by the Dean, AHS, FSH, TX. Course specific information can be obtained at: DSN: 471-7544 or COMM: 210-221-7544.

---

**330-F4**  
**ADVANCED EXPANDED FUNCTIONS DENTAL ASSIST(DL) PHASE 1**

**Location** School Code: 081  
**Length:** 4 weeks

**Description:** The EFDA program is designed to train selected individuals to assist the ADCS in the provision of direct patient care. Target terminal skills for the EFDA include: placement of direct restorations following cavity preparation by a dentist; provision of hygiene services to patients who are, ideally, examined with a PSR score of 0-2; and other miscellaneous, reversible procedures in support of dental care. The entire course, lasting up to 30 months, combines dL, direct instruction from the DDS, AMEDDC&S, and close, individual mentorship by DT in the clinical phase of training.
Phase Scope: Phase 1 consists of 160 hours of independent study covering a multitude of topics pertaining to restorative and hygiene services. The student will be issued an EFDA independent study manual at the completion of 330-F3 Basic EFDA, phase 2. The material contained within this phase is quite voluminous, challenging, and will require significant time and effort to learn.

**Special Information:** Students should be enrolled in this phase 6-months prior to phase 2 attendance. The student must pass a written examination (at their home station administered by the Education Center) before attending phase 2 training. Course specific information can be obtained at: DSN: 471-7544 or COMM: 210-221-7544.

**330-F4**
**ADVANCED EXPANDED FUNCTIONS DENTAL ASSISTANT PHASE 2**
**Location School Code: 081**
**Length: 2 weeks**

**Description:** The EFDA program is designed to train selected individuals to assist the ADCS in the provision of direct patient care. Target terminal skills for the EFDA include: placement of direct restorations following cavity preparation by a dentist; provision of hygiene services to patients who are, ideally, examined with a PSR score of 0-2; and other miscellaneous, reversible procedures in support of dental care. The entire course, lasting up to 30 months, combines dL, direct instruction from the DDS, AMEDDC&S, and close, individual mentorship by DT in the clinical phase of training.

Phase Scope: Phase 2 is resident training conducted at the AHS, FSH, Texas or at another training site, which consists of two weeks of mostly hands-on training to perform treatment as prescribed in the treatment plan by the examining dentist. Activities/tasks performed in support hygiene services include: review of health history, oral hygiene instruction, periodontal screening and recording verification, blood pressure assessment, detection and removal of calculus and plaque, detection of pathological conditions, and fluoride treatment. Students must demonstrate adequate performance on test restorations and simulations in order to continue on to phase 3.

**Special Information:** Course specific information can be obtained at: DSN: 471-7544 or COMM: 210-221-7544.

**330-F4**
**ADVANCED EXPANDED FUNCTIONS DENTAL ASSISTANT PHASE 3**
**Location School Code: 081**
**Length: 26 weeks**

**Description:** The advanced EFDA program is designed to train selected individuals to assist the ADCS in the provision of direct patient care. Target terminal skills for the advanced EFDA include: placement of direct restorations following cavity preparation by a dentist; provision of hygiene services to patients who are, ideally, examined with a PSR score of 0-2; and other miscellaneous, reversible procedures in support of dental care. The entire course, lasting up to 30 months, combines dL, direct instruction from the DDS, AMEDDC&S, and close, individual mentorship by DT in the clinical phase of training.

Phase 3 is job-site training which lasts for 6-months. The DENTAC commander at each installation will appoint (or reappoint) a dentist and possibly a Registered Dental Hygienist (RDH) (an RDH may serve as the DT for the hygiene services) as the DTs. The DT will serve as mentor, instructor, evaluator, and POC for this phase of the course. Upon the student's return from phase 2, the DT will personally arrange the student's clinical encounters for the coming months, which must include complex restorative cases and hygiene care. The DTs must submit monthly reports of student progress accessed through the DENCOM website. The student him/herself must document all restorations attempted during this period. When the student has met the requirements of this phase (see course 2, phase 3, requirements and criteria) listed in advanced EFDA hyperlink on DENCOM website,
and the student and DT confirm achievement of the necessary skill level, the DT may recommend noncompetitive promotion to 0681-GS-06.

**Special Information:** The role of the DDS is to track and monitor student’s progress, provide course completion information to ATRRS, and to coordinate for student's diploma signed by the Dean, AHS, FSH, TX. Course specific information can be obtained at: DSN: 471-7544 or COMM: 210-221-7544.

---

**330-X2**  
**PREVENTIVE DENTISTRY SPECIALTY**

**Location School Code:** 081  
**Length:** 12 weeks

**Description:** To provide the student with the necessary knowledge and skills to perform the duties of a Preventive Dentistry Specialist under the supervision of a dental corps officer. Instructional objectives include, but are not limited to: performing oral hygiene prophylactic procedures; conducting individual oral disease control programs; applying pit and fissure sealants to the teeth; evaluating dental radiographs, and cleaning and sterilizing dental instruments and equipment.

**Special Information:** The RC Soldiers will arrive at FSH with the following items: MPRJ 201 file, medical record, dental record and complete basic clothing issue, to include running shoes. Students should report to C Company, 187th Medical Bn., Bldg. 2791, 2745 Harney Path, FSH, TX 78234. Submit application packet (DA Form 4187, Form 2 and 2-1, and commander's recommendation) through the appropriate channels to CDR, HRC, TAPC-EPT-F, 2461 Eisenhower Ave., Alexandria, VA 22331-0400. Request for waivers must be submitted to: CDR, AMEDDC&S, APPD, MCCS-DE, 2377 Greeley Rd., Ste. A, FSH, TX 78234-7584.

---

**6C-F1/331-F2**  
**DENTAL MANAGEMENT DEVELOPMENT COURSE (DMDC)**

**Location School Code:** 081  
**Length:** 1 week

**Description:** This course provides selected dental enlisted personnel and officers with leadership and personality assessment as well as additional skills and knowledge required to perform duties as an officer or NCO in charge of a dental treatment facility. Topics addressed include dental care optimization, corporate dental application, Officer Evaluation Report (OER)/Noncommissioned Officer Evaluation Report (NCOER), civilian personnel issues, labor management, practice guidelines, personnel utilization, property supply & budget management and expectations of Officer in Charge (OIC)s and NCOICs.

**Special Information:** This course will be taught by MTTs at the following locations: Seoul, Korea; Schofield Barracks, Hawaii; Heidelberg, Germany; Fort Lewis, Washington; Augusta, Georgia; and Walter Reed, Washington, D.C. A resident iteration will also be at AHS, FSH, TX. Submit DA Form 3838 with commander's recommendation through the appropriate channels to Chief, DDS, ATTN: MCCS-HD, Dean, AHS, 3151 Stanley Rd., Suite (Ste.) 1344, FSH, TX 78234-6134. Students must pass a written exam (70 percent correct) at the conclusion of the course to obtain credit for course completion.

---

**6C-F2**  
**BRIGADE DENTAL SURGEON COURSE**

**Location School Code:** 081  
**Length:** 1 week

**Description:** The course will prepare DCOs with the necessary training to prepare them for leading and managing in a deployed environment under combat conditions. Topics include Warrior tasks and battle drills, virtual combat convoy training, high-mobility multipurpose wheeled vehicle (HMMWV) extraction assistance
training, unexploded ordinance, liquid and ammunition casualties equipment reports, deployable medical system equipment, dental field equipment set-up, corporate dental application and tactical simulation center.

**Special Information:** 1. Primary location for training is Camp Bullis. 2. Successful completion of the course will be annotated on the Officer Record Brief (ORB).
DEPARTMENT OF HEALTH SUPPORT SERVICES (DHSS)

The DHSS provides the best education and training for the US Armed Forces in the technical and managerial aspects of health administration, finance, information management, patient administration, human resources management, and logistics, in both fixed and deployable medical systems.

26A-F56/311-F56
ENTERPRISE BLOOD MANAGEMENT SYSTEM

Location School Code: 081  
Length: 1 week

Description: The training will provide supervisors with advanced mastery skills of the Enterprise Blood Management System.

Special Information: Military applicants apply using the DA Form 3838, Application for Short Course Training. Civilians use the SF 182, Request, Authorization, Agreement and Certification for Training Form. Send request to usarmy.jbsa.medcom-ameddcs.mbx.chet-lab-branch@mail.mil. If selected for training, you will be notified and receive a reservation notification from the ATRRS. Reserve component apply using the A-1 application process. Other services contact the course POC for further information. Contact 210-221-7652 for additional course information.

311-68K10
MEDICAL LAB SPEC PHASE 2

Location School Code: 830, 831, 834, 835, 836, 837, 839, 840, 842, 843, 844, 845, 849, 850, 851, 856, 857, 860, 861, 862, 863, 864  
Length: 26 weeks

Description: The course provides graduates with the technical skills and knowledge necessary to achieve medical laboratory technician entry-level competencies, and meets the basic personnel requirements established by the Clinical Laboratory Improvement Amendments of 1988 and the DoD Clinical Laboratory Improvement Program. Graduates are qualified to take national certification examinations as medical laboratory technicians. The training program includes a phase 1 resident portion conducted at the US AMEDDC&S, FSH, TX and a phase 2 clinical practicum offered at accredited hospital laboratories. Technical subjects include clinical chemistry, urinalysis, hematology, immunohematology, immunology, bacteriology, parasitology, mathematics, and safety. Instruction during phase 1 is presented through conferences, discussions, case studies demonstrations, practical exercises, and written and practical examinations. During phase 2, students achieve psychomotor proficiency through structured hands-on training in a clinical setting. Course graduates earn MOS 681K or Navy Enlisted Classification (NEC) 8506.

Special Information: There is no special information available at the time of this publication; please review ATRRS at https://www.atrrs.army.mil/ for updated information.

313-68P10
RADIOLOGY SPECIALIST PHASE 2

Location School Code: 830, 831, 834, 835, 836, 837, 839, 840, 842, 843, 845, 847, 848, 849, 850, 851, 857, 860, 861, 862, 863, 864  
Length: 22 weeks

Description: Phase 2 (22 weeks): Applicatory clinical training under the supervision of qualified radiographers and radiologists at selected US Army medical facilities. Emphasis is to acquire competency in performing procedures/exams on actual sick and injured patients.
**Special Information:** There is no special information available at the time of this publication; please review ATRRS at [https://www.atrrs.army.mil/](https://www.atrrs.army.mil/) for updated information.

### 313-ASIM5
**CLINICAL NUCLEAR MED SPECIALTY PHASE 2**

**Location School Code:** 830, 834, 836, 837  
**Length:** 32 weeks

**Description:** Phase 2 (OJT) at various MEDCEN for Army Students (32 weeks). Upon successful completion of this course, graduates are awarded ASIM5.

**Special Information:** There is no special information available at the time of this publication; please review ATRRS at [https://www.atrrs.army.mil/](https://www.atrrs.army.mil/) for updated information.

### 313-F1
**RADIOLOGY MANAGEMENT COURSE PHASE 2**

**Location School Code:** 081  
**Length:** 1 week

**Description:** Provides supervisor/management training specific to a radiology department at a fixed medical facility (table of distribution allowance) (TDA) or radiology mission in a deployable medical facility (table of organization and equipment) (TOE). Topics include management of human and materiel resources, principles of planning and organizing radiology operations; quality assurance; risk management; leading edge medical imaging technology; information technology; and management of the clinical training component of the Radiology Specialist course. The course also includes introductory and reinforcement training in Chemical, Biological, Radiation, Nuclear, Explosive (CBRNE).

**Special Information:** Individual quotas are managed by the teaching proponent, Radiology Branch, DCSS, AHS. Forward applications to: DCSS, ATTN: MCCS-HCR, AHS, 3151 Scott Rd., Ste. 1311, FSH, TX 78234-6137, no later than 60-days prior to the start date of the course. The individual's unit is responsible for funding RC Soldiers.

### 4B-670A
**HEALTH SVCS WARRANT OFFICER BASIC**

**Location School Code:** 081  
**Length:** 6 weeks

**Description:** The course is designed to prepare Warrant Officers of the Army AC and RC to perform the technical and tactical tasks required of a specialty trained Health Services Maintenance Officer at the WO1/WO2 level and to certify their entitlement to be awarded the MOS 670A. The 4B-670A course provides instruction on the responsibilities of the Health Services Maintenance Technician: equipment management (maintenance and property), administrative functions, maintenance and property accounting concepts, equipment management systems, field medical training, automated information systems, logistics functions, and related general subjects. Students will receive training on field medical equipment, identifying electrical safety and power generation issues, and potential maintenance problems in a Deployable Medical Systems facility, located at Camp Bullis, TX.

**Special Information:** There is no special information available at the time of this publication; please review ATRRS at [https://www.atrrs.army.mil/](https://www.atrrs.army.mil/) for updated information.
513-68G10(RC)(DL)

PATIENT ADMINISTRATION SPECIALIST PHASE 1

Location School Code: 081          Length: 52 weeks

Description: The 513-68G10(RC) Patient Administration Specialist Course is a two-phased course that provides the foundational knowledge and skills necessary to perform Patient Administration Specialist (68G MOS). Phase 1 of the course provides training on the following components: Introduction to Patient Administration Functions; Medical Terminology; Keyboarding; Outpatient Records; Admissions and Dispositions; Inpatient Records; Patient Administration in the Theater of Operation; Patient Movement; MASCAL; Uniform Business Office; Other Patient Administration Functions; and Theater of Operations. Content acquired in phase 1 is the foundation for application during the two-week resident block of instruction.

Phase I of the Patient Administration Specialist (RC) (68G) course is a 90 hour web-based, Interactive Multimedia Instruction (IMI) "Blackboard" product. It is a self-paced learning product; however, the student will have a maximum of one year and a minimum of three months to complete the course. The course consists of 12-modules which must be completed in sequence and an independent key boarding lesson. This phase contains modules of content in which the student progresses through a lesson, completes the assessment and if provided completes a practical exercise. You must complete each module in sequence. All lessons in a module must also be completed in sequence to advance to the next lesson.

Special Information: The phase 1 web-based/CD dL training may be taken at the Soldier's unit, home, office, or in a Digital Training Facility (DTF) location listed at http://www.dls.army.mil/. Soldiers may take the course for self-development and refresher training. The ARNG and USAR SSGs' will receive a certificate of completion for attending this course, additional skill level 30 training is required to be awarded the MOS. Submit all waiver requests to: CDR, AMEDDC&S, APPD, MCCS-DE, 2377 Greeley Rd., Ste. A, FSH, TX 78234-5052.

513-68G10(RC)

PATIENT ADMINISTRATION SPECIALIST PHASE 2

Location School Code: 081          Length: 2 weeks

Description: The 513-68G10 (RC) Patient Administration Specialist Course provides a working knowledge of patient administration procedures, functions, and responsibilities. It covers all administrative parameters and procedures incidental to admission and disposition of patients; initiation, maintenance, and disposition of medical records; medical statistical reporting; birth/death reports and certificates; release/security of medical information and processing related correspondence; administrative support of patient movements/transfers, disability processing, and medical care evaluations.

Phase Scope: Phase 2 is the resident component of the 513-68G10 (RC) Patient Administration Specialist Course, conducted at the AHS, FSH, TX. Instruction covers administrative parameters and procedures incidental to admission and disposition of patients; initiation, maintenance, and disposition of medical records; medical statistical reporting; birth/death reports and certificates; release/security of medical information; processing related correspondence; administrative support of patient movements/transfers; disability processing; medical care evaluations, and management and monitoring of global patient movement using the US Transportation Command (TRANS.COM) Regulating And Command & Control Evacuation System (TRAC2ES). It includes mandatory CBRNE training and Ethics/Legal Considerations in Detainee Operations. Soldiers are trained to perform in the COE during a MASCAL training exercise that integrates 68G technical skills with Soldier Warrior tasks.
Special Information: The phase 1 "Blackboard" web based dL training may be taken at the Soldier's unit, home, office, or in a Digital Training Facility (DTF). Locations for DTFs can be found at http://www.dis.army.mil. Once a reservation is secured, you should receive a letter of instruction for launching of the course. If LOI not received in 30-days of enrollment, contact the Patient Admin Branch at 210-221-8555. To be awarded the MOS, successful completion of both phases is required. As an exception, ARNG and USAR SSGs will receive a certificate of completion for attending the 68G course; additional skill level 30 training as a 68G is required to be awarded the MOS.

Submit all waiver requests to: CDR, AMEDDC&S, APPD, (MCCS-DE), 1400 East Grayson St., FSH, TX 78234-5052.

551-68J10(RC)(DL)
MEDICAL LOGISTICS SPECIALIST (RC) PHASE 1

Location School Code: 081 Length: 52 weeks

Description: The course provides the basic knowledge and skills necessary to perform as a Medical Logistics Specialist at fixed treatment facilities and in a field environment. Major areas of concentration are: overview of the AMEDD, introduction to medical logistics, medical materiel storage, handling and safety procedures, quality control, introduction to publications and directives, introduction to property accountability, federal logistics, universal data repository, and manual and automated inventory management procedures.

Special Information: This is a two-phased course. Phase 1 is dL and phase 2 is 2-weeks of resident training. Go to https://www.atrrs.army.mil/. Scroll down under ATRRS Channels (right side of screen) and click on self-development. Under bulletin board, click on "Continue to self-development". The student has the option to use several logon options. Once the student is logged on, click on the pull down arrow to "Select a course." Scroll down to school code (fill in your school code here) and select the course number (fill in your course number here), (fill in your course title). Once the student clicks on the required course, the class schedule will appear. Click on class (fill in the class number here) and begin the enrollment process. Enrollment through ATRRS will create a reservation enrollment in ATRRS as proof of enrollment. ATRRS will generate an intermediate enrollment email while the student enrollment is processing. It takes up to 24 hours for the student's enrollment to process through ATRRS and the ALMS. Once the student enrollment processes through the ALM, an official enrollment email will be generated and sent to the student's email address that was part of the enrollment process. The official email will give the student the website for accessing courseware content and the final courseware examination. All course and module completions will be forwarded to ATRRS for annotation on the student's official ATRRS training record. 2. To ensure proper playing of this dL product, please refer to the ALMS Learner Log-in Instructions at: http://www.dls.army.mil/lms_learner-login.html. 3. To submit issues or questions regarding this product, please submit a trouble ticket to the ATHD: website: https://athd.army.mil. COMM: 800-275-2872 or 877-251-0730 Email: ask.athd@us.ar.

551-68J10(RC)
MEDICAL LOGISTICS SPECIALIST (RC) PHASE 2

Location School Code: 081 Length: 2 weeks

Description: The course provides the basic knowledge and skills necessary to perform as a Medical Logistics Specialist at fixed treatment facilities and in a field environment. Major areas of concentration are: overview of the AMEDD, introduction to medical logistics, medical materiel storage, handling and safety procedures, quality control (QC), introduction to publications and directives, introduction to property accountability, federal
logistics (FEDLOG), universal data repository (UDR), and manual and automated inventory management procedures.

Phase scope: Phase 2 major areas of concentration consist of FEDLOG, UDR, manual inventory management procedures, Theater Army Medical Management Information System (TAMMIS), defense medical logistics standard support customer assistance module, and CBRNE.

**Special Information:** This is a two-phased course. Phase 1 is dL and phase 2 is 2-weeks resident training. The ARNG and USAR SSGs' will receive a certificate of completion for attending this course, additional skill level 30 training is required to be awarded the MOS. Submit all waiver requests to: CDR, AMEDDC&S, APPD, MCCS-DE, 2377 Greeley Rd., Ste. A, FSH, TX 78234-5052.

6A-F7 (DL)
HEALTH SYSTEMS FUNCTIONAL PROPONENT PHASE 1

**Location School Code:** 081

**Length:** 6 weeks

**Description:** Prepares Information Management (IM) Functional Proponent Representatives (FPRs) to identify needs created by a documented deficiency or a desired change in business practice, to develop metrics for benefits realization, and to participate in life-cycle management decisions.

**Special Information:** Those desiring to attend the HSFPC will formally apply for the course using DA Form 3838, Application for Short Course Training. All applications will be encrypted to protect personally identifiable information and sent as an attachment to the HSFPC course manager. Call COMM: 210-221-6193 for email address. A separate DA Form 3838 will be used to apply for phase 1 and phase 2. Applicants will fill in appropriate entries in the heading and Sections I and II. The applicant's supervisor must fill in Section III, Training Approval. All applications for phase 1 will contain the following statement in Block 25, "I acknowledge that acceptance in phase 1 does not guarantee a reservation in phase 2. If selected for phase 2, I acknowledge that I may not receive my class of choice." All applications for phase 2, except for active duty Army officers stationed in the 50 US states, will contain the statement, "I acknowledge that my unit is responsible for all costs associated with attending this course." Additionally, all applicants must obtain an Army Knowledge Online (AKO) account prior to applying for phase 1.

Priority for selection to participate in course is based on those who currently serve or are projected to serve on a standing Tri-Service Working Group, SMEs who advise Tri-service Working Groups, as SMEs who represent their functional/business areas for an AMEDD operational or systems architecture, or as members of the clinical informatics community seeking the informatics special experience identifier N2. Others desiring to attend the course will be considered on a space-available basis.

The HSFPC is a two-phase program consisting of both nonresident and resident components. Phase 1 (nonresident) is a prerequisite for phase 2 (resident). Students have 6-weeks to complete phase 1. Selection for and completion of phase 1 does not guarantee a reservation in phase 2, the resident phase. Phase 2 (resident) is two-weeks in duration and is conducted at the AHS at FSH, TX. Only active duty Army officers stationed in the 50 US states are centrally funded to attend this course.
**6A-F7**

**HEALTH SYSTEMS FUNCTIONAL PROPONENT PHASE 2**

**Location School Code: 081**

**Length: 2 weeks**

**Description:** Prepares IM FPRs to identify needs created by a documented deficiency or a desired change in business practice, to develop metrics for benefits realization, and to participate in life-cycle management decisions.

**Special Information:** Those desiring to attend the HSFPC will formally apply for the course using DA Form 3838, Application for Short Course Training. All applications will be encrypted to protect personally identifiable information and sent as an attachment to the HSFPC course manager. Call 210-221-6193 for email address. A separate DA Form 3838 will be used to apply for phase 1 and phase 2. Applicants will fill in appropriate entries in the heading and Sections I and II. The applicant's supervisor must fill in Section III, Training Approval. All applications for phase 1 will contain the following statement in Block 25, "I acknowledge that acceptance in phase 1 does not guarantee a reservation in phase 2. If selected for phase 2, I acknowledge that I may not receive my class of choice. I also understand that billeting for the course is locally contracted by the AMEDDC&S to obtain the lowest rate and that the applicant will stay in contract billeting while attending the course." All applications for phase 2, except for active duty Army officers stationed in the 50 US states, will contain the statement, "I acknowledge that my unit is responsible for all costs associated with attending this course." Additionally, all applicants must obtain an AKO account prior to applying for phase 1.

Priority for selection to participate in course is based on those who currently serve or are projected to serve on a standing Tri-Service Working Group, as Subject Matter Experts (SMEs) who advise Tri-service Working Groups, as SMEs who represent their functional/business areas for an AMEDD operational or systems architecture, or as members of the clinical informatics community seeking the informatics special experience identifier N2. Others desiring to attend the course will be considered on a space-available basis.

The HSFPC is a two-phase program consisting of both nonresident and resident components. Phase 1 (nonresident) is a prerequisite for phase 2 (resident). Students have 6-weeks to complete phase 1. Selection for and completion of phase 1 does not guarantee a reservation in phase 2, the resident phase. Phase 2 (resident) is two-weeks in duration and is conducted at the AHS at FSH, TX. Only active duty Army officers stationed in the 50 US states are centrally funded to attend this course.

**6A-F9**

**AMEDD CLINICAL INFORMATION SYSTEMS**

**Location School Code: 081**

**Length: 1 week**

**Description:** This course will train-the-trainer on the instructor core competencies of facilitation, adult learning, teamwork, communication information systems utilized in medical treatment facilities. Existing course content for CHCS, AHLTA, Essentris, MS Power Point, MS Project, MS Excel, and ICDB/Carepoint will be utilized to expand competencies in utilization of the clinical information, and technical competencies in an effort to standardize training on the various systems.

**Special Information:** Incumbents have priority for allocations before new hires. To enroll for the training, submit a DA Form 1556 or SF 182 to Chief, Health Support Services, AMEDDC&S, 3630 Stanley Rd., FSH, TX 78234 or fax to 210-221-8711
**6H-F3/311-F3**

**JOINT BIO AGENT IDENTIFICATN & DIAGNOSTIC SYS**

**Location School Code: 081**

**Length: 2 weeks**

**Description:** This is a 2-week course currently taught at Brooks City Base in San Antonio, TX. The course includes lecture, performance exercises and performance exams. The material covered includes identification of biological threat agents, biological and chemical safety procedures, molecular principles, sample processing, and JBAIDS laboratory techniques, software, and maintenance. The course provides graduates with the technical skills and knowledge required to operate the JBAIDS.

**Special Information:** 1. This course is taught at Brooks City Base in San Antonio, TX in Bldg. #110, room 203, lecture room and assigned labs. 2. There is no official in and out Processing associated with this course. The students are in a TDY status and when they arrive at class, they are checked off the RITMS roster. Upon completing the course, they are given a certificate of completion. 3. Refer to DCSS for special information on billeting and other course information.

---

**6H-F19**

**NUCLEAR PHARMACY ORIENTATION**

**Location School Code: 836**

**Length: 1 week**

**Description:** Provides training in nuclear pharmacy principles and techniques, including a basic orientation in the use and safe handling of radioisotopes currently employed in the production of radiopharmaceuticals. Instruction covers nuclear pharmacy services and related support services; nuclear pharmacy operations and management; radiopharmaceuticals; radiological health management; nuclear medicine studies; and nuclear physics.

**Special Information:** A certificate of completion, which may be entered in the ORB, is awarded to graduates. A student does not graduate unless they meet the ISAP requirements.

---

**6H-F21**

**HEMATOLOGY/ONCOLOGY PHAR SERVICES**

**Location School Code: 836**

**Length: 1 week**

**Description:** This course provides a basic orientation on the use, handling, preparation, and administration of standard and investigational chemotherapeutic agents employed in support of hematology/oncology patients, and a basic understanding of the roles and responsibilities of oncology pharmacists. Major areas of instruction are chemotherapy order verification; drug storage and preparation; techniques of administration; program administration; and quality control. Special emphasis is placed on procedures and methods for handling/administering investigational agents and research protocol compliance. An examination of human use review procedures is included.

**Special Information:** A certificate of completion, which may be entered in the ORB, is awarded to participants who satisfy the requirements stated in the course ISAP.
MEDICAL INFORMATION MANAGEMENT PHASE 1

Location School Code: 081

Description: This course prepares IM professionals to execute IM missions in both fixed and field medical units. It provides a foundation in IM, technology, acquisition, business process reengineering, and resource management.

Phase scope: 6H-70D67, phase 1 dL, consists of 225.2 hours of nonresident web-based training and read-ahead materials with an emphasis in Microsoft Windows server and client operating systems; network administration, DoD tactical networks, basic electronics, mobile subscriber equipment, IT basic information systems acquisition, and information assurance, as well as other information to support phase 2 objectives.

Special Information: This course was established to meet the information management and information technology needs identified in the Recommendations for Reengineering Army Medical Department Information Management for the 21st Century (Task Force Mercury report, August 1996). Students will have up to 318-days to complete this dL phase, if more time is needed please contact the course manager at COMM: 210-221-8344. Proof of completion for dL must be provided to the program director or online course instructor. To enroll, fax a DA 3838 to HRC at COMM: 703-325-2392. POC for all USA (Troop Program Unit (TPU)/Individual Ready Reserve (IRR)/Individual Mobilization Augmentee (IMA) Soldiers is HRC, Health Services Directorate, 800-325-4729, option 2. Also Fax a copy to Information Management Training Branch at COMM: 210-221-6653.

MEDICAL INFORMATION MANAGEMENT PHASE 2

Location School Code: 081

Description: This course prepares IM professionals to execute IM missions in both fixed and field medical units. It provides a foundation in IM, technology acquisition, business process reengineering, and resource management.

Phase 2 consists of 6-weeks in residence. Areas of emphasis include medical information management, business process reengineering, information resource management, Microsoft Windows client and server operating system; network administration for fixed and field facilities, and information assurance.

Special Information: Student travel funds to AHS for active duty officers are provided via DHET/Commercial Ticket Program funds and should be coordinated through the IM Training Branch, DHSA. Their respective States will fund ARNG officers not on Title 10 orders. The USAR officer funding will come through HRC St. Louis. Local funds or career program manager provides civilian students funding.

HLTH SVC HUMAN RESOURCES MGR (HRM)(DL) PHASE 1

Location School Code: 081

Description: The 6H-70F67 course is conducted at the AHS, AMEDDC&S, FSH, TX. This course is a two-phased program consisting of both nonresident and resident components. The dL nonresident phase consists of 41 hours of web-based training through the Army Learning Management System (ALMS) and 2-weeks of hands-on training.
The course provides students with in-depth knowledge of the skills and abilities required to provide effective and efficient Human Resource services support to health care delivery in field or fixed medical treatment facilities, and in contingency operations. Course delivery methods include guest speakers, panel session, introduction to several computer human resource systems/databases and group exercises.

Special Information: 1. Course enrolled registering for phase 2 (residence) must complete phase 1 dL. For course information, call 210-221-6793. It is recommended all enrollees view the 70F HRM course page in AKO. Log into AKO, click the Groups button, and access the page through the search engine. Course enrollees may apply for phase 2 (residence) prior to completing phase 1 dL; however, enrollees must complete phase 1 prior to attending phase 2 (residence).

6H-70F67
HLTH SVC HUMAN RESOURCES MGR (HRM) PHASE 2

Location School Code: 081 Length: 2 weeks

Description: The 6H-70F67 course is conducted at the AHS, US AMEDDC&S, FSH, TX. This course is a two-phased program consisting of both nonresident and resident components. The dL nonresident phase consists of 41-hours of web-based training through the ALMS and two weeks of hands-on training.

The course provides students with in-depth knowledge of the skills and abilities required to provide effective and efficient human resource services support to health care delivery in field or fixed medical treatment facilities, and in contingency operations. Course delivery methods include guest speakers, panel session, introduction to several computer human resource systems/databases and group exercises.

Special Information: 1. Course enrollees may apply for phase 2 residence prior to completing phase 1 dL; however, enrollees must complete phase 1 dL prior to attending phase 2 residence. 2. Course enrollees must register for phase 2. For questions, please contact the 70F course director at 210-221-6793. It is recommended all enrollees view the 70F HRM course page in AKO. Log in to AKO, click the Groups button, and access the page through the search engine. Course enrollees must register for phase 2: a. COMPO 1: RA officers must submit a DA Form 3838, Application for Short Course Training, to the 70F Career Manager at HRCOE, Health Services Division, Medical Service Corp (MSC) Branch, Fort Knox, KY. Phase 2 reservations are based on an OML list. The 70F HS HRM course is mandatory for all active duty officers designated in or seeking designation of the 70F Area of Concentration (AOC). b. COMPO 2: ARNG officers will request enrollment through their unit training section to the National Guard Bureau (NGB) quota manager. Following phase 2, officers will submit a copy of their DA 1059 to their state Officer Personnel Manager who may award the MFA 70F upon successful completion of the 70F HS HRM course. c. COMPO 3: USAR officers will request enrollment through their unit training section to the USAR quota manager. Following phase 2, officers will submit a copy of their DA 1059 to their Officer Personnel Manager who may award the 70F AOC upon successful completion of the 70F HS HRM course. 7. Course enrollees must complete and submit a Medical Occupational Data Systems (MODS) form prior to attending phase 2. The form is available at www.mods.army.mil.

6H-71E67
CLINICAL LABORATORY OFFICER

Location School Code: 081 Length: 50 weeks

Description: The course prepares MSC Officers with the required educational qualifications to become Clinical Laboratory Officers. The curriculum follows the guidelines and recommendations of the National Accrediting
Agency for Clinical Laboratory Sciences (NAACLS). Students who successfully complete the post-baccalaureate certificate program are eligible to take the national certification examinations administered by the Board of Registry of the American Society for Clinical Pathology (ASCP). Successful candidates become certified as Medical Laboratory Scientists certified by the BOC (Board of Certification) of the American Society of Clinical Pathology. Areas of study include clinical chemistry, urinalysis, hematology, immunohematology and transfusion services, diagnostic immunology, bacteriology, parasitology, laboratory management, and other related subjects. Types of instruction include conferences and lectures, discussions, demonstrations, case studies, supervised practical exercises, quizzes, and practical and written examinations. Course graduates earn AOC 71E67.

**Special Information:** The bachelor degree coursework must include a minimum of 36 semester hours in biological sciences, chemistry and mathematics. The 36 semester hours must include a minimum of: 16 semester hours in the biological sciences, to include 8 semester hours in general biology, zoology or botany, 4 semester hours in general microbiology and 4 semester hours in genetics, anatomy or physiology; 16 semester hours in chemistry, to include 8 semester hours in general chemistry and 8 semester hours in organic chemistry, biochemistry or physical chemistry; 3 semester hours in mathematics, to include precalculus, calculus or trigonometry. AC commissioned officers incur an ADSO three times the length of schooling, computed in days, per AR 350-100.

**6I-F4/340-F3**

**PHYSICAL EVAL BOARD LIAISON OFFICER**

**Location School Code:** 081  
**Length:** 1 week

**Description:** The course covers the principles and characteristics of the Integrated Disability Evaluation System (iDES). It focuses on the Medical Evaluation Board (MEB) process and scenarios dealing with disability issues; hands-on training for data entry into the automated Medical Evaluation Board internal Tracking Tool (MEBITT), and generating reports on status/progress of Soldier's MEB; Physical Evaluation Board (PEB/adjudication procedures; and counseling procedures to ensure protection of Soldier's rights and benefits in the iDES.

**Special Information:** PEBLO certification requirements: DA civilians and contractors newly appointed to the position must receive PEBLO certification within 180 days after appointment. Candidate must successfully complete either the resident or the AMEDDC&S web-based multimedia dL version of the PEBLO course; pass required written course examination and concurrently complete 6 months of performance as PEBLO under supervision/mentorship and earn an acceptable evaluation. DA civilians, contractors, 70E, and 68G currently serving as PEBLO, with at least 6-months experience and acceptable evaluation, must successfully complete one of the PEBLO courses and passing the required examination. Additional enrollment information and points of contact for the PEBLO course may be accessed at the AMEDDC&S website, http://www.cs.amedd.army.mil/Department of Health Services Administration> Patient Administration Branch.

Enrollment: To attend the course, all must be nominated by their immediate supervisor. The application for short course training DA Form 3838 will be submitted to the Patient Administration Branch for course approval. If you are erroneously enrolled into the course you will be disenrolled. Military must meet height and weight IAW AR 600-9, The Army Weight Control Program. Course specific info can be obtained at DSN 471-8956 OR COMM: 210-221-8956.
**HOSPITAL MEDICAL LOGISTICS COURSE**

**Description:** The course provides focused training in the principles and techniques required to manage medical logistics functions in support of MEDDACs, MEDCENs and MTFs. The course provides instruction and advanced application of medical logistics management, automation systems, inventory management, property management, facilities management, environment of care, procurement and acquisition, Joint Commission, life-cycle maintenance, supply chain management, cold chain management, national and retail Class VIII requisitions, Installation Medical Supply Activity roles and responsibilities, storage and quality control procedures for Class VIII.

**Special Information:** This is not a Military Training Service Support (MTSS) course. The requesting agency must provide funds for travel and per diem costs for all USAR and ARNG Soldiers, outside-continental US (OCONUS) students, and DAC. Additional information is available via the AKO, AMEDDC&S portal, Logistics Management Branch located at: https://www.us.army.mil/suite/page/333665. To enroll in the Supervisor Development Course, 131 F21, go to the Army Training Information Architecture web site at: http://www.train.army.mil. Login and click on the "My Courses" tab; in the "Type:" box drop down menu, select "Distributed dL/Keyword;" enter the course title or number in the "Keyword:" box; and click on "Search." When the course appears on the web page, click the "e" on the far right side of the web page, and follow the enrollment instructions. Students must provide course completion documentation to the instructor on the first day of class, if the training is not yet documented in ATRRS. Course specific information can be obtained at DSN: 471-8495 or COMM: 210-221-8495. Alternate: DSN: 471-7628 or COMM: 210-221-7628.

**MEDICAL REGULATING OFFICER (MRO) COURSE**

**Description:** To prepare AOC 70E Patient Administration officers and MOS 68G NCOs with the knowledge and skills necessary to plan, coordinate, and manage the full spectrum of multi-level medical regulating/patient movement in a joint area of operation on the battlefield, peacetime, or contingency operation environment.

The course focuses on patient movement within the joint area of operations, from point of injury to definitive medical care. It covers federal, Joint/DoD, and services doctrine and policy; domestic/CONUS based patient movement system; contingency/OCONUS patient movement systems within the strategic and operational inter and intra-theater and area of operations; operational planning including pre-deployment planning, planning methodology, risk management and decision-making; communications and information management using automated information systems Transportation Command (TRANSCOM) Regulating and Command and Control Evacuation System. (TRAC2ES); patient and documentation management including medical aspects of patient movement, visibility and accountability, pre-movement preparation, patient receipt, and medical documentation management. Didactics/hands-on training is followed by a patient movement simulation exercise. Course completion is required for 70Es to be assigned as TOE medical regulators.

**Special Information:** The 2-week Medical Regulating Officer course that includes joint patient movement training can be grandfathered into the 70E AOC after completing a year in a 70E position.
7M-F3
PATIENT ADMIN/ASSOC HEALTHCARE ADMIN COURSE

Location School Code: 081  
Length: 5 weeks

Description: The 5-week course conducted at the US AMEDDC&S, FSH, TX, focuses on Healthcare Administration and Patient Administration, covering topics on healthcare systems, information management systems, law/ethics, statistics & benchmarking, entitlements, diagnostic procedural coding management, patient accountability, patient movement/tracking, and resource allocation/management. Training strategies include conference/discussion, hands-on automation exercises, web-based instruction/exercises, opportunities to observe a PEB in session, and to participate in patient administration operations at Brooke Army Medical Center (BAMC). It provides training on CBRNE, Operations Security (OPSEC), and ethical/legal/medical records considerations in detainee operations.

Special Information: After successfully completing the course and serving one year in a 70E position, AC officers are eligible to request award of AOC 70E67 by submitting DA Form 4187 with supporting course completion documentation through their chain of command and the 70E OTSG Consultant, to their Career Manager, HRC Alexandria. The USAR officer must submit DA Form 1059 with a written request for award of AOC 70E67 through their chain of command to HRC-St Louis, Team AMEDD. The ARNG officer must submit DA Form 1059 with a written request for award of AOC 70E67 through their chain of command to their MILPO. The MS officers must specialize no later than in their eighth year. Students should bring a Class A uniform, two Army Combat Uniforms (ACUs)/Battle Dress Uniforms (BDUs) with boots, appropriate attire for physical training, and 10 copies of orders. A personal computer is recommended. Course specific information can be obtained at 210-221-8675.

7M-F3(RC)(DL)
PATIENT ADMIN/ASSOC HTHCARE ADMIN COURSE PHASE 1

Location School Code: 081  
Length: 52 weeks

Description: The 7M-F3(RC) course is comprised of a nonresident phase 1 conducted via dL, and a 2-week phase 2 in residence at the US AMEDDC&S, FSH, TX. Instruction covers planning, organizing, directing, and controlling patient administration related aspects of the health care delivery program of a command headquarters, or patient administration activities of a health service facility or unit. It is recommended for personnel projected to serve or currently serving in Patient Administration (AOC 70E67) positions. Training strategies include web-based training, conference/discussion, hands-on automation instruction/exercises, and a field trip to BAMC. It provides mandatory training on CBRNE, Detainee ethical/legal/medical records considerations, and OPSEC.

Phase scope: Phase 1 is an introduction to Patient Administration practice and supporting knowledge. It consists of video-captured classes covering basic medical topics on medical terminology, anatomy, and physiology; healthcare administration topics on productivity, healthcare statistics/benchmarking, health resource allocation/management, utilization management, healthcare law, patient administration topics on Warrior transition unit, patients in special circumstances, joint patient tracking application, information systems for healthcare management, and general topics on civilian employee management and customer service/patient representative. It includes internet based training on supervisor development, and the Health Insurance Portability and Accountability Act (HIPPA).

Special Information: Completion of the 7M-F3(RC) phase 1 is mandatory for attendance to phase 2. How to apply: The content for the 7M-F3(RC) course is located on the AMEDDC&S Blackboard content management system.
system. Please go to https://amedd.ellc.learn.army.mil. You will be required to enter your AKO user name and password to gain access. When this page opens, click on the "Courses" tab. On this page, under the "course catalog", click on "AMEDD Courses". Upon accessing the AMEDD Blackboard Courses page, you will need to select 7M-F3(RC), Patient Administration Officer & Associate Healthcare Administrator Course and select "enroll". When the enrollment page opens, select "Submit". This is a very quick process and access to the course material is immediate.

**7M-F3(RC)**

**PATIENT ADMIN/ASSOC HTHCARE ADMIN CRS(RC) PHASE 2**

**Location**

School Code: 081  
Length: 2 weeks

**Description:** The 7M-F3(RC) course is comprised of a non-resident phase 1 conducted via dL, and a 2-week phase 2 in residence at the AMEDDC&S, FSH, TX. Instruction covers planning, organizing, directing, and controlling patient administration related aspects of the health care delivery program of a command headquarters, or patient administration activities of a health service facility or unit. It is recommended for personnel projected to serve or currently serving in Patient Administration (AOC 70E67) positions. Training strategies include Web-based training, conference/discussion, hands-on automation instruction/exercises, and a field trip to San Antonio Military Medical Center (SAMC). It provides mandatory training on CBRNE, Detainee ethical/legal/medical records considerations, and OPSEC.

**Special Information:** Completion of the 7M-F3 (RC)(DL) phase 1 is mandatory for attendance to phase 2. After successfully completing the course and serving one year in a 70E position, AC officers are eligible to request award of AOC 70E67 by submitting DA Form 4187 with supporting course completion documentation through their chain of command and the 70E OTSG Consultant, to their Career Manager, HRC Alexandria. USAR officers must submit DA Form 1059 with a written request for award of AOC 70E67 through their chain of command to HRC-St Louis, Team AMEDD. ARNG officers must submit DA Form 1059 with a written request for award of AOC 70E67 through their chain of command to their MILPO. MS officers must specialize no later than in their eighth year. Students should bring a Class A uniform, two Army Combat Uniforms (ACUs) with boots, appropriate attire for physical training, and 10 copies of orders. A personal computer is recommended. Additional information and points of contact for the course may be assessed at the AMEDDC&S website at http://www.cs.amedd.army.mil/ahs.aspx Department of Health Service Support.

**8B-F22/551-F22**

**MEDICAL LOGISTICS SYSTEMS MANAGEMENT COURSE**

**Location**

School Code: 081  
Length: 2 weeks

**Description:** The 8B-F22/551-F22 major areas of study consist of medical logistics systems inventory management concepts, philosophies and procedures. Subjects taught are Defense Medical Logistics Support System navigation and log-on procedures, catalog maintenance, orders, order exceptions, emergency orders, system services Table Maintenance Utility and selected stockage overview, purchase cards, issues, pick lists, internal transfers, receipts, gains/losses, destruction, customer request, transaction history, physical inventories and basic business objects. Interaction from the class is strongly encouraged as everyone learns from each other’s trials and tribulations with the system.

**Special Information:** Request for civilian reservation will be submitted on DA 3838, Application for Short Course Training and forwarded to Logistics Management Branch AMEDDC&S, ATTN: MCCS-HFE, 2640 Harney Rd., FSH, TX 78234-6000. Requesting agency must provide funds for travel and per diem costs for
civilians. Course specific information can be obtained at DSN: 471-8495 or COMM: 210-221-8495. Alternate: DSN: 471-7628 or COMM: 210-221-7628.

**8B-70K67**
**MEDICAL LOGISTICS OFFICER COURSE**

**Location School Code: 081**
**Length: 8 weeks**

**Description:** The course provides focused training in the principles and techniques used to manage medical logistics functions required to support medical logistics operations in TOE units, specifically Brigade Combat Teams, CSHs, Medical Logistics Companies, and theater sustainment organizations. It provides a foundation in medical logistics management, automated logistics systems, inventory management, property management, storage and quality control procedures for Class VIII, mobilization and deployment operations, medical assemblages management, medical maintenance management, and medical logistics combat service support to units in a deployed theater. Attendance of this course is mandatory to attain the 70K67 AOC.

This course is open to AC MSC officers in the grade of O-4 and below, warrant officers, and RC MSC officers and warrant officers. Officers must have completed the AMEDD Officer Basic Course or equivalent, and warrant officers must have completed the Health Services Warrant Officer Basic Course (4B-670A). Selection priority is given to officers and warrant officers in actual or anticipated assignments with medical logistics duties.

**Special Information:** This is not a MTSS course. The requesting agency must provide funds for travel and per diem costs for all Reserve and ARNG Soldiers, OCONUS attendees, and DACs. A welcome letter will be sent via email to the student's email address on record in ATRRS 30 days prior to the course report date. Military students must report to the class IAW height and weight standards outlined in AR 600-9, The Army Weight Control Program. US Military students must pass a record Army Physical Fitness Test (APFT) in order to successfully graduate from this course.

Additional requirements to graduate include Defense Acquisition University course completion certificates for the following courses: Acquisitions 101, Intro to Contracting, and Contracting for the Rest of Us. Students are also required to complete the Support Operations Course, phase 1.

After completing the course, AC officers are eligible to be projected into the AOC 70K67 career field by the 70K OTSG consultant and their career manager according to DA PAM 600-4, AMEDD Officer Development and Career Management; USAR officers must submit their MS Appointment Letter, DA Form 1059 and DA Form 4187 with a written request for award of AOC 70K67 through their chain of command to HRC-St Louis, Team AMEDD; and ARNG officers must submit DA Form 1059 with a written request for award of AOC 70K67 though their chain of command to MILPO.

The request for the awarding of the AOC 70K must be done IAW the provisions outlined in DA PAM 600-4, paragraph 10-3.a.(3)(b)4., AOC Designation Process.

**8B-70K67(RC)(DL)**
**MEDICAL LOGISTICS OFFICER COURSE (RC) PHASE 1**

**Location School Code: 081**
**Length: 2 weeks**

**Description:** The course provides focused training in the principles and techniques used to manage medical logistics functions required to support medical logistics operations in TOE units, specifically Brigade Combat Teams, CSHs, Medical Logistics Companies, and theater sustainment organizations. It provides a foundation in
medical logistics management, automated logistics systems, inventory management, property management, storage and quality control procedures for Class VIII, mobilization and deployment operations, medical assemblages management, medical maintenance management, and medical logistics combat service support to units in a deployed theater. Attendance of this course is mandatory to attain the 70K67 AOC.

Phase scope: Phase 1 provides focused training in the principles and techniques used to manage medical logistics functions required to support medical logistics operations. It provides a foundation in medical logistics management, common table of allowances (CTA), inventories and inventory management, supply documents, storage and quality control procedures for class VIII, and medical maintenance management.

**Special Information:** This course consists of two phases. Phase 1 is a dL phase consisting of approximately 75 hours and is administered by the ALMS. Phase 1 must be completed within a year from enrollment. Phase 2 is 2-weeks of resident training with didactic instruction conducted at the AHS. At the start of phase 2, students will be administered an evaluation covering the material in phase 1 to assess their comprehension of phase 1 content.

Phase 2 must be completed within 18 months after completing phase 1. POC for all USAR (TPU/IRR/IMA) Soldiers is HRC, Health Services Directorate, 314-592-0000, x20592. If you are not enrolled in ATRRS at least by course completion, you will not be given credit for completing phase 1. You also must email your certificate of completion to distributed.learning@amedd.army.mil before you can enroll in phase 2 of the course.

**8B-70K67(RC)**
**MEDICAL LOGISTICS OFFICER COURSE (RC) PHASE 2**

**Location School Code:** 081  
**Length:** 2 weeks

**Description:** The course provides focused training in the principles and techniques used to manage medical logistics functions required to support medical logistics operations in TOE units, specifically Brigade Combat Teams, CSHs, Medical Logistics Companies, and theater sustainment organizations. It provides a foundation in medical logistics management, automated logistics systems, inventory management, property management, storage and quality control procedures for Class VIII, mobilization and deployment operations, medical assemblages management, medical maintenance management, and medical logistics combat service support to units in a deployed theater. Attendance of this course is mandatory to attain the 70K67 AOC.

Phase scope: To provide training on Medical Logistics subjects taught in resident training. It reinforces and expands on topics covered in phase 1 and concentrates on medical logistics management to deployable units. Subjects areas include medical logistics management, automated logistics systems, inventory management, property management, storage and quality control procedures for Class VIII, mobilization and deployment operations, medical assemblages management, medical maintenance management, and medical logistics combat service support to units in a deployed theater.

**Special Information:** This course consists of two phases. Phase 1 is a dL phase on the ALMS and phase 2 is a resident portion of 2-weeks of didactic instruction conducted at AHS. Phase 2 must be completed within 18-months after completing phase 1. This is not an MTSS Course. Requesting agency must provide funds for travel and per diem costs.

A welcome letter will be emailed to the student's email address entered in ATRRS 30-days prior to the course report date. At the start of phase 2, students will be administered an evaluation covering the material in phase 1 to assess their comprehension of phase 1 content. Military students must report to the class in accordance with height and weight standards in AR 600-9, The Army Weight Control Program.
Additional requirements to graduate: students must complete the Defense Acquisition University course, Fundamentals of Systems Acquisition Management 101 (ACQ 101), and the Support Operations Course, phase 1. Prior to attending phase 2, students are encouraged to enroll and complete both courses: ACQ 101 and SOC, phase 1. Although time is allotted during the course to complete these requirements, beginning or completing them prior to attending the resident phase 2 course is encouraged. These courses are dL courses, ACQ 101 is accessed on-line at the DAU web site: http://www.dau.mil/, SOC, phase 1 can be accessed at the US Army Logistics Management College web site at: http://www.almc.army.mil/.

Soldiers arriving for phase 2 must have in their possession a signed Unit Pre-Execution Checklist (PEC) Training and Doctrine Command ((TRADOC) Form 350-18-2-R-E). Soldiers reporting for training without a completed PEC will have 72-hours from the report date to provide the checklist with appropriate documents. Failure to produce a PEC may result in non-enrollment. A copy of the PEC is found in TRADOC Regulation 350-18, The Army School System (TASS) or at http://www.tradoc.army.mil/tpubs/TRADOCForms.htm.
DEPARTMENT OF MEDICAL SCIENCE (DMS)

The DMS provides state of the art medical education by assimilating new knowledge, automation and distance learning to maintain quality health care for the US Army during peace and war.

3-68-C10
INTRODUCTION TO BASIC ARMY MEDICINE

Location School Code: 081 Length: 4 weeks

Description: The course is designed to fill the needs of the AA and USAR by providing highly trained and qualified Soldiers. Instruction is delivered in a Blended Learning environment with interactive multimedia instruction; facilitated group discussions; and computer based instruction, demonstrations, and practical exercises with outcome based assessment and evaluations. Subject areas include anatomy and physiology; medical terminology; basic emergency procedures; and medical evacuation techniques. Warrior Tasks and Battle Drills will be reinforced during this training.

Special Information: The Introduction to Basic Army Medicine is to be scheduled and completed prior to the start dates for the following MOSs: 68B, 68F, 68L, 68N, 68U, and 68Y. Soldiers reclassifying into the six MOSs with the exception of MOSs 68W, 68WM6 or 68C will receive a reservation for IBAM concurrently with the MOS reservation.

300-NREMT-P/NRP RECERT
PARAMEDIC (ASI F2) RECERTIFICATION

Location School Code: 081 Length: 2 weeks

Description: This course will provide two-weeks of training required for paramedic recertification to include 72 hours of continuing education units accredited by Army EMS. Additionally, students who are FP-C certified through the Board of Critical Care Transport Paramedic Certification (BCCTPC) will qualify for continuing education units. Practical exercises are conducted in airway management, treatment of extremity trauma, treatment of combat chest wounds, and lifesaving emergency surgical skills on high fidelity simulation manikins. Students will conduct scenarios in both clinical environment and high fidelity aircraft environment. All scenarios and exercises will refresh critical care knowledge and provide recertification for the NRP.

Special Information: For FY 15 current designated F2 qualified (currently on flight status) Soldiers will submit application packet to the Center for Pre-Hospital Medicine at (dustin.j.radde.mil@mail.mil) at least 45 days prior to class start. If application is approved you will receive a reservation in the ATRRS. Selection for attendance is limited to number of funded seats. For additional information, contact the program coordinator at 210-221-9587. The application packet will include: 1. DA Form 3838. 2. Copy of current NRP license. 3. Copy of current BLS certification. 4. Enlisted Record Brief (ERB). 5. Current DA Form 705, with passing score. 6. DA Form 4186 (Medical Recommendation for Flight Duty). 7. Proof of current class III flight physical. 8. ARMY EMS credential background questionnaire.

Effective in FY 16, Active Soldiers will submit request for training via DA Form 4187 with all supporting documentation to HRC, EPMD, POC at COMM: 502-613-5233. Additional information regarding packets can be obtained from Enlisted Division, APPD at COMM: 210-221-9920. The USAR and ARNG Soldiers apply via A-1 application in ATRRS. For further information, ARNG contact Office of the Chief Surgeon, CSG-O, 111 South Mason Drive, Arlington, VA at DSN 327-1054 or COMM: 703-607-1054. The USAR contact G-3/5/7 USARC at COMM: 910-570-8968. Application Packets: 1. DA Form 4187 signed by commander. 2. DA Form
7442 - Verification of Table XIII Training Requirements. 3. ERB. 4. Current DA Form 705, with passing score. 5. DA Form 4186 (Medical Recommendation for Flight Duty). 6. Proof of current class III flight physical. 7. Copy of current NREMT-B and BLS cards. 8. ARMY EMS credential background questionnaire.

300-68N10
CARDIOVASCULAR SPECIALIST PHASE 2
Location School Code: 830, 834, 835, 837
Length: 36 weeks
Description: This two phased course is designed to provide the knowledge and skills required for performing duties and responsibilities as an MOS 68N, Cardiovascular Specialist. Phase 1 consists of 22-weeks of didactic study; phase 2 consists of 36 weeks of a Junior/Senior clinical training rotation at a designated military treatment facility. The junior portion is initial training in performing diagnostic tests utilizing echocardiographic and phonocardiographic equipment and related procedures. The senior portion stresses performance of all duties required in US Army non-invasive and invasive laboratories. Upon satisfactory completion of both phases of the training students are awarded Military Occupational Specialty 68N, Cardiovascular Specialist.

Special Information: 300-68N10 is a two phased MOS producing course. Soldiers must successfully complete both phases to be awarded MOS 68N.

300-68U10
EAR NOSE & THROAT (ENT) SPECIALTY PHASE 2
Location School Code: 830, 831, 834, 836, 837, 860, 861, 862
Length: 7 weeks
Description: This two phased course is designed to provide highly trained and qualified MOS 68U, Ear, Nose, and Throat (ENT) Specialists. The course provides an introduction to the Ear, Nose and Throat services and clinical audiology services in support of the Army Hearing Program. This phase 1 training consists of 7 weeks of training conducted at the METC, FSH, TX. Phase 2 consists 7-weeks of clinical training at designated military treatment facilities. The total course length is 14 weeks, with three iterations conducted annually. Upon successful completion of the course, graduates are awarded Military Occupational Specialty 68U and are eligible to obtain certification as Occupational Hearing Conservationist through the Council for Accreditation in Occupational Hearing Conservation.

Special Information: 300-68U10 is a two phased MOS producing course. Soldiers must successfully complete both phases to be awarded MOS 68U.

300-68V20
RESPIRATORY SPECIALIST PHASE 2
Location School Code: 830
Length: 16 weeks
Description: Phase 2 training is 16-weeks, consisting of clinical training, conducted at the SAMC (site code 830), FSH, TX.

Special Information: There is no special information available at the time of this publication; please review ATRRS at https://www.atrrs.army.mil/ for updated information.
300-68Y10
EYE SPECIALIST PHASE 2

Location School Code: 830, 834, 836, 837, 839, 840, 857, 860, 861, 862      Length: 7 weeks

Description: This two phased course is designed to provide highly trained and qualified MOS 68Y, Eye Specialists. Instruction is given in the form of traditional classes, demonstrations, computer labs, and practical exercises.

Phase Scope: Phase 1 consists of 6-weeks of didactic training conducted at the METC, FSH, TX. The course provides a working knowledge of subjects necessary to provide full assistance to ophthalmologists and optometrists in military eye clinics. Didactic study includes: terminology, anatomy and physiology of the eye, pathological conditions, vision and diagnostic testing, sterilization of eye equipment and instruments, optical procedures, minor surgery, history taking, administrative procedures assisting medical doctors, management of supplies, and the ordering and safeguarding of medical records. Phase 2 consists of 7-weeks of OJT clinical training at designated military treatment facilities.

Special Information: 300-68Y10 is a two phased MOS producing course. Soldiers must successfully complete both phases to be awarded MOS 68Y.

300-Y8
IMMUNOLOGY AND ALLERGY SPECIALTY

Location School Code: 836      Length: 5 weeks 3 days

Description: This course trains Immunology-Allergy technician's with the skills necessary to become a qualified medical care giver in administering vaccines to all service members, DoD employees, and children as well as assisting Allergists in the diagnosis and treatment of patients with allergic and immunologic disorders. The students will also receive specialized training in administering immunotherapy injection, meningococcal, immediate and delayed skin testing, mixing and diluting of allergen extracts, spirometry, vaccine storage and handling, and disease prevention through vaccinations for our deploying personnel for peacetime and wartime missions. The importance in preventing hepatitis A and B, typhoid, yellow fever, tetanus, diphtheria, pertussis, measles, mumps, rubella, varicella, haemophilus B, polio, pneumococcal, influenza, rabies, Japanese encephalitis and smallpox caused by anthrax, chemical and biological weapons, contaminated water and food supplies, and undetermined sources affecting the countries in which our troops deploy can lead to serious illness or death.

Special Information: Army students must be in the grade of SGT or below; exceptions may be made if the Soldier is the NCOIC of a clinic and actively engaged in patient care resulting from manning shortages. For exceptions, Soldiers must have a letter of recommendation and justification signed by the NCOIC or the OIC of the Allergy section identifying patient load, manning losses and any other pertinent data justifying the need for this specific training. Commanders should ensure that candidates have maximum retainability at the MTF to minimize number of technicians needing training due to turnover. The USN students must have letters of recommendation and justification signed by the leading chief or OIC of the Allergy clinic, which identifies the Allergist on board, patient load and manning lose information and any other pertinent data justifying the need for this specific training. Exceptions made for lead petty officer of the clinic if actively involved in direct patient care due to staffing shortages. The Army does not make selection regarding USAF, USN, or DoD civilian personnel. Active duty students should contact WRAMC course personnel at DSN: 285-7813 prior to departure for details on reporting. Alternate contact numbers include DSN: 295-7471 for the USAF instructor and DSN: 295-7435 for a USA instructor if there is no answer at the above number. All requests for waivers
must be submitted to: CDR, AMEDDC&S APPD, MCCS-DE, 2377 Greeley Rd., Ste. A, FSH, TX 78234-7584. Active duty personnel are housed in the student company. The DoD/VA civilian personnel are housed in WRAMC VOQ when available or in nearby accommodations. The course number for the USAF is J5AZA4N051 00AA. The USN does not currently have a course number.

303-68F10
PHYSICAL THERAPY SPECIALTY PHASE 2

Location School Code: 830, 831, 834, 835, 836, 837, 839, 840, 842, 843, 844, 845, 847, 849, 851, 857, 860, 861, 862, 863, 864, 867, 872

Description: This two phased course is designed to provide highly trained and qualified MOS 68F, Physical Therapy Specialists. The course provides an introduction to the delivery of physical therapy services in relation to other patient-oriented services. Phase 1 training consists of 18-weeks of didactic training conducted at the METC, FSH, TX; to include periodic clinical rotations at San Antonio Military Medical Center. Phase 2 consists of 10 weeks of OJT clinical training at designated military treatment facilities. The total course length is 28 weeks, with three iterations conducted annually. Upon successful completion of the 303-68F10 Course, students are awarded the MOS 68F. Standards for International Military Students will be implemented IAW Army Regulation AR 12-15. All actions concerning International Military Students will be coordinated with the International Military Student Office, Office of the Dean, AHS, IAW AMEDDC&S and FSH Regulation 351-12.

In Phase 1 training, students are instructed in the Physical Therapy mission and scope of practice, the mechanisms of normal movement and functions of the human body, and considerations of how these are altered in selected congenital, traumatic, and pathological conditions. Students are provided with a solid theoretical and basic science foundation in physical therapy techniques. The methods of physical assessment; the use of therapeutic exercise, physical agents, gait training and ambulation, and patient transfers; and the psychological impact of injury, disability, and rehabilitation are presented. Upon successful completion of all phases of this course, graduates are awarded MOS 68F.

Special Information: 300-68F10 is a two phased MOS producing course. Soldiers must successfully complete both phases to be awarded MOS 68F.

303-68L10
OCCUPATIONAL THERAPY SPECIALTY PHASE 2

Location School Code: 830, 831, 834, 835, 836, 837, 839, 840, 842, 843, 844, 849, 851, 857, 860, 861, 862, 863, 864, 869, 873

Description: This two phased course is designed to provide highly trained and qualified MOS 68L, Occupational Therapy Specialists. This course is designed to meet the standards of program approval established by the Accreditation Council for Occupational Therapy Education of the American Occupational Therapy Association. Graduates of this program are eligible to sit for national certification examination and qualify for the designation, Certified Occupational Therapy Assistant. Certification and licensure are mechanisms separate and unrelated to award of the MOS. Upon satisfactory completion of both phases of the training students are awarded Military Occupational Specialty 68L, Occupational Therapy Specialist.

Phase 1 is 18 weeks and is conducted at the METC, FSH, TX. This phase consists of general knowledge of physical and behavioral sciences; a working knowledge of the principles, concepts, and skills utilized to assist the occupational therapist in the implementation of remedial health maintenance and prevention programs for
psychiatric as well as physical disability patients. Phase 2 consists of clinical training at designated military treatment facilities. The total course length is 34-weeks.

Special Information: 300-68L10 is a two phased MOS producing course. Soldiers must successfully complete both phases to be awarded MOS 68L.

**304-68B10**
**ORTHOPEDIC SPECIALTY PHASE 2**

**Location School Code:** 830, 834, 837, 839, 849, 860, 869  
**Length:** 6 weeks

**Description:** The course is designed to fill the needs of the Active Army, Army Reserves, United States Air Force and the United States Navy by providing highly trained and qualified orthopedic specialist. Instruction is given in the form of traditional classes, demonstrations, and practical exercises. The course provides the student with a general knowledge of anatomy and physiology, medical terminology, and the care and handling of orthopedic patients. Students assist in the treatment of patients with orthopedic conditions and injuries, under the supervision of an Orthopedic Physician, Orthopedic Physician Assistant, or Podiatrist. Students also assist in minor surgery; fabricate, modify, and remove casts and splints; apply plaster and fiberglass casts and splints; perform traction procedures; and provide patient education on proper care and use of orthopedic appliances, soft goods, equipment and materials.

Phase Scope: Phase 2 consists of 6-weeks of on-the-job training at various MEDDACS and MEDCENS. The training provides a clinical environment for the application of didactic training in orthopedics.

Special Information: 300-68B10 is a two phased MOS producing course. Soldiers must successfully complete both phases to be awarded MOS 68B.

**6H-F31/300-F18**
**ARMY TRAUMA TRAINING COURSE**

**Location School Code:** 081  
**Length:** 2 weeks

**Description:** The Army Trauma Training Center (ATTC) co-located with the Ryder Trauma Center (RTC) at the University of Miami/Jackson Memorial Medical Center, provides a robust 17-day training rotation for Army Forward Surgical Teams (FSTs) and slice surgical elements of other Table of Organization and Equipment (TO&E) medical units. The primary focus throughout the elements of the ATTC POI is FST clinical team development. The unifying clinical theme embodies the principles of Advanced Trauma Life Support (ATLS). Individual trauma refresher training is an additional benefit. Members of the FST and slice elements work together within and across their sections to care for acutely injured patients, most of whom have injuries similar to those of combat casualties. The battlefield context of care is infused throughout the curriculum and is current with theater activities in Iraq and Afghanistan (based on after action reports and consultant reports). The components of the POI include trauma systems, team clinical rotations (includes the Capstone Exercise, a 48-hour continuous FST operation in the RTC, team development events, and the core discussion series. The setting is ideal: the RTC cares for 3,600 severely injured patients each year and averages 10 patients/day; the ratio of blunt to penetrating trauma is 70:30; half of the patients are evacuated by air to the on-site helipad; and 30 percent of patients require operative intervention. The system of care, from spatial orientation to echelons, is analogous to that in which the FST operates. Training is conducted under the auspices of the ATTC and adjunct civilian faculty, all of whom are appropriately credentialed and privileged by Jackson Memorial Medical Center.
This course is conducted in three phases. Stage I involves completion of the pre-rotation survey, the pretest for each specific MOS, the Critical Trauma Task self-assessment and the commander's team assessment. Stage II is the physical 17-day rotation at the ATTC. Stage III is follow-on sustainment training conducted through the ATTC website.

**Special Information:** Participants are required to meet specific documentation requirements on the ATTC Rotating Unit Checklist prior to arrival. Checklist actions require participants to begin processing a minimum of 30 days prior to deployment to the ATTC.

This course has been approved by the Uniformed Services University for 60-hours of Category I CME credit and 58 of CEUs.
DEPARTMENT OF NURSING SCIENCE (DNS)

The DNS coordinates and conducts education and training for resident officer and enlisted courses for which DNS is the proponent or nursing-specific liaison. We pursue state of the art training technology for all courses and develop and oversee the conduct of distributed training courses for which DNS is the proponent; to serve as nursing subject matter expert for nursing issues and for doctrine developed under the proponency of the AMEDDC&S.

300-68C10
PRACTICAL NURSE PHASE 1

Location School Code: 081 Length: 11 weeks 3 days

Description: This two phased MOS producing course trains Soldiers in the skills and knowledge necessary to become a proficient entry level licensed Practical Nursing Specialist, MOS 68C. The training encompasses nursing for in/outpatient care, emergent and minor acute treatments, and casualty care management. The Soldier will be trained to the licensing standards of the Texas Board of Vocational Nurse Examiners. Additionally, the student receives specific training in military hospital field nursing, force medical protection, deployable medical systems and equipment and critical care. This course is taught in two phases.

Phase 1 of this course is conducted at the AHS, FSH (11-weeks 3-days) and phase 2 at a designated MTF (44-weeks). The total course length is 55-weeks 3 days.

Phase 1 provides an overview of basic Anatomy and Physiology and introduces the fundamentals of microbiology, nutrition, and pharmacological mathematic concepts, fundamentals of nursing, train field-nursing skills/tasks, allow for set-up and use of ICU field medical equipment, instruction on set-up and storage of DEPMEDS, and introduce computer/information systems used for patient tracking and documentation such as Medical Communications for Combat Causality Care (MC4) and Composite Health Care System (CHCS I and II).

Special Information: 300-68C10 is a two phased MOS producing course. Soldiers must successfully complete both phases to be awarded MOS 68C.

The RC Soldier reclassifying into MOS 68C will arrive at FSH with the following items MPRJ 201 file, Medical Record, Dental Record and complete basic clothing issue, to include running shoes. The AA Soldiers requesting to reclassify into MOS 68C must request training by submitting a DA Form 4187 to HRC. A copy of their ERB and letters of recommendation from either a practical nurse, registered nurse, physician's assistant, or a physician evaluating the Soldier's potential and ability to complete this course should be included in their packet. All requests for waivers must be submitted to: CDR, AMEDDC&S, APPD, ATTN: MCCS-DE, 2377 Greeley Rd, Ste. A, FSH, TX 78234-7584, or by emailing APPD at APPD.ENLISTED@US.ARMY.MIL, phone: 210-221-9963.

Prior to awarding of MOS 68C, course students will be required to sit for and complete the NCLEX-PN examination. Practical Nurse course graduates must obtain licensure as either a Practical Nurse or a Vocational Nurse to maintain MOS 68C IAW AR 40-68, DA PAM 611-21, and MEDCOM Circular 40-14. The NCLEX examination fee is $200.00, and Texas licensure fee is $88.00 for each student completing course requirements.
**300-68C10**

**PRACTICAL NURSE PHASE 2**

**Location School Code:** 830, 831, 834, 836, 837  
**Length:** 44 weeks

**Description:** This two phased MOS producing course trains Soldiers in the skills and knowledge necessary to become a proficient entry level licensed Practical Nurse, MOS 68C. The training encompasses nursing for in/outpatient care, emergent and minor acute treatments, and casualty care management. The Soldier will be trained to the licensing standards of the Texas Board of Vocational Nurse Examiners. Additionally, the student receives specific training in military hospital field nursing, force medical protection, deployable medical systems and equipment and critical care. This course is taught in two phases.

Phase 1 of this course is conducted at the AHS, FSH (15-weeks 3 days) and phase 2 at a designated MTF (44-weeks). The total course length is 55-weeks 3-days.

Phase 1 provides an overview of basic Anatomy and Physiology and introduces the fundamentals of microbiology, nutrition, and pharmacological mathematic concepts, fundamentals of nursing, train field-nursing skills/tasks, allow for set-up and use of ICU field medical equipment, instruction on set-up and storage of DEPMEDS, and introduce computer/information systems used for patient tracking and documentation such as Medical Communications for Combat Causality Care and Composite Health Care System (CHCS I and II).

Phase 2 affords the student the opportunity to acquire the skills necessary to be a Practical Nursing Specialist in a variety of community-based and acute care settings. This training includes: advanced anatomy and physiology; expanded use of principles in microbiology; integration of pharmacology and nutrition care; as well as pathophysiology of the body systems and its manifestations. Medication administration is an essential component throughout training. The nursing process provides the framework for the acquisition of knowledge and application of skills.

**Special Information:** 300-68C10 is a two phased MOS producing course. Soldiers must successfully complete both phases to be awarded MOS 68C.

Prior to awarding of MOS 68C, course students will be required to sit for and complete the NCLEX-PN examination. Practical Nurse course graduates must obtain licensure as either a Practical Nurse or a Vocational Nurse to maintain MOS 68C IAW AR 40-68, DA PAM 611-21, and MEDCOM Circular 40-14. The NCLEX examination fee is $200.00, and Texas licensure fee is $88.00 for each student completing course requirements.

**300-68CM3**

**DIALYSIS SPECIALTY**

**Location School Code:** 836  
**Length:** 20 weeks

**Description:** This course provides selected AMEDD enlisted personnel with the knowledge and skills required to perform safe and effective hemodialysis treatments with additional emphasis on other renal replacement therapies including: peritoneal dialysis; continuous renal replacement therapies; renal transplant; and plasma exchange/apheresis. The first 6-weeks are didactic and include: a review of fluid and electrolytes; acid-base balance; anatomy and physiology of the kidney, cardiovascular system and respiratory system. Hemodialysis didactic content includes: establishment of vascular access; initiation, monitoring and termination of the dialysis procedure; identification, interpretation and correction of patient/technical complications; and maintenance of dialysis supplies and equipment. The course has 480 hours of clinical practicum with emphasis on dialysis in the combat theater. Upon successful completion of the course, graduates are awarded MOS 68CM3.
Special Information: The AA Soldiers must request training by submitting a DA Form 4187 to PERSCOM. A copy of their ERB, school transcripts, and letters of recommendation should be included in their packet. All requests for waivers must be submitted to: CDR, AMEDDC&S, APPD, ATTN: MCCS-DE, 2377 Greeley Rd., Ste. A, FSH, TX 78234-7584.

300-F50
ENLISTED MEDICATION ADMINISTRATION

Location School Code: 081  Length: 2 weeks

Description: To establish a standard core medication training and testing course for unlicensed enlisted medical personnel (Army, Air Force, and Navy) to incorporate best practices and reduce variations in medication administration within military treatment facilities.

Special Information: To apply for training, contact the training and education department at your local MTF. Courses will be conducted on-site at the various MTFs.

Schedules are posted and maintained at school site 081. Class dates will be coordinated through the DNS, AHS. Student rosters will be forwarded no later than 2-days after class start for posting in the ATRRS.

301-68D10
OPERATING ROOM SPECIALIST PHASE 2

Location School Code: 830, 831, 834, 835, 836, 837, 839, 840, 851, 852, 860, 861, 862, 864  Length: 10 weeks

Description: The 68D, Operating Room Specialist course phase 2 clinical practicum is designed to provide the student with clinical experiences in performing entry level surgical technology skills, while enabling the student to apply theories, concepts, and procedural foundations from phase 1. Supervised OJT focuses on the principles of surgical technology practice, and the instruments, supplies, and equipment for surgical procedures. Clinical study and practicum includes anatomy and physiology, vital signs, cardiopulmonary resuscitation, principles and methods of sterilization and disinfection, storage and handling of sterile supplies, identification and care of surgical instruments, specialized equipment, sutures, needles, blades, linen, and corrosion-resistant metal ware, duties of the scrub and circulating technician, principles and practices of sterile technique and standard precautions, transporting and positioning patients, operating room safety, handling of specimens, medications, dyes and hemostatic agents, and surgical specialties as they relate to selected surgical procedures.

Special Information: There is no special information available at the time of this publication; please review ATRRS at https://www.atrrs.army.mil/ for updated information.

6A-F22
INFECTION CONTROL IN THE DEPLOYED ENVIRONMENT

Location School Code: 830  Length: 1 week

Description: This 1-week resident course is designed to provide training to designated medical personnel in the fundamentals of infection control in the deployed setting. The course includes didactic instruction in combat theater infection control, infection control and combat casualty care, advance principles of infection prevention/control, clinical microbiology, hand hygiene, principles of cleaning, disinfection, and sterilization, special patient populations, health care acquired infections, application of preventive measures, blood and body fluid management, infectious disease threats and program management. Clinical observations are conducted in
the operating room, high level disinfecting practices (gastrointestinal clinic, pulmonary clinic, gynecology, and emergency department), and central material service.

**Special Information:** The AMEDDC&S will fund transportation, lodging and per diem costs to mobilizing Army attendees. Bus transportation will be provided to and from lodging and training area. Rental vehicles are not authorized. Units are required to provide full names, social security number, rank, branch/AOC, unit/home address, and official email of attendees NLT 4 weeks prior to the start of the course. The USAF and USN attendees are not funded through AMEDDC&S. The service member’s unit must provide the funding for travel, per diem, and local transportation for the duration of the course. On-post billeting can be requested but cannot be guaranteed. In the event the service member cannot attend the course due to lack of unit funding, please contact the program manager at DSN: 421-4801 or COMM: 210-295-4801.

Training will convene at 0730 hours on Monday and conclude no later than 1600 hours on Friday of the training week. Students should be authorized to arrive at FSH on Sunday prior to the class start date and to depart on Saturday. Upon completion of training, attendees will be provided a certificate of completion. The course has been approved for 18.5 contact hours by the ANC-CHE Program.

**6E-F5/300-F42**  
**CLINICAL NURSE OIC/NCOIC LEADER DEVELOPMENT**

**Location School Code:** 081  
**Length:** 2 weeks

**Description:** This course is designed to prepare AA, USAR, and ARNG Nurse Corps officers, select medical NCOs (68C, 68D, 68W, and 68X series) and DoD civilian Registered Nurses (RN) to function in entry-level leadership and management positions in Army military treatment facilities (MTFs). The course provides executive skills content with emphasis on developing decisive leaders, establishing healthy environments to optimize patient care delivery, evidenced-based practices, and human capital optimization. Course webpage: https://www.us.army.mil/suite/page/606825.

**Special Information:** This course is conducted on post at the AMEDDC&S. All students must be enrolled in ATRRS no less than 4-weeks prior to the course start date. There is an online dL component to the course that must be completed by the end of the 1st week of the course. Please wait until you have completed all t10 modules and then print one completion certificate. The final certificate can be accessed at http://jmesi.army.mil/CNLDC_IES.asp once you are finished. It is highly recommended to complete the modules prior to your arrival due to limited computer and printer access. Contact the program director at usarmy.jbsa.medcom-ameddcs.mbx.hnldc-admin@mail.mil or 210-295-4340 for further information.

The AA and DoD civilian prospective applicants should contact their local Hospital Education and Training for application procedures. The AA and DoD civilians will submit a completed DA 3838 to usarmy.jbsa.medcom-ameddcs.mbx.hnldc-admin@mail.mil or ATRRS enrollment. The USAR and ARNG are enrolled through their unit's ATRRS operator or training officer. The AMEDDC&S does not enter ATRRS enrollment for USAR and NG and does not provide TDY funding for USAR and NG participants. Lodging and meals: The DA 3838 must read "Government lodging is not available" and "Government meals are only for lunch Monday to Friday." Hotel lodging is not provided for local participants from the FSH area. Rental car is NOT authorized on AMEDDC&S expense. Uniform: military - ACU uniform; civilians: business attire.
PSYCHIATRIC/BEHAVIORAL HEALTH NURSING

Location School Code: 836 Length: 16 weeks

Description: Course instruction is presented through lecture, conferences, discussion, practical exercises, examinations, and clinical practicum. Major areas of instruction include scope of practice of the psychiatric/behavioral health nurse; principles of psychiatric behavioral health concepts and theory, psychiatric disorders according to the Diagnostic and Statistical Manual for Mental Disorders (DSM-IV-TR); comprehensive psychiatric behavioral health therapies, to include psychopharmacology and group therapy; development of critical thinking skills in psychiatric and behavioral health nursing; application of the core competencies for psychiatric nursing as identified by the American Nurses Association and the American Psychiatric Nurses Association, and application of psychiatric behavioral health principles in military settings.

Special Information: Prospective applicants (AA and DoD civilians) should contact their local Nursing/Hospital Education and Staff Development services for application and approval procedures. The RC officer should contact their local reserve unit for guidance and procedures. Applications will be sent to HRC for approval. Requesting agency must fund costs for travel and per diem for civilians to attend. Compliance with current permanent change of station (PCS) policy for education and training courses IAW AR 350-100, Officer AD obligation is as applicable. The CEUs will be awarded upon completion of the course.

PERIOPERATIVE NURSING

Location School Code: 830, 834, 837 Length: 16 weeks

Description: Course instruction is presented through lectures, conferences, discussions, practical exercises, examinations, literature review and clinical practicum. Major areas of instruction include principles of microbiology and sterilization, preparation of surgical supplies, environmental responsibilities and hazards in the environment, specialized equipment, perioperative nursing in surgical specialties, readiness training and perioperative nursing skills, and the role of the perioperative nurse in ensuring patient safety, patient teaching, and supervisory roles and responsibilities in the management of the perioperative nursing environment.

Special Information: Prospective applicants (AA and DoD civilians) should contact their local Nursing Education and Staff Development Services for application procedures. The RC officer should contact their local reserve unit for guidance and procedures. The requesting agency for civilian applicants must fund costs for travel and per diem. Applications will be sent to HRC for approval. Compliance with current PCS policy for education and training courses IAW AR 350-100, Officer AD obligation may continue to be applicable during mobilization.

OB/GYN NURSING

Location School Code: 839 Length: 16 weeks

Description: Course instruction is presented through lectures, conferences, discussion, practical exercises, examinations, and clinical practicum. Major areas of instruction include fundamentals of OB/GYN nursing, high risk and complicated pregnancy, assessment and care of the newborn, family planning and gynecology, leadership and readiness training, legal considerations in OB/GYN nursing, and identifying and managing OB/GYN emergencies.
Special Information: Prospective applicants (AA and DAC) should contact their local Nursing/Hospital Education and Staff Development Service for application and approval procedures. The RC Officer should contact their local reserve unit for guidance and procedures.

6F-F2(DL)
ENTRY LEVEL EXECUTIVE NURSE COURSE(ELENC)(DL) PHASE 1
Location School Code: 081 Length: 1 week
Description: The AMEDD Advanced Nurse Leadership course is a multiphase course with phase 1 being dL, utilizing 18 modules of the Joint Medical Executive Skills Institute (JMIESI) to deliver competencies needed by senior leaders. Phase 2 is conducted in a VTT format over a 5-day period covering major areas of instruction of both phases to include leadership, management, productivity, organizational structure, utilization of resources, and decision making.

Special Information: Selected prerequisites may be waived on an individual basis by the Army Nurse Corps Branch. Prospective applicants should contact their local Nursing Education and Training branches for application procedures.

To Enroll: The AC: Fax DA 3838 to HRC at COMM: 703-325-2392. For additional information, contact your Military Training Facility Education Branch.

The RC: POC for ALL USAR Soldiers (TPU, IRR, IMA) is HRC, Health Services Directorate, COMM: 800-325-4729, option 2.

Civilian enrollments: In order to enroll in this course, please contact your local Training and Education Office to complete a DA 3838. Once completed, contact the Program Director, ANPD Branch at COMM: 210-295-4340 or DSN: 471-4340.

Course modules are available, through the JMIESI web site and are designed to provide the student with a basic knowledge on topics related to administrative competencies required of senior medical treatment facility managers by the language of the Defense Appropriations Act, 1991. The modules by themselves will not give you the competencies; however, they will set the stage for successful performance and help you gain the experience that ultimately may lead to granting of the competencies.

Once enrolled through the HRC, first time users are required to register prior to beginning the modules. Use the following link to register: http://jmesi.army.mil/courses/homepages/pages/login.asp.

If you encounter any problems, please use the contact information found on the bottom of web page. Upon successful enrollment/completion, the JMIESI Registrar will forward an enrollment roster to the ANPD Branch or the ATRRS Office at the AMEDDC&S for student status update.

6F-F2(DL)
AMEDD ADVANCED NURSE LEADERSHIP (ANLC) (DL) PHASE 2
Location School Code: 081 Length: 1 week
Description: The AMEDD Advanced Nurse Leadership course is a multiphase course with phase 1 being dL, utilizing 18 modules of the JMIESI to deliver competencies needed by senior leaders. Phase 2 is conducted in a VTT format over a 5-day period covering major areas of instruction of both phases to include leadership, management, productivity, organizational structure, utilization of resources, and decision making.
Phase 2 of the ANLC is delivered to students through VTT, and explores topics in leadership, management, productivity, organizational structure, utilization of resources, and decision making.

**Special Information:** Selected prerequisites may be waived on an individual basis by Army Nurse Corps Branch. The AC: To enroll email a DA 3838 to ancbranchtraining@conus.army.mil. For more information, please contact your local Training and Education Office. The RC POC for ALL USAR Soldiers (TPU, IRR, IMA) is HRC, Health Services Directorate, 1-800-325-4729, option 2. Civilians: contact your local Training and Education Office to complete a DA 3838 and email to anlc_admin@amedd.army.mil. Students have 180 days after phase 1 completion to complete phase 2. Phase 2 Checklist. Once enrolled in phase 2 contact the nearest DTF to reserve a Video VTT studio and arrange for computer access. Contact the Program Director 3-4 weeks prior to the start of phase 2 (additional information can be found at the following web address: http://www.dns.amedd.army.mil/ANPD/Leader/anlc.htm. Provide the following in an email (found on the web site for the Program Director): official email address, home mailing address, location of the DTF where you will be attending.

**6F-F3**

**NURSE CASE MANAGEMENT PHASE 1**

**Location School Code: 081**

**Length: 2 weeks 4 days**

**Description:** Phase 1 is 3-weeks of resident training concentrating on national standards and objectives, case findings and intake interviews, outcome evaluation and case closure, utilization management, psychosocial economic issues and vocational concepts and strategies. Phase 2 is 4-weeks of home-station preceptor-guided learning through weekly webinars and on-the-job training that facilitates learning among the cohort (shared lessons learned/issues) and validation of skills required of the Nurse Case Manager. Students will be considered graduates of the course once the preceptor returns the validated competency assessment to the Course Manager, Department of Warrior Transition, AMEDDC&S.

**Special Information:** To apply, please send an approved DA 3838 electronically to usarmy.jbsa.medcom-ameddcs.other.da3838@mail.mil. Once the application is processed and a seat is reserved, a detailed Memorandum of Instruction (MOI) will be sent to the applicant's AKO email address noted in ATRRS. If the class is full or the application is disapproved, the applicant or approving official will be contacted.

**6F-F3**

**NURSE CASE MANAGEMENT PHASE 2**

**Location School Code: 081**

**Length: 24 weeks**

**Description:** Phase 2 is 4-weeks of home-station preceptor-guided learning through weekly webinars and on-the-job training that facilitates learning among the cohort (shared lessons learned/issues) and validation of skills required of the Nurse Case Manager. Students will be considered graduates of the course once the preceptor returns the validated competency assessment to the Course Manager, Department of Warrior Transition, AMEDDC&S.

**Special Information:** Students will be considered graduates of the course once the preceptor returns the validated competency assessment to the Course Manager. Graduate status must be posted in the ATRRS before applying for skill identifier. If the class is full or the application is disapproved, the applicant or approving official will be contacted.
6F-F5
CRITICAL CARE NURSING

Location School Code: 830, 836

**Description:** The Critical Care Nursing course is 18-weeks of resident training that consist of 9-weeks of consolidated training with the Emergency Nursing course. The consolidated curriculum will include didactic critical care nursing theory, patient movement, and operational environment training, followed by 9-weeks of clinical tracks in medical and surgical intensive care units and the emergency department training at San Antonio Military Medical Center (SAMMC) focusing in specialty area.

**Special Information:** There is no description available at the time of this publication; please review ATRRS at [https://www.atrrs.army.mil/](https://www.atrrs.army.mil/) for updated information.

6F-F6
EMERGENCY NURSING

Location School Code: 830, 834

**Description:** The Emergency Nursing course is 18-weeks of resident training consisting of 9 weeks of consolidated training with the Critical Care Nursing course. The consolidated curriculum will include emergency/trauma and critical care theory, patient movement, and operational environment training followed by 9-weeks of clinical tracks in the emergency department and medical and surgical intensive care units focusing in specialty area.

**Special Information:** There is no description available at the time of this publication; please review ATRRS at [https://www.atrrs.army.mil/](https://www.atrrs.army.mil/) for updated information.
DEPARTMENT OF PASTORAL MINISTRY TRAINING (DPMT)

The DPMT Mission: To provide US Military Chaplains and Chaplain Assistants training in clinical and trauma settings to deliver world-class religious support across the spectrum of military medical operations.

**5G-CMM-7S**

**COMBAT MEDICAL MINISTRY**

**Location School Code: 081**

**Description:** This course provides AOC 56A personnel combat medical ministry skills that will enable them to perform as a Combat Medical Pastoral Care Specialist (CMPCS), competent in working as part of a battlefield healthcare team. The Combat Medical Ministry course focuses on short-term crisis intervention and emphasizes short-term interaction in a high-intensity, high-stress combat, emergent care environment. Additionally, it focuses on emotional responses related to traumatic battlefield casualty experiences. The training will prepare the CMPCS to effectively minister to Soldiers, medical staff, chain of command, and units experiencing mass casualty and/or traumatic injury as a result of combat. The training also includes the development of expertise in special ministry to staff personnel who exhibit post-traumatic stress responses to single or multiple combat, mass casualty exposure. The six competencies are: trauma ministry, traumatic event ministry, crisis ministry, bio-medical/battlefield ethics ministry, grief, loss, and death ministry, and spiritual hope ministry. Graduates of the course will receive the 7S ASI. The 7S ASI requires validation of one unit of CPE. Priority will be given to Chaplains assigned or selected for assignment to Table of Organization and Equipment (TOE) combat medical unit assignments.

**Special Information:**
1. To apply: Initial application for the course is made online through the DPMT website at [http://www.samhouston.army.mil/chaplain/dpmt/index.html](http://www.samhouston.army.mil/chaplain/dpmt/index.html) or Google DPMT.
2. You will receive a MOI upon registration and confirmation for attendance from the staff, DPMT, AMEDDC&S.
3. The RC Soldier should provide a copy of this MOI to their unit ATRRS personnel for processing of the A-1 application in ATRRS. The AA reservations will be made in ATRRS by the applicable quota manager.
4. If you have not received an acknowledgment of selection for attendance within 25-days, contact the DPMT immediately at dpmt-training@amedd.army.mil.
5. Course attendance confirmation will be emailed to selected individuals approximately 30-days before class report date.

**5G-CPE/SIT-7R**

**CLINICAL PASTORAL EDUCATOR**

**Location School Code: 830, 834, 836**

**Description:** This course is designed to qualify AOC 56A/7R personnel as AOC 56D, Clinical Pastoral Educators. It provides AOC 56A/7R chaplains the necessary, advanced, pastoral skills to serve successfully as training/supervisory personnel within accredited CPE training centers as well as MEDCENs, MEDDACs, disciplinary barracks, medical brigades, and staff positions at the USA MEDCOM level. The 3-year, 3-month course provides instruction in facilitating group interpersonal interaction, supervising student pastoral work, evaluating student competency in identifying pastoral and personal resources, and supervisory strategies and interventions. Students are also taught to apply principles of program development and organization as they relate to the successful implementation of an effective CPE program. Army graduates will receive the 56D AOC; other graduates will receive designators IAW regulatory directives for their respective service.

**Special Information:** The ADSO for USA personnel is IAW AR 165-1, "Chaplain Activities in the United States Army." The AR states, "Chaplains completing ACS, CPE, and 7R Trainer (Supervisor-in-Training) incur
an ADSO for the period equal to three times the length of schooling and training but no more than 3 years (computed in days IAW AR 350-100) unless sooner released or reassigned for the convenience of the US Government." The service obligations for other service personnel are as follows: USN, IAW OPNAVINST 6110.D and USAF IAW AFR 39-1. If one decides to leave the training for personnel reasons, a repayment cost to the government for training expenses may be incurred. Additional course information: The first 3 months of the course are designed to orient the student to the course requirements and to determine the student's potential to successfully complete the course and serve effectively as an AOC 56D, Clinical Ministries Supervisors, specifically in the 5G-CPE-7R, Clinical Pastoral Education course. The readiness of the student is determined through an appearance before a committee which grants or denies candidacy status. If candidacy status is denied, the student's potential as an AOC 56D, Clinical Pastoral Educator is re-evaluated according to the needs of the Army, MEDCOM, and Chief of Chaplains. The 5G-CPE/SIT-7R, Clinical Pastoral Educator course is taught exclusively at BAMC and WRAMC.

5G-CPE-7R
CLINICAL PASTORAL EDUCATION

Location School Code: 830, 831, 834, 836, 840 Length: 49 weeks

Description: This course provides AOC 56A personnel clinical pastoral skills which will enable them to function effectively in institutional ministries at MEDCENs, MEDDACs, TOE medical units, disciplinary barracks, and staff positions, as well as, on the battlefield. The 49-week curriculum offers instruction in interdisciplinary relationships and team concepts, the capacity to evaluate one's ministry, pastoral tools for hospital ministry, and prophetic perspectives in functions such as: preaching, teaching, leadership, management, trauma ministry, crisis ministry, pastoral care, and pastoral counseling. It also contains the academic portion of the Doctor of Ministry (DMin) through enrollment in the program’s contracted Theological Seminary. Chaplains may be exempted from the DMin program as a result of current enrollment in a different DMin program or having previously successfully completed a DMin from an accredited Seminary will be required to undergo an alternate schedule consisting of models of ministry (40 hours), acts of ministry (40 hours), dealing with conflict (40 hours), writing the prospectus (40 hours), the legend of Dietrich Bonhoeffer (40 hours), and the problem of pain (40 hours) under supervision of the CPE supervisor. Graduates of the course will receive the 7R ASI after serving 1-year of the utilization requirement.

Special Information: There is no special information available at the time of this publication; please review ATRRS at https://www.atrrs.army.mil/ for updated information.

5G-F8
CLINICAL PASTORAL EDUCATION INTERN

Location School Code: 830, 831, 834, 836, 840 Length: 10 weeks

Description: The 10-week course provides 0056A Chaplain candidates introductory competency skills relating to pastoral reflection issues that will enable them to integrate into institutional ministries in a variety of medical environments. Chaplain Candidates or RC Chaplains are trained specifically in areas of course methodology, personhood, academic goals/needs, pastoral skills, group theory/process, pastor/patient feelings, theological constructs, pastoral authority, clinical environment worship, multi-disciplinary team participation, and multicultural/multi-faith ministry. This course is open to other service Chaplain candidates.

Special Information: There is no special information available at the time of this publication; please review ATRRS at https://www.atrrs.army.mil/ for updated information.
EMERGENCY MEDICAL MINISTRY

Location School Code: 081

Length: 2 weeks

Description: The 2-week 5G-EMM Course is designed to produce military Chaplains and Chaplain Assistants capable of providing comprehensive ministry experience in forward-deployed medical units or Special Medical Augmentation Response Teams - Pastoral Care (SMART-PC). The AMEDDC&S is the primary training site with practicum exercises at BAMC for the EMM course. This course qualifies Chaplains and Chaplain assistants, who have no previous ministry experience in a medical setting in the four competencies: trauma ministry, traumatic event management, medical ethics, and grief and loss ministry. In addition, chaplain assistants will be trained in peer care-giving skills.

Special Information: The IMSs may attend IAW AR 12-15 and AMEDDC&S Pam 1-5, Staff and Faculty-International Military Students. To apply: 1. Initial application for the course is made online through the DPMT website at http://www.samhouston.army.mil/chaplain/dpmt (or Google DPMT). 2. You will receive a MOI upon registration and confirmation for attendance from the staff, DPMT, AMEDDC&S. 3. The RC Soldier should provide a copy of this MOI to their unit ATRRS personnel for processing of the A-1 application in ATRRS. The AA reservations will be made in ATRRS by the applicable quota manager. 4. If you have not received an acknowledgment of selection for attendance within 25-days, contact the DPMT immediately at dpmt-training@amedd.army.mil. 5. Course attendance confirmation will be emailed to selected individuals approximately 30-days before class report date.

CLINICAL PASTORAL EDUCATION EXTENDED TRAINING

Location School Code: 081

Length: 26 weeks

Description: The overall course objective is to train Chaplains using an action-reflection model that significantly improves a Chaplain's ability to personally process traumatic and crisis events within his/her theological/spiritual story. This ability to appropriately integrate suffering and pain into spiritual care provider's story empowers the provider to assist others with his/her personal trauma story. This training assists in mitigating the effects of exposure to traumatic events and helps in reducing the on-set of PTSD symptomology. The course covers methodology, personhood, pastoral skills, group theory, grief and loss, theological constructs, medical ethics, multi-culture/multi-faith ministry, crisis and trauma, and pastoral care skill sets.

Special Information: There is no special information available at the time of this publication; please review ATRRS at https://www.atrrs.army.mil/ for updated information.
DEPARTMENT OF PREVENTIVE HEALTH SERVICES (DPHS)

The DPHS mission is "To provide training in Preventive Medicine, Behavioral Sciences, and Medical CBRNE training to officers, warrant officers, enlisted, civilians, US and allied personnel worldwide."

26A-F51/300-F51
HEARING TECHNICIAN CERTIFICATION

Location School Code: 879

Description: The Hearing Technician Certification Course covers all elements in the Army Hearing Program to include hands-on technical training with equipment, practicum, and exam. Course content is as follows:
Overview of the Army Hearing Program; Properties of Sound; Anatomy and Physiology of the Ear/Hearing Disorders; The Audiogram and Follow-Up; Regulations and Compensation; Recordkeeping (includes Department of Defense (DD) 2215, DD2216, DD2214, and DD2217 forms); Introduction to DOEHRS-HC and DOEHRS Data Repository; Role of the Army Hearing Program Team; Health Education Training; Otoscopy, Hearing Protective Devices and Practicum; Noise Measurement and Control; Hearing Test Considerations; Test Environment and Equipment (Calibration); Review of Hearing Conservation Program; Introduction to DOEHRS-HC & DOEHRS DR Capabilities; DOEHRS-HC Hearing Test Administration (DD 2215 and DD 2216); DOEHRS-HC Functions; and Examinations (written and practical).

Special Information: Registration will continue for our six courses at APG, MD through our website at http://phc.amedd.army.mil/topics/workplacehealth/hrc/Pages/Training.aspx. Once selected for training, a letter of instruction will be forwarded. Other military services and DoD employees may apply via Course Manager at 410-436-3797. This course is also available to ARNG units as onsite training on an as-needed basis. 1. Training will be at the Mallette Training Center, 6008 Jayhawk Rd, on Aberdeen Proving Ground (APG), MD. APG is divided into two parts, Aberdeen (North) and Edgewood (South). The Mallette Training Center is located on Aberdeen (North). The phone number for the Army Hearing Program (AHP) office is 410-436-3797. Please leave this number with your supervisor and family in case of emergency. The course will begin promptly at 0800 each day. The course will be in Classroom 1, first floor. There is a Subway and coffee shop in the building. The IHG Hotels at APG provides a continental breakfast. Government meals are not available. 2. It is suggested that air travel arrangements be made into the Baltimore-Washington International (BWI) Airport since it is the closest and most convenient airport. Training will conclude NLT 1200 hours on the last day. It is recommended that you allow a total of 3 hours travel time to the airport and your flight's departure. 3. It is recommend that you get a rental car, as the cost of a cab (around $100 each way) or shuttle can be expensive. Rental car reimbursement is not covered in your TDY expenses, thus is a unit responsibility if authorized. 4. APG Gate Information: There are two main gates into APG North. The MD 715 Gate is for visitors and commercial vehicles and is operational 24 hours a day. The MD 22 Gate is open 0400-2000 during duty days and closed on weekends and holidays. This gate is open to government ID holders only. 5. Lodging information: Rooms are available on post at IHG Hotels at APG, Building 2207, Bel Air Street, Aberdeen Proving Ground, MD 21005, 410-278-5148/5149/4373. http://www.apgmwr.com/armylodging.html. It is your responsibility to make your own reservation. There are other lodging options near APG but they do not always offer the Government rate and since there should be rooms available on post, a certificate of nonavailability will not be issued. 6. You must attend all training sessions and pass all tests in order to be certified as a hearing technician. This is a government-sponsored course. Military personnel will wear ACUs. Attire for civilians is business casual. Military may opt for civilian attire on the last day of the course for travel.
26A-F52/323-F52
TRI-SERVICE VISION CONSERVATION & READINESS

Location School Code: 879           Length: 3 days

Description: Provide DoD personnel training to become Vision Conservation and Readiness Officers (VCROs) or members of an installation's Vision Conservation and Readiness Team (VCRT).

Special Information: The AA officers may apply via DA3838 to the Branch Manager at HRC. The AA enlisted may apply via DA3838 emailed to the TSVCR Program at: usarmy.apg.medcom-phc.mbx.dcpm-tri-service-optometry@mail.mil. The USAR and ARNG may apply via A1 Application in ATRRS (see Unit Training ATRRS Operator for instructions). Other military services and DoD employees may apply via an email to the course manager at: usarmy.apg.medcom-phc.mbx.dcpm-tri-service-optometry@mail.mil. This course is also available to unit/installations as onsite training on an as-needed basis. Further questions may be addressed at DSN 584-2714 or commercial 410-436-2714. Non-Ophthalmic personnel can register for the online portion of the course by completing a registration/application request form at: https://usaphcapps.amedd.army.mil/TrainCon/eForm.aspx?Name=TriVision.

26A-53/130-53
BIOLOGICAL SURETY MEDICAL SUPPORT

Location School Code: 081           Length: 4 days

Description: The Biological Surety Medical Support course (BSMSC) provides training to medical providers and staff in the unique clinical and medical administrative tasks comprising that support. The BSMSC includes didactic instruction in the nature and management of hazards associated with biologic select agents and toxins (BSAT), elements of Army biological personnel reliability programs along with techniques for managing those programs, and skills training in clinical response to BSAT exposures and vaccine adverse events.

Special Information: The AA Officer may apply via DA3838 to the Branch Manager at HRC. The AA Enlisted may apply via DA3838 to the course manager via commercial fax at 210-221-5296. The USAR and ARNG may apply via A1 Application in ATRRS (see Unit Training ATRRS Operator for instructions). Other military services and DoD employees may apply via course manager at 210-295-4752.

This program is a Secretary of the Army-designated sensitive activity. Clinical support to this program is delivered by US Army MEDCOM or contractor clinics.

The Army manages five Biological Surety Programs with integrated Biological Personnel Reliability Programs in accordance with AR 50-1, Biological Surety, at government and at contractor facilities. This course provides privileged providers and clinic support staff the knowledge and skills required to serve as a Competent Medical Authority (CMA) in accordance with Army Regulation 50-1, Biological Surety. Completion of this course is a requirement for appointment as a CMA.

300-AS1W2 (68W)
CIVIL AFFAIRS MEDICAL SPECIALITY

Location School Code: 081           Length: 8 weeks

Description: Civil Affairs Medical Specialty (CAMS) training is designed to give the civil affairs medic the ability to engage an indigenous populace, conduct medical assessments, and to give some basic preventative medicine capability to the remotely deployed civil affairs team. Additional medical training will consist of
public health, water, food, arthropod, agriculture, veterinary science, dental science, and clinical medicine
(patient assessment) training.

**Special Information:** There is no description available at the time of this publication; please review ATRRS at

**6A-F5**
**PRIN OF MILITARY PREV MEDICINE**

**Location School Code:** 081  
**Length:** 9 weeks

**Description:** Course content includes the following areas: community health practices, communicable and
infectious diseases, operational preventive medicine, epidemiology, statistics, medical entomology, industrial
hygiene, health physics, sanitary engineering, and environmental science. Preventive medicine core topics
provide a broad overview of each of the specialty areas for all students, preparing them to function as part of a
multidisciplinary team. Each specialty group also receives additional instruction in appropriate specialty topics,
preparing them to function independently at an entry level within their specialties. A 3-day field training
exercise will occur at the end of the course.

**Special Information:** Course specific information can be obtained at DSN: 471-7409/6245 or COMM:
210-221-7409/6245.

**6A-F5(MC)**
**PREV MEDICINE PHYSICIAN FIELD TRAINING**

**Location School Code:** 081  
**Length:** 1 week 1 day

**Description:** Provide AMEDD officers with the skills and knowledge to function in preventive medicine
specialty areas at an entry level. Subjects common to all preventive medicine are presented in a common core
(CC) for all students. In addition each group receives instruction unique to their specialty.

**Special Information:** There is no special information available at the time of this publication; please review

**6A-F5(RC)(DL)**
**PRIN OF MILITARY PREV MEDICINE(RC)(DL) PHASE 1**

**Location School Code:** 555  
**Length:** 1 week 2.6 days

**Description:** Provide AMEDD officers with the skills and knowledge to function in preventive medicine
specialty areas at an entry level. Subjects common to all preventive medicine are presented in a common core
for all students. In addition, each group receives instruction unique to their specialty. The Basic Industrial
Hygiene Techniques Course (6H-F11/322-11) is an essential part of the track (Annex B) for the sanitary
engineers. Lessons for this training are imbedded in the course track and justify a certificate of completion for
these officers in Basic Industrial Hygiene Techniques. This certificate serves as evidence of having met the
prerequisites for the more advanced Intermediate Industrial Hygiene Topics Course (6H-F10/322-F10).

**Phase Scope:** 6A-F5 (RC) course students will fulfill the identical course content and performance requirements
as do the current 6A-F5 course students. This will be accomplished by use of dL modules interspersed with
resident phases, accomplished over a period not to exceed 2-years time.
Phase 1 is dL and is fundamental concepts and basic knowledge. Phase 2 is in residence and covers Intermediate concepts and hands-on training. Phase 3 is dL and covers advanced concepts and applications. Phase 4 is a 2-week resident phase and covers advanced applied training and an FTX.

**Special Information:** 6-months is the maximum amount of time to complete each dL phase.

ATRRS Enrollment for Self Development Products: 1. Go to https://www.atrrs.army.mil/https://www.atrrs.army.mil/. Scroll down under channels (right side of screen) and click on self-development. Under bulletin board, click on "CONTINUE TO SELF-DEVELOPMENT." The student has the option to use several logon options. Once the student is logged, click on the pull down arrow to "SELECT A COURSE." Scroll down to school code (fill in your course number here), (fill in your course title). Once the student clicks on the required course, the class schedule will appear. Click on class (fill in the class number here) and begin the enrollment process. Enrollment through ATRRS will create a reservation enrollment in ATRRS as proof of enrollment. ATRRS will generate an intermediate enrollment email while the student enrollment is processing. It takes up to 24 hours for the student's enrollment to process through ATRRS and the ALMS. Once the student enrollment processes through the ALMS, an official enrollment email will be generated and sent to the student's email address that was part of the enrollment process. The official email will give the student the website for accessing courseware content and the final courseware examination. All course and module completions will be forwarded to ATRRS for annotation on the student's official ATRRS training record.

2. Please refer to the ALMS Learner Log-in Instructions at: http://www.dis.army.mil/lms_learner-login.html for instructions on how to configure your local machine to ensure proper playing of this dL product.

3. To submit issues or questions regarding this product/course, please submit a trouble ticket to the Army Training Help-Desk: Website: https://athd.army.mil. Toll Free: 1-800-275-2872 or 1-877-251-0730. Email: ask.athd@us.army.mil. Hours of Operation: 24/7.

6A-F5(RC)
PRIN OF MILITARY PREV MEDICINE PHASE 4

Location School Code: 081 Length: 2 weeks

Description: Provide AMEDD officers with the skills and knowledge to function in preventive medicine specialty areas at an entry level. Subjects common to all preventive medicine are presented in a common core for all students. In addition, each group receives instruction unique to their specialty. The Basic Industrial Hygiene Techniques Course (6H-F11/322-11) is an essential part of the track (Annex B) for the sanitary engineers. Lessons for this training are imbedded in the course track, and justify a certificate of completion for these officers in Basic Industrial Hygiene Techniques. This certificate serves as evidence of having met the prerequisites for the more advanced Intermediate Industrial Hygiene Topics Course (6H-F10/322-F10).

Special Information: There is no special information available at the time of this publication; please review ATRRS at https://www.atrrs.army.mil/ for updated information.

6A-F6/322-F32
PREVENTIVE MEDICINE SENIOR LEADERS

Location School Code: 081 Length: 1 week 4 days

Description: This course emphasizes management skills and problem solving in preventive medicine. General subjects include managing Preventive Medicine operations in TDA and TO&E organizations; knowledge of population health for force health protection; employment of operational risk management techniques for preventive medicine and health surveillance; identification of current issues impacting preventive medicine; and
managing preventive medicine support for homeland security operations. Technical competence in a specialty area is necessary for attendees, as this is not a refresher course. Personnel in both TDA and TO&E Preventive Medicine will benefit from this course.

**Special Information:** Course specific information can be obtained at DSN: 471-7516/7409 or COMM: 210 221-7516/7409.

**6H-F9/322-F9**

**SEXUALLY TRANSMITTED DISEASE INTERVENTION(DL) PHASE 1**

**Location School Code:** 555

**Description:** Sexually Transmitted Disease Intervention dL provides DoD officers, enlisted personnel, and civilian employees with the knowledge and skills essential for the prevention and control of sexually transmitted diseases (STD's). Phase 1 will include information on specific diseases such as gonorrhea, chlamydia, syphilis, genital herpes, HIV/AIDS, viral hepatitis, and other diseases that can be transmitted sexually, as well as the basic concepts of interviewing and reporting.

**Special Information:** 1. Upon successful completion of the end-of-course exam, the individual may apply for phase 2 if eligible. 2. Applicants for phase 1 must apply at Internet site: [https://www.atrrs.army.mil](https://www.atrrs.army.mil). Slide down the right side under "Channels." Click on Self Development to open the application and follow on-screen instructions. Applications for phase 1 should be made 6-months prior to the start of phase to allow sufficient time to complete dL portion. 3. This course is a dL course. The course materials are delivered via the ALMS. If you encounter any errors and you have completed all the steps above, you may contact the Army Training Help Desk (ATHD) for assistance at: Website: [https://athd.army.mil](https://athd.army.mil). COMM: 800-275-2872 or 877-251-0730. Email: ask.athd@us.army.mil. Hours of Operation 24/7.

**6H-F9/322-F9**

**SEXUALLY TRANSMITTED DISEASE INTERVENTION PHASE 2**

**Location School Code:** 081

**Description:** 6H-F9/322-F9 is a two-phased course that provides the knowledge and skills essential to the prevention and control of STDs in US military forces. Phase 1 is distance learning. Phase 2 is the resident phase. Phase 1 will include information on specific diseases such as gonorrhea, chlamydia, syphilis, genital herpes, HIV/AIDS, viral hepatitis, and other diseases that can be transmitted sexually, as well as the basic concepts of interviewing and reporting. Instructional content is in CD ROM format with registration and testing via the Virtual Schoolhouse. Glossaries and other material required for effective use of the IMI courseware are included as annexed to the 6H-F9/322-F9 interactive lessons.

**Special Information:** The AA Officers should submit a DA Form 3838, Application for Professional Training, to their branch manager at HRC. The AA enlisted will submit a DA Form 3838 to the program Manager at [usarmy.jbse.medcom-ameddcs.mbx.prev-med-branch@mail.mil](mailto:usarmy.jbse.medcom-ameddcs.mbx.prev-med-branch@mail.mil). The DoD civilians and contractors submit a SF182 (Authorization, Agreement, and Certification of Training) to the program Manager at [usarmy.jbse.medcom-ameddcs.mbx.prev-med-branch@mail.mil](mailto:usarmy.jbse.medcom-ameddcs.mbx.prev-med-branch@mail.mil). Reserve component submit an A-1 application at unit level. If quota allocations are available, the application will be approved. Other services apply through their service training managers. Course specific information can be obtained by calling DSN 471-6461/6947 or COMM: 210-221-6461/6947. **Once approved, the Program Manager will send the student a letter of instruction for course attendance.**
6H-F10/322-F10  
**INTERMEDIATE INDUS HYGIENE TOPICS**

**Location School Code:** 878  
**Length:** 2 weeks

**Description:** Advanced and refresher training in industrial hygiene techniques for evaluation and control of occupational health hazards at US Army installations. Emphasis is on determinants of air contaminant toxicity, occupational health standards, hazard recognition, survey/sampling strategy, exposure documentation, data collection and interpretation of exposure control alternatives, ventilation system measurement, design and balancing and medical surveillance with in-depth discussion of applying these principles to complex occupational operations, e.g., welding, spray finishing, abrasive blasting, and other military unique operations.

**Special Information:** Applications from AA enlisted personnel should be forwarded to the CDR, MC, ATTN: MCHO-CL-W, FSH, TX 78234-6000. Course specific information can be obtained at COMM: 210-221-6194/6733 or DSN: 471-6194/6733.

6H-F11/322-F11  
**BASIC INDUSTRIAL HYGIENE TECHNIQUES**

**Location School Code:** 081  
**Length:** 2 weeks

**Description:** This is a two-week course available for personnel performing primary duties in an industrial hygiene program or a supervisor of such personnel. This course trains the individual in basic techniques for ventilation, survey and sample collection, and use of basic industrial hygiene equipment. This course is conducted twice a year at the AHS, FSH, TX

**Special Information:** Course specific information can be obtained at DSN: 471-6194/6733 or COMM: 210-221-6194/6733.

6H-F12/322-F12  
**DoD PEST MANAGEMENT CERTIFICATION**

**Location School Code:** 081  
**Length:** 3 weeks

**Description:** This resident course stems from DoD 4150.7-P guidelines and consists of three sequential parts. The Core (Part I, 51 periods) provides training in areas common to all fields of pest management to include: labeling; pesticide toxicology, safety, storage, and calculations; environmental hazards of pesticides; dispersal equipment; equipment calibration; application techniques; and laws and regulations in pest management. Part II (34 periods) provides training in the broad areas of vegetation and turf management. Part III (46 periods) provides training in the areas of biology, identification, and control of arthropods and vertebrates as nuisance pests and vectors of disease. This course provides training in Integrated Pest Management.

**Special Information:** Having three parts to this course allows for all students to start on the same day, although each part may be taken separately. All parts are conducted in residence. There are 6-days of CC instruction (Part I) which must be completed by all students. In addition, students must complete Part II or Part III or both to be eligible for certification. Course specific information can be obtained at DSN: 471-8261/6733 or COMM: 210-221-8261/6733.
6H-F13/322-F13
DoD PEST MGT RECERTIFICATION
Location School Code: 081

Description: Instruction presented updates personnel regarding changes in technology; reviews category and general pest management information; discusses various problem areas; and evaluates competency through examination. Personnel certified in pest management operations and practices are required by the DoD and DA instructions to be recertified every 3 years.

Special Information: Applicants for enrollment must contact the DoD Certification Enrollment NCO, Medical Zoology Branch, 210-221-6462/8430/8261 or DSN 471-6462/8430/8261. All requests for reservations should be submitted no later than 30-days prior to the class report date. Students will complete, in full, a DA Form 3838, Application for Short Course Training. For active officers, the request is forwarded by unit training personnel to the applicable branch manager at Human Resources Command. Active enlisted applicants and civilians will contact the Enrollment NCO for submission instructions. If selected for attendance you will be notified and the reservation will be entered into the ATRRS. Reserve Component should contact unit training NCO or ATRRS clerk who can submit the request via the ATRRS A-1 application process. Other services contact applicable service quota manager for application instructions or course POC for space available seating. Prospective attendees are not to make travel arrangements prior to receipt of Funding Authorization. Rental car is NOT authorized if the course is funded through central funding. For most functional courses, the service members unit must provide the funding for travel, per diem and local transportation for the duration of the course. The Medical Zoology Branch personnel will send all administrative and training materials to the student once reservation is confirmed in the ATRRS.

6H-F17/322-F17
LASER/RADIO FREQ RADIATION HAZARDS
Location School Code: 878

Description: The Laser and Radio Frequency Radiation Hazards course is designed to provide a background for recognizing health hazards from nonionizing radiation sources and for establishing effective control measures for these hazards. The subject matter presented includes: interaction of optical radiation with matter; sources and biological effects of optical radiation; optical radiation measurements and calculations; military applications of lasers; laser hazard classification; development of laser protection standards; eye protection filters; ultraviolet radiation hazards and permissible exposure levels; laser range controls; laser laboratory controls; radio frequency radiation (RFR) (including microwave frequency bands) sources and systems (communication, navigation and radar); RFR generation and propagation along transmission lines and in free space; antennas and radiation patterns; RFR power density calculations; biological effects or RFR including standards, exposure limits, and control procedures for RFR sources; RFR hazard evaluation and site survey; Radiation Protection officer responsibilities; RFR instrumentation; and RFR Workshop-Developing the RFR Protection Program: Control Procedures and Authority/Responsibility for the RFR Program. Particular emphasis is placed on recognizing nonionizing radiation hazards that are mostly commonly encountered within the DA.

Special Information: There is no special information available at the time of this publication; please review ATRRS at https://www.atrrs.army.mil/ for updated information.
6H-F18/322-F18
MEDICAL X-RAY SURVEY TECHNIQUES

Location School Code: 081  Length: 2 weeks

Description: Emphasis is placed on the physical principles of x-ray production and imagery, Joint Commission on Accreditation of Health Care Organizations and Mammography Quality Standards Act, biological effects of radiation and federal x-ray system performance standards. Practical exercises on survey procedures are an integral part of the course.

Special Information: This functional course teaches skills required to perform instrumented radiation protection surveys of diagnostic x-ray systems. Such skills are critical to ASIN4 and AO 27A, without which such individuals could not fully perform their respective job duties. In accordance with Technical Bulletin Medical (TB MED) 521, AR 11-9 (The Army Radiation Safety Program), and DA policy, it is directed that personnel conducting surveys of diagnostic medical x-ray equipment be adequately trained. Costs for non-DoD federal and other nonfederal personnel will be charged appropriate current rates maintained by the Directorate of Resource Management. This course can be given at a unit's request at their location. Requesting unit will provide funding and resources to conduct the course. Course specific information can be obtained at DSN: 471-7460/7455 or COMM: 210-221-7460/7455.

6H-F20(DL)
FUNDAMENTALS OF OCCUPATIONAL MEDICINE PHASE 1

Location School Code: 555  Length: 2 days

Description: Prior to attending the course, review the course syllabus then go to the US Army Medical Command Continuous Medical Education website at https://education.mods.army.mil/CME/Secured/Default.aspx to register for this activity.

6H-F20 is a two phased course that provides the knowledge and skills essential for active and reserve AMEDD officers and DACs with responsibilities in administering Occupational Health Programs.

Special Information: 1. The instruction will be web-based with the end of course testing completed on the ALMS. Upon successful completion of the end-of-course exam, the individual may apply for phase 2, if eligible. 2. Applicants for phase 1 must apply at Internet site: http://www.atrrs.army.mil. Slide down the right side under "Channels". Click on Self Development to open the application. Follow on-screen instructions. 3. Individuals not meeting the prerequisites may request to register for the course provided they have primary responsibilities in US Army Occupational Health. The course director will consider such requests on an individual basis. Send written requests with justification. 4. Review the course syllabus then go to the US Army MEDCOM Continuing Medical Education (CME) website at https://education.mods.army.mil/CME/Secured/Default.aspx to register for this activity. Upon completion of this activity, log on to the CME website at https://education.mods.army.mil/cme/secured to obtain a physician or nonphysician certificate. From the home page, click on the 'CME User Accounts' portal then login. Complete the Activity Evaluation and Request for Credit Form and submit. For assistance, you may contact the CME Planner at COMM: 210-221-6220.
**6H-F20**

**FUNDAMENTALS OF OCCUPATIONAL MEDICINE PHASE 2**

**Location School Code: 081**

**Length: 1 week**

**Description:** 6H-F20 is a two phased course that provides the knowledge and skills essential for active and reserve AMEDD officers, DACs with responsibilities in administering Occupational Health Programs. Phase 2 content includes fundamental principles of Army; overview of the occupational health program; legal aspects of occupational medicine; program and budgeting; workplace surveys and analysis; industrial hygiene; air sampling; laboratory methods; hearing and vision conservation; respiratory, radiation, and blood borne protection programs; ergonomics program; safety programs; installation lead and asbestos management programs; recording, reporting and recordkeeping; DoD occupational medicine computerized programs and databases; bioterrorism; chemical, biological, and nuclear surety programs; risk communication; quality assurance; health promotion programs, immunization and chemoprophylaxis; clinical toxicology, medical surveillance, occupational diseases; occupational injuries; medical examinations; treatment of occupational injuries and illnesses; epidemiologic investigations; drug testing; employee assistance programs; workers compensation; Federal Employees' Compensation Act; the Americans with Disabilities Act; and sentinel events.

**Special Information:** All military, civilian and contract personnel must fill out and submit a DA Form 3838, Application for Professional Training with supervisor/approving authority's signature. This form may be downloaded from the Army Publishing Directorate at http://www.apd.army.mil/. All requests for reserved seats should be submitted at least 30 days per to class report date. All AC Soldiers must submit their completed DA 3838 through their respective branch manager at HRC. The USAR and ARNG should contact their unit training NCO or ATRRS clerk who can submit the request via the ATRRS A-1 application process. Civilian and contract personnel can fax the DA Form 3838 to following: FAX: 210-221-6427 for submission to ATRRS. When contractors submit their DA3838, block 25 must state that the requesting unit will pay for all TDY costs associated with attendance.

**6H-F26**

**MED MGT CHEM/BIOLOGICAL CASUALTIES PHASE 1**

**Location School Code: 877**

**Length: 3 days**

**Description:** This 6-day course is taught at two separate sites, simultaneously, to two separate groups of students. The biological portion (phase 1) is taught at the USA Medical Research Institute of Infectious Diseases at Fort Detrick, MD. The chemical portion (phase 2), which includes a field exercise, is taught at the USA Medical Research Institute of Chemical Defense at the Edgewood area of APG, MD. The order in which students receive phase 1 and phase 2 instruction is unimportant, but each student must complete both phases.

**Special Information:** Individuals requiring glasses should bring their protective masks with inserts. Special consideration will be given for enrollment of the NCO’s who have received advanced training and who are categorized as "other first responders." These individuals are required to receive this training as a part of their civil defense mission. All civilian attendees must complete the Protective Mask Respirator Medical Clearance form prior to attending the course. Course specific information can be obtained at COMM: 410-436-2230 or Alternate: DSN: 471-7455 or COMM: 210-221-7455.
**6H-F26**
MED MGT OF CHEM & BIOL CASUALTIES PHASE 2

Location School Code: 879
Length: 3 days

**Description:** This 6-day course is taught at two separate sites, simultaneously. The biological portion (phase 1) is taught at the USA Medical Research Institute of Infectious Diseases at Fort Detrick, MD. The chemical portion (phase 2), which includes a field exercise, is taught at the USA Medical Research Institute of Chemical Defense at the Edgewood area of APG, MD. The order in which students receive phase 1 and phase 2 instruction is unimportant, but each student must be registered for both phases and must complete both phases.

**Special Information:** Individuals requiring glasses should bring their protective mask inserts. Special consideration will be given concerning enrollment of the NCO’s who have received advanced training and who are categorized as "other first responders." These individuals are required to receive this training as a part of their civil defense mission. All civilian attendees must complete the Protective Mask/Respirator Medical Clearance form prior to attending the course. Course specific information can be obtained at COMM: 410-436-2230 or Alternate: DSN: 471-7455 or COMM: 210-221-7455.

---

**6H-F33/322-F31**
DoD PEST MGMT QAE/INSTALLATION PM COORDINATOR

Location School Code: 081
Length: 1 week

**Description:** This course provides integrated pest management training, IAW DoD 4150.7P for Installation Pest Management (PM) Coordinators and Quality Assurance Evaluators (QAE). The instruction provides 1 week of instruction and examinations in areas common to all fields of pest management to include: installation pest management plans and contracts; safe application of pesticides; legislation and labeling, safe handling and storage practices, calculations, dispersal equipment calibration and application; management of diseases and pests of trees, ornamentals, and turf grasses; and biology, identification, and management of common household and public health pests.

**Special Information:** Certification is valid for 3-years. Refresher/recertification training may be completed by attending this course (DoD PM QAE) or the DoD pesticide applicator certification course (6H-F12/322-F12). Course specific information can be obtained at DSN: 471-8261/6733 or COMM: 210-221-8261/6733.

---

**6H-F37/300-F31**
FIELD MGT OF CHEM & BIOLOGICAL CASUALTIES

Location School Code: 879
Length: 1 week

**Description:** This 5-day course is taught at APG, Edgewood, MD. The course includes didactic exercises, practical (small group) exercises, and field scenario exercises. The Field Management of Chemical and Biological Casualties course is designed for military healthcare providers including medics/corpsmen, medical planners, and operations.

**Special Information:** Individuals requiring glasses should bring their protective mask inserts. Nongovernment registrants will be approved on a space-available basis. Only AA will be funded; all others (to include all armed service branches and USAR) will have to be funded by their own organizations; non-DoD civilians will have to pay a tuition fee in addition to course costs that all other attendees pay, except AA attendees. All civilian attendees must complete the Protective Mask/Respirator Medical Clearance form prior to attending the course.
Academic hours include 47 after-duty hours (including inprocessing and outprocessing) for 1-week of training for all attending except the EMT; academic hours for paramedics attending are 40.8 plus inprocessing and outprocessing. Course specific information can be obtained at COMM: 410-436-2230.

**6H-F40/311-F4**
FIELD IDENTIFICATION OF BIO WARFARE AGENTS

**Location School Code: 877**  
**Description:** This is an operationally oriented course with a major focus on integration or diagnostic technologies. Emphasis is placed on the applied diagnostic techniques used in polymerase chain reaction (PCR) and electrochemiluminescence (ECL). Practical exercises are an integral part of the course. Following the completion of this course, students are competent to set-up, maintain, and operate a deployable biological agent confirmatory laboratory under field conditions. The deployed laboratory capability serves as theater and combatant commanders', as well as the theater surgeon's resource for biological warfare testing.

**Special Information:** There is no special information available at the time of this publication; please review ATRRS at [https://www.atrrs.army.mil/](https://www.atrrs.army.mil/) for updated information.

**6H-F40/311-F4(RC)**
FIELD IDENT OF BIO WARFARE AGENTS (FIBWA)(RC)

**Location School Code: 877**  
**Description:** This is an operationally oriented course with a major focus on integration or diagnostic technologies. Emphasis is placed on the applied diagnostic techniques used in polymerase chain reaction (PCR) and electrochemiluminescence (ECL). Practical exercises are an integral part of the course. Following the completion of this course, students are competent to set-up, maintain, and operate a deployable biological agent confirmatory laboratory under-field conditions. The deployed laboratory capability serves as Theater and Combatant Commanders', as well as the Theater Surgeon's resource for biological warfare testing.

**Special Information:** Per decision paper, attendees do not work with human samples or viruses as in the active component course. This is not an MOS or AOC producing course. This functional course teaches skills required to perform procedures and diagnostic tests used to identify select biological warfare agents. Costs for DoD, non-DoD, federal, and other nonfederal personnel will be charged appropriate current rates maintained by USAMRIID.

**6H-F41/311-F5**
FIELD ID BIO WARFARE AGENT MANAGER'S COURSE

**Location School Code: 877**  
**Description:** This course is designed as a short duration, high intensity course for senior leaders to minimize their time away from regular duties while still imparting essential elements of information in order for them to be proficient in biological warfare agent detection. The course is operationally oriented with a major focus on integration of diagnostic technologies. Emphasis is placed on the theory of applied diagnostic techniques used in PCR and ECL. Practical exercises are used to familiarize the students with the techniques used in the field. Interpretation data and assay limitations are the focal points of discussion. The deployed laboratory capability serves as theater and combatant commanders, as well as the theater surgeon's resource for biological warfare testing. Following completion of the course, students are competent to set-up, maintain, and operate a deployable biological agent confirmatory laboratory under field conditions.
Special Information: There is no special information available at the time of this publication; please review ATRRS at [https://www.atrrs.army.mil/](https://www.atrrs.army.mil/) for updated information.

**6H-F45/322-F36**

RADIOLOGICAL HAZARDS OPERATOR COURSE

**Location School Code: 081**

**Length: 1 week 1 day**

**Description:** Training will focus on providing the skills and knowledge required to prepare for and respond to a radiological incident and work in a radiological environment. The course includes training on a variety of military and/or commercial radiological detection equipment, and includes training and familiarization on: Personal Protective Equipment (PPE), planning and preparing for tactical operations, sampling and collection procedures, and the procedures to set-up, process through and close-out a survey team decontamination site.

**Special Information:** Applicants will fax a completed DA Form 3838 to 210-221-8754 or forward using the following email: usarmy.jbsa.medcom-ameddcs.mbx.cbrn-sciences-rhot@mail.mil. Course specific information can be obtained by calling CBRN Sciences Branch at 210-221-7455. Once applications are received and individuals are selected for attendance, forms will be routed to the applicable quota managers for reservation processing into ATRRS. Training is conducted by the AMEDDC&S with duty at either Idaho Falls or Oak Ridge National Laboratory. In addition to normal duty hours, training occurs on Saturday and Sunday.

**6I-F10/340-F5**

HM CBRNE INCIDENT

**Location School Code: 879**

**Length: 1 week**

**Description:** This five-day course is taught at Aberdeen Proving Ground, Edgewood Area (APG-EA), Maryland. The HM CBRNE Incidents course features didactic classroom presentations and interactive discussions on chemical, biological and radiological agent effects. Topics include patient management, multi-casualty triage, personal protective equipment, decontamination, blast injuries, and hazard detection. Additional topics include epidemiology, the National Incident Management System and National Response Framework, and hospital emergency incident command and management. Instruction is also provided in the form of hypothetical CBRNE incident scenario planning sessions and class interactions. The course culminates in a multi-hospital tabletop exercise simulating community response to a major non-conventional event, challenging the students' ability to apply hospital incident management and other learned concepts. CME, CEU/CNE, and CEH credit is available upon course completion.

**Special Information:** For all applicants: once registration is confirmed, we will send you a course welcome packet. To apply go [https://ccc.apgea.army.mil/default.htm](https://ccc.apgea.army.mil/default.htm). Once confirmation is received for course attendance, active and civilian requests will be forwarded by HM CBRNE admin staff to applicable personnel for making reservations in the ATRRS. The USAR selectees should provide a copy of the welcome letter to unit ATRRS clerk and/or training NCO for submission of an A-1 application into the ATRRS. Other services can refer to the instructions for Med Field Mgmt of Chem and Bio Casualties found on the webpage listed above. Non-AMEDD personnel may be considered for attendance on a case-by-case basis and will secure ATRRS reservations through their applicable quota manager.
DEPARTMENT OF VETERINARY SCIENCE (DVS)

The DVS is the world’s learning center for US Army Animal Medicine and Food Inspection skills. We develop and teach course material for officers, enlisted personnel, and civilians who are involved in Veterinary care, food technology, military rations, Defense Commissary Agency stores, and Army/Air Force Exchange Service food establishments for the entire US DoD.

321-68R10
VETERINARY FOOD INSPECTION SPECIALIST

Location School Code: 081

Description: Provides a working knowledge of techniques used to determine identity, condition, and quantity in these food groups: red meats (to include pork), water foods, poultry, eggs, dairy products, fresh fruits, and vegetables, and semi-perishables. Also includes sampling procedures, forms, contract administration, basic food inspection procedures (including sensory evaluation), basic food establishment sanitation, food safety and quality assurance, surveillance inspection, and veterinary preventive medicine. Other subjects include animal medicine and selected military subjects. The training will stress the competencies required to perform assigned food inspection responsibilities. Students participate in a minimum of 72-hour, scenario-driven, tactical situational-field training exercise to demonstrate MOS and common task reinforcement and evaluation.

Special Information: The RC Soldiers will arrive at FSH with the following items: MPRJ 201 file, medical record, dental record and complete basic clothing issue, to include running shoes. The AA utilize DA Form 4187, ERB, and letters of recommendation from the chain of command evaluating applicant's potential and ability to complete this course. The ARNG and USAR SSGs will receive a certificate of completion for attending this course, additional skill level 30 training is required to be awarded the MOS. All requests for waivers must be submitted to: CDR, AMEDDC&S, APPD, ATTN: MCCS-DE, 2377 Greeley Rd., Ste. A, FSH, TX 78234-7584. NOTE: It is recommended that Soldiers have their official transcripts in hand upon reporting for training.

321-68T10
ANIMAL CARE SPECIALIST

Location School Code: 081

Description: Train enlisted veterinary personnel to assist in providing military support for animal care, management and treatment of animals to military veterinary service (VS) teams, VTFs, field veterinary units, and biomedical research facilities. Training subjects include veterinary administrative procedures, basic sciences, anatomy, physiology, pharmacology, pathology, toxicology, mathematics, diagnostic laboratory procedures, radiology, laboratory animal care and handling, anesthesiology, surgical procedures and support, emergency medical care, and large animal management and handling. MOS qualified Soldiers will perform under the supervision of VC officers and NCOs. Soldiers participate in a minimum of 72-120 hour, scenario-driven, tactical STX to demonstrate MOS and common task reinforcement and evaluation.

Special Information: The RC Soldier will arrive at FSH with the following items: MPRJ 201 file, medical record, dental record and complete basic clothing issue, to include running shoes. The AA utilizes DA Form 4187, ERB, and letters of recommendation from the chain of command evaluating applicant's potential and ability to complete this course. The ARNG and USAR SSGs will receive a certificate of completion for
attending this course, additional skill level 30 training is required to be awarded the MOS. All requests for waivers must be submitted to: CDR, AMEDDC&S APPD, ATTN: MCCS-DE, 2377 Greeley Rd., Ste. A, FSH, TX 78234-7584.

321-F14
ADVANCED FOOD TECHNOLOGY

Location School Code: 081
Length: 2 weeks

Description: The Advanced Food Technology course is a 2-week course conducted at the US AMEDDC&S, FSH, TX. The course includes food microbiology, chemistry, packaging technology, preservation, deterioration, and advanced sensory evaluation techniques. The course is presented through conferences, demonstrations, and hands-on practical exercises.

Special Information: Course specific information can be obtained at DSN: 471-4938 or COMM: 210-221-4938.

321-F16
ANIMAL CARE CLINICAL PROFICIENCY

Location School Code: 081
Length: 1 week

Description: The course provides advanced training in the Military Working Dog (MWD) surgery techniques, gastric dilatation volvulus (GDV), trauma management and emergency care, MWD deployment issues, MWD CBRNE, MWD Training Support Package (TSP), rabies management, euthanasia, equine management, laboratory animal facilities management, regulations, and guidelines, constant rate infusions/total intravenous anesthesia in MWDs, ultrasound/radiology, hematology with advanced serologic procedures, foreign animal disease and herd health with anatomy laboratory, canine pulmonary cardiac resuscitation/basic cardiac life support (BCLS), advanced trauma laboratory procedures, wound management (suture, bandage, and transport), new medical equipment, and veterinary laboratory: food diagnostics and laboratory sampling. The course material is taught through extensive interaction with staff specialists in small group lectures, case discussions, and wet-labs.

Special Information: Course specific information can be obtained at COMM: 210-221-4936 or DSN: 471-4936.

6-8-C9(RC)
VETERINARY SERVICES OPERATIONS (RC)

Location School Code: 081
Length: 2 weeks

Description: The course includes presentations, demonstrations and practical exercises on foundational VS missions with a heavy influence on food safety and inspection issues. Major areas of instruction include but are not limited to: food safety and defense; the MWD program; organization and operations of veterinary field units; public health preparedness and response; and operational rations inspections.

Special Information: This course will be nonconducted if the minimum class size is not met 45 days prior to class start date. Course specific information can be obtained at DSN: 471-4938 or COMM: 210-221-4938.
6G-640A
VETERINARY CORPS FOOD SAFETY WO BASIC

Location School Code: 081  
Length: 5 weeks

Description: Training emphasis is placed on technical expertise combined with hands-on practical experiences, small group interaction, scientific research and presentations. Sanitation auditing and laboratory techniques are taught in support of the VS food safety mission throughout the DoD and other agencies. Other subject areas include food processing and preservation technologies, food inspection applications, food risk assessment, and reinforcement of TRADOC warrant officer CC mandatory training subjects.

Special Information: A record APFT will be administered during the last 2-weeks of the course. Soldiers who fail to meet the APFT standards will be considered an academic course graduate, but item 11.c of their Service School Academic Evaluation Report (AER), DA Form 1059, will be marked marginally achieved course standards and item 14 will be marked failed to meet APFT standards. Training and testing provided to achieve national recognized American Institute of Baking International, Food Defense Coordinator certification.

6G-F3/321-F3
INSTALLATION VETERINARY SERVICES

Location School Code: 081  
Length: 1 week

Description: The course presents current policies and issues which encompass the spectrum of the Veterinary Service mission. Topics may be related to sanitation; food safety, procurement and defense; animal medicine; veterinary public health issues; or other pertinent subjects. This course is built using three training modules each consisting of 38 academic hours; MACOM Food Inspection Mission, Food Defense Program, and Commercial Sanitation Audit Program. Instruction presented will be based on the requesting unit's specific training needs. Only one module of the three will be presented during the designated 1-week iteration of training.

Special Information: Instruction presented will be based on the requesting unit's specific training needs. Only one module of the three will be presented during the designated 1-week iteration of training.

6G-F9/321-F9
VET READINESS, MOBILIZATION AND DEPLOYMENT

Location School Code: 081  
Length: 2 weeks

Description: Areas of instruction include: veterinary food protection, inspection, sanitation, public health, and preventive medicine in a theater of operations and deployment; food procurement in OCONUS environment; readiness and veterinary TOE equipment issues, and nation assistance programs.

Special Information: Exceptions to prerequisites, other than compliance with AR 600-9, may be granted on a case-by-case basis by the Chief, DVS, AHS, ATTN: MCCS-HV, 2250 Stanley Rd. Ste. 270, FSH, TX 78234-6145. This course is supported by FORSCOM Veterinary Detachment(s) and their training sites and equipment.

6G-F12/321-F12
MEDICAL DETACHMENT (VS) PRE-DEPLOYMENT (RC)

Location School Code: 081  
Length: 2 weeks

Description: Area of instruction includes veterinary food inspection, deployment issues, food procurement, management and treatment of animals in VS teams, basic sciences and diagnostic laboratory procedures,
anesthesiology, surgical procedures, and the handling, care and management of animals in an OCONUS environment and nation assistance programs. Upon completion of the course, graduates will be better prepared for the VS mission in a contemporary operating environment.

**Special Information:** Course is conducted when requested by a RC veterinary detachment that has been alerted for deployment or may be conducted as the 2-week annual training. The TDY funds are provided by the requesting RC unit. This course contains 169 academic hours of pre-deployment training. Some lessons are specific MOS/AOC subject areas, while others are applicable to all students participating in pre-deployment activities. Training is limited to 80 hours of MOS/AOC-oriented objectives as noted in the lesson plans.

**6G-F13/321-F13**

**VETERINARY SUPPORT TO A THEATER OF OPERATIONS**

**Location** School Code: 081 
**Description:** Areas of instruction include advanced training on sanitary audits of potentially hazardous foods, including meat and dairy inspection; OCONUS food procurement; food defense assessment and mitigation in an OCONUS environment; commercial food establishment laboratory audits; operational rations inspection and program management; medical and surgical care of animals in OCONUS environment; nation assistance programs; Food and Water Risk Assessment; and veterinary operations in an OCONUS environment.

**Special Information:** Course specific information can be obtained at DSN: 471-4938 or COMM: 210-221-4938.

**6G-F19/321-F19**

**INSTALLATION FOOD VULNERABILITY ASSESSMENT**

**Location** School Code: 081 
**Description:** The course will provide food defense principles; regulatory documents; force protection and anti-terrorism doctrine; risk assessments; higher headquarters assessments; identification of food and water vulnerabilities; performing site assessments; and risk communication.

**Special Information:** Course specific info and application instruction can be obtained by calling DSN 471-4938 OR COMM 220-221-4938. Course attendance is by selection. Once selected, the proponent will coordinate class reservations for active Soldiers and/or civilians with the AMEDD ATRRS office.

For USAR, once selected and applicable quota granted/available, Soldier will submit an A-1 application at unit level to obtain course reservation.

**6G-F20/321-F20**

**FOOD AND WATER RISK ASSESSMENT**

**Location** School Code: 081 
**Description:** The Food and Water Risk Assessment (FWRA) course will provide instruction in the following areas: DoD approved sources; food safety; food microbiology; cleaning and sanitizing; MIL-STD-3041 and MIL-HDBK-3041; hazard analysis and critical control point principles; food defense principles; risk assessment; FWRA data base application; planning and conducting a FWRA through scenario-based exercises; and guidance on conducting FWRA training for additional personnel. The course is designed to train the trainer.

**Special Information:** A secret clearance is required to attend this training. For specific course information, contact DVS, 210-221-4933/4947.

79
**6G-F21/321-F21**

**SURVEILLANCE FOOD LABORATORY**

Location School Code: 081  
Length: 2 weeks

**Description:** This course is designed to give 68R junior enlisted Soldiers, 68R NCOs, and Veterinary Corps Officers the technical tasks, knowledge, and skills to conduct rapid and automated tests for indicators of food safety and wholesomeness at surveillance food laboratories. Officers and senior NCOs will also be trained to manage these programs within their units in accordance with the US Army Surveillance Food Laboratory Program Guide (SFLPG). Junior enlisted personnel will be trained as laboratory technicians while more senior personnel will be trained as managers. Training for junior enlisted includes the use and limitations of the assays; equipment use and maintenance; supplies and inventory; results determinations, recording, and interpretations; presumptive positive results; and reporting of results. Training for managers includes laboratory roll out, setup, and maintenance; personnel certification requirements; familiarization with testing methodologies; review and assessment of laboratory documents; establishing a food testing program and applied targeted testing; evaluation, response, and reporting of laboratory results; and laboratory audits. The majority of the course consists of hands-on technical wet labs for both technicians and managers, culminating in the grading of laboratory worksheets for technicians and a graded practical exercise for managers. Personnel that complete the course and subsequent proficiency testing through the DoD Food Analysis and Diagnostic Laboratory (FADL) will be designated as certified Surveillance Food Laboratory Technicians or Managers IAW the SFLPG. Individual subjects and laboratory methodologies emphasized are dependent upon the changing technology and mission of the contemporary operating environment.

**Special Information:** 1. To enroll in this course, contact the Department of Veterinary Science at 210-221-4933. 2. Students with immune-compromised conditions, including pregnancy or potentially pregnant, are not allowed to attend this course. Culture methods of food products are used throughout the course. Although no pathogens are intentionally added during the course, and the capabilities to isolate and identify pathogens is not part of the course, it cannot be guaranteed that pathogens were not present within the food or bottled water samples at the time of procurement, allowing their potential presence during general laboratory culture techniques. 3. Surveillance Food Laboratory Training certificates will be awarded by the Department of Defense Food Analysis and Diagnostic Laboratory (FADL) to students receiving a 70% or greater on all quizzes, 80% or above on the final examination, and an overall 80% or higher grade point average. The awarded training certificate meets the training requirement towards FADL designation as a certified Surveillance Food Laboratory Technician in accordance with the US Army Surveillance Food Laboratory Program Guide. 4. Surveillance Food Laboratory Manager Certification certificates will be awarded by the FADL to students receiving a 70% or greater on all quizzes, 80% or above on the final examination, and an overall 80% or higher grade point average. 5. Course specific information can be obtained at DSN 471-4933 or COMM 210-221-4933.

**6H-FOS-C8**

**VETERINARY WARRANT OFFICER STAFF (FOLLOW-ON)**

Location School Code: 081  
Length: 2 weeks

**Description:** Classes are conducted Monday through Friday. Your class will be divided into small groups to emphasize team interaction and group dynamics as the basis for problem resolution, and instruction is primarily group discussion. The curriculum focuses on topics relevant to today's Army such as staff skills, training doctrine, force integration, leader development, COE, insurgency, counterinsurgency, creative thinking, and critical thinking techniques.
Phase scope: This phase/course is designed to enhance the senior VC warrant officer's technical knowledge base on food safety and defense matters. The intent is to provide the training and certification required by senior food safety officers to manage the Food Safety, Defense and Quality Assurance programs at higher levels and in critical positions of greater responsibility.

Special Information: 1. 6H-FOS-C8 must be completed before Soldier is awarded MEL 4. 2. Students will be afforded the opportunity to obtain certifications for British Retail Consortium (BRC)-Global Certification and Grocery Manufacturers Association-Supplier Audits for Food Excellence Auditor while attending this phase. Student failing to achieve minimum scores for certifications will be afforded the opportunity to retest but fees are the student's responsibility. 3. This phase will normally be completed within 12-months of completing 1-250-C8, phase 2. The VC warrant officer consultant has oversight management of ensuring 640A VC Food Safety Officers complete the course as required. Requests for attendance after 12 months must be submitted with justification and approved by the Chief, DVS, AMEDDC&S, ATTN: MCCS-HV, 2250 Stanley Rd., FSH, TX 78234. 4. Course enrollment for AC warrant officers; provide a DA Form 4187 to the branch manager at HRC for approval and receive a valid ATRRS reservation to attend training. Enrollment for RC warrant officers will be processed through their local unit representative and managed at USARC G-7. Additional information provided by the DVS at COMM: 210-221-4933 or DSN: 471-4933.
DEPARTMENT WARRIOR TRANSITION UNIT (DWTU)

The US Army established Warrior Transition Units (WTU) at major military treatment facilities located around the world. The WTUs provide personal support to wounded Soldiers who require at least six months of rehabilitative care and complex medical management.

The WTU closely resembles a “line” Army unit, with a professional cadre and integrated Army processes that builds on the Army’s strength of unit cohesion and teamwork so that wounded Soldiers can focus on healing to transition back to the Army or to civilian status. Each Warrior in Transition works with a triad of care-primary care manager (normally a physician), nurse case manager, and squad leader who coordinate their care with other clinical and non-clinical professionals.

300-F39
WTU TRIAD TRAINING FOR SQD LDRS & PSGS

Location School Code: 081

Description: The course scope includes standardized curriculum in the following subject areas: overview of the WTU/WTC/MEDCOM; risk communication; role of the chaplain; performance enhancement tools from the Army Center for Enhanced Performance; suicide prevention and intervention; Post Traumatic Stress Disorder; psychotropic medications; drug and alcohol awareness; Army PDES; command and control; cultural adaptability; basic medical terminology; concussion/mild traumatic brain injury; traumatic Service Member Group Life Insurance; legal leadership tools, comprehensive transition planning; risk assessment; Army Wounded Warrior Program; ombudsman; personnel actions, adaptive physical training and sports; provider support and other transition assistance resources.

Special Information: There is a distributed learning course, 6I-F8/300-F36, Warrior Transition Unit Cadre Orient (dL) that should be completed prior to attending the resident course. Warrior Transition Unit certification will not be considered complete until both the distributed learning course, 6I-F8/300-F36, and the resident course, 300-F39, are successfully completed.

A DA Form 3838, Application for Short Course must be submitted to attend this course. An approved DA 3838 shall be forwarded to the AMEDDC&S TPMD via email box: usarmy.jbsa.medcom-ameddcs.other.da3838@mail.mil. Course specific information can be obtained at: DSN: 471-8080 COMM: 210-221-8080 Alternate: DSN: 471-6721 COMM: 210-221-6721.

6E-F2
WARRIOR TRANSITION UNIT NURSE CASE MANAGEMENT

Location School Code: 555

Description: This is a distributed learning prerequisite: 6I-F8/300-F36; Warrior Transition Unit Cadre Orientation. The distributed learning phase 1 of this course should be completed prior to attendance of phase 2.

Special Information: This course is specifically for Nurse Case Managers assigned, or being assigned, to a WTU. A portion of this resident phase will be conducted congruent with other members of a WTU Triad (Squad Leaders and Platoon Sergeants, and Primary Care Managers), enrolled in courses 300-F39 and 6A-F18. Phase 1 of this course is a distributed learning requirement. There is also a prerequisite distributed learning course: 6I-F8/300-F36. The WTU certification will not be considered complete until all phases and prerequisites are successfully completed.
**Special Information:** This course is specifically for Nurse Case Managers (NCM) assigned, or being assigned, to a WTU. A portion of this resident phase will be conducted congruent with other members of a WTU Triad (Squad Leaders and Platoon Sergeants, and Primary Care Managers), enrolled in courses 300-F39 and 6A-F18. Phase 1 of this course is a distributed learning requirement. There is also a prerequisite distributed learning course: 6I-F8/300-F36. The WTU certification will not be considered complete until all phases and prerequisites are successfully completed. Course specific information can be obtained at: DSN: 471-8080 or COMM: 210-221-8080 Alternate: DSN: 471-6721 or COMM: 210-221-6721.

**6I-F1/340-F1**

**WTU CADRE RESILIENCE COURSE (CRC)**

**Location** School Code: 081  
**Length:** 1 week

**Description:** The course is designed to help cadre develop critical thinking, knowledge, and skills to overcome challenges and to bounce back from adversity. Additionally, the course provides tools and guidance to help cadre understand how to use course materials to mentor WTU/CBWTU Soldiers to create a more resilient environment for healing and transition.

**Special Information:** The course is conducted prior to the start of the WTU courses. To enroll for this course, process a separate DA Form 3838, Application for Short Course Training, when application is made for the 300-F39, WTU TRIAD TRAINING FOR SQD LDRS & PSGS or the 6I-F12/340-F7, WTU STAFF TRAINING CRS (1SG & COMMANDERS).

**6I-F12/340-F7**

**WTU STAFF TRAINING CRS (1SG & COMMANDERS)**

**Location** School Code: 081  
**Length:** 2 weeks

**Description:** The course scope includes standardized curriculum in the following subject areas: overview of the WTU; risk communication; role of the Chaplain; Comprehensive Soldier Fitness-Performance and Resilience Enhancement Program; suicide prevention and intervention; PTSD; operational stress management; drug and alcohol awareness; psychotropic medications; Army Physical Disability Evaluation System; command & control; cultural adaptability; leadership issues and challenges; Traumatic Injury Protection Program, Servicemembers’ Group Life Insurance, Veterans Affairs, legal leadership tools; comprehensive transition planning; risk assessment; Army Wounded Warrior Program, ombudsman; and personnel actions.

**Special Information:** This course is conducted in an off-site facility in the city of San Antonio, TX. Set up travel and lodging to San Antonio, not FSH, to ensure the correct per diem. Individuals requesting training must be assigned or on orders for assignment as a 1SG, company commander, or similar leadership position in a Warrior Transition Unit or Community Based Warrior Transition Unit (CBWTU).

WTU certification will not be considered complete until both the distributed, 6I-F8/300-F36, Warrior Transition Unit Cadre Orientation (dL) and the resident course, 6I-F12/340-F7, WTU Staff Training Crs (1SG & Commanders) are successfully completed.

**Enrollment:** To enroll in the WTU Cadre/Staff Resident Training course, submit an approved DA Form 3838 to the Registrar, AMEDDC&S by faxing the approved form to: 210-221-8711 (DSN 471); or email the approved form to usarmy.jbsa.medcom-ameddcs.other.da3838@mail.mil. Enrollment for the resident course is accomplished through ATRRS and performed at the AMEDDC&S.
61-F8/300-F36
WARRIOR TRANSITION UNIT CADRE ORIENT (DL)

Location School Code: 555

Description: This course serves as an overview of support, organization, roles, and responsibilities of the WTU cadre which prepares cadre for leadership of the WTU. The WTU establishes conditions for healing and promoting the timely return to the force or transition of Warriors to civilian life. It is designed to provide training in various topics needed to assist the Warriors and their families in their transition.

Special Information: Registration is through ATRRS self-development portal at https://atrrs.army.mil/selfdevctr. Access: The course materials are delivered via the ALMS. To access the course materials, go to AKO, Self-Service, My Training Page, and click on the ALMS link or logo. Once registered in the ALMS, the course materials will be available within 24 hours and will appear under your "Training" tab at the "Current Enrollments" page within ALMS. Additional course instructions for completing and receiving appropriate credit documentation are provided in the letter of instruction with the course materials. Launching Course: Before attempting to launch this courseware in the ALMS, configure the settings on your machine. If you encounter any errors and you have completed all the steps above, you may contact the ATHD for assistance at: Website: https://athd.army.mil
Toll free: 1-800-275-2872 or 1-877-251-0730. Email: ask.athd@us.army.mil. Hours of operation: 24/7
GRADUATE STUDIES

The Graduate School is a subordinate department within the AHS comprised of a wide variety of highly regarded graduate programs associate with a number of civilian graduate schools.

The reputable Graduate School programs are USA-Baylor University Graduate Program in Health and Business Administration, USA-Baylor University Doctoral Program in Physical Therapy, USA-Baylor University Graduate Program in Nutrition, USA Graduate Program in Anesthesia Nursing, Interservice Physician Assistant Program and the USA Fayetteville State University Master of Social Work Program. The hospital based programs are the USA Doctor of Science in Occupational Therapy, the USA Doctoral Program in Pastoral Care, the USA-Baylor University Post-professional Doctorate of Science-Physician Assistant (DSc-PA) in Emergency Medicine, USA-Baylor University Post-professional Doctorate of Science-Physician (DSc-PA) in Clinical Orthopedics Residency, US Military-Baylor University Post-professional Sports Medicine-Physical Therapy Doctoral Program and the USA-Baylor University Post-professional Doctoral Program in Orthopedic and Manual Physical Therapy.

26A-F57/300-F57

PRACTICE MANAGER PHASE 1

Location School Code: 081  Length: 2 weeks

Description: This course consists of two phases that provide junior to senior level healthcare leaders' exposure to advanced healthcare administration and management skills. The goal is to expose attendees to the many challenges they will face and make them aware of tools which exist to assist healthcare administrators in managing their product lines more effectively, efficiently and ultimately making Army medicine more equitable.

This is a resident course consisting of 90 hours of instruction in front desk training, interpretation of Army access to care management tools/reports to improve efficiency, manpower, enrollment, referral management, advanced forecasting, human resource/provider relations, business planning, contracts, leaning thinking, and scenario based problems with interaction.

Special Information: 1. Active component officers: Forward a DA 3838 to HRC to the applicable branch manager. DA Form 3838 will be completed in full and authorized by the commander or budget authority and submitted from the Soldier's unit no later than 45 days prior to class start date. 2. Active duty Army enlisted and DAC: DA Form 3838 will be completed in full and authorized by the commander or budget authority and submitted from the Soldier's unit to the course/program manager at ameddc.bhac@amedd.army.mil no later than 45 days prior to the course start date. 3. Course specific information can be obtained at: DSN 471-8857/6443 COMM: 210-221-8857/6443. 4. Students are required to bring the following items to class: a. A laptop with Wi-Fi and DVD/CD capability, and CAC enabled. b. An extension cord for your laptop is not mandatory, but highly encouraged. c. All sessions are mandatory, participation and full attendance is required for successful course completion.
26A-F57 / 300-F57
PRACTICE MANAGER PHASE 2

Location School Code: 081

Description: This phase consists of 8-week course that consists of a 40-hour project that requires the student to research, quantify, provide skilled explanation via VTT on clinic facts, enrollment, un-booked rates/appointment types, mix of appointments/seasonality, recommendations and project coordinated with MTF executive leadership. Individuals have up to 60 days to complete the project assigned under the phase 2 to receive course completion certificate.

Special Information: 1. The AC officers: Forward a DA 3838 to HRC to the applicable branch manager. DA Form 3838 will be completed in full and authorized by the commander or budget authority and submitted from the Soldier's unit no later than 45 days prior to the phase 1 class start date. 2. The AD Army enlisted and DAC: DA Form 3838 will be completed in full and authorized by the commander or budget authority and submitted from the Soldier's unit to the course/program manager at ameddcbs.bhac@amedd.army.mil no later than 45 days prior to the course start date. 3. Course specific info can be obtained at: DSN 471-8857/6443 COMM: 210-221-8857/6443. 4. Students are required to bring the following items to class: a. A laptop with Wi-Fi and DVD/CD capability, and CAC enabled. b. An extension cord for your laptop is not mandatory, but highly encouraged. c. All sessions are mandatory, participation and full attendance is required for successful course completion.

6-250-C17
MILITARY GRADUATE PROGRAM IN NUTRITION PHASE 1

Location School Code: 081

Description: Phase 1 didactic portion, is 40 weeks in length. The course curriculum includes a comprehensive study of physiology, biochemistry, applied human biology, clinical nutrition support, sports and community nutrition, nutrition in complex medical missions, as well as research, experimental design and ethics. The curriculum provides concept, methods, and principles to simulate personal growth and development and equips graduates with research skills.

Special Information: Students must apply to be considered for the program. Application materials may be obtained by contacting an Army Recruiter at http://www.goarmy.com/amedd/index.jsp. Applications are reviewed each spring for enrollment in the program beginning the following fall. Applications must be submitted by the February deadline. Final selection is via the American Dietetic Association computer match completed in April.

6-250-C17
MILITARY GRADUATE PROGRAM IN NUTRITION PHASE 2

Location School Code: 830, 834, 836, 860, 869

Description: Phase 2 is 47-weeks of supervised practice, consisting of an accredited dietetic internship with a clinical nutrition focus, as well as research data collection, analysis, and thesis/report write-up. The internship will focus on the etiology, signs, symptoms, assessment, and treatment of physiological dysfunctions as well as administration theory as it relates to the practice of dietetics. During phase 2, students will participate in supervised practice in all areas of nutrition care to ensure proficiency in inpatient, outpatient, and community nutrition care services as well as food service systems, personnel, and resource management in fixed and non-
fixed facilities. Students will learn to be members of a multi-disciplinary health care team and to apply knowledge of medical informatics and clinical epidemiology through evidenced-based medicine.

Students are granted up to one week travel and one week leave enroute to phase 2 sites. While at the phase 2 site, student will be authorized one week during the 49-week rotation.

**Special Information:** Students must successfully complete phase 1, 6-250-C17, Military Graduate Program in Nutrition.

Students who successfully complete the program will be granted the Masters of Science In Nutrition and will be eligible to take the Registration Exam for Dietitians. Officers are awarded the AOC of 65C upon completion of the program.

**6-250-C17/73A**

**ARMY MASTERS OF SOCIAL WORK PROGRAM - REG**

**Location** School Code: 081  
**Length:** 61 weeks

**Description:** The Army Master of Social Work (MSW) program is a 14-month residency program that provides eligible graduate students with a minimum of 960 hours field practicum experience and 45 semester hours graduate level in-class instruction. The MSW program consists of a foundation and advanced concentration phase. Students complete 24 in-class semester hours during the foundation phase, followed by 8 semester hours of field education (a minimum of 460 clinical hours). Students also complete 21 in-class semester hours of coursework during the advanced concentration phase, followed by 8 semester hours of field education (a minimum of 500 clinical hours). All field education is conducted as block placements, requiring students to complete all didactic courses for the foundation phase prior to being placed in their foundation field practicum and subsequently completing all advanced concentration coursework prior to being enrolled in their advanced concentration field practicum.

**Special Information:** Soldiers selected for attendance must PCS 14-30 days prior to the class report date. Service obligations are outlined in service-specific recruitment/accession or training regulations. These regulations include: Department of Defense Instruction 6000.13, Medical Manpower and Personnel, and Army Regulation (AR) 351-3, Professional Education and Training Programs of the Army Medical Department; Code of Federal Regulations: Title 5, Ch 410.309(c), and AR 135-91, Army National Guard and Army Reserve Service Obligations, Methods of Fulfillment, Participation Requirements, and Enforcement Procedures.

**6-250-C17/73A RC FOS**

**MASTER OF SOCIAL WORK INTERNSHIP (RC)**

**Location** School Code: 081  
**Length:** 104 weeks

**Description:** This training will involve a partnership between the MEDCOM and AMEDDC&S for the RC. The primary objective of the RC Post-Master's Social Worker Internship Course (SWIC) is to ensure that new social work officers in the RC are deployable and mission ready as soon as possible. In addition to successfully demonstrating required clinical competencies, social work interns must also meet the state requirements for clinical supervision and pass the independent practitioner's licensing exam in order to successfully complete the SWIC.

**Special Information:** The course is specifically for facilitating clinical rotations for reserve component graduates.
**6-250-C18-65B**
**USA BAYLOR UNIV DOCTORAL PRGM IN PHYS THERAPY PHASE 1**

**Location** School Code: 081  
**Length:** 74 weeks 3 days

**Description:** This course is a two-phased, degree producing program. Phase 1, which is 74 weeks and 3 days in length, consists of a comprehensive study of structure and function of the human body moving from the normal to the pathological. It includes study of the etiology, signs, symptoms, and treatment of physical dysfunction to include evaluation and interpretation of abnormal signs and symptoms, and research methods and administration theory as they pertain to the practice of physical therapy. It provides a working knowledge of the evaluation and treatment techniques of the physical therapist. It provides study of concepts, methods, and principles to stimulate personal growth and development. Phase 2, which is 52-weeks in length, consists of a clinical internship. Students who successfully complete the program will be granted a Doctor of Physical Therapy (DPT) degree.

**Special Information:** A DPT degree will be awarded upon the successful completion of phase 2.

---

**6-250-C18-65B**

**Length:** 52 weeks

**Description:** This course is a two-phased, degree producing program. Phase 1, which is 74 weeks and 3 days in length, consists of a comprehensive study of the structure and function of the human body moving from the normal to the pathological. It includes study of the etiology, signs, symptoms, and treatment of physical dysfunction to include evaluation and interpretation of abnormal signs and symptoms, and research methods, and administration theory as they pertain to the practice of physical therapy. It provides a working knowledge of the evaluation and treatment techniques of the physical therapists. It provides study of the concepts, methods, and principles to stimulate personal growth and development. Phase 2, which is 52-weeks in length, consists of a clinical internship. Students who successfully complete the program will be granted a DPT degree.

**Phase 2,** which is 52-weeks in length, consists of a clinical internship.

**Special Information:** A DPT degree will be awarded upon the successful completion of phase 2.

---

**6-250-C19**
**ARMY DOCTOR OF SCIENCE EMERGENCY MEDICINE PA**

**Location** School Code: 830, 834, 837, 839  
**Length:** 78 weeks

**Description:** This program is an eighteen-month residency modeled after the three-year Emergency Medicine (EM) Physician Residency. The Army DScPAS-EM residency develops strong research skills by initiating and completing individual research projects and by assisting with ongoing EM resident and staff research projects. The Residents develop advanced clinical competencies in Emergency Medicine as they work under the guidance of board certified Emergency Medicine Physicians with extensive Emergency Medicine experience. They also experience a wide range of educational opportunities while working with trauma surgeons, internists, and other physicians on different services and in local medical centers.

**Special Information:** Once approved to attend the DScPAS-EM Program. Candidates must then be accepted into the Graduate Program.
6-250-C20
ORTHOPEDIC PHYSICIAN ASSISTANT DOCTORAL

Location School Code: 830, 834, 837

Description: The program is divided into eight subspecialty training areas including trauma, sports, pediatrics, tumor, total joint, hand, and spine as well as other general orthopedics. A research project is also required to graduate from this program and Baylor University. The 18-month length of the program is paramount to the quality research expected of the fellows.

Special Information: Prospective applicants should contact: Graduate Program Director and Associate Professor. COMM: 210-808-2247, DSN 429, Fax: 210-808-2225.

Candidates are selected by a competitive board process by their respective uniformed service. All uniformed service candidates must accept an active duty service obligation to remain on active duty after completion of the program.

6-250-C21
DOCTOR OF SCIENCE IN CLINICAL GENERAL SURGERY

Location School Code: 830

Description: The current General Surgery Physician Assistant proposed program consist of an 18-month residency style training program with over 400 hours of classroom instruction, 3888 hours of clinical rotations, over 30-hours of procedures lab and original clinical research projects and over 350-hours of research.

Special Information: There is no description available at the time of this publication; please review ATRRS at https://www.atrrs.army.mil/ for updated information.

6-250-C22
ARMY ORTHOPAEDIC/SPORTS MEDICINE RESIDENCY

Location School Code: 845

Description: The residency provides physician assistants an opportunity to develop advanced competencies in triage and management of acute sports injuries while at the United States Military Academy, West Point, NY. Graduates will use these same competencies to return injured Soldiers to a high level of military technical and tactical readiness. The concepts for managing injured elite athletes and returning them to the playing field as quickly and safely as possible shares the same common goal of returning injured Soldiers to their units in garrison or combat.

Special Information: The Graduate Record Examinations is required for all applicants, which must be included in the Long Term Health Education and Training packet and Baylor University application.

6-8-C18 (OT)
DOCTOR OF SCIENCE IN OCCUPATIONAL THERAPY

Location School Code: 830

Description: The 77 week course is a didactic and residency blended, degree producing program with didactics at both the AMEDDC&S and BAMC and residency hours at BAMC. Includes in-depth behavior health, Warrior rehabilitation, research and advanced practice. The program provides students with advanced clinical
reasoning and evidence-based practice skills. This program includes evidence-based research project that once complete, will be submitted to a peer reviewed journal, and nationally recognized conference for publication.

**Special Information:** Students must successfully complete 18 months of training at FSH, TX, at the AMEDDC&S and BAMC. A Doctor of Science in Occupational Therapy (DScOT) will be awarded upon the successful completion of all coursework and the evidence-based research project. Students must apply to be considered for this program. Civilians may apply by contacting an Army Recruiter at: http://www.goarmy.com/amedd/m_spec/index.jsp. Applications are reviewed each Spring for enrollment into the program the following fall. Students attend the Officer Basic Course prior to the DScOT. Current Army Occupational Therapists can apply for this program via the LTHET program.

**6F-66F**

**US ARMY GRADUATE PGM IN ANES NURSG PHASE 1**

**Location** School Code: 081  
**Length:** 51 weeks

**Description:** Phase 1 is 51-weeks in duration and utilizes instructional strategies of lectures, conferences, discussions, practical exercises, simulations, and examinations. Major areas of the curriculum presented include: Statistics in Nursing; Advanced Anatomy & Physiology 1 and 2; Biochemistry for Nurse Anesthesia; Fundamentals of Nurse Anesthesia 1 and 2; Advanced Pharmacology for Nurse Anesthesia 1 and 2; Professional Aspects of Nurse Anesthesia Practice; Translating Evidence into Practice; Advanced Health Assessment and Diagnosis; Epidemiology and Population-Based Health; and Health Care Finance and Marketing.

**Special Information:** Accepted candidates must be granted full admission (compliance with course prerequisites as defined in the university catalog and in the current application guidelines) by Northeastern University. Applicants who do not have a minimum of 1-year Critical Care experience prior to application to phase 1 must enroll in the Essentials of Critical Care Orientation (ECCO) course. For more information on enrollment, consult your Staff and Training Development office.

**6F-66F**

**US ARMY GRADUATE PGM IN ANES NURSG PHASE 2**

**Location** School Code: 830, 831, 834, 835, 837, 839, 860, 869K, 869M, 869P  
**Length:** 97 weeks

**Description:** Phase 2 is 97-weeks long and is conducted at selected MTFs and consists primarily of clinical education. Students are evaluated in didactic and clinical areas for competence. Phase 2 provides AN Anesthetist students with theoretical and applied statistical and quantitative skills and knowledge to enable them to understand, conduct and evaluate biomedical, scientific, and managerial research. Emphasis will be placed upon selection and methods used by health care providers, managers and researchers to observe, describe, explain, predict, test, evaluate, and control phenomena.

**Special Information:** Phase 2 is conducted at one of the following military training facilities: Darnell ACH, Ft Hood, TX (SC 839); Dwight D. Eisenhower AMC, Ft Gordon, GA (SC 831); Madigan AMC, Tacoma, WA (SC 834); Tripler AMC, Honolulu HI (SC 835); William Beaumont AMC, El Paso, TX (SC 837); Womack, AMC, Fort Bragg, NC (860); David Grant USAF Medical Center, Travis AFC, CA (869K); Brooke AMC, FSH TX (830), or the Veterans Affair Medical Center, Augusta, GA (869M).
INTERSERVICE PHYSICIAN ASSISTANT PROGRAM PHASE 1

Description: The Interservice Physician Assistant Program (IPAP) is a 29-month (includes holidays and Exodus), two-phased (PCS) degree-producing program. The program is designed to provide the skills and knowledge of medical and surgical conditions and procedures and the administrative management of healthcare delivery.

Phase scope: Phase 1 (64-weeks) consists of 4 semesters, each being 16-weeks in duration. The course is conducted at FSH, TX. Phase 1 includes instruction in the basic medical sciences, physical examination procedures, and research methodologies.

Freshman semester includes instruction in anatomy and physiology I, biochemistry, microbiology, clinical laboratory, medical law/ethics, PA professional issues, and instruction in patient evaluations, to include history taking and physical examination techniques. Students receive initial instruction in research methodologies and will produce multiple projects throughout the didactic year that demonstrate proficiency in the evaluation of medical literature and technical writing.

Sophomore semester provides instruction in anatomy and physiology II, pathology, radiology, psychiatry, cardiology, ECG, dermatology, and pharmacology 1.

Junior semester includes numerous patient encounters and didactic instruction in pharmacology 2, patient evaluation part 2, rheumatology, geriatrics, orthopedics, pulmonary, gastroenterology, endocrinology, PA professional issues, clinical correlations part 1, dental sciences, neurology and pediatric neurology and research.

Senior semester includes numerous patient encounters and didactic instruction in clinical correlation part 2, surgery, OB/GYN, emergency medicine, advanced trauma management, infectious disease, patient evaluation part 3, genitourinary, military public health, PA professional issues, otolaryngology, ophthalmology, hematology/oncology, directed studies, and research.

One week of research/study is scheduled between the freshman and sophomore semester and again between the sophomore and junior semester during which time students are required to complete written projects that are graded as elements of the research evaluation course. Students successfully completing phase 1 of IPAP are awarded a Bachelor’s of Science degree from the affiliated university.

Special Information: All applicants must have taken a Scholastic Assessment Test within the last 5 years and provide the score with the application.

Army AC and ARNG commissioned officer students will be branch transferred into the AMSC at the time of enrollment in the program and will be granted constructive service credit for prior commissioned service IAW DoDI 6000.13. Army warrant officer students will remain in the warrant officer corps until successful completion of phase 2 training at which time they will be branch transferred into the AMSC at the time of graduation from IPAP. Upon graduation the rank of newly commissioned officers will be determined by service policies and regulations.

Service obligations are outlined in service-specific recruitment/accession or training regulations. These regulations include: AR 614-200, AR 601-20 and AR 351-13; National Guard Regulation (NGR) 351-1; AR 135-200 for the USAR; Office of the Chief Naval Operations Instruction (OPNAVINST) 6110.1 series; USAF Instruction 36-2107 and COMDTINST 1524.1 for the USCG. Students will be awarded a Bachelor of Science degree upon the successful completion of phase 1 at FSH, TX and a Master’s degree upon the successful
completion of clinical training phase 2. Students will be permitted up to 2-weeks to PCS from FSH to their phase 2 training site. Students are encouraged to arrive at the phase 2 site at least 1 week prior to the report date. On-post accompanied housing and bachelor officer quarters are not available at many of the phase 2 sites. Students will be authorized 2-weeks personal leave, during Christmas vacation/exodus due to limited opportunities for clinical experiences. Students will be authorized 2 additional weeks of personal leave during any other time while attending phase 2. **Advance standing will not be granted to any applicant of the IPAP.

6H-65D
INTERSERVICE PHYSICIAN ASSISTANT PROGRAM PHASE 2

Description: The IPAP is a 29-month (includes holidays and Exodus), two-phased (PCS) degree-producing program. The program is designed to provide the skills and knowledge of medical and surgical conditions and procedures and the administrative management of healthcare delivery.

Phase Scope: Phase 2 is 55-weeks in length and begins with a 2-week orientation to the MTF and its staff, the student company/detachment, HIPAA and electronic medical record training, and other mandatory medical and service-specific military training to include ACLS. Students must complete post/base in-processing and have their families settled prior to the start date of phase 2 training. The usual duty day is 10 hours long and often includes clinical duties during the evenings, weekends and night on-call duties on some rotations. Phase 2 is conducted at numerous USA, USAF, and USN sites under the supervision of the phase 2 site clinical coordinator and medical director.

The clinical rotations include 5-weeks in surgery, 4 weeks in dermatology, 4-weeks in obstetrical/gynecology, 6 weeks in orthopedics, 3-weeks in psychiatry, 6 weeks in internal medicine, 4-weeks in otorhinolaryngology/allergy, 5-weeks in pediatrics, 2-weeks in ophthalmology, 4-weeks in family practice/outpatient medicine, 2-weeks plus a minimum of 160 after-duty hours in emergency medicine, and 4-weeks in elective rotations. One week of long term care is required to be included during family practice or internal medicine. Students may be directed to spend their elective rotations in specific clinical areas as deemed critical to service-specific medical missions. During the directed studies course, students will complete four oral and written case presentations and submit their investigational research paper (suitable for publication in peer-reviewed journals) to the current research paper coordinator no later than the last day of the 4th month of phase 2. The clinical experience is culminated in an Objective Standardized Clinical Examination (OSCE).

Special Information: Phase 2 is 55-weeks long with 2-weeks added for Christmas vacation/exodus (a total of 57 weeks for phase 2). Students will be permitted up to 2-weeks to PCS from FSH to their phase 2 training site. Students are encouraged to arrive at the phase 2 site at least 1 week prior to the report date. On-post accompanied housing and bachelor officer quarters are not available at many of the phase 2 sites.

Students will be authorized 2-weeks of personal leave during the Christmas vacation/exodus due to limited opportunities for clinical experiences. Students will be authorized 2 additional weeks of personal leave during any other time while attending phase 2.

Students will be awarded a Master’s degree upon the successful completion of clinical training phase 2 from the affiliated university. Upon successfully completing phase 2 the IPAP program director deems them eligible to sit for the Physician Assistant National Certification Examination (PANCE). Enlisted graduates are eligible for a commission as a PA within their respective service. All graduates are awarded the service-specific occupational specialty classification as a PA.
**6H-70A67**  
USA/BAYLOR UNIV PGM IN HCA  

**Location School Code: 081**  
**Length: 54 weeks**

**Description:** This course provides graduate level-education during the intermediate professional development period of the officer professional education sequence. Course content consists of didactic instruction (54 weeks) concentrating on the managerial tenets, techniques, and theories fundamental to the effective and efficient delivery of health care to the armed forces. Areas of emphasis include: resources management, materials management, human resources management, patient administration, and clinical administration. Successful completion of a 52-week administrative residency (HCA 5661) at a military or other federal health care institution designated by the member's service or department is required after the completion of the didactic phase of instruction. Successful completion of the didactic instruction and residency, to include a comprehensive oral examination and a graduate management project, leads to the award of a Master's of Health Administration degree from Baylor University.

**Special Information:** This course is recognized by the Accrediting Commission on Education for Health Services Administration. Unaccompanied personnel housing will not be available upon arrival at this installation regardless of basic allowance for quarters entitlements.

---

**6I-F13/340-F8**  
**BASIC HEALTHCARE ADMINISTRATION PHASE 1**

**Location School Code: 081**  
**Length: 2 weeks**

**Description:** This phase consists of a dL course that provides junior and mid-level healthcare leaders exposure to foundational knowledge for basic healthcare administration and management skills. The goal is to expose attendees to the many challenges they will face and also make them aware of tools which exist to assist healthcare administrators.

The development of a competency based assessment methodology provides a point of departure for program leadership to quantitatively and qualitatively assess student progression against stated competency requirements across the entire educational experience. A systematic review of student performance then forms a basis from which to revisit program-wide pedagogical methods, resource allocation and programmatic requirements.

Training encompasses Patient Centered Medical Home, managed care support, manpower roles and responsibilities, human resource management, contracting, resource management and budget cycles, Medical Expense and Performance Reporting System and Defense Medical Human Resource System internet, Performance Based Adjustment Model, business optimization, labor relations, the Joint Commission, patient safety, template management and productivity optimization, Composite Health Care System and and Armed Forces Health Longitudinal Technology Application, medical material management, technology acquisition programs, medical facilities, and medical legal and ethics.

**Special Information:** Prospective applicants: Must apply for the Basic Healthcare Administration Course (6I-F13/340-F8, phase 2), no later than 45 days prior to the phase 1 class start date. Reservation in phase 2 will generate a reservation for phase 1.

Active Component Officers: Forward a DA 3838 to HRC to the applicable branch manager. DA Form 3838 will be completed in full and authorized by the commander or budget authority and submitted from the Soldier's unit. Active Duty Army Enlisted and Department of the ArmyCivilian: DA Form 3838 will be completed in
full and authorized by the commander or budget authority and submitted from the Soldier's unit to the course/program manager at ameddc.s.bhac@amedd.army.mil.

Students are required to complete the phase 1 dL (15 hours) and phase 2 resident training (45 hours) to achieve course completion requirements. Phase 1 Website: https://amedd.ellc.learn.army.mil

Additional information can be obtained at: DSN 471-8857/6443. COMM: 210-221-8857/6443.

61-F13/340-F8
BASIC HEALTHCARE ADMINISTRATION PHASE 2

Location School Code: 081 Length: 1 week

Description: This phase consists of a one week course conducted either at the AMEDDC&S or per request from regional medical commands onsite.

Course content provides junior and mid-level healthcare leaders exposure to basic healthcare management skills. The goal is to expose attendees to the many challenges they will face and also make them aware of tools which exist to assist healthcare administrators. Students become familiar with the many data systems used daily in clinic management and operations within MTFs. Particularly how these systems interface and are interconnected and related.

The development of a competency based assessment methodology provides a point of departure for program leadership to quantitatively and qualitatively assess student progression against stated competency requirements across the entire educational experience. A systematic review of student performance then forms a basis from which to revisit program-wide pedagogical methods, resource allocation, and programmatic requirements.

Special Information: 1. The AC officer: forward a DA 3838 to HRC to the applicable branch manager. The DA Form 3838 will be completed in full and authorized by the commander or budget authority and submitted from the Soldier's unit no later than 45 days prior to the course start date. 2. Active duty Army enlisted and DAC: DA Form 3838 will be completed in full and authorized by the commander or budget authority and submitted from the Soldier's unit to the course/program manager at ameddc.s.bhac@amedd.army.mil no later than 45 days prior to the course start date. Additional Information: Course specific info can be obtained at: DSN 471-8857/6443 COMM: 210-221-8857/6443. Arrange lodging to San Antonio, TX and not FSH, TX, to ensure the correct per diem. 3. Students (participants) are required to bring the following items to class: a. Laptop with Wi-Fi and DVD/CD capability, and CAC enabled. b. An extension cord for your laptop is not mandatory, but highly encouraged. c. All sessions are mandatory, participation and full attendance is required for successful course completion. d. The uniform for this course is business casual. Please refer to the link below for the definition of business casual. This applies to both military and civilians. However, all service males must adhere to the proper grooming standards outlined in AR 670-1.
LEADER TRAINING CENTER (LTC)

The LTC creates AMEDD Leaders within the Active and RC for the 21st Century by providing professional education, doctrinal, and individual leadership training in order to execute the AMEDD’s mission across the full spectrum of military operations.

340-F9
AMEDD CSM PRE-COMMAND

Location School Code: 081  Length: 1 week 2 days

Description: The AMEDD Course for Command Sergeants Major will be conducted concurrently with the AMEDD Pre-Command Course (7M-F10). It is intended for Sergeants Major and Command Sergeants Major to excel as AMEDD leaders by providing instruction relevant to the AMEDD community that is not provided by USASMA or the Pre-Command Course at Fort Leavenworth.

Special Information: Enrollment procedures: Active applicants must submit a request for training via DA 4187 to HRC enlisted branch (usarmy.knox.hrc.mbx.epmd-special-schools-manager@mail.mil). Reserve component apply via the A-1 applications process at unit level if quota allocations are available. Contact your unit training NCO to apply.

6-8-C20B (PREP)
AMEDD OFFICER PREPARATORY

Location School Code: 081  Length: 2 weeks

Description: The scope of this course covers the following topics: Military Organization; Military Environment and Culture; Military Processes; Military Skills and Military Weapons. These topics are presented at an introductory level with a focus on integrating the individual student into the AMEDD and the larger Army in general. The training objectives are designed to bridge the gap between direct commissioned students and those who have prior military experience and training.

Special Information: To obtain information about the AMEDD Basic Officer Leader Course (BOLC), call 210-221-8223; DSN 471. 2. Officers will be assigned to A Company, 187th Medical Bn., FSH, TX. 3. Officers are to bring their uniforms to FSH. There will be an opportunity to purchase more uniforms while attending the course. 4. It is highly recommended that officers bring computer/laptop and printer as many homework assignments require the use of a computer and printer. There are computer labs in the AMEDDC&S, but the hours may be limited.

6-8-C20B (BOLC)
AMEDD BASIC OFFICER LEADER COURSE COMMON CORE PHASE 1

Location School Code: 081  Length: 7 weeks 3 days

Description: The AMEDD BOLC Common Core (CC) trains officers to develop: the competency to perform officer/Soldier skills to standard; an understanding of Army organizations, operations, and procedures; an ability to apply the concepts of Force Health Protection and leader skills, to include an ability to analyze and solve military problems; an ability to communicate, interact and coordinate as a staff member; military survival skills for the contemporary operating environment; and AMEDD-specific training which culminates in a Force Health Protection field training exercise. Phase 1 consists of CC training. Phase 2 follows immediately and consists of AOC specific training. The MEL-G credit is awarded upon successful completion of phase 2.

95
**Special Information:** 1. To obtain information about the AMEDD BOLC, go to Website: [http://www.cs.amedd.army.mil/bolc](http://www.cs.amedd.army.mil/bolc) or call 210-221-8223; DSN 471-8223. 2. Officers will be assigned to A Company, 187th Medical Bn., FSH, TX. 3. Officers are to bring their uniforms to FSH. There will be an opportunity to purchase more uniforms while attending the course. 4. It is highly recommended that officers bring computer/laptop and printer, as many homework assignments require the use of a computer and printer. There are computer labs in the AMEDDC&S, but the hours may be limited.

### 6-8-C20B (AN66)
#### AN-BASIC OFFICER LEADER PHASE 2

**Location School Code:** 081  
**Length:** 2 weeks

**Description:** The topics covered during this course include: HRC/ANC brief; ANC FTX; nursing care in the CSH; AOC/SI producing course brief (critical care/emergency nursing); AOC/SI producing course brief (perioperative nursing); AOC/SI producing course brief (public health nursing); trauma nursing core course; AOC/SI producing course brief/anesthesia nursing.

**Special Information:** The AOC specific training for MC officers starts immediately following the AMEDD BOLC CC training. 1. To obtain information about the AMEDD BOLC, call COMM: 210-221-8223 or DSN: 471-8223. 2. Officers will be assigned to A Company, 187th Medical Bn., FSH, TX. 3. Officers are to bring their uniforms to FSH. There will be an opportunity to purchase more uniforms while attending the course. 4. It is highly recommended that officers bring computer/laptop and printer, as many homework assignments require the use of a computer and printer. There are computer labs in the AMEDDC&C but the hours may be limited.

### 6-8-C20B (DC63)
#### DC-BASIC OFFICER LEADER PHASE 2

**Location School Code:** 081  
**Length:** 2 weeks

**Description:** The topics covered during this course include: DC officer orientation; HRC brief; Army dental readiness and community oral health protection program, Army dental care system organization and function; graduate dental education - continuing education opportunities; roles and functions in the TDA; labor management relations; dental administrative functions; the Army dental health record; corporate dental application; combat developments; overview of field dentistry in support of combat and operations other than war; duties and responsibilities of an MTOE and professional officer filler system dental officer; dental personnel in alternate wartime roles; dental field equipment, inventory and load plans; dental supply in TDA and TOE environments; health promotions; professional relationships – responsibilities; dental laboratory management.

**Special Information:** The AOC specific training for DC officers starts immediately following the AMEDD BOLC CC training. 1. To obtain information about the AMEDD BOLC call COMM: 210-221-8223 or DSN: 471-8223. 2. Officers will be assigned to A Company, 187th Medical Bn., FSH, TX. 3. Officers are to bring their uniforms to FSH. There will be an opportunity to purchase more uniforms while attending the course. 4. It is highly recommended that officers bring computer/laptop and printer, as many homework assignments require the use of a computer and printer. There are computer labs in the AMEDDC&S, but the hours may be limited.
HPSP -BASIC OFFICER LEADER

Location School Code: 081  Length: 6 weeks

Description: The Health Professions Scholarship Program (HPSP RC) BOLC develops the following characteristics and skills in officers: competency to perform officer/Soldier skills to standard in accordance with the Training and Doctrine Command (TRADOC) Regulation (TR) 351-10, Institutional Leader Training and Education; TR 350-36, Basic Officer Leader Course Training Policies and Administration; an understanding of Army organizations, operations and procedures; an ability to apply the concepts of the Army health system and leader skills, military decision making process; an ability to communicate, interact and coordinate as a staff member; military survival skills for the operating environment; and AMEDD-specific training. Successful completion of the course is required to obtain Military Education Level (MEL)-G credit, and to meet the requirements of Initial Military Training mandated by Title 10, US Code, the completion of which is required before an officer can be deployed outside the continental United States.

Special Information: This course will last 6 weeks in duration and will require duty through weekends.
1. To obtain information about the AMEDD BOLC, go to http://www.cs.amedd.army.mil/BOLC/index.htm. This website contains key information for students to be successful at BOLC, including: frequently asked questions (FAQ) page, field packing lists, recommended uniform items, and key dates during the course. 2. Officers will be assigned to A Company, 187th Medical Bn., FSH, TX. See A Company's website: http://www.cs.amedd.army.mil/BOLC. This website contains the Commander's welcome letter, frequently asked questions, and command policy letters. Check it frequently since the information is often updated. 3. Officers are to bring their uniforms to FSH. There will be an opportunity to purchase more uniforms while attending the course. 4. It is highly recommended that officers bring computer/laptop and printer, as many homework assignments require the use of a computer and printer. There are computer labs in the AMEDD Center and School, but the hours may be limited.

HPSP RC VC64-BASIC OFFICER LEADER PHASE 1

Location School Code: 081  Length: 6 weeks

Description: The Health Professions Scholarship Program (HPSP/RC/VC64) BOLC develops the following characteristics and skills in officers: competency to perform officer/Soldier skills to standard in accordance with the TR 351-10, Institutional Leader Training and Education; TR 350-36, Basic Officer Leader Course Training Policies and Administration; an understanding of Army organizations, operations and procedures; an ability to apply the concepts of the Army health system and leader skills, military decision making process; an ability to communicate, interact and coordinate as a staff member; military survival skills for the operating environment; and AMEDD-specific training. Successful completion of the course is required to obtain Military Education Level (MEL)-G credit, and to meet the requirements of Initial Military Training mandated by Title 10, US Code, the completion of which is required before an officer can be deployed outside the continental United States.

It is highly recommended that officers bring computer/laptop and printer, as many homework assignments require the use of a computer and printer. There are computer labs in the AMEDDC&S but the hours may be limited.

6-8-C20B (MS70B/67J)
MS-FLD MED ASST/MEDEVAC BASIC OFFICER LEADER PHASE 2

Location School Code: 081  Length: 2 weeks

Description: The topics covered during this course include: Officer mentorship and leader development, combat lifesaver course, prepare and conduct a combat lifesaver course, preventive maintenance checks and services a vehicle, inventory medical equipment sets, the military decision making process (70B67), medical threat and intelligence, training management application 70B Track, TTP and trend reversal and level I combatives certification.

Special Information: The AOC specific training for MS officers starts immediately following the AMEDD BOLC CC training. Special information for students: 1. To obtain information about the AMEDD BOLC, call COMM: 210-221-8223 or DSN: 471-8223. 2. Officers will be assigned to A Company, 187th Medical Bn., FSH, TX. 3. Officers are to bring their uniforms to FSH. There will be an opportunity to purchase more
uniforms while attending the course. 4. It is highly recommended that officers bring computer/laptop and printer, as many homework assignments require the use of a computer and printer. There are computer labs in the AMEDDC&S but the hours may be limited.

6-8-C20B (MS71ABE)
MS-LABORATORY BASIC OFFICER LEADER PHASE 2

Location School Code: 081

Description: The topics covered during this course include: DCSS Orientation, Track out processing, 68K Medical Laboratory Technician Program, Medical Research and Materiel Command, Professional Development, Laboratory Response Network, Impact of Clinical Laboratory Improvement Amendments/Clinical Laboratory Improvement Program, Officer Affairs and Promotions, Institute of Surgical Research Tour, Tutoring/Mentoring in Specialty Area, Department of Clinical Investigation Tour, Class Closure and Exit Briefing, Myers Briggs, Clinical Laboratory Management, Army Blood Program Update, Quality in Blood Banking, The Medical Threat, Occupational Safety and Health Administration and Laboratory Safety, Area Medical Laboratory and Emerging Infectious Disease Update.

Special Information: The AOC specific training for MS officers starts immediately following the AMEDD BOLC CC training. Special information for students: 1. To obtain information about the AMEDD BOLC, call COMM: 210-221-8223 or DSN: 471-8223. 2. Officers will be assigned to A Company, 187th Medical Bn., FSH, TX. 3. Officers are to bring their uniforms to FSH. There will be an opportunity to purchase more uniforms while attending the course. 4. It is highly recommended that officers bring computer/laptop and printer, as many homework assignments require the use of a computer and printer. There are computer labs in the AMEDDC&S but the hours may be limited.

6-8-C20B (MS72A)
MS-NUCLEAR MED SCIENCE BASIC OFFICER LEADER PHASE 2

Location School Code: 81

Special Information: The AOC specific training for Nuclear Medical Science officers starts immediately following the 7 weeks AMEDD BOLC CC training and consists of 2-weeks of training. 1. To obtain information about the AMEDD BOLC, call 210-221-8223; DSN 471. 2. Officers will be assigned to A Company, 187th Medical Bn., FSH, TX. 3. Officers are to bring their uniforms to FSH. There will be an opportunity to purchase more uniforms while attending the course. 4. It is highly recommended that officers bring computer/laptop and printer, as many homework assignments require the use of a computer and printer. There are computer labs in the AMEDDC&S, but the hours may be limited.
6-8-C20B (MS72BDE)
MS-PUBLIC HEALTH BASIC OFFICER LEADER PHASE 2

Location School Code: 081  
Length: 2 weeks

Description: The topics covered during this course include: management of preventive medicine specialists, diseases of public health importance, medical surveillance and reportable medical events system program, malaria, food and waterborne diseases, environmental sampling techniques, water quality program, field water supply, water treatment, base camp assessment, the medical threat, deployment occupational and environmental health surveillance, individual preventive medicine measures, preventive medicine support for natural disasters, DA occupational safety and health program, food service sanitation I, food service sanitation II, food service sanitation III, resources for medical intelligence/medic CD Rom, the military decision making process and operational risk management, heat stress and practical exercise, cold stress, industrial toxicology, industrial ventilation, sound level measurements, direct and indirect air sampling, personal protective equipment, introduction to air pollution abatement, waste water treatment, environmental compliance, confinement facilities, arthropods and vector-borne diseases of military importance, principles of integrated pest management, arthropod surveillance programs, decontaminate a CBRNE casualty, medical force health protection, chemical and biological agents defense equipment, nuclear weapon effects for medical care providers, introduction to biological agents, introduction to CBRNE, chemical agent overview, CBRN operations in a field environment, mask confidence training, biological effects of ionizing radiation and CBRNE for preventive medicine officers.

Special Information: The AOC specific training for MS officers starts immediately following the AMEDD BOLC CC training. Special information for students: 1. To obtain information about the AMEDD BOLC, call COMM: 210-221-8223 or DSN: 471-8223. 2. Officers will be assigned to A Company, 187th Medical Bn., FSH, TX. 3. Officers are to bring their uniforms to FSH. There will be an opportunity to purchase more uniforms while attending the course. 4. It is highly recommended that officers bring computer/laptop and printer, as many homework assignments require the use of a computer and printer. There are computer labs in the AMEDDC&S but the hours may be limited.

6-8-C20B (MS72C)
MS-AUDIOLOGY BASIC OFFICER LEADER PHASE 2

Location School Code: 081  
Length: 2 weeks

Description: The topics covered during this course include: Validate Functioning of the Defense Occupational and Environmental Health Readiness System-Hearing Conservation (DOEHRS-HC) system, introduction to the 68WP2, fit preformed earplugs, conduct monitoring audiometry, DOEHRS-HC testing, clinical rotation in the audiology clinic, council for accreditation in occupational hearing conservation overview, orientation to Army audiology, prevalence of noise induced hearing loss in the USA, AR 40-5 Preventive Medicine DA PAM 40-501 Hearing Conservation Program, 72C Career Management, AR 40-501 Standards of Medical Fitness, and AR 40-3 Medical, Dental, and Veterinary Care.

Special Information: The AOC specific training for MSC officers starts immediately following the AMEDD BOLC CC training. Special information for students: 1. To obtain information about the AMEDD BOLC, call COMM: 210-221-8223 or DSN: 471-8223. 2. Officers will be assigned to A Company, 187th Medical Bn., FSH, TX. 3. Officers are to bring their uniforms to FSH. There will be an opportunity to purchase more uniforms while attending the course. 4. It is highly recommended that officers bring computer/laptop and printer, as many homework assignments require the use of a computer and printer. There are computer labs in the AMEDDC&S but the hours may be limited.
6-8-C20B (MS73AB/71F)
MS-BEHAVIORAL HEALTH BASIC OFFICER LEADER PHASE 2

Location School Code: 081
Length: 2 weeks

Description: The topics covered during this course include: equal opportunity and prevention of sexual harassment, COSC doctrine, Field Manual 4-02.51, role of the behavioral health provider, introduction to behavioral health resource disk, integrating COSC/mental health assets, ID, triage and treatment of combat and operational stress reactions casualties, command directed evaluations, implement a COSC prevention program, non-organic COSC assimilation into a BCT, behavioral science assets in special operations, unit needs assessment, review DSM IV TR, MTF rotation, student presentations, role of the 68X, suicide prevention/Army suicide event report, role of the mental health provider, Family Advocacy Program, organization and functions of the ASAP, ethics, family violence, outprocessing behavioral sciences track: AMEDD BOLC, Army family team building, implement suicide prevention measures, traumatic event management, compassion fatigue, and CBRNE: a behavioral science response.

Special Information: The AOC specific training for MS officers starts immediately following the AMEDD BOLC CC training. Special information for students: 1. To obtain information about the AMEDD BOLC, call COMM: 210-221-8223 or DSN: 471-8223. 2. Officers will be assigned to A Company, 187th Medical Bn., FSH, TX. 3. Officers are to bring their uniforms to FSH. There will be an opportunity to purchase more uniforms while attending the course. 4. It is highly recommended that officers bring computer/laptop and printer, as many homework assignments require the use of a computer and printer. There are computer labs in the AMEDDC&S but the hours may be limited.

6-8-C20B RC DL
RC–BASIC OFFICER LEADER PHASE 1

Location School Code: 555
Length: 52 weeks

Description: AMEDD BOLC RC has been designed for use by Reserve Soldiers. Phase 1 must be completed prior to attending phase 2. Students have one year from the date of enrollment to complete phase 1. Phase 1 is accomplished through a dL product which is accessible via the ALMS. Access is provided via the internet. The course has seven modules focused on the following topics: General Subjects; Leader Communication; Legal Process; Force Protection; Soldier Programs; Unit Management; and Personnel Management. Additional information and guidance is available through The Army Help Desk at the following URL. https://athd.army.mil/Scripts/ATHD.cfg/php.exe/enduser/std_alp.php? Set the "Category" box to All and type the following letters in the Keyword Search box: HSRDL, (Not case sensitive). Then click on the Search button.

Phase 2 is conducted as a 26 day resident course training newly commissioned RC AMEDD officers to function effectively in their first AMEDD duty position.

The course content expands upon the topics covered in phase 1 and provides access to subject matter experts in a conference style classroom setting. In addition, three FTXs are conducted during the course and provide training in CBRN defense, patient evacuation (manual and litter carries), land navigation, MOUT, convoy operations, communications, weapons training and other Soldier skills.

Special Information: "To self-enroll in the phase 1 dL, access the ATRRS at the following website, www.atrrs.army.mil. Select the Self Development / Distance Learning tab. In the Quick Course Search enter C20B in the Crs Nbr field. The search will provide the class schedule for the 6-8-C20B RC DL product. Select register. Review the course scope and Special Information paragraphs prior to leaving this webpage. Instructions for launching the course will be provided via email."
6-8-C20B (RC)
RC – BASIC OFFICER LEADER PHASE 2

Location School Code: 081

Description: The BOLC develops the following characteristics and skills in officers: competency to perform officer/Soldier skills to standard IAW the TR 351-10, Institutional Leader Training and Education; TR 350-36, BOLC Training Policies and Administration; an understanding of Army organizations, operations and procedures; an ability to apply the concepts of the AHS and leader skills, MDMP; an ability to communicate, interact and coordinate as a staff member; military survival skills for the operating environment; and AMEDD-specific training. 2. The BOLC consists of 25 days of common core training and experiential learning conducted in a field environment at FSH and Camp Bullis, TX. There is no specific AOC training. NOTE: A full day of training is scheduled on day 25; early release will not be authorized. 3. Military Education Level-G (MEL-G) is awarded only upon successful completion of both phase 1 and phase 2 of the BOLC in compliance with requirements of Initial Military Training mandated by Title 10, US Code.

Special Information: Additional AMEDD BOLC course and welcome information can be accessed via this link: http://www.cs.amedd.army.mil/bolc/. Any RC student attending BOLC-B (RC) phase 2 must hand-carry their DA Form 705, Army Physical Fitness Test scorecard. The DA Form 705 must show a passing score and be current within the past 6 months, prior to attending BOLC-B (RC). Additionally students must also bring a current Body Fat Content Worksheet (DA Form 5500) showing that they meet AR 600-9 standards for height and weight. If a student does not arrive with a current DA Form 705 and DA Form 5500 signed by the Company Commander or his/her designated representative (on orders), he or she will be administered a record APFT and be required to conduct a weigh-in and/or taping for body fat content during in-processing. Any USAR or ARNG student in this category who subsequently does not pass a record APFT and/or does not meet height and weight IAW AR 600-9 standards during in-processing will not be enrolled into the course and will be returned to their parent unit. Obligated service requirements for ARNG officers are IAW AR 135-91 AND NGR 351-1. Obligated service requirements for USAR officers are IAW AR 135-91 and by AR 135-200. Phase 1 completion is a requirement for all 6-8-C20B RC students prior to enrollment in phase 2. Students have a maximum of one year to complete phase 1. Phase 1 is found at school code 555 and course number is 6-8-C20B RC DL. Applicants are advised that completion of phase 1 does not automatically make a reservation for phase 2. While Soldiers "self-enroll" in phase 1, a unit training manager must make the reservation for phase 2. The training manager is responsible to verify that Soldiers have completed phase 1 prior to entering the phase 2 enrollment in ATRRS. Students are asked to bring a copy of their phase 1 completion certificate to the phase 2 resident course if completion status has not been posted in the ATRRS. Soldiers who have not completed phase 1 will be denied enrolled in phase 2. Return travel will not be no earlier than the day following course end date.

6-8-C20B (SP65ABC)
SP-OT/PT/RD BASIC OFFICER LEADER PHASE 2

Location School Code: 081

Description: The topics covered during this course include: health promotion; internet resources; Center for the Intrepid tour; introduction to MS/Internship Program; overview of the AMEDDC&S; tour of AMEDDC&S; AMEDDC&S/scavenger; track orientation (65A)(1 period); overview of occupational therapy(OT) practice in the Army; Project Paratus; the OT as an evaluator/physician extender; orientation to 68WN3(OT assistant) task list; working with OT assistants; managing your career in Army OT; orientation to OT and MEDCEN; orientation to OT with burn patients; introduction to combat stress control (CSC); cases of battle fatigue; combat stress casualty management; organizations of the USA and its relation to CSC operations; the
occupational therapist's role in CSC; planning for combat stress casualty reception; critical incident stress debriefing; conducting a unit survey; implementing a CSC program in garrison; out processing (65A)(3 periods).

Special Information: The AOC specific training for SP Corps officers starts immediately following the AMEDD BOLC CC training. Special information for students: 1. To obtain information about the AMEDD BOLC, call COMM: 210-221-8223 or DSN: 471-8223. 2. Officers will be assigned to A Company, 187th Medical Bn., FSH, TX. 3. Officers are to bring their uniforms to FSH. There will be an opportunity to purchase more uniforms while attending the course. 4. It is highly recommended that officers bring computer/laptop and printer, as many homework assignments require the use of a computer and printer. There are computer labs in the AMEDDC&S but the hours may be limited.

6-8-C20B (SP65D)
SP-PHYSICIAN ASSISTANT BASIC OFFICER LEADER PHASE 2

Location School Code: 081 Length: 2 weeks

Description: Combat fluid maintenance, nutrition issues, CBRNE for health care providers, Army PA duties and responsibilities, Bn. PA as a medical staff officer, standard operating procedures for Bn. aid stations in garrison, combat development update, combat lifesaver instructor course, medical records keeping, medical threat/global medicine, Army PA career progression, medical officer responsibilities in MEB/PEB and MMRB procedures, medical officer's responsibilities in Soldier readiness processing, combat medic specialist (68W) sustainment training, lessons learned from specific deployments, ordering class VIII in the combat environment, PA professional organizations, introduction to the combat casualty, tactical combat casualty continuum of care, combat airway management, extremity injuries, thoracic trauma, dressing/hemorrhage control workshop, combat thermal burns, skills station #1, skills stations (Wednesday), combat blood transfusion, combat wound management, surgical skills lab instructional video, trauma lanes/extrication, course critique and lessons learned (1hr), trauma bag (aid bags) workshop, veterinary surgical skills lab brief, surgical skills lab, tactical combat casualty care - TC3, splinting workshop, pediatric trauma (TCMC), traumatic brain injury (TBI) (TCMC), preservation of remains (TCMC) and the PA's role in the medical management of combat and operational stress, out processing/class closing (2hrs).

Special Information: The AOC specific training for SP Corps officers starts immediately following the AMEDD BOLC CC training. Special information for students: 1. To obtain information about the AMEDD BOLC, call COMM: 210-221-8223 or DSN: 471-8223. 2. Officers will be assigned to A Company, 187th Medical Bn., FSH, TX. 3. Officers are to bring their uniforms to FSH. There will be an opportunity to purchase more uniforms while attending the course. 4. It is highly recommended that officers bring computer/laptop and printer as many homework assignments require the use of a computer and printer. There are computer labs in the AMEDDC&S but the hours may be limited.

6-8-C20B (USUHS)
USUHS-BASIC OFFICER LEADER

Location School Code: 081 Length: 6 weeks

Description: The AMEDD BOLC (USUHS) has been redesigned to reflect the applicable portions of the Army BOLC, and is now called the AMEDD BOLC (USUHS). The AMEDD BOLC (USUHS) trains officers to develop: competency to perform officer/Soldier skills to standard; an understanding of Army organizations, operations, and procedures; an ability to apply the concepts of force health protection and leader skills, to include an ability to analyze and solve military problems; an ability to communicate, interact and coordinate as
a staff member; military survival skills for the contemporary operating environment; and AMEDD-specific training which culminates in a force health protection FTX. Three FTXs are conducted during the course and involve: CBRN defense, patient evacuation (manual and litter carries), land navigation, MOUT training, convoy operations, communications, weapons training and other Soldier skills. These areas have been determined to be crucial to the mission of the Army to the extent that non-performance in the field might constitute a life-threatening situation or cause mission failure for BOLC graduates and/or their units. Successful completion of the course is required to obtain MEL-G (formerly MEL-7) credit, and to meet the requirements of initial entry training mandated by Title 10, US Code, the completion of which is required before an officer can be deployed OCONUS.

**Special Information:** This course will last 6 weeks and requires duty through weekends. Special information for students: 1. To obtain information about the AMEDD BOLC, call COMM: 210-221-8223 or DSN: 471-8223. 2. Officers will be assigned to a company, 187th Medical Bn., FSH, TX. 3. Officers are to bring their uniforms to FSH. There will be an opportunity to purchase more uniforms while attending the course. 4. It is highly recommended that officers bring computer/laptop and printer as many homework assignments require the use of a computer and printer. There are computer labs in the AMEDDC&S but the hours may be limited.

**6-8-C20B (VC64)**

**VC -BASIC OFFICER LEADER PHASE 2**

**Location School Code:** 081  
**Length:** 5 weeks

**Description:** The VC BOLC course trains officers to develop: competency to perform officer/Soldier skills to standard; an understanding of Army organizations, operations and procedures; an ability to apply the concepts of force health protection and leader skills, to include analysis and military problem solving; an ability to communicate, interact and coordinate as a staff member; military survival skills for the contemporary operating environment; and AMEDD-specific training which culminates in a medical field training exercise.

This course is required for all Active Duty VC (VC64). The first 7-weeks of this 12-week course are AMEDD common corps training. The remaining 5 weeks is AOC specific training. The MEL-G (formerly MEL-7) credit is awarded upon successful completion of the 6-8-C20B (VC64) VC BOLC course for the designated specialty.

**Special Information:** The AOC specific training for VC officers starts immediately following the 7 weeks AMEDD BOLC CC training and consists of 5 weeks of training.

Special information for students: 1. To obtain information about the AMEDD BOLC, call COMM: 210-221-8223 or DSN: 471-8223. 2. Officers will be assigned to A Company, 187th Medical Bn., FSH, TX. 3. Officers are to bring their uniforms to FSH. There will be an opportunity to purchase more uniforms while attending the course. 4. It is highly recommended that officers bring computer/laptop and printer as many homework assignments require the use of a computer and printer. There are computer labs in the AMEDDC&S but the hours may be limited.

**6-8-C22(DL)**

**AMEDD CAPTAINS CAREER PHASE 1**

**Location School Code:** 555  
**Length:** 2 weeks 3 days

**Description:** The AMEDD Captains Career Course (CCC) is designed to train officers to lead company or equivalent-sized organizations and serve in US Army staff positions. Graduates are prepared for subsequent assignments by learning the leader, tactical, and technical tasks, including the supporting knowledge and skills necessary to support the joint team across the full spectrum of military medical operations.
Special Information: 6-8-C22(DL) consists of 10 modules presented in web-based format. Registration for this course is through the Army Training Requirements and Resources System (ATRRS) Self-development Portal at attrs.army.mil. The course materials are delivered via the ALMS. 1. After enrolling in ATRRS, follow these steps to access the ALMS: - AKO Site - https://www.us.army.mil. - Click on the tab "Self Service". - Scroll down and click on the link "My Education". - Click on the "click here" link under the ALMS Section (Your personal ALMS Homepage will appear). - Locate your course number under the enrollment section. - Click on link to launch the desired course. - Read the course Letter of Information (LOI) located in the ALMS course section for additional information. 2. If you encounter any errors and you have completed all of the steps above, you may contact the ATHD for assistance at: AMEDD ATHD: Phone: Toll Free: 1-888-263-3356 - DSN: 471-6288. Hours of Operation: Monday - Friday: 0700 - 1600 (CST). Or use the ATHD general website at: https://athd-crm.csd.disa.mil/ (Select AMEDD from the drop down). Toll Free: 1-800-275-2872 option 1. DSN: 826-3666. Hours of Operation: Monday - Friday: 0700 - 1600**(EST). Hours of Operation: 24/7 (FAQs only). Phase 1 must be completed within 1 year and is a prerequisite for enrollment in phase 2. Both phases must be completed within 2 years. from enrollment in phase 1. International military students take phase 1 (6-8-C22(International) in residence in lieu of distance learning.

6-8-C22
AMEDD CAPTAINS CAREER PHASE 2

Location School Code: 081 Length: 9 weeks

Description: The AMEDD CCC is designed to train officers to lead company or equivalent-sized organizations and serve successfully in USA staff positions. Graduates are prepared for subsequent assignments by learning the leader, tactical, and technical tasks, including the supporting knowledge and skills necessary to support the Joint Team across the full spectrum of military medical operations.

Special Information: An officer who cannot attend the AMEDD resident phase within 24 months of enrollment in the distributed learning phase must request a waiver. A 1-year waiver may be granted by the Course Director; waiver must be requested no later than 60 days prior to the resident phase. Warrant Officers will enroll in a follow-on resident phase, 6-8-C22(640A) or 6-8-C22(670A), to complete technical training in order to graduate. POC: Dean, AHS, ATTN: MCCS-HLC, 3151 Scott Rd., FSH, TX 78234-6139 LTC, DSN: 471-7453 or COMM: 210-221-7453.

6-8-C22(RC)
AMEDD CAPTAINS CAREER (RC) PHASE 2

Location School Code: 081 Length: 2 weeks

Description: The AMEDD CCC is designed to train officers to lead company or equivalent-sized organizations and serve successfully in US Army staff positions. Graduates are prepared for subsequent assignments by learning the leader, tactical, and technical tasks, including the supporting knowledge and skills necessary to support the Joint Team across unified land operations.

Special Information: Travel orders must state San Antonio, TX, NOT FSH, TX. An officer who cannot attend phase 2 within 24 months of enrollment in phase 1 must request a waiver. A 1 year waiver may be granted by the Course Director; waiver must be requested no later than 60 days prior to phase 2. POC: Commandant, AHS, ATTN: MCCS-HL, 3151 Scott Rd., FSH, TX 78234-6139 LTC, DSN: 471-7453 or COMM: 210-221-7453. Continuing Medical Education (CME) credits are awarded for this course.
This phase is conducted at Trinity University, San Antonio, TX, where students are billeted, fed, and trained. The AHS instructors and the support personnel provided by the Captains Career Course Branch, LTC travel to and from the site.

6-8-C22(90A)
AMEDD CAPTAINS CAREER BRANCH TNG FOR FA90A

Location School Code: 081 Length: 3 weeks

Description: To equip the student with skills and knowledge to perform duties as a company commander in a specific branch as well as a staff officer on a multifunctional logistics staff. Phase 2 is functional branch training that focuses on field medical doctrine to prepare AMEDD officers for branch command and staff positions or as staff officers in multifunctional logistics positions.

Special Information: Upon successful completion, students will return to Fort Lee, VA for phase 3 of the course.

6-8-C22(640A)
AMEDD CAPTAINS CAREER PHASE 3

Location School Code: 081 Length: 1 week

Description: Training consists of 1 week of advanced technical training in food microbiology, characteristics and properties, food chemistry and food processing. It includes extensive hands-on experience with processing equipment in a university pilot laboratory setting. This is mission essential training for senior Veterinary Corps Food Safety Officers. The training will be applied in comprehensive sanitary auditing of commercial food establishments.

Special Information: This phase must be completed before Soldier is awarded military education Level (MEL) F credit. At the end of the course, students are administered a written examination and must score at least 70 percent to pass. If successful, an FDAORA-U Certificate of Training is forwarded to the student. Students will provide a copy of the certificate to Chief, DVS, AMEDDC&S, ATTN: MCCS-HVS, 3630 Stanley R, FSH, TX 78234. Upon receipt of a copy the certificate, a DA Form 1059 will be completed indicating successful completion of the course. The 6-8-C22(640A) phase will normally be completed within 12 months of completing the resident phase of the AMEDD CCC. This FD 152, Food Core III: Food Processing and Technology/course is conducted by the Office of Regulatory Affairs University (ORA-U). ORA-U is part of the US Food & Drug Administration Department of Human Resources Development. Course dates and locations are posted annually on the ORAU website at: http://www.fda.gov/Training/ForStateLocalTribalRegulators/ucm277514.htm. The VC Warrant Officer Consultant has oversight management of ensuring 640A Veterinary Corps Food Safety officers complete the course as required.

6-8-C22(670A)
AMEDD CAPTAINS CAREER PHASE 3

Location School Code: 081 Length: 3 weeks

Description: This course is designed to enhance an officer's military frame of reference and to provide training in military medical service support operations with an overall working knowledge regarding the duties and responsibilities of AMEDD officers during periods of peace and hostilities. The intent is preparation for command and staff positions of greater responsibility.
Phase scope: Training consists of 3 weeks of advanced technical and tactical skills required of senior Health Services Maintenance warrant officers. The training is designed to enhance the tactical and technical skills at a strategic level. Training will stress medical maintenance and property book operational concepts and principles required for senior Health Services Maintenance Technicians.

**Special Information:** There is no special information available at the time of this publication; please review ATRRS at [https://www.atrrs.army.mil/](https://www.atrrs.army.mil/) for updated information.

**6-8-C22(67J)**
**AMEDD BR TNG FOR AEROMEDICAL EVAC OFFICERS**

**Location** School Code: 081  
**Length:** 4 weeks 2 days

**Description:** To equip the student with skills and knowledge to perform duties as a company commander in a specific branch as well as a staff officer.

**Special Information:** This course is prerequisite to the 2-1-C22, Aviation Captains Career (School Code 011). Enrollment must be within one year of 6-8-C22 (67J) completion.

**6-8-C22 (INTERNATIONAL)**
**AMEDD CAPTAINS CAREER PHASE 1**

**Location** School Code: 081  
**Length:** 6 weeks

**Description:** This resident phase provides IMS medical department officers and government civilians with a common knowledge base in preparation for the resident phase 2.

**Special Information:** Family members are encouraged not to accompany the student.

**6-8-C22(MC)**
**AMEDD CAPTAINS CAREER (MC) PILOT COURSE PHASE 2**

**Location** School Code: 081  
**Length:** 3 weeks

**Description:** The AMEDD CCC is designed to train officers to lead company or equivalent-sized organizations and serve successfully in US Army staff positions. Graduates are prepared for subsequent assignments by learning the leader, tactical, and technical tasks, including the supporting knowledge and skills necessary to support the Joint Team across the full spectrum of military medical operations. The Captains Career Course consists of two phases. Phase 1 (the distance learning phase) must be completed before enrolling into phase 2 (the resident phase). The officer must bring a certificate of completion for phase 1 when reporting for phase 2. In the absence of proof of completion of phase 1, the officer will be returned immediately to his or her duty station.

**Special Information:** An officer who cannot attend phase 2 within 24 months of enrollment in phase 1 must request a waiver. A 1-year waiver may be granted by the course director; waiver must be requested no later than 60 days prior to the residence phase. Students must successfully complete phase 1 by passing all examinations. POC: Dean, AHS, ATTN: MCCS-HHO, 3151 Scott Rd., FSH, TX 78234-6139 The LTC COMM: 210-221-7453 or DSN: 471-7453. The CME credits are awarded for phase 2. The MC officer may take the 2-week 6-8-C22(MC) phase or the 6-8-C22 all corps 9 week phase.
6A-F4/340-F10
AMEDD EXECUTIVE SKILLS

Location School Code: 081 Length: 1 week

Description: This course provides formal instruction in current and pertinent material designed to prepare new and projected Deputy Commanders and CSM/SGMs for positions within AMEDD, TDA, MEDCENS, MEDDACs, and DENTACS. This course provides Deputy Commanders and CSM/SGMs with management/leadership education and training on information essential to ensuring positive role performance and a reduced time to competency. The course is also designed to provide competency by focusing on a selected number of skills identified as most relevant to their specific positions.

Special Information: Attendance at this course is by selection only. Course specific information can be obtained by calling 210-221-8530.

6I-70H
HEALTH SVCS PLANS, OPRS, INTEL, SEC & TNG

Location School Code: 081 Length: 3 weeks

Description: To provide qualified officers training in field medical operations and direction or coordination of staff functions pertaining to combat health support plans, operations, intelligence, security, and training.

Special Information: Submit the DA Form 3838 to HRC (AC), for RC personnel commander, HRC-STL (USAR) and the training POC as designated in each respective state. Copy must be furnished by student upon arrival for training. FAX the security clearance memorandum containing the following information to Security Manager, COMM: 210-221-6541 or DSN: 471-6541, ATTN: Security Manager: personal identifying data (name, rank, SSN, date and place of birth), organization or assignment, date and level of clearance, date and type of investigation, beginning and end dates of 6I-70H class to be attended. The HRC may award the 70H AOC to MSC officers upon successful completion of this course and IAW DA Pam 600-4, AMEDD Officer Development and Career Management. The course is mandatory for award of the 70H AOC for AC personnel and for RC personnel at Bn. level and above. Officers who currently possess the 70H AOC will retain the AOC.

6-250-C1
MEDICAL STRATEGIC LEADERSHIP PROGRAM

Location School Code: 081 Length: 2 weeks

Description: The program provides healthcare related training to prepare the attendees for the strategic leadership challenges of combined health service support operations and operating within coalitions and alliances. Major areas of instruction include US Army medical policy and organization, military readiness, international law, nongovernmental organizations, counterterrorism, intercultural relations, strategic lessons learned, media relations, force health protection, research and development, interagency planning, United Nations, and government policy. The program consists of two weeks of instruction. One week of the course is convened in NYC and Washington, D.C. The NYC trip is an integral part of the programs educational experience, along with visiting and receiving briefings at the United Nations, the students are exposed to large and complex public and private enterprises with the objective of examining local, national, regional and international issues within the dynamic urban environment of America's premier city and the world's financial capital.
Special Information: The US student should report the Sunday before program start date. The course terminates on Saturday evening of the last week of the course. Students should arrive for the course with a plane ticket to depart for home station on the last Sunday of the course. Group flight arrangements from San Antonio to New York are made by the course director.

Uniform and clothing requirement: As a general rule, the duty uniform for most days is Class B. Class A uniform is required for certain events. All attendees should bring a civilian coat and tie (or female equivalent) for social events. In the fall and spring students should be prepared for cold weather, especially in New York and Washington DC. Overcoats are strongly recommended. Light jackets may be more suitable in Texas during those periods. During summer iterations students should be prepared for very warm weather, especially in Texas. Course administrative instructions are prepared for each iteration and will discuss uniform requirements specific to that iteration. For course information call COMM: 210-221-8571 or 210-221-7094.

6-250-C1 (INTERNATIONAL)
MEDICAL STRATEGIC LEADERSHIP PROGRAM

Location School Code: 081
Length: 3 weeks 1 day

Description: To provide training support focused on strategic level military medical leadership health issues with a focus on working within coalitions and alliances with an emphasis on combating terrorism. To promote interoperability and improve planning for coalition operations. This is extremely important, due to the steady increasing incidence of coalition operations. Facilitate seamless global medical operations by establishing close professional and personal bonds, resulting in long-term relationship development among US and international attendees. Through these relationships, US and international medical officers maintain contacts and work together to support each other and to establish and maintain enhanced communications. This is accomplished using a management technique known as a "retreat". Students spend as much time as possible together discussing pertinent issues and sharing experiences. During the final week when relationships solidify, students stay in the same lodging, eat meals together, and participate in evening functions, both structured and unstructured. The US officers serve as mentors to international officers and support the MSLP faculty in promoting and discussing democracy and American ideology. International officers discuss their culture and system of government.

The program provides healthcare-related training to prepare the attendees for the strategic leadership challenges of combined health service support operations and operating within coalitions and alliances. Major areas of instruction include US Army medical policy and organization, military readiness, international law, nongovernmental organizations, counterterrorism, intercultural relations, strategic lessons learned, media relations, force health protection, research and development, interagency planning, United Nations, and government policy. The program consists of three weeks of instruction. During the third week, the course is convened in NYC and Washington, D.C. The NYC trip is an integral part of the program's educational experience, along with visiting and receiving briefings at the United Nations, the students are exposed to large and complex public and private enterprises with the objective of examining local, national, regional, and international issues within the dynamic urban environment of America's premier city and the world's financial capital.

Special Information: Students should arrive at the San Antonio International Airport on the Thursday before the course start date. Students will be met at the airport by an official escort officer. Due to the short duration of the course, International Military Education and Training (IMET) students should be paid in advance and should arrive with enough funds to pay for all of their meals throughout the entire course at FSH, for on-post lodging. The IMET students may be charged to their Invitational Travel Order. All others must arrive with
enough funds to cover the cost of lodging (16 days) at FSH. Lodging in NYC and Washington, DC is covered in
the course cost. Students should arrive for the course with a plane ticket to depart for their home station on the
last Sunday of week three, from Washington, DC to their duty station. Transportation from San Antonio to NY
and NY to Washington, DC is made by the program director and covered under the course costs. The course
terminates on Saturday evening of week three. Weeks one and two of this course convene in San Antonio,
Texas. The class moves to New York, NY on the third Saturday of the course and to Washington, DC on the
third Monday.

Presentation requirement: Students must come prepared to give a brief presentation (no longer than 30 minutes)
about their country, focusing on the geography, government, culture, military medical structure, and the most
significant issue facing their military medical forces. (a) Power Point 95 or later version, (b) 20 slides or less,
(c) No video or DVD (due to compatibility issues), and (d) a copy of the presentation is due on the first day of
class in the following format: CD.

Uniform and clothing requirement: The duty uniform for most days is Class B or equivalent. Class A uniform is
required for certain events. All attendees should bring a civilian coat and tie (or female equivalent) for social
events. In the fall and spring, students should be prepared for cold weather, especially in New York and
Washington, DC. Overcoats are strongly recommended. Light jackets may be more suitable in Texas during
those periods. For course information call: 210-221-8571 or 210-221-7094.

7M-F7
BRIGADE SURGEON
Location School Code: 081
Length: 2 weeks

Description: The course is designed to emphasize the skills and knowledge needed by individuals assuming the
role of brigade surgeon. Major areas covered include command and staff duties, responsibilities of the Brigade
Surgeon, the organization of a brigade, doctrinal employment of brigade assets, combat service support in a
brigade, division-level combat service support, and brigade-level professional development.

Special Information: Courses are scheduled to be conducted twice annually on FSH and not in San Antonio,
Texas, unless otherwise announced. Category I AMA CME credits may be awarded upon successful completion
of this course.

7M-F8
DIVISION SURGEON
Location School Code: 081
Length: 1 week

Description: The Division Surgeon course is targeted for qualified officers assigned to or on orders to assume
the division surgeon position. Major areas of instruction include command and staff duties and responsibilities
of the division surgeon, the organization of a division, doctrinal health service support to a division, and
division-level health service support to a division. The course is designed to build upon previous experiences
and training received in the BOLC, the Brigade Surgeon course, the Officer Advanced Course, and to set the
stage for subsequent MC education and training in pre-command and senior service college.

Special Information: Courses are scheduled to be conducted twice annually on FSH and not in San Antonio,
TX, unless otherwise announced. Category I American Medical Association CME credits may be awarded upon
successful completion of this course.
7M-F10
AMEDD PRE-COMMAND

Location School Code: 081  Length: 1 week 2 days

Description: This 9 day course is conducted at the US AMEDDC&S, FSH, TX and is designed to fill the needs of lieutenant colonels and colonels who have been selected to command positions. It ensures a common understanding of current USA training, personnel, training, logistics and tactical doctrine. Subject course is a branch specific portion of a multifaceted program. Additionally, the Center for Command Preparation at Fort Leavenworth recommends attendance at one of the iterations of a Branch Immaterial Course conducted at Fort Leavenworth and a specialty or additive course, if eligible.

Special Information: After enrolling via ATRRS for the 2G-F105_DL, Injury Prevention Through Leadership Course, follow these steps to access ALMS: AKO Site - https://www.us.army.mil. Click on the tab "Self-Service." Scroll down and click on the link "My Training." Click on the "click here" link under the ALMS Section (your personal ALMS Homepage will appear). Locate your course number under the enrollment section. Click on link to launch the desired course. Read the course LOI (located in the ALMS course section) for additional information.

In addition to the CC curriculum there are the following five TRACKS: TDA/TOE/Warrior Transition Unit (WTU)/Dental Corps/Veterinarian Corps.

The addition of the WTU track to the AMEDD PCC necessitated the inclusion of Army Branch Immaterial AOCs as those have become eligible for command-selection to WTU/Community Base WTU (CBWTU) Battalions/Brigades.

Offered to spouses is a three-day command team seminar which is conducted concurrently to provide an overview of the roles and responsibilities of the Family Readiness Groups, additional programs available to family members within the command, a practical exercise designed to develop skills taught, and an outline of the unique relationship linking the spouse and the commander and their specific functions within the command. Spouses residing in CONUS are centrally funded on invitational travel orders.

Category I AMA CME Credits may be awarded upon successful completion of this course. Course specific information can be obtained at DSN: 471-8213 or COMM: 210-221-8213 or Alternate DSN: 471-7444 or COMM: 210-221-7444.

7M-F11
FORWARD SURGICAL TEAM COMMANDER COURSE

Location School Code: 081  Length: 1 week

Description: The course is designed to emphasize the skills and knowledge needed by individuals assuming the role of forward surgical team commanders. Major areas covered include command and staff duties, responsibilities of the forward surgical team commander, the organization of a brigade, doctrinal employment of brigade assets, combat service support in a brigade, division-level combat service support, and brigade and division-level professional development. The course is designed to build upon previous experiences and training received in BOLC-B, the Brigade Surgeon Course, and the CCC. It sets the stage for subsequent MC education and training in pre-command and senior service college.

Special Information: These 5 day courses are scheduled to be conducted twice annually at FSH, TX unless otherwise announced. Category I, AMA CME credits, may be awarded upon successful completion of this course.
Description: To provide necessary training and proficiency in the concepts, procedures and applications of joint medical planning with an emphasis on joint medical issues critical to strategic and operational planning. The class includes the joint planning orientation course, medical analysis tool training, service capabilities, and functional areas associated with the production of the Annex Q (Medical) of an operations plan. The course is designed for those medical planners assigned or enroute to a joint, combined or service headquarters medical planners billet at the rank of O-4/5.

Special Information: This 3-week course is divided into a 2-week basic course followed by a 1-week advanced course. The US Army Medical Command provides full funding for regular Army officers and NCOs, and to DA Civilian Personnel assigned to OTSG/MEDCOM. Officers and NCOs in the USAR and ARNG must obtain funding through their respective HQs which normally funds training opportunities. Attendance at the Joint Medical Planners Course for Army personnel is approved by the AMEDD Leader Development Section, Health Services Division, USA HRC. For information pertaining to suspense dates for submitting application, please go to: http://www.med.navy.mil/sites/navmedmpte/courses/Pages/JointMedicalPlannersCourse.aspx. If the Web link does not work, recommend google: Joint Medical Planners Course. Army personnel must apply for attendance by submitting a DA Form 3838 (application) and letter of justification, to the AMEDD Leader Development Section, Health Services Division, USA HRC. Selected officers will be notified by HRC, NLT 30 days prior to the course start date.
PROFESSIONAL POSTGRADUATE SHORT COURSE PROGRAM (PPSCP)

The PPSCP falls under the Department Health Education and Training which provides a world class education system that is answerable to the USA and the American people through development of AMEDD education training policies, ensuring adherence to education training policy and accreditation standards; advocating education and training issues; managing quotas and funds for Army, civilian, and federal courses; developing and implementing AMEDD policies and programs to comply with DoD instructions and inter-service training review organizations.

6A-A0101
AMEDD RADIOLOGY CURRENT CONCEPTS IN IMAGING

Location School Code: 081 Length: 1 week

Description: The course presents specialists in radiology identifying and discussing current trends in all forms of imaging. It also presents a roadmap for future changes in the field of radiology including digital radiology in fixed facilities and deployed medical facilities. This course will incorporate a minimum of 1-hour of instruction on corps specific tasks in a CBRNE environment.

Special Information: Course location USUHS, 4301 Jones Bridge Rd., Bethesda, MD 20814. How to enroll: Contact COMM: 210-916-4218.

6A-A0102
UNIFORMED DERMATOLOGY SEMINIAR (TRI-SERVICE)

Location School Code: 081 Length: 3 days

Description: This course is designed to develop and maintain a base of current military oriented dermatologic knowledge among military dermatologists. This unique fund of information, which includes battlefield dermatology, military occupational dermatology, and the medical response to nuclear, chemical, and biological warfare, is not emphasized any other annual dermatologic meeting. This course is also designed to encourage the free flow of new ideas pertaining to the diagnosis and treatment of dermatologic illnesses encountered in military dermatology practices, as well as efficient business practices in the military dermatologic clinic. Dermatologist who are stationed in the Medical Department Activity (MEDDAC) environment are targeted for attendance to this meeting, since this is often the only dermatology continuing medical education (CME) they can obtain during the year due to time and money limitations. This course will incorporate a minimum of 1-hour of instruction on corps specific tasks in a CBRNE environment.

Special Information: Course location 4301 Jones Bridge Rd., Bethesda, MD 20814. How to enroll: Contact COMM: 202-782-9481.

6A-A0106
AMEDD NEUROLOGY CONFERENCE

Location School Code: 081 Length: 3 days

Description: Update in clinical practice and scientific advances in neurological disorders, with topics that have direct application to readiness and to practice of neurology, neurosurgery and psychiatry at all levels of military medical care. This course will incorporate a minimum of 1-hour of instruction on corps specific tasks in a CBRNE environment.
Special Information: Course location: USUHS, 4301 Jones Bridge Rd., Bethesda, MD 20814. How to enroll: Contact COMM: 301-589-1175.

6A-A0107
AMEDD VASCULAR SURGERY SEMINAR

Location School Code: 081

Length: 3 days

Description: The Vascular Surgery Seminar is the only military vascular surgery meeting held in the DoD. This meeting focuses on military unique vascular surgery issues to improve combat casualty care. The course will review lessons learned from the care of vascular injuries during Operation Iraqi Freedom (OIF). The specific purpose is to identify successful strategies of vascular trauma management for combat casualties in the current conflicts. We additionally aim to identify current problems with the implementation of endovascular surgery in the military and report on the progress of the OIF Vascular Registry. Methods of data collection and analysis of vascular injuries using the Joint Theater Trauma Registry is a major goal of the seminar. Teaching methods will include case presentations, lectures and discussions. A resident paper competition will be held. This course will incorporate a minimum of 1-hour of instruction on corps specific tasks in a CBRNE environment.

Special Information: Course location: Bethesda, MD. How to enroll: Send DA 3838 to Department of Surgery, WRAMC, 6900 Georgia Ave., NW, Washington, DC 20307. COMM: 202-782-6592 or DSN: 662-6592; FAX: 202-782-3198.

6A-A0108
ANNUAL WRAMC CARDIOVASCULAR SURGICAL SYMPOS

Location School Code: 081

Length: 1 day

Description: All manner of techniques and procedures in cardiothoracic and vascular surgery.

Special Information: Course location: San Diego, CA 92103. How to enroll: Send DA 3838 to Landstuhl Regional Medical Center, CMR 402, Box 14, APO, AE 09180. COMM: 011-49-637-186-8199 or DSN: 590-8199.

6A-A0109
HAWLEY-BOWLAND POSTGRADUATE SHORT CRS OB/GYN

Location School Code: 081

Length: 1 day

Description: To educate Army providers of women's health care in the provision of optimal care to the female Soldier and other beneficiaries. The course focuses on those attributes of military health care that make it distinctly different from care rendered in a civilian setting, including inspiring patients' trust in the AMEDD and providing medical care in the deployed/austere environments. This course will devote time to corporate mission planning including access to care, balanced scorecard, healthcare effectiveness data and information set metrics, and/or venture capital initiatives. This course will incorporate a minimum of 1-hour of instruction on corps specific tasks in a CBRNE environment.

Special Information: Course location: The Westin, San Diego Hotel, 400 West Broadway, San Diego, CA 92101. How to enroll: Contact COMM: 253-968-5161.
6A-A0111
OPERATIONAL AEROMEDICAL PROBLEMS COURSE

Location School Code: 081  
Length: 4 days

Description: The Operational Aeromedical Problems (OAP) Course provides Army flight surgeons and aeromedical physician assistants with the changes in both aeromedical policy and in physical evaluation requirements, as well as new techniques and "best methods" available for conducting an effective aviation medicine program. The course addresses selected topics through both lectures and workshop seminars conducted by subject matter experts. Topics range from concerns and lessons learned in the field, to current prevention and screening methods, to policy changes and implementation. The OAP provides a necessary forum to work toward solutions for issues and problems common to the aeromedical community.

Special Information: Course location: Pensacola, FL  
How to enroll: Send DA 3838 to 301 Dustoff Ave., Fort Rucker, AL 36362  
COMM: 334-255-7409 or DSN: 558-7409; Fax: 334-255-7084.

6A-A0116
GARY P WRATTEN MILITARY SURGICAL SYMPOSIUM

Location School Code: 081  
Length: 3 days

Description: This is the AMEDD's annual general surgery conference, with an audience across active duty and reserve military surgeons, and civilian surgeons working within the AMEDD. This includes academic, clinical, and resident general/subspecialty surgeons. The program includes clinical and basic science papers, prominent guest speakers, a readiness session, and the Army (States) American College of Surgeons Committee on Trauma resident paper competition. This course will incorporate a minimum of 1-hour of instruction on corps specific tasks in a CBRNE environment.

Special Information: Course location: 8901 Rockville Pike, Bethesda, MD 20814.  
How to enroll: Send DA 3838 to Department of General Surgery, BAMC, 3851 Roger Brooke Rd., FSH, TX 78234.  
COMM: 210-916-0918 or DSN: 429-0918.

6A-A0119
JAMES C. KIMBROUGH UROLOGICAL SEMINAR

Location School Code: 081  
Length: 1 week

Description: Five day comprehensive urology course-both clinical and basic science; includes Tri-service resident research competition and mock oral boards; includes military unique curriculum and presentations from Army urologists deployed in OIF. This seminar is now the third largest meeting of urologists in the US. This course will incorporate a minimum of 1-hour of instruction on corps specific tasks in a CBRNE environment.

Special Information: Course location: Charleston Marriott, 170 Lockwood Blvd., Charleston, SC 29404.  
Contact COMM: 210-916-1163.

6A-A0124
MG PAUL H. STREIT MEMORIAL OTOLARYNGOLOGY SEM

Location School Code: 081  
Length: 2 days

Description: To provide a comprehensive review of the latest trends and techniques in a wide variety of otolaryngology topics. Subject matter experts will discuss in detail the latest updates in their respective areas of expertise in this comprehensive course that is sponsored in conjunction with the University of California at San
Francisco Otolaryngology Department. In addition, the course will focus on topics specific to military Otolaryngology including: Management of complex facial trauma in a combat environment; reconstruction of head and face combat injuries; acoustic trauma from combat blast injuries; and multi-institutional military research protocols. The course will include a minimum of 1-hour of instruction on corps specific tasks in a CBRNE environment.

**Special Information:** Course location: Moana Surfrider Hotel, 2365 Kalakaua Ave., Honolulu, HI 96815. How to enroll: Send DA 3838 to Otolaryngology, Tripler Army Medical Center, 1 Jarrett White Rd., Honolulu, HI 96859. COMM: 808-433-1086.

6A-A0125

**OCULAR TRAUMA COURSE**

**Location School Code:** 081 **Length:** 4 days

**Description:** Review and update military ophthalmologists on the management of eye trauma. This course will incorporate a minimum of 1-hour of instruction on corps specific tasks in a CBRNE environment.

**Special Information:** Course location: USUHS, 4301 Jones Bridge Rd., Bethesda, MD. How to enroll: Send DA 3838 to Ophthalmology Service, Walter Reed Army Medical Center (WRAMC), Washington, D.C. 20307. COMM: 202-782-8065, Fax: 202-782-6156.

6A-A0126

**ADVANCES IN INTERNAL MEDICINE**

**Location School Code:** 081 **Length:** 4 days

**Description:** This program is the only PPSCP oriented to the practice of internal medicine in the Army. It has combined several other IM subspecialty courses into one larger course to be more cost-effective, and serves the needs of the largest MC specialty community in the AMEDD, including those in brigade and flight surgeon positions. For the third time in 2009, this meeting was combined with the Air Force Chapter of the American College of Physicians. This plan will continue for the FY11 meeting. Military unique materials make up a significant portion of the curriculum. In 2009, dozens of presentations were given on military topics, including: "Fire Ants-the Good, the Bad, and the Ugly. "New Drugs for Malaria in an Era of Elimination", "COPD: A Reversible and Treatable Disease", "The Status of Cardiovascular Computed Tomography Angiography", "Pitfalls with Common Kidney Equations", "Colorectal Cancer Screening and Surveillance", "Subclinical Hypothyroidism", "Biologic Logic: making sense of current therapies in RA". Additional podium and poster presentations were given in various subspecialty break-out sessions.

Our specialty's acting manager from HRC was available for ORB reviews with all attendees. The Board of Regents of the American College of Physicians, was in attendance, and also provided updates on College activities and national health care policy issues.

Office of The Surgeon General consultants from cardiology, endocrine, gastroenterology, internal medicine, infectious disease, nephrology, and pulmonary were in attendance and provided updates on their respective subspecialty services.

**Special Information:** Course Location: Henry B. Gonzales Convention Center, San Antonio, TX 78205. How to enroll: Contact COMM: 253-477-3003.
6A-A0128
ARMY SOCIETY OF MILITARY ORTHOPEDIC SURGEONS

Location School Code: 081  
Length: 1 week

Description: The Society of Military Orthopedic Surgeons Meeting (SOMOS) annual meeting provides the venue for tri-service didactic education and peer after-action reports on the current in-theater standard of care for the triage, management, and disposition of patients with extremity wounds. This is the only forum for this detailed and concurrent exchange of information at an orthopedic specific level. The annual meeting is held at various locations based upon decisions by the civilian Executive Director of the Society. Through the use of voluntary tri-service and nationally renowned civilian clinical instructors, the meeting provides real-time clinical updates for deployed extremity care and lessons learned from CONUS medical centers.

6A-A0130
JOINT SVC SYMPOSIUM ON EMERGENCY MEDICINE

Location School Code: 081  
Length: 3 days

Description: This course will cover the latest advances in military emergency and combat medicine.

Special Information: Course location: San Antonio, TX. How to enroll: Contact COMM: 253-968-1250 or 877-537-3044.

6A-A0131
UNIFORMED SVC ACADEMY OF FAMILY PHYSICIANS

Location School Code: 081  
Length: 4 days

Description: This meeting will provide mission critical training for family physicians and other primary care providers responsible for medical support to Service Members, their Families, as well as retirees in garrison and downrange. The content and time allotted focuses on training that can only be provided face-face, ensures currency in operational medicine tactics, techniques, and procedures (TTPs) and compliance with requirements for licensure, board certification, and/or with the American College of Graduate Medical Education (ACGME) standards. Further it will align with the Army and Army Medicine's strategic objectives and current initiatives.

Special Information: Course location: Arlington, VA. How to enroll: Contact COMM: 804-968-4436 or Fax: 804-968-4418.

6A-A0133
UNIFORMED SERVICES PEDIATRIC SEMINAR

Location School Code: 081  
Length: 4 days

Description: This is an annual combined uniformed services (USA, USN, USAF and Public Health Corps) course in which leading pediatric experts (military and civilian) will use both didactics and interactive workshops to present a broad range of topics with a focused emphasis on operational readiness and peace time health care of relevance to military pediatricians. It comes at a time, with base realignment initiatives, where "jointness" is the future of military medicine. The curriculum includes topics such as humanitarian assistance operations, multiple CBRNE topics, effect of deployment on families and operational experiences, presentations on health care promotion, obesity, newborn screening and infectious disease, and best office based practices
relevant to the military pediatrician. Also included are multiple sessions focused on first-responder and office based emergencies involving newborns, child abuse, cardiology, endocrinology, toxicology, neurology, adolescents, orthopedics, urology, gastroenterology, and intensive care.

Research awards for outstanding research performed while on active duty, are given to staff and residents at this meeting, which is very important for maintaining the excellence of Army Pediatrics and its training programs. In addition, a number of leadership and achievement awards are given out to recognize the 'best of the best' and this has a tremendous impact on developing the leaders of the future.

In addition, this annual course always has sessions on updates in the state of military pediatrics, managing one's military career, and status of military pediatric training programs as well as updates in staffing and assignments for individuals and hospitals. Selected leaders in military pediatrics (program directors, department chiefs, and consultants) will attend a leadership and strategic planning session the day prior to the main meeting and interact with line pediatricians in a variety of formats (small group and individual meetings) designed to ensure communication between the leadership and the troops. These sessions are of special importance with the ongoing Global War on Terrorism (GWOT). These sessions are also designed for the leaders of the military's pediatric training programs to update requirements and share new ideas and information on how to improve their training programs. This course will incorporate a minimum of 1-hour of instruction on corps specific tasks in a CBRNE environment.

Special Information: Course location: Madigan Army Medical Center, 9040 Jackson Avenue, Tacoma, WA 98431. How to enroll: Contact COMM: 912-435-6277.

6A-A0134
POSTGRADUATE COURSE IN OPHTHALMOLOGY

Location School Code: 081 Length: 2 days

Description: The course is designed to provide an update to the practicing ophthalmologist on recent surgical and technological innovations in the field of ophthalmic surgery. A series of regional experts provide an update in their respective fields to broaden the knowledge base of the military ophthalmologist and prepare the graduating residents for solo practice. This course will incorporate a minimum of 1-hour of instruction on corps specific tasks in a CBRNE environment.

6A-A0135
AMEDD PHYS MEDICINE & REHABILITATION SHRT CRS

Location School Code: 081 Length: 2 days

Description: This course is designed as an update in Physical Medicine & Rehabilitation related topics. It will encompass a wide spectrum of military unique curriculum and standard patient care techniques. Teaching techniques will include traditional lecture and workshop formats.

Special Information: Course location: WRNMMC/USUHS. How to enroll: COMM: 202-201-916-0306 or 8901 Wisconsin Ave, Bethesda, MD 20889, 301-295-7752.
6A-A0137
PREVENTIVE MEDICINE OFFICERS' SHORT COURSE

Location School Code: 081   Length: 4 days

Description: Focuses on Army preventive medicine and force health protection issues during deployments and in garrison. Areas of concentration for FY09 were military occupational and preventive medicine for physicians; behavioral health; deployment healthcare; safety, health, and return-to-employment; health promotion for readiness; dental health promotion; health physics and nuclear/radiological medical sciences; veterinary medicine; science and technology; and occupational and environmental health sciences and engineering. Provides military-specific CME credits for physician licensure and credentialing. Provides a military-specific curriculum that is not available in civilian preventive medicine courses or meetings. Teaching methods include didactic lectures (plenary and breakout sessions), hands-on exercises, and panel discussions. This course will incorporate a minimum of 1-hour of instruction on corps specific tasks in a CBRNE environment.

Special Information: Course location: Town & Country Resort, 500 Hotel Circle North, San Diego, CA 92108. Contact COMM: 253-967-9767.

6A-A0150
AMEDD BEHAVIORAL SCIENCE POSTGRADUATE COURSE

Location School Code: 081   Length: 4 days

Description: A multidisciplinary (physicians, psychologists, social workers, chaplains, psychiatric nurses, and other behavioral health professionals) conference open to tri-service, VA, Reservists and National Guardsmen with a curriculum organized to provide annual updates on military and veteran unique mental health issues, operational and deployment medicine, TRICARE utilization, graduate medical education, Veterans Administration and DoD collaboration, utilization management, military retention and recruitment, and other service connected behavioral health topics. A combination of formats to include plenary sessions, lecture & small group seminars will be offered.

This course will incorporate a minimum of one hour of instruction on Corps specific tasks in a CBRNE environment.

Special Information: Course location: Town & Country Resort, 500 Hotel Circle North, San Diego, CA 92108 How to enroll: Send DA 3838 to Department of Psychiatry, TAMC, 1 Jarrett White Rd., COMM: 808-433-6406 or DSN: 433-6406, FAX: 808-433-4591.

6A-A0157
ARMY ANESTHESIOLOGY UPDATE

Location School Code: 081   Length: 1 day

Description: This course provides Army anesthesiologists an update on the state of the population, HRC updates and a review of ongoing educational endeavors using conference style lectures. This course will incorporate a minimum of 1-hour of instruction on corps specific tasks in a CBRNE environment.

Special Information: Course location: BAMC, 3500 Roger Brooke Drive, FSH, TX 78234 Contact COMM: 210-916-5594.
**6A-A0158**
**COMBAT EXTREMITY SURGERY COURSE (CESC)**

**Location** School Code: 081  
**Length:** 2 days

**Description:** AMEDD active duty and RC Orthopedic, General, and Vascular surgeons and surgical residents in training are presented a curriculum which details the resuscitation, stabilization, and management of battlefield extremity injuries. During this 2 day course, emphasis is placed on initial management and stabilization of patients with extremity war injuries. Focus is surgical care provided at the FST and CSH levels of care and Navy and Air Force equivalents prior to evacuation out of theater. Didactic and hands-on cadaveric laboratory training on extremity fasciotomies, external fixation, revascularization, limb amputation, and limb salvage techniques in the theater of operations is also provided. Emphasis is also directed toward the soft tissue reconstruction (limb-salvage) of host-national patients receiving their definitive surgical care from the US military in the theater of operations.

**Special Information:** Course location: Fort Carson, CO and NMCSD, CA  
How to enroll: Send DA 3838 to Army Trauma Training Center, Miama, FL  
33136 COMM: 915-433-8110.

6E-A0513
PHYLLIS J. VERHONICK RESEARCH SHORT COURSE

Location School Code: 081  Length: 4 days

Description: This short course is the first introduction of ANC officers to broad base leadership concepts with other military and civilian nurses. Provides a course of instruction to foster leadership ideals as well as to disseminate and use of research in nursing clinical practice (deployment, garrison), education, and administration.

Special Information: Course location: San Antonio TX How to enroll: Send DA 3838 to 3851 Roger, BAMC, MCHE-CI, FSH TX 78234-6200 COMM: 210-916-2444 or DSN: 429-2444, FAX: 210-916-0927.

6E-A0525
COL C.J. REDDY LEADERSHIP SHORT COURSE

Location School Code: 081  Length: 4.5 days

Description: Develop nursing leadership of future AMEDD leaders. Addresses leadership in both the clinical and administrative realms.

6E-A0527
CLINICAL ISSUES IN MILITARY NURSING PRACTICES

Location School Code: 081  Length: 2 days

Description: This course provides key training for the consultants in order to serve in the advisory positions critical to the management and leadership of the AMEDD.

Special Information: Course location: FSH, TX. POC: 3630 Stanley Rd, FSH, TX 78234 COMM: 210-221-8661 or DSN: 471-8661.

6E-A0528
ARMY NURSE CORPS REGIONAL NURSING COURSE

Location School Code: 081  Length: 3 days

Description: This course will provide individual and collective training requirements to meet the ANC mission of providing responsive, innovative, and evidenced based nursing care which enhances readiness, preserves life/functions, and promotes health and wellness.

Special Information: Mailing Address: 3490 Forage Rd, FSH, TX 78234. Phone: DSN 421-0274 COMM: 210-295-0274 Fax: 210-221-2831.
6G-300/A0306
MILITARY VETERINARY MEDICAL SEMINAR

Location School Code: 081

Description: This course is designed to equip Veterinary Corps Officers with up to date knowledge which enables them to provide veterinary public health capabilities needed to support the National Defense Strategy. Lecture format is used.

Special Information: Course location: FSH, TX How to enroll: Send DA 3838 to Department of Veterinary Science, AMEDDC&S, 3630 Stanley Rd., FSH, TX 78234-6145 COMM: 210-221-8149 or DSN: 471-8149.

6G-A0307
MILITARY VETERINARY FADD COURSE

Location School Code: 081

Description: This course is designed to prepare VC Officers (VCO) to diagnose, control and eradicate foreign animal diseases which are currently non-existent in CONUS, but definitely present in countries of engagement for Military Operations Other Than War. In addition, these diseases pose a threat to national security through intentional and unintentional introduction into the United States. This course prepares VCOs to support Defense of Civil Authorities (DSCA) operations in such a scenario. Foreign animal diseases (FADs) are transmissible diseases that have the potential for serious and rapid spread, irrespective of national borders. These FADs have serious public health and/or socioeconomic consequences. The FADs may infect people or the human food chain accidentally or intentionally through infected animals, meat or animal by-products. Exposure to a FAD could have devastating effects on deployed troops and/or the US military food supply chain. Lecture, demonstrations, practical exercises, clinical examinations, laboratories and the performance of necropsies will be conducted.

Special Information: Course location: Greenport, N.Y 11944 How to enroll: Call COMM: 210-221-8149 or DSN: 471-8149.

6G-A0308
RESEARCH & DEVELOP MILITARY VETERINARY MED

Location School Code: 081

Description: This symposium provides an update of VC and VS responsibilities and opportunities in DoD research and development (R&D). The central theme of this course is to expose attendees to the emerging trends in science and technology used to support the DoD R&D mission. This theme is overlaid with presentations and discussions about the various VC R&D specialists, and how they contribute to the readiness and sustainment mission. Subjects addressed are the R&D needs of the services (USA, USN, and USAF): How emerging technologies are being leveraged to fulfill those needs; DoD research facilities and their missions; and training opportunities, responsibilities, and typical career models of the various R&D specialties. Subjects are selected based on current scientific activities in military biomedical research and operational requirements for VS personnel within this arena. Lectures, small group discussions, laboratory and practical exercises, and site visits are used for instructional purposes. This course will incorporate a minimum of 1-hour of instruction on corps specific tasks in a CBRNE environment.

Special Information: There is no special information available at the time of this publication; please review ATRRS at https://www.atrrs.army.mil/ for updated information.
6G-A0312
VETERINARY SUPPORT TO STABILITY OPERATIONS

Location School Code: 081

Length: 1 week

Description: A two part workshop series intended to provide early to mid-career VC officers the critical skills, competencies and knowledge required to provide tactical and operational support through all phases of stability operations. Civil-Military cooperation, inter-agency coordination, inter-service cooperation, after action reports and lessons learned format/composition are addressed and discussed in both workshops. Instructors will be drawn from military, academia, interagency partners and civilian sector with extensive knowledge of civil affairs activities and agribusiness development. Adult learning principles are followed. Material is presented through class room presentation; break out working groups, and hands-on practical exercises. University of Georgia College of Veterinary Medicine faculty will host the workshop with core instructors coming from NC State University College of Veterinary Medicine.

Special Information: Athens, GA. Attendees will be selected based on individual application and as designated by the Veterinary Corps Branch HRC and CSBPO. Eligible Active Duty AOC's are 64A/B/C/F/D/E. RC officers in the same AOC's may attend. POC: 4270 Gorgas Cir, Bldg. 1070, FSH, TX 78234-2639 210-221-6858 DSN 471-6858.

6H-300/A0406
SPERANDIO, PLAN OPERATIONS, INTELLIGENCE, TNG

Location School Code: 081

Length: 3 days

Description: The course will include the latest in operational medicine planning and support techniques and procedures. This includes a broad range of topics by subject matter experts on each area. Presentations via lectures, discussion groups and workshops will provide participants cutting edge knowledge of best practice methodologies.

6H-300/A0408
PHARMACY OPERATIONS COURSE

Location School Code: 081

Length: 1 week

Description: The Pharmacy Operations Course is the only short course dedicated to specific Pharmacy operations that focuses on developing critical knowledge, skills and attributes required to lead Pharmacy operations and successful achievement of PROFIS/MTF Pharmacy measures of performance and effectiveness. The course is taught on base utilizing DoD Instructors with no registration costs, and each student receives approximately 31.25 of Accreditation Council of Pharmacy Education (ACPE) Continuing Pharmacy Education credits. The course supports the Surgeon General's Priority of "Ready and Deployable Medical Force", supports the Army Pharmacy Strategic Plan of Building Our People, serves as the Junior Pharmacy Officers' and NCO's Program of Enhancement course for follow-on Company grade assignments.

Special Information: For application procedures contact the project officer at 210-808-2208. DSN 420
CLINICAL LABORATORY MANAGEMENT ASSOCIATION

Location School Code: 081  
Length: 4 days

Description: CLMA Knowledge Lab is a 4 day annual event that provides a forum to address key issues concerning laboratory medicine, legislation, accreditation, technological innovations and laboratory leadership challenges for both the civilian sectors and DoD. Attendees have the opportunity to participate in workshops and round table discussions with industry leaders, colleagues and peers on these topics. There is also an exhibit hall where current and new laboratory instruments, supplies, Information Technology and other products are on display for attendees to view with product managers on hand for any questions and demonstrations.

Special Information: Attendance is by a nomination and selection process. For additional information, contact AMEDDC&S, 2748 Worth Rd., Ste. 103151, FSH, TX 78234 COMM: 210-808-8531.

ARMY MEDICAL EVACUATION

Location School Code: 081  
Length: 1 week

Description: The purpose of the course is to teach current evacuation concepts and doctrine, update safety and standardization regulations, review changes in equipment, brief lessons learned from Combat Training Center and current operations through lectures in plenary sessions and discussions in workshops. This course will incorporate a minimum of 1-hour of instruction on corps specific in a CBRNE environment.

Special Information: There is no special information available at the time of this publication; please review ATRRS at https://www.atrrs.army.mil/ for updated information.

PROFESSIONAL POST-GRAD HEALTH CARE LOGISTICS

Location School Code: 081  
Length: 3.5 days

Description: To provide professional development and continuing education for the AMEDD’s healthcare logistics officers, warrant officers, senior non-commissioned officers, and civilians in a Joint Service environment.

Special Information: Contact the following for course enrollment information:  MEDCOM HQS ATTN: MCLO, 2748 Worth Rd. Ste. Suite 8 Room 333, FSH, TX 78234 DSN: 471 COMM: 210-221-6044.

MANAGEMENT OF BURNS AND MULTIPLE TRAUMA

Location School Code: 081  
Length: 1 week

Description: This course is designed for participants from all AMSC AOCs to enhance their military readiness in the management of Burn and Multiple Trauma casualties.

Course participants will receive didactic training on the management of burn and multiple trauma injuries from point of injury to reintegration with topics including: appropriate burn wound care, inpatient and outpatient burn rehabilitation, amputee management, amputee rehabilitation, prosthetic use, TBI care, nutrition care, and management of fractures. Special emphasis will be placed upon minimizing devastating and lifelong disability
and maximizing functional outcomes. An opportunity is also provided for those who wish to acquire certification in Advanced Burn Life Support.

**Special Information:** 3698 Chambers Pass, FSH, TX 78234-6315. Send DA 3838 to: DHET, 2421 Hood St., Ste. B., FSH, TX 78234-6315 COMM: 210-295-9428 or DSN: 471-9428.

**6H-300/A0618**
**JOINT ADVANCED NUTRITION AND DIETETICS**

**Location School Code:** 081  
**Length:** 12 weeks

**Description:** This course is designed to enhance the skill set of the mid-level nutrition services manager and their extenders. It provides the foundations of clinical, leadership, and management skills necessary to successfully perform nutrition service operations. Subject matter experts from a variety of backgrounds and experience will provide this advanced training in person and/or via distance learning. The curriculum includes Department of Defense, Military Health System, and MEDCOM program initiatives which support the role of nutrition in transforming the healthcare system to a system for health. This course awards a maximum of 25 hours of CME to attendee if all blocks are completed.

**Special Information:** POC COMM: 210-221-6747 DSN 471-6747.

**6H-300/A0619**
**JOINT FIELD NUTRITION OPERATIONS COURSE**

**Location School Code:** 081  
**Length:** 1 week 3 days

**Description:** This course is designed to provide Army, Army Reserve, National Guard, Air Force and Navy dietitians and their enlisted counterparts with information and hands on training in order to provide optimum nutrition care in the field environment. This course teaches current concepts/doctrine along with providing practical experience in the Army medical field feeding and nutrition support.

**Special Information:** Camp Bullis, TX How to enroll: Send DA 3838 to Dietitian Section, AMSC, 3151 Scott Rd., FSH, TX 78234-6138 COMM: 210-808-6554.

**6H-300/A0620**
**MANAGEMENT OF COMBAT STRESS CASUALTIES**

**Location School Code:** 081  
**Length:** 1 week 2 days

**Description:** This course prepares participants to work effectively in the nine functional mission areas of Combat and Operational Stress Control (COSC). The intended audience is Army behavioral health personnel, but is open to behavioral healthcare providers of the Navy, Air Force, and Public Health Service. Going beyond typical classroom instruction, this course employs experiential learning via rotating leadership positions, student lead presentations, employing course participant led traumatic event management techniques, and the conduction and presentation of unit needs assessments. Casualty management scenarios are conducted throughout a continuous operations field training exercise in a simulated forward operating base environment. Instruction is conducted under austere conditions at Camp Bullis, Texas. The course utilizes a scenario driven exercise, placing course participants in a notional deploying Medical Detachment Combat Stress Control (CSC). From the time of reporting for training, students function in staff and leadership positions as a member of a deployed COSC Team. Included in the course are 12 hours of Comprehensive Soldier Fitness-Performance and Resilience Enhancement Program (CSF-PREP) training provided by Performance Enhancement Specialists (PES). The didactic and experiential application of the Performance Education Model allows participants to
acquire and apply performance enhancements skills toward professional and personal lives. Incorporated in the MCSCC is 8 hours of experiential application of Traumatic Event Management from training specialists assigned to the Traumatic Event Management Office, AMEDDC&S.

Special Information: Location: Camp Bullis, TX How to enroll: Send DA 3838 to ATTN: MCCS-CA, 3630 Stanley Rd., Ste. 282, FSH, TX 78234-6100 COMM: 210-221-5324 or DSN: 471-5324, Fax: 221-4447.

6H-300/A0624
AMSC STRATEGIC ISSUES AND LEADERSHIP COURSE

Location School Code: 081 Length: 3.5 days

Description: This course facilitates the accomplishment and validation of the Strategic Plan as it relates to Army Medicine. Additionally, this course serves as an educational platform for specific Corps officers and selected enlisted to broaden their knowledge and facilitate the development of key initiatives to accomplish the strategic objectives. This course specifically includes the members of the Strategy Advisory Board (SAB) and the Strategy Advisory Council (SAC), who recommend, develop, implement, and evaluate the Strategic Plan. The SAB and the SAC provide corps leadership the ability to conduct corps strategic business and prioritize initiatives or actions at the corps executive levels. This course is most effective when combined with an AMEDD-wide conference such as the Medical Symposium, thereby capitalizing on attendees' time and resources in an existing and long-standing conference setting.

6H-300/A0801
MEDICAL MINISTRY SPIRITUAL HEALTH

Location School Code: 081 Length: 1 week

Description: This course provides Unit Ministry Team personnel ministry skills that will help them perform as Emergency Medical Pastoral Care Team. Environment taxes the spiritual health of UMT members potentially overwhelming their ability to respond to trauma and crises of Soldiers It will enable them to assess the spiritual health needs of a Hospital Health care team member. The Medical Ministry Short Course focuses on short-term spiritual assessment, intervention, and emphasis on short-term interactions with team members.

Special Information: Course location: FSH, TX How to enroll: COMM: 210 221-8387 or DSN: 471-8516.

6H-300/A0804
MEDICAL MINISTRY SUBSTANCE ABUSE

Location School Code: 081 Length: 1 week

Description: This course provides Unit Ministry Team personnel increased knowledge and understanding of addiction, the spiritual aspects of addiction and recovery, and determine ways to apply their learning to personal ministries and broader systematic applications. Instruction includes medical, developmental, social, and cultural issues attendant to addiction, and pastoral care issues of addiction recovery.

Special Information: All travel costs funded by the unit. Contact Department of Pastoral Ministry for enrollment information. COMM: 210 221-8609 or 221-8387. DSN: 471-8609. Fax: 210-221-8387.
6H-300/A0811
MEDICAL MINISTRY SUPERVISION MANAGEMENT

Location School Code: 081  
Length: 1 week

Description: The purpose of this course is to produce Chaplains knowledge and skills associated with Clinical Pastoral Education Supervision. Evaluating the ability to perform healthcare ministries through crises and stress management at the senior level. Students will emphasize developed skills in traumatolgy, compassion fatigue, ministering to medical staff, families and children who may be dealing with unique circumstances of life in the military.

Special Information: All travel costs are at unit expense. Contact Department of Pastoral Ministry for enrollment information. COMM: 210 221-8609 or 221-8387. DSN: 471-8609. Fax: 210-221-8387.

6H-300/A0816
MEDICAL MINISTRY SR/MORAL INJURY

Location School Code: 081  
Length: 1 week

Description: The course explores the foundational theory of trauma from spiritual, psychological, and physiological approaches with special emphasis on spiritual trauma, post-traumatic soul wounding and pastoral approaches to trauma. Provides Chaplains and Chaplain Assistants-UMTs an interactive workshop approach to assisting traumatized persons and their support system with resiliency, self-care, reintegration knowledge, skills and abilities. Methodology includes practical exercises, role playing, case studies, and personal experience.

Special Information: Contact Department of Pastoral Ministry for enrollment information. COMM: 210 221-8609 or 221-8387. DSN: 471-8609. Fax: 210-221-8387.

6H-A0203
ORAL PATHOLOGY ORAL DIAGNOSIS & ORAL MEDICINE

Location School Code: 081  
Length: 4.5 days

Description: The course is designed to provide the general practitioner of dentistry with a review of established diagnostic and treatment procedures as they apply to pathologic conditions affecting the oral and perioral tissues. When appropriate, recent advances in diagnosis and treatment methodology will be introduced. Differential diagnosis will be stressed and the clinical and laboratory procedures essential to definitive diagnosis and patient management will be reviewed.

Special Information: Course location: Bethesda, MD/WRAMC How to enroll: Send DA 3838 AMEDDC&S MCCS-HED, Graduate Dental Education, 2450 Greeley Rd. ATTN: MCCS-HED, FSH, TX 78234 COMM: 210 221-0079 or DSN: 471-0079 FAX: 471-2832.

6H-A0204
ORAL AND MAXILLOFACIAL SURGERY

Location School Code: 081  
Length: 4.5 days

Description: The purpose of this course is to provide a comprehensive review of the principles and the practice of oral surgery to prepare dental officers for their role in modern warfare. The program stresses following review of problems and complications in exodontia and oral surgery; the emergency treatment, evacuation, and definitive care of patients with traumatic injuries of the maxillae, mandible, and facial bones associated with the dental arches; diagnostic procedures, anesthesia and extraoral roentgenographic techniques for oral surgery;
differential diagnosis of infections of the mouth, head, and neck; dentoalveolar surgery, control of hemorrhage, diagnosis and treatment of shock, tracheotomy; and management of maxillary sinus complications associated with oral surgery procedures. The pathology and treatment of oral keratoses, odontogenic cysts and tumors as well as the role of the dentist in the management of benign and malignant oral lesions is discussed. Principles and trends in antibiotic and chemotherapy receive considerable attention.

**Special Information:** Course location: Primary: Fort Sam Houston, TX. How to enroll: Send DA 3838 to Graduate Dental Education, 2421 Hood St., Ste. B, FSH, TX 78234 COMM: 210 221-0079 or DSN: 471-0079 FAX: 471-2832.

**6H-A0208**

**COMPREHENSIVE GENERAL DENTISTRY**

**Location School Code: 081**

**Description:** This course reviews and updates general practitioners on significant advances in restorative dentistry and dental materials, reviews biomechanical principles and highlights recent advances in clinical techniques. This course will provide the general dentist increased knowledge and proficiency when providing comprehensive care for military beneficiaries. Attendees attending this course will earn between 18-24 Continuing Education Credits.

**Special Information:** Course location: San Antonio, TX How to enroll: Send DA 3838 to Graduate Dental Education, AHS, 2450 Greeley Rd., FSH, TX 78234 COMM: 210 221-0079 or DSN: 471-0079 FAX: 471-2832.

**6H-A0213**

**FEDERAL SERVICES DENTAL EDUCATORS COURSE**

**Location School Code: 081**

**Description:** The annual Federal Services Dental Educators Course is designed to provide training in recent techniques, trends, advances and problems in postgraduate dental education for teaching chiefs, consultants, and staff officers associated with residency training programs. Emphasis will be placed on the unique aspects of managing dental residency programs and training dental residents within a military system.

**Special Information:** Course location: San Antonio, TX How to enroll: Send DA 3838 to Graduate Dental Education, AHS, 2421 Hood St., Ste. B, FSH, TX 78234 COMM: 210 221-9604/0079 or DSN: 471-9604/0079 FAX: 471-2832.

**6H-A0225**

**ARMY DENTAL LABORATORY (ADL) SHORT COURSE**

**Location School Code: 081**

**Description:** The Army Dental Laboratory (ADL) course is a 2 and one half day course which allows training and familiarization of the intense rigors of the Army Dental Laboratory. This course acquaints the General Dentist with the daily operation of the US Army's only centralized large production dental laboratory. The purpose of the course is to review the Corporate Dental Application (CDA) Lab Module, submissions, standards, product options, and presentations of the latest development in dental laboratory technology and equipment to include CAD/CAM and digital impressioning options. The participants will participate in the educational experience in order to obtain an extremely broad diverse clinical experience. The goals are to familiarize participants with the multi-disciplinary approach to the Army Dental Laboratory. The Army Dental
Laboratory is a factory that uses high cost precious metals, porcelain, and zirconia blocks. Precious metals are bought at market value, which the ADL uses with equipment in an industrial setting versus a clinic setting. Participation in the course is designed to allow the student to be exposed to the rigors of satisfying the demanding educational requirements of the CDA. Instruction is also designed for multi discussions on the basic prosthodontics principles and dental materials. The participants will be provided with experience in partial denture frameworks. The course is sponsored and held at the Army Dental Laboratory at Fort Gordon, GA.

**Special Information:** Course location: Fort Gordon, GA. POC: Graduate Dental Education, Bldg. 4011, FSH, TX 78234 COMM: 210-295-9604 or DSN: 471-9604.

**6H-A0226**
**ENDO/PERIO/PROSTH**

**Location School Code:** 081  
**Description:** The course is designed to stimulate the restorative dentist to incorporate endodontics, periodontics, and prosthodontics as an integral part of their everyday clinical practice. Emphasis is placed upon functioning within the military environment. The course will review the etiology, prevention, diagnosis, and treatment of pulpal and related periodontal diseases. Biomechanical principles, techniques and recent developments in endodontics and related fields will be presented. The relationship of endodontics to other disciplines of dentistry will be reviewed. The course will also acquaint the restorative dentist with the basic fundamentals of periodontics, the relation of periodontics to other dental disciplines (specifically endodontic, prosthodontics, and orthodontics), and the clinical application of periodontics into the practice of military general dentistry. The course will focus on all facets of contemporary periodontics with an emphasis on the multi-disciplinary approach to patient care. Presentations will discuss the accurate diagnosis and treatment planning of cases involving periodontal disease, periodontal plastic surgery, pre-prosthetic surgical intervention, and implant site development/placement. In addition, the course will acquaint the restorative dentist with current trends, techniques and materials in prosthodontics and to demonstrate the interdisciplinary approach to comprehensive prosthodontic treatment and treatment planning. Lectures topics include CAD-CAM restorations, implant prosthodontics, complex prosthodontic treatment planning, esthetic evaluation and treatments, soft tissue esthetics, and laboratory procedures. Discussion periods will be held daily to encourage general participation in the course. One half day is devoted to a hands-on portion where participants will have the opportunity to perform clinical and laboratory procedures in a controlled environment.

**Special Information:** POC for this course: Graduate Dental Education, DSN 471-0079 COMM: 210-221-0079.

**6H-A0402**
**AMEDD RESEARCH PSYCHOLOGY POSTGRADUATE SHORT**

**Location School Code:** 081  
**Description:** Review current trends and needs in Army Research Psychology.

**Special Information:** Location: Aberdeen Proving Ground, War Room 1W81, 503 Robert Grant Ave., Silver Spring, MD 20910 POC: COMM: 301-319-9809 DSN: 343-319-9809

**HEALTH FACILITY LIFE CYCLE ACQUISITION**

**Location** School Code: 081 **Length:** 4 days

**Description:** The Health Facility Life Cycle Acquisition course is intended to provide professional training and education to the architects, engineers, facility planners, biomedical equipment planners, clinicians, and health systems planners responsible for the planning, design, construction and sustainment of USA health facilities worldwide, valued at over $7.3 billion. This Army sponsored course also provides the only dedicated forum for information exchange between health facility professionals from the DoD, USN, USAF and other key federal and civilian health organizations. The course format is designed to instruct, consult and exchange methodologies on health facility planning. The facility life cycle acquisition and program components of sustainment, renewal, and replacement are specific elements of training. Planning for advanced medical equipment and sophisticated health care delivery systems projected more than 20 years into the future, requires a continuous self-educating endeavor. This course supplements that individual educational process with directed group training and interactive workshops on programming and master planning processes, project validation, design, construction, transition, and Operations and Maintenance Defense major repair lessons learned, and senior leadership visions. Additionally, the Health Facility Life Cycle Acquisition course has a substantial readiness training component wherein interactive workshops, practical exercises and didactic sessions are employed to prepare and maintain the special facility planning skills necessary to support deployments under all war and other than war scenarios.

**Special Information:** The CHE credits will be awarded upon completion of the course. Course location: San Antonio, TX How to enroll: Send DA 3838 to USA Health Facility Planning Agency, 5109 Leesburg Pike, Ste. 679, Falls Church, VA 22041-3258 COMM: 708-681-8215 or DSN: 761-8215.
6H-A0423
AMEDD WORLDWIDE PERSONNEL

Location School Code: 081
Length: 1 week

Description: To provide a mentally challenging opportunity to expand on the magnitude of information and knowledge personnel officer must acquire and retain to support Force XXI. This course will incorporate a minimum of 1-hour of instruction on corps specific tasks in a CBRNE environment.

Special Information: There is no special information available at the time of this publication; please review ATRRS at https://www.atrrs.army.mil/ for updated information.

6H-A0427
MEDICAL ENTOMOLOGY TRAINING COURSE

Location School Code: 081
Length: 1 week

Description: Workshop is targeted to all DoD Pest Management Personnel.

6H-A0430
ANNUAL TRI-SERVICE PODIATRY SEMINAR

Location School Code: 081
Length: 4 days

Description: This course will include the latest in surgical and alternative therapies. This includes a broad range of topics on fore foot, rear foot and reconstructive surgical procedures, which will be presented by the top national and local authorities on each topic. There will be presentations via lectures, discussion groups and workshops.

Special Information: The CHE credit will be issued upon completion of the course. How to Enroll: Send DA 3838 to Eisenhower Army Medical Center, Fort Gordon, GA COMM: 706-787-1867/9146 or DSN: 773-1867/9146, FAX: 773-8087.

6H-A0431
FEDERAL SERVICE OPTOMETRY SEMINAR

Location School Code: 081
Length: 2 days

Description: This course provides an opportunity for USA, USN, USAF, US Public Health Service, ARNG, USAR, and VA Optometrists to exchange information and solutions in the delivery of primary eye care in the Federal Service community. The military services unique concerns in readiness, training, technical support, and delivery of eye care in a field environment are explored. Continuing optometric medical education, with special emphasis on military topics is provided to support not only the field mission, but to satisfy necessary service mandated optometry licensure requirements. Service respective career management and chief consultant issues and information are disseminated at this time.

Special Information: Course location: San Francisco, CA How to enroll: Send DA 3838 to DMS, 3151 Scott Rd., FSH, TX 78234. Contact COMM: 210-295-4425.
6H-A0435
AMEDD BEHAVIORAL SCIENCE (SOCIAL WORK)

Location School Code: 081 Length: 1 week

Description: This course is designed to familiarize military social worker, psychologist, and psychiatrists with current issues facing the AMEDD. Major content areas include division/brigade level operations, combat stress control, PTSD, Traumatic Brain Injury, family advocacy, wellness, and specialty issues.

6H-A0438
PROFESSIONAL POST-GRAD HEALTH CARE LOGISTICS

Location School Code: 081 Length: 5 days

Description: Professional development/CE for AMEDD's healthcare logistics officers, civilians, warrant officers and senior noncommissioned officers.

Special Information: Send DA3838 to POC: 5109 Leesburg Pike, Ste. 668, Falls Church, VA 22041 COMM: 703 681-8233 or DSN: 761-8233.

6H-A0439
MSC COMPANY GRADE LEADER DEVELOPMENT COURSE

Location School Code: 081 Length: 1 week

Description: To provide a challenging professional development/continuing education opportunity, for Company Grade Medical Service Corps Officers, in order to expand their knowledge and proficiency in support of the Objective Force and leader development.

Special Information: Location: JBSA, FSH, TX How to enroll: Send DA 3838 to Office of the Chief, MSC, 3630 Stanley Rd., Ste. 276, FSH, TX 78234-6170 COMM: 210-221-8531.

6H-A0606
COL DOUGLAS A. KERSEY ADV CLIN & OPS PRACTICE

Location School Code: 081 Length: 1 week 1.5 days

Description: This joint-service career development course is designed to teach participating DoD/VA Physical Therapists advanced neuromusculoskeletal evaluation and treatment techniques and is in direct support of the Army Medicine mission and maximizing mission critical skills to support the Warfighter. This course is now redesigned and serves as the cornerstone and hands-on portion of the new certificate and CEU producing residency in military musculoskeletal physical therapy. The curriculum includes advanced training on emerging topics of the cervical, thoracic and lumbo-sacral spine, the shoulder, hip, knee, and ankle and leverages an associated web-based 15 hour online prerequisite training course to maximize the efficiency of the on-site education. Emphasis will be placed on evidenced-based practice from the clinic to the battlefield in the evolving strategic environment. This course brings participants to an advanced level of understanding in primary care/general medicine topics (differential diagnosis, pharmacology, orthopedics, and radiology) in order to maximize their physician-extender role in MSK management. Methodology will include web-based online content delivered before and after intensive on-site training, practical demonstration, and comprehensive lab experiences in anatomy, manipulation, dry needling, and sports medicine/acute battlefield approaches. This
course is part of the required curriculum for both the BAMC Ortho Doctor of Science program and the West Point Sports Medicine Doctor of Science program. Due to the ongoing changes in medical science and military strategy, and the need to continually update this course, participants will be allowed to apply and attend the course more than once. However, selected participants must wait a minimum of 3 years before again attending the course.

Special Information: Course location: AMEDDC&S, FSH, TX  DPT Program, Graduate School, ATTN: MCCS-HGP, AMEDDC&S, FSH 78234. COMM: 210-221-8410.

6H-A0609
EVAL & TREATMENT OF UPPER EXTREMITY CONDITION

Location School Code: 081  Length: 2 weeks 2 days

Description: This course is an introduction to the process of upper extremity neuromusculoskeletal evaluation and treatment. This course is the second phase of a 3-phased training program that culminates in the awarding of the 7H ASI for Army Occupational Therapists. It is designed to prepare occupational therapists to function in the role of physician extender (which is governed by AR 40-68). The course consists of lectures, demonstrations, anatomy lab, surgical observation, videotapes, case studies, and clinical experience. During the course, the participants will be tested on their knowledge of upper extremity anatomy and orthopedic terminology, evaluate acute upper extremity injuries, present a case to an orthopedic surgeon and complete a practical examination.

Special Information: Location: San Antonio Military Medical Center, 3551 Roger Brooke Dr., FSH, TX 78234-6200 COMM: 210-808-2231.

6H-A0614
MARY LIPSCOMB HAMRICK RESEARCH

Location School Code: 081  Length: 2 weeks 2 days

Description: This course is designed as a scientific forum to educate AMSC officers on the broad competencies for planning and conducting clinical research, securing external funds, publishing in peer-reviewed scientific journals, study presentation at state and national conferences, and to provide an environment for exchange of research ideas and findings in preparation for research projects in clinical practice.

Special Information: Location: San Antonio, TX How to register: Send DA3838 to AHS, AMEDDC&S, 3599 Winfield-Scott Rd, Attn: Grad Program in Nutrition, FSH, TX 78234 COMM: 210 221-8746 or DSN: 471-8746 .

6H-A0625
EUROPEAN PHYSICIAN ASSISTANT REFRESHER COURSE

Location School Code: 081  Length: 1 week

Description: This course concentrates on health prevention and health maintenance within the areas of primary care, emergency medicine, orthopedics, surgery, occupational health, pediatrics, and operational medicine for PAs. Funds may be sent by a Reimbursable Military Interdepartmental Purchase Request to the hosting unit to cover the costs associated with PAs attendance.

Special Information: Location: Garmisch, Germany How to enroll: Send DA 3838 to CMR 411 Box 2211, APO AE 09112 COMM: 011-49-9662835469 or DSN: 476-5469.
PHYSICIAN ASST READINESS & RECERTIFICATION

Description: This course is designed to provide CME accredited instruction in topics related to operational medicine, emergency medicine, internal medicine, ambulatory care, surgery, pediatrics, and preventive medicine in preparation for PA attendees who will sit for the PA's National Recertification Exam. Also, operational readiness issues, strategic planning, officer development and combat developments will be discussed.

Special Information: Course location: San Antonio, TX How to register for this course: Send DA3838 to Chief, PA Section, ATTN: MCC-HGE-PA, Building 2841, Room 1209, 3630 Stanley Rd. AMEDDC&S, FSH, TX 78234 COMM: 210-221-7483 or DSN: 471-7483 FAX: 221-8493.

EMERGENCY MED PHYSICIAN ASSIST BASIC SKILLS

Description: This is a one-week, 60-hour, on-site course, conducted at William Beaumont Army Medical Center, Fort Bliss, TX, Carl Darnall Army Medical Center (CDAMC), Fort Hood, TX, Madigan Army Medical Center (MAMC), Joint Base Lewis-McChord, WA, San Antonio Military Medical Center (SAMMMC), JBSA, TX, Blanchfield Army Community Hospital (BACH), KY, Evans Army Community Hospital (EACH), Fort Carson, CO, Fort Belvoir Community Hospital (FBCH), Fort Belvoir, VA, Womack Army Medical Center (WAMC), Fort Bragg, NC, General Leonard Wood Army Community Hospital (GLWACH), Fort Leonard Wood, MO, Bayne-Jones Army Community Hospital (BJACH), Fort Polk, LA, Winn Army Community Hospital (WACH), Fort Stewart, GA, Martin Army Community Hospital (MACH), Fort Benning, GA, 121st CSH, Youngsan, Korea, and Landstuhl Regional Medical Center (LRMC), Germany. The course is designed to review and establish didactic and clinical skills required by Physician Assistants in the evaluation and treatment of patients presenting with urgent or emergent conditions. Upon completion attendees will receive a certificate of training and individuals may interview for the US Army - Baylor Emergency Medicine Residency Program.

Special Information: Prior completion of the EM Basic Studies Course is recommended for those desiring to apply for the EMPA DScPAS-EM Residency. Attendance is highly recommend so future applicants may interview with the course and program directors. An Order of Merit List (OML) will be created for all potential applicants by course site location.

How to enroll: All applicants must submit a DA 3838 to the course project officer, Director US Army-Baylor, EMPA Residency. COMM: 253-968-0599 to be placed on the OML to reserve a seat.

AMEDD IRON MAJORS WEEK

Description: To provide a challenging professional development and professional education opportunity that leverages cross-specialty communication and initiative-development to build the team. This course is designed for competitively selected Captains promotable and Majors from all eight AMEDD Corps in order to groom them for senior AMEDD leadership positions.
**Special Information:** Course location: National Capital Region, Defense Health Headquarters, 7700 Arlington Blvd, Falls Church, VA 22042 How to enroll: Send DA 3838 to Office of the Chief, SP Corps, DSN: 471-6119 COMM: 210-221-6119.

**6H-A0629**

MILITARY VESTIBULAR ASSESSMENT AND REHBA

**Location School Code:** 081  
**Length:** 1 week

**Description:** This course is designed to educate Physical Therapists on the anatomy and physiology of the vestibular system, as well as the pathophysiology, evaluation and treatment of central and peripheral vestibular disorders. It provides experiential training in the treatment and ongoing management of patients with complaints of dizziness and imbalance.

**Special Information:** Primary Location: Bethesda, MD Alternate: 2377 Greeley Rd., FSH, TX 78234  

**6H-A0632**

JOINT OPERATIONAL DEPLOYMENT COURSE

**Location School Code:** 081  
**Description:** This operationally relevant, tri-service course is designed to teach AC and RC PTs from the USA, USN, and USAF about their roles and responsibilities while deployed for combat operations and support/sustainment operations. The purpose of this course is derived from the principle of "Sports Medicine on the Battlefield... operational readiness through injury prevention and early intervention" developed at the United States Military Academy, West Point, NY. The concepts for managing injured elite athletes and returning them to the playing field as quickly and safely as possible shares the same common goal of returning injured Soldiers to their units in garrison or combat. This course provides military PTs an opportunity to develop core-advanced competencies in orthopedic triage and management of acute musculoskeletal and neurological injuries while deployed. These same evidence-based competencies are used to return injured Soldiers "tactical athletes" to a high level of military technical and tactical readiness. The course also covers injury surveillance, injury prevention, and human performance optimization to maximize unit and individual Soldier readiness at tactical operational billets. This course also brings participants to an advanced level of understanding in methods of tracking procedures and patient outcomes.

**Special Information:** DPT Program, Graduate School, ATTN: MCCS-HGE-PT AMEDDC&S, FSH, TX 78234-6100 DSN 471-7387 COMM: 210-221-7387.

**6H-A0806**

MEDCOM WTU UNIT MINISTRY TEAM TRAINING

**Location School Code:** 081  
**Description:** This course provides Unit Ministry Team personnel assigned to WTU with five days of training consisting of two identical sessions which will focus on current UMT issues (i.e. Readiness Ministry, in and out patient environment, spiritual assessment, combat medicine update, and METL for peacetime and deployment, etc.).

**Special Information:** All travel costs funded by the unit. For enrollment information contact DPMT, DSN: 421-8609/8387/8516 COMM: 210-221-8609/8387/8516.
75/71 PERSONNEL/RETENTION/LEGAL/EO SHORT CRS

Location School Code: 081  
Length: 4 days

Description: Focus on personnel readiness management and retention of a quality enlisted force. Address current and recent military personnel management program changes, which affect the AMEDD enlisted force. Ensure the best possible personnel service support throughout the AMEDD, now and into the 21st century. Provide guidance, technical assistance and support on military personnel management plans and programs for the AMEDD worldwide. Educate attendees on EDAS, SIDPERS3, PERPAY, FM 12-6, and computer programs to standardize automation support throughout the AMEDD. Legal focus is on management and investigation theory and practice, including medical claim, hospital specific investigative techniques, and factual material to the Federal Torts Claims Act.

Special Information: There is no special information available at the time of this publication; please review ATRRS at https://www.atrrs.army.mil/ for updated information.

300-A0706
PLANS, OPERATIONS, AND TRAINING SHORT COURSE

Location School Code: 081  
Length: 1 week

Description: To provide current information in the Plans, Operations, Training, Management and Security arena. To include USAR, ARNG, Modification Table of Organization and Equipment (MTOE), and TDA focus on the global military situations that affect daily operations and training in healthcare delivery. Bring MEDCOM and Warfighter elements together in providing current doctrinal approaches to conserving fighting strength.

300-A0707
SENIOR DENTAL NCO SHORT COURSE

Location School Code: 081  
Length: 4 days

Description: The senior Dental NCO course is especially designed to meet the functional and operational needs of the senior Dental NCO assigned to component 1-2-3 dental units. Course curriculum is designed to address, support the credentialing process, the quality assurance program, records management, medical care support equipment, inventory/replacement items for sets, kits and outfits, enlisted personnel management, medical supply standardization process, mobilization requirements, new technology, sterilization process, command inspection programs, alternate wartime roles, threat evaluation, field training exercise, postmortem identification and general military subjects.

300-A0708
SURGICAL SUPPORT NCO SHORT COURSE

Location School Code: 081  
Length: 4 days

Description: Attendees will examine critical issues pertaining to the MOSs/ASIs 68BP1/P2, P3/Y6/68D/68V, and receive update on current standards of practice and new technologies from SMEs. Attendees will also be provided current information on their role in CSHs, FST, in Operations Other Than War and in fixed facilities. This course will incorporate a minimum of 1-hour of instruction on corps specific tasks in a CBRNE environment.

Special Information: There is no special information available at the time of this publication; please review ATRRS at https://www.atrrs.army.mil/ for updated information.

300-A0709
VET NCO SHORT COURSE 68R/68T

Location School Code: 081  
Length: 1 week

Description: This course is designed to update selected Veterinary Noncommissioned Officers (68R / 68T) on current topics in military veterinary services worldwide. Lecture format is used.

Special Information: POC 3630 Stanley Rd., Ste. 288, FSH, TX 78234-6145.

300-A0712
CHIEF AND SENIOR CLINICAL NCO

Location School Code: 081  
Length: 1 week

Description: This course will provide the attendees with updates and changes that affect their positions as senior leaders of their respective clinical/nursing departments. The course will focus on identifying processes through discussion, lecture and sharing of information and experiences that will enhance the effectiveness and efficiency of healthcare administration, including patient care, in TDA and TOE healthcare settings. Information on the use of technology to bolster the effectiveness and efficiency of the AMEDD mission will be disseminated. The discussion will be primarily focused on the BSC and business practices in the MEDCOM. Attendees will be briefed on scope of practice, core competencies, Career Management Field (CMF) 68 structure/update and the chief nurse overview.

Special Information: Location: San Antonio, TX POC: MEDCOM, 2050 Worth Rd., FSH, TX 78234 COMM: 210-221-7847 or DSN: 471-7847.

300-A0713
MILITARY & PROFESSIONAL SKILLS FOR THE PRACTI

Location School Code: 081  
Length: 4 days

Description: The focus of the course will be readiness: Preparing for contingencies and deployment. The theme will include issues faced by the practical nurse in preparing to meet the Army's deployment needs. Responsibilities of the 68C in the medical support role of current and recent operations other than war will be examined. Updated information of 68C issues, magnetic resonance imaging, and other structure changes, telemedicine, tri-care, Joint Commission on Accreditation of Healthcare Organizations, dL, and related nursing skills will be offered.
**Special Information:** Course location: El Paso, TX How to enroll: Send DA 3838 to WBAMC, NESD, El Paso, TX 79920-5001 DSN: 471-0144.

---

**300-A0716**

**ENLISTED CLINICAL SUPPORT (68K/68P/68Q)**

**Location School Code: 081**

**Length: 1 week**

**Description:** This one course week course conducted at the AMEDDC&S provides senior NCOs, from a variety of assignments, with the latest technical and technological advances within Army Medicine; this course will also enhance career advancement and professional development. The course curriculum has been developed in a format that enables these senior NCOs to gain information normally only available at AMEDDC&S and disseminate it across the globe. The goal of this course is to provide educational learning activities for NCOs at all levels. This course is presented to senior NCO Leaders to foster training, educating and mentoring environment on managerial and supervisory skills necessary to be successful clinical support NCO/trainer. Conduct update briefings on matters of interest to the laboratory, radiology and pharmacy NCOs. Provide updated information and continuing education as well as focus on the impact of readiness training, deployments and exercise effectiveness of health care delivery.

**Special Information:** Primary Location: Bldg. 2841, 3599 Winfield Scott Rd, FSH, TX 78234
POC: MCCS-HE-S, Bldg. 2841, 3599 Winfield Scott Rd, Ste. 1331, FSH, TX 78234

**300-A0718**

**AMSC ENLISTED CLINICAL MANAGEMENT SHORT CRS**

**Location School Code: 081**

**Length: 4 days**

**Description:** This course is designed to assist the AMSC NCO in developing their tactical and technical skills to operate successfully in today's field environment. The course focuses on identifying management strategies that will facilitate excellent leadership in the next century's AMEDD and Army. The course will utilize; hands on training, small group discussion and problem-solving focused lectures to maximize the learning experience.

**Special Information:** Course location: San Antonio, TX. POC: USA MEDCOM
COMM: 210-221-7103 or DSN: 471-7103, FAX: 210-221-6614.

---

**300-A0720**

**68X/56M NCO SHORT COURSE**

**Location School Code: 081**

**Length: 1 week**

**Description:** This course will provide the attendees with updates and changes that affect their positions as senior leaders of their respective clinical/tactical units. The course will focus on identifying processes through discussion, lecture and sharing of information and experiences that will enhance the effectiveness and efficiency of mental health administration, including patient care, in today’s Current Operational Environment, both garrison and deployed. Information on the use of technology to bolster the effectiveness and efficiency of the AMEDD mission will be disseminated. The discussion will be primarily focused on methods and programs implemented in the deployment and redeployment of Soldiers. Attendees will be briefed on the ongoing doctrinal changes in prevention, identification, and treatment of mental health issues related to tactical deployments and redeployment, civilian terrorist activities, including current issues affecting these transitions and ways in which they can positively impact the process at their units.
Homeland security and the role of medical facilities in the war against terrorism will be discussed thoroughly. A series of lectures will also provide information on MEDCOMs response to the war on terrorism, life cycle issues of common MOSs managed, lessons learned from senior medical NCOs who have been on the front lines in the war against terror, and transformation taking place with the army and its effects on the Medical Command and its subordinate elements.

Discussion on ways to bridge the gap and increase collaboration between FORSCOM and MEDCOM medical units will be held. A similar discussion on active, reserve and ARNG collaborative efforts will be presented. Active, USAR and ARNG personnel, as well as, those assigned to fixed and deployable medical treatment facilities will be eligible to attend this course.

Special Information: There is no special information available at the time of this publication; please review ATRRS at [https://www.atrrs.army.mil/](https://www.atrrs.army.mil/) for updated information.

### 322-A0101
**PUBLIC HEALTH SENIOR NCO (68S AND 68Z)**

**Location School Code:** 081  
**Length:** 4.5 days

**Description:** Presented to Senior NCOs in MOS 68S and 68Z with secondary MOS 68S to provide skills for managing Public Health (PH) and Preventive Medicine (PM) operations in both TDA and TOE organizations. Present updated and career broadening information to senior enlisted leaders to effect regional management of PH/PM assets and personnel. Discuss current and projected PH/PM organizational and technological advances in concert with FORCE 2020. Review 68S MOS training products, resident courses, distributed learning coursework, career maps, publications and critical task lists.

**Special Information:** POC: DPHS, 3151 Scott Rd., Ste. 1322, FSH, TX 78234-6115. COMM: 210-221-7518.

**DIETARY MGR & FOOD PROTECTION PROFESSIONAL**

**Location School Code:** 081  
**Length:** 10 weeks

**Description:** The Certified Dietary Manager, Certified Food Protection Professional (CDM, CFPP) preparatory course is a 10 week dL course intended to prepare the junior and senior level Army Nutrition Care Specialist (68M) non-commissioned officers (NCOs) in the rank of SGT/E-5 to SFC/E-7 to pass the nationally recognized credentialing exam. This course enhances leadership and management skills while providing a more detailed learning on clinical nutrition and foodservice topics. These skills are necessary to successfully perform their tasks in nutrition service operations and remain compliant with DoD Foodservice Regulations as defined in the Tri-Service Food Code book.

**Special Information:** POC: Nutrition and Diet Therapy Branch, ATTN: CHET NDT Program Director 3630 Stanley Rd, Bldg. 2841, FSH, TX 78234-6115. COMM: 210-808-4056.

### 340-A0715
**MEDCOM CSM/SGM/SR NCO SHORT**

**Location School Code:** 081  
**Length:** 1 week

**Description:** This course will provide the attendees with updates and changes that affect their positions as senior leaders within the AMEDD. The course will focus on identifying processes through discussion, lecture and sharing of information and experiences that will enhance the effectiveness and efficiency of healthcare
administration, including patient care, in TDA and TOE healthcare settings. Information on the use of technology to bolster the effectiveness and efficiency of the AMEDD mission will also be disseminated.

**Special Information:** Location: San Antonio, TX, 2050 Worth Rd., Ste. 3, FSH, TX 78234. COMM: 210-221-6710 or DSN: 471-6710.

340-A0743
CSM/SGM/NCO SHORT COURSE (EUROPE)

**Location School Code: 081**

**Length: 4 days**

**Description:** To provide current information and training in management of enlisted affairs, medical research and development, deployments in the V Corps area of responsibility. Discuss, as a group, legal and ethical issues, logistics, schools, contingency operations, development of future initiatives, AMEDD drawdown, and Operations Other Than War.

**Special Information:** Course location: Heidelberg, Germany How to enroll: Send DA 3838 to: ATTN: Education Division, Landstuhl Regional Medical Command APO, AE 09053. DSN: 371-2500.
The AMEDD NCOA provides Sergeants (SGT), Staff Sergeants (SSG) and Sergeant First Class (SFC) with the technical, tactical, and leadership/trainer skills necessary to be successful in Army operations as squad/platoon sergeants and First Sergeants in career management field (CMF) 68. Leadership and professional skills are reinforced in a blended learning environment enhanced by technology. Courses consist of resident, mobile training and distributed learning platforms designed to influence and provide the leadership foundation upon which the Army bases its future NCOs and is essential to growing a highly trained and effective fighting force.

3-68-C45DL
AMEDD ADVANCED LEADER COURSE PHASE 1

Location School Code: 082                  Length: 8 weeks

Description: To provide SGT, SGT (P) and SSG with the technical, tactical, and leadership/trainer skills necessary to be successful in Army operations as squad/platoon leaders in CMF 68. This dL program of instruction (POI) enhances readiness by allowing the Soldier to remain at unit and complete the phase.

The 600-ALC is the CC for which the US Army Sergeants Major Academy (USASMA) is proponent. Soldiers complete the CC via dL.

The 3-68-C45 ALC phase 1 is the CMF dL. The CMF dL (40 hours) is a prerequisite for attending phase 2 CMF and allows students 8 weeks to complete prior to reporting to the resident training. Completion of the CMF dL phase is a requirement for graduation from the ALC. Website: https://amedd.ellc.learn.army.mil. The phase 2 CMF consists of the resident training, which includes a situational training exercise (STX) and is conducted at the AMEDD NCOA.

The phase 3 consists of the 68 series skill level 30 MOS technical training conducted by the teaching branches.

Special Information: This course is under the jurisdiction of the Commandant of the AMEDD NCOA; AMEDDC&S. Students are required to complete phase 1 CMF dL (40 hours) prior to attending phase 2 CMF resident training. Failure to complete dL in requisite will result in dismissal from phase 2 resident training. Website: https://amedd.ellc.learn.army.mil.

3-68-C45
AMEDD ADVANCED LEADER COURSE PHASE 2

Location School Code: 082                  Length: 3 weeks

Description: To provide SGT, SGT (P), and SSG with the technical, tactical, and leadership/trainer skills necessary to be successful in Army operations as squad/platoon leaders in CMF 68.

The 600-ALC is the CC for which the USASMA is proponent. Soldiers complete the CC via dL.

The 3-68-C45 ALC phase 1 is the CMF dL. The CMF dL (40 hours) is a prerequisite for attending phase 2 CMF and allows students 8 weeks to complete prior to reporting to the resident training.

The phase 2 CMF consists of the resident training, which includes an STX and is conducted at the AMEDD NCOA.

The phase 3 consists of the 68 series skill level 30 MOS technical training conducted by the teaching branches.
Special Information: This course is under the jurisdiction of the Commandant of the AMEDD NCOA; AMEDDC&S. Students are required to complete phase 1 CMF dL (40 hours) prior to attending phase 2 CMF resident training. Failure to complete dL in requisite will result in dismissal from phase 2 resident training.

3-68-C46DL
AMEDD SENIOR LEADER COURSE PHASE 1

Location School Code: 082

Description: To provide SSG, SSG (P), and SFC with the technical, tactical, and leadership/trainer skills necessary to be successful in Army operations as platoon/company leaders in CMF 68. This dL POI enhances readiness by allowing the Soldier to remain at unit and complete the phase.

The 3-68-C46 SLC phase 1 is the CMF dL. The CMF dL (40 hours) allows students 8 weeks to complete prior to reporting to the phase 2 CMF training. Completion of the CMF dL phase is a requirement for graduation from the SLC. Website: https://amedd.ellc.learn.army.mil.

The phase 2 CMF consists of resident training and is conducted at the AMEDD NCOA. CMF subjects covered include: team building; leadership; resiliency; ethics; incorporating lessons learned; company drill and ceremony; manual of court martial; roles and responsibilities of the first sergeant; written communication; military briefings; training for decisive actions; NCO evaluation reports; resource management; civilian personnel management; medical planning for tactical operations; applying the military decision making process; plans orders and annexes; and command post of the future.

Special Information: This course is under the jurisdiction of the Commandant of the AMEDD NCOA, AMEDDC&S. School. Failure to complete dL in requisite will result in dismissal from phase 2 resident training.

To initially access the dL product/course you must go to the following URL https://amedd.ellc.learn.army.mil. 1. Log in using AKO userid and password or CAC. 2. Click [My Courses]. 3. Click [My Active Enrollments] to access DA directed or self-development courseware/examinations. **If you receive this enrollment email and you cannot see your courseware(s) allow up to (six) 6 hours for the enrollment to finish processing. "You must access the course within 10-days of the report date." The AMEDD NCOA telephone number for dL is 210-221-3121.

3-68-C46
AMEDD SENIOR LEADER COURSE PHASE 2

Location School Code: 082

Description: To provide SSG, SSG (P), and SFC with the technical, tactical, and leadership/trainer skills necessary to be successful in Army operations as platoon/company leaders in CMF 68.

The 3-68-C46 SLC phase 1 is the CMF dL. The CMF dL (40 hours) is a prerequisite for attending phase 2 CMF and allows students 8 weeks to complete prior to reporting to the phase 2 CMF training.

The phase 2 CMF consists of the resident training, which includes a staff development exercise, is conducted at the AMEDD NCOA.

Special Information: This course is under the jurisdiction of the Commandant of the AMEDD NCOA, US AMEDDC&S. Students are required to complete phase 1 CMF dL (40 hours) prior to attending phase 2 CMF resident training. Failure to complete dL in requisite will result in dismissal from phase 2 resident training. To INITIALLY ACCESS the dL product/course you MUST go to the following URL
1. Log in using AKO userid and password or CAC. 2. Click [My Courses]. 3. Click [My Active Enrollments] to access DA directed or self-development courseware/examinations. **If you receive this enrollment email and you cannot see your courseware(s) allow up to (six) 6 hours for the enrollment to finish processing. "You must access the course within 10-days of the report date." The AMEDD NCOA telephone number for dL is 210-221-3121.

**300-68C30-C45**

**PRACTICAL NURSE ALC PHASE 3**

**Location School Code: 082**

**Description:** The ALC is a three phased course. Phase 1 is the dL phase required prior to phase 2 or resident CMF training. Phase 3 is the MOS specific technical training. The 68C30 technical training phase trains practical nurse NCOs to provide quality leadership; apply relevant principles, concepts, and techniques of resource management; participate in planning, organizing, and conducting of mission operations under both peacetime and combat conditions.

**Special Information:** The ALC is under the jurisdiction of the Commandant of the AMEDD NCOA, US AMEDDC&S. Phase 3 is the technical training conducted at the AHS by the applicable MOS teaching proponent. All Soldiers reporting for phase 3 training will inprocess through the AMEDD NCOA.

**300-68N30-C45**

**CARDIOVASCULAR ALC PHASE 3**

**Location School Code: 082**

**Description:** The ALC is a three phased course. Phase 1 is the dL phase required prior to phase 2 or resident CMF training. Phase 3 is the MOS specific technical training. The 68N30 technical training phase trains cardiovascular NCOs to provide quality leadership; apply relevant principles, concepts, and techniques of resource management; participate in planning, organizing, and conducting of mission operations under both peacetime and combat conditions.

**Special Information:** The ALC is under the jurisdiction of the Commandant of the AMEDD NCOA, US AMEDDC&S. Phase 3 is the technical training conducted at the AHS by the applicable MOS teaching proponent. All Soldiers reporting for phase 3 training will inprocess through the AMEDD NCOA.

**300-68U30-C45**

**EAR, NOSE, AND THROAT ALC PHASE 3**

**Location School Code: 082**

**Description:** The ALC is a three phased course. Phase 1 is the dL phase required prior to phase 2 or resident CMF training. Phase 3 is the MOS specific technical training. The 68U30 technical training phase trains ear, nose, and throat NCOs to provide quality leadership; apply relevant principles, concepts, and techniques of resource management; participate in planning, organizing, and conducting of mission operations under both peacetime and combat conditions.

**Special Information:** The ALC is under the jurisdiction of the Commandant of the AMEDD NCOA, US AMEDDC&S. Phase 3 is the technical training conducted at the AHS by the applicable MOS teaching proponent. All Soldiers reporting for phase 3 training will inprocess through the AMEDD NCOA.
**300-68W30-C45**  
HEALTH CARE ALC PHASE 3

**Location School Code: 082**  
**Length: 2 weeks**

**Description:** The 600-ALC is the CC for which the USASMA is proponent. Soldiers may attend the CC via dL, video teletraining (VTT) or at the nearest TASS training site.

The 3-68-C45 ALC phase 1 is the CMF dL. The CMF dL (40 hours) is a prerequisite for attending phase 2 CMF and allows students 8 weeks to complete prior to reporting to the phase 2 CMF training. Website: https://amedd.ellc.learn.army.mil

The phase 2 CMF consists of the resident training, which includes a STX, is conducted at the AMEDD NCOA.

The phase 3 consists of the 68 series skill level 30 MOS technical training conducted by the teaching branches.

**Special Information:** This course is under the jurisdiction of the Commandant of the AMEDD NCOA, US AMEDDC&S. Eight weeks prior to phase 2 (CMF) resident training; students are required to complete phase 1 CMF dL. Failure to complete dL in requisite will result in dismissal from phase 2 of resident training. When a reservation is made for the phase 3 CMF, the student will be automatically enrolled in the Internet instruction and notified via AKO email. Website: https://amedd.ellc.learn.army.mil.

---

**300-68W30-C45 (MTT)**  
HEALTHCARE ALC (MTT) PHASE 2

**Location School Code: 082**  
**Length: 7 weeks 1 day**

**Description:** The 68W ALC MTT is a three-phased course.

Phase 1 is ALC, required of all Soldiers attending NCOES.

Phase 2 consists of CMF, which includes the dL requirement, and MOS 68W tasks and is conducted at multiple training sites through the use of a MTT from the AMEDD NCOA, FSH, TX. The team travels to the requesting unit's location to conduct the phase 2 training. At the conclusion of phase 2, Soldiers proceed to FSH, TX for advanced technical training provided by the DCMT.

Phase 3 consists of select 68W technical tasks and is conducted by 68W proponent instructors.

Both phases 2 and 3 are to be filled by only those personnel approved through FORSCOM and the requesting post's POC. The phases must be attended consecutively. These two phases of the course grant 68Ws constructive credit for their deployed experiences and reduce the length of the equivalent 6-8-C40(68W30 technical training), phase 2, down to 2-weeks.

Phase scope: This phase is phase 2 of the three phase 6-8-C40(68W30 MTT) AMEDD NCO Basic (NCOES) course. This phase provides timely training to selected E5 (P) and E6 68W NCOs with the skills and knowledge required to perform duties appropriate to the rank of SSG in both a field and garrison environment.

**Special Information:** The course is requested through Division HQs to FORSCOM. This strategy is specified for BCT and those units returning from deployment. Arrangements to host a 68W ALC MTT at a specific location must be made through FORSCOM. There is a minimum of 20 students required in order to conduct a class. No individuals from any other units outside the hosting unit's area of responsibility should fill slots without requesting and receiving prior approval. Anyone that makes a reservation in ATRRS without going through the proper channels will be returned to the unit and not enrolled. Enrollment in the CMF dL is automatic based on ATRRS. Refer to 6-8-C40 (68W30 technical training) for courseware information.
300-68W30-C45 (MTT)
HEALTHCARE ALC (MTT) PHASE 3

Location School Code: 082 Length: 1 week 2 days

Description: The 600-ALC is the CC for which the USASMA is proponent. Soldiers may attend the CC via dL, VTT or at the nearest TASS training site.

The 3-68-C45 ALC phase 1 is the CMF dL. The CMF dL (40 hours) is a prerequisite for attending phase 2 CMF and allows students 8 weeks to complete prior to reporting to the phase 2 CMF training. Website: https://amedd.ellc.learn.army.mil.

Phase 2 consists of CMF and MOS 68W tasks and is conducted at multiple training sites through the use of a MTT from the AMEDD NCOA, FSH. TX. The team travels to the requesting unit's location to conduct the phase 2 training. At the conclusion of phase 2, Soldiers proceed to FSH, TX for advanced technical training provided by the DCMT. Phase 3 consists of select 68W technical tasks and is conducted by 68W proponent instructors. Both phase 2 and phase 3 are to be filled by only those personnel approved through FORSCOM and the requesting post's Division POC. The phases must be attended consecutively. These two phases of the course grant 68Ws constructive credit for their deployed experiences and reduce the length of the equivalent 6-8-C40(68W30 Tech Tng), phase 2, down to 2-weeks.

Special Information: This course is under the jurisdiction of the Commandant of the AMEDD NCOA, US AMEDDC&S. The MTT students are required to complete phase 1 CMF dL.

300-68Y30-C45
EYE ALC PHASE 3

Location School Code: 082 Length: 4 days

Description: The ALC is a three phased course. Phase 1 is the dL phase required prior to phase 2 or resident CMF training. Phase 3 is the MOS specific technical training. The 68Y30 technical training phase trains Eye Specialists NCOs to provide quality leadership; apply relevant principles, concepts, and techniques of resource management; participate in planning, organizing, and conducting of mission operations under both peacetime and combat conditions.

Special Information: The ALC is under the jurisdiction of the Commandant of the AMEDD NCOA, US AMEDDC&S. Phase 3 is the technical training conducted at the AHS by the applicable MOS teaching proponent. All Soldiers reporting for phase 3 training will inprocess through the AMEDD NCOA.

301-68D30-C45
OPERATING ROOM ALC PHASE 3

Location School Code: 082 Length: 4 days

Description: The ALC is a three phased course. Phase 1 is the dL prior to phase 2 or resident CMF training. Phase 3 is the MOS specific technical training. The 68D30 technical training phase trains operating room NCOs to provide quality leadership; apply relevant principles, concepts, and techniques of resource management; participate in planning, organizing, and conducting of mission operations under both peacetime and combat conditions.

Special Information: The ALC is under the jurisdiction of the Commandant of the AMEDD NCOA, US AMEDDC&S. Phase 3 is the technical training conducted at the AHS by the applicable MOS teaching proponent. All Soldiers reporting for phase 3 training will inprocess through the AMEDD NCOA.
302-68X30-C45
BEHAVIORAL HEALTH ALC PHASE 3
Location School Code: 082      Length: 1 week
Description: The ALC is a three phased course. Phase 1 is the dL phase required prior to phase 2 or resident CMF training. Phase 3 is the MOS specific technical training. The 68X30 technical training stresses technical, tactical, and leadership battle competencies including combat, combat support, and combat service support. The training includes general military knowledge and 68X MOS skills required to function as a squad leader in support of the Army's Behavioral Health operations, CC training, and AMEDD 68X missions.
Special Information: The ALC is under the jurisdiction of the Commandant of the AMEDD NCOA, US AMEDDC&S. Phase 3 is the technical training conducted at the AHS by the applicable MOS teaching proponent. All Soldiers reporting for phase 3 training will inprocess through the AMEDD NCOA.

303-68F30-C45
PHYSICAL THERAPY ALC PHASE 3
Location School Code: 082      Length: 2 weeks
Description: The ALC is a three phased course. Phase 1 is the dL phase required prior to phase 2 or resident CMF training. Phase 3 is the MOS specific technical training. The 68F30 technical training phase trains physical therapy NCOs to provide quality leadership; apply relevant principles, concepts, and techniques of resource management; participate in planning, organizing, and conducting of mission operations under both peacetime and combat conditions.
Special Information: The ALC is under the jurisdiction of the Commandant of the AMEDD NCOA, US AMEDDC&S. Phase 3 is the technical training conducted at the AHS by the applicable MOS teaching proponent. All Soldiers reporting for phase 3 training will inprocess through the AMEDD NCOA.

303-68L30-C45
OCCUPATIONAL THERAPY ALC PHASE 3
Location School Code: 082      Length: 4 days
Description: The ALC is a three phased course. Phase 1 is the dL phase required prior to phase 2 or resident CMF training. Phase 3 is the MOS specific technical training. The 68L30 technical training trains occupational therapy NCOs to provide leadership; apply relevant principles, concepts, and techniques of resource management; participate in planning, organizing, and conducting of mission operations under both peacetime and combat conditions.
Special Information: The ALC is under the jurisdiction of the Commandant of the AMEDD NCOA, US AMEDDC&S. Phase 3 is the technical training conducted at the AHS by the applicable MOS teaching proponent. All Soldiers reporting for phase 3 training will inprocess through the AMEDD NCOA.

304-68B30-C45
ORTHOPEDIC THERAPY ALC PHASE 3
Location School Code: 082      Length: 4 days
Description: The ALC is a three phased course. Phase 1 is the dL phase required prior to phase 2 or resident CMF training. Phase 3 is the MOS specific technical training. The 68B30 technical training phase trains
orthopedic NCOs to provide quality leadership; apply relevant principles, concepts, and techniques of resource management; participate in planning, organizing, and conducting of mission operations under both peacetime and combat conditions.

**Special Information:** The ALC is under the jurisdiction of the Commandant of the AMEDD NCOA, US AMEDDC&S. Phase 3 is the technical training conducted at the AHS by the applicable MOS teaching proponent. All Soldiers reporting for phase 3 training will inprocess through the AMEDD NCOA.

### 307-68V30-C45
**RESPIRATORY ALC PHASE 3**

**Location School Code:** 082  
**Length:** 3 days

**Description:** The ALC is a three phased course. Phase 1 is the dL phase required prior to phase 2 or resident CMF training. Phase 3 is the MOS specific technical training. The 68V30 technical training stresses technical, tactical and leadership battle competencies including combat, combat support and combat service support. The training includes general military knowledge and 68V MOS skills required to function as a squad leader in support of the Army's Respiratory Specialist operations, CC training and AMEDD 68V missions.

**Special Information:** The ALC is under the jurisdiction of the Commandant of the AMEDD NCOA, US AMEDDC&S. Phase 3 is the technical training conducted at the AHS by the applicable MOS teaching proponent. All Soldiers reporting for phase 3 training will inprocess through the AMEDD NCOA.

### 311-68K30-C45
**MEDICAL LABORATORY ALC PHASE 3**

**Location School Code:** 082  
**Length:** 1 week 2 days

**Description:** The ALC is a three phased course. Phase 1 is the dL phase required prior to phase 2 or resident CMF training. Phase 3 is the MOS specific technical training. The 68K30 technical training phase trains medical laboratory NCOs to provide quality laboratory leadership; to manage blood products, workload, personnel, and logistical resources; to provide safety expertise and training; and to safeguard the quality of laboratory results and services. Emphasis is placed on the management and technical skills required for clinical laboratory operations in both peacetime fixed facilities as well as field environments.

**Special Information:** The ALC is under the jurisdiction of the Commandant of the AMEDD NCOA, US AMEDDC&S. Phase 3 is the technical training conducted at the AHS by the applicable MOS teaching proponent. All Soldiers reporting for phase 3 training will inprocess through the AMEDD NCOA.

### 312-68Q30-C45
**PHARMACY ALC PHASE 3**

**Location School Code:** 082  
**Length:** 4 days

**Description:** The ALC is a three phased course. Phase 1 is the dL phase required prior to phase 2 or resident CMF training. Phase 3 is the MOS specific technical training. The 68Q30 technical training phase trains pharmacy NCOs to provide quality leadership; workload, personnel, and logistical resources; to provide critical thinking and problem solving skills; and to safeguard the quality of pharmacy results and services. Emphasis is placed on the management and technical skills required for pharmacy operations in both peacetime fixed facilities as well as field environments.
Special Information: This course is under the jurisdiction of the Commandant of the AMEDD NCOA, US AMEDDC&S. Phase 3 is the technical training conducted at the AHS by the applicable MOS teaching proponent. All Soldiers reporting for phase 3 training will inprocess through the AMEDD NCOA.

313-68P30-C45
RADIOLOGY ALC PHASE 3

Location School Code: 082
Length: 4 days

Description: Provides selected AMEDD NCOs with the skills and knowledge to: perform duties appropriate to the rank of SSG; apply relevant principles, concepts, and techniques of resource management to resolve problems normally encountered at unit level; and participate in planning, organizing, and conducting of mission specific operations under peacetime and combat conditions.

Special Information: This course is under the jurisdiction of the Commandant of the AMEDD NCOA, US AMEDDC&S. The PERSCOM identifies and notifies unit commanders of qualified Soldiers approximately 9 months prior to each class.

321-68R30-C45
VET FOOD INSPECTION ALC PHASE 3

Location School Code: 082
Length: 2 weeks

Description: The 2-week veterinary food inspection resident technical training phase consists of a blended learning environment using technology-based materials and face-to-face training. The 68R30 technical training phase trains veterinary food inspection NCOs to provide quality leadership in the management of food products, budgets, workload, personnel, and logistical resources; procurement, surveillance, and deterioration of subsistence; veterinary aspects of nuclear, biological, and chemical operations; veterinary preventive medicine; current food hygiene, sanitation, safety, and quality assurance procedures; food establishment sanitation; implementation of Food Defense for Installation Support Plan; and meat/waterfood technology. Additionally, emphasis is placed upon leadership situations involving practical problems in all veterinary units.

Special Information: 1. This course is under the jurisdiction of the Commandant of the AMEDD NCOA, US AMEDDC&S. Phase 3 is the technical training conducted at the AHS by the applicable MOS teaching proponent. All Soldiers reporting for phase 3 training will inprocess through the AMEDD NCOA. 2. ALC phases 1, 2, and 3 must be completed to be awarded military education level (MEL) credit.

321-68T30-C45
ANIMAL CARE ALC PHASE 3

Location School Code: 082
Length: 2 weeks

Description: The USASMA is proponent for the 600-C45 (dL) Senior Leader Course which will be delivered via dL effective 1 October 2009.

The 3-68-C45 ALC phase 1 is the CMF dL. The CMF dL (40 hours) is a prerequisite for attending phase 2 CMF and allows students 8 weeks to complete prior to reporting to the phase 2 CMF training. Website: https://amedd.ellc.learn.army.mil.

The phase 2 CMF consists of the resident training, which includes a STX, is conducted at the AMEDD NCOA. The phase 3 consists of the 68 series skill level 30 MOS technical training conducted by the teaching branches.
Phase scope: The 2-week animal care resident technical training phase provides Veterinary Animal Care NCOs with an overview of their responsibilities in veterinary unit administration and trains animal care NCOs to provide quality leadership. Emphasis will be placed on advanced medical skill level training to include nursing management, laboratory diagnostic procedures, anesthesia, surgical techniques, radiological techniques, ultrasonography procedures, and triage and emergency procedures. Additionally, emphasis will be given to leadership situations involving practical problems of administrative control in veterinary TOE units, in training and operation positions at major veterinary units, and in VTF.

Special Information: 1. Effective FY10, the course name "Advanced Leader Course" replaces "Basic NCO Course (BNCOC)". 2. This course is under the jurisdiction of the Commandant of the AMEDD NCOA, US AMEDDC&S. Eight weeks prior to phase 2 CMF resident training, students are required to complete phase 1 CMF dL. Failure to complete dL in requisite will result in dismissal from phase 2 of resident training. When a reservation is made for the phase 3 CMF, the student will be automatically enrolled in the internet instruction and notified via AKO email. Website: https://amedd.ellc.learn.army.mil. 3. The ALC phases 1, 2, and 3 must be completed to be awarded MEL credit.

322-68S30-C45
PREVENTIVE MEDICINE ALC PHASE 3

Location School Code: 082
Length: 4 days

Description: The ALC is a three phased course. Phase 1 is the dL phase required prior to phase 2 or resident CMF training. Phase 3 is the MOS specific technical training. The 68S30 technical training equips preventive medicine NCOs with the technical skills and knowledge to apply relevant principles, concepts, and techniques of preventive medicine to resolve problems normally encountered at various leadership levels. Emphasis is placed on planning, organizing, and conducting of mission specific operations under peacetime and combat conditions.

Special Information: The ALC is under the jurisdiction of the Commandant of the AMEDD NCOA, AMEDDC&S. Phase 3 is the technical training conducted at the AHS by the applicable MOS teaching proponent. All Soldiers reporting for phase 3 training will inprocess through the AMEDD NCOA.

323-68H30-C45
OPTICAL LABORATORY ALC PHASE 3

Location School Code: 082
Length: 4 days

Description: The ALC is a three phased course. Phase 1 is the dL phase required prior to phase 2 or resident CMF training. Phase 3 is the MOS specific technical training. The 68H30 technical training equips career oriented NCOs with the technical skills necessary to manage an Optical Laboratory on a modern battlefield or in a garrison environment.

Special Information: The ALC is under the jurisdiction of the Commandant of the AMEDD NCOA, US AMEDDC&S. Phase 3 is the technical training conducted at the AHS by the applicable MOS teaching proponent. All Soldiers reporting for phase 3 training will inprocess through the AMEDD NCOA.
325-68M30-C45
NUTRITION CARE ALC PHASE 3

Location School Code: 082  
Length: 2 weeks

**Description:** The ALC is a three phased course. Phase 1 is the dL phase required prior to phase 2 or resident CMF training. Phase 3 is the MOS specific technical training. The 68M30 technical training provide an integration of leadership skills and knowledge with advanced technical competencies in the areas of: medical nutrition therapy; clinical management; planning for medical field feeding operations; management of Nutrition Care Division; food service operations management; health promotion; and nutrition education, in fixed and non-fixed facilities.

**Special Information:** The ALC is under the jurisdiction of the Commandant of the AMEDD NCOA, US AMEDDC&S. Phase 3 is the technical training conducted at the AHS by the applicable MOS teaching proponent. All Soldiers reporting for phase 3 training will inprocess through the AMEDD NCOA.

326-68A30-C45
BIOMEDICAL EQUIPMENT ALC PHASE 3

Location School Code: 082  
Length: 2 weeks

**Description:** The ALC is a three phased course. Phase 1 is the dL phase required prior to phase 2 or resident CMF training. Phase 3 is the MOS specific technical training. The 68A30 technical training equips career oriented NCOs with the technical skills necessary to manage a Biomedical Equipment department on a modern battlefield or in a garrison environment.

Completion of the 3-68-C45dL (phase 1) and 3-68-C45 resident CMF (phase 2) is required prior to attending the 10 day (phase 3) Biomedical Equipment resident training for all components. All phases will be completed in sequence.

**Special Information:** The ALC is under the jurisdiction of the Commandant of the AMEDD NCOA, US AMEDDC&S. Phase 3 is the technical training conducted at the AHS by the applicable MOS teaching proponent. All Soldiers reporting for phase 3 training will inprocess through the AMEDD NCOA.

330-68E30-C45
DENTAL ALC PHASE 3

Location School Code: 082  
Length: 2 weeks

**Description:** The ALC is a three phased course. Phase 1 is the dL phase required prior to phase 2 or resident CMF training. Phase 3 is the MOS specific technical training. The 68E30 technical training equips career oriented NCOs with the technical skills necessary to manage a dental facility on a modern battlefield or in a garrison environment

**Special Information:** The ALC is under the jurisdiction of the Commandant of the AMEDD NCOA, US AMEDDC&S. Phase 3 is the technical training conducted at the AHS by the applicable MOS teaching proponent. All Soldiers reporting for phase 3 training will inprocess through the AMEDD NCOA.
**340-68G30-C45**

**PATIENT ADMINISTRATION ALC PHASE 3**

**Location School Code: 082**

**Length: 4 days**

**Description:** The ALC is a three phased course. Phase 1 is the dL phase required prior to phase 2 or resident CMF training. Phase 2 is the MOS specific technical training. The 68G30 technical training equips career oriented NCOs to solve complex problems by using experiences, training, education, critical questioning, critical thinking, problem solving, and collaboration to develop solutions necessary to manage sections within the Patient Administration division on a modern battlefield or in a garrison environment.

**Special Information:** The ALC is under the jurisdiction of the Commandant of the AMEDD NCOA, US AMEDDC&S. Phase 3 is the technical training conducted at the AHS by the applicable MOS teaching proponent. All Soldiers reporting for phase 3 training will inprocess through the AMEDD NCOA.

---

**341-68J30-C45**

**MEDICAL LOGISTICS ALC PHASE 3**

**Location School Code: 082**

**Length: 2 weeks**

**Description:** The ALC is a three phased course. Phase 1 is the distributed learning phase required prior to phase 2 or resident CMF training. Phase 3 is the MOS specific technical training. The 68J30 technical training equips career oriented NCOs with the technical skills necessary to manage a logistics facility on a modern battlefield or in a garrison environment.

**Special Information:** The ALC is under the jurisdiction of the Commandant of the AMEDD NCOA, US AMEDDC&S. Phase 3 is the technical training conducted at the AHS by the applicable MOS teaching proponent. All Soldiers reporting for phase 3 training will inprocess through the AMEDD NCOA.
The Defense Medical Readiness Training Institute (DMRTI) is a Tri-Service organization staffed by professionals from the US Army, USN, USAF and DoD Civilians. We are located at the Historic FSH, TX. DMRTI offers both resident and non-resident joint medical readiness training courses as well as professional medical programs for more than 7,000 residents and 12,000 non-resident students per year in Trauma Care, Burn Care, Disaster Preparedness, Humanitarian Assistance, and CBRNE Prevention/Response. DMRTI improves the medical readiness training for military medical personnel and the coordination of readiness training efforts between military and civilian organizations. We currently offer 26 courses with instructor training available for six programs and have several new courses in development.

6A-C4
COMBAT CASUALTY CARE

School Location Code: 767 Length: 4 days

Description: The Combat Casualty Care Course (C4) is a tri-service, continuing medical education course designed to enhance medical readiness of physicians, physician assistants, nurses, dentists and other medical specialties by providing training in field leadership, knowledge and skills that may be necessary for direct medical support in conditions related to any combat situation or contemporary Operational Environment. Training is based on a multi-phased scenario-where students must perform the duties of their respective career fields as well as the duties of 1st responders in a simulated combat environment.

Special Information: Seats are limited for this course and are not controlled by DMRTI, or the instructor staff who produce the course. To obtain a reservation forward requests for consideration for selection through Service-Specific Points of Contact identified on the "How to apply for C4" tab on the DMRTI website, http://www.dmrti.army.mil. The website also contains a "Welcome and Student Information" tab.

Phase Remarks: Course includes 17.5 after duty hours for continuous operations/night scenarios.
Dates for this training follow the respective ATLS, TNCC, and PHTLS training dates in ATRRS so report and start dates are the same. Prospective C4 students who have current certifications in the respective concurrent course may receive a waiver for attending the concurrent course only upon approval of the Commander, DMRTI. If waiver is granted for the concurrent course, individual will be authorized one day for travel.

Course specific info can be obtained at DSN 471-0107/0781 or COMM: 210- 221-0107/07810.

6A-C4(ATLS)
ADVANCED TRAUMA LIFE SUPPORT

School Location Code: 767 Length: 3 days

Description: The DMRTI located at FSH, TX offers the Advanced Trauma Life Support (ATLS), 3 day course, in conjunction with the Combat Casualty Care Course (C4). The content and skills presented in the materials are designed to assist doctors in providing emergency care for the trauma patient. The ATLS provides the essential information and skills that a physician may apply to the identification and treatment of life-threatening or potentially life-threatening injuries.

Special Information: Course material will be mailed to students 30 days prior to class start date. After receipt of the course material, students are expected to study the course content prior to arrival. Students who receive material and cancel from course attendance must return all material to student registration within 10 days of cancellation.
This course can be taken multiple times as needed for certification. Continuing Education Credits are granted for this course. Course specific information can be obtained at DSN: 471-0107/0781 or COMM: 210-21-0107/0781.

**6A-C4(PHTLS)**

**PRE-HOSP TRAUMA LIFE SUPPORT**

**School Location Code:** 767  
**Length:** 3 days

**Description:** The DMRTI located at FSH, TX provides the Pre-Hospital Trauma Support Course which is based upon the ATLS course for physicians developed by the Committee on Trauma of the American College of Surgeons. Student participate in an intensive 2 1/2 day experience with lecture and skill stations content to identify the need for life saving interventions for the multi system trauma patient. The intent is to provide the student with a specific body of knowledge related to the pre-hospital care of the trauma patient. This course includes practical exercises and examinations, which reinforce the material presented in the lecture and practical sessions.

**Special Information:** Course material will be mailed to students 30 days prior to class start date. After receipt of the course materials, students are expected to review the course content prior to their arrival. Students who receive material and cancel prior to course attendance must return all material to student registration within 10 days of cancellation.

This course can be taken multiple times as needed for certification. Continuing Education Credits are granted for this course. Course specific information can be obtained at DSN: 471-0107/0781 or COMM: 210-221-0107/0781.

**6A-C4(TNCC)**

**TRAUMA NURSING CORE COURSE**

**School Location Code:** 767  
**Length:** 3 days

**Description:** The DMRTI located at FSH, TX provides a 2 1/2 day Trauma Nurse Core Course (TNCC) in conjunction with a Combat Casualty Care Course (C4). The intent of the TNCC course is to enhance the nurses’ ability to assess, rapidly and accurately, the patient’s responses to the trauma event. It is anticipated that the use of the knowledge and skills learned in the TNCC will ultimately contribute to a decrease in morbidity and mortality associated with trauma. The course provides the learner with cognitive knowledge and psychomotor skills. Participants receive continuing education credit hours for attendance.

**Special Information:** Course material will be mailed to students 30 days prior to class start date. After receipt of their material, students are expected to review and read the course content prior to their arrival. Students who receive material and cancel prior to course attendance must return all material to student registration within 10 days of cancellation.

This course can be taken multiple times as needed for certification. Continuing Education Credits are granted for this class. Course specific information can be obtained at DSN: 471-0107/0781 or COMM: 210-221-0107/0781.
JOINT OPERATIONS MEDICAL MANAGERS

School Location Code: 767

Description: The Joint Operations Medical Managers Course is a joint service, multinational, continuing medical education course designed for medical department officers to function in management and leadership roles in a combat or Sustainment and Stability Operations (SASO) Health Service Support facility. Core competencies are necessary to function in such positions are covered during the week of instruction. Lectures relate to a joint health service support practical exercise involving operational management and planning tools. The exercise involves a time-lined interactive practical scenario that reinforces the learned objectives and applies them in a participant format. Presentations by former medical deployment commanding officers, Joint Task Force Surgeons and Subject Matter Experts on Joint Medical Operations Planning.

Special Information: Reservations must be made on the ATRRS at least 30 days prior to course report date in order to receive the pre-course information letter. Orders must reflect the city the course is held (the course is conducted at an off-post hotel). Students are encouraged to report/check-in at the hotel no later than 1700 the day preceding the course start date. Available transportation includes: taxi or Star Shuttle services from the airport. Do not plan to depart prior to 1700 on the last day of class. Uniform requirements: Army, Class B; Air Force, Class B, Navy, Khaki/Seasonal. ACU'S, BDU'S and ABU'S are not authorized. Others: Class B equivalent.

This course is taught in 5 continuous days. Course goes beyond normal training day to meet training needs. For Additional information go to DMRTI's website, http://www.dmrti.army.mil. Course specific info can be obtained at DSN 471-0107/0781 OR COMM: 210-221-0107/0781.

ADVANCED BURN LIFE SUPPORT

School Location Code: 767

Description: The DMRTI located at FSH, TX, provides a 1 day Advanced Burn Life Support (ABLS) Course in remote locations for AC and USAR personnel. The intent of the ABLS course is to enable each participant to define the magnitude and severity of injury, identify and establish priorities of treatment apply correct methods of physiologic monitoring and determine appropriate guidelines for transfer. During the didactic portion of the course, the basic concepts of assessing the magnitude and severity of injury and establishing a management treatment plan with correct physiologic monitoring are presented. Students participate in case study discussions and then work with simulated burn patients to reinforce these principles as well as patient transfer guidelines.

Special Information: Course material will be mailed to students 30 days prior to class start date. After receipt of their material, students are expected to review and read the course content prior to their arrival. Students who receive material and cancel prior to course attendance must return all material to student registration within 10 days of cancellation. This course can be taken multiple times as needed for certification. The CECs are granted for this class. Course specific information can be obtained at DSN: 471-0107/0781 or COMM: 210-221-0107/0781.
6A-C4C(ABLSIC)
ADVANCED BURN LIFE SUPPORT INSTRUCTOR CERTIFICATION

School Location Code: 767  Length: 1 day

Description: The ABLS Instructor Certification is a 1-day course conducted by the DMRTI at FSH, TX. The intent of this course is to enable the participant to identify teaching strategies to disseminate essential information and become certified instructors of ABLS.

Special Information: Course specific information can be obtained at DSN: 471-0107/0781 or COMM: 210-221-0107/0781.

6A-C4C(ATLSIC)
ADVANCED TRAUMA LIFE SUPPORT INSTRUCTOR

School Location Code: 767  Length: 2 days

Description: The ATLS Instructor is a 2-day course offered by the DMRTI, located at FSH, TX. The intent of this course is to enable the participant to identify teaching strategies and become certified as an instructor for ATLS.

Special Information: Course material will be mailed to students 30 days prior to class start date. After receipt of their course material, students are expected to review and read the course content prior to their arrival. Students who receive material and cancel prior to course attendance must return all material to DMRTI's student registration within 10 days of cancellation. The CECs are granted for this class. Certification is good for 4 years upon completion. This course can be taken multiple times as needed for certification. Course specific information can be obtained at DSN: 471-0107/0781 or COMM: 210-221-0107/0781.

6A-C4C(PHTLS)
PRE-HOSPITAL TRAUMA LIFE SUPPORT

School Location Code: 767  Length: 3 days

Description: The DMRTI located at FSH, TX provides the Pre-Hospital Trauma Support (PHTLS) course which is based upon the ATLS course for physicians developed by the Committee on Trauma of the American College of Surgeons. Students’ participant in an intensive 2-1/2 day experience with lecture and skill stations content to identify the need for life saving interventions for the multisystem trauma patient. The intent is to provide the student with a specific body of knowledge related to the pre-hospital and care of the trauma patient. The course includes practical exercises and examinations, which reinforce the material presented in the lecture and practical sessions.

Special Information: Course material will be mailed to students or to the sponsoring/host unit 30 days prior to class start date. After receipt of their material, students are expected to review and read the course content prior to their arrival. Students who receive material and cancel prior to course attendance must return all material to student registration within 10 days of cancellation. This course can be taken multiple times as needed for certification. CECs are granted for this class. Course specific information can be obtained at DSN: 471-0107/0781 or COMM: 210-221-0107/0781.
6A-C4C(PHTLSIC)
PRE-HOSPITAL TRAUMA LIFE SUPPORT INSTR COURSE

School Location Code: 767 Length: 1 day

Description: The PHTLSIC is a 1 day course offered by the DMRTI, located at FSH, TX. The intent of the PHTLSIC is to provide an intensive 8 hour course for those individuals who have already successfully completed a PHTLS provider course. It is designed to train instructor candidates for conducting provider and refresher courses on the latest educational philosophies and techniques.

Special Information: Course material will be mailed to students 30 days prior to class start date. After receipt of their course materials, students are expected to review and read the course content prior to their arrival. Students who receive material and cancel prior to course attendance must return all material to DMRTI's student registration within 10 days of cancellation. Course specific information can be obtained at DSN: 471-0107/0781 or COMM: 210-221-0107/0781.

6A-C4C(TNCC)
TRAUMA NURSING CORE COURSE

School Location Code: 767 Length: 3 days

Description: The DMRTI located at FSH, TX provides a 2-1/2 day course to reserve units as needed. The intent of the TNCC course is to enhance the nurse's ability to assess, rapidly and accurately, the patient's responses to the trauma event. It is anticipated that the use of the knowledge and skills learned in the TNCC will ultimately contribute to a decrease in morbidity and mortality associated with trauma. The course provides the learner with cognitive knowledge and psychomotor skills. Participants receive CE credit hours for attendance.

Special Information: Course material will be mailed to students 30 days prior to class start date. After receipt of their material, students are expected to review and read the course content prior to their arrival. Students who receive material and cancel prior to course attendance must return all material to student registration within 10 days of cancellation. This course can be taken multiple times as needed for certification. The CECs are granted for this class. Course specific information can be obtained at DSN: 471-0107/0781 or COMM: 210-221-0107/0781.

6A-C4C(TNCIC)
TRAUMA NURSING CORE CRS INSTR CERT

School Location Code: 767 Length: 1 day

Description: This course is 1-day in length offered by the DMTRI at FSH, TX. It emphasizes selected teaching strategies, appropriate evaluation methods and review of administrative procedures. This course provides a standard for all instructors of the TNCC and constitutes one element of the quality control program associated with the National Emergency Nurses Association Trauma Nursing Core Course.

Special Information: Course material will be mailed to students 30 days prior to class start date. After receipt of their course material, students are expected to review and read the course content prior to their arrival. Students who receive material and cancel prior to course attendance must return all material to DMRTI's student registration within 10 days of cancellation. Course specific information can be obtained at DSN: 471-0107/0781 or COMM: 210-221-0107/0781.
**6A-F14**  
**EMERGENCY WAR SURGERY COURSE**

**School Location Code:** 767  
**Length:** 3 days

**Description:** The course is divided into 50 percent didactic classroom lectures and 50 percent laboratory practicum. The trauma lectures cover various aspects of military field trauma including head and neck, ophthalmologic injuries, orthopedic, urologic, thoracic and abdominal trauma. Each of these topics is re-explored in several labs where the participants practice surgical procedures on human cadavers and animal models. A military style mass casualty exercise is interspersed throughout the course including 15 trauma patients who require appropriate triage and treatment. Each student must render a quick judgment and implement appropriate therapy. The course instructors (all certified ER physicians or general surgeons) will correct and assist students to gain a better understanding of surgical treatment in a field environment. The course content has been standardized among the three services by mutual agreement and sharing of curriculum. The Extremity War Surgery Course curriculum is contained in day 3 of the course.

**Special Information:** Required for DoD surgeons, surgical subspecialties and orthopedic surgeons. Optional for the other deployable DoD physicians, PAs and anesthetists. Course specific information can be obtained at DSN: 471-0107/0781 or COMM: 210-221-0107/0781.

---

**6A-F24/300-F43**  
**MEDICAL STABILITY OPERATIONS COURSE**

**School Location Code:** 767  
**Length:** 3 days

**Description:** This is a 3 day course designed to assist military and DoD healthcare personnel in the strategic, operational, and tactical aspects of planning, providing, and transitioning medical support throughout all phases of conflict and across the range of military operations.

**Special Information:** Course specific information and enrollment procedures can be obtained by contacting the DRMTI at 210-221-0107.

---

**6A-F25**  
**PUBLIC HEALTH EMERGENCY MANAGEMENT COURSE**

**School Location Code:** 767  
**Length:** 1 week

**Description:** This course is a standardized, joint course that will ensure that Public Health Emergency Officers and MTF Emergency Managers can operate in a variety of environments including other service's installations and facilities.

**Special Information:** Course specific information and enrollment procedures can be obtained by contacting the DRMTI at 210-221-0107.

---

**6A-F26**  
**FCC/PRC BASIC OPERATIONS COURSE**

**School Location Code:** 767  
**Length:** 3 days

**Description:** The FCC/PRC Basic Operations Course is a 3 day, mid-level course that provides essential training on reception operations conducted under the VA-DoD Contingency Plan and under the National Disaster Medical System.
**Special Information:** Course specific information and enrollment procedures can be obtained by contacting the DRMTI at 210-221-0107.

**6A-F8**  
**MILITARY MEDICAL HUMANITARIAN ASSISTANCE**  
**School Location Code:** 767  
**Length:** 2 days

**Description:** Military operations other than war are now the most frequent operational deployments and military leadership considers our ability to function in these settings as "Essential Capability" of the Armed Forces in the next century. Yet little formal training has been developed to help prepare military physicians for work in the post-disaster/post-war setting in the developing world. These environments offer unique medical and logistical challenges including often-overwhelming primarily pediatric medical casualties and severely limited health resources.

**Special Information:** Course specific information can be obtained at DSN: 471-0107/0781 or COMM: 210-221-0107/0781.
The Staff and Faculty Development Division provide professional development training opportunities for US AMEDDC&S staff and faculty through both innovative and traditional training programs.

**2G-F92/521-F77**  
**CADRE TRAINING**

**Location School Code: 081**  
**Length: 1 week**

**Description:** The TRADOC IET Cadre Training course is a mandatory resident course designed to familiarize cadre with the IET environment, organization, policies and procedures, leadership training, evaluation, performance management, and administration.

**Special Information:** Students need to have their own transportation while attending this course. Dining facilities are not within walking distance of billets; post transportation is insufficient to support mess requirements.

**5K-F3/520-F3**  
**INSTRUCTOR TRAINING COURSE**

**Location School Code: 081**  
**Length: 2 weeks**

**Description:** Emphasis is placed on the Systems Approach to Training process, learning processes and theory, communication skills, classroom technology, designing and developing lesson plans, writing test items, and presenting instruction.

**Special Information:** There is no special information available at the time of this publication; please review ATRRS at [https://www.atrrs.army.mil/](https://www.atrrs.army.mil/) for updated information.

**5K-F4/520-F4(RITMS)**  
**RESIDENT INDIVIDUAL TNG MGT SYSTEM (RITMS)**

**Location School Code: 081**  
**Length: 1 day**

**Description:** This course is expressly designed for course developers and instructors/trainers who have administrative duties registering students in courses at the AMEDDC&S and/or work with other databases such as ASAT and ATRRS.

**Special Information:** There is no special information available at the time of this publication; please review ATRRS at [https://www.atrrs.army.mil/](https://www.atrrs.army.mil/) for updated information.

**5K-F5/520-F5**  
**TRAINING PROGRAM MANAGERS COURSE**

**Location School Code: 081**  
**Length: 2 days**

**Description:** The course provides information on management systems which have an impact on the Training Requirements Analysis System, the Requirements Execution System and new initiatives. The course is expressly designed for key personnel who have responsibilities for management of training development activities.

**Special Information:** There is no special information available at the time of this publication; please review ATRRS at [https://www.atrrs.army.mil/](https://www.atrrs.army.mil/) for updated information.
5K-F6/520-F6
SMALL GROUP INSTRUCTOR TRAINING

Location School Code: 081  
Length: 1 week

Description: The Small Group Instructor Training course is a 5-day (40-hours) training program. The course covers group member roles/responsibilities, communication issues, learning in groups, group development concepts, effects of feedback and disclosure, and small group instruction methodologies.

Special Information: There is no special information available at the time of this publication; please review ATRRS at https://www.atrrs.army.mil/ for updated information.

9E-F7/012-F35
SUPPORT CADRE TRAINING

Location School Code: 081  
Length: 2 days

Description: The TRADOC IET Support Cadre Training Course is a mandatory resident course designed to familiarize and assist all brigade/Bn./company staff section NCOs and Soldiers, military IET instructors, DoD/DAC IET primary instructors, contracted civilian IET primary instructors, unit armorers, unit supply personnel and Recruiting Bn. processing NCOs. The course provides them with appropriate information on IET Cadre Training Programs and individual training in selected subjects and skills. It also assists them with understanding the IET environment, organization, policies and procedures, leadership training, evaluation, performance management, and administration.

Special Information: Course managers and instructors at the authorized training sites, must submit an exception to policy to the proponent for any deviations that may alter the quality of training (i.e., instructor-to-student ratio, training schedules, etc).

9E-F8/012-F36
INSTALLATION STAFF AND CONTRACTORS

Location School Code: 081  
Length: 1 day

Description: The Initial Entry Training Installation Staff & Contractors Training Course (IET ISCTC) is a functional course providing personnel who in the execution of their duties, come into daily or frequent contact with IET Soldiers. This training is specifically designed to prepare them for the challenges encountered in the environment.

Special Information: There is no special information available at the time of this publication; please review ATRRS at https://www.atrrs.army.mil/ for updated information.
The USASAM operates the Army’s only training hypobaric or altitude chamber and DoD Aeromedical Psychology courses. All Army Flight Surgeons, Aeromedical Physician Assistants, Flight Medics, and Aeromedical Evacuation Officers receive their training at USASAM. Concurrently, USASAM provides initial and sustainment training in 32 TRADOC, US Army Safety Center and School of the Americas POI for both fixed and rotary wing students. Subjects include a variety of Aeromedical Training areas such as Noise, G-forces, Altitude Physiology, Vibration, Night Vision, Hypoxia, and Spatial Disorientation.

### 2C-F7/300-F10
**MEDICAL EVACUATION DOCTRINE**

**Location School Code:** 871  
**Length:** 2 weeks

**Description:** This course provides the knowledge and skills to effectively employ the Health Service Support (HSS) system in support of a combat maneuver brigade and the Operational Environment (OE) in full spectrum operations (conventional offensive and defensive campaigns as well as Stability and Civil Support Operations and the continuum of Operations, Joint and Multinational Operations IAW current doctrine). Employ the evacuation and treatment capabilities, the evacuation system, and medical regulating from the point of injury to the Echelons Above Care (EAC). Upon receiving the knowledge and skills personnel will be able to effectively brief an evacuation mission to include airspace command and control (A2C2), medical asset management, and risk mitigation for HSS in the theater of operations.

**Special Information:** Warrant officer aviators may be awarded "D" SQI or "H4" ASI to MOS by their career management authority upon completion of this course IAW AR 611-1, para 5-10, and AR 611-21, para 8-21d. Course specific information can be obtained at COMM: 334-255-7449. Alternate: COMM: 334-255-7615.

### 2C-F9/300-F9
**HYPOBARIC CHAMBER TRAINING**

**Location School Code:** 871  
**Length:** 2 days

**Description:** The course covers effects of atmospheric pressure change, altitude chamber orientation of the oxygen systems, and a chamber exposure at altitude experiencing the effects of hypoxia and limitations of night vision due to oxygen deprivation.

**Special Information:** All graduates are strongly encouraged to remain overnight before traveling, due to the remote possibility of contracting decompression sickness from the chamber exposure. It is absolutely necessary that the trainee not perform any kind of physical exercise, consume alcohol, or fly at least 12 hours after the chamber exercise. Service members, FAA, and civilian trainee activities will be limited to meals, academics, and sleep.

### 2C-F11
**AEROMEDICAL EVACUATION OFFICER PRE-COMMAND**

**Location School Code:** 871  
**Length:** 1 week 4 days

**Description:** Update command selectees on MEDEVAC doctrine, refresh selectees on issues of training management, organizational capabilities, branch perspectives, trends and policies.

**Special Information:** There is no special information available at the time of this publication; please review ATRRS at [https://www.atrrs.army.mil/](https://www.atrrs.army.mil/) for updated information.
300-F3
AMEDD AVIATION CREWMEMBER

Location School Code: 871

Length: 4 weeks

Description: This course provides training on the basics of Army Aviation, with emphasis on the Army aircrew program. Training will focus on aeromedical training subjects to include aircrew coordination, aviation safety, aviation life-support, survival education, water survival, and aircrew training for the H-60 series helicopter. Using state-of-the-art high fidelity simulations students experience working in and around Army aircraft and includes day and night operations, as well as the high performance hoist rescue operations, air ambulance operations, and the principles and practices of aeromedical evacuation concentrating on the roles and responsibilities of the medical crewmember.

Special Information: The USAR Soldiers apply via the A-1 application process at unit level. Active Army Soldiers submit a DA Form 4187 to HRC. All packets must include the following items: 1. Current NREMT-Paramedic certification (NRP), 2. Current BLS and ACLS cards. 3. Qualified Class 3 Flying Duty Medical Exam. 4. DA Form 705 with passing APFT within a 90 day period of the class start. 5. Applicants with a permanent profile (DA 3349) that require them to take an alternate aerobic event will submit a copy of their profile with their application to determine course eligibility (Commandant, USASAM will make the determination.) Additional course information can be found on the USASAM webpage. Visit http://www.cs.amedd.army.mil/usasam. Once reservation is confirmed, prospective students are asked to contact the staff at USASAM at COMM: 334-255-7448. DSN 558.

300-F4
FLIGHT MEDIC QUALIFICATION

Location School Code: 871

Length: 2 weeks

Description: This program will train, test, and certify medics in Pediatric Education for Pre-hospital Professionals (PEEP), Advanced Cardiac Life Support (ACLS), and International Trauma Life Support (ITLS). These certifications are key requirements in the application process for the F3 Additional Skill Identifier,

Special Information: Combat Aviation Brigades/Air Ambulance units with non-Flight Medic course graduates that need the required medical training certifications as described in MILPER Message Number 13-085, PROCEDURAL CHANGE FOR AWARDING ADDITIONAL SKILL IDENTIFIER (ASI) "F3", AEROMEDICAL EVACUATION (ROTARY WING), FOR NON-SCHOOL TRAINED PERSONNEL, issued 2 April 2013. Combat Aviation Brigades/Air Ambulance units will establish an OML. The OML must ensure priority of training during the MTT accreditation training goes to non-Flight Medic course graduates (course number 300-F6, school 871) assigned to Air Ambulance Flight Medic positions. For information on ASI F3 Medical Accreditation and to request a MTT for ASI F3 Medical Accreditation training contact USASAM Operations (334) 255-7365/7461/, DSN 558, USASAM, FT. Rucker, AL. 36362. Additional information can be obtained by visiting the USASAM website at http://www.cs.amedd.army.mil/usasam/.

300-F6 (DL)
FLIGHT MEDIC PHASE 1

Location School Code: 871

Length: 12 weeks

Description: This course covers the skills and knowledge in areas of Aeromedical and Aviation subjects in order to manage and care for a critically ill or wounded casualty on a medical evacuation aircraft platform. Medical skill competencies are at the EMT-I/P level. All tasks encompass skill levels 1, 2, 3, and 4 Soldiers.
This course is broken into two phases. Phase 1 is a dL course covering 33 hours of aeromedical and aviation subjects relevant to performing tasks required by a Flight Medic during phase 2 of the Flight Medic course. Phase 2 covers the skills and knowledge in areas of International Trauma Life Support (ITLS), Advanced Cardiac Life Support (ACLS), Pediatric Education for Prehospital Professionals (PEPP), critical care management of a patient, management and care of a critically ill or wounded casualty in a medical evacuation aircraft platform.

Special Information: Students must see Unit ATRRS Representative to enroll in this course. Students will enroll into the phase 1 (dL phase) of the Flight Medic Course through ATRRS. Once the student has successfully completed the post-test a downloadable phase 1 course completion certificate must be printed. Students cannot be entered into phase 2 through ATRRS until phase 1 has been completed. Students must attend phase 2 within 1 year of completion of the dL phase; otherwise, re-enrollment in phase 1 will be necessary.

The USASAM website [http://usasam.amedd.army.mil/](http://usasam.amedd.army.mil/) is accessible with a wide variety of information pertaining to the course and the follow on training for phase 2. Any questions or concerns can be addressed by calling COMM: 334-255-7463/7466/7372 or DSN: 558-7463/7466/7372 or email at usasam.fmc@se.amedd.army.mil.

A student must be enrolled through ATRRS to take this course. Once enrolled through ATRRS for the 300-F6, Flight Medic course, student will contact the staff at usasam.fmc@amedd.army.mil. Students must have completed phase 1 (dL) at least 30 days prior to the course report date and no more than 1 year before resident training. Completion of the phase 1 (dL) portion of the course is a prerequisite for phase 2. Completion of phase 1 is accomplished by passing a comprehensive exam.

300-F6
FLIGHT MEDIC PHASE 2

Location School Code: 871 Length: 5 weeks

Description: This course covers the skills and knowledge in areas of Aeromedical and Aviation subjects in order to manage and care for a critically ill or wounded casualty on a medical evacuation aircraft platform. Medical skill competencies are at the EMT-I/P level. All tasks encompass skill levels 1, 2, 3, and 4 Soldiers. This course is broken into two phases. Phase 1 is a dL course covering 33 hours of aeromedical and aviation subjects relevant to performing tasks required by a Flight Medic during phase 2 of the Flight Medic Course. Phase 2 covers the skills and knowledge in areas of International Trauma Life Support (ITLS), Advanced Cardiac Life Support (ACLS), Pediatric Education for Prehospital Professionals (PEPP), critical care management of a patient, management and care of a critically ill or wounded casualty in a medical evacuation aircraft platform.

Phase Scope: This phase of the course covers the skills and knowledge in areas of International Trauma Life Support (ITLS), Advanced Cardiac Life Support (ACLS), Pediatric Education for Prehospital Professionals (PEPP), critical care management of a patient, management and care of a critically ill or wounded casualty in a medical evacuation aircraft platform. Medical skill competencies are at the EMT-I/P level. All tasks encompass skill levels 1, 2, 3, and 4 Soldiers.

Special Information: Report date for this course is on a Sunday and start date for course curriculum items is on Monday. The AA Soldier must request training by submitting a DA Form 4187 to HRC. A copy of the following items must be included with the DA Form 4187: 1. Current NREMT Certification (EMT-B/I/P). 2. Current Basic Life Support Certification. 3. Current and qualified Class 3 Flying Duty Medical Examination.
4. ERB. 5. DA Form 705 within 90 days of attending the course. Soldiers welcome packet and information about the course can be found at [http://usasam.amedd.army.mil](http://usasam.amedd.army.mil). Soldiers holding an Additional Skill Identifier (ASI) of M3, M6, N3, N9, P1, P2, P3, or Y6 are not eligible to attend this training. The SGTs in a promotable status must be on assignment to a SSG position and have an approved grade waiver.

A student must be enrolled through ATRRS to take this course. Once enrolled through ATRRS for the 300-F6, Flight Medic Course, a student will contact the staff at usasam.fmc@amedd.army.mil. Students must have completed phase 1 (dL) at least 30 days prior to the course report date and no more than 1 year before resident training. Completion of the phase 1 (dL) portion of the course is a prerequisite for phase 2. Completion of phase 1 is accomplished by passing a comprehensive exam. Course specific information can be obtained at DSN: 558-7463/7448 or COMM: 334-255-7463/7448.

**300-F23**

**ARMY AVIATION MEDICINE CLINIC NCO COURSE**

**Location**: School Code: 871

**Length**: 2 weeks

**Description**: This course covers Army regulatory guidance for Aviation Medicine, the Aviation Medicine Program, Army flight surgeon responsibilities and procedures, Army flying duty medical exam administration, Army Aviation organization and operations, and clinic practicums. In an academic and clinical environment, this course strives to provide the essential administrative and clerical aspects unique to Aviation Medicine to facilitate the clinic NCO in the practice of Aviation Medicine.

**Special Information**: The USAR Soldier submits DA Form 1058 to CDR, ARPERCEN, ATTN: DARP-OPS-TM, 9700 Page Blvd., St. Louis, MO 63132-5200, COMM: 800-325-2513 or DSN: 892-2066.

The US ARNG Soldier submits NGB Form 64 through your individual unit to State Plans Operations and Training Officer. For further assistance, call COMM: 703-607-7349 or DSN: 327-7349.

All students must arrive with documentation of a current security clearance as well as current HIPAA training certificate.

For further assistance, contact the Course Director/NCOIC at DSN: 558-7306/7448/7467, COMM: 334-255-7306/7448/7467. The RC send requests through normal command channels/unit training officers. Course specific information can be obtained at DSN: 558-7372/7634 OR COMM: 334-255-7372/7634.

**6A-61N9D**

**USA FLIGHT SURGEON (PRIMARY)**

**Location**: School Code: 871

**Length**: 6 weeks

**Description**: The course covers Army regulations pertaining to aviation medicine, Army flight surgeon responsibilities and procedures, Army flying duty medical exam administration, Army aviation organization and operations, rotary wing aerodynamics, aviation safety, aircraft accident investigation, flight physiology, aviation medicine issues of clinical specialties, health service support of aviation units and operations, aeromedical evacuation, and deployment medicine issues of the aviation operation environment.

**Special Information**: The MC officer qualified to attend should enroll in course 6A-61N9D. The PAs qualified to attend should enroll in course 6A-61N9D(65DM3). The AN officers qualified to attend should enroll in course 6A-61N9D(66PN1).
Report date for this course is on a Sunday and start date for course curriculum items is on Monday. Administrative time in the POI exceeds the normal 4 hours per week (or 10 percent of total course hours). For course application refer to DA Pam 351-4.

The AC Soldiers send request to HRC branch managers and submit the application to the following address: CDR, HRC Health Services Division, ATTN: TAPC-OPH-MC, 200 Stovall St., Alexandria, VA 22332-0417. COMM: 703-325-2347/2341 or DSN: 221-2347/2341. For further assistance, contact the course director/NCOIC at COMM: 334-255-7306/7448/7467 or DSN: 558-7306/7448/7467. The RC Soldier should send requests thru normal command channels/unit training officers.

USA FLIGHT SURGEON (NURSE CORPS)

**Location School Code:** 871  
**Length:** 6 weeks

**Description:** The course covers Army regulations pertaining to aviation medicine, Army flight surgeon responsibilities and procedures, Army flying duty medical exam administration, Army aviation organization and operations, rotary wing aerodynamics, aviation safety, aircraft accident investigation, flight physiology, aviation medicine issues of clinical specialties, health service support of aviation units and operations, aeromedical evacuation, and deployment medicine issues of the aviation operation environment.

**Special Information:** The AN officers qualified to attend should enroll in course (6A-61N9D) (66PN1). The PA's qualified to attend should enroll in course 6A-61N9D(65DM3). The MC officers qualified to attend should enroll in course 6A-61N9D.

Report date for this course is on a Sunday and start date for course curriculum items is on Monday. Administrative time in the POI exceeds the normal 4 hours per week (or 10 percent of total course hours). For course application refer to DA Pam 351-4. Active Duty send request to HRC branch managers and submit the
application to the following address: CDR, HRC Health Services Division, ATTN: TAPC-OPH-MC, 200 Stovall St., Alexandria, VA 22332-0417 COMM: 703-325-2347/2341 or DSN: 221-2347/2341.

6A-61N9D(RC)(P1)
USA FLIGHT SURGEON (PRIMARY)(RC) PHASE 1

Location School Code: 871

Length: 3 weeks

Description: This course covers the basics of Army Aviation including aerodynamics, aircraft safety, and crew resource management, as well as Army regulations pertaining to Aviation Medicine, Army flight surgeon responsibilities and procedures, Army flying duty medical exam administration, Army Aviation organization and operations, rotary wing aerodynamics, aviation safety, aeromedical surveillance, and participation in the unit safety program. This course also serves to introduce working in and around Army aircraft to include day and night operations, as well as the principles and practices of aeromedical evacuation. This is a 6-week course that involves two separate phases of course lesson content. Each phase spans a 3-week time frame and approximately 120-hours of course instruction. Both of these phases will be taught at USASAM in conjunction with the Flight Surgeon Primary course, utilizing a large group instructional method of training.

Phase 1 of this course covers the basics of Army Aviation including aerodynamics, aircraft safety, and crew resource management. This phase also serves to introduce working in and around Army aircraft to include day and night operations. The principles and practices of aeromedical evacuation are trained during this phase as well.

Special Information: There is no special information available at the time of this publication; please review ATRRS at https://www.atr.rs.army.mil/ for updated information.

6A-61N9D(RC)(P2)
USA FLIGHT SURGEON (PRIMARY)(RC) PHASE 2

Location School Code: 871

Length: 3 weeks

Description: This course covers the basics of Army Aviation including aerodynamics, aircraft safety, and crew resource management, as well as Army regulations pertaining to Aviation Medicine, Army flight surgeon responsibilities and procedures, Army flying duty medical exam administration, Army Aviation organization and operations, rotary wing aerodynamics, aviation safety, aeromedical surveillance, and participation in the unit safety program. This course also serves to introduce working in and around Army aircraft to include day and night operations, as well as the principles and practices of aeromedical evacuation. This is a 6-week course that involves two separate phases of course lesson content. Each phase spans a 3-week time frame and approximately 120-hours of course instruction. Both of these phases will be taught at USASAM in conjunction with the Flight Surgeon Primary course, utilizing a large group instructional method of training.

Phase 2 of this course covers Army regulations pertaining to Aviation Medicine, Army flight surgeon responsibilities and procedures, Army flying duty medical exam administration, Army Aviation organization and operations, rotary wing aerodynamics, aviation safety, aeromedical surveillance, and participation in the unit safety program.

Special Information: There is no special information available at the time of this publication; please review ATRRS at https://www.atr.rs.army.mil/ for updated information.
6A-F1
ARMY AVIATION MEDICINE ORIEN

Location School Code: 871          Length: 2 weeks

Description: This course covers the Army Aviation Medicine Program, Army regulations pertaining to Aviation Medicine, the commander's and flight surgeon's responsibilities in the Aviation Medicine Program, Army flying duty medical examinations, aeromedical decision making, aeromedical standards, Aviation Medicine clinic organization and management, basic health records maintenance and the Aeromedical Electronic Resource Office.

This course is normally conducted in conjunction with the USA Flight Surgeon (Primary) course. When taught with the Flight Surgeon course, this course requires 2 training weeks. Completion of this course in conjunction with completion of a Flight Surgeon course in either the USN or USAF qualifies a medical officer as a USA Flight Surgeon. This course also serves as refresher training for Army Flight Surgeons who have not been performing Flight Surgeon duties for a period of over 5-years.

Special Information: The USAR submit DA Form 1058 to CDR, PERSCOM (see ATRRS). Flight Surgeons and aeromedical PAs must meet the requirements of AR 616-110 to include possessing a current and qualified Army Class 2 Flying Duty Exam in order to receive full credentialing and privileging actions. This exam must be completed IAW AR 40-501 and received by the approving authority: Army Aeromedical Activity, ATTN: MCXY-A, Fort Rucker, AL 36362, 30 days prior to course start date.

All students must arrive with documentation of a current security clearance as well as current HIPAA training certificate. For further assistance, contact the Course Director/NCOIC at DSN: 558-7306/7448/7467. The RC send requests through normal command channels/unit training officers. Course specific information can be obtained at DSN: 558-7372/7634 or COMM: 334-255-7372/7634.

6A-F12/300-F26
JOINT ENROUTE CARE COURSE (DL) PHASE 1

Location School Code: 871          Length: 4 weeks

Description: This course provides knowledge and skills necessary to manage critical care patients of all demographics during tactical operations on aeromedical rotary wing evacuation platforms, and prepares graduates to recognize and limit the stressors encountered in the transport environment.

Phase scope: This dL phase covers 33 hours of introductory aeromedical and aviation subjects relevant to performing tasks required during phase 2 of the Joint Enroute Care Course.

Special Information: Students must see Unit ATRRS Representative to enroll in this course. Students will enroll into the phase 1 (dL phase) of the Joint Enroute Care Course through ATRRS. Once the student has successfully completed the post-test a downloadable phase 1 course completion certificate must be printed. Students cannot be entered into phase 2 through ATRRS until phase 1 has been completed. Students must attend phase 2 within one year of completion of the dL phase; otherwise, re-enrollment in phase 1 will be necessary.

The USASAM website https://www.cs.amedd.army.mil/usasam/ is accessible with a wide variety of information pertaining to the course and the follow on training for phase 2. Any questions or concerns can be addressed by calling DSN: 558-7349/7457/7463/7372 or commercial at 334-255-7349/7463/7466/7372 or email at usasam.jecc@amedd.army.mil.
JOINT ENROUTE CARE COURSE PHASE 2

Location School Code: 871          Length: 2 weeks

Description: This course provides knowledge and skills necessary to manage critical care patients of all demographics during tactical operations on aeromedical rotary wing evacuation platforms, and prepares graduates to recognize and limit the stressors encountered in the transport environment.

Special Information: All personnel will be conducting over water survival training (Navy equivalent N7/N9). It is highly recommended that all personnel complete an approved swimming course taught in accordance with Red Cross or YMCA swimming standards prior to arrival. Additionally it is recommended that all personnel conduct survival swimming and floating training in full service specific combat uniform prior to attendance.

Active duty Navy Corpsmen and Nurses request training through the Navy Operational Medicine Institute (NOMI) located at NAS Pensacola, Florida. COMM: 850-452-2292. Request training for Naval Reservists through BUMED at 202-762-3399. Requests for waiver of a prerequisite must be addressed to Dean, USASAM, 301 Dustoff St., Fort Rucker, AL 36362-5377. Questions or concerns may be addressed by calling COMM: 334-255-7349/7464/7457/7460 or DSN: 558-7349/7464/7457/7460 or email at usasam.jecc@se.amedd.army.mil.

Navy personnel will be required to complete a flight physical and be cleared for flying duty prior to attendance. The USA and USAF personnel not currently on flight status must be cleared for altitude chamber and dunker training by a flight surgeon or diving medical officer. If one is not available in your area, bring your medical record with a CURRENT physical exam (within the last five years). USASAM staff physicians will be available to evaluate you for the necessary clearance as required.

AEROMEDICAL PSYCHOLOGY TRAINING

Location School Code: 871          Length: 3 weeks

Description: The course covers aviation medicine, flight psychology regulations, psychological issues of flight and combat, aircraft accident investigation, physiological effects of flight, experience a 25,000 foot altitude chamber flight, back seat flight time to include night vision goggles, and MEDEVAC hoist operations training.

Special Information: There is no special information available at the time of this publication; please review ATRRS at https://www.atrrs.army.mil/ for updated information.
The Medical Education and Training Campus (METC) became fully operational in September 2011. The METC consolidated the enlisted medical training programs of all branches of the military, providing instruction for a variety of medical specialists, such as combat medics, Navy corpsmen, radiology technicians, and biomedical equipment technologists. This listing is for Army courses taught at the METC campus.

300-F11
COMPUTER BASED MEDICAL SYSTEMS MAINTENANCE

Location School Code: 083 Length: 4 weeks

Description: This course provides advanced skills training for Advanced DoD Biomedical Maintenance personnel to include military and civilian members of the US Army. The course is 4 weeks in length and is conducted at the METC, FSH, TX. The course employs a combination of teaching methods: lecture/discussion (didactic), demonstration, interactive courseware, and performance. All blocks are group-paced. The course consists of basic and advanced computer troubleshooting and repair, fiber optic troubleshooting and repair, and local area network.

Special Information: Uniform requirement: Military personnel will wear the Battle Dress Uniform (BDU). Civilian personnel will wear the appropriate equivalent attire.

Course specific info can be obtained at COMM: 210-808-1295 METC or BMET 210-808-1876 or DSN 471-1295/1876.

300-F12
ADVANCE STERILIZATION SYSTEMS (USA)

Location School Code: 083 Length: 4 days

Description: This course provides advanced skills training for Advanced DoD Equipment Maintenance personnel to include military and civilian members of the USAF, AC, and USN. The course is 4-days in duration and is conducted at FSH, TX. The course employs a combination of teaching methods: lecture/discussion (didactic), demonstration, interactive courseware, and performance. The course is group-paced. The course consists of advanced laboratory systems anatomy and physiology, circuit analysis, troubleshooting and repair. Instructional sequence may vary from POI sequence because of equipment and space limitations. A field trip is optional (if applicable) at the discretion of the course staff.

Special Information: Uniform requirement: Military personnel will wear the BDU. Civilian personnel will wear the appropriate equivalent attire. As of 8/11/11-Course specific information can be obtained at COMM: 210-808-1295/4086 or DSN: 471-1295/4086.

300-F14A
RADIOGRAPHIC/FLUOROSCOPIC IMAGING SYSTEMS

Location School Code: 083 Length: 3 weeks

Description: The course is located at FSH, TX 78234.

Special Information: Course specific information can be obtained at COMM: 210-808-1295/4086 or DSN: 471-1295/4086 or BMET 210-808-1876 or DSN 471-1295/1876.
**300-F14B**
MAMMOGRAPHY IMAGING SYSTEMS (USA)

Location School Code: 083  
Length: 1 week 3 days

Description: This course is located at FSH, TX 78234.

Special Information: Course specific information can be obtained at COMM: 210-808-1295/4086 or DSN: 471-1295/4086 or BMET 210-808-1876 or DSN 471-1295/1876.

**300-F14C**
ULTRASOUND IMAGING SYSTEMS (USA)

Location School Code: 083  
Length: 1 weeks 2 days

Description: This course is located at FSH, TX 78234.

Special Information: Course specific information can be obtained at COMM: 210-808-1295/4086 or DSN: 471-1295/4086 or BMET 210-808-1876 or DSN 471-1295/1876.

**300-F15**
RADIOGRAPHIC ACCEPTANCE PROCEDURES (USA)

Location School Code: 083  
Length: 2 weeks 2 days

Description: This course provides advanced skills training for DoD Advanced Biomedical Equipment Maintenance personnel to include military and civilian members of USAF, AC, USN. The course is 12-days in duration and is conducted at FSH, TX. The course employs a combination of teaching methods: lecture/discussion (didactic) demonstration, interactive courseware, and performance. The course is group-paced. The course consists of analyzing and performing Pre-procurement and acceptance of advanced diagnostic imaging medical systems. Instructional sequence may vary from POI sequence because of equipment and space limitations. A field trip is optional (if applicable) at the discretion of the course staff.

Special Information: Uniform requirement: Military personnel will wear the BDU. Civilian personnel will wear the appropriate equivalent attire. Course specific information can be obtained at COMM: 210-808-1295/4086 or DSN: 471-1295/4086 or BMET 210-808-1876 or DSN 471-1295/1876.

**300-F16**
TELEMEDICINE (USA)

Location School Code: 083  
Length: 3 weeks

Description: This course provides advanced skills training for Advanced DoD Biomedical Equipment Maintenance personnel to include military and civilian members of USAF, AC, and USN. The course is 3-weeks in duration and is conducted at the DoD Biomedical Equipment Technician Training Facility, FSH, TX. The course employs a combination of teaching methods: lecture/discussion (didactic), demonstration, and performance. The course is group-paced. The course consists of clinical applications and components of Picture Archiving and Communication Systems (PACS) and Medical Diagnostic Imaging Systems (MDIS). After knowledge of systems operations are obtained, preventive maintenance inspections, calibrations, hardware and software troubleshooting and repair are covered. Instructional sequence may vary from POI sequence because of equipment and space limitations. A field trip is optional (if applicable) at the discretion of the course staff.
Special Information: Course specific info can be obtained at COMM: 210-808-1295/4086 or DSN 471-1295/4086 or BMET 210-808-1876 or DSN 471-1295/1876.

300-F17
BIOMEDICAL EQUIPMENT MAINTENANCE MGMT (USA)
Location School Code: 083  Length: 4 days
Description: This course provides advanced skills training for advanced DoD biomedical equipment maintenance personnel to include military and civilian members of the USAF, USA, and USN. The course is 3-weeks in duration and is conducted at FSH, TX. The course employs a combination of teaching methods: lecture/discussion (didactic), demonstration, and performance. The course is group-paced. The course consists of healthcare facility and biomedical management standards and guidance, quality assurance and risk management, and directives specific to each service specific portion. Instructional sequence may vary from POI sequence because of equipment and space limitations. A field trip is optional (if applicable) at the discretion of the course staff.

Special Information: Uniform requirement: Military personnel will wear the BDU. Civilian personnel will wear the appropriate equivalent attire. Course specific information can be obtained at COMM: 210-808-1295/4086 or DSN: 471-1295/4086.

300-68N10
CARDIOVASCULAR SPECIALIST PHASE 1
Location School Code: 083  Length: 22 weeks
Description: This two phased course is designed to provide the knowledge and skills required for performing duties and responsibilities as an MOS 68N, Cardiovascular Specialist. Phase 1 consists of 22-weeks of didactic study; phase 2 consists of 36-weeks of a Junior/Senior clinical training rotation at a designated military treatment facility. The junior portion is initial training in performing diagnostic tests utilizing echocardiographic and phonocardiographic equipment and related procedures. The senior portion stresses performance of all duties required in US Army non-invasive and invasive laboratories. Upon satisfactory completion of both phases of the training students are awarded MOS 68N, Cardiovascular Specialist.

Special Information: Soldiers scheduled to attend this training (with the exception of MOSs 68W, 68WM6 or 68C) will be scheduled to attend the 3-68-C10, Introduction to Basic Army Medicine Course. 300-68N10 is a two phased MOS producing course. Soldiers must successfully complete both phases to be awarded MOS 68N. All requests for waivers by Army personnel must be submitted to: CDR, AMEDDC&S, APPD, ATTN: MCCS-DE, 2377 Greeley Rd., Ste. A., FSH, TX 78234-7584 or by emailing APPD at APPD.ENLISTED@US.ARMY.MIL, COMM: 210-221-9963.

300-68U10
EAR, NOSE & THROAT (ENT) SPECIALIST PHASE 1
Location School Code: 083  Length: 7 weeks
Description: This two phased course is designed to provide highly trained and qualified MOS 68U, Ear, Nose, and Throat (ENT) Specialists. The course provides an introduction to the Ear, Nose and Throat services and clinical audiology services in support of the Army Hearing Program. This phase 1 training consists of 7-weeks of training conducted at the METC, FSH, TX. Phase 2 consists 7-weeks of clinical training at designated military treatment facilities. The total course length is 14-weeks, with three iterations conducted annually. Upon
successful completion of the course, graduates are awarded MOS 68U and are eligible to obtain certification as Occupational Hearing Conservationist through the Council for Accreditation in Occupational Hearing Conservation (CAOHC).

**Special Information:** Soldiers scheduled to attend this training (with the exception of MOSs 68W, 68WM6 or 68C) will be scheduled to attend the 3-68-C10, Introduction to Basic Army Medicine Course. 300-68U10 is a two phased MOS producing course. Soldiers must successfully complete both phases to be awarded MOS 68U.

All requests for waivers by Army personnel must be submitted to: CDR, AMEDDC&S, APPD, ATTN: MCCS-DE, 2377 Greeley Rd., Ste. A., FSH, TX 78234-7584 or by emailing APPD at APPD.ENLISTED@US.ARMY.MIL. COMM: 210-221-9963.

**300-68V20**

**RESPIRATORY SPECIALIST PHASE 1**

**Location** School Code: 083

**Length:** 28 weeks 2 days

**Description:** The IRTP is a two-phased Interservice Training Review Organization (ITRO) course. The program is designed to fill the needs of the USA, USN and, USAR components for highly qualified respiratory care practitioners.

Phase 1, USA and USAR only; general education courses. During the first eight weeks of the program, students will complete three credit hours of English Composition II, three credit hours of Social Studies, and three credit hours of College Math. Students who fail any of these courses will be re-evaluated by the program director or representative and a representative from Thomas Edison State College for further attendance in the program.

The following four weeks consist of general medical courses intended to prepare students without prior medical background for the subsequent respiratory care courses. The following 16 weeks consists of didactic training, conducted at the AMEDDC&S, FSH, TX.

**Special Information:** Interested applicants must submit an official college transcript to Military and Veterans Office, Thomas Edison State College, 101 W. State, Trenton, NJ 08608.

The USAR Soldiers will arrive at FSH with the following items MPRJ 201 file, Medical Record, Dental Record and complete basic clothing issue, to include running shoes. DoD civilians must be assigned to a MEDCEN or MEDDAC and that facility will incur all costs associated with TDY training and travel. The AC must utilize DA Form 4187 and include ERB, DA Form 2-1, and letters of recommendation from a physician or a certified therapist, and letters of commendation from the chain of command evaluating applicant's potential and ability to complete the training.

**300-68W10**

**HEALTH CARE SPECIALIST**

**School Location:** 083

**Length:** 16 weeks

**Description:** This course trains the 68W Health Care Specialist in skills necessary to become an effective Soldier and medical care provider. The student receives training in emergency care, evacuation, minor acute care, inpatient and outpatient care, and basic force health protection. The student receives specific training in combat and military operations other-than-war casualty care, tactical combat casualty care, medical care for patients exposed to weapons of mass destruction, CBRN, deployable medical systems, aircraft and ground
evacuation, and casualty triage and processing. The students are certified to the national standards of EMT-B. The students conduct rigorous and relevant training on 26 Warrior Ethos tasks and integrate tactical and technical skills through eight Warrior drills as part of the Army-wide IET sustainment training for Warrior skills to ensure survivability in the contemporary operating environment.

**Special Information:** Submit all requests for waivers to: CDR, AMEDDC&S, APPD, ATTN: MCCS-DE, 2377 Greeley Rd., Ste. A, FSH, TX 78234-7584.

**300-68Y10**

**EYE SPECIALIST PHASE 1**

**Location School Code:** 083  **Length:** 6 weeks

**Description:** This two phased course is designed to provide highly trained and qualified MOS 68Y, Eye Specialists. Instruction is given in the form of traditional classes, demonstrations, computer labs, and practical exercises.

Phase Scope: Phase 1 consists of 6-weeks of didactic training conducted at the METC, FSH, TX. The course provides a working knowledge of subjects necessary to provide full assistance to ophthalmologists and optometrists in military eye clinics. Didactic study includes: terminology, anatomy and physiology of the eye, pathological conditions, vision and diagnostic testing, sterilization of eye equipment and instruments, optical procedures, minor surgery, history taking, administrative procedures assisting medical doctors, management of supplies, and the ordering and safeguarding of medical records. Phase 2 consists of 7-weeks of OJT clinical training at designated military treatment facilities.

**Special Information:** Soldiers scheduled to attend this training (with the exception of MOSs 68W, 68WM6 or 68C) will be scheduled to attend the 3-68-C10, Introduction to Basic Army Medicine Course. 300-68Y10 is a two phased MOS producing course. Soldiers must successfully complete both phases to be awarded MOS 68Y. All requests for waivers must be submitted to: CDR, AMEDDC&S, APPD, ATTN: MCCS-DE, 2377 Greeley Rd., Ste. A., FSH, TX 78234-7584, or by emailing APPD at APPD.ENLISTED@US.ARMY.MIL, COMM: 210-221-9963.

**301-68D10**

**OPERATING ROOM SPECIALIST PHASE 1**

**Location School Code:** 083  **Length:** 9 weeks 1 day

**Description:** The 68D10, Operating Room Specialist Course is designed to provide the student with a working knowledge of principles of surgical technology practice, and the instruments, supplies, and equipment for surgical procedures. Phase 1 (9 weeks 1 day) didactic study includes: basic anatomy and physiology; vital signs, cardiopulmonary resuscitation; principles and methods of decontamination, sterilization and disinfection; storage and handling of sterile supplies; identification and care of surgical instruments, specialized equipment, sutures, needles, blades, linen, and corrosion-resistant metalware; duties of the scrub and circulating technician; principles and practices of sterile technique and standard precautions; transporting and positioning patients; operating room safety; handling of specimens, medications, dyes and hemostatic agents; and surgical specialties as they relate to selected surgical procedures. An FTX is also incorporated into the course. Phase 2 (10 weeks) is on-the-job training in the clinical environment. Total course length: 19 weeks 1 day. Upon successful completion of the course, graduates are awarded the 68D MOS.
Special Information: The USAR Soldiers will arrive at FSH with the following items MPRJ 201 file, Medical Record, Dental Record and complete basic clothing issue, to include running shoes. DoD civilians must be assigned to MEDCOM and unit commanders incur all TDY and travel costs associated with civilian training. The AC must utilize DA Form 4187 and include ERB, DA Form 2-1, and letters of recommendation from an Operating Room surgeon or nurse, and letters of commendation from the chain of command evaluating applicant's potential and ability to complete the training. ARNG and USAR SSGs' will receive a certificate of completion for attending this course, additional skill level 30 training is required to be awarded the MOS. Submit all requests for waivers to: CDR, AMEDDC&S, APPD, ATTN: MCCS-DE, 2377 Greeley Rd., FSH, TX 78234-7584.

302-68X10
BEHAVIORAL HEALTH SPECIALIST

Location School Code: 083

Description: The 68X10, Mental Health Specialist course is designed to provide the student with entry level knowledge, skills, and communication techniques required to assess/evaluate military personnel and their family members in need of mental health care; and provide communication techniques in the areas of human development, psychopathological disorders, psychological testing, consultation, interviewing, and counseling. The course combines didactic classroom instruction, closely supervised practical exercises, and an intensive closely supervised clinical practicum. Emphasis is on communication skills, psychological testing, assessment procedures, interviewing and counseling approaches. Upon successful completion of the course, graduates are awarded the 68X MOS.

Special Information: Submit all requests for waivers to: CDR, AMEDDC&S, APPD, ATTN: MCCS-DE, 2477 Greeley Rd., Ste. A, FSH, TX 78234-7584. COMPO 1 personnel can contact 210-221-9917, COMPO 2 210-221-9919, and COMPO 3 210-221-9929 for additional information.

303-68F10
PHYSICAL THERAPY SPECIALIST PHASE 1

Location School Code: 083

Description: This two phased course is designed to provide highly trained and qualified MOS 68F, Physical Therapy Specialists. The course provides an introduction to the delivery of physical therapy services in relation to other patient-oriented services. Phase 1 training consists of 18-weeks of didactic training conducted at the METC, FSH, TX; to include periodic clinical rotations at SAMMC. Phase 2 consists of 10 weeks of OJT clinical training at designated military treatment facilities. The total course length is 28 weeks, with three iterations conducted annually. Upon successful completion of the 303-68F10 course, students are awarded the MOS 68F. Standards for IMS will be implemented IAW AR 12-15. All actions concerning International Military Students will be coordinated with the IMS Office, Office of the Dean, AHS, IAW AMEDDC&S and FSH Regulation 351-12.

In Phase 1 training, students are instructed in the Physical Therapy mission and scope of practice, the mechanisms of normal movement and functions of the human body, and considerations of how these are altered in selected congenital, traumatic, and pathological conditions. Students are provided with a solid theoretical and basic science foundation in physical therapy techniques. The methods of physical assessment; the use of therapeutic exercise, physical agents, gait training and ambulation, and patient transfers; and the psychological impact of injury, disability, and rehabilitation are presented. Upon successful completion of all phases of this course, graduates are awarded MOS 68F.
Special Information: Soldiers scheduled to attend this training (with the exception of MOSs 68W, 68WM6 or 68C) will be scheduled to attend the 3-68-C10, Introduction to Basic Army Medicine Course. 303-68F10 is a two phased MOS producing course. Soldiers must successfully complete both phases to be awarded MOS 68F. All requests for waivers must be submitted to: CDR, AMEDDC&S, APPD, ATTN: MCCS-DE, 2377 Greeley Rd., Ste. A., FSH, TX 78234-7584, or by emailing APPD at APPD.ENLISTED@US.ARMY.MIL. COMM: 210-221-9963.

303-68L10
OCCUPATIONAL THERAPY SPECIALIST PHASE 1

Location School Code: 083 Length: 18 weeks

Description: This two phased course is designed to provide highly trained and qualified MOS 68L, Occupational Therapy Specialists. This course is designed to meet the standards of program approval established by the Accreditation Council for Occupational Therapy Education of the American Occupational Therapy Association. Graduates of this program are eligible to sit for national certification examination and qualify for the designation, Certified Occupational Therapy Assistant. Certification and licensure are mechanisms separate and unrelated to award of the MOS. Upon satisfactory completion of both phases of the training students are awarded MOS 68L, Occupational Therapy Specialist.

Phase 1 is 18 weeks and is conducted at the METC, FSH, TX. This phase consists of general knowledge of physical and behavioral sciences; a working knowledge of the principles, concepts, and skills utilized to assist the occupational therapist in the implementation of remedial health maintenance and prevention programs for psychiatric as well as physical disability patients. Phase 2 consists of clinical training at designated military treatment facilities. The total course length is 34 weeks.

Special Information: Soldiers scheduled to attend this training (with the exception of MOSs 68W, 68WM6 or 68C) will be scheduled to attend the 3-68-C10, Introduction to Basic Army Medicine Course. 303-68L10 is a two phased MOS producing course. Soldiers must successfully complete both phases to be awarded MOS 68L.

All requests for waivers by Army personnel must be submitted to: CDR, AMEDDC&S, APPD, ATTN: MCCS-DE, 2377 Greeley Rd., Ste. A., FSH, TX 78234-7584 or by emailing APPD at APPD.ENLISTED@US.ARMY.MIL. COMM: 210-221-9963.

304-68B10
ORTHOPEDIC SPECIALIST PHASE 1

Location School Code: 083 Length: 8 weeks

Description: This two phased course is designed to provide highly trained and qualified MOS 68B, Orthopedic Specialists. Instruction is given in the form of traditional classes, demonstrations, and practical exercises. The course provides the student with a general knowledge of anatomy and physiology, medical terminology, and the care and handling of orthopedic patients. In phase 2, students assist in the treatment of patients with orthopedic conditions and injuries, under the supervision of a/an Orthopedic Physician, Orthopedic Physician Assistant, or Podiatrist. Students also assist in minor surgery; fabricate, modify, and remove casts and splints; apply plaster and fiberglass casts and splints; perform traction procedures; and provide patient education on proper care and use of orthopedic appliances, soft goods, equipment and materials. Upon successful completion of the course, graduates are awarded MOS 68B.
Special Information: Soldiers scheduled to attend this training (with the exception of MOSs 68W, 68WM6 or 68C) will be scheduled to attend the 3-68-C10, Introduction to Basic Army Medicine Course. 304-68B10 is a two phased MOS-producing course. Soldiers must successfully complete both phases to be awarded MOS 68B.

All requests for waivers by Army personnel must be submitted to: CDR, AMEDDC&S, APPD, ATTN: MCCS-DE, 2377 Greeley Rd., Ste. A., FSH, TX 78234-7584 or by emailing APPD at APPD.ENLISTED@US.ARMY.MIL. COMM: 210-221-9963.

311-M2 CYTOTECHNOLOGY SPECIALTY

Location School Code: 083

Description: The course provides ongoing opportunities for the evaluation of cellular elements. Cells are derived from a variety of sources to include the female genital tract, the respiratory system, breast secretions, and body cavity effusions. Students learn to recognize normal, inflammatory, benign, and malignant conditions by analyzing cellular changes and to make initial judgments regarding etiology and severity of change. The course consists of a combination of didactic and clinical training. Progress during the course depends upon the understanding of concepts developed through the use of conferences, visual examples, and microscopic review. Upon successful completion of the course, graduates are awarded ASI M2 (Army), NEC 8505 (Navy).

Special Information: 1. Pregnancy is a precluding factor for eligibility for this program and for the Army, if the Soldier becomes pregnant while still in the course, the Soldier may be subjected to administrative separation IAW AR 623-200, Chap 11-3. 2. Course curriculum complies with requirements and recommendations of the American Society of Cytopathology and the Commissions on the Accreditation of Allied Health Education Programs (CAAHEP). 3. Training is available to USN personnel who meet or satisfy the course prerequisites and meet the service-specific requirements addressed in Navy CANTRAC. 4. Qualified DoD civilians assigned to MEDDACs and MEDCENs may apply to attend the course. The applicant's parent unit will incur all training costs. 5. Course graduates are eligible to receive baccalaureate degrees from regionally accredited colleges and universities upon course completion and are eligible to take the American Society of Clinical Pathologists Registry Examination in Cytotechnology. Upon successful completion of the course and meeting all Board of Registry requirements of the American Society of Clinical Pathologists (Cytotechnologists), the M2 ASI or the NEC 8505 will be awarded.

311-68H10 OPTICAL LABORATORY SPECIALIST

Location School Code: 872E

To provide necessary knowledge of ophthalmic optics, ocular anatomy and physiology, optical laboratory supply and administration, and optical laboratory procedures sufficient to completely fabricate and dispense prescription military eyewear in both fixed and field environments. Upon successful completion of the course, graduates will be awarded the 68H10 MOS. The ARNG and USAR NCOs will receive a certificate of completion for attending this course, additional skill level 30 training is required to be awarded the MOS.

Special Information: Course is conducted at the Tri-Service Optical School, (TOPS), Naval Ophthalmic Support and Training Activity, (NOSTRA), 160 Main Rd., Naval Weapons Station, Bldg. 1794, Yorktown, VA 23691-9984. Course is 23-weeks 3 days in duration. The AC utilize DA Form 4187 and include DA Form 2, DA Form 2-1, and letters of recommendation from the chain of command evaluating applicants potential and
ability to complete this course to CDR, HRC, 1600 Spearhead Division Ave, Fort Knox, KY 40122. A DA Form 1059 is issued to NCOs who attend the course. All requests for waivers must be submitted to CDR, AMEDDC&S, APPD, ATTN: MCCS-DE, 2377 Greeley Rd., Ste. A, FSH, TX 78234-7584.

**311-68K10**  
MEDICAL LABORATORY SPECIALIST PHASE 1

**Location School Code: 083**  
**Description:** The course provides graduates with technical skills necessary to achieve medical laboratory technician entry-level competencies, and meets basic personnel requirements of the Clinical Laboratory Improvement Amendments of 1988 and the DoD Clinical Laboratory Improvement Program. Graduates are qualified to take certification examinations as medical laboratory technicians. The 68K training program is 52-weeks, a phase 1 (26 weeks) resident portion at the METC, JBSA, and a phase 2 (26 weeks) clinical practicum conducted at military hospitals. Curriculum includes clinical chemistry, hematology, immunohematology, immunology, microbiology, parasitology, mathematics, and safety. Instruction during phase 1 is presented through conferences, discussions, case studies, demonstrations, practical exercises, and written and practical examinations. During phase 2, students achieve psychomotor proficiency through structured hands-on training in a clinical setting. Upon successful completion of the course, graduates are awarded MOS 68K10.

**Special Information:** The USAR Soldiers will arrive at FSH with the following items: MPRJ 201 file, Medical Record, Dental Record, and complete basic clothing issue, to include running shoes. This is an inter-service course and the Navy Enlisted Code (NEC) is 8506. The AC in-service Soldiers must submit DA Form 4187, ERB, DA Form 2-1, transcripts, letters of recommendations from the chain of command, and the laboratory officer evaluating applicant's potential and ability to complete this course to HRC. The USAR Soldiers apply via the A-1 application process. The ARNG and USAR SSGs' will receive a certificate of completion for attending this course, additional skill level 30 training is required to be awarded the MOS. Submit all requests for waivers to: CDR, AMEDDC&S, APPD, ATTN: MCCS-DE, 2377 Greeley Rd., Ste. A, FSH, TX 78234-7584.

**312-68Q10**  
PHARMACY SPECIALIST

**Location School Code: 083**  
**Description:** Entry level pharmacy technician training provides a working knowledge of drugs, their sources, preparation, uses, incompatibilities, and doses; pharmaceutical symbols and terms; drug storage and control procedures; dispensing procedures; interpretation of sterile product orders; use of necessary equipment, supplies, and references. Subjects include pharmacy administration, pharmaceutical calculations, chemistry, therapeutics, pharmacology, characteristics and design of an aseptic work environment, hospital pharmacy practices, quality control principles and procedures, pharmaceutical and sterile products preparation. Training is supervised by a pharmacy officer (AOC 67E) or Medical Corps Officer. The course also includes introductory and reinforcement defense training in Chemical, Biological, Radiological, Nuclear, and Explosives (CBRNE), to respond to terrorist threat or attack.

Conduct rigorous and relevant training on twenty-six Warrior Ethos tasks and integrate tactical and technical skills through nine warrior drills as part of the Army-wide AIT sustainment training for warrior skills to ensure survivability in the contemporary operating environment. Students will be awarded the 68Q MOS, upon successful completion of course.
Special Information: The USAR Soldiers will arrive at FSH with the following items MPRJ 201 file, Medical Record, Dental Record and complete basic clothing issue, to include running shoes. Active Army utilize DA Form 4187 and include DA Form 2A, DA Form 2-1, and letters of recommendation from the chain of command evaluating the Soldier's potential and ability to complete the course to CDR, PERSCOM TAPC-EPT-F, 2461 Eisenhower Ave. Alexandria, VA. 22331-0400. The ARNG and the USAR SSGs' will receive a certificate of completion for attending this course, additional skill level 30 training is required to be awarded the MOS. Requests for waiver must be submitted to: CDR, AMEDDC&S, APPD, ATTN: MCCS-DE, 2377 Greeley Rd., Ste. A, FSH, TX 78234-7584. Course is 19 weeks in duration. Note: This course is accredited by the American Society of Health Systems Pharmacists.

NOTE: High or college transcripts are required when reporting to the AMEDDC&S, so successful completion of required courses can be verified.

313-ASIM5
CLINICAL NUCLEAR MED SPECIALTY (68PM5)

Location School Code: 083  Length: 20 weeks

Description: Phase 1 (20 weeks): Conducted at METC, FSH; DoD proponent. Provides the basic knowledge and skills required to operate and maintain clinical nuclear medicine instrumentation and to perform computer analysis. This will enable SM to assist medical officers in preparing and conducting clinical nuclear medicine INVIVO and INVITRO procedures, and to assist in organizing and administering Nuclear Medicine Clinics. Includes instruction in basic and advanced technical mathematics, basic chemistry, radiation instrumentation and radiation physics. ASI awarded: M5 - in association with MOS 68P. Phase 2 (OJT) at various MEDCEN for Army students is 32-weeks. Total course length is 52-weeks. Upon successful completion of the course, graduates are awarded ASI M5.

Special Information: The DoD civilian must be assigned to an Army MEDCEN or MEDDAC, and that unit will incur all costs associated with this course. The AA and RC Soldiers utilize DA Form 4187, ERB, DA Form 2-1, letters of recommendation from the chain of command and Radiologist or Nuclear Medicine Science Officer evaluating applicant's potential and ability to complete this course. Submit all requests for waivers to: CDR, AMEDDC&S, APPD, ATTN: MCCS-DE, 2427 Hood St, FSH, TX 78234-7584.

313-68P10
RADIOLOGY SPECIALIST

Location School Code: 083  Length: 24 weeks

Description: Phase 1 (24 weeks): Provides skill and knowledge training in radiography principles, with emphasis on radiographic procedures, principles of radiographic exposure, radiation protection, imaging equipment and techniques, radiographic film processing, evaluation of radiographs, and quality assurance. Foundational didactics include radiation biology, radiation physics, human structure and function, medical terminology, concepts of patient care, radiographic pathology, medical ethics and law, the role of radiography in the health care delivery system, and computer literacy. This phase includes laboratory practical exercises designed to test the validity of theories and concepts presented in the classroom. Manual skills are developed, refined and evaluated prior to clinical application. Phase 2 (22 weeks): Applicatory clinical training under the supervision of qualified radiographers and radiologists at selected US Army medical facilities. Emphasis is to acquire competency in performing procedures/exams on actual sick and injured patients. Upon successful completion of the course, graduates are awarded MOS 68P.
Special Information: The RC Soldiers will arrive at FSH with the following items MPRJ 201 file, Medical Record, Dental Record and complete basic clothing issue, to include running shoes. DoD civilians must submit a DA1556 requesting attendance at this course. The unit of assignment for DoD civilians will incur all costs associated with attendance at this course. The AA and RC Soldiers must submit DA Form 4187, ERB, DA Form 2-1, transcripts, and letters of recommendations from the chain of command. The ARNG and USAR SSGs' will receive a certificate of completion for attending this course, additional skill level 30 training is required to be awarded the MOS. Submit all requests for waivers to: CDR, AMEDDC&S, APPD, ATTN: MCCS-DE, 2377 Greeley Rd., Ste. A, FSH, TX 78234-7584.

**322-68S10**  
PREVENTIVE MEDICINE SPECIALIST

**Location School Code: 083**  
**Length: 15 weeks**

**Description:** Inspect and evaluate sanitation and safety of living quarters, food service facilities, water supplies, industrial operations, and other facilities and operations as required. Evaluate adequacy of wastewater and solid waste disposal operations. Perform various entomological functions in support of insect and rodent control programs. Help collect data for communicable and occupational disease investigations. Upon successful completion of the course, graduates are awarded the 68S MOS.

Special Information: The RC Soldiers will arrive at FSH with the following items MPRJ 201 file, Medical Records, Dental Record with the following items MPRJ 201 file, Medical Record, Dental Record and complete basic clothing issue, to include running shoes. Waiver request must be submitted utilizing DA Form 4187 and include copies of their DA Form 2A (or ERB), DA Form 2-1, and any letters of recommendation from the chain of command. The ARNG and USAR SSGs' will receive a certificate of completion for attending this course, additional skill level 30 training is required to be awarded the MOS. Submit all requests for waivers to: CDR, AMEDDC&S, APPD, ATTN: MCCS-DE, 2377 Greeley Rd., STE A, FSH, TX 78234-7584. Note: It is recommended that the applicants complete a refresher course in biology or equivalent at any Army Education Center prior to attendance. It is also recommended that you have your official transcripts in hand upon reporting for training.

**322-N4**  
HEALTH PHYSICS SPECIALTY

**Location School Code: 081**  
**Length: 12 weeks 3 days**

**Description:** The Health Physics course covers the following points: conduction of radiation surveys of AMEDD facilities, ensuring that the workers' exposure is maintained in accordance with the principal of ALARA (As Low As Reasonably Achievable), the maintenance of records of worker radiation exposure history, the inspection of incoming shipments of radioisotopes to ensure safety, and the ensuring compliance with Nuclear Regulatory Commission license and DA radioisotope authorizations. Completion of this training results in the 68S ASI N4.

Special Information: The AA utilize DA Form 4187 and include DA Form 2A, DA Form 2-1, high school or college transcripts, and letters of recommendation evaluating the Soldiers potential and ability to complete this course. (Successful completion of the Basic Math and Science Test administered by Fort Belvoir, VA, is highly recommended prior to attendance). All requests for waivers must be submitted to: CDR, AMEDDC&S, APPD, ATTN: MCCS-DE, 2377 Greeley Rd., Ste. A., FSH, TX 78234-5052
326-F1
ADVANCED MEDICAL SYSTEMS (USA)

Location School Code: 083  
Length: 2 weeks

Description: This course is designed to provide refresher training for the 68A Biomedical Equipment Repairers on equipment not normally operated at a peacetime facility. It will provide training for personnel with pre-deployment and skill verification training. Topics will include medical maintenance and contingency operations, power requirements, environmental control, oxygen support systems, diagnostic support systems, therapeutic equipment, field communications, sterilizer/water recovery system and dental systems.

Special Information: Class is located at FSH, TX  78234. Course specific information can be obtained at COMM: 210-808-1295/4086 or DSN: 471-1295/4086.

326-F2
COMPUTED TOMOGRAPHY SYSTEMS (USA)

Location School Code: 083  
Length: 2 weeks

Description: This course is designed to provide refresher training for the 68A Biomedical Equipment Repairers on equipment not normally operated at a peacetime facility. It will provide training for personnel with pre-deployment and skill verification training. Topics will include medical maintenance and contingency operations, power requirements, environmental control, oxygen support systems, diagnostic support systems, therapeutic equipment, field communications, sterilizer/water recovery system and dental systems.

Special Information: As of 8/11/11-Course specific information can be obtained at COMM: 210-808-1295/4086 or DSN 471-1295/4086.

330-68E10
DENTAL SPECIALIST

Location School Code: 083  
Length: 8 weeks 2 days

Description: Provides the student with the skills necessary to perform tasks required of a dental assistant in the examination, care and treatment of dental diseases and disorders. Subjects include basic dental sciences, dental radiology, general duties, dental records, dental equipment (TDA & TO&E), and relevant training on Warrior Ethos tasks as part of the Army-wide AIT sustainment training for warrior skills to ensure survivability in the contemporary operating environment. Upon successful completion of the course, graduates are awarded the 68E10 MOS.

Special Information: The RC Soldiers will arrive at FSH with the following items MPRJ 201 file, Medical Record, Dental Record and complete basic clothing issue, to include running shoes. Serves as a prerequisite training for the 24-week Dental Laboratory Course, 331-N5 (ASI N5), the 12-week Preventive Dentistry Course, 330-X2 (ASI X2). The course is 7 weeks in duration. The AC applicants utilize DA Form 4187, DA Form 2 and 2-1, and recommendation from chain of command evaluating the Soldier's potential and ability to complete the course. The ARNG and USAR SSGs' will receive a certificate of completion for attending this course, additional skill level 30 training is required to be awarded the MOS.

Dental students should report to Charlie Company, 187th Medical Bn., Bldg. 2791, 2745 Harney Path, FSH, TX 78234. Submit application packet (DA Form 4187, Form 2 and 2-1, and commander's recommendation) through the appropriate channels to Commander, HRC, TAPC-EPT-F, 2461 Eisenhower Ave, Alexandria, VA 22331-

330-X2
PREVENTIVE DENTISTRY SPECIALTY

Location School Code: 081
Length: 12 weeks

Description: To provide the student with the necessary knowledge and skills to perform the duties of a Preventive Dentistry Specialist under the supervision of a Dental Corps Officer. Instructional objectives include, but are not limited to: performing oral hygiene prophylactic procedures; conducting individual oral disease control programs; applying pit and fissure sealants to the teeth; evaluating dental radiographs, and cleaning and sterilizing dental instruments and equipment.

Special Information: The RC Soldiers will arrive at FSH with the following items: MPRJ 201 file, medical record, dental record and complete basic clothing issue, to include running shoes. Students should report to C Company, 187th Medical Bn., Bldg. 2791, 2745 Harney Path, FSH, TX 78234. Submit application packet (DA Form 4187, Form 2 and 2-1, and commander's recommendation) through the appropriate channels to CDR, HRC, TAPC-EPT-F, 2461 Eisenhower Ave., Alexandria, VA 22331-0400. Request for waivers must be submitted to: CDR, AMEDDC&S, APPD, MCCS-DE, 2377 Greeley Rd., Ste. A, FSH, TX 78234-7584.

331-F1
ADVANCED DENTAL LABORATORY SPECIALTY

Location School Code: 083
Length: 3 weeks 2 days

Description: This course provides supplemental career training for dental laboratory technicians. Instruction includes studies of the fabrication of metal-ceramic substructures, color, porcelain application with emphasis on internal modifications, porcelain laminate veneers, pressable ceramics, and metal-free infiltration ceramics.

Special Information: Application procedures: Once the Training/Schools NCO submits the digital DA Form 4187 requesting the 331-F1 course (Air Force, MP, MI) DSN 221-4597-HRC-Specialized training/ASI/SQI/functional course manger will match the course description in ATRRS to the Air Force (ORACLE). The 331-F1 course scope mirrors the Air Force Advanced Porcelain Techniques course "J8AZR4Y072 00CB" https://etca.randolph.af.mil. Submit DA Form 4187, copies of DA Form 2 and 2-1, and a commander's recommendation through the appropriate channels to CDR, HRC, TAPC-EPT-F, 2461 Eisenhower Ave., Alexandria, VA 22331-0400. Requests for waivers must be submitted to CDR, AMEDDC&S, APPD, ATTN: MCCS-DE, 2377 Greeley Rd., Ste. A, FSH, TX 78234-7584.

Waxing and porcelain stacking kits are provided. Students are encouraged to bring their personal instruments, waxing/carving instruments, sculpting wax, finishing/polishing burs, brushes, diamonds, etc., along with porcelain stacking and finishing instruments.

1. Army enlisted Soldiers attending the course will receive TDY quarters in Bldg. 1600, Sheppard Inn. Soldiers will receive quarters after they have first reported to the course NCOIC. 2. Government transportation is not available for personnel not occupying government or government contract quarters. Students should be prepared to defray quarters and transportation expenses. 3. All enlisted students (including USAR and ARNG) must have a field jacket with liner during the period 1 October through 31 March. Cold weather clothing is not authorized. All enlisted Soldiers must bring equivalent of initial issue of military clothing, to include summer and/or winter APFT uniform(s). 4. Per Diem Restriction: Payable per joint travel regulation. 5. Reporting instructions are as follows: a. Report to the Army Dental Laboratory Course NCOIC on the first floor of Bldg. 1917 on Missile Rd
to sign in for billeting NET 0800 and NLT 1530, 1 day before class start date. b. At time of reporting, student must have a copy of the TDY orders authorizing attendance to the course and must be attired in the ACU. Course specific info can be obtained at DSN 471-1295 or COMM 210-221-1295.

331-N5
DENTAL LABORATORY SPECIALTY

Location School Code: 083

Description: This course provides selected AMEDD enlisted personnel with the skills and knowledge required to perform as a 68EN5. Academic subjects include basic dental sciences, basic dental laboratory procedures, complete dentures, removal partial dentures, fixed prosthodontics, and special prostheses. This course will provide a working knowledge of basic dental laboratory techniques as well as fabrication techniques for complete dentures, removable partial dentures, simple fixed prostheses, orthodontic retainers, and occlusal splints. It also provides a general knowledge of dental laboratory support in a field environment.

Upon successful completion of the course, graduates are awarded the 68EN5 ASI.

Special Information: The 331-N5 course is taught as a Tri-Service course conducted at FSH, TX. Students should report to C Company, 187th Medical Bn., Bldg. 2791, 2745 Harney Path, FSH, TX 78234. Submit application packet (DA Form 4187, Form 2 and 2-1, and CDR's recommendation) through the appropriate channels to CDR, HRC, TAPC-EPT-F, 2461 Eisenhower Ave., Alexandria, VA 22331-0400. Request for waivers must be submitted to: CDR, AMEDDC&S, APPD, MCCS-DE, 2377 Greeley Rd., Ste. A, FSH, TX 78234-7584.

4B-F2/198-68A10
MEDICAL LOGISTICS SPECIALIST

Location School Code: 083

Description: This training will consist of the skills and knowledge necessary to enable a unit level maintainer to perform medical equipment maintenance services characterized by: repair by module replacement, to include simple printed circuit board repair; the repair of general medical, dental, or optical equipment malfunctions; the adjustment of medical, dental, or optical equipment utilizing common and special purpose tools, and Test, Measurement, and Diagnostic Equipment (TMDE); and the performance of scheduled preventive maintenance checks and services (PMCS), calibration, verification, certification, (CVC) and electrical safety tests. Upon successful completion of the course, graduates are awarded MOS 68A.

Special Information: Active Army must utilize DA Form 4187 and include their ERB, DA Form 2-1, and letters of recommendation from the chain of command evaluating applicant's potential and ability to complete this course. Submit all waiver request to: CDR, AMEDDC&S, APPD, ATTN: MCCS-DE, 2377 Greeley Rd., Ste. A, FSH, TX 78234-7584. The RC Soldiers may be accessed into this program as IET.

513-68G10
PATIENT ADMINISTRATION SPECIALIST

Location School Code: 083

Description: Provides the knowledge and skills necessary to perform Patient Administration Specialist duties at fixed medical treatment facilities and field environments. Instruction is presented in these major areas: healthcare entitlements; admission and disposition procedures; medical records; automated healthcare
information systems; patient administration operations; medical terminology; anatomy and physiology; and
health service support and patient administration functions during combat/contingency operations. It includes
training in the procedures to safeguard privacy and ensure security of personal medical information IAW the
Health Insurance Portability & Accountability Act (HIPAA), and the management and monitoring of global
patient movement using the US Transportation Command (TRANSCOM) Regulating And Command & Control
Evacuation System (TRAC2ES).

It includes rigorous and relevant training on Warrior Ethos tasks that integrates tactical and 68G technical skills,
as part of Army-wide AIT sustainment training to ensure survivability in the contemporary operating
environment

Special Information: The RC Soldier will arrive at FSH with the following items: MPRJ 201 file, medical
record, dental record and complete basic clothing issue, to include running shoes. The AA must utilize DA
Form 4187 and include ERB, DA Form 2-1, and letters of recommendation from the chain of command
evaluating the applicant's potential and ability to complete this course. The AGRN and USAR SSGs must
complete both phase 1 and 2 to be awarded the MOS; Completion of NCOES for the 68G MOS is required.
Submit all requests for waivers to CDR, AMEDDC&S, APPD, ATTN: MCCS-DE, 2377 Greeley Rd. Ste. A,
FSH, TX 78234-7584.

551-68J10
MEDICAL LOGISTICS SPECIALIST
Location School Code: 083 Length: 6 weeks
Description: The course provides training in medical materiel procedures in TOE/TDA AMEDD units. Major
areas of concentration includes: medical publications and directives, medical materiel property control
procedures, medical materiel stock accounting procedures, medical materiel functions at the
organization/installation level, and the Army Physical Fitness Program. Methods of instruction include:
conferences, demonstrations and practical exercises. Upon successful completion of the course, graduates are
awarded MOS 68J.

Special Information: The RC Soldier will arrive at FSH with the following items: MPRJ 201 file, medical
record, dental record and complete basic clothing issue, to include running shoes. DoD civilians must submit a
DA1556 requesting attendance at this course. The unit of assignment for DoD civilians will incur all costs
associated with attendance at this course. The AC and RC Soldier must submit DA Form 4187, ERB, DA Form
2-1, and letters of recommendation from the chain of command. The ARNG and USAR SSGs’ will receive a
certificate of completion for attending this course, additional skill level 30 training is required to be awarded the
MOS. Submit all requests for waivers to: CDR, AMEDDC&S, APPD, ATTN: MCCS-DE, 2377 Greeley Rd.,
Ste. A, FSH, TX 78234-7584

800-68M10
NUTRITION CARE SPECIALIST
Location School Code: 083 Length: 7 weeks
Description: To train enlisted personnel in nutrition care operations to include basic nutrition concepts, clinical
nutrition concepts and functions, performance nutrition for Warriors, therapeutic and regular patient diet
preparation, assembly and service, and Army Medical Field Feeding concepts and functions in a mobile environment.

**Special Information**: The RC Soldier will arrive at FSH with the following items: MPRJ 201 file, medical record, dental record and complete basic clothing issue, to include running shoes. DoD civilians must submit a DA1556 requesting attendance at this course. The Unit of assignment for DoD civilians will incur all costs associated with attendance at this course. The AA and USAR Soldier must submit DA Form 4187, ERB, DA Form 2-1, transcripts, and letters of recommendations from the chain of command. The ARNG and USAR SSGs' will receive a certificate of completion for attending this course; additional skill level 30 training is required to be awarded the MOS. Submit all requests for waivers to: CDR, AMEDDC&S, APPD, ATTN: MCCS-D, Bldg. 2377 Greeley Rd., Ste. A, FSH, TX 78234-7584
